SUDBURY URBAN DISTRICT
OR
BOROUGH OF SUDBURY
IN THE ADMINISTRATIVE COUNTY OF WEST SUFFOLK

Annual Report of the Medical Officer of Health for 1952

TO the Mayor, Aldermen and Councillors of the Borough of Sudbury:—
Mr. Mayor, Ladies and Gentlemen,

I have the honour to present for your consideration, the Report on the Health and Sanitary Conditions of the Borough of Sudbury for the year 1952.

The statistics for the year reviewed show no trend of particular significance but the continued downward trend in the population residing in the borough will be noted.

The number of notifications received considerably increased. This was due almost entirely to an outbreak of infective jaundice.

Serious pollution of the River Stour caused the death of a large number of fish which had to be removed to prevent their becoming a nuisance.

The town was visited by the Mass Miniature Radiography Unit and the response by the townspeople in presenting themselves for examination has not been exceeded since.

I wish to to acknowledge with gratitude the support received from the Chairman and members of the Public Health Committee and to record my thanks to the Town Clerk, Mr. R. Coates, the Borough Surveyor, Mr. C. L. Heyne, and Sanitary Inspector, Mr. E. H. Kerridge for their co-operation during the year reviewed.

I have the honour to be, Ladies and Gentlemen,
Your obedient servant,

G. P. BARCLAY,
Medical Officer of Health.

SECTION B

A. WATER SUPPLY

An adequate supply of water has been maintained throughout the district. Quarterly bacteriological analyses have been taken, in all cases the results have been excellent. The samples were taken after chlorination, which is carried out as a precautionary measure only.

No chemical analysis was taken during the year. Owing to the extreme hardness of the water there is no danger from dissolved lead.

During the year the obsolete steam standby pump was replaced by new automatic electric turbine pump and new recording meters were installed at the reservoir.

B. SEWERAGE AND SEWERAGE DISPOSAL

A reasonably good effluent has been maintained throughout the year. Minor improvements were carried out to sludge drying beds and humus tanks.

SECTION C

1. PUBLIC HEALTH STAFF

Medical Officer of Health who also acts for other districts.
One Sanitary Inspector, Member of Sanitary Institute.

2. AMBULANCE FACILITIES

The West Suffolk County Council are responsible for the ambulance service which is carried on through the agency of the West Suffolk Branch of the British Red Cross Society.

3. NURSING IN THE HOME

The West Suffolk County Council's Home nursing and midwifery service supply two District Nurses.

4. INFANT WELFARE CENTRES

The West Suffolk County Council provide one centre in the town. A clinic is held weekly at the Youth Club premises, Stour Street, on Thursdays at 2 p.m.

5. HOSPITALS

St. Leonards.
