MISS J. E. SMITH.

Clerk.

D. N. STOTT.

Pupil Public Health Inspector.

J. YARHAM.

To His Worship The Mayor, Aldermen and Councillors of Whitley Bay Borough Council.

I have pleasure in presenting my report on the health and sanitary conditions of the Borough for the year 1957.

The Registrar General in his returns for mid-year 1957, shows a total population of 32,520, an increase of 140 over 1956.

The birth rate per 1,000 of the population was 14.02 as compared with 12.85 in 1956.

The death rate was 12.70 per 1,000 of the population as against 13.87 in 1956. The Table of Longevity in the report shows that 321 persons died at the age of 65 years and over out of a total of 413 deaths.

There was no incidence of an epidemic nature in infectious diseases. It is again to be noted that no case of Diphtheria was notified.

All milk sold in the Borough is Pasteurised, Sterilised, or comes from Tuberculin tested herds. No milk diseases occurred.

The supply of water has been satisfactory.

Much work has been done in accordance with the Food Hygiene Regulations, but more cannot be done until a third Health Inspector is appointed.

In conclusion, may I express to the Chairman, and to every Member of the Health Committee my appreciation for the keen interest they have always shown in the work of the Health Department, and for their unfailing support throughout the year.

My thanks are due also to my staff for their continued enthusiasm, and co-operation.

I have the honour to be,

Your obedient Servant,

WILLIAM CUNNINGHAM.

Medical Officer of Health.

### SECTION "A".

### STATISTICAL AND SOCIAL CONDITIONS OF THE BOROUGH.

The Borough comprises an area of 3,612 acres, including the foreshore which is 310 acres. It continues in popularity as a holiday resort and has excellent rail and bus connections to and from all parts of the country. It has a wide variety of interests and entertainments, and modern shopping centres. Promenades, gardens, and open spaces extend along the whole of the sea front with the picturesque St. Mary's Island and Lighthouse at the North end of the Bay, and fine golden sands stretch for nearly 2 miles.

The Borough is divided electorally into 8 Wards which are represented by 24 Councillors and 8 Aldermen. The rateable value now stands at £434,925, the product of a penny rate being £1,827. The population at mid-year 1957 was 32,520, an increase of 140. There are 11,075 houses in the area.

### VITAL STATISTICS.

### Births.

The number of live births for the year was 456 giving a birth rate of 14.00 per 1,000 population. 235 of these were males, and 221 females. The Registrar General's comparability factor is 1.07 which alters the birth rate for the area to 15.00 per 1,000. There were 12 male and 7 female illegitimate births, representing 4.16 per cent of the total births, and the number of still births was 11, representing 2.41 per cent of the total births. 4 of these were males, and 7 females.

### Deaths. The Juantinged Atlant and to Mrow ent at aword avails even year

413 deaths were recorded by the Registrar General, consisting of 204 males, and 209 females. The crude death rate for the area was 12.69 per 1,000 of the population, but adjustment by the Registrar General's comparability figure of .91 reduces this figure to 11.52.

The causes of all deaths are shown in the following table.

	CAUSES OF DEATH	M.	F.

### SECTION "B".

### HEALTH SERVICES IN THE AREA.

### 1. Infectious Disease.

The Newcastle Regional Hospital Board administers the Clinics, Hospitals and Sanatoria dealing with treatment necessary for Tuberculosis cases under the National Health Service Act, 1946. Other infectious diseases which require hospitalisation are treated at Moor Park Hospital, North Shields and Walkergate Hospital, Newcastle-upon-Tyne.

### 2. Medical and Surgical Cases.

These cases are mostly treated in Hospitals and Infirmaries under the Jurisdiction of the Newcastle Group Hospital Board and the South East Northumberland Hospital Management Committee.

### 3. Child and Maternity Welfare.

These Services and the Clinics connected with them are administered by the Northumberland County Council.

### 4. Home Nursing.

This Service is also controlled by the County Council.

### 5. Ambulance Service.

This is a Radio controlled Service administered by the County Council. The Ambulance Depot is situated at the rear of the Municipal Offices and gives a 24 hours daily service.

### 6. First Aid.

A fully equipped Station, manned by qualified personnel, is operated by the Borough and is of great service to visitors and residents during the busy season. The personnel consists of 1 full time Nurse, and volunteer members of the St. John Ambulance Brigade.

1,224 cases were dealt with during the season, 508 of the accidents being due to broken glass on the foreshore. The Station is situated on the Central Lower Promenade.

### 7. Lost Children.

This Station is provided by the Borough and is also situated on the Lower Promenade. The number of children looked after during the season was 621.

### 8. Public Health Laboratories.

These Laboratories are attached to the Newcastle General Hospital and are of great service to this Department, and also to Medical Practitioners in the area.

Details of samples for examination sent during the year are as follows:-

August 5.76 5.11 .76 e.sawollof as September 1.17 2.73 .98 2.28 3.22 October 1.00 3.60 1.06 1.65 1.76 November 1.00 3.60 1.05 2.77 1.31 86 .79 December 1.05 2.77 1.32 1.25 Tetal 1.65 2.77 1.65 2.77 1.65 2.51

### SECTION "C".

### 1. SANITARY CIRCUMSTANCES OF THE AREA.

- (a) (i) The water supply during the year proved of good quality and was plentiful. The water is supplied by Tynemouth Corporation.
- (ii) 18 samples of water were taken for analysis and all were satisfactory.
  - (iii) No chemical analysis was taken.
- (iv) (a) There are 8 houses in the area without internal water supply. These houses are situated at Rocky Island, and are to be closed, and the tenants rehoused in the near future.

These are attuated outside the ave are the

### (iv) (b) Sewerage and Drainage.

Three farms have septic tanks in use. With these exceptions the area is fully served with water carriage system.

### 2. RIVER POLLUTION.

River pollution in the area is the concern of the Northumberland and Tyneside Rivers Board and we are grateful to them for their efforts in cleansing our local streams which were contaminated before reaching us.

The Borough Council has, at much expense, carried out further culverting at Brier Dene to obviate pollution of this particular stream.

### 3. SANITATION.

The area is completely served by water carriage system except for 8 privy pails in use at Rocky Island. These will be dealt with in our Clearance programme. There are no ashpits in the area, all premises being provided with covered ash bins.

water to remain and the blest of will all the

### 4. PUBLIC CLEANSING.

See Public Health Inspector's Report.

### 5. SANITARY SERVICES.

See Public Health Inspector's Report.

### 6. SHOPS AND OFFICES.

See Public Health Inspector's Report.

### 7. CAMPING SITES.

See Public Health Inspector's Report.

### 8. SPOILBANKS.

These are situated outside the area and are under the administration of the Inspector of the Ministry of Housing and Local Government. Effluvia through burning has been negligible throughout the year and no complaint has been necessary.

### 9. BATHING POOLS.

### Table Rocks Pool.

The Table Rocks Pool is a natural amenity being filled by the sea at high tide. The bottom is cleansed periodically.

### Paddling Pool.

The Paddling Pool on the Southern Promenade is very popular with the children. It is kept clean and the water constantly chlorinated.

### 10. PUBLIC CONVENIENCES.

Full details are given in the Public Health Inspector's Report.

### 11. SCHOOLS.

These are administered by the Northumberland County Council.

### SECTION "D".

### Housing.

This is fully dealt with in the Report of the Public Health Inspector.

### SECTION "E"

### MEAT, MILK AND OTHER FOODS.

Details of Meat and Food Inspection will be found in the Public Health Inspector's Report. There has been a large increase in the number of animals passing through the Public Abattoir at Hill Heads compared with the previous year. The following table gives the numbers of animals involved:-

Carcases and Offal inspected and condemned in whole or in part.

Smallpox.

No cases during 1957-

Anthrax.

No cases during 1957.

Paratyphoid.

No cases during 1957.

Typhoid Fever.

No cases during 1957.

Typhus Fever.

No cases during 1957.

Malaria.

One case was reported during the year. This disease was contacted abroad.

Meningococcal Infection.

No cases during 1957.

Poliomyelitis.

One case was reported during the year. The child recovered completely.

Puerperal Pyrexia.

No cases during 1957.

Ophthalmia Neonatorum.

No cases during 1957.

Diphtheria.

As in previous years there were no cases. Immunisation against this disease continues in the Schools and Clinics, the pertussis vaccines in use safeguarding children at the same time against Whooping Cough.

### DIPHTHERIA IMMUNISATION.

Number of children at 31st December, 1957, who had completed a course of immunisation at any time before that date (i.e. at any time between 1st January, 1943 to 31st December, 1957.

			CEL ROLLING	EARRO DE

### Disinfection of Premises.

Houses are disinfected where requested, and also Library Books. Schools are treated on the request of Headmasters where infectious disease has occurred amongst Scholars.

### Disinfestation.

There were 28 requests for disinfestation from the public, mostly in connection with cockroaches, and mites of various kinds.

### SECTION "G".

### The Factories' Acts, 1937 - 1948.

The sections of the above Acts, which are the concern of the Department, are carried out regularly and all relevant details are shown in the following tables. A list is given also of all mechanical and non-mechanical Factories in the Borough.

### Inspection under Part I of the Factories' Acts, 1937 and 1948.

INSPECTIONS made by Public Health Inspectors.

Premises (1)	No. on Register (2)	Inspect- ions (3)	Written Notices (4)	Occupiers prosecuted (5)

### RAG FLOCK AND OTHER FILLING MATERIALS ACT, 1951.

Only one firm in the area handles Rag Flock. Supplies, which are small in quantity, are purchased from Newcastle.

### SECTIONS 110 and 111 of the FACTORIES' ACT. 1937 - 1948.

There are two out-workers employed in the area.

NATIONAL ASSISTANCE ACT, 1948, Section 47.
NATIONAL ASSISTANCE (Amendment) ACT, 1951.

### Removal to suitable premises of persons in need of care and attention.

It was not necessary to invoke the above sections of the Act during the year.

Council's inability to obtain the survives of an Additional Inspector

edf to employee eveds odd salovat of vreasecen for saw il

### ANNUAL REPORT OF THE PUBLIC HEALTE ANSPECTOR.

May, 1958.

To the Chairman, Vice-Chairman,
Aldermen and Members of the
Health Committee of the
Borough of Whitley Bay.

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in presenting my second Annual Report on the activities of the Public Health Inspectors' Department for the year, 1957.

CLEARANCE AREAS (Househow Act. 1936 and

Costing statistics refer to the financial year 1st April, 1957 to 31st March, 1958.

I regret to record once again in my Annual Report that the Council's inability to obtain the services of an Additional Inspector has severely limited what should be routine enforcement of Health Regulations in various forms. These various Regulations and controls designed by our Government to safeguard health are being applied in a restricted manner in our town.

### STAFF.

Mr. J. Yarham, formerly a Clerk, became a Pupil Public Health Inspector in July, and the position of General Clerk was filled by Mr. D. N. Stott.

### HOUSING.

two Lesol (S) II bus (I)

No Clearance Areas were inaugurated during the year.

Demolition Orders under Section 16, Housing Act, 1957, were served in respect of 1, 2, Ticket House, Seaton Sluice, 25, Front Street, 7, 8, Back Front Street, and 27/27a, Front Street, Whitley Bay.

### Houses completed during the year.

- (a) By Local Authority ... 47
- (b) By Other Bodies or Persons ... 250

### CLEARANCE AREAS AND INDIVIDUAL UNFIT HOUSES.

### PERIOD 1st JANUARY, 1957 to 31st DECEMBER, 1957.

	in spite of tenants' objection	Nil
(10)	Certificates cancelled by Local	
	Authority	Nil

### TENTS, VANS, SHEDS, AND SIMILAR STRUCTURES.

There are two sites licensed in the Borough for siting caravans, one at Red House Farm, and the other, which is reserved for Members of the Caravan Club of Great Britain only, at Old Hartley.

A mains water supply and flush toilets are available at both sites.

No individual applications for Licences to site moveable dwellings in the Borough were received.

### GENERAL SANITATION.

The number of complaints and enquiries received in the Office and recorded in the Complaints Book was, 1,341.

Queries on all manner of health matters were dealt with and followed up by personal inspections when necessary.

### WATER SUPPLY.

The Medical Officer of Health's Report contains results of Bacteriological examination of water samples taken from various parts of the district.

### DRAINAGE.

The number of obstructed drainage systems cleared on request was 146. This Service is a great asset to residents and Officials alike. Formal proceedings are seldom required and drains are cleared within a few hours of the request being received.

Inspection and testing of drainage installations renewed or extended continued. Testing of drains, incorporated with new buildings is carried out by the Borough Engineer's staff. 14 water tests and 11 smoke tests were applied to the drains of existing properties.

### SANITARY CONVENIENCES.

The number of Dry Closets, etc. in the Borough is:-

Ashpits: ... Nil.

### Defects in Water Closets.

The existence of 2 defective W.C. compartments, 10 defective W.C. basins, or cisterns, was intimated to the owners and the necessary repairs obtained.

### Outside Water Supply.

The number of houses in the Borough not provided with an inside water supply is 8.

### OFFENSIVE TRADES.

### Public Health Act. 1936. Section 107.

One "Offensive Trade" only, continues to operate in the Borough. The trade carried on is tripe boiling and fat extraction. No nuisance occurred and the process was carried out in a very satisfactory manner.

### PLACES OF PUBLIC ENTERTAINMENT.

The following premises were inspected and the carrying out of essential repairs enforced.

Cinemas.	Theatre.	Dance Halls.	Others.
Regal. Gaumont. Coliseum.	Priory.	Empress.	Whitley Bay Athletic Football Club.
Essoldo. Picture House.			

Certificates under Circular 120 of the Ministry of Health were issued following inspections.

### RODENT CONTROL.

This control is administered under the provisions of the Prevention of Damage by Pests Act, 1949.

Infestations are classified as 'major' or 'minor' according to the estimated number of rodents present. One 'major' infestation of rats occurred.

Good results continued to be obtained with 'Warfarin' in sausage rusk base.

The following table summarises the prevalence of rodents in the Borough.

#### PIGGERIES. \_ CARL \_ EMO LTB LEGGER (SLIFE WAS) (not same ked Islower) MILE

There is one Piggery which is old established in the Borough at Murton Village. Several visits of inspection were made and it was not found necessary to take any formal action.

#### PET ANIMALS ACT, 1951.

There were no Applications for new Licences for the sale of pets during the year.

The number of licensed premises for the sale of pets is 7. Inspections were made to ensure compliance with the Conditions of Licensing.

#### ATMOSPHERIC POLLUTION.

which were complied with

No serious complaints of atmospheric pollution were received, and no serious consideration has yet been given to the utilisation of powers contained in the Clean Air Act for the formation of Smoke Control Areas.

It was decided that an Atmospheric Pollution Recording Instrument in the form of a Smoke and Sulphur Dioxide Volumetric Apparatus should be installed in the Borough.

#### FOOD INSPECTION.

#### Milk. ffige at four ent of the transfer as a special bas Iso recipited

The sales of milk in the area are of Special Designated Milks only. Ungraded milk supplied from approximately 85 Farms to the Coast Creamery, Foxhunters Estate is either Pasteurised, or Sterilised, before distribution.

Tuberculin tested milk is also Pasteurised, in addition to being distributed untreated.

The number of Licences issued under the appropriate Regulations for the sale of the various classes of milk were as follows:-

Milk (Special Designation) (Raw Milk) Regulations, 19	49 —	1954.
Number of Dealer's Licences to use the special designation "Tuberculin Tested"	There	11
Number of Supplementary Licences to use the special designation "Tuberculin Tested"		6
Milk (Special Designation) (Pasteurised and Sterilise Regulations, 1949 - 1953.	d Mil	<u>k</u> )
Number of Dealer's Licences to use the special designation "Pasteurised" and "T.T. Pasteurised		30
Number of Supplementary Licences to use the special designation "Pasteurised" and "T.T. Pasteurised."	TOT D	6
Number of Dealer's Licences to use the special designation "Sterilised."	agol aghal	61
Number of Supplementary Licences to use the special designation "Sterilised."		3
Inspections of milk retailing and dairy pre	mises	501.0at

totalled 43 and 3 Notices were served, which were complied with.

A total of 105 samples of milk were submitted for bacteriological and biological examination to the Public Health Laboratory.

Details of samples failing to comply with the requirements of the Methylene Blue Reduction Test are forwarded to the Agricultural Executive Committee at Hexham.

Results of the examinations are set out in the following tables.

Total No. of samples taken	105
No. of samples submitted to Methylene Blue Test No. satisfactory Percentage satisfactory	99 80 80.8%
No. of samples submitted to Phosphatase Test No. satisfactory Percentage satisfactory	35 35 100%
No. of samples submitted to Turbidity Test  No. satisfactory  Percentage satisfactory	7 7 100%

# Bacteriological and Biological Examination of Milks distributed in the area.

Type of Milk	No. of Samples	No. of Samples tested for Tubercle bacilli	Tubercle bacilli present	Percentage affected
Pasteurised	35	Nil	Nil	Nil
Sterilised	7	Nil	Nil	Nil
Tuberculin				
Tested	33	4	Nil	Nil
Ungraded	30	18	1	5.5%
Total	105	22	1	5.5%

#### ICE CREAM.

The Food and Drugs Act. 1955 (Section 16).
The Ice Cream (Heat Treatment, etc.,) Regulations, 1947 - 1952.

The number of new registrations during the year was 8 compared with 5 in 1956.

The number of registered Manufacturers is 8.

The number of retail premises selling loose ice cream is 10. Premises selling pre-wrapped ice cream number 119.

Methylene Blue Test results:-

Provisional	Grading	No.	I.	•••	21
"	11	No.	II.		8
"	"	No.	III.		3
"	"	No.	IV.	• • •	7
				-	-
		T	otal		39

The number of visits to ice cream premises was 39. It was not necessary to serve any Notices.

#### MEAT AND OTHER FOODS.

The post mortem inspection of all animals passing through the Council's Slaughterhouse was not allowed to feel the effects of our Inspectoral staff shortage. To maintain this essential Service it was necessary for your two Inspectors to work approximately 394 hours in overtime during evenings and on Bank Holidays.

Details of animals inspected are set out in the following tables:-

Month	Cattle	Calves	Sheep	Pigs	Total.
January	429	110	1,780	613	2,932
February	412	102	1,450	571	2,535
March	438	121	1,009	502	2,070
April	417	104	986	581	2,088
May	402	83	1,012	508	2,005
June	352	77	1,075	431	1,935
July	460	95	1,679	497	2,731

#### DISPOSAL OF DISEASED AND UNSOUND MEAT.

All meat and offal surrendered is weighed, recorded, and detained awaiting collection in a locked detention room. This material is then dyed green before collection for processing by Tyneside Butchers' By-Products Limited, into animal food and fertilisers at their Gateshead factory.

#### CYSTICERCUS BOVIS.

No cases of generalised Cysticercosis were encountered.

Details of action taken in respect of localised infestations with Cysticercus bovis can be found in the Table on Page 13.

#### SLAUGHTER OF ANIMALS ACT. 1933 - 1954.

The number of Slaughtermen's Licences renewed during the year was 28. New Licences granted numbered 1.

The total number of current Licences in the area is now 29.

#### OTHER FOODS.

The following list indicates the quantities of foods other than meat found on examination to be unfit for human consumption and surrendered for destruction under supervision.

Bacon and Ham	12	tins.	Meat (various)	11	lbs.
Baked Beans	77	tins.	Milk	65	tins.
Cakes	16	lbs.	Peas	204	tins.
Carrots	21	tins.	Pies	7	
Cheese	26	lbs.	Preserves	4	jars.
Chicken	1	tin.	Puddings	120	tins.
Cokernut	43	lbs.	Salmon	3	tins.
Coconuts	16	lbs.	Sausage	. 8	tins.
Fish	8	tins.	Sausage	14	lbs.
Fruit	313	tins.	Soups	159	tins.
Fruit Juice	3	tins.	Spaghetti	3	tins.
Meats	117	tins.	Tomatoes	73	tins.

in this important matter. The thorough inspection of every food musiness is yet to be completed to ensure compliance with the requirements of the Food Hygiene Regulations, 1955, which came into

#### SALE OF HORSEFLESH.

There are no premises in the Borough from which horseflesh is sold for human consumption.

# KNACKERS! YARDS.

There are no Knackers' Yards situated in the district.

#### DISEASES OF ANIMALS ACTS AND ORDERS.

Swine Fever - No cases occurred.

Foot and Mouth Disease - No cases occurred.

Occasionally, sheep are found to have died overnight at Hill Heads Slaughterhouse. Such carcases are detained until certified clearance from disease by a Veterinary Inspector of the Ministry of Agriculture, Fisheries and Food is obtained.

# LICENSED PREMISES.

The number of Licensed Premises in the Borough is 31.

#### BAKEHOUSES.

One Bakery at 181, Bk. Whitley Road ceased to function, leaving the number of Bakehouses in the area at 15, all being equipped with mechanical power.

#### Foreign Matter in Food.

No complaints were received during the year of the sale of food containing foreign matter.

# FISH FRYING ESTABLISHMENTS.

The number of this type of food business in the Borough is 9. Hygiene in these premises continues to be satisfactory, although compliance with the Food Hygiene Regulations, 1955, is yet to be attained, having special regard to washing facilities.

#### FOOD HYGIENE.

A great amount of work remains to be done in the Borough in this important matter. The thorough inspection of every food business is yet to be completed to ensure compliance with the requirements of the Food Hygiene Regulations, 1955, which came into operation in two stages, i. e. on 1st January, 1956, and 1st July, 1956.

#### REFUSE COLLECTION.

This Service is maintained at a collection once weekly from dwelling houses and increased for Hotels, Shops, and other trade premises in a varying degree, even to a daily collection in certain cases.

#### VEHICLES.

Collection of refuse was carried out by the following five vehicles:-

Ma	ike.or _ ager	Capacity.	Year.
Shelvoke and Dre Shelvoke and Dre	ewry (Side Loading) ewry (Rear Loading) ewry (Rear Loading) ewry (Rear Loading)	12 cu. yds. 18 cu. yds. 18 cu. yds. 18 cu. yds. 14 cu. yds.	1950. 1951. 1952. 1957. 1948.

The latter vehicle received a substantial overhaul during the year and is operated as a relief machine during maintenance of the individual district vehicles.

## PROVISION OF DUSTBINS.

The replacement of defective dust bins by the Council for use at domestic premises continues to be a Service much appreciated by residents in addition to the scheme's health influence in preventing any form of nuisance from refuse storage.

The total number of bins supplied during the year was:-

The number of bins provided to Council houses was 54 and the number purchased by traders, etc. was 161.

Statistics regarding the weight of refuse collected and disposed of are set out in the following tables:-

Description	satty, ydłoagaD	1956 - 19	57.
House and Trade Refuse disposed of. at Brier Dene	Tons per annum 11,090	Tons per week 213.27	Tons per day (365 days to 1 year) 30.38
Refuse per head of population	6.82 cwts.	14.69 lbs.	2.09 lbs.
Refuse per 1,000 of population	341.33 tons	6.56 tons.	18.73 cwts.
Refuse per house	20.02 cwts.	43.12 lbs.	6.14 lbs.
Refuse per 1,000 houses	1001.40 tons	19.26 tons	54.87 cwts.

Murton. Seaton August TOTAL: Shops April March TOTAL May July

WEIGHTS OF HOUSE REFUSE, TRADE REFUSE AND STREET SWEEPINGS.

#### REFUSE DISPOSAL.

All refuse was disposed of by controlled tipping procedure at the Brier Dene Refuse Tip.

In addition to the weights of refuse set out in the Collection Table, 1,046 tons of refuse, including street sweepings and tip sealing materials were accommodated at Brier Dene.

#### Salvage Recovery.

Sales of waste paper continued to be limited by our Buyers. We are assured that curtailment of limited output is for a temporary period only, and that during 1958 it is hoped to allow unlimited sales of paper.

The following table indicates the income derived from the sale of recovered materials.

1957 - 1958.

Commodity	Tons	Cwts.	Qrs.	Lbs.	£	s.	d.
Paper	379	1.6	0	0	3,112.	6.	0.

Wood	8	1	0	0	2086	10.	0.
Totals	516	18	1	27	3,394.	3.	7.

#### Protective Clothing.

Provision of overalls, moleskin jackets, and oilskin suits is arranged for the staff involved in refuse collection and disposal. This scheme is much appreciated by these workers.

Sickness Benefit Scheme (Refuse Collection and Disposal Employees).

The total number of man hours lost due to sickness was 181 hours. The cost involved was £181: 9: 7 compared with £305: 15: 10 in 1956.

#### PUBLIC CONVENIENCES.

Construction of the proposed new Conveniences in Whitley Road did not commence as anticipated due to the Government restrictions on loans. It is hoped that this much needed amenity will be completed during the coming year.

The following table indicates the use of the Public Conveniences during the year.

Convenience	Persons passing Through Turnstiles		No. of Washes		Total Income including Sundries			
	1956	1957	1956	1957	1956		1957

#### CONCLUSION.

I would like to record my appreciation of the support given to me during the year by the Chairman and Members of the Health Committee.

I am again indebted to Dr. W. Cunningham, your Medical Officer of Health for his advice and encouragement.

Your obedient Servant,

WM. W. VALENTINE.

Public Health Inspector.
