# WEST SUSSEX COUNTY COUNCIL.

# ANNUAL REPORT for the year 1937, by the COUNTY MEDICAL OFFICER.

The Area in acres, including inland water, is as follows:-

# AREA.

URBAN DISTRICTS		***	24650
RURAL DISTRICTS		444	377266
ADMINISTRATIVE CO	UNTY		401916

# POPULATION.

The resident population of the Administrative County for the year 1937 was estimated by the Registrar-General to be as follows:—

URBAN DISTRICTS		***	142900
RURAL DISTRICTS			117000
ADMINISTRATIVE COUNT	Y	***	259900

During the past year the population is estimated to have increased by 9,400; about one third of the increase is attributed to the Borough of Worthing. Substantial increases also occurred in the Rural Districts of Worthing (2,150) and Chichester (1,080).

In Table I (page 6) is shown the Estimated Population for each Sanitary District.

# CENSUS POPULATIONS.

			1901	1911	1921*	1931
URBAN DISTRICTS			70223	83590	90044	114800
RURAL DISTRICTS			81053	92718	94830	108195
ADMINISTRATIVE COU	UNTY	***	151276	176308	184874	222995

<sup>\*</sup> As amended by Registrar-General.

# INHABITED HOUSES (CENSUS, 1931).

	Urban Districts.	Rural Districts.	Administrative County
Number of Inhabited Houses	 27345	27680	55025
Number of families or separate occupiers	 29607	28198	57805

Rateable Value of County	***			 	***	***	£2,504,925
Product of Penny Rate, 1937-3 For General County Purposes For Special County Purposes		ling Mo	tornita	 bild W	(alfara)		£10,435 £6,935

# SOCIAL CONDITIONS.

Agriculture, fruit growing, market gardening, etc., are the important industries in the County, and the seaside towns attract a large number of visitors during the season. Inland, many parts of the County are residential in character.

# SUMMARY OF VITAL STATISTICS, 1937.

Live Births :			Total	Male	Female					
Legitimate Illegitimate			3440 180	1729 77	$1711 \\ 103$		te per it popula			estimated 13.93
Still Births			138	74	64	Rate pe	r 1000	total	(live	and still) 36.72
Deaths			3373	1589	1784					estimated 12.98
Deaths from Pu	erpera	I caus	ses :—		Deaths	Rate p	er 1000 to still) bi		e and	
	eral sep puerpe		ises				0.53 1.33 1.86	3		
Death rate of inf	ants u	nder o	one year	of age :-						
			live birth						46	
					live birth te live bir				43 95	
Deaths from M	easles	(all a	ges)		***					1
Deaths from W	hoopin	g Cou	igh (all a	ages)				•••		3
Deaths from Di	arrhoe	a (un	der 2 yea	ars of a	ge)					7

The Death Rate remains constant and at a high level, depending upon the age constitution of the population. The number of births is increasing but only corresponding with the increase of population, as the Birth Rate remains practically stationery.

# VITAL STATISTICS.

Table I below gives the chief vital statistics of each Sanitary District, of the total Urban Districts, the total Rural Districts and Administrative County.

TABLE I.-VITAL STATISTICS, 1937.

Sanitary District		Estimated Population to middle of 1937	No. of Births	Birth Rate	Illegitimate Births	No. of Deaths	Death Rate	Deaths under 1 year	Infant Mor- tality rate per 1,000 births	Pulmonary Tuberculosis Death Rate	Cancer Death Rate

#### INFECTIOUS DISEASES.

# ZYMOTIC MORTALITY, 1937.

In Table VII below is given the number of deaths from Zymotic diseases in each Sanitary District. The aggregate number of deaths in the administrative county was 20, and the death rate 0.08 per thousand of the population. The aggregate number of deaths in the Urban Districts was 10, and in the Rural Districts 10, the respective rates being 0.07 and 0.09 per thousand of the population.

TABLE VII.—Number of Deaths from Zymotic Diseases in each Sanitary District.

In addition 53 cases of Chicken Pox were notified in Shoreham-by-Sea U.D.

During the previous five years an average of 1,406 Infectious Cases were notified in the County, of which an average of 652 cases were removed to Isolation Hospitals.

# SMALLPOX.

No cases of Smallpox occurred in the County during the year.

# ISOLATION HOSPITAL AND SMALLPOX HOSPITAL ACCOMMODATION.

The Isolation Hospital and Smallpox Hospital accommodation is as set out in detail in my Annual Report for 1930; no accommodation exists in any of the Sanitary Districts in the Northern Combined Sanitary District, arrangements being made with neighbouring authorities to admit cases into their Isolation Hospitals at agreed charges for maintenance.

# GENERAL PROVISION OF HEALTH SERVICES IN THE AREA.

# HOSPITALS PROVIDED OR SUBSIDISED BY THE COUNTY COUNCIL. Tuberculosis—

Name of Institution	Address	Supported wholly by County Council	Number of Beds
Aldingbourne House	Near Chichester	Yes	70
*Swandean Hospital	Durrington, near Worthing	Yes	12

Infectious Diseases Hospital provided by the Worthing Corporation, to which the County Council
have been permitted to add and maintain a Tuberculosis Block for acute and advanced cases of
both sexes.

Mental Hospital.

The West Sussex County Mental Hospital at Chichester provides accommodation for 1,045 patients

(379 males and 666 females).

Reference is also made to Hospital Treatment provided in various Hospitals in the Sections of this Report dealing with Tuberculosis, Maternity and Child Welfare, Orthopaedic and Venereal Diseases.

#### VOLUNTARY HOSPITALS.

		No. of E	Beds (Surgica	al and Medi	cal).	
	Male	Female	Children	Private	Other	Total
General Hospitals :						
Chichester (Royal West Sussex)	38	38	22	12	4	114
Horsham	12	12	10	3	-	37
Worthing	28	38	16	12		94
Cottage Hospitals :						
Arundel and District	5	5	2	4		16

Easebourne	4	8	2	5	5	24
Petworth	- 6	6	1	2	_	15
	114	129	56	46	11	356

The General Hospital accommodation may be regarded as convenient and adequate for the needs

of the County. In most districts there are Ambulance facilities, as shown on page 13.

The Public Assistance Committee has made arrangements for cases to be treated in the General and Cottage Hospitals at agreed rates of maintenance. The West Sussex Education Committee and the Midwives, Maternity and Child Welfare Committee have made arrangements with all the Hospitals in the County for the treatment of children suffering from enlarged tonsils and adenoids, at agreed rates. The Public Health and Housing Committee has an agreement with Worthing Hospital for the use of the Out-Patient Department as a Tuberculosis Dispensary and Venereal Diseases Clinic.

# CLINICS AND TREATMENT CENTRES.

The following Statement shows the Clinics and Treatment Centres provided by the County Council:

List of Clinics and Treatment Centres provided by the County Council.

In addition, Dental Treatment is carried out at a number of Schools and Temporary Centres and a number of M. and C.W. Centres are held in Village Halls, etc. For complete list of M. & C. W. Centres, see page 16.

† Removed from Parochial Hall and Lyon Street on 1st September, 1938.

\* Removed from Town Hall and Infants Council School on 1st September, 1938.

# COUNTY LABORATORY.

Since the opening of the County Laboratory until the end of the year about 5,000 specimens had been examined including the examination of a large number of samples of milk under the Milk (Special Designations) Order, 1936, and a number of biological tests for the detection of tuberculosis.

# AMBULANCE FACILITIES.

The rollowing Statement shows the Ambulance Facilities in the County :—

	(a) For Infectious Cases	(b) For Non-Infectious Cases and Accidents.
Urban Districts Arundel (M.B.)	Ambulance of Authority providing accommodation	Littlehampton St. John Ambulance British Red Cross Ambulance
Bognor Regis	Motor Ambulance provided by Local Authority	Ambulance provided by Local Authority
Chichester (M.B.)	Motor Ambulance provided by City Council	Three St. John Ambulances
Horsham	Motor Ambulance provided jointly with Horsham Rural District	One Police Ambulance and one St. John Ambulance
Littlehampton	Motor Ambulance provided by Local Authority	Littlehampton St. John Ambulance
Shoreham-by-Sea	Ambulance of Authority providing accommodation	Police Ambulance
Southwick	Ditto	Ditto
Worthing (M.B.)	Motor Ambulance provided by Local Authority	One Police Ambulance and two St. John Ambulances
Rural Districts— Chanctonbury	Ambulance of Authority providing accommodation	St. John Ambulance
Chichester	Motor Ambulance by arrangement with the City of Chichester	Chichester St. John Ambulances British Red Cross Society Ambu- lance, Slindon Bognor Regis Ambulance
Horsham	Motor Ambulance provided jointly with Horsham Urban District	St. John Ambulance, Crawley
Midhurst	Ambulance of Authority providing accommodation	British Red Cross Society Ambulance
Petworth	Ditto	Police Ambulance
Worthing	Ditto	Littlehampton St. John Ambulance

# LOCAL GOVERNMENT ACT, 1929.

No formal declaration has been made under the Local Government Act, 1929, but the closest co-operation exists between the Public Assistance Committee and the other Committees of the County Council discharging functions under some of the special Acts set out in Section 5 (1). The Midwive's Maternity and Child Welfare Committee is responsible for the majority of the maternity cases requiring hospital treatment; the Committee for the Care of the Mentally Defective deals with a very large proportion of the mental defectives; the Public Health and Housing Committee deals with practically all cases of tuberculosis requiring institutional treatment; whilst, with rare exceptions, assistance to the blind is given through the West Sussex Association for the Blind.

Poor Law Institutions:—The following statement shows the Institutional accommodation as at present utilised:—

(Abbreviations: M.-Men. W.Women. C.-Children. T.-Total).

	8	14	22	2	26	6	34	4	4	8	14	44	6	64

A new Institution for the Sick is now being built at Chichester, planned to accommodate 144 beds.

# CHICHESTER CHILDREN'S HOMES.

The Chichester Children's Homes were opened on 1st July, 1935, and provide the following accommodation:—

							No. of	Beds	
			Sicl	k Child	lren	0	Other C	hildren	Total
Eight Cottage Homes				8			9-	4	102
Nursery Block (child 5 years of age)	ren 	under		2			20	0	22
Total				10			114	4	124
Isolation Block		***							4
Grand Total			/			***			128

In addition, 40 beds are retained at the Shoreham Children's Homes (East Sussex County Council).

Boarded-out Children.—Arrangements have been made for children boarded-out by the Public Assistance Committee to be visited by the Health Visitors once every six weeks, or more frequently, if necessary. At each routine visit the Health Visitor inspects the sleeping accommodation of the child and also reports on the condition of the child, home conditions, home training, etc. No adverse reports were received; in several instances physical defects detected in children were appropriately dealt with.

The number of children under supervision on the 31st December, 1937, was 55.

# MATERNITY AND CHILD WELFARE. INFANT MORTALITY.

There were 165 deaths of infants under one year, which is equivalent to an Infant Mortality Rate of 46 per 1,000 births, as compared with the rate of 35 for the previous year, the lowest rate recorded. Nearly 70% of deaths of infants under one year were due to congenital debility, premature birth, malformations, etc., but there was an increase of deaths also from influenza and respiratory diseases which affected the rate.

TABLE X.—Showing Infant Mortality Rates for Urban Districts, Rural Districts, Administrative County and England and Wales, for the years 1923-1937.

#### ILLEGITIMATE BIRTHS.

There were 180 illegitimate births (5.0 per cent. of the total births), and the infant mortality rate among illegitimate children was 95 per thousand births, as compared with a rate of 43 for legitimate children.

# NOTIFICATION OF BIRTHS, PUBLIC HEALTH ACT, 1936.

The following figures do not include the Borough of Worthing, which is a separate Maternity and Child Welfare Authority:—

BIRTHS NOTIFIED: (1) Live Births, 2,861; (2) Still Births, 114; Total, 2,975. BIRTHS NOTIFIED BY: (1) Midwives, 2,195; (2) By Doctors and Parents, 780.

In the Borough of Worthing 624 births were notified by Midwives and 50 by Doctors and Parents.

#### ANTE-NATAL WORK AND HEALTH VISITING.

Ante-Natal Work.—As is shewn in Table XI the Ante-Natal work is extensively carried out by the Nurses. The attendance at the Ante-Natal Clinics, given in Table XII, is satisfactory at Chichester, Horsham and Shoreham, and in a few of the smaller Centres.

Table XI.—Showing Number of Visits to Expectant Mothers, 1933-1937.

					-Natal Visits Nurse.	No. of Cas	es attended.	atal Dist.

	Total			 9602	51799	9342	4563	16509

Health Visiting.—It is the routine practice of the Health Visitor to visit children four times during the first year of life, twice a year during the second and third years of life, and once a year during the fourth and fifth years of life, but actually many more visits are paid, especially to children showing any departure from normal health or progress. A large proportion of the children are attended at birth by the Health Visitor in her capacity as Midwife or Maternity Nurse, but for the purpose of Health Visiting her first visit is recorded on the 14th day or thereabouts. During the year 1937, 41,635 health visits were recorded as follows:—

Number of Visits to Infants under one year-(1) First visits, 2,681; (2) Total visits, 19,075.

Total Number of Visits to Children aged 1 to 5 years-19,879.

The following table gives the number of Centres working in the County at the end of the year, the days and hours of attendance, the numbers who attended for the first time, and the average attendance per session:—

# \* Voluntary Centres.

(a) Sixteen Special Sessions for Ante-Natal Work were held during the year.
 (b) Twenty-six Special Sessions for Ante-Natal Work were held during the year.
 (c) Twenty-six Special Sessions for Ante-Natal Work were held during the year.

# SUPPLY OF MILK FOR EXPECTANT AND NURSING MOTHERS AND FOR INFANTS.

During the financial year, 225 families were supplied with 956 orders for 26,184 pints of fresh milk, and, in addition, 6,333 lbs. of dried milk were distributed free, whilst 12,446 lbs. were sold, the approximate receipts being £988. The cost of the free milk, fresh and dried, was approximately £780.

#### HOSPITAL TREATMENT.

The following statement summarises treatment provided during the year :-

(c)*Worthing Hospital Maternity Home (d) General Hospitals (Nose and	_	18	15		3	19
Throat cases)	-	36	36	_	-	5

\* Opened 1/8/37

Under an agreement entered into by the County Council and the Worthing Corporation with the Board of Management of the Worthing Hospital there has been added to the Hospital, by the Board, a 10 bed Maternity Unit in a separate building with separate administration.

The two authorities have contributed to the capital cost of the building and entered into an

agreement for the retention of 5 beds.

During the past 5 years an average of 35 cases received treatment at the Sussex Maternity and Women's Hospital, Brighton, and during the past 5 years an average of 211 cases received treatment at Southlands Hospital.

In the City of Chichester and neighbourhood, emergency cases are generally referred by Medical

Practitioners to the Royal West Sussex Hospital.

# MIDWIVES ACTS, 1902, 1918, 1926 and 1936.

Midwives Practising in the County.—During the year, 219 Certified Midwives notified their intention to practise. Twenty-nine of these Midwives left the County during the year, eighteen notified for temporary duty, five ceased to practise, thirteen acted as Maternity Nurse only, one acted once only, two were off duty ill and seven others were exempted from supervision. Excluding sixteen Midwives who resided without the County and were inspected by other Authorities, there remained at the end of the year 128 Midwives requiring inspection, all of whom are trained.

Inspections.—Quarterly visits were paid by the County Inspector of Midwives, and 158 routine

visits of inspection and 29 special visits were made during the year.

Notifications by Midwives.—During the year 1,046 notifications were received as follows:—

				1.046
Notifications of artificial feeding			***	71
Notifications of liability to be a source of	of infection	***		79
Notifications of having laid out a dead b	ody			46

year were as follows:

#### FEES TO DOCTORS CALLED IN BY MIDWIVES.

During the financial year ended 31st March, 1938, fees amounting to approximately £1,059 were paid to Medical Practitioners in 737 instances. Contributions amounting to approximately £402 were received in respect of 518 cases. In 66 instances, fees amounting to approximately £66 were paid direct by patients to Doctors.

# OPHTHALMIA NEONATORUM REGULATIONS, 1926.

Early information is received on cases where a midwife is in attendance and information on other cases is received by telephone from the District Medical Officer of Health by whom the notification is received. In all cases, the Doctor in attendance is consulted and, when required, a Special Nurse is provided, otherwise the local Nurse deals with the case. During the year 1937, 21 notifications of Ophthalmia Neonatorum were received, and the following Statement summarises the cases which have occurred during the past five years :-

#### STATEMENT SHOWING NUMBER OF CASES OF OPHTHALMIA NEONATORUM, 1933-37.

1937	21	6	15	21	-	-	-

#### BIRTH CONTROL.

Arrangements have been made with the Brighton Corporation for the attendance of suitable cases at the Brighton Contraceptive Clinic, held on the second and fourth Tuesdays in the month at Royal York Buildings, Old Steine, Brighton.

In accordance with Circular 1408, issued by the Ministry of Health on 31st May, 1934, advice and treatment are available for married women in whose cases pregnancy would be detrimental to health when there is organic disease such as tuberculosis, heart disease, diabetes, chronic nephritis, etc., in which childbearing is likely seriously to endanger life.

# MATERNAL MORTALITY.

During the year 1937, 7 deaths of mothers occured as follows:— Puerperal Sepsis, 2; Other Accidents and Diseases of Pregnancy, 5.

The mortality rate was equal to 1.9 per thousand births as compared with rates of 2.9 in 1936, and 3.9 in 1935. The rates in the Urban and Rural Districts were 0.5 and 3.5 respectively, as compared with rates of 3.3 and 2.4 the previous year.

The following table summarises the maternal deaths and rates during the past ten years:—

# TABLE XIII.-MATERNAL MORTALITY AND RATES PER 1,000 BIRTHS-1928-1937.

		Uri	AN			Rus	LAL	Constant of the last		ADMINISTRATI	IVE C	OUNTY		
YEAR		uerperal Sepsis		Other ccidents		erperal Sepsis		Other		uerperal Sepsis		Other		TOTAL
	No.	Rate per 1000 Births	No.	Rate per 1000 Births	No.	Rate per 1000 Birth								
1928	2	(1.4)	2	(1.4)	1	(0.6)	6	(3.9)	3	(1.0)	8	(2.7)	11	(3.7)
1929	2	(1.4)	2	(1.4)	2	(1.3)	4	(2.6)	4	(1.4)	6	(2.0)	10	(3.4)
1930	1	(0.7)	6	(4.0)	3	(2.0)	1	(0.6)	4	(1.3)	7	(2.4)	11	(3.7)
1931	2	(1.3)	6	(3.9)	3	(1.8)	.2	(1.2)	5	(1.5)	8	(2.5)	13	(4.1)
1932	5	(3.4)	6	(4.1)	4	(2.6)	4	(2.6)	9	(3.0)	10	(3.4)	19	(6.3)
1933	5	(3.4)	3	(2.0)	2	(1.4)	3	(2.0)	7	(2.4)	6	(2.0)	13	(4.4)
1934	2	(1.2)	2	(1.2)	3	(1.9)	- 6	(3.9)	5	(1.6)	8	(2.5)	13	(4.1)
1935	2	(1.2)	5	(2.9)	3	(1.8)	3	(1.8)	5	(1.5)	8	(2.4)	13	(3.9)
1936	3	(1.7)	3	(1.7)	-	(-)	4	(2.4)	3	(0.9)	7	(2.0)	10	(2.9)
1937	1	(0.5)	-	(-)	1	(0.6)	5	(2.9)	2	(0.6)	5	(1.4)	7	(1.9)
Totals	25	(1.6)	35	(2.2)	22	(1.4)	38	(2.4)	47	(1.5)	73	(2.3)	120	(3.8)

The Maternal Mortality Rate is much lower than any Rate previously recorded and the exceptional Rate for the Urban Districts is the more significant, as the only death recorded last year was due to sepsis in a case of an abortion.

# OBSTETRIC CONSULTANT.

A Consultant Service for obstetric emergencies has been established and Mr. K. F. Mackenzie, of 17 First Avenue, Hove, has been/appointed consultant for the area. In any mergency Medical Practitioners are authorised to retain the services of the consultant.

# PUERPERAL FEVER AND PUERPERAL PYREXIA REGULATIONS, 1926.

These Regulations came into force on 1st October, 1926, and made notifiable any febrile condition

occurring in a woman within 21 days after childbirth or miscarriage.

Any febrile disturbance causing a temperature of 100.4 F. or more, sustained during a period of 24 hours or recurring during that period, must be notified forthwith, although the Doctor may be uncertain as to the cause of the febrile symptoms. By notifying the case as suffering from "Puerperal Pyrexia "-the term used in the regulations for the notifiable febrile disturbance (see above)-the Medical Practitioner takes the first step to prevent the spread of infection and he makes available to his patient any special services that may be provided by the Maternity and Child Welfare Authority of the area in which the patient is residing.

With the approval of the Ministry of Health, the following special arrangements have been made

by the County Council :-

1. Consultations.—Any Medical Practitioner may obtain a second opinion on his case. The County Council, after consultation with the British Medical Association (Sussex Branch), have appointed the following Consultants

DR. A. H. Bostock, Westaway, Parklands, Chichester. Tel. No. Chichester 2340. MR. W. A. Bowring, Furze Hill, Hove. Tel. No. Hove 4202. Dr. E. C. Bradford, Laneside, Horsham. Tel. No. Horsham 196.

Dr. P. C. Cole, Broadwater Lodge, Broadwater Street, East Worthing.

Tel. No. Worthing 309.

DR. LILIAN JEFFRIES, 10 Adelaide Crescent, Hove. Tel. No. Hove 3414.
MR. H. J. McCurrich, 19 Palmeira Avenue, Hove. Tel. No. Hove 1688.
MR. K. F. Mackenzie, 17 First Avenue, Hove. Tel. No. Hove 4867.

- Bacteriological Examinations.—These examinations are carried out by Dr. C. J. Harwood Little, at the County Laboratory, County Hall, Chichester.
- 3. Hospital Treatment.—Arrangements have been made for the treatment of cases at (1) The Brighton Sanatorium, by agreement with the Brighton Corporation; (2) Southlands Hospital, by agreement with the East Sussex County Council.
- 4. Special Nurses.—Arrangements are made with the County Nursing Association for the supply of Special Nurses as in former years.
- 5. Other Investigations.—The County Inspector of Midwives makes special inquiries into cases of Pyrexia. Special inquiries are also made into all maternal deaths, the Inquiry Form issued by the Ministry of Health being used by the County Medical Officer for this purpose.

# PUERPERAL FEVER.

Under the provisions of the Public Health Act, 1936, the term "Puerperal Fever" (also the term "Continued Fever") has been omitted from the definition of notifiable disease, under Section 343. As from the 1st October, 1937, the term "Puerperal Fever" ceased to be used and the conditions formally notified as such are notified under the term " Puerperal Pyrexia."

The following statement gives the number of cases of Puerperal Fever and Puerperal Pyrexia notified during the year. The figures for the Borough of Worthing, which is an independent Authority

for Maternity and Child Welfare, are shown separately :-

# Statement showing number of cases of Puerperal Fever and Puerperal Pyrexia notified during the year.

	N	Number of cases notified						
	Puerperal Fever	Puerperal Pyrexia	Total					
Administrative County (Less Worthing M.B.) Worthing M.B	4 (1)	74 (4) 6	78 (5) 6					
Total Administrative County	4 (1)	80 (4)	84 (5)					

The figures in brackets record Fatal Cases dying on or before 31st December, 1937.

The above figures do not include notifications received from Southlands Hospital relating to East Sussex and Hove.

The following statement indicates the distribution of the notified cases of Puerperal Fever and Puerperal Pyrexia, distinguishing between cases treated at home and those treated at Hospitals, Maternity Homes, etc.

		Nu	mber of Cases		
	Patients confir	ned at their own	Homes and		at   confined at y   Hospital
	Nursed at Home	Removed to Hospital before notification	Removed to Hospital after notification	Patients confined at Maternity Homes	
Administrative County (less Worthing M.B.) Worthing M.B	17	3	15 (2) 5	1 1	4 (2)
Total Administrative County	17	3	20 (2)	2	4 (2)

The figures in brackets record fatal cases dying on or before 31st December, 1937.

#### REGISTRATION OF NURSING HOMES.

During the year, eighteen applications for registration, including seven for re-registration on change of proprietor or address, were received, and in every instance registration was granted.

At the end of the year, there were 64 Nursing Homes, containing accommodation of 345 beds, as follows:—

		 	***	11
,, Maternity, Medical and Surgical C	ases	 		13
		 	***	12
		 ***	***	23
		 ***	***	3
Rest Homes and Nursery Homes		 ***	***	2
				-
				64

These Nursing Homes are situated at: Apuldram (1), Arundel (2), Barnham (1), Bognor Regis (7), Camelsdale (1), Chichester (1), Crawley (2), Brooks Green (1), Easebourne (1), Ferring (1), Henfield (1), Horsham (2), Kingsley Green (1), Littlehampton (3), Midhurst (1), Middleton (1) Petworth (1), Rudgwick (1), Rustington (1), Shoreham-by-Sea (2), Southwater (1), Southwick (1), Steyning (1), and Worthing (29).

No Orders have been made refusing or cancelling Registration, and no Applications for Exemption

have been received.

# PUBLIC HEALTH ACT, 1936.

# INFANT LIFE PROTECTION.

Under this Act every person who undertakes to keep for payment a child under the age of nine years must give notice, in writing, in the case of the first child not less than seven days before reception and in the case of any other child not less than 48 hours before reception. There are also important time limits in regard to the notification of:—

(a) Change of residence (at least seven days before removal).

(b) Death of child (within 24 hours).

(c) Transference of child (within 24 hours).

The Health Visitors are authorised to exercise as Infant Protection Visitors, the powers of visiting and inspecting the children and the premises in which they are kept. Cases are visited once a Quarter, or more frequently, if necessary, and reports submitted to the County Medical Officer.

The following statement shews the number of children registered and the number of children removed from the register for various reasons during the year 1937:—

Number of cases on Register on 31/12/36		911		174

Figures in brackets refer to children under school age and are included in totals. Twenty-eight children under school age were supplied with splints.

#### DISEASES OF THE EAR.

Reference was made in my Annual Report for 1930 to the arrangements which had been completed for the treatment of children suffering from diseases of the ear, and the following Table summarises the work done and treatment carried out during the year 1936:—

Clinics	No. of Clinics	N	No. of Attend- ances	Opera	tive Treat	Tonsils and	Total	
		No. of Cases		Mastoid Opera- tion	Para- centesis	Other Condi- tions	Adenoids removed	Dis- charged
Chichester	6	57 (3)	65 (3)	politica.	-	1	18	9
Sussex Throat and Ear Hospital, Brighton	5	43 (2)	45 (2)	2	2	2	16	4
	11	100 (5)	110 (5)	2	2	3	34	13

Figures in brackets refer to children under school age and are included in totals.

# COUNTY NURSING SERVICE.

At the end of the year, the West Sussex County Nursing Association employed a staff consisting of County Superintendent, 1st Assistant County Superintendent, 2nd Assistant County Superintendent and three whole-time Health Visitors engaged partly for Public Health Work and partly for emergency work, which includes the nursing of cases of Ophthalmia Neonatorum, Septic Lying-in Cases and the relief of Nurse Midwives in illness or exceptional stress of work. There were also 73 affiliated District Nursing Associations employing 110 Nurses (including the Worthing District Nursing Association, employing four Queen's Nurses). Grant was paid by the County Council in respect of the whole-time staff and 96 Nurses employed by the District Nursing Associations.

In addition, grants of approximately £550 per annum are made to the County Nursing Association towards the cost of training the Midwives and towards the cost of Post-Graduate Courses for Midwives. During the past eight years an average of six nurses have attended Post-Graduate Courses.

# DIPHTHERIA IMMUNISATION.

This work, carried on by Dr. Templeton, with the help of the Medcial Officers of Health of the Sanitary Districts and of the General Practitioners in attendance at the Maternity and Child Welfare Centres, made good progress during the year and it is hoped that in another year a high proportion of the younger children will be immunised.

Children admitted to the Children's Ward at Aldingbourne House, the Chichester Children's Home and the Littlehampton Covent have been inocluated as a matter of routine.

#### TUBERCULOSIS.

# TABLE XIV .- PUBLIC HEALTH (TUBERCULOSIS) REGULATIONS, 1912 and 1924.

SUMMARY of Primary Notifications during the period from the 1st January, 1937, to the 31st December, 1937.

Notifications on:							For	rm ''	A "				
		0	1	5	10	15	20	25	35	45	55	65 &	Totall
		1	5	10	15	20	25	35	45	55	65	Up	Totan
Pulmonary Tuberc	ulosis :												
Males	***		1	1	1	7	7	25	20	12	12	6	92
Females		-	1	1	2	5	7	19	15	8	2	3	63
			2	2	3	12	14	44	35	20	14	9	155
Other Forms of Tul (Non-Pulmonary)	erculo	sis:											
Males	***	-	5	12	5	3	-	-	1	1	1		28
Females		1	2	6	5 3	3	2	4	-	-	1	-	22
		1	7	18	8	6	2	4	1	1	2		50

The following NEW cases of Tuberculosis came to the knowledge of the Medical Officer of Health, otherwise than by Notification on Form "A," in addition to the primary cases shown in the above Table:—

	Age Periods											
	0	1	5	10	15	20	25	35	45	55	65 & Up	Total
	1	5	10	15	20	20 25	5 35	45	55	65		
Pulmonary Males		-	1			1	5	6	1	1	1	16

45			 13	9	2	-	14	6	1	1				
55			 13	4	1	1	10	4	1	1				
65 aı	nd upw	ards	 7	4	-	-	7	4	1	-				
To	otals		 108	76	30	22	66	45	13	9				

Includes all primary notifications and NEW cases coming to the knowledge of the Medical Officer of Health during the year.

Of the 133 deaths which occurred during the year, 10 occurred in non-notified cases.

#### TUBERCULOSIS MORTALITY.

Tuberculosis in its various forms accounted for 133 deaths, the death-rate being 0.51 per 1,000 population, as compared with 0.55 per 1,000 population in 1936. 3.9 per cent. of the total mortality from all causes was due to tuberculosis, as compared with 4.2 per cent. last year.

TABLE XV.—Showing number of deaths at different periods of life in the Administrative County, Urban Districts and Rural Districts:—

# A.—Tuberculosis of respiratory system.

		All ages	0	1	2	5	15	25	45	65	75
		All ages	1	2	5	15	25	45	65	75	& up

No	n-Pulmonary Tubercu	losis	:				
	Urban Districts			11	3 (27.3%)	3 (27.3%)	5 (45.4%)
	Rural Districts			11	5 (45.5%)	-	6 (54.5%)
	Administrative County	***		22	8 (36.4%)	3 (13.6%)	11 (50.0%)
All	Forms of Tuberculos	is:					
	Urban Districts	***		82	3 (3.6%)	4 (4.9%)	75 (91.5%)
	Rural Districts	***	***	51	5 (9.8%)	1 (2.0%)	45 (88.2%)
	Administrative County	***		133	8 (6.0%)	5 (3.8%)	120 (90.2%)

Pulmonary Tuberculosis—From Table XVII it will be noted that this disease was the cause of 111 deaths (as compared with an average of 114 deaths during the past ten years), i.e., 83.5% of all deaths from all forms of Tuberculosis, giving a death rate for the County of 0.43 per 1,000 population, as compared with 0.47 per 1,000 in the preceding year.

TABLE XVII.—The following Table shows the number of deaths from Pulmonary Tuberculosis from 1928 to 1937:

	1928	1929	1930	1931	1932	1933	1934	1935	1936	1937

#### PUBLIC VACCINATION.

The functions under the Vaccination Acts were transferred to the County Council on 1st April, 1930, in accordance with Section 2 (b) of the Local Government Act, 1929, and are administered by the Public Health and Housing Committee.

The Vaccination Acts require that every child shall be vaccinated before attaining the age of six months, unless the child has already had Smallpox or exemption is claimed by the parents or guardians, before the child reaches the age of four months, by means of a statutory declaration of conscientious objection to vaccination. Also, vaccination may be postponed by medical certificate.

The Vaccination Acts of 1898 and 1907 have rendered exemption from vaccination an easy matter, and now only about 37 per cent. of children are vaccinated during infancy. In the County of West Sussex, 37.6 per cent. of the children born in 1936 were vaccinated as compared with 37.7 per cent. for the previous year.

A list of the Public Vaccinators and Vaccination Officers is given at the beginning of this Report.

The following Summary has been prepared from Returns made by the Vaccination Officers:-

#### VENEREAL DISEASES.

# FACILITIES FOR TREATMENT

Clinics.—Treatment, provided free of cost at the Clinics, is available to any resident in the County suffering from, or suspected to be suffering from, Venereal Diseases in its earlier and at all communicable stages. Patients may attend the Clinics on the advice of their Medical Attendant or on their own initative.

The following Statement gives the days and hours of the various Clinics serving this County:-

Royal Portsmouth Hospital, Landport, Portsmouth. (This Clinic is intended to serve persons resident in the Western part of the County)—

Men—Tuesdays, 10 a.m. to 12 noon. 5 to 7 p.m.

Wednesdays, 4 p.m.

Thursdays, 10 a.m. to 12 noon. 5 to 7 p.m.

Women—Mondays, 3.30 p.m. to 5.30 p.m.

Wednesdays, 2 p.m. to 4 p.m.

Fridays, 10 a.m. to 12 noon.

Worthing Hospital, Lyndhurst Road, Worthing. (This Clinic is intended to serve persons resident in the Eastern part of the County)—

Men and Women—Wednesdays, Women, 3 p.m. to 4 p.m.; Men, 4 p.m. to 5 p.m. Fridays, Women, 5 p.m. to 6 p.m.; Men, 6 p.m. to 7 p.m.

Royal Sussex County Hospital, Eastern Road, Kemp Town, Brighton-

Men—Mondays, 5 p.m. to 7 p.m. Thursdays, 5.30 p.m. to 7.30 p.m. Saturdays, 2.30 p.m. to 4.30 p.m. Women—Tuesdays, 5 p.m. to 7 p.m.
Thursdays, 3.30 p.m. to 5.30 p.m.
Saturdays, 11.30 a.m. to 1.30 p.m.

A limited number of beds is reserved at the Hospitals for patients requiring In-patient Treatment on the recommendation of the Medical Officer in charge of the Clinic.

Complete secrecy as to the names and addresses of all patients is observed. This information is only required by the Medical Officer in charge of the Clinic for the purpose of communicating with the patients as to subsequent treatment, and in order to allocate the cost between the various Authorities having arrangements at the same Hospital.

# TRAVELLING EXPENSES OF PATIENTS.

The County Council have authority, under certain circumstances, to defray the reasonable travelling expenses of patients attending the Clinics who are unable to bear the cost themselves.

# PATHOLOGICAL EXAMINATION OF SPECIMENS.

Specimens may be sent for pathological examination by any medical practitioner in the County. The examination and report are made without cost to either the doctor or the patient. Stamped outfits, with full directions for the collection of specimens are supplied free of charge, on application being made to the County Health Department.

# SUPPLY OF DRUGS.

Arrangements are made for the supply of drugs to medical practitioners, but very few requests have been received.

# TREATMENT OF CASES.

#### WATER SUPPLY. DRAINAGE AND SEWERAGE.

Details regarding Water Supply, Drainage and Sewerage were given in my Annual Report for 1930.

The following is a list of work completed or commenced during the year:—

#### WATER SUPPLY.

Horsham R.D. The supply from the Crawley Waterworks was discontinued as samples showed evidence of pollution.

Midhurst R.D. Extensions to the works at Rotherfield have been made and it is hoped that there will be available an adequate supply enabling extensions

of the mains to the Parishes of Rogate, Stedham, etc.

Worthing M.B.

During the year the new water scheme designed to meet

During the year the new water scheme designed to meet the increasing demands for water and involving an estimated expenditure of £150,000 was started. Two new boreholes and two winding shafts were sunk, while the driving of headings at the Broadwater Pumping Station was completed and similar work is in progress at the Patching Pumping Station. The work of laying new trunk mains of large diameter to improve the distribution system and the construction of the new reservoir at Broadwater was commenced.

There were considerable extension of mains in many of the Urban Districts and in the Rural Districts of Chanctonbury and Chichester.

#### DRAINAGE AND SEWERAGE.

Bognor Regis U.D.

Chichester City

Work on the comprehensive drainage scheme was commenced.

Sewerage Scheme for providing sewers for the added areas was completed during the year.

Littlehampton U.D. Sewerage Scheme in Lyminster area completed. Sewerage scheme in

Shoreham-by-Sea U.D. eastern area commenced.

The Public Enquiry was held in respect of the Main Drainage Scheme

and tenders invited.

Chanctonbury R.D. New drainage schemes under consideration for the Parishes of Amber

New drainage schemes under consideration for the Parishes of Amberley, Bramber, Pulborough and Upper Beeding. Schemes also under consideration for improving the main drainage of Henfield and Steyning and for providing suitable outfall works in these Parishes. Schemes under consideration for the Parishes of Middleton and East

Chichester R.D. Schemes under consideration for the Parishes of Middleton and East and West Wittering. Some extension of mains in the Parishes of Bosham and Selsey.

Horsham R.D. The Ministry of Health approved a new sewerage Disposal Works, together with new sewers for Billingshurst.

Midhurst R.D. The comprehensive scheme for the drainage of the populous areas around Camelsdale, situated in the Parishes of Linchmere and

Fernhurst was completed.

Petworth R.D. Work on the improvement of the Northern Outfall Works of the Petworth Sewerage System was commenced.

Worthing R.D. Sewerage Scheme for the Parish of Ferring commenced.

# LOCAL GOVERNMENT ACT, 1929-Section 57.

Under Section 57 of the Local Government Act, 1929, County Councils are empowered to contribute towards the expenditure of District Councils in the provision or maintenance of any sewers or sewage disposal works, or of a water supply, or in the improvement of an existing supply of water.

In this County it has been decided that contributions under this Section shall be limited to Rural District Councils, but application by a Local Authority other than a Rural District Council may receive

consideration in special circumstances.

The conditions under which contributions will be made are set out in the proceedings of the County Council dated 26th July, 1935.

# HOUSING.

As will be seen from the following Table XIX. prepared from the Reports of the District Medical Officers of Health, 4,082 houses were erected in the County during the year, as compared with 4,268 during the previous year, as follows:—

Sanitary Districts	Total number of New Houses Erected	Housing Acts,	ssistance under the 1919, 1923, 1924 or or 1930	Private
			By other Bodies or Persons	Enterprise

# HOUSING (RURAL WORKERS) ACTS, 1926-1938.

The operation of this Act has been extended until 1st September, 1942. During the year ended 31st March, 1938, more use of the Acts has been made than in the past, the number of applications (76) for the year ending 31st March, 1938, being nearly one half of the total since the coming into operation of the principal Act.

Under the approved Scheme the County Gouncil is prepared to make grants limited to £100 for any one house, but no grant will be made where the estimated cost of repairs is less than £50. The word "repairs" includes:—

Structural alterations and repairs, additions to premises, water supplies and drainage, sanitary conveniences and other like works, but not ordinary repair and upkeep. All plans, etc., must be approved by the Local Sanitary Authority before a grant can be made. When the landlord accepts a financial grant, the following conditions apply, viz. :

1. The estimated value of the dwelling on completion must not exceed £400.

The dwelling when completed must be fit for habitation.

For 20 years, the tenants must be agricultural workers or persons receiving similar wages. 4. For 20 years, the maximum rent will be "normal agricultural rent," as determined by the County Council, increased by 4% on the owners share in the estimated expenditure on the works.

Since the Act came into operation grants amounting to £15,268 have been paid in respect of 180 dwellings.

There is still considerable difficulty in obtaining accommodation for cases requiring Institutional care, especially for children and high grade cases.

# BLIND PERSONS ACT, 1920.

This Act is administered by the Public Health and Housing Committee.

The Scheme of the West Sussex County Council, under Section 2 of the Blind Persons Act, 1920, provides that no person's name shall be added to the Register of Blind Persons, until he or she has been examined and certified to be blind within the meaning of the Act, and such examination, except in the case of persons over 70 years of age whose blindness is not in doubt, shall be carried out by a Medical Practitioner with special experience in ophthalmology.

The West Sussex Association for the Care of the Blind, with the help of the Worthing Society for Befriending the Blind, is responsible for the general supervision of the blind, and the Association gives great assistance in the ascertainment of blind persons residing in the County. The Education Committee deals with children of school age, and with older persons requiring special training in Institutions for the Blind.

The following statement shows the number of cases on the Register :-

The average content of the samples of NEW MILK returned as genuine was: SOLIDS NOT FAT TOTAL SOLIDS FAT 3.87% 8.82%

- (a) 7 reported slightly deficient—Further samples proved genuine.
  - -Farmer interviewed—to improve supply.
  - 2 reported against—"Appeal to Cow" samples genuine. Farmer prosecuted and fined £5 and costs £2 2s. 0d.
- (b) Small excess moisture—further samples genuine.
- (c) Sold as Synthetic Cream but seller failed to label as such and had not registered premises as required by Artificial Cream Act. Acted in ignorance and has now registered.
- (d) Informal sample. Slight amount of preservative. Formal sample to be taken.
  (e) Celery—found on analysis to contain Copper Salt, deposit from a spray. Unfit for human consumption. Growers attention called to this and shopkeeper interviewed. Further examination of celery revealed no Copper Salt.

# MILK AND DAIRIES (CONSOLIDATION) ACT, 1915.

# MILK AND DAIRIES ORDER, 1926.

During the year the Public Health and Housing Committee continued to use the County Veterinary Officers for enquiries under Section 4 of the above Act.

Biological, etc., examination of specimens of milk are carried out at the County Laboratory,

County Hall, Chichester.

During the year, forty-two notifications were received from Local Authorities under this Act and in every instance action was taken under the Tuberculosis Order, 1925. Cattle suffering from Tuberculosis were slaughtered in thirteen instances and in the remaining instances the cattle were found free evidence of tuberculosis.

#### PORT OF NEW SHOREHAM.

The number of vessels entering the Port during the year was 1396. Of these 948 with a tonnage of 319,450 were from British Ports, and 448 with a tonnage of 103,179 were from Foreign Ports, showing a decrease of 83 coast wise and a decrease of 2 Foreign Vessels on the previous year.

Inspection.—139 British Vessels and 82 Foreign Vessels were inspected during the year. Five vessels were found with structural defects and four with dirt, vermin and other conditions prejudicial to health.

Eight notices were given in respect of defects or nuisances found, and five of these have been remedied and in addition one outstanding notice has been complied with.

Infectious Diseases.—No cases of infectious disease have been observed or reported during the year among persons aboard vessels arriving at the port. Printed cards stating the place and times of Venereal Clinics available in the district were given to masters of vessels for the information of the crews Agreement with Brighton Corporation for removal of any cases to Insolation Hospital.

Public Health (Regulations as to Food) Act, 1907.—Cargoes of flour arrived from British Ports, tomatoes from Jersey and mineral waters from Guernsey. These cargoes were inspected and found in good condition.

Public Health (Shell Fish) Regulations, 1915.—Public notices were posted during the year forbidding the removal or taking for sale for human consumption of any shell fish from the Harbour and the waters of the river Adur between the entrance to the Harbour and the town of Shoreham-by-Sea. No instances of selling shell fish taken from the prohibited area had been observed.

Rats and Mice Destruction Act, 1919.—Inspections and enquiries were made throughout the year in respect of rat infestation and no evidence of rat infestation has been found. Rat guards are available for use when required to prevent the passage of rats between the ship and the shore.

Printed cards have been given to the Masters of ships arriving at the Port indicating their responsibilities under the Rats and Mice Destruction Act.

The Port is not on the list of ports approved by the Ministry of Health for the issue of Deratisation and Deratisation Exemption Certificates in accordance with the provisions of Article 28 of the International Sanitary Convention of 1926.

# PORT OF LITTLEHAMPTON.

The number of vessels entering the Port during the year was 127, with a tonnage of 24,186. Of these, 114 were from British Ports, and 13 from Foreign Ports, showing a decrease of 37 vessels from British Ports compared with last year, and an increase of 3 from Foreign Ports.

Inspection.—The majority of the vessels were visited and inspected by the Port Sanitary Inspector. Seven vessels were found with dirt, vermin and other conditions prejudicial to health, and six with structural defects.

Infectious Diseases.—No cases occurred during the year. Arrangements have been made for isolation of cases at the Infectious Diseases Hospital belonging to the Littlehampton Urban District Council. A leaflet containing the information as to the Venereal Clinics available in the area is given to the Master of each vessel entering the Port, who has not previously received one.

Public Health (Shell Fish) Regulations, 1915 .- No action has been taken during the year.

Rats and Mice Destruction Act, 1919.-No rat-infested ships entered the Port.

The Port Sanitary Authority has provided rat guards and these are used when deemed necessary.

Baiting and gassing of rats is periodically carried out in the neighbourhood of the wharves.

Public Health Department, County Hall, Chichester. September, 1938.

RALPH D. SMEDLEY, County Medical Officer of Health.
