The Committee of Management regret that their Seventy-seventh Annual Report is so drastically curtailed. It is, of course, due to paper restrictions.

The Accounts and Statistical tables show, however, that the work of the Hospital has increased during the past year. Progress in treatment and research continues.

The Committee venture to emphasize to all friends of the Hospital that Medical and Surgical progress has, from the beginning, been made possible mainly through voluntary support. It is, therefore, possible to measure the supreme value of gifts made to the Hospital, whether by Annual Subscription, Donation or Legacy. They would urge donors and subscribers to continue their support of the Hospital on as generous a scale as possible, for the Hospital's present and future must necessarily depend upon the financial strength given to it by those who have its welfare at heart.

L. C. DIXON,
