[Illegible text block]

[Illegible text block]

STATISTICS AND SOCIAL CONDITIONS OF THE AREA.

Area in acres	Public Health Department,	7,540
Population (estimated) mid year	Highfield House,	17,270
No. of inhabited houses at the end of 1951	Carlton Road,	4,387
Rateable value at 1st April, 1952	WORKSOP.	282,117
Rateable value at 1st April, 1951		282,117

September, 1952.

VITAL STATISTICS.

To the Chairman and Members of the Worksop Rural District Council.

Sir, Ladies and Gentlemen,

I have the honour to submit for your consideration the annual health report for 1951, together with the Vital Statistics relative to that period.

The population figure of 17,270 represents an increase of 800 over the corresponding figure for last year.

The Birth Rate at 18.1 per thousand of the population is above that for England and Wales (15.5).

The Death Rate at 8.39 per thousand of the population is below that for England and Wales (12.5).

The Infant Mortality Rate at 31.9 per thousand live births is slightly above that for England and Wales (29.6).

The report includes information on the Health Services provided in the area by the Nottinghamshire County Council and for this information I am indebted to the County Medical Officer.

Infantile Mortality

I am, Sir, Yours faithfully,

Deaths of Legitimate Infants under 1 year 3
 Deaths of Illegitimate Infants under 1 year 0

Your obedient Servant,
 M. B. McCann,

Death rate of legitimate infants per 1,000 illegitimate live births	30.1
Death rate of illegitimate infants per 1,000 illegitimate live births	71.4
Death rate of all infants per 1,000 live births	31.9
Infant mortality rate for England & Wales per 1,000 live births	29.6

Deaths

N. P. Total
 78 70 148

Death rate per 1,000 estimated population	8.39
Death rate per 1,000 population England and Wales	12.5

All the Above rates are calculated on the estimated population given by the Registrar General.

Public Health Department,
Highfield House,
Garrison Road,
Wokingham.

September, 1952.

To the Chairman and Members of the Wokingham Rural District Council.

Sir, Ladies and Gentlemen,

I have the honour to submit for your consideration the annual health report for 1951, together with the vital statistics relative to that period.

The population figure of 17,270 represents an increase of 800 over the corresponding figure for last year.

The Birth Rate at 18.1 per thousand of the population is above that for England and Wales (13.8).

The Death Rate at 8.35 per thousand of the population is below that for England and Wales (12.2).

The Infant Mortality Rate at 51.9 per thousand live births is slightly above that for England and Wales (48.0).

The report includes information on the health services provided in the area by the Wokingham County Council and for this information I am indebted to the County Medical Officer.

I am,

Your obedient servant,

M. S. Rogers,

Medical Officer of Health.

STATISTICS AND SOCIAL CONDITIONS OF THE AREA.

Area in acres	27,548
Population (estimated) mid year	17,270
No. of inhabited houses at the end of 1951	4,327
Rateable value at 1st April, 1952	£82,117
Penny Rate Product at 1st April, 1952	£329

OTHER DISEASES.

Mortality.

The causes of death were:-

Respiratory Tuberculosis	4
Non-respiratory Tuberculosis	1
Measles	1
Cancer (all forms)	13
Leukaemia	1
Vascular diseases of the Nervous System	15
Heart Disease	42
Other Circularity diseases	3
Influenza	9
Pneumonia	1
Bronchitis	19
Other diseases of the Respiratory System	2
Stomach Ulcer	1
Kidney Disease	6
Congenital Malformations	3
Other Defined and Ill-defined Diseases	13
Motor Vehicle Accidents	2
All other Accidents	6
Suicide	1
Other Infective and Parasitic Diseases	1
Meningococcal Infection	1

145

Fifteen new cases of pulmonary tuberculosis and one case of non-pulmonary tuberculosis were notified during the year.

The period elapsing between date of notification and admission to a sanatorium has greatly decreased.

The Housing Committee has provided adequate housing accommodation for about 1000, and of these numbers are likely to be suffering from "open" tuberculosis, and a definite reduction probably.

Arrangements on a limited scale (owing to the time difficulty) have been set up by the County Council for the B.O.C. inoculation of child contacts of tuberculosis patients, and where it is possible to remove the child to relative safety it is acquiring protection.

Polymyositis

One case of polymyositis poliomyelitis was notified during the year. The patient was a boy aged six years. He was removed to the Duggan's Isolation Hospital, where he subsequently made a complete recovery.

Contacts should realize that the risks of acquiring poliomyelitis are less than those involved in crossing the street.

In the period under review there were two deaths from motor vehicle accidents.

Acute Spinal Fever

One case of acute spinal fever was notified during the year. The patient was a little girl aged 12 years, and originally sent to the Milton Hill Hospital, and after the diagnosis had been confirmed, she was transferred to the Lodge Hill Isolation Hospital.

The cause of death were:-

1	Respiratory Tuberculosis
1	Non-respiratory Tuberculosis
1	Leucemia
1	Cancer (all forms)
1	Leucemia
1	Vascular diseases of the Nervous System
1	Heart Disease
1	Other Circulatory Diseases
1	Influenza
1	Pneumonia
1	Whooping Cough
1	Other diseases of the Respiratory System
1	Stomach Ulcer
1	Kidney Disease
1	Congenital Malformations
1	Other defined and ill-defined Diseases
1	Motor Vehicle Accidents
1	All other Accidents
1	Suicide
1	Other Infective and Parasitic Diseases
1	Mycobacterial Infection

PREVALENCE OF, AND CONTROL OVER, INFECTIOUS AND
OTHER DISEASES.

Measles

During the year 248 cases of measles were notified.

Scarlet Fever

Thirty-eight cases of scarlet fever were notified and the disease continues to be mild in type.

Whooping Cough

Eighteen cases of whooping cough were notified during the year, being twenty-two less than in 1950.

A considerable amount of evidence has now accumulated to indicate that inoculation against this disease is effective. No doubt the Ministry of Health will soon authorise its use by Local Health Authorities.

Food Poisoning, Enteric Fever

No cases of these diseases were notified during the year.

Tuberculosis

Fifteen new cases of pulmonary tuberculosis and four new cases of non-pulmonary tuberculosis were notified during the year.

The period elapsing between date of notification and admission to a sanatorium has greatly decreased.

The Housing Committee has provided alternate housing accommodation for those families, one of whose members was known to be suffering from "open" tuberculosis, and a separate bedroom provided.

Arrangements on a limited scale (owing to staffing difficulties) have been set up by the County Council for the B.C.G. inoculation of child contacts of tuberculosis patients, and where it is possible to remove the child to relatives while it is acquiring protection.

Poliomyelitis

One case of paralytic poliomyelitis was notified during the year. The patient was a boy aged six years. He was removed to the Doncaster Isolation Hospital, where he subsequently made a complete recovery.

Patients should realize that the risks of acquiring poliomyelitis are less than those involved in crossing the street.

In the period under review there were two deaths from motor vehicle accidents.

Cerebro Spinal Fever

One case of cerebro spinal fever was notified during the year. The patient was a little girl aged 1½ years, and originally sent to the Kilton Hill Hospital, and after the diagnosis had been confirmed, she was transferred to the Lodge Moor Isolation Hospital.

PREVALENCE OF AND CONTROL OVER, TYPHOID AND

OTHER DISEASES

Scarlet Fever

During the year 225 cases of scarlet fever were notified.

Whooping Cough

Thirty-eight cases of whooping cough were notified and the disease continues to be mild in type.

Food Poisoning, Enteric Fever

No cases of these diseases were notified during the year.

Tuberculosis

Fifteen new cases of primary tuberculosis and four new cases of non-primary tuberculosis were notified during the year.

The period elapsing between date of notification and admission to a sanatorium has greatly decreased.

The Housing Committee has provided separate housing accommodation for those families, one of whose members was known to be suffering from "open" tuberculosis, and a separate bedroom provided.

Arrangements on a limited scale (owing to existing difficulties) have been set up by the County Council for the B.C.G. inoculation of child contacts of tuberculous patients, and where it is possible to remove the child to relatives while it is requiring protection.

Poliomyelitis

One case of paralytic poliomyelitis was notified during the year. The patient was a boy aged six years. He was removed to the Doncaster Infirmary Hospital, where he subsequently made a complete recovery.

Patients should realize that the risk of acquiring poliomyelitis is less than those involved in crossing the street.

In the period under review there were two deaths from motor vehicle accidents.

Cerebral Meningitis

One case of cerebral meningitis was notified during the year. The patient was a little girl aged 12 years, and was sent to the Milton Hill Hospital, where the disease had been confirmed, she was transferred to the Lodge Sanatorium Hospital.

TABLE I.
Progress of Diphtheria Immunisation.

Percentage of children in the two age groups completing the course of treatment.

Year	No. of children who completed a full course of treatment.	
	Under 5	Over 5
1946	75.03	100
1947	46.24	100
1948	63.05	98.10
1949	63.5	100
1950	61.64	92.76
1951	55.8	73.3

There were no cases of Diphtheria during the year.

Infant Mortality.

There were ten deaths under one year giving an infant mortality rate of 31.9.

TABLE II.
Comparative Infant Mortality Rates.

Year	Worksep Rural District.	England and Wales
1946	43.07	43
1947	51.35	42
1948	48.04	34

HOME HELP SERVICE

The demand for Home Help in the Worksop Rural District increases as the amenities of the Service become more widely known.

Home Helps are available for households where domestic help is needed owing to the presence of anyone who is sick, lying-in, an expectant mother, mentally defective, aged, or a child not over compulsory school age.

The work undertaken by these women does not include nursing or midwifery duties and they are not used as "sitters-in", but they do the ordinary domestic work usually undertaken by the mother of a family which may include cleaning, cooking, washing, care of children, mending and shopping.

The charge for the Service is 2s. 6d. per hour except where the patient is unable to afford that amount, when the County Council's Scale of Assistance is applied. Home Helps are paid by the County Council and necessary travelling expenses are reimbursed.

Cases needing help should be reported to the Home Help Service, 67, Carlton Road, Worksop, Telephone: Worksop 2884, where the Service is administered by a Sub-Organiser assisted by a Case-Worker.

NURSING IN THE HOME

The names and addresses of the District Nurses residing in the Worksop Rural District are as follows:-

<u>Name</u>	<u>Address.</u>	<u>Tel. No.</u>	<u>Available for</u>
E. Dyson	8, Scrooby Rd. Bircotes	Tickhill 288	Harworth and Styrrup
M. Mowforth	8, Scrooby Rd. Bircotes	Tickhill 288	
N. Needham	36, Devonshire Rd. Harworth	Tickhill 363	
C. E. Walton	16, Markham Rd. Langold	N. Carlton 258	Langold
I. Wright	The Cottage, Carlton-in-Lindrick.	N. Carlton 257	Carlton-in-Lindrick Wellingwells.
G. Young	The Cottage, Main St. Blyth.	Blyth 242	Blyth, Oldcotes, Hodsock
M. Welch	Ten Row, Cuckney	Warsop 176	Nether Langwith, Cuckney, Welbeck, Holbeck, Carburton Norton

Weekly	Monday	2.0 p.m. to 4.30 p.m.

Langold Temporary School Buildings, Firbeck Crescent.

A.N. Fortnightly	Tuesday	2.0 p.m. to 4.30 p.m.
C.W. Weekly	Friday	2.0 p.m. to 4.30 p.m.

Blyth Memorial Hall

A.N. Monthly	Tuesday	2.0 p.m. to 4.30 p.m.
C.W. Fortnightly	Tuesday	2.0 p.m. to 4.30 p.m.

HOME HELP SERVICE

The demand for Home Help in the Warwick Rural District increases as the amenities of the Service become more widely known.

Home Help is available for households where domestic help is needed owing to the presence of anyone who is sick, injured, an expectant mother, mentally defective, aged, or a child not over compulsory school age.

The work undertaken by these women does not include nursing or midwifery duties and they are not used as "sitters-in", but they do the ordinary domestic work usually undertaken by the mother of a family which may include cleaning, washing, mending, care of children, mending and shopping.

The charge for the Service is £4. 0d. per hour except where the patient is unable to attend the Service, when the County Council's Social Assistance is applied. Home Help is paid by the County Council and necessary travelling expenses are reimbursed.

Cases needing help should be reported to the Home Help Service, 67, Capric Road, Warwick, Telephone: Warwick 2884, where the Service is administered by a Sub-Organiser assisted by a Case-worker.

NURSING IN THE HOME

The names and addresses of the District Nurses residing in the Warwick Rural District are as follows:-

Name	Address	Tele. No.	Available for
E. Dixon	10, Stoney Rd., Warwick	Warwick 288	Warwick

4. National Coal Board.	Deep boreholes Sunnyside, Harworth.	Gravity from elevated tank at Harworth.	Public Health Department, Council Offices, Highfield House, Carlton Road, WORKSOP.

Sanitary Inspection of the Area.

Report made to the Medical Officer of Health, in pursuance of Article 27 of the Sanitary Officer's (Outside London) Regulations, 1935.

C. J. PHILLIPS,

Chief Sanitary Inspector.

INFECTIOUS DISEASE

The home conditions and possible sources of infection of all cases of notifiable infectious diseases have been investigated, following removal to hospital. The rooms occupied by the patient are fumigated and the householders are given instructions on the cleansing of the houses and effects; disinfectant fluid is supplied by the Council, free of charge, for this purpose.

Forty-three premises were visited throughout the year in connection with infectious diseases, including thirty-six cases of Scarlet Fever, two cases of suspected Poliomyelitis and one case of suspected Diphtheria.

WATER SUPPLIES.

1. Public Supplies.

The greater part of this district has continued to be supplied from six public sources, only one of these - Blyth Waterworks - being under the direct control of the Worksop Rural District Council. The six public sources are as follows:-

	<u>Source of Supply.</u>	<u>Distribution</u>	<u>Parishes.</u>
1. Worksop Corporation	Deep boreholes, Sunnyside, Worksop.	Gravity Supply, from Reservoir Peaks Hill, Carlton-in-Lindrick.	1. Carlton-in-Lindrick. 2. Hodsock. 3. Oldcotes.
2. Blackwell Rural District Council	Three deep boreholes, Budby.	Direct from main at Whaley Thorns from reservoirs at Stoney Houghton	1. Nether Langwith.
3. Doncaster & Tickhill Board.	Three deep boreholes at Austerfield.	Gravity supply from reservoir Bawtry.	1. Part of Harworth.

Carlton Road,
WORKSOP.

Sanitary Inspector of the Area.

Report made to the Medical Officer of Health in pursuance of Article 27 of the Sanitary Officer's (Outside London) Regulations, 1935.

G. J. PHILLIPS,

Chief Sanitary Inspector.

INFECTIOUS DISEASE

The house conditions and possible sources of infection of all cases of notifiable infectious diseases have been investigated following removal to hospital. The rooms occupied by the patient are fumigated and the householder is given instructions on the cleansing of the house and effects; disinfectant fluid is supplied by the Council, free of charge, for this purpose.

Forty-three premises were visited throughout the year in connection with infectious diseases, including thirty-six cases of Scarlet Fever, two cases of suspected Polio-myelitis and one case of suspected Diphtheria.

WATER SUPPLIES.

1. Public Supplies.

The greater part of this district has continued to be supplied from six public sources, only one of these - High Waterworks - being under the direct control of the Worksop Rural District Council. The six public sources are as follows:-

<u>Parishes.</u>	<u>Distribution</u>	<u>Source of Supply.</u>
1. Carlton-in-Lindrick.	Gravity Supply, from Reservoir, Peaks Hill, Carlton-in-Lindrick.	1. Worksop Deep boreholes, Corp.-Sunnyside, Worksop.
2. Hobsock.		
3. Oidcocks.		
1. Hether Langwith.	Direct from main at Walsley, Thorne from reservoirs at Stoney Houghton	2. Blackwell Three deep boreholes, District Baddy, Council
1. Part of Harworth.	Gravity supply from reservoir, Bawtry.	3. Doncaster Three deep & Tickhill boreholes at Joint Water Authority Board.

Public Supplies (Continued)

	<u>Source of Supply.</u>	<u>Distribution.</u>	<u>Parishes.</u>
4. National Coal Board.	Deep borehole South Carr, Harworth.	Gravity supply from elevated tank at Harworth.	1. Harworth (Major part) 2. Styrrup.
5. Welbeck Estates.	Deep borehole Carburton	Gravity supply from storage tank at Clumber and Cuckney.	1. Carburton 2. Norton 3. Holbeck 4. Welbeck 5. Cuckney
6. Worksop Rural District Council.	Deep borehole, Blyth.	Gravity supply from storage tank, Blyth.	Part of parish of Blyth.

In addition to the parish of Blyth, the Rural District Council is the responsible authority for the distribution of the supplies in their area for the parishes of Carlton-in-Lindrick, Hodsock, Styrrup-with-Oldcotes, Nether Langwith and part of Harworth. The National Coal Board undertake distribution of the water to Bircotes Colliery village; and Welbeck Estate Co. Ltd., is responsible for the parishes of Carburton, Norton, Holbeck, Welbeck and Cuckney.

(a) Bacteriological Examination.

A high standard of bacterial purity was maintained throughout the year in connection with the six public supplies in the district.

Sixty samples were taken and submitted to bacteriological examination. Only one of these samples proved to be unsatisfactory. The unsatisfactory sample was taken from a standpipe and was presumed to have been due to a dirty tap because further samples taken from the same supply proved to be satisfactory.

(b) Chemical Analysis.

Twelve samples of water were obtained during the year for chemical analysis from the public supplies and the following is a copy of the Analyst's report on six of these samples:-

The water supply of the area has been sufficient throughout the district with the exception of the parish of Harworth.

The bulk supply of water for Harworth Parish is obtained from the South Carr Boreholes and Pumping Station operated by the National Coal Board.

During the year, considerable quantities of water were required by the recently erected factory in the parish (Glass Bulbs Ltd.) and as a result, the supply of water to domestic premises in the more elevated Bawtry Road area becomes from time to time intermittent.

This was due to the total demand being in excess of the pumping capacity.

The water supply of the area has been sufficient throughout the district with the exception of the period of November.

The bulk supply of water for Harworth Parish is obtained from the South Gate Reservoir and Pumping Station operated by the National Coal Board.

During the year, considerable quantities of water were required for the recently erected factory in the parish (Glass Bulb Ltd.) and as a result, the supply of water to domestic premises in the area elevated. Every Road area becomes from time to time intermittent.

This was due to the total demand being in excess of the pumping capacity.

The National Coal Board was consulted and negotiations are proceeding with a view to the pumping and storage capacity being increased to meet the ultimate demand.

2. PRIVATE SUPPLIES

Seven samples of water were taken for bacteriological examination from private supplies during the year. The reports on three of these samples were satisfactory, the remainder being unsatisfactory.

The following is a report of the circumstances with regard to the unsatisfactory samples:-

Jubilee Cottages, Low Street, Carlton-in-Lindrick.

A sample of water taken from the shallow well supplying these three cottages indicated that the supply was polluted and unfit for drinking and domestic purposes. The use of the well has now been discontinued and a piped supply of water has been laid by the owner from the Council's water main.

Ministry of Fuel & Power Depot, Bircotes.

Two samples taken from a new bore-hole at this depot were found to be unsatisfactory, but after continuous pumping for several days further samples proved the supply to be satisfactory.

Corn Mill Farm, Wallingwells.

A sample of water taken from a stream affording a supply of water for domestic and dairying purposes proved to be grossly polluted. The use of water from this source was discontinued and the owner has laid a piped supply of water from the Council's water main.

Water Main Extensions.

Ninety-four additional houses have been supplied with water from the public mains, either in substitution for unsatisfactory existing supplies or to new houses.

Five water main extensions were carried out during the year, as follows:-

- (1). A 3" cast iron water main extended for a distance of 80 yards to supply 8 houses erected by the Council in Ingham Road, Bawtry.
- (2). A 3" cast iron water main extended for a distance of 483 yards to supply 24 houses and 6 aged persons' bungalows on the Council's Housing Estate, Sandymount, Harworth.
- (3). A 3" cast iron water main extended for a distance of 39 yards in Grosvenor Road, Harworth.
- (4). A 3" cast iron water main extended for a distance of 184 yards to supply 12 bungalows for aged persons, erected in Dyscarr Close, Langold.
- (5). A 3" cast iron water main extended for a distance of 55 yards on the Council's Housing Estate in Le Brun Square, Carlton-in-Lindrick.

The whole of the above work was carried out by direct labour.

The National Coal Board's coalfields and vegetation are proceeding with a view to the pumping and storage capacity being increased to meet the ultimate demand.

2. PRIVATE SUPPLIES

Seven samples of water were taken for bacteriological examination from private supplies during the year. The reports on three of these samples were satisfactory, the remainder being unsatisfactory.

The following is a report of the circumstances with regard to the unsatisfactory samples:-

Public Gardens, New Street, District

A sample of water taken from the main well supplying these gardens indicated that the supply was polluted and unfit for drinking and domestic purposes. The use of the well has now been discontinued and a piped supply of water has been laid by the Council from the Council water main.

Ministry of Fuel & Power Depot, District

Two samples taken from a new bore-hole at this depot were found to be unsatisfactory, one after continuous pumping for several days. Further samples proved the supply to be satisfactory.

Corn Mill Lane, District

A sample of water taken from a stream supplying a supply of water for domestic and dairy purposes proved to be grossly polluted. The use of water from this source was discontinued and the owner has laid a piped supply of water from the Council's water main.

Water Main Extensions

Twenty-four additional houses have been supplied with water from the public main, either in substitution for unsatisfactory existing supplies or to new houses.

Five water main extensions were carried out during the year, as follows:-

- (1) A 3" cast iron water main extended for a distance of 80 yards to supply 8 houses erected by the Council in Lupton Road, District.
- (2) A 3" cast iron water main extended for a distance of 425 yards to supply 24 houses and 5 road persons' houses on the Council's Housing Estate, Sandymount, District.
- (3) A 3" cast iron water main extended for a distance of 30 yards in Grosvenor Road, District.
- (4) A 3" cast iron water main extended for a distance of 100 yards to supply 12 houses for road persons, erected in Grosvenor Road, District.
- (5) A 3" cast iron water main extended for a distance of 55 yards on the Council's Housing Estate in La Brea, District, District.

The whole of the above work was carried out by direct labour.

Water Supply Scheme, Blyth.

A Ministry of Health informal inquiry into the proposed scheme to improve the water supply to the village of Blyth prepared by the Council's Consulting Engineers, Messrs. Silcock and Simpson, was held on the 5th April, 1950.

Subsequently, authority was received to proceed with the construction of a new borehole for test purposes and the boring operations in this respect were completed by the end of the year.

The borehole is protected with 15-inch internal diameter tubes for the first 50 feet from ground level and with 10-inch diameter tubes for the remaining 150 feet. Continuous pumping from the new borehole was maintained over a period of seven days and the volume of water extracted was quite adequate to meet the ultimate needs of the parish. A sample of water recently obtained from the borehole has proved the water to be of a satisfactory standard of bacterial purity.

3. DRAINAGE AND SEWERAGE.

Sewer Extensions.

The following extensions of foul and surface water sewers were completed during the year to serve the Council's Housing Estates:-

- (1) 33 yards of 6" foul sewer in earthenware pipes were laid to serve 4 houses and 6 bungalows erected by the Council in Le Brun Square, Carlton-in-Lindrick. 36 yards of 6" surface water sewers were also laid on this site.
- (2) 189 yards of 6" foul sewer in earthenware pipes and 98 yards of 6" surface water sewer were laid to serve 12 bungalows for aged persons, erected in Dyscarr Close, Langold.
- (3) 100 yards of 6" foul sewer in earthenware pipes were laid to serve 8 houses erected by the Council in Ingham Road, Bawtry.
- (4) 536 yards of 6" foul sewer in earthenware pipes were laid to serve new houses erected by the Council on the Sandymount Housing Estate, Harworth; 108 yards of 9" and 483 yards of 6" earthenware pipes were also laid to deal with surface water on this site.
- (5) 246 yards of 6" foul sewer in earthenware pipes were laid to serve 4 houses erected for the Council and 4 houses for the Forestry Commission at Carburton.

The whole of the above work was carried out by contract.

Norton and Cuckney Sewerage Scheme.

Although the scheme was approved in principle by the Ministry of Health, following a public inquiry held in April, 1949, little progress was made with the scheme during the year except in so far as continued consideration was given by the Ministry.

The Ministry of Housing and Local Government also gave consideration to the question of a grant under the Rural Water Supplies and Sewerage Acts, 1944 and 1951 and the Council was advised that the Ministry were prepared provisionally to allocate a lump sum of £8,000 towards the cost of the scheme.

A Ministry of Health Inspector inspected the proposed scheme to improve the water supply to the village of Hylth prepared by the Council. Consulting Engineers, Messrs. Silcock and Simpson, was held on the 27th April, 1950.

Subsequently, authority was received to proceed with the construction of a new borehole for test purposes and the boring operations in this respect were completed by the end of the year.

The borehole is protected with 15-inch internal diameter pipes for the first 50 feet from ground level and with 10-inch diameter pipes for the remaining 100 feet. Continuous pumping from the new borehole was maintained over a period of seven days and the volume of water extracted was quite adequate to meet the domestic needs of the village. A sample of water recently obtained from the borehole has proved the water to be of a satisfactory standard of bacterial purity.

3. DRAINAGE AND SEWERAGE.

Sewer Extensions.

The following extensions of foul and surface water sewers were completed during the year to serve the Council's Housing Estates:-

- (1) 35 yards of 6" foul sewer in earthenware pipes were laid to serve 4 houses and 8 dwellings erected by the Council in the Brun Square, Carlton-in-Lindrick. 28 yards of 6" surface water sewers were also laid on this site.
- (2) 180 yards of 6" foul sewer in earthenware pipes and 90 yards of 6" surface water sewer were laid to serve 12 dwellings for aged persons, erected in Dycroft Road, Lough.
- (3) 100 yards of 6" foul sewer in earthenware pipes were laid to serve 8 houses erected by the Council in Ingham Road, Bawtry.
- (4) 325 yards of 6" foul sewer in earthenware pipes were laid to serve new houses erected by the Council on the Sandmount Housing Estate, Newark; 108 yards of 6" and 400 yards of 6" earthenware pipes were also laid to deal with surface water on this site.
- (5) 245 yards of 6" foul sewer in earthenware pipes were laid to serve 4 houses erected for the Council and 2 houses for the County Council at Garsdon.

The whole of the above work was carried out by contract.

Hotels and Cookery Schemes.

Although the scheme was approved in principle by the Ministry of Health, following a public inquiry held in April, 1949, little progress was made with the scheme during the year except in so far as continued consideration was given by the Ministry.

The Ministry of Housing and Local Government also gave consideration to the question of a grant under the Rural Water Supplies and Sewerage Acts, 1945 and 1951 and the Council was advised that the Ministry were prepared provisionally to allocate a lump sum of £8,000 towards the cost of the scheme.

Similarly the Nottinghamshire County Council approved a provisional contribution of £6,000 towards the cost of the scheme.

Early this year tenders were invited and received for the completion of the necessary works but despite the allocation of grants referred to in the previous paragraphs the Minister has very recently advised the Council that he is unable to regard the urgency of the above scheme as sufficient to justify its authorisation at the present time.

Blyth Sewerage and Sewage Disposal Scheme.

The proposed Sewerage and Sewage Disposal Scheme for the parish of Blyth was considered at a Ministry of Health Public Inquiry on the 11th July, 1950, and although the scheme was approved in principle it has remained more or less in abeyance throughout the year.

Quite recently, the Council has been informed by the Minister that he would not be justified in allowing the project to proceed at the present time, but he would be prepared to reconsider the matter if the Council submit a further application when conditions are more favourable.

In my opinion this decision is most unfortunate, having regard to the unsatisfactory sanitary circumstances of the old village of Blyth and more particularly the bungalow development to the north of the village.

4. CLOSET CONVERSIONS.

During the year the Council continued to approve a grant of 50% of the total cost or a sum not exceeding £10, to owners converting sanitary conveniences of the conservancy type to water closets, where application was made and a contribution recommended under Section 47 of the Public Health Act, 1936.

Eleven cases were approved for a contribution towards the cost of conversion. Six conversions were completed during the year, three in the parish of Carlton-in-Lindrick, and three in the parish of Norton.

5. PUBLIC CLEANSING.

Scavenging services were operated by direct labour throughout the district.

The service consisted of the weekly emptying of dustbins and pail closets, and the cleansing of privies and ashpits every six weeks.

The number of each type of these receptacles is as follows:-

Dustbins	4,126
Pail Closets	441
Privy Middens	204
Ashpits	91

Controlled tipping was carried out as far as possible.

Periodic inspections were made and routine treatment of refuse tips was carried out to prevent nuisance from rats, etc.

The Council maintain and operate two Commer, one Austin and one Karrier Bantam refuse collection vehicles. Nineteen men were employed on an average throughout the year on refuse collection and disposal.

Similarly the Nottinghamshire County Council approved a provision of £5,000 towards the cost of the scheme.

Early this year tenders were invited and received for the completion of the necessary works but because the allocation of funds referred to in the previous paragraph the Minister has very recently advised the Council that he is unable to award the money of the above scheme as sufficient to justify the authorisation at the present time.

Sixth Sewerage and Sewage Disposal Scheme

The proposed Sewerage and Sewage Disposal Scheme for the parish of High was considered at a meeting of the Parish Council on the 11th July, 1955, and although the scheme was approved in principle it has remained more or less in abeyance throughout the year.

It is noted that the Council has been informed by the Minister that it would not be desirable to allow the project to proceed at the present time, but he would be prepared to reconsider the matter if the Council submit a further application when conditions are more favourable.

In my opinion this decision is most unfortunate, having regard to the unsatisfactory sanitary circumstances of the old village of High and more particularly the danger development to the north of the village.

4. GLOTT OVERSEERS

During the year the Council continued to approve a grant of £50 of the total cost of a sum not exceeding £100 to cover sewerage and water supply of the constituency type to water closets, where application was made and a contribution towards under Section 47 of the Public Health Act, 1936.

Seven cases were approved for a contribution towards the cost of conversion. Six conversions were completed during the year, three in the parish of Carlton-in-Lindrick, and three in the parish of Norton.

5. PUBLIC CLEANING

Household refuse was operated by direct labour throughout the district.

The service consisted of the weekly emptying of dustbins and fall closets, and the sweeping of pavements and paths every six weeks.

The number of each type of these receptacles is as follows:-

Housebins	...	4,180
Fall Closets	...	441
Water Closets	...	204
Paths	...	91

Controlled tipping was carried out as far as possible.

Periodic inspections were made and routine treatment of refuse tips was carried out to prevent nuisance from rats, etc.

The Council maintains and operates two Council, one Austin and one Lorry refuse collection vehicles. Sixteen men were employed on an average throughout the year on refuse collection and disposal.

The following work was carried out by the Cleansing Department during the year:-

Population served in all parishes (1951 Census)	17,234
Total number of premises given regular service	4,395
Total number of dustbins emptied during the year	216,182
Total number of pail closets emptied during the year	28,736
" " of ashpits	519
" " of privy middens	1,287
Mileage travelled by four vehicles	36,780

Cost of operation of the cleansing service by direct labour for the year ended 31/3/52 £7,709 (including £600 lorry reserve fund).

Cost of operation of the cleansing service by direct labour for the year ended 31/3/51 £6,680 (including £600 lorry reserve fund).

Street Cleansing.

Street cleansing continued to be carried out by the Council in the Colliery villages of Langold and Bircotes in the parishes of Hodsock and Harworth, one man only being employed for this purpose.

Salvage.

Early in the year the scheme for the collection and disposal of waste paper, which was discontinued in 1949 owing to the lack of demand for such material, was re-introduced following urgent appeals from the Waste Paper Merchants and by the 31st December, the following salvaged materials were sold for return to industry:-

	T	C.	lbs.	£	s.	d.
Mixed waste paper	16	4	84	259	16	0
Waste rags		6	90	8	10	1
Sacking			72		5	9
	<hr/>			<hr/>		
	16	12	22	£268	11	10

6. INFESTATION.

(a) Vermin - Bed Bugs.

Twelve cases of infestation of bed bugs came to the notice of the Department during the year, eleven of these were in the two Colliery villages in the district and one in a Council house.

The treatment consisted, in each case, of the removal of all picture rails, skirting boards, architraves etc., in the infested rooms, followed by thorough spraying with insecticide containing D.D.T. repeated at intervals until the eradication of the vermin was complete.

(b) Rodent Control.

Routine control measures continued to be taken regularly in respect of the refuse tips, sewerage works, and other lands and premises owned or occupied by the Council.

Special Committee
 The following is a list of the Special Committee members
 who have been appointed to investigate the matter
 mentioned in the above paragraph. The members of the
 Committee are: Mr. J. H. ... Mr. ... Mr. ...
 The Committee has held several meetings and has
 reported to the Council on the progress of its
 work. It has also held public hearings and has
 received many suggestions from the public. The
 Committee's report will be presented to the Council
 at its next meeting.

	T	C	lbs.	A	S.	d.

Waste paper	..	8	90	8	10	1
Sacking	8	9	9
	18	12	22	267	11	10

6. INVESTIGATION
 (a) Vermin - Bed Bugs
 The Council has received many reports of vermin
 infestations in houses and premises. In order to
 deal with this problem, the Council has appointed
 a Vermin Control Committee. This committee has
 been working hard to identify the sources of
 vermin and to take steps to eradicate them.
 The committee has held several meetings and has
 reported to the Council on the progress of its
 work. It has also held public hearings and has
 received many suggestions from the public. The
 committee's report will be presented to the Council
 at its next meeting.

(b) Robert Control
 Routine control measures continued to be taken regularly in respect
 of the refuse tips, sewerage works, and other lands and premises owned
 or occupied by the Council.

Free treatment and advice is afforded to the occupiers of domestic premises provided that their co-operation is secured, but a charge is made for disinfection work carried out at business premises.

Most of the farms in the district are under contract for rat destruction by the Pest Control Department of the County Agricultural Executive Committee.

During the year 2 major and 68 minor infestations of rats were dealt with with satisfactory results.

Sewer Treatment.

The main sewerage systems in the parishes of Harworth, Hodsock and Carlton-in-Lindrick were test baited on two occasions during the year.

A total of 130 man-holes was test baited and minor infestations of rats were recorded in certain small sections of the sewers; these were treated with satisfactory results.

7. MILK SUPPLIES.

The number of registrations and inspections under the Food and Drugs Acts, 1938 and 1944, and the Milk and Dairies Regulations, 1949, was as follows:-

	<u>Distributors</u>	<u>Dairies</u>
No. on Register at end of year ...	11	2
No. of inspections during the year	51	7
No. of defects or unsatisfactory conditions found	Nil	Nil
No. of defects or unsatisfactory conditions remedied	Nil	Nil

Milk (Special Designations) (Pasteurised and Sterilised) Regulations, 1949.

No. of licences in operation at the end of the year for the sale of

(a) Pasteurised Milk	10
(b) Sterilised Milk	6

Milk (Special Designations) (Raw Milk) Regulations, 1949.

No. of licences in operation at the end of the year for the sale of -

(a) Tuberculin Tested Milk ...	9
(b) Accredited Milk ...	Nil

Samples of Milk.

Ten samples of Pasteurised milk and ten samples of Sterilised milk were taken during the year and submitted to the Public Health Laboratory for the tests prescribed by the Milk and Dairies Regulations.

The reports on nineteen of these samples were satisfactory; the report on one sample of Pasteurised milk was unsatisfactory. This sample was taken from milk retailed in the Council's area but produced in an adjoining district.

Thirteen samples of raw milk were also taken from producer retailers. The reports on four of these samples were unsatisfactory and were referred to the County Milk Production Officer.

From treatment and advice is afforded to the occupants of houses premises reviewed that their co-operation is secured, but a charge is made for disinfection work carried out at business premises.

Notes on the progress of the district and general sanitary conditions during the year 1943 are given in the County Council's Executive Committee.

During the year 2 major and 18 minor inspections of tanks were dealt with with satisfactory results.

Water Treatment.

The main sewerage systems in the parishes of Newnham, Hockley and Carlton-in-Lindrick were tested on two occasions during the year.

A total of 150 man-holes was tested and minor inspections of tanks were recorded in certain small sections of the sewerage system. These were treated with satisfactory results.

V. MILK SUPPLIES.

The number of registrations and inspections under the Food and Drugs Act, 1938 and 1944, and the Milk and Dairies Regulations, 1942, was as follows:-

	<u>Dairies</u>	<u>Distributors</u>
No. on Register at end of year	11	...
No. of inspections during the year	51	...
No. of defects on unsatisfactory conditions found	111	...
No. of defects or unsatisfactory conditions remedied	111	...

Milk (Special Regulations) (Pasteurized and Sterilized) Regulations, 1942.

No. of licences in operation at the end of the year for the sale of

(a) Pasteurized Milk	10
(b) Sterilized Milk	8
<u>Milk (Special Regulations) (Raw Milk) Regulations, 1942.</u>	

No. of licences in operation at the end of the year for the sale of -

(a) Tuberculin Tested Milk	9
(b) Accredited Milk	111

Samples of Milk.

Ten samples of pasteurized milk and ten samples of sterilized milk were taken during the year and submitted to the Public Health Laboratory for the tests prescribed by the Milk and Dairies Regulations.

The reports on nineteen of these samples were satisfactory; the report on one sample of pasteurized milk was unsatisfactory. This sample was taken from milk retained in the Council's store but produced in an adjoining district.

Thirteen samples of raw milk were also taken from producer retailers. The reports on four of these samples were unsatisfactory and were referred to the County Milk Production Officer.

8. MEAT AND OTHER FOOD.

The slaughter and preparation of all animals intended for human consumption and sale in the Worksop Rural District continued to be carried out at the Central Abattoir at East Retford.

Private Slaughterhouses.

The slaughter of pigs on behalf of domestic pig keepers was carried out mainly in private slaughterhouses. The number of licences to permit slaughter issued by the Food Executive Officer during 1951 was 410.

Licences were issued by the Council in respect of eight private slaughterhouses for the year 1951.

Licences to slaughter or stun animals were renewed in respect of twenty-three slaughtermen.

Inspection

Meat.

Inspection of Meat on Retail Sale:-

Total No. of inspections of shops, stalls, vehicles or places where meat is retailed	...	37
No. of unsatisfactory conditions found		Nil
No. of unsatisfactory conditions remedied		Nil

Margarine	Rancid	16½ lbs.

9. ICE CREAM

Twenty-one shops are registered in the district for the storage or sale of ice cream, in accordance with the provisions of the Food & Drugs Act, 1938. With one exception the whole of the ice cream sold was obtained already wrapped from manufacturers whose premises are outside the Worksoop Rural District.

Eleven samples of ice cream were taken and submitted to the Laboratory for bacteriological examination and grading. Five of the samples were classified Grade I, five Grade II and one Grade III.

10. HOUSING

Rural Housing Survey

The survey of houses as outlined in the "Hobhouse Report" was completed during the year and the following is the final classification of the houses inspected:-

<u>Total No. of Houses Inspected.</u>	<u>Category</u>	<u>Description</u>	<u>No.</u>
879	1.	Satisfactory in all respects	18
	2.	Minor defects	81
	3.	Requiring repair, structural alteration or improvement	440
	4.	Appropriate for reconditioning under the Housing (Rural Workers) Acts	53
	5.	Unfit for habitation and beyond repair at reasonable expense	287
			<u>879</u>

Overcrowding - Housing Act, 1936

Number of dwellings overcrowded at the end of the year	9
Number of families dwelling therein	11
Number of persons dwelling therein	69
Number of new cases of overcrowding reported during the year	5
Number of cases of overcrowding relieved during the year	8

9. ICE CREAM

Twenty-one shops are registered in the district for the storage or sale of ice cream, in accordance with the provisions of the Food & Drugs Act, 1938. With one exception the whole of the ice cream sold was obtained already wrapped from manufacturers whose premises are outside the Workshop Rural District.

Eleven samples of ice cream were taken and submitted to the Laboratory for bacteriological examination and grading. Five of the samples were classified Grade I, five Grade II and one Grade III.

10. HOUSING

Rural Housing Survey

The survey of houses as outlined in the "Hobhouse Report" was completed during the year and the following is the final classification of the houses inspected:-

		<u>Total No.</u> <u>of Houses</u> <u>Inspected</u>
Category 1. -	Laboratory in all respects	279
2. -	Minor defects	81
3. -	Requiring repair, structural	460
4. -	Requiring repair, non-structural	63
5. -	Units for habitation and beyond	287
	repair at reasonable expense	287
		<u>287</u>

Overcrowding - Housing Act, 1938

Number of dwellings overcrowded at the end of the year	9
Number of families dwelling therein	11
Number of persons dwelling therein	28
Number of new cases of overcrowding reported during the year	5
Number of cases of overcrowding believed during the year	5

Overcrowding - Housing Act, 1936 (continued)

Number of persons concerned in such cases 75

Inspection of Dwellinghouses.

Inspections of dwellinghouses were made under the Public Health and Housing Acts, and informal notices served in order to secure the carrying out of repairs considered to be urgently necessary.

Details of inspections are as follows:-

Total number of houses inspected	172
Number of inspections made for the purpose	263
Number of informal notices served to enforce minimum repairs	53
Number of notices complied with	46

Action under Statutory Powers.

Number of statutory notices served during the year	1
Number of statutory notices complied with during the year	9

Squatters.

The huts on three dispersal sites at Bircotes formerly occupied by the R.A.F., that were adapted for living purposes during 1948 continued to be occupied during the year. The number of families in occupation on the 31st December, 1951 was 33.

During the year the Council was able to arrange for the demolition of two huts viz. 1 and 2 and 5 and 6 Highfield Crescent, the tenants having been rehoused or obtained alternative accommodation of their own choice.

The unsatisfactory construction of the huts was the cause of much complaint from the tenants throughout the year particularly during times of wet weather and it is to be hoped that other accommodation can be found for the remaining tenants within a reasonable period so that all huts on the three sites may be demolished.

Moveable Dwellings.

During the year the Council granted four licences to stand moveable dwellings on sites in their area all of which were situated in the Parish of Harworth, in accordance with the procedure laid down under Section 269 of the Public Health Act, 1936.

Requisition of Dwellinghouses.

Two cottages were under requisition by the Council during the year, for families inadequately housed, namely:-

1. Pond Cottage, Carlton-in-Lindrick.
2. Blue Bell Cottage, Carlton-in-Lindrick.

During the year the tenant of Blue Bell Cottage was moved into one of the Council's bungalows for aged persons and the cottage was de-requisitioned.

New Houses.

A total of 78 houses were completed by the Council, and occupied, during 1951, as follows:-

Number of persons crowded in such cases 75

Inspection of Dwellings.

Inspections of dwellings were made under the Public Health and Housing Acts, and informal notices served in order to secure the carrying out of repairs considered to be urgently necessary.

Details of inspections are as follows:-

172	Total number of houses inspected
263	Number of inspections made for the purpose
55	Number of informal notices served to enforce minimum repairs
48	Number of notices complied with

Action under Statutory Powers.

1	Number of statutory notices served during the year
9	Number of statutory notices complied with during the year

Evictions.

The data on three displaced houses formerly occupied by the R.A.F., that were adapted for living purposes during 1948 continued to be occupied during the year. The number of families in occupation on the 31st December, 1951 was 35.

During the year the Council was able to arrange for the demolition of two flats viz. 1 and 2 and 3 and 4 Highfield Crescent, the tenants having been rehoused or obtained alternative accommodation of their own choice.

The unsatisfactory construction of the flats was the cause of much complaint from the tenants throughout the year particularly during times of wet weather and it is to be hoped that other accommodation can be found for the remaining tenants within a reasonable period so that all flats on the three sites may be demolished.

Movable Dwellings.

During the year the Council granted four licences to stand movable dwellings on sites in their area all of which were situated in the Parish of Harworth, in accordance with the procedure laid down under Section 269 of the Public Health Act, 1936.

Regulation of Dwellings.

Two cottages were under regulation by the Council during the year for families temporarily housed, namely:-

1. Pond Cottage, Carlton-in-Lindrick.
2. Blue Bell Cottage, Carlton-in-Lindrick.

During the year the tenants of Blue Bell Cottage was moved into one of the Council's bungalows for aged persons and the cottage was de-regulated.

New Houses.

A total of 78 houses were completed by the Council, and occupied during 1951, as follows:-

25

Parish of Carburton

4 Traditional type houses.

Parish of Carlton-in-Lindrick

20 Traditional type houses (including 4 bungalows for aged persons).

Parish of Harworth

42 Traditional type houses (including 6 bungalows for aged persons).

Parish of Huddock

12 Traditional bungalows for aged persons.

The following is a summary of the Council's post-war construction programme at the 31st December, 1951:-

	<u>Tradi-</u> <u>tional</u>	<u>Swedish</u> <u>Timber</u>	<u>Aluminium</u> <u>Bungalows</u>		<u>Aireys</u>	<u>Total</u>
