WISBECH RURAL DISTRICT COUNCIL.

REPORT OF THE MEDICAL OFFICER OF HEALTH.
For the year ending 31st December, 1962.

MEMBERS OF THE PUBLIC HEALTH COMMITTEE.

The Chairman (Mr. N. Payne), the Vice-Chairman
(Mr. C.W. Andrews) and the Full Council.

During this year the Council were confirmed their
view that the concentration of the public water
supply should be increased to one part per million.

PUBLIC HEALTH OFFICERS OF THE LOCAL AUTHORITY :

MEDICAL OFFICER OF HEALTH (Part-time) -

M. Doreen C. Martin, M.B., Ch.B., D.C.H.

SENIOR PUBLIC HEALTH INSPECTOR AND SURVEYOR -

Alan P. Grant, M.A.P.H.I.

ADDITIONAL PUBLIC HEALTH INSPECTOR AND ASSISTANT SURVEYOR -

D. O'Connor, M.A.P.H.I.

WISCONSIN RURAL DISTRICT COUNCIL.

MEMBERS OF THE PUBLIC HEALTH COMMITTEE.

The Chairman (Mr. H. Payne), the Vice-Chairman
(Mr. C.W. Andrews) and the Public Council.

PUBLIC HEALTH OFFICERS OF THE LOCAL AUTHORITY:

MEDICAL OFFICER OF HEALTH (Part-time) -

H. Doreen C. Martin, M.B., Ch.B., D.C.H.

SENIOR PUBLIC HEALTH INSPECTOR AND SURVEYOR -

Alan P. Grant, M.A.P.H.I.

ADDITIONAL PUBLIC HEALTH INSPECTOR AND ASSISTANT SURVEYOR -

D. O'Connor, M.A.P.H.I.

WISBECH RURAL DISTRICT COUNCIL.
REPORT OF THE MEDICAL OFFICER OF HEALTH.
For the year ending 31st December, 1969.

Mr. Chairman, Ladies and Gentlemen,

I present for your consideration, the Annual Report on the Public Health of the Rural District of Wisbech for the year ending 31st December, 1969.

During this year the Council once more confirmed their view that the concentration of fluoride in the public water supply should be increased to one part per million.

Plans for the Regional Sewerage Scheme still await Ministry go-ahead. During the year an enquiry was held and it is hoped that the Scheme, in conjunction with the proposed new Sewerage works in Wisbech Borough, may soon begin.

I would like to record my gratitude to Mr. Grant and the whole staff of the Public Health Department for their help. The interest, guidance and support of the Chairman and Members of the Public Health Committee have once more been a great encouragement to me.

I have the honour to be, Ladies and
Gentlemen, Your obedient servant,

A. Green C. Martin

GENERAL STATISTICS.

Area of District	49,841 acres.
Estimate mid-year population for 1969	13,290
Estimate mid-year population for 1968	13,240
Rateable value at 1st April, 1969	£266,670.
Rateable value at 1st April, 1968	£258,225.
Product of a Penny rate (at 31.3.69)	£1,062.
Number of inhabited houses	4,410.

GENERAL MEDICAL SERVICES.

Cambridgeshire and Isle of Ely
Executive Council - 16, Station Road, Cambridge.

Clerk F. G. Lloyd, Esq.

East Anglian Regional Hospital Board - Union Lane, Chesterton,
Cambridge.

Senior Administrative Medical Officer - Dr. G.D. Duncan.

(a) GENERAL -

- (1) North Cambridgeshire Hospital, Wisbech.
- (2) Clarkson Hospital, Wisbech.
- (3) Memorial Hospital, Peterborough.
- (4) Addenbrookes Hospital, Cambridge.
- (5) Doddington Hospital, Doddington.

(b) MATERNITY -

Bowthorpe Maternity Home, Wisbech.

All primiparous mothers may be confined in the obstetric unit and other mothers may be admitted for obstetric abnormality. Since the General Practitioner Unit was opened the number of home confinements has fallen markedly as every mother may now be confined in hospital.

(c) INFECTIOUS DISEASES -

Isolation Hospital, Peterborough.
Hardwick Isolation Hospital, King's Lynn.

(d) TUBERCULOSIS -

The area chest physician holds a weekly clinic at North Cambridgeshire Hospital, Wisbech.

In-patient accommodation is provided through the East Anglian Regional Hospital Board.

(e) MENTAL ILLNESS -

Accommodation is provided (through the East Anglian Regional Hospital Board) usually in Fulbourne Hospital. This is arranged directly by the local General Practitioners.

(f) VENEREAL DISEASE -

- (1) Addenbrookes Hospital, Cambridge.
- (2) Peterborough Memorial Hospital, Peterborough.
- (3) West Norfolk and King's Lynn Hospital.

(g) MEDICAL EQUIPMENT SERVICE -

Medical equipment is provided on loan by the St. Johns Ambulance Division and the Red Cross Medical Loan Depot by arrangement with the County Council.

COUNTY MEDICAL SERVICES.

(A) Midwifery, General Sick and Public Health Nursing -

The Nursing Staff is employed by the Cambridgeshire and Isle of Ely County Council either directly or by arrangement with the County Nursing Association under the National Health Service Act, 1946.

In the parishes given, all those undertaking midwifery and general nursing are qualified to administer gas/air analgesia and pethadine, and the necessary number of gas/air machines are available for their use.

ELM, UPWELL AND OUTWELL :

Miss A. Heney,	Q.N.	Midwife, General Nursing,
Halfpenny Lane,	S.R.N.	Public Health Nursing, School
<u>ELM.</u>	S.C.M.	Nurse, Health Visitor for Elm.
(Wisbech 4806)	H.V. .	

Miss R. Ward,	S.R.N.	Health Visitor for Upwell and
County Hall,	S.C.M.	Parson Drove.
<u>MARCH.</u>		

WISBECH ST. MARY AND PARSON DROVE :

Miss B.M. Robinson,	Q.N.	General Nursing and
Church Road,	S.C.M.	Midwife.
<u>WISBECH ST.MARY.</u>		(Until 16th June, 1969).

Miss M.E. Joynt,	Q.N.	Health Visitor for Wisbech
Horsefair Clinic,	S.R.N.	St. Mary.
<u>WISBECH.</u>	S.C.M.	
	H.V.	

LEVERINGTON, NEWTON AND TYDD ST. GILES :

Miss E.M. Burdett,	Q.N.	Midwife and General
High Road,	S.C.M.	Nursing.
<u>GOREFIELD.</u>		
(Newton 274).		

Mrs. M.M. Reid,	S.R.N.	Health Visitor.
Horsefair Clinic,	S.C.M.	
<u>WISBECH.</u>	H.V.	

Mr. R. Elackley,	S.R.N.	Male Nurse for Wisbech Borough
Sandringham Avenue,	Q.N.	and Rural Districts.
<u>WISBECH.</u>		

(B) Ambulance and Hospital Car Service -

The radio-controlled ambulance system is now working well. There is one ambulance control centre at March which directs ambulances and hospital cars with speed and economy to the points where they are required. As part of the overall scheme, 3 ambulances are stationed at Wisbech and there are 7 other ambulances throughout the Northern Area of the County.

(C) Infant Welfare Centres -

Christchurch (Parish Hall)	4th Monday.
Parson Drove (Church Hall)	1st Wednesday.
Leverington (Church Hall)	2nd Tuesday.
Fridaybridge (Church Hall)	4th Wednesday.
Wisbech St. Mary (Women's Institute).....	2nd Thursday.
Newton (Women's Institute)	1st Thursday.

(D) Home Help Service -

Available for confinements, cases of illness and for social reasons in the aged.

LABORATORY SERVICES.

Public Health Laboratory Service,
Peterborough District Hospital,
Midland Road,
PETERBOROUGH.

(Director: Dr. J. Glencross).

Public Health Laboratory Service,
Tennis Court Road,
CAMBRIDGE.

(Director: Dr. Fry).

Public Analyst,
The Laboratory,
Tenison Road,
CAMBRIDGE.

(S. Greenburgh, P.H.D., B.Sc., F.R.I.C.)

OTHER SERVICES.

Health Education -

All primiparous women are given the opportunity of attending relaxation and Mother and Baby Care Classes during their pregnancy. Recognised Women's Meetings e.g. Church groups and Women's Rural Institute Meetings, occasionally ask for a speaker on Health Education, and such requests are readily complied with by the Public Health Department.

Personal Cleanliness -

There is a bath-house available at the Borough Public Health Department. This year it was not necessary to use the service.

Disinfection and Disinfestation -

Premises - By the Senior Public Health Inspector's Staff.

Bedding and Clothing - Which cannot be dealt with by this department are sent to Clarkson Hospital, Wisbech.

Meals on Wheels -

During the year this service has been started in five villages - Upwell, Outwell, Leverington, Gorefield and Newton. The initiative came from the Womens Voluntary Service.

NOTIFIABLE INFECTIOUS DISEASES - 1969.

Suicide	1	1	0	0	3	2(1)
TOTALS	13	7	9	10	8	15(7)

Numbers in brackets are under 65 years old.

I draw your attention to these causes of death as being essentially preventable. The number of deaths from lung cancer, of course, gives no indication of the number of cases diagnosed and successfully treated.

ANNUAL REPORT OF THE SENIOR PUBLIC HEALTH INSPECTOR.

HOUSING.

I am indebted to the Senior Public Health Inspector for the following report.

Number of Dwellings completed during 1969 -

Council Bungalows - 28 Private - 47

Number of Dwellings under construction at the end of 1969 -

Council Bungalows - 8 Private - 25

UNFIT HOUSES -

There are approximately 43 sub-standard houses in the district, but it must be appreciated that this figure is based upon a survey made some considerable time ago and although many houses have been improved and modernised some have deteriorated in condition, especially those near the border line at the time of the survey. The following number of unfit houses were dealt with during the year as follows -

	<u>Demolition Orders</u>	<u>Closing Orders</u>	<u>Demolished in Anticipation</u>
Elm	1	2	2
Leverington	2	1	-
Newton	-	-	-
Outwell	1	1	-
Parson Drove	1	-	-
Tydd St. Giles	-	-	-
Upwell	-	1	1
Wisbech St. Mary	2	4	2
	7	9	5

RENT ACT, 1957 -

During the year there were no applications for Certificates of Disrepair, and no applications for the revocation of Certificates of Disrepair by owners of property.

IMPROVEMENT GRANTS -

Applications for grants for the improvement of private dwellings are dealt with jointly by the Public Health department and the Architect's department, following the pattern set up several years ago. During the year Discretionary Grants were approved for one house to a total of £245. Standard Grants were approved for thirty two houses to a total of £7,088.

It is to be noted that the numbers of grants involved fell appreciably and of course proves the point that the public are still not taking full advantage of the scheme. The new Housing Act will possibly give people the necessary economic incentive but this must be backed up by realistic advertising both by the Central Government and the Local Authorities.

BUILDING REGULATIONS -

The examination of all plans submitted under the Building Regulations, the preparation of reports to the Planning Committee and subsequent inspection of work in progress, is carried out by the Public Health department, the department itself fulfilling a dual role and acting also as the Surveyor's department. Our activities however, relate only to private development and do not include any development carried out on the Council's behalf, this work being under the control of the Architect's department.

During the year the department dealt with 227 plans, a slight increase on last years number. There has been no appreciable let up in pressures, both for information and advice because of the complexity of the regulations and I would again stress that you consider the possibility of increasing the staff of the department to deal with part of the work.

CESSPOOL EMPTYING AND COUNCIL'S SEWAGE DISPOSAL PLANTS -

The Council operate three cesspool emptiers, a Ford Thames Trader vehicle with a capacity of 1,000 gallons, a Bedford vehicle with a capacity of 1,000 gallons and a Ford vehicle of 1,000 gallons capacity. The vehicles are each crewed by two men. The cost to occupiers for the emptying service is £1 for each domestic property and £1 per load for commercial premises.

The work carried out by these vehicles consisted of 2,171 jobs. The Council's twenty one sewage disposal plants are also de-sludged and during the year 363 loads of sludge were removed from all the plants.

Following on from this it can be said that a happy state of co-operation exists between the Public Health department and the Housing department, whose job it is to maintain the sewage plants. A great deal of help is, and has been received from the Pollution Officer of the Drainage Board, who is constantly checking effluent standards. These standards are usually consistently high but are maintained only by constant supervision and maintenance, the cesspool emptier acts as a vital link in this process. The orthodox plants give little trouble, the two extended aeration plants which the Council run have been little trouble. The absence of problems with these plants is directly attributable to splendid work by the maintenance engineer in charge of the plants.

The main disposal outlet for the contents of the cesspool emptiers is now catered for by direct discharge into the Wisbech Borough Council's sewerage system, thick loads being diverted to the sewage farm belonging to the Wisbech Borough Council and situated at Walpole Marsh. Other disposal is by utilising straw pans and stubble for which owners are paid at the rate of five shillings per load.

The burden of cesspool emptying continues to increase, although weather conditions governing the height of the subsoil water complicates the issue. As with all other districts the general amenity standard is improving and together with new dwellings constantly increase the needs of the district in the disposal of sewage. Time passes and the great hopes of a speedy start to the Council's new sewerage plans gradually fade and the mood of pessimism increases. A further addition of a 1,500 gallon emptier is anticipated in the near future, industrial action holding up its supply, and this in turn resulting in a back log of jobs of cesspools to be emptied.

REFUSE COLLECTION AND DISPOSAL -

In August, the Council's weekly refuse collection commenced, together with a twice weekly collection for about six or seven months of the year from the Fridaybridge Agricultural Camp. The weekly collection is the first phase in the improvement of the district refuse collection service and is in accordance with the recommendations of the Working Party on Refuse Collection, it is hoped that further improvements will eventually follow. The service is now operated with two fifty cubic capacity Eagle Crushload refuse collection vehicles each crewed by three men. An old Shelvoke and Drewry fore and aft tipper has been retained as a spare vehicle and its use as such is essential for the efficiency of the service. Bulk refuse is being dealt with as and when requested and is collected from premises free of charge, requests have increased during the year. Efforts are being also made to clean up accumulations of refuse on open sites.

Refuse disposal facilities are shared with the Marshland Rural District Council and the Borough Council of Wisbech. Refuse disposed of in the old Wisbech canal. Soil is excavated and then used to cover over the refuse deposited. Mechanical plant is essential for this kind of operation and an International Harvester B.85 with Drott bucket together with a 10 R.B. excavator is provided. Both vehicles are operated by one man. Insect and rodent control measures are carried out over the whole length of the canal.

The volume of refuse is still increasing and its character is changing; weight decreasing, bulk increasing. It is stressed that with this 'throw away' type of society, previously estimated figures for the tipping 'life' of the canal might have to be re-assessed and forward planning put in hand as to future sites in the area. These measures might mean a consortium of districts to include pulverising or incinerating methods prior to tipping.

A salvage system is in operation and all types of materials are utilised. These are sold through a local firm. The revenue for the year was £52 after deduction of the collectors' bonuses.

FOOD -

All food premises in the district were inspected and where necessary occupiers were requested to give attention to contraventions of the Food Hygiene Regulations. Once again particular attention has been paid to the proper use of freezing equipment in premises visited.

There is one permanent poultry processing plant in the district. Poultry and premises are regularly inspected.

SLAUGHTERHOUSES ACT, 1958 - MEAT INSPECTION REGULATIONS, 1963 -

The district is served by one slaughterhouse owned and operated by Mr. N.V. Gagen. All animals slaughtered at the slaughterhouse at Wolf Lane, Gorefield are inspected and stamped in accordance with the Meat Inspection Regulations but it has again been found impracticable for an inspector to be present at the dressing of all carcasses, however inspections are carried out as quickly as possible. There are fixed days for slaughtering and emergency slaughter animals are immediately notified to the department so that inspection can be carried out. The income from inspection fees during the year was £75. 6s.

During the year the Ministry of Agriculture, Fisheries and Food Veterinary Officers visited and inspected the slaughterhouse and I would like to record my appreciation of their co-operation in the past year and also the co-operation of the slaughterhouse operator, who is constantly improving his premises and equipment therein.

LICENCES TO SLAUGHTER AND STUN ANIMALS -

Six persons were licenced to slaughter and stun animals. One provisional licence was issued.

CARAVAN SITES AND CONTROL OF DEVELOPMENT ACT, 1960 -

There were no site licences issued for the stationing of caravans during the year. The permanent residential site in the area was maintained satisfactorily, and again whole hearted co-operation was received from the site operator.

RODENT CONTROL -

There is no full time operator employed by the Council. Work to Council property and sewage plants is carried out by members of the Housing department staff. The same men also carry out control on a part time basis for the length of the Wisbech canal which is to used for refuse disposal. The normal level of infestation remains high and advice and instruction were given to the public. The problem is a national one and should be treated as one, so that anti-rodent measures can be carried out over all districts uniformly according to a single master plan.

PETROLEUM ACTS -

When underground petroleum tanks are installed in the district the necessary inspections are carried out prior to installation.

ANIMAL BOARDING ESTABLISHMENTS ACT, 1963 -

There is one premises used for boarding in the district. Accommodation is provided for twelve animals. Satisfactory conditions were maintained.

SWIMMING POOLS -

There is no large public swimming pool in the area. Most of swimming is done in small swimming pools attached to most schools in the area. Advice is given to head teachers by the department if required and constant checks are made by the department during the season.

CIVIC AMENITIES ACT, 1967 -

The Council have been active in the implementation of the Act. The existing refuse tip at Outwell is utilised for dumping by the public. A system of bulk collection of domestic refuse is in force and advantage is being taken of this. During the year four abandoned cars wereremoved to a collection depot which has been set up and is shared with Marshland Rural District Council and the Wisbech Borough Council.

The practice of dumping rubbish in isolated places in the district continues to increase and once an accumulation remains in one spot for any length of time people assume it a dumping spot and the pile gradually increases, legislation exists for the prevention of such practices, but the practical aspect of control is a very difficult one. Education and propaganda seem the most likely weapons to be used in the battle against indiscriminate dumping.

SANITARY ACCOMMODATION - LAY-BYES -

I have to report that the conveniences at the Guyhirn lay-by continue to work satisfactorily. These have now been in operation since August, 1967. These are chemical type conveniences and so far no real trouble has been experienced. It is obvious that they have filled a long standing need and the public and area generally have benefited. Vandalism has occurred but only slightly, involving minor damage to locks, partitions and water fittings.

WATER SUPPLY -

This service is provided by the Wisbech and District Water Board. Monthly summaries of bacteriological and chemical examinations are sent through to this department by the Board's Chemist, Mr. Collins, whom I wish to thank for his ready help with problems regarding water supply. Results have been of a very high standard and there was no contamination calling for special action by this department. A short table of examination results are set out below -

	<u>Samples submitted</u>	<u>Satisfactory</u>	<u>Unsatisfactory.</u>
Bacteriological	718	718	Nil
Chemical	63	63	Nil

The district as a whole is well supplied and there are very few houses now which do not have a mains water supply available.

OFFICES, SHOPS AND RAILWAY PREMISES ACT, 1963 -

At the end of the year 52 premises, employing 103 persons were registered, as detailed below. -

REGISTRATIONS AND GENERAL INSPECTIONS.

Class of Premises	Premises Registered During year	Total Premises Registered end of year	Registered Premises Inspected
Offices	Nil	18	9
