Council Offices, 15 Mill Road, Worthing. BN11 4LB

August, 1973.

Ladies and Gentlemen,

I have pleasure in presenting my Annual Report for 1972.

In the early part of the year there were many cases of upper respiratory infection including influenza. The infection, known as epidemic vomiting disease, continued to be endemic in the community. Schools are particularly affected by this infection which causes vomiting and sometimes diarrhoea of very sudden onset. There were very few notifiable diseases and no case of whooping cough was notified. This is, I believe, the first year this has happened since the disease was made notifiable. Continuing the immunisation of babies is the only way to ensure that there are few cases of such a disease. A child of five contracted para-typhoid fever whilst on holiday in Majorca. It took several months before she was no longer excreting the bacteria and I had to keep her away from school for more than a term.

A high standard of public health inspection has been maintained by the inspectors.

I should like to thank Mr. B. G. Rossiter, the Chief Public Health Inspector, for much information contained in the report. Also, I am very grateful to the County Medical Officer, the W.R.V.S. and others who have provided me with statistics necessary for completion of the report.

I am, Ladies and Gentlemen,

Your obedient Servant,

FRANK COCKCROFT

Medical Officer of Health.

To the Chairman and Members of the Worthing Rural District Council.

THE PUBLIC HEALTH COMMITTEE 1972 - 1973

Chairman: Dr. W. F. Bewley, C.B.E., D.Sc., V.M.H.

Smallpox: In July, 1971, the Secretary of State accepted the advice of the Joint Committee on Vaccination and Immunisation that smallpox vaccination need no longer be given to children as a routine, because the risk of serious complications from vaccination now outweighed the risk of the British public being exposed to smallpox. Smallpox vaccination was therefore, immediately deleted from the current immunisation schedule and, therefore, no statistics for smallpox vaccinations and re-vaccinations are included for 1972.

#### B.C.G. Vaccinations:

| County School - Boundstone   | 212       |
|------------------------------|-----------|
| Private School - West Presto | n Manor 8 |

## INFLUENZA: ITS 32 463 634 EAS EEL 653 524 SIATOT

The Council staff and Councillors were offered Influenza Vaccination during the autumn of 1972 and 70 took advantage of the Council's offer.

#### SECTION C.

#### GENERAL PROVISION OF HEALTH SERVICES IN THE AREA

#### Services provided by West Sussex County Council

#### (a) Ambulance Service

The County Council operates the Ambulance Service (including the Ambulance Car Service) in the County. Requests are made through the doctor or hospital attending the patient, or through the Police or public in case of accidents or other emergencies.

#### (b) Child Health Clinics

|  | is responsible for a doni                     | No. of<br>Children<br>attending | Total<br>attendances |

In addition, there are clinics at Littlehampton and Arundel available for residents adjoining these urban areas.

## (c) Chiropody

Clinics are provided for those of pensionable age.

#### (d) Family Planning

A Family Planning Service is provided by the County Council at Littlehampton and Shoreham Health Centres and at the Health Clinics at Bognor Regis, Lancing and Worthing.

## (e) Health Clinic for the Retired

A clinic is held weekly at the Littlehampton Health Centre, Fitzalan Road, Littlehampton, so that people of retiring age can attend for a check-up.

#### (f) Health Education

The County Council is responsible for this service. A great amount of this is provided by the Health Visitors both in the homes and at the Clinics.

#### (g) Home Help Service

The County Council is responsible for the Home Help Service.

#### (h) Maternity Clinics

Ante-natal and post-natal clinics are held at Lancing Health Clinic - General Practitioners' Session every Tuesday and Thursday afternoon.

Free dental treatment is available for expectant mothers and nursing mothers at the Dental Clinics.

#### (i) Mental Health

The County Council is responsible for a domiciliary mental welfare service through their Social Services Department, but institutional and out-patient treatment is provided by the Regional Hospital Board.

#### (j) Nursing

Home Nurses, Midwives, Health Visitors and School Nurses are employed by the County Council to serve in the area. The telephone numbers of Midwives and Home Nurses are listed in the telephone directory under 'Nurses - West Sussex County Council'.

#### (k) School Clinics

Minor Ailments Eyes Dental Speech Therapy

Littlehampton Lancing and Shoreham-by-Sea Health Clinics.

#### HOSPITAL AND SPECIALIST SERVICES:

A comprehensive hospital and specialist service is provided by the Regional Hospital Board. Hospital accommodation of a private nature is available in certain circumstances, subject to appropriate charges.

#### Chest Clinics

Chest Clinics are held at Worthing Hospital and Southlands Hospital, Shoreham-by-Sea, which are available to all residents in the Worthing Rural District.

#### General Medical and Dental Services

Local arrangements for these services are organised through the National Health Service Executive Council for West Sussex at 175, Broyle Road, Chichester.

#### Laboratory Facilities

The following Laboratories are available for the examination of specimens:-

The Public Health Laboratory, Brighton The Worthing Hospital Laboratory The Public Analyst's Laboratory, Lewes.

#### Mass Radiography

The Surrey Unit from Worcester Park visited Lancing and Littlehampton weekly for cases referred by general practitioners, the local authority or the general public wishing to be X-rayed. The number X-rayed during the year in Lancing was 682 and in Littlehampton 1,526.

#### Meals on Wheels

The W.R.V.S. provides a Meals-on-Wheels service for old people.

The western area is covered from Littlehampton and Rustington (since 17.10.72) and the eastern area from Lancing.

At Lancing meals are provided at Chesham House, where a total of 35,655 were prepared. Of these 25,819 were delivered to old people in their homes and 9,836 were consumed at Chesham House.

At Littlehampton meals were provided at the W.R.V.S. kitchen where a total of approximately 20,353 were prepared. These were delivered to old people in their homes - approximately 11,644 being delivered in the Worthing Rural District.

From 14th October to the end of the year the new Rustington Kitchen prepared 4,389 meals. 400 of these were consumed on the premises (Tuesdays and Fridays) and 3,989 were delivered to people's homes (Tuesdays, Thursdays and Fridays).

This service is making a very important contribution to the nutrition of the elderly. In the Lancing area meals are served on four days per week, Tuesday to Friday inclusive. In the Rustington area meals are served on Tuesdays, Thursdays and Fridays and in the Littlehampton area meals are served on Tuesdays and Thursdays.

#### Nursing Homes

There are four private nursing homes in the district registered with the County Council.

#### Persons in need of Care and Attention

National Assistance Act, 1948 (Amended 1951), Section 47

No action was necessary during the year under this Section.

#### Venereal Disease

Residents may attend Clinics at Worthing Hospital, St. Richard's Hospital, Chichester, The Royal Sussex Hospital, Brighton, or St. Mary's Hospital, Portsmouth.

#### SANITARY CIRCUMSTANCES OF THE AREA

#### 1. WATER SUPPLY

Sixteen of the Parishes in the District have public mains water supply and one obtains supplies from private sources.

Brighton Corporation supplies the Parish of Lancing; the North West Sussex Joint Water Board supplies the Parish of Houghton and a small part of the Parish of Findon; the Worthing Corporation provides a supply in the other part of Findon and the thirteen remaining parishes. The Parish of Coombes is supplied with water privately from bore wells and by way of private mains controlled by the farmers concerned.

There is one other private supply in the District situated at an estate in the Parish of Rustington, which serves approximately 250 properties; the water is sampled at regular intervals and is bacteriologically satisfactory. On occasions, due to turbulence in the mains, there has been a high iron content.

The water generally has inadequate natural fluoride to give protection to the teeth.

Samples of water were taken for bacteriological examination from 23 sources and all were satisfactory.

The following table gives details of the water supply to each
Parish:-

| rion Kitchen  | Public/Pri   |  | Well-W                              |   | Rainwa                          |                  |

The North West Sussex Water Board reports that 320 samples were taken and all were satisfactory.

3"

4"

3"

Chemical and Bacteriological examination of the Worthing and Brighton Water Supplies is carried out by the Chemist and Bacteriologist of Brighton Corporation. The following is an extract from his report:-

64

30

138

- a) The water supply of the area has been satisfactory in quantity and quality. Chlorination, with or without post-ammoniation of all raw water, is practised continuously except where super and dechlorination is utilised before the addition of ammonia to form chloramine, as in the case of Burpham boreholes 3 and 4.
- b) Since all the water is obtained from chalk, there is little likelihood of any plumbo-solvent action.
- c) The chemical reports were satisfactory, except for showing a negligible quantity of fluoride. The fluoride content of the water in all parts of the District is less than 0.1 mgm/litre.

been approved and discussions are being held with representatives of

#### 2. DRAINAGE AND SEVERAGE:

#### (a) Western Area

The parishes of East Preston, Angmering, Rustington, Kingston and Ferring are drained by gravitational sewers to 14 ejector stations and four pumping stations. These deliver sewage to a storage tank at Kingston Gorse where it is screened, macerated and discharged to sea on the ebb tide some 500 yards below the high-water mark.

As a result of the growth of the area, the ejectors and pumping stations are surcharged and have reached the limits of their capacity.

The new joint Littlehampton/Western Area main drainage scheme, with a proposed two mile sea outfall received Ministry sanction. Fourteen pumping stations and new mains will be constructed.

#### (b) Eastern Area

The sewers in the Eastern Area discharge sewage to subsidiary pumping stations and from these to the main pumping stations situated at Old Salts and Lancing Park. From these two stations sewage is pumped direct to the Worthing Corporation Sewage Disposal Works where, after treatment, it is discharged to the sea. The growth of this area has also caused overloading of the sewers and pumping system.

A report by Consulting Engineers on improvements and new systems has been approved and discussions are being held with representatives of Worthing Corporation and the Department of the Environment.

#### (c) Outlying Parishes

#### BURPHAM

The new main drainage system for this parish has been completed and is operating satisfactorily.

#### CLAPHAM AND PATCHING

The new main drainage scheme is proceeding and some 171 properties will eventually be connected to the new sewer.

#### CROSSBUSH, LYMINSTER AND WARNINGCAMP

Approval has been received for a new main drainage scheme and this will commence in the financial year 1973/74.

#### POLING

This is the next parish to be sewered and preparatory works for a new scheme are being undertaken.

#### PUBLIC CLEANSING

#### (a) House Refuse Collection

Refuse is collected weekly from the 17 parishes in the District and, in addition, from litter baskets and litter bins sited along the  $5\frac{1}{2}$  miles of beach frontages, throughout the shopping areas, on highway verges, and in recreation grounds.

There is also a regular collection of waste paper and other salvage from shops and certain business premises. The work is carried out by a fleet of refuse collection vehicles of modern design.

All refuse collection rounds have incentive bonus schemes.

The scheme of providing refuse sacks to all premises missing collections during the Christmas holiday period has proved successful, and is to be continued.

This year has also seen the coming into force of the West Sussex County Council Act, 1972, and this has given further control over the deposit of corrosive and inflammable substances in dustbins.

The free collection of bulky household refuse, as distinct from the setting up of "parish tips", initiated under the Civic Amenities Act, 1967, has again proved to be a valuable service to the District, and during the year 2,077 collections have been made.

The depots at Halewick Lane, Sompting, and Warren Crescent, East Preston, are now open continuously seven days a week for the householder to deposit refuse during normal working hours. This has proved a very successful operation, and the average numbers of persons making use of these facilities at weekends are, East Preston 70 and Halewick 106, and these numbers are increasing.

#### (b) Refuse Disposal

The new disposal works at Halewick Lane Depot is now in operation. The Total staff at the depot for both refuse disposal and paper salvage has been reduced from 24 to 10.

As a result of the national publicity over the dumping of toxic wastes, a new Act, the Deposit of Poisonous Wastes Act, 1972, was passed, which controls the removal and deposit of such toxic wastes very effectively. As far as this District is concerned, no toxic wastes within the meaning of the Act are deposited here.

(c) Amenity Services

This service came into being after April of this year and incorporated the public convenience cleansing service and street cleansing service with a general litter collection throughtout the coastal parishes on a planned cycle, together with a free drain clearance service to private dwellings.

- (i) Public Conveniences

  The cleansing standard of these has been improved steadily throughout the year, and it is proposed that in the coming year improvements will be made to the structural state of many of these.
- Ouring the year some difficulties have arisen regarding the Melford mechanical sweeper and as a result it is proposed to replace this machine within the next financial year with two pavement vacuum sweepers. It is hoped to increase the standard of street cleansing by this means.
- (iii) Litter Collections

  Some delay was experienced in the installation of this service, due to the inability to secure the necessary labour, but following this slow start the service was successful in clearing, on a five-weekly cycle, the majority of the litter on the roads, verges and other dumping places in the various parishes.
- (iv) Drain Clearance Service
  This new service has proved extremely successful, some 253 drains being cleared within the period of its operation since April.

  It is obvious that as the service becomes more widely known there will be a greater call on it from the general public.
- (d) Cesspools
  The cesspool emptying service is operating satisfactorily. The number of cesspools emptied was 1,614 and the number of loads removed was 4,290. Disposal points for the discharge of these vehicles are at Old Salts Farm Road, Lancing, and the disposal works at Kingston Gorse. It is hope that additional discharge points will be available when the new sewerage system in the Western Area is operational

An inspection and testing programme of those cesspools still remaining in the Finden area has been carried out. As a result of this, work is being carried out to render all defective cesspools watertight.

#### 4. RIVERS AND STREAMS

No action has been found necessary with regard to the pollution of rivers and streams.

Maintenance of ditches and streams in the area is carried out periodically by the Engineer and Surveyor's Department for the purpose of drainage and flood prevention work.

#### 5. SWIMMING BATHS AND POOLS OPEN TO THE PUBLIC

There are eleven swimming pools in the District, situated at the following schools:-

Angmering - St. Margaret's

East Preston - County Primary

Findon - St. John Baptist

Lancing - Irene Avenue

Boundstone

Lancing College

North Lancing

Rustington - West Preston Manor

Rustington

Sompting Summerlea - Sompting Abbotts

Regular tests of these pools are carried out, using a residual chlorine comparator. If these prove unsatisfactory, further samples are taken for bacteriological examination. This did not prove necessary where samples were taken during the year.

The water in nine of the pools is subject to continuous filtration and automatic chlorination, and in two cases chlorination is carried out by hand at a predetermined dosage rate. In these cases the water is changed at regular intervals.

#### 6. SCHOOLS

There are fourteen County Council schools in the District and all have public water supply and water closets. There are several private schools, all of which have modern sanitation with satisfactory water supplies.

#### FACTORIES ACT, 1937/1961:

There are 162 factories in the District with mechanical power and seven factories without.

There are 64 outworkers in the District.

#### OFFICES, SHOPS AND RAILWAY PREMISES ACT, 1963:

Eighteen applications for registration of premises have been made during the year. These are largely new businesses and changes of occupation.

The total number of premises now registered in this District under the Act is 354; this is nine less than last year.

All newly registered premises receive a general inspection and the re-inspection of existing premises is carried out on a rota basis. Works of a minor nature were found necessary in some cases.

The situation at the end of the year was as follows:-

| Class of Premises                        | Number         | of Premises       | Registered  |
|--|----------------|-------------------|---|
| elberg has have anois                    | during<br>1972 | at end of<br>1972 | receiving<br>a general<br>inspection<br>during 1972 |
| Offices                                  | 7              | 92                | 11  |
| Retail shops                             | 10             | 209               | 78  |
| Wholesale shops and warehouses           | 0              | 9                 | 3   |
| Catering establish-<br>ments open to the |                | Lence             | ndtary conve  |
| public and canteens                      | 2              | 42                | 23  |
| Fuel storage depots                      | 0              | 2                 | attent Other  |
| TOTAL                                    | 19             | 354               | 115   |

Number of visits of all kinds by Public Health Inspectors to registered premises during 1972 was 187.

Analysis of persons employed in registered premises by workplace:-

| Class of Workplace                                 | Number of persons employed  |       |
|--|---|-------|
| Offices  | 479   |       |
| Retail shops                                       | 906   | tovec |

| Catering establish-<br>ments open to the<br>public | 224   | av be |
| Canteens   | 11  | 2 228 |
| Fuel storage depots                                | II TO THE TO SEE AND THE PARTY OF THE PARTY | Long  |
| TOTAL  | 1,688 Male = Female =   |       |

#### Statistics of Accidents

During the year three accidents were the subject of notice and related to the following injuries:-

- (i) Supermarket Manager, whilst carrying a carton of squash, slipped and fell and bruised the base of his spine and his right shoulder.
- (ii) A tin of meat fell from a freezer onto the left foot of a baker, breaking his big toe.
- (iii) Stockroom assistant, whilst lifting a box of paint, pulled a tendon in her right hand.

In all these cases an inspection of the premises was made for non-compliance with the Act and the existence of any specific danger hazards.

Set out below is a schedule of contraventions found and remedied under the Act during 1972:-

| Contravention  | Number of                | contraventions                            |
|--|--------------------------|---|
| Contravención  | Found                    | Remedied                                  |
| Cleanliness Temperature Ventilation Sanitary convenience Washing facilities Supply of drinking water Sitting facilities Hoors, passages and stars Eating facilities Noise and vibration First Aid: general provision Miscellaneous | 2 6 0 1 1 3 1 2 1 0 6 11 | 4<br>1<br>3<br>2<br>3<br>1<br>3<br>0<br>1 |
| TOTAL  | 34                       | 31  |

#### ANIMAL BOARDING ESTABLISHMENTS ACT, 1963

There are seven registered premises in the District.

### CIVIC AMENITIES ACT, 1967

So far as arrangements, under the Act, for the recovery and disposal of abandoned vehicles are concerned, provisions have been made with a local firm of scrap metal dealers who, upon notification, will collect from any part of the District. In addition, they will receive any vehicle no longer required from residents of the District. The charge made to the Council for the collection of abandoned vehicles is £4.00 per vehicle.

During the year 63 abandoned vehicles were removed and disposed of from various sites in the District.

#### CLEAN AIR ACT, 1956

Sixty-five inspections have been made at premises coming within the scope of this Act, as a result of which 41 contraventions were found. All were dealt with satisfactorily. These were as follows:-

Domestic premises 3 frp, domestic heating

19 from bonfires

Business premises 12 from the burning of materials

4 from chimney smoke 2 from oil fumes

1 from a private tip fire.

One application for approval of a furnace installation was approved during the year and a certificate of approval issued. Twelve notifications of boiler installations were received and recorded. Four applications for the approval of chimney heights were approved.

#### DISEASES OF ANIMALS (WASTE FOODS) ORDER, 1957

There are four licences in existence permitting the licensees to operate plant and equipment for the boiling of waste foods. Regular inspections are carried out of the premises and equipment.

#### HAIRDRESSERS AND BARBERS BYELAWS

There are 41 hairdressing premises situated within the District. One contravention was found during the year and has been remedied. Thirty-one inspections were made during 1972.

#### MOVEABLE DWELLINGS

Public Health Act, 1936, Section 269 Caravan Sites and Control of Development Act, 1960

The operation of the Caravan Sites and Control of Development Act, 1960 has been satisfactory throughout the year. The owners of sites have again shown their complete willingness to co-operate in all matters relating to site control and operation.

There are eight caravan sites in the District, with accommodation for 788 caravans. Each of these sites is fully provided with all the amenities normally expected, that is to say, sanitary annexe comprising baths, wash basins, water-borne sanitation, laundry facilities and drying area, metalled roadways, hard standings, ample water points from the public mains supply, and in nearly all cases, additional amenities in the form of canteens and games rooms.

In addition to the above, there are four double sites providing accommodation for eight caravans, and 47 single sites whereon individual caravans are stationed. The total number of caravans in the District is 843.

Inspections have been made in conjunction with the West Sussex Fire Brigade of all the major sites in the area, and certain alterations and improvements are being carried out to comply with safety requirements.

Moveable dwellings have created a nuisance in the Lay-by off the A27 on the West side of the Adur Bridge. The adjoining ditch became an uncontrolled refuse tip for the many caravans coming and going. Most of the people kept their caravans in a very satisfactory state but had no regard to the environment.

#### NOISE ABATEMENT ACT, 1960

During the year it was found necessary to carry out inspections at 65 premises under the above Act, following complaints from residents in various parts of the District.

At eight of these premises contraventions were found and the necessary action was taken to secure their abatement. During the year it was found that six nuisances had been abated.

#### PET ANIMALS ACT, 1951

There are seven registered premises in the District and during the year nine inspections were made and no contraventions found.

#### PETROLEUM ACTS, 1928 and 1939

The Department is responsible for the inspection of 55 premises where petroleum is stored and during the past year 215 inspections were made to ensure that the requirements of the Acts, Orders and Regulations had been complied with. Licences have been issued for the storage of a total of 277,280 gallons of petroleum spirit.

Contraventions were found at 34 premises and these have been remedied at 29 premises.

A prosecution was taken during the year over contraventions of the licensing conditions, which resulted in a fine on the person concerned of £200.

#### PREVENTION OF DAMAGE BY PESTS ACT, 1949

#### (a) Rats and Mice

The following is a table of the work carried out:-

| Number of inspections and reinspecti |                        |             |     |

#### (b) Eradication of Bed Bugs

No infestation was found during the year. It has been many years since infestations have been found in this area. If any were to be found, disinfestation would be carried out by the Council free of charge.

#### (c) Mosquitoes and sand and make notionagnoo at show most avaid anoticognal

Routine inspections of ditches and watercourses revealed no nuisance of this nature.

(d) Wasps
Seventy-seven wasps nests were destroyed during the summer months. The
Council undertake to remove wasps nests at a charge of £1.00 per nest.

#### RAG FLOCK AND OTHER FILLING MATERIALS ACT, 1951

There are six registered premises in the District and one premise registered to store rag flock.

Six routine inspections have been made at these premises and two samples of filling material have been submitted for analysis. Both were satisfactory.

#### SCRAP METAL DEALERS ACT, 1964

Three dealers are registered under this Act. One is an itinerant dealer.

#### NATIONAL ASSISTANCE ACT, 1948

#### Section 50 - Burial or Cremation of the Dead

anterprise bouses 49

It was necessary to deal with three cases under these Sections during the year.

Tower Road; Lancing

imen Saro Katata, lancing

#### SECTION E:

#### HOUSING

#### COUNCIL HOUSES:

#### Waiting List

| Total | number | of | applicants as on 31.1272          |  |  | 1,023 |

#### IMPROVEMENT AND STANDARD GRANTS

#### Housing Act, 1969

1972 was the third full year of the operation of the increased grant aid under the Housing Act, 1969. There have been increases in both the number of applications received and the amount of grant approved.

Figures for the year ending 31st December, 1972, are as follows:-

#### Improvement Grants

| Applications received - improvement conversion                             |               |
|--|---------------|
| Applications approved - owner occupied other                               |               |
| Applications awaiting decision<br>Applications withdrawn                   |               |
| Amount of grant approved Grants paid - number of dwellings                 | £13,716.95    |
| Amount of grant paid   | £13,771.95    |
| Standard Grants  |               |

| Applications awaiting decision Applications withdrawn Applications refused | 3             |
| Amount of grant approved   |               |
| Grants paid - number of dwellings  | £1,560.00     |
| Grants paid - number of dwellings<br>Amount of grant paid                  | £1,560.00<br> |

The total number of houses which have been reconditioned with the assistance of Discretionary Improvement Grants since these facilities became available is 296. Of the 296 houses which have been so improved, 105 were occupied by agricultural workers. The value of works of improvement and repair approved during the year was £29,273.52. The amount of grant approved was £13,716.95. The value of works of improvement and repair where works were completed during the year was £39,140.02 and the amount of grant paid in respect of these works was £13,771.95.

water closets

- at 1 or 2 points . .

The total number of applications approved since Standard Grants became available is 143, of which 97 were in respect of houses occupied by their owners, 45 by weekly tenants and one by an agricultural worker. The maximum amount of grant payable in the case of Standard Grants approved during the year was £1,560.00. The total amount of grant paid was £775.03.

#### DEMOLITION

#### Public Health Act, 1961 (Section 29)

This Section requires that no person shall undertake a demolition of the whole or part of any building unless notice specifying the building and works of demolition intending to be carried out is given to the Local Authority.

During the year thirty-nime buildings became the subject of such notices and in each case an inspection was made and notice served upon the demolition contractors requesting them to comply with the requirements of this Section.

#### Unfit Houses Programme:

No houses were added to the list during the year so that at 31.12.72 the total remained 535 houses.

## HOUSES DEMOLISHED:

| As a result of Demolition Orders  |  |  |  |  |  |  |  | 58 |
|-----------------------------------|--|--|--|--|--|--|--|----|
| After being closed on Undertaking |  |  |  |  |  |  |  | 30 |

| Made fit after informal action  |            |      |         |      |
| No further action to be taken   | on has Jos |      |         | . 4  |
| Where action still necessary  |            |      |         | . 5  |

Work in respect of the demolition, closing and reconditioning of houses included in the original slum clearance programme, supplemented by small additions occasionally, is practically completed. It will continue to exist in so far as additional unfit houses come to hand from time to time.

## LOCAL LAND CHARGES ACT

Owing to the fact that in this District there is a continual change in ownership of properties, and in addition extensive development continues apace, it has been necessary to deal with 2,673 enquiries under the abovementioned Act; this work takes up considerable time in research and investigation.

amount of grant approved was £13,716.95. The val-

#### OVERCROWDING:

There were no new cases of overcrowding reported during the year.

the result that, whilet all are subject to the Food Sygiens Regulations,

Grocery and provisions

Deleters and provisions

Heat shops

Greengrocers

Conteen Altohens

Confeet and cake shops

#### SECTION F:

#### INSPECTION AND SUPERVISION OF FOODS

Food premises throughout the District are kept under constant survey and the Public Health Inspectors again received full co-operation from the proprietors and owners of food premises generally in their efforts to secure improvements and compliance with the Food Hygiene Regulations.

It was found necessary to report on nine cases where articles of food had been found to contain foreign bodies or were not of the nature, substance or quality demanded. The results of the subsequent prosecutions were as follows:-

| (i)<br>(ii) | Sale of cake containing foreign matter Packet of crisps containing cigarette end | £25<br>£30 |    |   | £10<br>£16 | costs |
|-------------|--|------------|----|---|------------|-------|
| (iii)       | Sale of bread roll containing cigarette end                                      | £30        |    |   | £16        | 11    |
| (iv)        | Tin of peas containing snail   | £25        |    |   | £16        | 11    |
| (v)         | Sale of mouldy sausages  | £20        |    |   | £16        | 11    |
| (vi)        | Sale of mouldy Westphalian rye bread   | £20        | 11 | + | £16        | 11    |
| (vii)       | Sale of mouldy sausages  | £30        | 11 | + | £16        | 11    |
| (viii)      | Packets of rice containing live insect larvae                                    | £20        | 11 | + | £10        | 11    |
| (ix)        | Sale of bottle of milk containing foreign matter                                 | £25        | "  | + | £10        | 81    |

The total number of premises where food is sold in the District, to which the Food Hygiene (General) Regulations 1970 apply, is 356. All these premises are fitted with wash hand basins, together with hot and cold water supply, so as to comply with Regulation 16.

In many of these food premises more than one type of food is sold, with the result that, whilst all are subject to the Food Hygiene Regulations, other Acts and Regulations also apply - for example, the Ice Cream Regulations, the Milk and Dairies Regulations, Meat Regulations etc. The following analysis indicates the nature of the food business carried on and the number of instances where one or more of the above-mentioned Regulations apply.

| Cafes and restaurants | S  |  |  | 64  |
|-----------------------|----|--|--|-----|
| Hotel kitchens        |    |  |  | 41  |
| Licensed premises     |    |  |  | 59  |
| Ice cream premises    |    |  |  | 96  |
| Fish shops            |    |  |  | 15  |
| Grocery and provision | ns |  |  | 74  |
| Bakehouses            |    |  |  | 13  |
| Meat shops            |    |  |  | 28  |
| Greengrocers          |    |  |  | 42  |
| Canteen kitchens      |    |  |  | 33  |
| Confectioners         |    |  |  | 60  |
| Bread and cake shops  |    |  |  | 32  |
| Dairies and milk shor | ag |  |  | 51  |
| Slaughterhouse        |    |  |  | 1   |
|                       |    |  |  | 600 |
|                       |    |  |  | -07 |

The number of food premises registered under Section 16 of the Food and Drugs Act, 1955, is 261.

#### RETAILING OF FROZEN FOODS

It has again been noticed throughout the year under review that the Code of Practice has, generally speaking, been adhered to by persons retailing frozen foods.

Good co-operation from retailers was received and it was only necessary to remind them occasionally to check temperatures in cabinets regularly, not to overstock above the load lines and to defrost at regular intervals.

## LIQUID EGG (PASTEURISATION) REGULATIONS, 1963

Regular inspections are made at premises where liquid egg may be used, but so far in no case has it been found to be in use in this District.

## MILK SUPPLY to assaurab to Leacquit edd of coequer daily edenegrates off

Milk and Dairies Regulations, 1959
Milk (Special Designations) Regulations, 1960

The Milk (Special Designations) Regulations, 1960, transferred the responsibility for the licensing of retailers of designated milks to the Food and Drugs Authority, which in this District is the West Sussex County Council, leaving the Council with the responsibility of distributors only. There were 69 distributors in the District at the 31st December, 1972

salunes ques his realitatel es elsa ye era letto has alamina

In West Sussex the Officer of the District to which the milk is delivered, samples the milk at the point of delivery and his reports are forwarded to the Officer in whose District the farm is situated.

County Districts are now responsible for the sampling of milk and cream from shops, vending machines and private schools. During the year 28 samples of pasteurised milk were submitted for examination and all but one proved satisfactory. Further samples will be taken from the premises supplying the unsatisfactory sample. Two samples of U.H.T. milk were examined and were satisfactory.

#### ICE CREAM

Ice Cream (Heat Treatment etc.) Regulations, 1947/1959

Ice Cream (Heat Treatment) (Amendment) Regulations 1963

Inspections made under the above-mentioned Regulations again provided the information that the conditions throughout the District were generally satisfactory.

| Ice Cream Pre  | mises                    |   |
|----------------|--------------------------|---|
| Registered for | r manufacture            | 1 |
| Registered for | r storage only           | 3 |
| Registered for | r manufacture and sale 1 | 7 |
| Registered for | r retail only 19         | 3 |

124 inspections were made of premises where ice cream is sold.

41 Samples of ice cream were taken and all were satisfactory. This number would appear to be small in relation to the number of premises selling ice cream, but this is because practically all the ice cream sold is in the form of pre-packed blocks and briquettes manufactured by only one or two firms and to take more samples would result in unnecessary duplication.

#### POULTRY INSPECTION

The only premises in the District which might be said to be poultry processing premises is a chicken farm where the proprietor slaughters approximately 100 birds per week. These premises are visited from time to time for inspection purposes.

#### GAME DEALERS

Five dealers are authorised to buy and sell game.

There is one private slaughterhouse in the District, which complies with the general requirements relating to such premises, and it is conducted in a satisfactory manner. The number of animals inspected was less than in previous years, due to staffing difficulties at the premises.

The arrangements with respect to the disposal of carcases of diseased animals and offal are by sale to fertiliser and soap manufacturers, the value accredited being refunded to the owner concerned. The Meat Inspection Regulations have been complied with satisfactorily during the year.

## Carcases inspected and condemned (another last latered latered) WILM off

#### Cysticercosis

No carcases were affected.

A total of 298 lbs. of meat was condemned as being unfit for human consumption. Six certificates were issued to traders to enable them to obtain compensation for their loss.

## BAKEHOUSES:

All the bakehouses in the District have been inspected and were found

# FOOD HYGIENE (MARKETS, STALLS AND DELIVERY VEHICLES)

Seven inspections were made and one contravention was found. Other Foods:

Food diseased, unsound etc., other than under the Meat Regulations:manber of moveable dwellings inspected . . . . .

No summonses were issued. Forty-nine certificates were issued to traders, to enable them to obtain compensation and replacement of their loss.

In some cases tinned foods are returned to the supplier for investigation as to the cause of unsoundness and in others the tins are disposed of by the Public Cleansing Service of the Council. Perishable foods found to be unsound are removed and destroyed forthwith.

The following foods were found to be unfit for human consumption and were

| Si                          | onsumption and were                               |
