EAST HERTFORDSHIRE COMBINED DISTRICTS

REPORT OF THE MEDICAL OFFICER OF HEALTH

FOR THE YEAR 1971

WARE URBAN DISTRICT

P R E F A C E

To the Chairman and Councillors, Ware Urban District.

Mr. Chairman, Madam and Gentlemen,

I have the honour to present the Annual Report upon the health of Ware Urban District for the year ending 31st December, 1971.

During this year, there were a few justified complaints of smell from the tip in Gentlemen's Field, particularly during the hot summer months. In general, the tip conditions were infinitely better than in the previous year.

I hope that I have been observant, and hope I am not being complacent. The fact remains, that from a Public Health point of view in Ware Urban District, we have had a good year. No major unusual problems have occurred and routine work has proceeded very satisfactorily.

I wish to thank Mr. Todd and his staff for their help and advice.

It always strikes me that the questions raised by members of the Public Health Committee, are relevant and pertinent. I have looked on these as valuable meetings from my point of view. I am grateful to the Committee and their Chairman for the interest shown in matters relating to Public Health, and to the Chief Officers for their help and assistance.

I am Mr. Chairman, Madam and Gentlemen,

Your obedient servant,

J.V. EARLE

MEDICAL OFFICER OF HEALTH.

EAST WILTSHIRE CONJUNCTION DISTRICTS
REPORT OF THE MEDICAL OFFICER OF HEALTH
FOR THE YEAR 1971

WARWICK URBAN DISTRICT

P R E F A C E

To the Chairman and Councilors, Warwick Urban District.

Mr. Chairman, Members and Gentlemen,

I have the honour to present the Annual Report upon the health of Warwick Urban District for the year ending 31st December, 1971.

During this year, there were a few justified complaints of small pox in Warwick Urban District, particularly during the hot summer months. In general, the tip conditions were infinitely better than in the previous year.

I hope that I have been observant, and hope I am not being complacent. The fact remains, that from a Public Health point of view in Warwick Urban District, we have had a good year. No major unusual problems have occurred and routine work has proceeded very satisfactorily.

I wish to thank Mr. Todd and his staff for their help and advice.

It always strikes me that the questions raised by members of the Public Health Committee, are relevant and pertinent. I have looked on these as valuable meetings from my point of view. I am grateful to the Committee and their Chairman for the interest shown in matters relating to Public Health, and to the Chief Officers for their help and assistance.

I am Mr. Chairman, Members and Gentlemen,

Your obedient servant,

J. V. BAKER

MEDICAL OFFICER OF HEALTH.

TABLE 4

PREVALENCE OF AND CONTROL OVER INFECTIOUS DISEASES

Notifiable Diseases (other than Tuberculosis) notified during the year

The year commenced with 23 names upon the Register as follows:-

<u>Disease</u>	<u>Total</u>	<u>Age Group in Years</u>					<u>Over 65</u>	<u>Age not known</u>
		<u>Under 1</u>	<u>1-</u>	<u>5-</u>	<u>15-</u>	<u>25-</u>		
Measles	33	-	14	18	-	1	-	-
Scarlet Fever	1	-	-	1	-	-	-	-

At the end of 1977, the following names remained upon the register:-

Incidence of Reported Infectious Disease by Months

Measles -	June	8
	July	11
	August	12
	September	1
	October	1
Scarlet Fever -	June	1

No cases of Food Poisoning were notified.

TABLE 4

STATISTICS OF AND CONTROL OVER INFECTIOUS DISEASES

Notifiable Diseases (other than Tuberculosis) notified during the year

Disease	Total	Age Group in Years					Age not known
		Under 1	1-4	5-14	15-24	Over 25	
Measles	22	-	14	16	-	1	-
Scarlet Fever	1	-	-	1	-	-	-

Incidence of Reported Infectious Diseases by Month

Measles -	June	8
	July	11
	August	12
	September	1
	October	1
Scarlet Fever -	June	1

No cases of Food Poisoning were notified.

TABLE 4 (continued)

Tuberculosis Notifications during 1971.

The year commenced with 55 names upon the Register as follows:-

<u>Males</u> :	Pulmonary	22	Non-Pulmonary	3
<u>Females</u> :	Pulmonary	24	Non-Pulmonary	6

During the year, three male pulmonary and one female pulmonary cases were notified.

One female non-pulmonary case recovered, and one male pulmonary case died.

At the end of 1971, the following cases remained upon the register:-

<u>Males</u> :	Pulmonary	24	Non-Pulmonary	3
<u>Females</u> :	Pulmonary	25	Non-Pulmonary	5

Total :- 57 cases.

CAUSES OF DEATH

There were five deaths due to cancer of the lung. Two of these occurred in men under 65.

These are small figures, but they do represent the local contribution to a major National tragedy.

COMMUNICABLE DISEASE

Virtually no communicable diseases were reported during the year, with the exception of 23 children who were reported as suffering from measles and one from scarlet fever.

This happy state of affairs is doubtless owed by good fortune, or as a general result of living in a developed country. Communicable diseases may be carried by food, water, rats and human beings. Careful control by the Public Health Inspectorate has played a major part in the reduction of the first three sources of communicable disease.

NATIONAL ASSAULTS ACTS, 1935 - 1951

No action was required under these acts during 1971.

(continued) TABIE 4

Tuberculosis Notifications during 1971.

The year commenced with 55 names upon the Register as follows:-

<u>Males :</u>	Pulmonary	22	Non-Pulmonary	3
<u>Females :</u>	Pulmonary	24	Non-Pulmonary	6

During the year, three male pulmonary and one female pulmonary cases were notified.

One female non-pulmonary case recovered, and one male pulmonary case died.

At the end of 1971, the following cases remained upon the register:-

<u>Males :</u>	Pulmonary	24	Non-Pulmonary	3
<u>Females :</u>	Pulmonary	25	Non-Pulmonary	5

Total :- 57 cases.

GENERAL STATISTICS

The population has increased to a mid-year estimate of 14,670. This is due to a natural increase of 39 and an inward migration of 231 people. Inevitably, there is a slight increase in density of houses (now 3.39) per acre, and persons per acre (now 10.59).

The number of persons per house is 3.12.

There is no evidence of overcrowding.

VITAL STATISTICS

The number of live births continues to fall.

During 1971, 234 children were born alive, 228 were legitimate. There was one stillbirth.

Deaths under one year. Only one occurred due to an acute virus infection of the lungs.

There were no maternal deaths.

Deaths at all ages: 195. As always the pattern of deaths is dissimilar to the National pattern, since Western House contributes a relatively large number of deaths in older people.

CAUSES OF DEATH

There were five deaths due to cancer of the lung. Two of these occurred in men under 65.

These are small figures, but they do represent the local contribution to a major National tragedy.

COMMUNICABLE DISEASE

Virtually no communicable disease was reported during the year, with the exception of 33 children who were reported as suffering from measles and one from scarlet fever.

This happy state of affairs does not occur by good fortune, or as a general result of living in a developed Country. Communicable disease may be carried by food, water, rats and human beings. Careful control by the Public Health Inspectorate has played a major part in the reduction of the first three causes of communicable disease.

NATIONAL ASSISTANCE ACTS, 1948 - 1951

No action was required under these Acts during 1971.

GENERAL STATISTICS

The population has increased to a mid-year estimate of 14,670. This is due to a natural increase of 78 and an inward migration of 231 people. Inevitably, there is a slight increase in density of houses (now 2.79) per acre, and persons per acre (now 10.59).

The number of persons per house is 7.12.

There is no evidence of overcrowding.

VITAL STATISTICS

The number of live births continues to fall.

During 1971, 234 children were born alive, 228 were legitimate. There was one stillbirth.

Deaths under one year. Only one occurred due to an acute virus infection of the lungs.

There were no maternal deaths.

Deaths at all ages: 192. As always the pattern of deaths is dissimilar to the National pattern, since Western House contributed a relatively large number of deaths in older people.

CAUSES OF DEATH

There were five deaths due to cancer of the lungs. Two of these occurred in men under 65.

There are small figures, but they do represent the local contribution to a major National burden.

COMMUNICABLE DISEASE

Virtually no communicable disease was reported during the year, with the exception of 73 children who were reported as suffering from measles and one from scarlet fever.

This happy state of affairs does not occur by good fortune, or as a general result of living in a developed country. Communicable disease may be curbed by food, water, rats and human beings. Careful control by the Public Health Inspectorate has played a major part in the reduction of the first three causes of communicable disease.

NATIONAL ASSISTANCE ACTS, 1968 - 1971

No action was required under these Acts during 1971.

MEDICAL ARRANGEMENTS FOR IMMIGRANTS

There are only very few immigrants in this area. Arrangements are satisfactory.

BUILDING

During the year, the Council built no houses; 12 were built by private enterprise.

SPECIAL REPORTS

During the year, I made a special report on hypothermia, suicide and mass-miniature radiography service.

LABORATORY SERVICES

Services are provided by the Public Health Laboratory Service at Cambridge.

Real specimens may be examined at the Laboratory of the County Council, Bedford.

GENERAL PUBLIC HEALTH AND WELFARE SERVICES

The following County Council Services under the National Health Service Act, 1946 - 1957 are available for Ware. Full details can be obtained from the County Medical Officer, County Hall, Bedford.

Relaxation Class	Wednesday P.M. (by appointment)
Immunisation	4th Tuesday in month 10-12 A.M.
Family Planning	Monday 7 - 8.00 P.M. Thursday 7 - 8.30 P.M. Second and fourth Wednesday in each month A.M.
General Clinic	Second Monday 10.00 A.M.
Audiometry	First Friday in month A.M.

Family Planning

This service, which was started in Ware as long ago as 1964 grows more and more popular. In 1971 there were 385 new patients and the total number of visits amounted to 2168.

GENERAL PROVISION OF HEALTH SERVICES FOR WARELABORATORY SERVICES

Laboratory facilities are provided by the Public Health Laboratory Service at Cambridge.

In emergency, medical specimens may be examined at the laboratory of the County Hospital, Haverford.

COUNTY COUNCIL HEALTH AND WELFARE SERVICES

The following County Council Services under the National Health Service Acts, 1946 - 1957 are available for Ware. Full details can be obtained from the County Medical Officer, County Hall, Haverford.

Home Nursing, Midwifery, Health Visiting and Welfare Centres

Health Centre, Bowling Road, Ware.	-	Telephone: Ware: 2388.
Number of Nurses	-	5
Number of Clinic Nurses	-	2 part-time.
Number of Health Visitors	-	3 full-time and 2 part-time.

The following clinics are held at the Welfare Centre:-

Speech Therapy	Thursday.
Infant Welfare	Tuesdays 2-4 p.m.
Dental Clinic	Monday, Tuesday, Wednesday, Thursday and Friday, A.M. and P.M.
Infant and Post Natal Clinics	Friday P.M.
Drs. Moore and Sedgewick	Wednesday P.M. (by appointment)
Relaxation Class	4th Tuesday in month 10-12 A.M.
Immunisation	Monday 7 - 8.00 P.M.
Family Planning	Thursday 7 - 8.30 P.M. Second and fourth Wednesday in each month A.M.
General Clinic	Second Monday 10.00 A.M.
Radiology	First Friday in month A.M.

Family Planning

This service, which was started in Ware as long ago as 1964 grows more and more popular. In 1971 there were 382 new patients and the total number of visits amounted to 2168.

Immunisation and Vaccination

All parents are advised to take advantage of this service, which can be obtained from their family doctors or at Infant Welfare Centres.

<u>Approx. Age</u>	<u>Vaccine</u>
6 months	COMBINED diphtheria, tetanus and whooping cough POLIOMYELITIS (ORAL)
8 months	COMBINED diphtheria, tetanus and whooping cough POLIOMYELITIS (ORAL)
13 months	COMBINED diphtheria, tetanus and whooping cough POLIOMYELITIS (ORAL)
15 months	MEASLES
School entry	POLIOMYELITIS (ORAL)
School entry	COMBINED diphtheria, tetanus
13 years	B.C.G. Vaccination against TUBERCULOSIS.

This is NOT a rigid time-table. Many Doctors hold slightly differing views, and prematurity or ill-health in a child may mean the schedule has to be altered to meet individual needs.

During 1971, the Department of Health and Social Security recommended that routine vaccination of infants should cease. Children can still be vaccinated on the request of their Parents.

Social Services

With the coming into force of the Local Authority Social Services Act, on the 1st April, 1971, statutory responsibility for providing services and social work help to the physically handicapped, the elderly, the mentally handicapped and the mentally ill, as well as the responsibility for the child care and family case work services, passed to the newly formed Social Services Department.

Referrals

- a) Monday - Friday. 9 a.m. - 5.30 p.m. There is usually a Social Worker on duty throughout normal office hours, at both the Divisional Office and at the Area Offices to answer queries, accept new referrals etc. In addition, there is always a warranted Mental Welfare Officer on call for the whole Division and contact may be made with him through the Divisional Office (Hertford 7041).
- b) Out of normal office hours and at weekends, the warranted Mental Welfare Officer may be contacted through Ambulance Control (Hertford: 2222). All other requests for help in emergency situations out of office hours, such as those arising in connection with children and young persons, should also be directed to the warranted Mental Welfare Officer, through Ambulance Control and he will put the caller in touch with a more appropriate Social Worker if necessary.

All parents are advised to take advantage of this service, which can be obtained from their family doctors or at Infant Welfare Centers.

<u>Vaccine</u>	<u>Age</u>
COMBINED diphtheria, tetanus and whooping cough POLIOMYELITIS (ORAL)	6 months
COMBINED diphtheria, tetanus and whooping cough POLIOMYELITIS (ORAL)	8 months
COMBINED diphtheria, tetanus and whooping cough POLIOMYELITIS (ORAL)	12 months
MEASLES POLIOMYELITIS (ORAL) COMBINED diphtheria, tetanus	15 months
1,2,3,4,5,6,7,8,9,10,11,12,13,14,15,16,17,18,19,20,21,22,23,24,25,26,27,28,29,30,31,32,33,34,35,36,37,38,39,40,41,42,43,44,45,46,47,48,49,50,51,52,53,54,55,56,57,58,59,60,61,62,63,64,65,66,67,68,69,70,71,72,73,74,75,76,77,78,79,80,81,82,83,84,85,86,87,88,89,90,91,92,93,94,95,96,97,98,99,100,101,102,103,104,105,106,107,108,109,110,111,112,113,114,115,116,117,118,119,120,121,122,123,124,125,126,127,128,129,130,131,132,133,134,135,136,137,138,139,140,141,142,143,144,145,146,147,148,149,150,151,152,153,154,155,156,157,158,159,160,161,162,163,164,165,166,167,168,169,170,171,172,173,174,175,176,177,178,179,180,181,182,183,184,185,186,187,188,189,190,191,192,193,194,195,196,197,198,199,200,201,202,203,204,205,206,207,208,209,210,211,212,213,214,215,216,217,218,219,220,221,222,223,224,225,226,227,228,229,230,231,232,233,234,235,236,237,238,239,240,241,242,243,244,245,246,247,248,249,250,251,252,253,254,255,256,257,258,259,260,261,262,263,264,265,266,267,268,269,270,271,272,273,274,275,276,277,278,279,280,281,282,283,284,285,286,287,288,289,290,291,292,293,294,295,296,297,298,299,300,301,302,303,304,305,306,307,308,309,310,311,312,313,314,315,316,317,318,319,320,321,322,323,324,325,326,327,328,329,330,331,332,333,334,335,336,337,338,339,340,341,342,343,344,345,346,347,348,349,350,351,352,353,354,355,356,357,358,359,360,361,362,363,364,365,366,367,368,369,370,371,372,373,374,375,376,377,378,379,380,381,382,383,384,385,386,387,388,389,390,391,392,393,394,395,396,397,398,399,400,401,402,403,404,405,406,407,408,409,410,411,412,413,414,415,416,417,418,419,420,421,422,423,424,425,426,427,428,429,430,431,432,433,434,435,436,437,438,439,440,441,442,443,444,445,446,447,448,449,450,451,452,453,454,455,456,457,458,459,460,461,462,463,464,465,466,467,468,469,470,471,472,473,474,475,476,477,478,479,480,481,482,483,484,485,486,487,488,489,490,491,492,493,494,495,496,497,498,499,500,501,502,503,504,505,506,507,508,509,510,511,512,513,514,515,516,517,518,519,520,521,522,523,524,525,526,527,528,529,530,531,532,533,534,535,536,537,538,539,540,541,542,543,544,545,546,547,548,549,550,551,552,553,554,555,556,557,558,559,560,561,562,563,564,565,566,567,568,569,570,571,572,573,574,575,576,577,578,579,580,581,582,583,584,585,586,587,588,589,590,591,592,593,594,595,596,597,598,599,600,601,602,603,604,605,606,607,608,609,610,611,612,613,614,615,616,617,618,619,620,621,622,623,624,625,626,627,628,629,630,631,632,633,634,635,636,637,638,639,640,641,642,643,644,645,646,647,648,649,650,651,652,653,654,655,656,657,658,659,660,661,662,663,664,665,666,667,668,669,670,671,672,673,674,675,676,677,678,679,680,681,682,683,684,685,686,687,688,689,690,691,692,693,694,695,696,697,698,699,700,701,702,703,704,705,706,707,708,709,710,711,712,713,714,715,716,717,718,719,720,721,722,723,724,725,726,727,728,729,730,731,732,733,734,735,736,737,738,739,740,741,742,743,744,745,746,747,748,749,750,751,752,753,754,755,756,757,758,759,760,761,762,763,764,765,766,767,768,769,770,771,772,773,774,775,776,777,778,779,780,781,782,783,784,785,786,787,788,789,790,791,792,793,794,795,796,797,798,799,800,801,802,803,804,805,806,807,808,809,810,811,812,813,814,815,816,817,818,819,820,821,822,823,824,825,826,827,828,829,830,831,832,833,834,835,836,837,838,839,840,841,842,843,844,845,846,847,848,849,850,851,852,853,854,855,856,857,858,859,860,861,862,863,864,865,866,867,868,869,870,871,872,873,874,875,876,877,878,879,880,881,882,883,884,885,886,887,888,889,890,891,892,893,894,895,896,897,898,899,900,901,902,903,904,905,906,907,908,909,910,911,912,913,914,915,916,917,918,919,920,921,922,923,924,925,926,927,928,929,930,931,932,933,934,935,936,937,938,939,940,941,942,943,944,945,946,947,948,949,950,951,952,953,954,955,956,957,958,959,960,961,962,963,964,965,966,967,968,969,970,971,972,973,974,975,976,977,978,979,980,981,982,983,984,985,986,987,988,989,990,991,992,993,994,995,996,997,998,999,1000	

This is NOT a rigid time-table. Many doctors hold slightly differing views, and preservative or ill-health in a child may mean the schedule has to be altered to meet individual needs.

During 1971, the Department of Health and Social Security recommended that routine vaccination of infants should cease. Children can still be vaccinated on the request of their parents.

Social Services

With the coming into force of the Local Authority Social Services Act, on the 1st April, 1971, statutory responsibility for providing services and social work help to the physically handicapped, the elderly, the mentally handicapped and the mentally ill, as well as the responsibility for the child care and family care work services, passed to the newly formed Social Services Department.

Referrals

a) Monday - Friday 9 a.m. - 5.30 p.m. There is usually a Social Worker on duty throughout normal office hours, at both the Divisional Office and at the Area Office to answer queries, accept new referrals etc. In addition, there is always a warranted Mental Welfare Officer on call for the whole Division and contact may be made with him through the Divisional Office (Referral 7041).

b) Out of normal office hours and at weekends, the warranted Mental Welfare Officer may be contacted through Advisee Control (Referral: 2222). All other requests for help in emergency situations out of office hours, such as those arising in connection with children and young persons, should also be directed to the warranted Mental Welfare Officer through Advisee Control and he will put the caller in touch with a more appropriate Social Worker if necessary.

All applications for aids and adaptations to properties occupied by physically handicapped people, all applications for telephones and televisions under the Chronically Sick and Disabled Persons' Act, 1970, and enquires connected with Blind Welfare should be made to the Divisional Office - all other requests for help should be made to the Senior Social Worker for the area concerned.

This service continues to operate as under:-

Hedden Urban District, Ware Urban and Ware Rural Districts

Old Health Centre,
High Street, Hedden.
Tel: Hedden: 6780.
Hours: 8.30-11; 2-5 p.m.

Mrs. Gattie, Home Help Organizer
Mrs. Woolf, Assistant Home Help Organizer.
Mrs. Carless - Clerk.

Care and After Care

Applications for respite holidays, if recommended by the Medical Attendance, should be made to the County Medical Officer.

Equipment such as mechanical stools, crutches and wheel chairs can be loaned on loan to patients being nursed at home and a weekly charge is made according to the financial circumstances of the patient.

Ambulance Service

An ambulance station adjoins the Priory Grounds. Except in emergency, an ambulance should be ordered by a Medical Practitioner.

The Mentally Handicapped

The Adult Training Centre was transferred to Pindar Road, Hoddesdon during 1971.

HOSPITAL SERVICES

Ware is served chiefly by the Hertford County Hospital, Hertford, but patients may also be treated at the Herts and Essex Hospital, Bishop's Stortford and the Queen Elizabeth 11 Hospital, Welwyn Garden City.

Chronic sick can receive treatment at Western House Hospital, Collett Road, Ware. The number of beds available is:- 69 for females, of which 47 are for psychogeriatric patients, 22 for males.

There are 190 beds in the Part III accommodation (93 male and 97 female).

Patients suffering from infectious diseases can be treated either at St. Ann's Hospital Winchmore Hill, London, N.21, (formerly South Lodge Hospital, World's End Lane, London, N.21). (Tel: 01360-8151).

GENERAL PRACTITIONER MEDICAL SERVICES

Ware District is served by six General Practitioners, five of whom work in partnerships. To two practices are attached Health Visitors, a scheme which has been in operation since 1967. These attachments are proving very successful.

DENTAL SERVICES

There are two Dental Surgeons in Ware.

OTHER SERVICES

Blood Transfusion Donor Sessions are held at The Priory.

There is a very active Old People's Welfare Service in Ware.

The W.R.V.S. has an office at 48B High Street, Ware.

The Mentally Handicapped

The Adult Training Centre was transferred to Pinder Road, Huddersfield during 1971.

HOSPITAL SERVICES

Were is served chiefly by the Huddersfield County Hospital, Huddersfield, but patients may also be treated at the Herts and Essex Hospital, Bishop's Cleeve and the Queen Elizabeth II Hospital, Welwyn Garden City.

Chronic sick can receive treatment at Western House Hospital, Colliett Road, Wake. The number of beds available is 69 for females, of which 47 are for psychiatric patients, 22 for males.

There are 190 beds in the Fort Hill accommodation (95 male and 95 female).

Patients suffering from infectious diseases can be treated either at St. Ann's Hospital, Wincoburn Hill, London, N.21, (formerly South Lodge Hospital, Worn's End Lane, London, N.21). (Tel: 01832-8151).

GENERAL PRACTITIONER MEDICAL SERVICES

Wake District is served by six General Practitioners, five of whom work in partnerships. Two practices are attached Health Visitors, a scheme which has been in operation since 1967. These attachments are proving very successful.

DENTAL SERVICES

There are two Dental Surgeons in Wake.

OTHER SERVICES

Blood Transfusion donor Sessions are held at the Friary. There is a very active Old People's Welfare Service in Wake. The W.R.V.S. has an office at 488 High Street, Wake.

SECTION C

Sanitary Circumstances of the Area

Report of the Senior Public Health Inspector

The Priory,
Ware, Herts.

To the Chairman and Members of the
Ware Urban District Council

Mr. Chairman, Madam and Gentlemen,

I have pleasure in presenting to you my second annual report.

The many functions of the Department have been carried out smoothly during the year despite a number of staff problems. Mr. Lucas ultimately left the Department on the 21st June, 1971 after Mr. Jones had been appointed to the post of additional Public Health Inspector, but after 3½ months, Mr. Jones left Council's service to return north. Mr. A. Hutchison, formerly employed by the Morpeth Borough Council, accepted the appointment and commenced duty on the 2nd August, 1971. Mr. Luck, the Meat Inspector, returned to duty on the 1st February, 1971 after a major operation which had resulted in an absence of almost 4 months. Mrs. Brown, clerk/typist, resigned in July, 1971 and was replaced by Mrs. I.T.J. Smith.

I would like to thank all members of the staff of the department for their loyal and conscientious support throughout the year, and also the officers of all other departments for their co-operation and assistance in matters of common interest. Finally, I would like to express my appreciation of the interest which the Chairman and Members of Council have continued to show in all aspects of the work carried out by this Department.

I am, Mr. Chairman, Madam and Gentlemen,

Your obedient servant,

W.G. TODD

Senior Public Health Inspector.

Report of the Senior Public Health Inspector
Sanitary Circumstances of the Area

The Factory,
New, Works.

To the Chairman and Members of the
New Urban District Council

Mr. Chairman, Madam and Gentlemen,

I have pleasure in presenting to you my second annual report.

The many functions of the Department have been carried out smoothly during the year despite a number of staff problems. Mr. Jones ultimately left the Department on the 21st June, 1971 after Mr. Jones had been appointed to the post of additional Public Health Inspector, but after 2 1/2 months, Mr. Jones left Council's service to return north. Mr. A. Hutchison, formerly employed by the Northeth Borough Council, accepted the appointment and commenced duty on the 2nd August, 1971. Mr. Jack, the Heat Inspector, returned to duty on the 1st February, 1971 after a major operation which had resulted in an absence of almost 4 months. Mrs. Brown, clerical typist, resigned in July, 1971 and was replaced by Mrs. I.T.J. Smith.

I would like to thank all members of the staff of the department for their loyal and conscientious support throughout the year, and also the officers of all other departments for their co-operation and assistance in matters of common interest. Finally, I would like to express my appreciation of the interest which the Chairman and Members of Council have continued to show in all aspects of the work carried out by this Department.

I am, Mr. Chairman, Madam and Gentlemen,

Your obedient servant,

F.C. TOWN

Senior Public Health Inspector.

WATER SUPPLY

The larger part of the district is supplied by the Lee Valley Water Company, who reported that no new capital works were completed or under construction during the year 1970/71. The Company submitted reports on 152 bacteriological and 5 chemical samples, all of which were found to conform to the standards of purity considered suitable for a public supply.

The water consumption for the year ending March, 1971, was 1237.5 megalitres, compared with 266.4 million gallons in the previous year. There are 4,791 houses with a population of 14,598 persons in the urban area, receiving internal water supplies from the Company's mains. All supplies are chlorinated and the fluoride content is less than 0.2 milligrammes per litre.

The Metropolitan Water Board continued to supply 23 domestic premises with an estimated population of 72 people, and two schools in the Hoe Lane area. This supply was derived from the well water from the Rye Common pumping station, and the 248 bacteriological and 5 chemical samples taken all proved to be satisfactory. The natural fluoride content was 0.25 milligrammes per litre and no artificial fluoride was added.

Five cottages in isolated parts of the district are still supplied with domestic water from wells. Regular six-monthly samples have been submitted for bacteriological examination from each of these three wells. The sample from one well showed coliform bacilli to be present: the storage tank in the roof was replaced and the complete reticulation renewed before a satisfactory result was obtained and maintained.

The water supply throughout the district has been satisfactory in quantity, and with the exception mentioned in the previous paragraph, also in quality during the year. There are no dwelling houses in the area supplied from public water mains by means of standpipes.

DRAINAGE AND SEWERAGE

No significant works were carried out to the sewers during the year.

COMMON LODGING HOUSES

No common lodging houses are registered within the district.

HOUSES IN MULTIPLE OCCUPATION

There are no houses in multiple occupation within the district.

PUBLIC HEALTH ACTS, 1936 and 1961

Sewers, Drains and Sanitary Conveniences

The department dealt with an average number of blocked sewers and drains during the year, and in four cases where defects were suspected, smoke tests were applied. All works were carried out informally.

The sewer in West Street was blocked on a number of occasions and this resulted in sewage gaining access to the basements of two shops on High Street. The defects permitting the escape of sewage were traced and rectified.

The larger part of the district is supplied by the Lee Valley Water Company, who reported that no new capital works were completed or under construction during the year 1970/71. The Company submitted reports on 125 bacteriological and 5 chemical samples, all of which were found to conform to the standards of purity considered suitable for a public supply.

The water consumption for the year ending March, 1971, was 1237.5 megalitres, compared with 886.4 million gallons in the previous year. There are 4,791 houses with a population of 14,598 persons in the urban area, receiving internal water supplies from the Company's mains. All supplies are chlorinated and the fluoride content is less than 0.5 milligrams per litre.

The Metropolitan Water Board continued to supply 25 domestic premises with an estimated population of 75 people, and two schools in the New Lane area. This supply was derived from the well water from the New Common pumping station, and the 248 bacteriological and 5 chemical samples taken all proved to be satisfactory. The natural fluoride content was 0.25 milligrams per litre and no artificial fluoride was added.

Five cottages in isolated parts of the district are still supplied with domestic water from wells. Regular six-monthly samples have been submitted for bacteriological examination from each of these wells. The sample from one well showed coliform bacilli to be present; the storage tank in the roof was replaced and the complete reticulation renewed before a satisfactory result was obtained and maintained.

The water supply throughout the district has been satisfactory in quantity, and with the exception mentioned in the previous paragraph, also in quality during the year. There are no dwelling houses in the area supplied from public water mains by means of standpipes.

SEWERAGE AND DRAINAGE

No significant works were carried out to the sewers during the year.

COMMON LODGING HOUSES

No common lodging houses are registered within the district.

HOUSES IN MULTIPLE OCCUPATION

There are no houses in multiple occupation within the district.

PUBLIC HEALTH ACTS, 1936 AND 1961

Sewers, Drains and Sanitary Conveniences

The department dealt with an average number of blocked sewers and drains during the year, and in four cases where defects were suspected, smoke tests were applied. All works were carried out internally.

The sewer in West Street was blocked on a number of occasions and this resulted in sewage gaining access to the basements of two shops on High Street. The defects permitting the escape of sewage were traced and rectified.

Filthy or Verminous Premises and Articles

- (a) FLIES Once again, the number of complaints received from the residents in the Richmond Close and Westmill Road area was minimal. The two nearby refuse tips were kept under constant supervision, and no specific instances of fly-breeding were traced to either tip. The piggeries were well maintained.
- (b) BED-BUGS Two further cases of bed-bugs were reported during the year and treatment was carried out by Council.
- (c) WASPS The number of wasp nests treated by the Department was higher than average for the year.

NUISANCES

The nuisance caused by spillage from vehicles transporting refuse from London to the Gentlemen's Field tip (as reported at length in my report for 1970) continued to be a source of complaint during the early part of 1971. Towards the middle of the year, only purpose-built bulk container vehicles were used for this work, and after action had been taken to ensure that all vehicles were covered by a tarpaulin or net, no further complaints were received. During the warm summer months, a number of complaints were received of odour from the tip: the tip has been very well maintained however, with a substantial cover of soil, and these complaints were generally of very short duration.

NOISE ABATEMENT ACT, 1960

There was a marked decrease in the number of complaints received about noise, especially from industrial premises. Complaints were received from residents in Anwell End, when discotheques were being held in the Drill Hall. A series of noise level readings were taken, but no level was obtained in excess of the criterion value for that area. The promoter of these dances was most willing to ensure that no offence was being committed and no nuisance being created to local residents. However, a close check will be kept on these events, especially during the summer months when windows and doors are kept open to improve ventilation in the Drill Hall.

CLEAN AIR ACT, 1956 and 1968

An unusually high number of complaints were received of smoke nuisances caused by bonfires, but as we have now come to expect, not one complainant was prepared to go to court to give evidence that as an inhabitant of the neighbourhood, the smoke was a nuisance.

In the industrial field a far greater problem has been encountered where a Dutch Oven has been replaced by a Cochran Vertical Boiler. The Dutch Oven was used to dispose of sawdust and other wood waste from a furniture factory, and when operated correctly, caused no nuisance. Great difficulty is being experienced in burning this type of fuel in the Cochran boiler without creating smoke, and although several modifications had been made, the problem had not been satisfactorily resolved at the end of the year,

HOUSING

Grants It is most encouraging to receive numerous enquiries regarding grants under the Housing Act, 1969, but somewhat disappointing when only a substantially reduced number ultimately make firm applications for grants.

- (a) WILLY Once again, the number of complaints received from the residents in the Richmond Close and Westmill Road area was minimal. The two nearby refuse tips were kept under constant supervision, and no specific instances of fly-breeding were traced to either tip. The pigeons were well maintained.
- (b) WILLY Two further cases of bed-bugs were reported during the year and treatment was carried out by Council.
- (c) WILLY The number of wasp nests treated by the Department was higher than average for the year.

MISCELLANEOUS

The nuisance caused by appliances from vehicles transporting refuse from London to the Gentlemen's Field tip (as reported at length in my report for 1970) continued to be a source of complaint during the early part of 1971. Towards the middle of the year, only purpose-built bulk container vehicles were used for this work, and after action had been taken to ensure that all vehicles were covered by a tarpaulin or net, no further complaints were received. During the winter months, a number of complaints were received of odour from the tip: the tip has been very well maintained however, with a constant tin cover of soil, and these complaints were generally of very short duration.

NOISE ABATEMENT ACT, 1960

There was a marked decrease in the number of complaints received about noise, especially from industrial premises. Complaints were received from residents in Anwell End, when diastrophes were being held in the Drill Hall. A series of noise level readings were taken, but no level was obtained in excess of the criterion value for that area. The promoter of these dances was most willing to ensure that no offence was being committed and no nuisance being created to local residents. However, a close check will be kept on these events, especially during the summer months when windows and doors are kept open to improve ventilation in the Drill Hall.

CLEAN AIR ACT, 1956 and 1968

An unusually high number of complaints were received of smoke nuisance caused by bonfires, but as we have now come to expect, not one complaint was prepared to go to court to give evidence that as an inhabitant of the neighbourhood, the smoke was a nuisance.

In the industrial field a far greater problem has been encountered where a Dutch Oven has been replaced by a Cochran Vertical Boiler. The Dutch Oven was used to dispose of sawdust and other wood waste from a furniture factory, and when operated correctly, caused no nuisance. Great difficulty is being experienced in burning this type of fuel in the Cochran boiler without creating smoke, and although several modifications had been made, the problem had not been satisfactorily resolved at the end of the year.

HOUSING

Grants It is most encouraging to receive numerous enquiries regarding Grants under the Housing Act, 1969, but somewhat disappointing when only a substantially reduced number ultimately make firm applications for Grants.

- (a) Standard Grants - 16 applications were received of which 13 were approved, one withdrawn and two still awaiting estimates at the end of the year.
- (b) Discretionary Grants - 8 applications were received of which 7 were approved and one refused.

Qualification Certificates

Eighteen applications were received under Section 44(1), Housing Act, 1969 for qualification certificates. Allowing for four applications which were still under consideration at the end of 1970, thirteen applications were approved, six refused and the remaining three applications awaiting to be dealt with at the end of the year. Seven applications were received for provisional qualification certificates and two applications were outstanding at the end of December, 1970. All nine applications were approved.

Demolition

The following works were completed during the year:-

- 10 and 11, Collett Road - demolition orders were made on these properties on 2nd October, 1970. Both dwellings were demolished in May, 1971 and the site left clear.
- 1 and 3, Raynsford Road - a demolition order was made on No. 1 on 2nd October, 1970 and agreement reached with the owner of No. 3, to demolish that building simultaneously. Both dwellings were demolished in September, 1971 and the site has been redeveloped by the construction of four maisonettes.
- 5 and 9, Princes Street - these properties which had been purchased by Council were demolished in March, 1971 prior to redevelopment taking place of this area.
- 30, Baldock Street - demolished by the County Council in February, 1971 to make way for the proposed inner relief road.

FOOD AND DRUGS ACT, 1955

Section 2 - General Protection for Purchasers of Food and Drugs

The following complaints were investigated:-

- Rusty internal surface of tin of chicken curry and rice - referred to the local authority in whose area the shop at which the tin was purchased was situated.
- Fly in loaf of bread.
- Mould on cheese (4) *
- Blown can of ham.
- Mould on cakes (2) *
- Mould on bread rolls *
- Bottle of lemonade bearing wrong label - referred to County Weights and Measures Department.

(e) Standard Grants - 16 applications were received of which 13 were approved, one withdrawn and two still awaiting estimates at the end of the year.

(f) Discretionary Grants - 8 applications were received of which 7 were approved and one refused.

Qualification Certificates

Eighteen applications were received under Section 44(1), Housing Act, 1969 for qualification certificates. Allowance for four applications which were still under consideration at the end of 1970, thirteen applications were approved, six refused and the remaining three applications awaiting to be dealt with at the end of the year. Seven applications were received for provisional qualification certificates and two applications were outstanding at the end of December, 1970. All nine applications were approved.

Demolition

The following works were completed during the year:-

10 and 11, Collett Road - demolition orders were made on these properties on 2nd October, 1970. Both dwellings were demolished in May, 1971 and the site left clear.

1 and 3, Rowford Road - a demolition order was made on No. 1 on 2nd October, 1970 and agreement reached with the owner of No. 3, to demolish that building simultaneously. Both dwellings were demolished in September, 1971 and the site has been redeveloped by the construction of four maisonettes.

5 and 9, Princes Street - these properties which had been purchased by Council were demolished in March, 1971 prior to redevelopment taking place of this area.

30, Baldoak Street - demolished by the County Council in February, 1971 to make way for the proposed inner relief road.

FOOD AND DRUGS ACT, 1955

Section 5 - General Protection for Purchasers of Food and Drugs

The following complaints were investigated:-

Eighty internal surfaces of tin of chicken curry and rice - referred to the local authority in whose area the shop at which the tin was purchased was situated.
 Fly in loaf of bread.
 Mould on cheese (4) *
 Blown can of jam.
 Mould on cakes (2) *
 Mould on bread rolls *
 Bottle of jam made bearing wrong label - referred to County Weights and Measures Department.

All cases were investigated and warning letters were sent to the retailers of the goods marked*. No legal action was taken.

Section 91 - Powers of Sampling

Six samples of ice-cream were submitted to the Public Health Laboratory, Cambridge, and all conformed to the provisional Grade 1 standard.

The Slaughter of Animals (Prevention of Cruelty) Regulations, 1958

The Slaughterhouse (Hygiene) Regulations, 1958 - 1966

The Ware Meat Supplies Ltd. appeal against the Dunmow Rural District Council refusal to give planning consent to the construction of a new slaughterhouse on a site in Essex (just outside the boundary of Bishop's Stortford Urban District Council) had still not been heard at the end of the year. A veterinary officer from the Agricultural Development and Advisory Service, Hertford, continued to make regular monthly inspections of the existing slaughterhouse in Amwell End throughout the year. No adverse reports were received.

The Company has continued to carry out minor improvements - the walls of the bleeding passage were re-surfaced with impervious materials - and rather unusually, no complaints were received about either noise or smell. In my opinion, this is most gratifying in view of the many difficulties which exist and make it most difficult to carry on this type of business from such ill-designed premises.

The Meat Inspection Regulations, 1963 - 1966

Once again, there were decreases in the numbers of cattle and sheep killed and inspected, but the number of pigs continued to rise. The weight of pork condemned rose sharply, but the figure of 22,160 lbs included the carcasses of 21 pigs which had been severely burned in a farm fire. Once again, there was a further reduction in the number of bovine carcasses infested with *Cysticercus Bovis*.

The Food Hygiene (General) Regulations, 1970

Regular inspections were made of all food shops and good standards were maintained throughout the year.

The Food Hygiene (Markets, Stalls and Delivery Vehicles) Regulations, 1966

The following prosecutions were taken during the year:-

1. The driver of a vehicle owned by a national firm of meat wholesalers and butchers was prosecuted under -

Regulation 7 - for not wearing clean and washable neck and head covering whilst handling meat: and

Regulation 9 - not taking all reasonable steps to protect food from the risk of contamination, (carcasses were being taken from the rails and laid on the dirty floor of the vehicle, to facilitate off-loading.)

All cases were investigated and warning letters were sent to the retailers of the goods involved. No legal action was taken.

Section 91 - Powers of Sanitation

Six samples of ice-cream were submitted to the Public Health Laboratory, Cambridge, and all conformed to the provisional Grade 1 standards.

The Slaughter of Animals (Prevention of Cruelty) Regulations, 1958

The Slaughterhouses (Welfare) Regulations, 1958 - 1966

The Ware Meat Supplies Ltd. appeal against the Haverhill Rural District Council refusal to give planning consent to the construction of a new slaughterhouse on a site in Essex (just outside the boundary of Bishop's Cleeve Urban District Council) had still not been heard at the end of the year. A veterinary officer from the Agricultural Development and Advisory Service, Haverhill, continued to make regular monthly inspections of the existing slaughterhouse in Essex and throughout the year. No adverse reports were received.

The Company has continued to carry out minor improvements - the walls of the bleeding passages were re-surfaced with impervious materials - and rather unusually, no complaints were received about either noise or smell. In my opinion, this is most gratifying in view of the many difficulties which exist and make it most difficult to carry on this type of business from such ill-designed premises.

The Meat Inspection Regulations, 1965 - 1966

Once again, there were decreases in the numbers of cattle and sheep killed and inspected, but the number of pigs continued to rise. The weight of pork carcasses rose sharply, but the figure of 52,100 lbs included the carcasses of 21 pigs which had been severely burned in a fire. Once again, there was a further reduction in the number of bovine carcasses infested with Cysticercus Bovis.

The Food Hygiene (General) Regulations, 1970

Regular inspections were made of all food shops and food standards were maintained throughout the year.

The Food Hygiene (Markets, Stalls and Delivery Vehicles) Regulations, 1966

The following prosecutions were taken during the year:-

1. The driver of a vehicle owned by a national firm of meat wholesalers and butchers was prosecuted under -

- Regulation 7 - for not wearing clean and washable neck and head covering whilst handling meat;
- Regulation 9 - not taking all reasonable steps to protect food from the risk of contamination, (carcasses were being taken from the walls and laid on the dirty floor of the vehicle, to facilitate off-loading.)

The driver pleaded guilty on the first charge and was fined £20: he pleaded not guilty to the second charge, and much to my surprise, the magistrates dismissed the summons.

2. A firm of ice-cream salesman, and the driver, were prosecuted in respect of contraventions of six regulations of the Food Hygiene (Markets, Stalls and Delivery Vehicles) Regulations, 1966. Prior to the hearing, Council's solicitors received assurances from the Defendants that they would plead guilty to all charges, with the exception of the one under Regulation 16(3) (lack of soap, nail brushes and clean towels in the van), which the driver contested. After consultation with the Chairman of the Health Committee, the Council's solicitor was authorised to withdraw this charge, thereby making it unnecessary to bring Mr. G.D. Jones (the former Additional Public Health Inspector) from Cheshire as a witness. At the hearing however, the Defendants disputed the summons under Regulation 18 (lack of sink in the vehicle for the washing of equipment). Rather than have the case adjourned and require Mr. Jones to come down from Cheshire, the Council's solicitor withdrew the summons under this Regulation, leaving the four charges against which pleas of guilty had been entered, to be dealt with.

In the result, the Bench gave the Company and the driver an absolute discharge on all summonses, but ordered them to pay full costs.

POULTRY INSPECTION

There are no poultry processing premises within the District.

PREVENTION OF DAMAGE BY PESTS ACT, 1949

There were slight decreases in the number of non-agricultural properties found to be infested with rats and mice following notification as compared with 1970. There were also substantial decreases in infestations in properties inspected for reasons other than notification.

Once again, a number of sewer manholes were baited with Sodium Fluoroacetamide, and evidence points to the sewers being comparatively rat-free.

A new contract was secured with a large industrial concern, for Council to undertake rodent control on their factory premises, and negotiations were well in hand with a number of other companies for rodent control contracts to be drawn up.

CARAVAN SITES AND CONTROL OF DEVELOPMENT ACT, 1960

There are no registered sites within the district. One caravan was illegally parked for a number of months on land belonging to a large manufacturing company, but later moved on, and no statutory action was taken.

OFFICES, SHOPS AND RAILWAY PREMISES ACT, 1963

Twenty-four premises were registered for the first time during the year, made up as follows:- 8 offices, 10 retail shops, 2 warehouses and 4 catering establishments open to the public. The total number of registered premises was nine more than the previous year.

The driver pleaded guilty on the first charge and was fined £50: he pleaded not guilty to the second charge, and much to my surprise, the magistrate dismissed the summons.

5. A firm of ice-cream salesman, and the driver, were prosecuted in respect of contraventions of six regulations of the Food Hygiene (Markets, Stalls and Delivery Vehicles) Regulations, 1956. Prior to the hearing, Council's solicitors received assurances from the defendant that they would plead guilty to all charges, with the exception of the one under Regulation 15(3) (lack of soap, nail brushes and clean towels in the van), which the driver contested. After consultation with the Chairman of the Health Committee, the Council's solicitor was authorized to withdraw this charge, thereby making it unnecessary to bring Mr. G.D. Jones (the former Additional Public Health Inspector) from Chester as a witness. At the hearing however, the defendant disputed the summons under Regulation 15 (lack of sink in the vehicle for the washing of equipment). Rather than have the case adjourned and require Mr. Jones to come down from Chester, the Council's solicitor withdrew the summons under this Regulation, leaving the four charges against which pleas of guilty had been entered, to be dealt with.

In the result, the Bench gave the Company and the driver an absolute discharge on all summonses, but ordered them to pay full costs.

FOUNTAIN INSPECTION

There are no fountain processing premises within the District.

PREVENTION OF DAMAGE BY PESTS ACT, 1949

There were slight decreases in the number of non-agricultural properties found to be infested with rats and mice following notification as compared with 1970. There were also substantial decreases in infestations in properties inspected for reasons other than notification.

Once again, a number of sewer manholes were baited with Berlin Fluorocarbamide, and evidence points to the sewers being comparatively rat-free.

A new contract was secured with a large industrial concern, for Council to undertake rodent control on their factory premises, and negotiations were well in hand with a number of other companies for rodent control contracts to be drawn up.

CARAVAN SITES AND CONTROL OF ENVIRONMENT ACT, 1960

There are no registered sites within the district. One caravan was illegally parked for a number of months on land belonging to a large manufacturing company, but later moved on, and no statutory action was taken.

OFFICES, SHOPS AND RAILWAY PREMISES ACT, 1963

Twenty-four premises were registered for the first time during the year, made up as follows: - 8 offices, 10 retail shops, 2 warehouses and 4 catering establishments open to the public. The total number of registered premises was nine more than the previous year.

All newly registered premises were inspected shortly after registration, and one third of the registered premises received a general inspection during the year. A number of minor contraventions were found, (mainly the first-aid facilities not being fully to the required standard): generally the standards were found to be good, and no legal proceedings were taken.

The Ministry of Labour sends a report on the general state of the premises to the Ministry of Labour every year. The report for the year 1971 is given below:-

Registrations and General Inspections

Class of premises	Number of premises registered during year	Total number of registered premises at end of year	Number of registered premises receiving general inspections during the year
Offices	6	41	16
Retail Shops	10	97	24
