To: His Worship the Mayor, Aldermen and  
Councillors of the Whitley Bay Borough Council.

I have pleasure in presenting my Annual Report on the public health and sanitary conditions of the Borough for the year ended 31st December, 1963. The population of the Borough again increased, and at the end of the year the total number was 37,170 persons. This is an increase of 440 over the previous year. The birth-rate increased slightly from 15.87 to 17.44 per thousand of the population, and the new births therefore rose from 583 in the previous year to 648 in the current year. Maternal mortality was again Nil, this being the sixth year in which no death has occurred in association with childbirth. This is a most pleasing fact to record and is a tribute to the medical and nursing services for maternal care.

The incidence of infectious diseases continues to be low, with the exception of measles, a mild epidemic of which occurred at the beginning of the year. 122 cases of measles occurred in the month of January alone, mostly in the pre-school age group. There were few complications from the illness and no deaths resulted. The general health of the population continues to be good, and no cases of poliomyelitis, typhoid or paratyphoid fevers, smallpox, meningitis, or diphtheria, occurred during the year. Immunisation of children against poliomyelitis and diphtheria continued in the clinics and schools, the total number now vaccinated against poliomyelitis being 12,755. The Public Health Inspectors continue to see that the provisions of the Food Hygiene Regulations apply to all shops and hotels in the Borough, and it is satisfying that in spite of the enormous Summer increase in population which occurs during the holiday season, there have been no cases of enteric disease caused by poor hygiene in food establishments. This is a matter which requires the utmost vigilance from the owners of hotels and eating places, particularly in the supervision of staff, to see that their standards of food handling and hygiene are kept to a high level.

During the year only one death occurred from tuberculosis, and no deaths occurred from any of the other common infectious diseases. The main causes of death in the Borough are the degenerative diseases of old age. This is to be expected, as 75% of all deaths occur in persons over the age of 65. Coronary thrombosis and other heart disease is the greatest single cause of death, followed by cancer. Cancer of the lung again increased and caused the death of 22 persons during the year. It is significant that all these 22 people were males. The relationship between cigarette smoking and the onset of cancer has been stressed in many medical reports over the past few years, but the smoking habits of the public do not seem to alter to any great extent. In America it has been decided that all cigarette packets should carry a printed warning of the dangers of smoking. It is interesting to speculate whether this example should be followed in this country. The difference in the expectation of life in the sexes continues to be marked. The average age of death for males being 68 years and for females 74.5 years. As I have remarked previously, these figures seem to indicate that there is a case for lowering the retirement age for men, as they pay insurance contributions up to the age of 65 and only live for an average of 3 years after retirement, whereas females only pay contributions up to the age of 60 and live almost 15 years after retirement.

The problem of the aged continues to be difficult, especially those living alone and lacking relatives to help in the house. The County Council provides Health Visitors and Home Helps, who do much to assist the elderly, but a great deal of work is still necessary from the voluntary organisations. I am pleased to report that in the Borough there are many organisations which continue to meet this need. Old People's Clubs, organisations for providing "sitters-in", and the services of the W.V.S. in providing meals-on-wheels, all help to care for the aged in their own homes. During the year the meals-on-wheels service expanded, and has been helped considerably by the provision of a van, which was bought by the local Round Table. The W.V.S. workers have provided an uninterrupted service to the old people throughout the year, in spite of the increased demands for meals. Every credit is due to the ladies who continue to give their time voluntarily to this essential service.

In conclusion, I must express my thanks to all members of the staff for their willing assistance during the year, and also to the Chairman and Members of the Health Committee, who have continued to give me their support and encouragement in all measures affecting the health of the public.

I remain,

Your obedient Servant,

ARTHUR WILLIAM HAY.

## SECTION "A"

### STATISTICAL AND SOCIAL CONDITIONS OF THE BOROUGH

The Borough comprises an area of 3,612 acres, including the foreshore which is 510 acres. It continues in popularity as a holiday resort and has excellent rail and bus connections to and from all parts of the country. It has a wide variety of interests and entertainments with the picturesque St. Mary's Island and Lighthouse at the North end of the Bay. Fine golden sands stretch for nearly two miles.

The Borough is divided electorally into eight Wards, which are represented by twenty-four Councillors and eight Aldermen. The rateable value now stands at £1,414,000, the product of the penny rate being £5,680. The population at mid-year 1963 was 37,170, an increase of 440. There are 12,746 houses in the area.

### VITAL STATISTICS

Following are the vital statistics in accordance with Ministry requirements and in the order requested.

#### Live births

|                                                          |       |
|----------------------------------------------------------|-------|
| Number                                                   | 648   |
| Rate per 1,000 population                                | 17.44 |
| Illegitimate Live Births (per cent of total live births) | 5.71  |

#### Stillbirths

|                                            |       |
|--------------------------------------------|-------|
| Number                                     | 11    |
| Rate per 1,000 total live and still births | 16.97 |
| Total live and still births                | 659   |
| Infant deaths (deaths under 1 year)        | 18    |

#### Infant Mortality Rates

|                                                               |       |
|---------------------------------------------------------------|-------|
| Total infant deaths per 1,000 total live births               | 27.78 |
| Legitimate infant deaths per 1,000 legitimate live births     | 32.41 |
| Illegitimate infant deaths per 1,000 illegitimate live births | 81.08 |

#### Neo-natal Mortality Rate (deaths under 4 weeks per 1,000 total live births)

12.35

#### Early neo-natal Mortality Rate (deaths under 1 week per 1,000 total live births)

9.26

#### Perinatal Mortality Rate (stillbirths and deaths under 1 week combined per 1,000 total live and still births)

25.79

#### Maternal Mortality (including abortion)

|                                            |     |
|--------------------------------------------|-----|
| Number of deaths                           | NIL |
| Rate per 1,000 total live and still births | NIL |

## Births

The number of live births for the year was 648 giving a birth rate of 17.44 per 1,000 population. 332 of these were males and 316 females. The Registrar General's compatability factor is 1.06 which alters the birth rate for the area to 18.49 per 1,000. There were 20 male and 17 female illegitimate births, representing 5.71 per cent of the total births, and the number of still births was 11 representing 1.69 per cent of the total births. Five of these were males and six females.

## Deaths

509 deaths were recorded by the Registrar General, consisting of 255 males and 254 females. The crude death rate for the area was 13.77 per 1,000 of the population, but adjustment by the Registrar General's compatability figures of .91 reduces this figure to 12.53.

The causes of all deaths are shown in the table on the following page.

## Longevity

Of the 509 deaths in the area, 382 of them occurred at the age of 65 years or over. This represents 75.05 per cent. Details are given in five year groups in the following table.

| Ages at Death     | Males | Females | Total |
|-------------------|-------|---------|-------|
| 65 to 69 years    | 37    | 32      | 69    |
| 70 to 74 years    | 40    | 36      | 76    |
| 75 to 79 years    | 34    | 36      | 70    |
| 80 to 84 years    | 27    | 57      | 78    |
| 85 to 89 years    | 26    | 37      | 63    |
| 90 to 94 years    | 5     | 13      | 18    |
| 95 years and over | 3     | 5       | 8     |
| TOTAL             | 172   | 210     | 382   |

Of the total deaths the average age of death for males was 68.18 years, whilst for females it was 74.51 years.

| CAUSES OF DEATH                             | M.  | F.  |
|---------------------------------------------|-----|-----|
| All Causes                                  | 255 | 254 |
| 1. Tuberculosis, respiratory                | 1   | -   |
| 2. Tuberculosis, other                      | -   | -   |
| 3. Syphilitic disease                       | -   | 2   |
| 4. Diphtheria                               | -   | -   |
| 5. Whooping Cough                           | -   | -   |

## SECTION "B"

### HEALTH SERVICES IN THE AREA

#### 1. Infectious Diseases

The Newcastle Regional Hospital Board administers the Clinics, Hospitals and Sanatoria dealing with treatment necessary for Tuberculosis cases under the National Health Service Act 1946. Other infectious diseases which require hospitalisation are treated at Moor Park Hospital, North Shields, and Walkergate Hospital, Newcastle on Tyne.

#### 2. Medical and Surgical Cases

These are mostly treated in Hospitals and Infirmaries under the jurisdiction of the Newcastle Group Hospital Board and the South East Northumberland Hospital Management Committee.

#### 3. Child and Maternity Welfare

These services and the Clinics connected with them are administered by the Northumberland County Council.

#### 4. Home Nursing

This service is also controlled by the County Council.

#### 5. Ambulance Service

This is a Radio controlled service administered by the County Council. The Ambulance Depot is at Hill Heads and gives a 24 hour daily service.

#### 6. First Aid

A fully equipped Station, manned by qualified personnel, is operated by the Borough on the Central Lower Promenade and it is of great service to visitors and residents during the busy season. The personnel consists of one full time Nurse, and volunteer members of the St. John Ambulance Brigade. 897 cases were dealt with during the season, including 402 cases of injury caused by broken glass. 56 of these cases were sent to hospital for treatment.

## 7. Lost Children

This Station is provided by the Borough and is also situated on the Lower Promenade. A full time attendant cares for the children when brought in, until recovered by the parents. The number of children passing through during the season was 284.

## 8. Public Health Laboratories

These Laboratories are attached to the Newcastle General Hospital, and are of great service to this Department, and also the Medical Practitioners in the area.

### RAINFALL

During the year 27.235 inches fell in the area. Comparisons with the previous years are shown in the table below.

|           | INCHES |       |       |       |        |
|-----------|--------|-------|-------|-------|--------|
|           | 1959   | 1960  | 1961  | 1962  | 1963   |
| January   | 1.98   | 3.77  | 2.33  | .85   | 1.71   |
| February  | .40    | 1.86  | 1.20  | .34   | 2.30   |
| March     | .42    | 1.21  | .59   | .77   | 1.28   |
| April     | .84    | .35   | 2.28  | 1.62  | 1.59   |
| May       | .26    | 2.31  | 1.47  | 2.47  | 1.20   |
| June      | 1.94   | .59   | 1.91  | .74   | 2.93   |
| July      | 1.96   | 3.24  | 3.69  | 2.35  | 1.06   |
| August    | .47    | 3.42  | 2.28  | 1.66  | 7.61   |
| September | .64    | 1.74  | 1.51  | 3.19  | .94    |
| October   | 1.14   | 5.11  | 3.19  | .39   | 1.31   |
| November  | 2.08   | 2.75  | .87   | 2.03  | 4.28   |
| December  | 3.49   | 2.39  | .195  | 2.49  | 1.02   |
|           | 15.62  | 28.74 | 23.27 | 18.90 | 27.235 |

## SECTION "C"

### 1. SANITARY CIRCUMSTANCES OF THE AREA

(i) The water supply during the year proved of good quality and was plentiful. The water is supplied by Tynemouth Corporation.

(ii) 27 samples of water were taken for bacteriological examination and 27 were satisfactory.

(iii) 2 water samples for chemical analysis were taken, the results of which were satisfactory.

(iv) There are no houses in the Borough of Whitley Bay which are not provided with an internal water supply.

(v) Sewerage and drainage - three farms have septic tanks in use. With these exceptions the area is fully served with water carriage system.

### 2. RIVER POLLUTION

River pollution in the area is the concern of the Northumberland and Tyneside River Board and we are grateful to them for their efforts.

### 3. PUBLIC CLEANSING

See Public Health Inspector's Report

### 4. SANITARY SERVICES

See Public Health Inspector's Report

### 5. SHOPS AND OFFICES

See Public Health Inspector's Report

### 6. CAMPING SITES

See Public Health Inspector's Report.

7. SPOILBANKS

These are situated outside the area and are under the administration of the Inspector of the Ministry of Housing and Local Government. Effluvia through burning has been negligible throughout the year and no complaint has been necessary.

8. BATHING POOLSTable Rocks Pool

The Table Rocks Pool is a natural amenity being filled by the sea at high tide. The bottom is cleansed periodically.

Paddling Pool

The Paddling Pool on the Southern Promenade is very popular with the children. It is kept clean and the water is constantly chlorinated.

9. PUBLIC CONVENIENCES

Full details are given in the Public Health Inspector's Report.

10. SCHOOLS

These are administered by the Northumberland County Council.

SECTION "D"HOUSING

This is fully dealt with in the Report of the Public Health Inspector.

# SECTION "E"

## MEAT, MILK AND OTHER FOODS

Details of Meat and Food Inspection will be found in the Public Health Inspector's Report. There has been a large increase in the total number of animals passing through the Public Abattoir at Hill Heads compared with the previous year. The following table gives the numbers of animals involved:-

Carcasses and Offal inspected and condemned in whole or in part.

|                                                                                                         | Cattle<br>Exclud<br>-ing<br>Cows | Cows | Calves | Sheep<br>and<br>Lambs | Pigs | Horses |

SECTION "F"

INFECTIOUS DISEASES

289 cases of notifiable diseases occurred during the year.  
10 of these required hospital treatment. Details of cases notified,  
hospital cases, monthly incidence, age groups, incidences per  
1,000 population, and deaths are all given in the following tables.

|                | Total Cases<br>Notified | Cases Admitted<br>to Hospital |
|----------------|-------------------------|-------------------------------|
| Scarlet Fever  | 2                       | -                             |

No cases during 1963

Poliomyelitis

No cases during 1963

Puerperal Pyrexia

No cases during 1963

Ophthalmia Neonatorum

No cases during 1963

Diphtheria

As in previous years there were no cases. Immunisation against this disease continues in the schools and clinics, the pertussis vaccines in use safeguarding children at the same time against Whooping Cough

### Poliomyelitis Vaccinations year ended 31.12.63

Total No. of people who have completed  
primary immunisation .. .. . 12755

Total No. of people who received  
their third dose .. .. . 11736

Total No. of people who received  
their fourth dose .. .. . 3479

### TUBERCULOSIS

There were 24 new cases during the year and one death was recorded. Mass Radiography is carried out by mobile units under the administration of the Northumberland County Council, and public response is fairly good. At the end of the year there were still 224 cases on our Register consisting of 129 males and 95 females. 199 of these were pulmonary and 25 non-pulmonary.

The age groups of the twenty two new cases above are as follows:-

| YEARS       | PULMONARY |    | NON-PULMONARY |    |
|-------------|-----------|----|---------------|----|
|             | M.        | F. | M.            | F. |
| 1 - 4       | -         | 1  | -             | -  |
| 5 - 9       | -         | -  | -             | -  |
| 10 - 19     | 1         | 1  | -             | -  |
| 20 - 29     | 1         | -  | 1             | 2  |
| 30 - 39     | 6         | 1  | -             | -  |
| 40 - 49     | 5         | 1  | -             | 1  |
| 50 - 64     | 1         | 2  | -             | -  |
| 65 and over | -         | -  | -             | -  |
| TOTAL       | 14        | 6  | 1             | 3  |

### CANCER

There were 80 deaths recorded - an incidence of 2.18 per 1,000 of the population.

The deaths in age groups are given in the following table with the various parts of organs affected.

|                    | Age in Years |       |       |       |       |         | TOTAL |

#### Disinfestation of Premises

Houses are disinfested where necessary, and also Library books. Schools are treated on the request of Headmasters where infectious disease has occurred amongst the scholars.

#### Disinfestation

The number of disinfestation treatments applied was 67 and the various insects dealt with are detailed as follows:-

| <u>Insect</u> | <u>No. of treatments</u> |
|---------------|--------------------------|
| Cockroaches   | 42                       |
| Fleas         | 3                        |
| Bed Bugs      | 12                       |
| Body Lice     | 2                        |
| Earwigs       | 6                        |
| Book Lice     | 1                        |
| Blow Flies    | 1                        |

# SECTION "G"

## The Factories Act 1937 - 1948

The Sections of the above Acts, which are the concern of the Department, are carried out regularly and all relevant details are shown in the Tables on pages 50 and 51. A list is given also of all mechanical and non-mechanical Factories in the Borough.

| Factories                          | Mechanical | Non-Mechanical |
|------------------------------------|------------|----------------|
| Sculptor                           | 1          | -              |
| Carpet fitter                      | -          | 1              |
| Plumbers                           | 4          | 3              |
| Electricians                       | 11         | -              |
| Dental Mechanics                   | 1          | -              |
| Blacksmiths                        | 1          | -              |
| Engineering                        | 3          | -              |

ANNUAL REPORT OF THE  
NATIONAL ASSISTANCE ACT, 1948, Section 47

NATIONAL ASSISTANCE (AMENDMENT) ACT, 1951

(Removal to suitable premises of persons in  
need of care and attention)

I am pleased to record that no formal  
action was necessary in this respect during  
the year.

ANNUAL REPORT OF THE  
PUBLIC HEALTH INSPECTOR.

To the Chairman and members of the Health Committee  
of the Borough of Whitley Bay.

I have pleasure in submitting my eighth Annual Report on the activities of the Public Health Inspectors' Department for the year 1963.

Costing statistics refer to the financial year 1st April, 1963 to 31st March, 1964.

The control of environmental health matters involve your Public Health Inspectors in many varied duties and the year 1963 was no exception in this respect.

Hygiene in food shops and cooking establishments is one of our most important tasks but I am finding it impracticable to devote the time to this subject that I would prefer and I feel sure that, considering the growth of the town and the increasing duties falling to the Department under the Meat Inspection Regulations, the Clean Air Act and the impending Offices, Shops and Railway Premises Act, an increase in the Public Health Inspectors establishment is necessary.

My disappointment in September when our first Smoke Control Order was "referred back" by the Minister of Housing and Local Government was partly removed when the Council, despite the quadrupling of costs, reaffirmed their policy to continue with the introduction of smoke control areas. That decision leads me to think that many of the doubts which existed as to the need for eliminating domestic smoke, have now been dispelled and we can look ahead to steady progress towards ending the contamination of our town air from house chimneys.

Matters affecting refuse collection and disposal received much attention in 1963 and considerable thought was given to the possible use of paper sacks for domestic refuse storage.

New Meat Inspection Regulations added to our already onerous duties in this field of work and the fact that a Public Health Inspector is now almost wholly employed at the slaughterhouse means an increase in efficiency in this most important public service of ensuring that only disease free meat is distributed for human consumption.

In closing this introduction to my Report, I would like to express my appreciation to each member of the staff for their willing services during the year. I should also like to thank the Chairman and members of the Health Committee and Dr. Hay for support received in various ways during 1963.

Your obedient Servant,

Wm. W. Valentine

Public Health Inspector.

# HOUSING CONDITIONS

Clearance Areas and Individual Houses  
Period 1st January 1963 to 31st December 1963.

| Part A. HOUSES DEMOLISHED                                                              |                   |                       |          |
|----------------------------------------------------------------------------------------|-------------------|-----------------------|----------|
|                                                                                        | Houses Demolished | Displaced during year |          |
|                                                                                        |                   | Persons               | Families |
| In clearance areas                                                                     |                   |                       |          |

### Rent Act 1957

#### First Schedule

##### Part I - Application for Certificate of Disrepair

|                                                                                                          |     |
|----------------------------------------------------------------------------------------------------------|-----|
| (1) Number of applications for Certificates                                                              | Nil |
| (2) Number of decisions not to issue Certificates                                                        | Nil |
| (3) Number of decisions to issue Certificates                                                            | Nil |
| (a) in respect of some but not all defects                                                               | Nil |
| (b) in respect of all defects                                                                            | Nil |
| (4) Number of undertakings given by Landlords under paragraph 5 of the First Schedule                    | Nil |
| (5) Number of undertakings refused by Local Authority under proviso to paragraph 5 of the First Schedule | Nil |
| (6) Number of Certificates issued                                                                        | Nil |

##### Part II - Application for Cancellation of Certificates

|                                                                                   |     |
|-----------------------------------------------------------------------------------|-----|
| (7) Applications by Landlords to Local Authority for cancellation of Certificates | Nil |
| (8) Objections by tenants to cancellation of Certificates                         | Nil |
| (9) Decisions by Local Authority to cancel in spite of tenant's objection         | Nil |
| (10) Certificates cancelled by Local Authority                                    | Nil |

### Moveable Dwellings

One application for a Caravan Site Licence was received but as the applicant was not in possession of current planning permission the application was not approved.

The Caravan Site at Old Hartley continues to be operated in a very satisfactory manner by the Caravan Club of Great Britain.

Investigations continued during the year regarding the potentiality of the abandoned Army Training Camp as the Caravan Site and whether this enterprise is operated by the Council or privately, such development will be an asset to Whitley Bay's function as a holiday resort.

## GENERAL SANITATION

The number of complaints and enquiries recieved in the office and recorded in the Complaints Book was 1,620.

The usual wide variety of environmental health matters were investigated and dealt with by personal inspections.

### Water Supply

The Medical Officer of Health's Report contains results of examination of water supplies in the town.

### Drainage

The number of obstructed drainage systems cleared on request was 139. This service by the Public Health Department provides an important aid to environmental health not only in the clearing of obstructed drains but by bringing to our attention defective drains in need of repair.

Inspection and testing of drainage systems required the application of 19 water tests, 30 smoke tests and 11 colour tests.

### Sanitary Conveniences

Repairs and renewals were obtained to 5 water closet compartments and to 7 water closet cisterns.

Only 1 dry closet remains in use in the Borough, at the Chapel, Old Hartley.

### Offensive Trades

The business of tripe boiling and fat extraction carried on within the Hillheads Slaughterhouse is the only "offensive trade" within the Borough.

The high standard of cleanliness in this particular factory avoided any complaints or nuisance during the year.

## Places of Public Entertainment

Routine inspections of the following premises were carried out. Repairs and redecoration were required where necessary.

| <u>Cinemas</u> | <u>Theatre</u> | <u>Dance Halls</u> | <u>Others</u>        |
|----------------|----------------|--------------------|----------------------|
| Regal          | Priory         | Empress Ballroom   | Whitley Bay Athletic |
| Coliseum       |                | Rex Ballroom       | Football Club        |
| Essoldo        |                | Hotspur Hall       | Whitley Bay Ice Rink |
| Picture House  |                |                    |                      |

## Rodent Control

Legal provisions are contained in the Prevention of Damage by Pests Act 1949.

No 'Major' infestation of rats or mice occurred during the year.

A poison treatment was carried out in the town's sewers in December. The poison used was again fluoracetomide in a base of pin head oatmeal.

Exact details of the presence of rodents in the Borough can be found in the tables on pages 30 and 31.

|                                                                                                                         | Non - Agricultural        |                                              |                                                        |                                         |                     |

## Piggeries

The large piggery at Murton Village continued to operate without complaint, although I am apprehensive regarding the permission which has been granted for the building of bungalows very near to the piggery.

Two small premises continue to be used also without complaint.

## Pet Animals Act, 1951

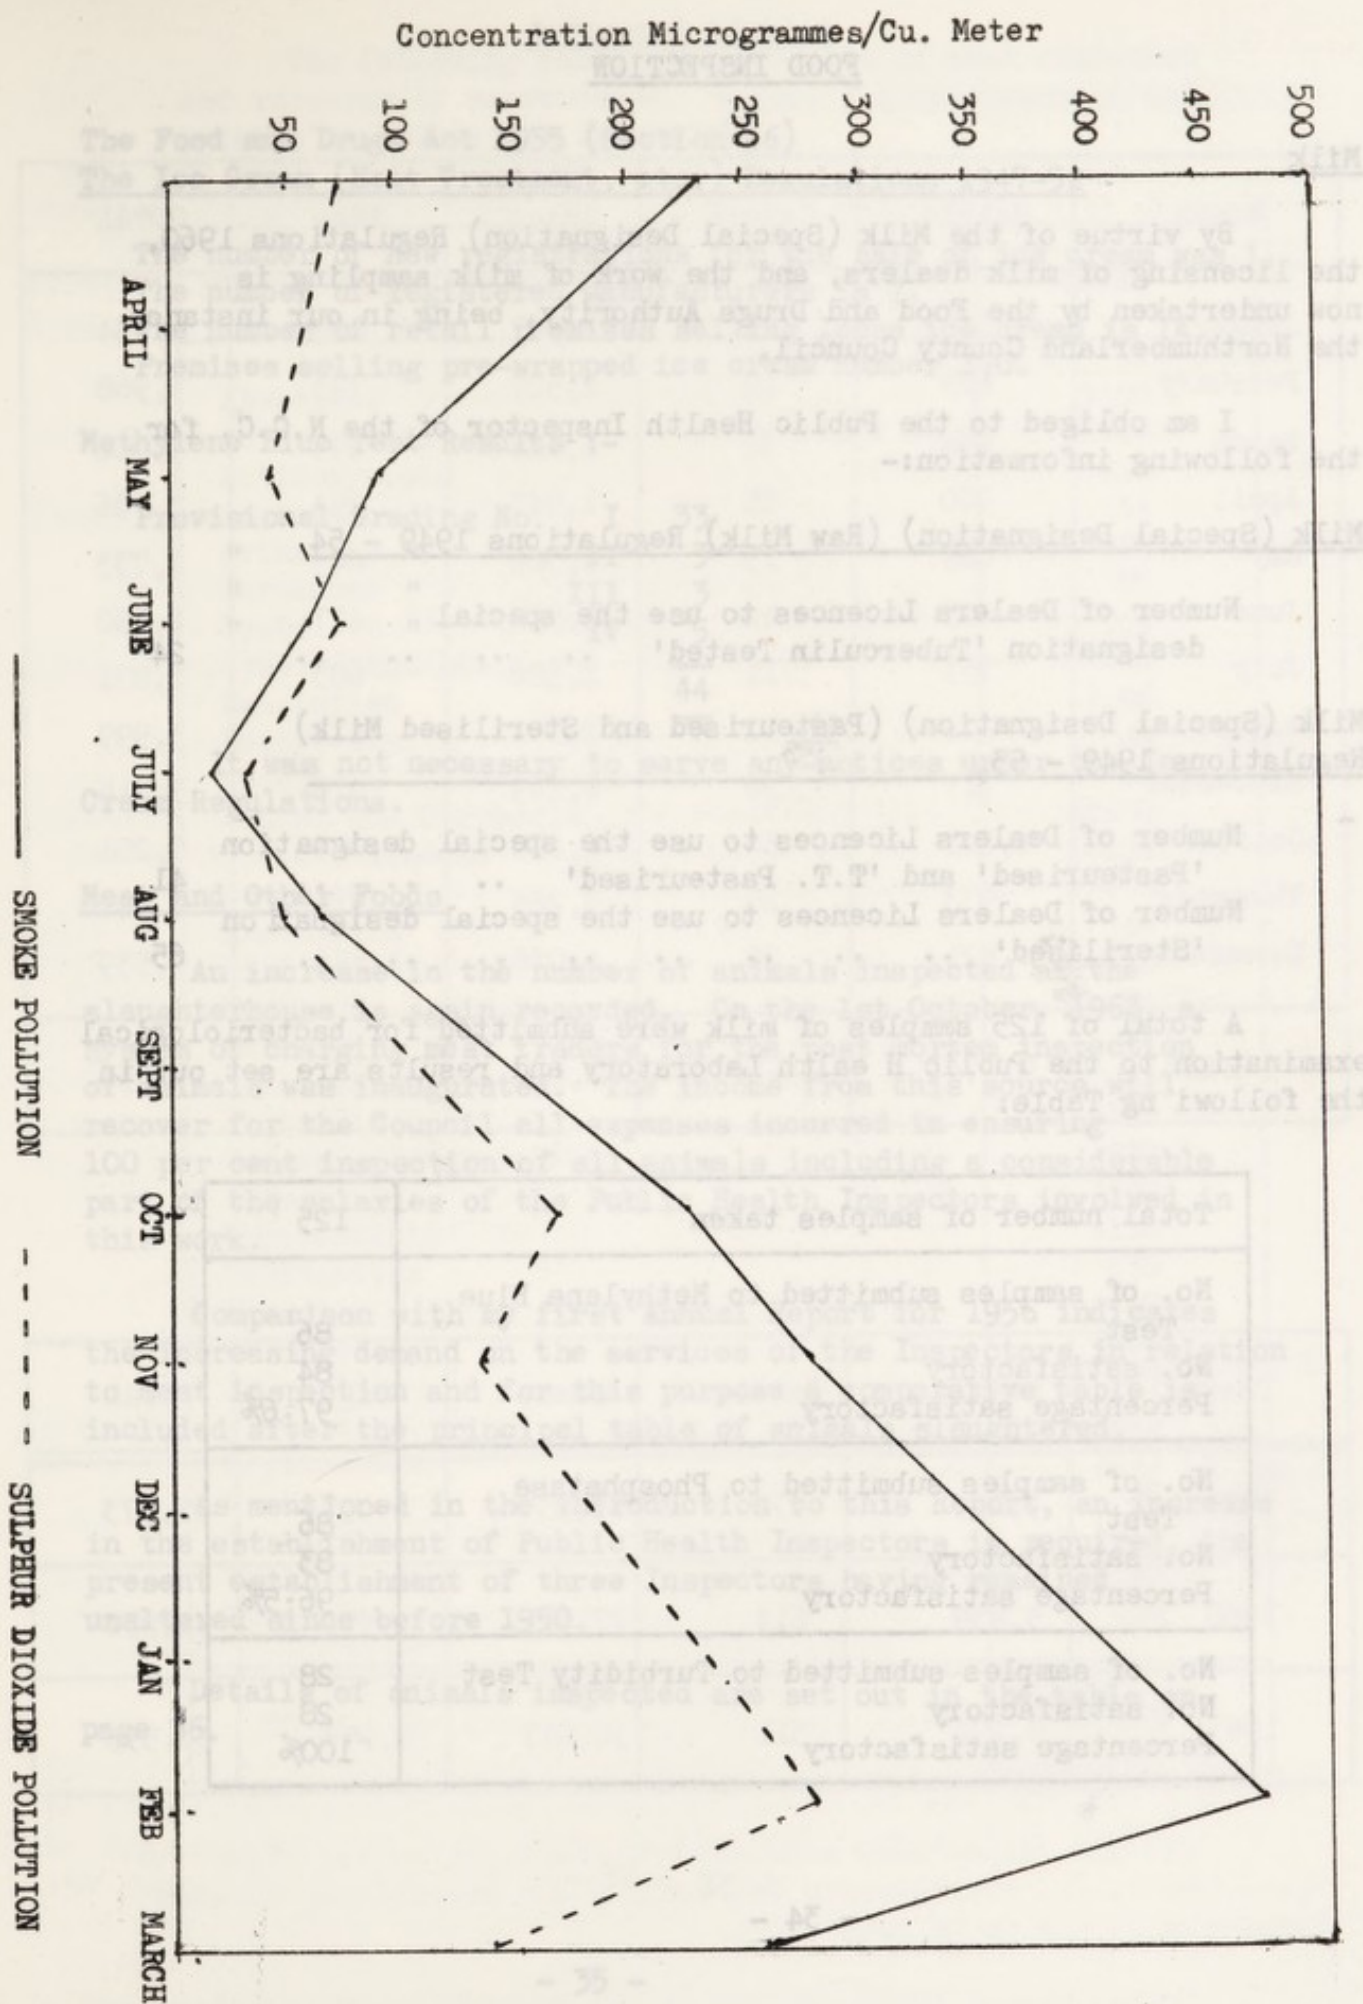

Three additional premises were licensed for the sale of pets during the year. The number of licensed premises is now 9. Routine inspections were carried out having regard to licensed conditions safeguarding the health and welfare of animals regarded as pets.

## Atmospheric Pollution

Set out on page 33 is a graph indicating the smoke and sulphur dioxide concentrations occurring during 1962. The real value of the information obtained from our volumetric recording apparatus will be in drawing comparisons of results after the Smoke Control Area programme gets under way.

Early in 1963 the Council's first Smoke Control Order was submitted to the Ministry of Housing and Local Government for confirmation with a suggested date of operation of 1st December, 1963. Unfortunately the smokeless fuel requirements for this proposed Area were principally open fire coke and owing to this fuel being in limited supply, our Order No. 1 remained unconfirmed at the end of the year.

# ANNUAL GRAPH - 1962/63

## FOOD INSPECTION

### Milk

By virtue of the Milk (Special Designation) Regulations 1960, the licensing of milk dealers, and the work of milk sampling is now undertaken by the Food and Drugs Authority, being in our instance the Northumberland County Council.

I am obliged to the Public Health Inspector of the N.C.C. for the following information:-

### Milk (Special Designation) (Raw Milk) Regulations 1949 - 54

|                                                                                       |    |
|---------------------------------------------------------------------------------------|----|
| Number of Dealers Licences to use the special designation 'Tuberculin Tested' .. .. . | 24 |
|---------------------------------------------------------------------------------------|----|

### Milk (Special Designation) (Pasteurised and Sterilised Milk) Regulations 1949 - 53

|                                                                                                        |    |
|--------------------------------------------------------------------------------------------------------|----|
| Number of Dealers Licences to use the special designation 'Pasteurised' and 'T.T. Pasteurised' .. .. . | 41 |
| Number of Dealers Licences to use the special designation 'Sterilised' .. .. .                         | 65 |

A total of 125 samples of milk were submitted for bacteriological examination to the Public Health Laboratory and results are set out in the following Table:

|                                                 |       |
|-------------------------------------------------|-------|
| Total number of samples taken                   | 125   |
| No. of samples submitted to Methylene Blue Test | 86    |
| No. satisfactory                                | 84    |
| Percentage satisfactory                         | 97.6% |
| No. of samples submitted to Phosphatase Test    | 86    |
| No. satisfactory                                | 83    |
| Percentage satisfactory                         | 96.5% |
| No. of samples submitted to Turbidity Test      | 28    |
| No. satisfactory                                | 28    |
| Percentage satisfactory                         | 100%  |

The Food and Drugs Act 1955 (Section 16)

The Ice Cream (Heat Treatment, etc.) Regulations 1947-52

The number of new registrations for the sale of ice cream was 1.

The number of registered manufacturers is 7.

The number of retail premises selling loose ice cream is 14.

Premises selling pre-wrapped ice cream number 170.

Methylene Blue Test Results :-

|                         |     |           |
|-------------------------|-----|-----------|
| Provisional Grading No. | I   | 33        |
| "                       | II  | 3         |
| "                       | III | 3         |
| "                       | IV  | 5         |
|                         |     | <u>44</u> |

It was not necessary to serve any notices under the Ice Cream Regulations.

#### Meat and Other Foods

An increase in the number of animals inspected at the slaughterhouse is again recorded. On the 1st October, 1963, a system of charging meat traders for the post mortem inspection of animals was inaugurated. The income from this source will recover for the Council all expenses incurred in ensuring 100 per cent inspection of all animals including a considerable part of the salaries of the Public Health Inspectors involved in this work.

Comparison with my first Annual Report for 1956 indicates the increasing demand on the services of the Inspectors in relation to meat inspection and for this purpose a comparative table is included after the principal table of animals slaughtered.

As mentioned in the introduction to this Report, an increase in the establishment of Public Health Inspectors is required, the present establishment of three Inspectors having remained unaltered since before 1950.

Details of animals inspected are set out in the table on page 36.

# Animals Inspected

| Month     | Cattle | Calves | Sheep  | Pigs  | TOTAL  |
|-----------|--------|--------|--------|-------|--------|
| January   | 810    | 29     | 4,187  | 908   | 5,934  |
| February  | 629    | 19     | 2,527  | 793   | 3,968  |
| March     | 654    | 32     | 1,685  | 695   | 3,066  |
| April     | 900    | 55     | 1,947  | 894   | 3,796  |
| May       | 689    | 15     | 1,386  | 643   | 2,733  |
| June      | 613    | 12     | 1,548  | 477   | 2,650  |
| July      | 751    | 11     | 2,386  | 683   | 3,831  |
| August    | 714    | 12     | 2,701  | 572   | 3,999  |
| September | 717    | 36     | 4,149  | 813   | 5,715  |
| October   | 1,043  | 34     | 6,200  | 1,004 | 8,281  |
| November  | 933    | 28     | 5,265  | 815   | 7,041  |
| December  | 821    | 28     | 4,036  | 1,654 | 6,539  |
| TOTALS    | 9,274  | 311    | 38,017 | 9,951 | 57,553 |

| Year | Cattle | Calves | Sheep  | Pigs  | TOTAL  |
|------|--------|--------|--------|-------|--------|
| 1956 | 3,793  | 578    | 15,937 | 6,035 | 25,373 |
| 1960 | 5,939  | 614    | 27,427 | 7,958 | 41,938 |
| 1963 | 9,274  | 311    | 38,017 | 9,951 | 57,553 |

The following table gives details of meat condemned and voluntarily surrendered. Reason for condemnation and weights in pounds are indicated.

| REASON FOR CONDEMNATION | TOTAL        |
|-------------------------|--------------|
| Abscesses               | 9450         |
| Actinobacillosis        | 286          |

### Disposal of Unsound Meat

All meat and offal surrendered is weighed and detained awaiting collection in a locked detention room. The material is then dyed green before collection for processing by Tyneside Butchers' By-Products Limited, into animal food and fertilisers at their Gateshead Factory.

### Cysticercus Bovis

Details of cases found are set out in the Medical Officer of Health's Report, page 14.

### Slaughter of Animals

The number of slaughtermen's licences issued was 11, all licencees being employed by the Whitley Bay Meat Supply Company.

### Other Foods

The following list indicates the quantities of foods other than meat found on examination to be unfit for human consumption and surrendered for destruction under supervision.

|           |     |      |           |    |      |
|-----------|-----|------|-----------|----|------|
| Meats     | 354 | tins | Puddings  | 6  | tins |
| Fruits    | 261 | "    | Chicken   | 2  | "    |
| Peas      | 27  | "    | Fish      | 35 | "    |
| Salmon    | 9   | "    | Cream     | 2  | "    |
| Milk      | 43  | "    | Carrots   | 5  | "    |
| Soup      | 10  | "    | Rice      | 15 | "    |
| Tomatoes  | 66  | "    | Beetroot  | 4  | jars |
| Beans     | 19  | "    | Picalilli | 5  | "    |
| Spaghetti | 2   | "    | Jam       | 73 | "    |

### Sale of Horseflesh

There are no premises in the Borough from which horseflesh is sold for human consumption.

### Diseases of Animals Acts and Orders

|                        |                   |
|------------------------|-------------------|
| Swine Fever            | No cases occurred |
| Foot and Mouth Disease | No cases occurred |

### Licensed Premises

Routine inspections were again carried out having regard to conveniences and arrangements for washing and sterilising glasses involving 44 visits by Inspectors.

The number of Public Houses in the Borough is 28 and there are 16 private clubs.

## Bakehouses

The number of bakehouses in the area is 11 all being equipped with mechanical power.

## Sale of Food Unfit for Human Consumption or Containing Foreign Matter

No incidents occurred which required action by the Health Committee.

## Fish Frying Establishments

The number of this type of food business in the Borough is 11.

## Food Hygiene

During the year under review 28 informal notices were sent to occupiers of food premises indicating 77 contraventions of the Food Hygiene (General) Regulations 1960.

This subject contains almost unlimited scope for educational work by Inspectors in addition to the enforcement of statutory requirements. Unfortunately the day to day demands on our services prevent any work in this direction. This is a disappointment to me as the personal hygiene standard of a kitchen employee has a direct effect on the hygienic preparation of the food served to the public. The public in turn depend on our action in ensuring that individuals employed in food preparation are clean and reliable in their habits.

No legal prosecutions were necessary.

## REFUSE COLLECTION AND DISPOSAL

The Health Committee is responsible for the collection and disposal of house and trade refuse, combining the collection and sale of salvage.

A once weekly collection of domestic refuse applies in the area and this service is increased for hotels, shops and other trade premises where limited storage space is available or the nature of the refuse is offensive.

The new refuse collection vehicle introduced in 1963 was a 50 cubic yard Pakamatic compression vehicle. The advantages of this machine with its extra large capacity for refuse were quickly apparent in the reduction of time taken on disposal runs with an increase in the "bins per man per day" figures.

Maintenance and control of the following vehicles is carried out within the Health Department.

#### Department Vehicles

| <u>Vehicle</u>        | <u>Type</u> | <u>Capacity</u> | <u>Year of Purchase</u> |
|-----------------------|-------------|-----------------|-------------------------|
| S.D. Freighter        | Side Loader | 12 cu. yds.     | 1950                    |
| S.D. Fore and Aft     | Rear Loader | 18 cu. yds.     | 1951                    |
| S.D. Fore and Aft     | Rear Loader | 18 cu. yds.     | 1952                    |
| S.D. Fore and Aft     | Rear Loader | 18 cu. yds.     | 1957                    |
| Karrier               | Side Loader | 10 cu. yds.     | 1958                    |
| S.D. Fore and Aft     | Bulk Loader | 18-25 cu. yds.  | 1960                    |
| Tractor-International | Drott       |                 | 1961                    |
| S.D. Fore and Aft     | Bulk Loader | 18-25 cu. yds.  | 1962                    |
| Bedford               | Truck       | -               | 1963                    |
| S.D. Pakamatic        | Rear Loader | 40-50 cu. yds.  | 1963                    |

Statistics regarding the weight of refuse collected and disposed of are set out in the following table for 1963. These weights are estimated following winter and summer test weighings as a weighbridge has not been installed at the new disposal site.

| <u>Description</u>                    | <u>Per Annum<br/>(Estimated)</u> | <u>Per Week<br/>(Estimated)</u> | <u>Per day (365 days<br/>to one year)</u> |
|---------------------------------------|----------------------------------|---------------------------------|-------------------------------------------|
| House and Trade<br>Refuse Disposed of | Tons<br>14,847                   | Tons<br>285.52                  | Tons<br>40.68                             |

| Refuse per<br>1,000 houses            | Tons<br>1,194.50                 | Tons<br>22.96                   | Cwts<br>65.45                             |

#### Provision of Dustbins (Municipal Scheme)

The total number of  $2\frac{1}{2}$  cubic feet capacity dustbins supplied during the year was 757. The number purchased by traders etc. was 148.

The Health Committee gave careful consideration in July, to the possible introduction of a paper sack pilot scheme incorporating 150 houses. The considerable cost involved, along with the assumption that other and larger areas must follow decided "no action at present".

## Refuse Disposal

Disposal of all the towns refuse was carried out at the one site at Seaton Hall Farm continuing the system of land reclamation affected with subsidence and flooding.

The appearance of a drainage effluent from the disposal field raised a problem resulting in an approach being received from the Tyneside River Board requiring remedial action.

A detailed investigation was instigated and several possible solutions examined in detail. This work was still proceeding at the close of 1963.

### Weights of House Refuse and Trade Refuse

| Month<br>1962-63               | No. of Loads | House Refuse |    |    |
|--------------------------------|--------------|--------------|----|----|
|                                |              | T.           | C. | Q. |
| April                          | 357          | 906          | 7  | 0  |

| January                        | 400          | 1447         | 8  | 0  |
| February                       | 315          | 994          | 19 | 0  |
| March                          | 321          | 1158         | 0  | 0  |
| TOTAL                          | 4260         | 13413        | 4  | 0  |
| Shops )<br>Cafes )<br>Hotels ) |              | 1434         | 0  | 0  |
| TOTAL                          | 4260         | 14847        | 4  | 0  |

### Salvage Recovery

The following table indicates the income derived from the sale of recovered materials.

| Commodity  | Tons | Cwts | Qrs. | Lbs | £    | s  | d  |
|------------|------|------|------|-----|------|----|----|
| Paper      | 343  | 6    | -    | -   | 2685 | 13 | 11 |
| Scrap etc. |      | 12   | -    | -   | 1    | 15 | 0  |
| Rags       | 2    | 19   | 1    | 0   | 45   | 5  | 0  |
| Wool       |      | 2    | 1    | 14  | 11   | 4  | 8  |
| TOTALS     | 346  | 7    | 2    | 14  | 2743 | 18 | 7  |

### Protective Clothing

Provision of overalls, moleskin jackets, and oilskin suits is arranged for the staff involved in refuse collection and disposal. This scheme is much appreciated by these workers.

### Sickness Benefit Scheme (Refuse Collection and Disposal Employees)

The total number of days lost due to sickness was 290. The cost involved was £451 19s. 3d. in 1963/64. This was a decrease on the previous year when 548 days were lost.

# PUBLIC CONVENIENCES

In accordance with the policy of the Minister of Housing and Local Government, the Council decided to remove existing turnstiles as a means of access to public conveniences. Individual coin locks were ordered and at the end of the year the fitting of these locks had commenced. It is expected that all turnstiles will have been removed before Easter, 1964.

The following table indicates the use of public conveniences in 1963:-

| Conveniences | Persons passing through turnstiles |         | No. of washes |        |
|--------------|------------------------------------|---------|---------------|--------|
|              | 1962                               | 1963    | 1962          | 1963   |
| Watts Road   | 189,920                            | 157,641 | 10,861        | 10,431 |
