On the Health and Sanitary Condition of the

WARMINSTER URBAN DISTRICT

for the Year

1 9 6 0

WARMINSTER URBAN DISTRICT COUNCIL.

J. REYNOLDS.

Medical Officer of Health
of The Warminster Urban
District Council

卷之三

Health Department,
Craven House,
Warminster, Wilts.

J. P. Quartley, Esq., J.P.,
Chairman, Warminster Urban District Council.

Sir,

As directed by the Council in accordance with the Ministry of Health circular 1/61, I have the honour to present my Annual Report for the year 1960. This report is followed by that of your Public Health Inspector.

All persons concerned with the Public Health in the town have continued to co-operate whole-heartedly with me, and I am grateful to your Public Health Committee, the Clerk of the Council, the Family Doctors and visiting Consultants, and the Director of the Public Health Laboratory. The Public Health Inspectors have worked conscientiously and I am personally indebted to them and to my efficient office staff.

I would have liked to have produced this Report earlier but pressure of work has not committed this. I am of the opinion that your Medical Officer should have a larger allocation of time, since it is not possible with an allotment of less than one day per week to perform all the duties imposed by statute.

In the main body of the Report it will be seen that those vital statistics dealing with births and deaths compare favourably with those for England and Wales, and even with those for the county of Wiltshire.

The district has been to all intents and purposes, free from infectious disease during the year, and I am happy that such a large percentage of children are immunized against diphtheria. It will be seen that these had not been a case of diphtheria in the district during the past ten years or, for that matter, a case of smallpox, but 20% fewer children are vaccinated against smallpox than are immunized against diphtheria. I strongly advise all parents to have their children vaccinated in the first year of life.

In general, the health of the community of the Urban District gives cause for satisfaction. I hope this state of affairs continues.

I have the honour to be, Sir,

Your obedient servant,

JOSEPH REYNOLDS.

WARMINSTER URBAN DISTRICT COUNCIL.

To 20th May, 1960.

From 20th May,

<u>Chairman of the Council:</u>	Cllr. H. A. Jones.	Cllr. J. P. Quartley.
<u>Vice-Chairman:</u>	Cllr. J. P. Quartley.	Cllr. F. C. Taylor.
<u>Chairman of the Public Health Committee:</u>	Cllr. J. P. Quartley.	Cllr. J. P. Quartley.
<u>Members of the Public Health Committee:</u>	Chairman of the Council Vice-Chairman of the Council) ex officio.
<u>Councillors:</u>	W. E. Clark. A. L. J. Duke. C.E. Kindersley, F.R.C.S. R. J. King. E. R. Tracey. E. F. S. Whitmarsh.	W. E. Clark. A. L. J. Duke. C.E. Kindersley, F. J. S. MacLachlan. E. R. Tracey. E. F. S. Whitmarsh.

Members elected to the West Wilts Water Board, 1st December, 1960.

Cllr. A. L. J. Duke.
Cllr. J. P. Quartley.

Public Health Officers of the Authority:

Medical Officer of Health:

Joseph Reynolds, M.C., L.R.C.P.Edin., L.R.C.S.Edin.,
L.R.F.P. & S. Glas., D.P.H.(Eng.).

Office:

Craven Hous
Warminster.

Telephone:
Warminster.

Chief Public Health Inspector:

William Parks, M.I.Mun.E., C.R.S.I.

Assistant Public Health Inspector:

J. H. Cooper, M.A.P.H.I.

Portway Hous
Warminster.

Telephone:
Warminster 2

Clerks:

Miss K. V. Jones.

Miss M. A. Brown.

STATISTICS AND SOCIAL CONDITIONS OF THE AREA.

Area of the District (in acres)	5,651
Population - Registrar General's estimate as at 30th June, 1960.	8,800
Density of Population - Persons per acre	1.6
Number of Inhabited Houses and Flats as at 31st December, 1960 (excluding War Department properties)	2,507
Number of Properties owned or held by Council at 31st December, 1960	863
Rateable value at 1st April, 1960	£123,898
Product of Penny Rate	£531
Loan Debt per head of population	£129 4s.10d.

VITAL STATISTICS.

The figures for deaths include those of members of the Armed Forces who were stationed in the area. The population figures given are home populations (i.e., including members of the Armed Forces stationed in the area). The Area comparability factors for use with crude birth and death rates contain adjustments for boundary changes and make allowance for the way in which the sex and age distribution of the local population differs from that for England and Wales as a whole. In addition, the death rate area comparability factors have been adjusted specifically to take account of the presence of any residential institutions in each area. When local crude birth and death rates are multiplied by the appropriate area comparability factor, they are comparable with the crude rate for England and Wales or with the corresponding adjusted rate for any other area.

SECTION B.

GENERAL PROVISION OF HEALTH SERVICES IN THE AREA.

a) Laboratory facilities.

All samples requiring laboratory examination are sent to the Public Health Laboratory in Bath. Not only are reports on these samples available from the Medical Director but he is always willing to visit the District, and the Medical Practitioners and myself find this personal contact most satisfactory.

b) Ambulance Service.

The Ambulance service is provided and controlled by the Wiltshire County Council. The service in this district is controlled from Bradford-on-Avon where the station is manned continuously. A sub-station in Warminster also serves the district. Non-emergency calls must originate from a doctor, dentist or midwife.

To obtain an ambulance in an emergency:-

where there is a dialling system in operation, dial 999

where there is no dialling system, lift the receiver and ask for an ambulance.

c) Midwifery, Home Nursing, Health Visitors and Home Helps.

These services are provided and controlled by the Wiltshire County Council, County Hall, Trowbridge, telephone: Trowbridge 3641.

d) Clinics and Treatment Centres.

The following Clinics serve the districts:-

1. Ante Natal:

At the Maternity Hospitals concerned.

Consultant Clinics are at Trowbridge and Bradford-on-Avon for patients referred by their own doctor or midwife.

Baptist Chapel, West End, Westbury, Wilts. - Wednesday mornings 10.00 - 12.30 p.m.

2. Infant Welfare:

Methodist Chapel, George Street, Warminster at 2 - 4 p.m. on the first and third Fridays of each month.

3. Diphtheria, Whooping Cough, Tetanus and Poliomyelitis Immunization.

Immunization is undertaken by the County Council and Medical Officers visit the schools in outlying villages at specified dates for this purpose. All family doctors will also carry out immunization.

The Warminster Clinic is held on the fourth Friday of every month at 2 p.m. at the Methodist Schoolroom, George Street, Warminster.

4. Paediatrics.

Warminster Hospital on second Friday in each month.

5. Ear, Nose and Throat.

By invitation from the County Council or through the family doctor. Warminster Hospital first Tuesday in each month.

6. Eye.

By invitation from the County Council.

Second, fourth and fifth Fridays in each month at Methodist Schoolroom, Warminster.

7. Orthopaedic.

At Warminster - first Monday, first Friday, and second and fourth Thursdays in each month.

8. Gynaecology.

At Warminster Hospital on fourth Wednesday in each month, and at Westbury Hospital on first and third Mondays in each month.

9. Chest Clinic.

Trowbridge - Wednesday mornings and every Saturday from 10 a.m. to 1 p.m.

Cases referred by own doctor, or by invitation from County Council.

10. Rheumatism.

Alternate Wednesdays at Trowbridge and District Hospital.

11. Radiotherapy Follow Up (Cancer).

At Bristol and Bath by arrangement with the County Council.

At Trowbridge and District Hospital second Thursday in each month.

12. Mental Illness.

Trowbridge and District Hospital every Tuesday afternoon.

13. Chiropody.

By arrangement with the County Council.

14. Venerous Diseases.

Mon.

Women.

General Infirmary, Salisbury. Tuesday - 11.30 a.m. - 1 p.m. Wednesday - 6 - 7.30 p.m.

Friday - 6 - 7.30 p.m. Saturday - 11.30 a.m. - 1 p.m.

Royal United Hospital, Bath. Friday - 5 - 6.30 p.m. Saturday - 5 - 6.30 p.m. Tuesday - 5 - 6.30 p.m. Friday - 2.30 - 4.00

St. Martin's Hospital, Bath. Tuesday - 2 p.m. Tuesday - 2 p.m.

Welfare Foods are distributed at the W.V.S. Centre, Portway House, Warminster, on: Monday 10.00 a.m. - 12 noon, Tuesday 2.00 - 4.00 p.m., Thursday 10.00 a.m. - 12 noon, Friday 2.00 - 4.00 p.m.

Nursing equipment and appliances can be loaned from the Medical Loan Dept. in charge of Mrs. George Nicholls, St. Andrew's, Barcham Road, Warminster.

c) Hospitals.

The four hospitals noted below serve the district and are controlled by the West Wiltshire Hospital Management Committee:

	<u>Beds.</u>	<u>Classification.</u>	<u>Type of case dealt with.</u>
Warminster Hospital	30	Wholly general.	Acute medical and surgical cases. Gynaecological cases.
Westbury and District Hospital.	20	do.	Chronic sick patients for short periods only.
Sambourne Hospital.	121	Mainly chronic sick.	Aged chronic sick. Accommodation reserved to the County Council for 26 welfare residents.
Beckford Orthopaedic Hospital, Warminster.	26	Pre-convalescent and recovery unit, plus orthopaedic cases.	

Many residents also attend and receive treatment at several Hospitals in Bath and Salisbury.

Maternity cases are admitted to hospitals at Bradford-on-Avon, Trowbridge and Salisbury.

e) Hospitals (Continued).

Cases of infectious diseases are admitted to the Isolation Hospital at Bath. The majority of cases of Tuberculosis are admitted to Winsley Chest Hospital, The Manor Hospital, Bath and Odstock Hospital, Salisbury.

f) Mortuary.

An annual payment is made to the West Wiltshire Hospital Management Committee for mortuary facilities at the Sambourne Hospital, Warminster. The visiting pathologist has expressed his satisfaction with the facilities provided.

SECTION C.

PREVENTION AND CONTROL OF INFECTIOUS AND OTHER DISEASES.

The nearest centre which keeps emergency supplies of sera for the treatment of anthrax, botulism and snake-bite is:-

Han Green Hospital, Bristol.

Telephone No. Pill 2165.

The Dispensary, Royal South Hants and Southampton Hospital carries snake-bite antivenin not only against native snakes but against tropical snakes which may be imported with cargoes arriving at the docks.

Special arrangements for the treatment of anthrax have been provided by the South Western Regional Hospital Board at Cleverton Down Hospital, Bath. This hospital also holds anti-anthrax serum for prophylactic use and for the treatment of patients sensitive to penicillin.

Organophosphorus Poisoning.

Certain insecticides contain organophosphorus poisons, e.g. parathion. Treatment is by pyridine-2-aldoxine methiodide (PAM). A small supply of PAM is available in the Royal Infirmary Pharmacy (Telephone No. Bristol 22041).

An emergency service for the treatment of cases of organophosphorus insecticide poisoning is also provided by the Medical Division, C.D.E.E. (Ministry of Supply), Porton, Wilts. (Telephone No. Idmiston 211).

Before 1933, but who had not reached 40 years of age	246	22
Others	15	23

SECTION D.

INSPECTION AND SUPERVISION OF FOOD.

Milk.

Seven dealers were licenced during the year. The Licences issued were:-

To use designation	Tuberculin Tested	5	
-do-	Pasteurized	4	
Supplementary	-do-	Tuberculin Tested	2
-do-	-do-	Pasteurized	1

Milk Sampling.

Twenty-six samples of tuberculin tested milk were sent for examination in the laboratory. All these milks gave negative results when examined for tuberculosis. The tests proved one retailer, with premises outside the district to be selling milk, from a farm outside the district, infected with germs which could cause undulant fever. An Order was made that this milk should be sent for heat treatment before being sold for human consumption. The Order was still in force at the end of the year. Forty-nine samples of pasteurized milk were sent for examination. During autumn two of these samples failed to satisfy the phosphatase test which meant the milk was not properly pasteurized. This milk was derived from a plant in a neighbouring district under the control of the Wiltshire County Council. After attention had been drawn to the matter, samples for the rest of the year were satisfactory.

Ice Cream.

I regret that the Public Health Inspectors report that owing to pressure of work it was impossible to take any samples of ice cream for examination during the year.

Slaughterhouses.

Reference to the following table will show that approximately 90% of the pigs killed in the Bacon Factory were inspected. Despite the fact that this procedure takes up a large proportion of the Public Health Inspector's time, I feel that 100% inspection should be done and even that some ante-mortem inspection should be aimed at. Steps are being taken to bring the slaughterhouse into such a state as to comply with the Slaughterhouse Regulations.

YEAR	NUMBER OF PIGS KILLED	PERCENTAGE INSPECTED
1923	52	84%
1924	52	84%
1925	52	84%
1926	52	84%
1927	52	84%
1928	52	84%
1929	52	84%
1930	52	84%

Meat Inspection.

Details of meat Inspection are as follows:

Carcasses and offal inspected and condemned in whole or part:

	Cattle excluding Cows	Cows	Calves	Sheep and Lambs	Pigs	Horses
Number killed (if known)	-	-	-	-	5,993	-

ALL DISEASES EXCEPT TUBERCULOSIS AND CYSTICERCI						
Whole carcasses condemned	-	-	-	-	-	-
Carcasses of which some part or organ was condemned	-	-	-	-	-	-
Percentage of number inspected affected with disease other than Tuberculosis and Cysticerci	-	-	-	-	-	-
TUBERCULOSIS ONLY						
Whole carcasses condemned	-	-	-	-	3	-
Carcasses of which some part or organ was condemned	-	-	-	-	450	-
Percentage of the number inspected affected with Tuberculosis	-	-	-	-	7.1	-
CYSTICEROSIS						
Carcasses of which some part or organ was condemned	-	-	-	-	-	-
Carcasses submitted to treatment by Refrigeration	-	-	-	-	-	-
Generalised and totally condemned	-	-	-	-	-	-

SECTION E.

SANITARY CIRCUMSTANCES OF THE AREA.Water Supplies.

The management of the water supplies to Warminster passed from the Urban Council to the West Wilts Water Board on the 1st April, 1960. Samples have been sent regularly for bacteriological examination and two samples taken from taps in the district showed coliforms before control passed to the Board. No pollution has been obvious in samples taken from taps in the town since the Board took control, but two samples from a service reservoir showed pollution. It could be that this water had not been exposed to chlorine for a sufficiently long period. I trust that the Board will continue to sustain the good record of its early months of existence. Although the quality of the water has been satisfactory, a sufficient quantity has only been maintained with difficulty. This state of affairs will be remedied when the Board's South Western Regional Scheme comes into operation in the near future. Also, the water derived from the Crockerton source has an acid reaction. For many years this has caused corrosion of water fittings in the district, but lead has never been demonstrated in any domestic supplies. This source at Crockerton is soon to be abandoned. The bacteriological examinations made during the year are summarised below, together with the results of chemical analyses.

Probable numbers per 100 ml.

Public Swimming Bath.

The open-air pool is filled with water from the public mains. It is treated by hand dosage with hyperchlorite compounds and the water is changed once a fortnight. A chlorine residual estimation is made each day. A bacteriological examination was made in August and shows the water to be equivalent to drinking water.

Sewage Disposal.

During the year it became obvious that the sewage works were overloaded. The Council brought this to the notice of their Consultant Engineer and steps were put in motion to expand the works and so prevent nuisance.

Refuse Disposal.

The Surveyor began to dispose of the town refuse by means of controlled tipping during the year. This is a great step forward. There has been no nuisance from the controlled tipping, and the tip previously in use has no longer been a nuisance to the public.

Housing.

In my report for the year 1958, I drew attention to the No. 1 Clearance Area Order. All the houses in existence have been demolished except for Nos. 6 and 6A Brook Street. These two houses are not occupied but are still standing. Further properties were the subject of No. 2, 3, and 4 Clearance Area Orders which were confirmed in March, 1960. The four houses in No. 2 Order 6, 7, 8, and 9 Three Horse Shoes Yard are empty but still standing. Nos. 28, 29, and 30 of No. 3 Order are partially demolished. The four houses of No. 4 Order have been demolished, but the houses 13/14 and 15 Enwell Street of the No. 5 Order are empty but still standing. The Minister held an enquiry with regard to No. 1 Order relating to Nos. 1, 2, 3, and 4 Three Horse Shoes Yard and these houses are shortly to be demolished.

Section 86 of the Housing Act, 1957, requires the Medical Officer of Health of every Borough, Urban and Rural District Council to include in his Annual Report particulars with respect of overcrowding. I have no knowledge as to how much overcrowding there is in the Urban District and would recommend that sufficient staff be employed so that a housing survey may be made.

Mr. W. Parks, Chief Public Health Inspector, reports as follows:

Premises Registered under Sec. 16, Food and Drugs Act, 1955.

Butchers' Shops	10
Grocery and General	22
Fishmongers	6
Fish Fryers	4
Bakehouses	2
Cafes	15

106 visits were made to these various premises and informal action taken in seven cases.

Sewage Disposal.

Investigations were completed as to the adequacy of the sewage disposal works, when it was concluded that an additional primary settlement tank, an extension tank and two more sludge drying beds were needed.

The Council's Consulting Engineers were instructed to proceed with plans for these extensions.

Housing.

During the year 39 houses were completed on the Council's Westleigh Estate and 49 by private enterprise.

12 applications were received and approved for Standard Grants. No application was made for a Discretionary Grant, and there was no application for a Certificate of Disrepair.

Standard grants were made to 12 houses, the amounts being as follows:

£1,000 to assist in carrying out the necessary alterations to a house in need of repair. £1,000 to assist in carrying out the necessary alterations to a house in need of repair. £1,000 to assist in carrying out the necessary alterations to a house in need of repair. £1,000 to assist in carrying out the necessary alterations to a house in need of repair. £1,000 to assist in carrying out the necessary alterations to a house in need of repair. £1,000 to assist in carrying out the necessary alterations to a house in need of repair. £1,000 to assist in carrying out the necessary alterations to a house in need of repair. £1,000 to assist in carrying out the necessary alterations to a house in need of repair. £1,000 to assist in carrying out the necessary alterations to a house in need of repair. £1,000 to assist in carrying out the necessary alterations to a house in need of repair. £1,000 to assist in carrying out the necessary alterations to a house in need of repair.

£1,000

A contribution of £100 was made to each house with £1,000 to assist in carrying out the necessary alterations to a house in need of repair. £100 was made to assist in carrying out the necessary alterations to a house in need of repair. £100 was made to assist in carrying out the necessary alterations to a house in need of repair. £100 was made to assist in carrying out the necessary alterations to a house in need of repair. £100 was made to assist in carrying out the necessary alterations to a house in need of repair. £100 was made to assist in carrying out the necessary alterations to a house in need of repair. £100 was made to assist in carrying out the necessary alterations to a house in need of repair. £100 was made to assist in carrying out the necessary alterations to a house in need of repair. £100 was made to assist in carrying out the necessary alterations to a house in need of repair. £100 was made to assist in carrying out the necessary alterations to a house in need of repair. £100 was made to assist in carrying out the necessary alterations to a house in need of repair. £100 was made to assist in carrying out the necessary alterations to a house in need of repair.
