AT THE

General Stated Annual Court of Governors,

Held on the 24th day of February, 1910,

The Annual Reports of the Committee of Management, the Medical Superintendent, and the Chaplain, and the Audited Accounts for the year 1909, were laid before the Court.

And it was resolved-

That the above-named Reports and Accounts be approved and adopted; and that they, together with the usual Financial and Statistical Tables, be published. Also that the Reports of the Commissioners in Lunacy be printed therewith.

It was resolved unanimously-

- That the Thanks of this Court be presented to the Chairman and Vice-Chairman of the Committee of Management, for the very valuable services they have rendered to the Institution during the past year.
- 2. That the Thanks of this Court be presented to the Noblemen and Gentlemen composing the Committee of Management, for their very valuable services during the year.
- 3. That the Thanks of this Court be given to the Officers of the Institution, for their care and attention in carrying on the work of the past year.

The following Annual Appointments were made:-

- 1. A Committee of Management.
- 2. A Treasurer.
- 3. Auditors.

ROSE VILLA (IN THE HOSPITAL GROUNDS).

THE REPORT OF

The Committee of Management,

FOR THE YEAR 1909.

The Committee are thankful to be able again to report favourably of the state of the Hospital during the year.

The Hospital and its dependencies have been fully occupied throughout the year. One hundred and eighty-four patients visited the seaside house—this is the same number as in 1908, but a number of patients now reside there permanently.

The number of admissions (87) has been greater by 17 than in 1908.

The average number resident (421) has been greater by 7 than in the previous year.

There has been an increase of 10 in the number of recoveries, and an increase of 10 in the number of deaths. The increase in the deaths is due to the number of old patients who have died—16 being over 65 years of age.

The per-centage of recoveries to admissions (excluding transfers from other Asylums) has been 41.37 males, 58.33 temales, total 50.76.

The per-centage of deaths to the total number under treatment has been 4:31 males, 6:10 females, total 5:29.

During the past year the number of patients assisted in their payments has been 107, of whom 51 belonged to the County of Northampton, and 56 were out-County cases. The amount of assistance rendered to make up the payments to the lowest rates ordinarily charged was—County cases, £2,314 8s. 6d.; out-County cases, £1,702 12s. 6d., being a total of £175 8s. od. more than in the previous year.

The result of the working of the Farm at Moulton Park during the past year has been very satisfactory. The balance in favour at the end of the year was £1,619 6s. 8d., as compared with £1,194 15s. 2d. in 1908.

With regard to the financial state of the Hospital, the receipts from patients amounted to £64,474 os. 7d., being £1,129 10s. 7d. more than in any previous year.

There has been no change in the staff of Officers.

The Hospital has sustained a heavy loss by the death of Colonel Lowndes, M.V.O., and V. D. H. Cary Elwes, Esq.

Lord Penrhyn has been appointed a Governor.

The Committee desire to record their high appreciation of the zealous services of Dr. Bayley and the other Officers of the Hospital during the past year.

> C. SMYTH, Chairman.

"HAFOD FADOG," ONE OF THE VILLAS AT BRYN-Y-NEUADD.

THE REPORTS OF

The Commissioners in Lunacy.

FIRST VISIT.

MAY 1st, 1909.

We have yesterday and to-day visited this Hospital and its dependencies, including the Farm House, Red House, and the Ladies' House, on the Moulton Park estate. As the result of our inspection, we are able to report that the whole Institution is maintained in admirable order.

Since our colleagues' visit in December last, 27 patients have been admitted, 15 discharged or removed—of whom 9 had recovered, and 11 have died, all the deaths being due to natural causes. There are now on the books the names of 202 gentlemen and 223 ladies, making a total of 425 patients. Of these—75 are away on leave or trial, 10 gentlemen and 26 ladies being at Moulton Park; 3 gentlemen and 31 ladies at Bryn-y-Neuadd, the branch in North Wales; and 5 ladies on leave elsewhere. There is also one lady voluntary boarder, who is a fit case to remain upon that footing.

We saw all the patients in residence here and at Moulton Park, and found them for the most part happy and contented, neat and tidy in their dress and personal appearance, and generally free from complaints, and none calling for special mention here. We gave private interviews to 8 patients.

The general health of the Hospital is good, very few of the patients being confined to bed at our visit.

All the day-rooms and dormitories presented a bright and pleasing appearance, and it is evident that great pains are taken to render the lives of the patients as happy and comfortable as is possible under the circumstances.

We thought that the Farm House at Moulton Park is somewhat overcrowded; and we noticed a deficiency of comfortable chairs and sofas in the day rooms there, and an absence of proper toilet requisites in the w.c's.

Seclusion has been employed in 39 cases, on 331 occasions, for a total of 1,960 hours; and mechanical restraint in one case, on 39 occasions, for a total of 351 hours.

The Sunday Services are usually attended by 127 of the patients, and the associated entertainments by 152; 162 are usefully employed. Three walk out alone, and 101 attended beyond the Hospital grounds; and the same number enjoy carriage exercise eight times a month.

The staff of attendants and nurses consists of 62 of each for day, and 6 of each for night duty; 29 attendants and 12 nurses can show over 5 years' service. One nurse has been dismissed for misconduct, not, however, in any way affecting the patients.

The average weekly cost of maintenance is £2. 11s. $11\frac{1}{2}$ d. Three patients are received gratuitously; the per-centage of those paying 10s. a week or less is 5.89; 6.81 pay from 10s. to 21s. a week; and 56.71 from 21s. to 42s. a week; 29.88 per-cent. pay more than two guineas a week.

We are glad to learn that the Hospital is in a flourishing condition financially, and that the Committee keep clearly before them the development of the charitable side of the work, in accordance with the intention of the founders of the Hospital.

We cannot help thinking the principle of dividing patients into classes based upon the amounts that they are able to pay, objectionable. Except in the case of patients who pay large sums, and are, therefore, entitled to special accommodation and attendance, such a classification appears to us unnecessary, and serves only to place patients of the second division in an inferior position in their own estimation. The only proper classification of patients appears to us to be that based upon the character of their mental disorders.

The Case Books and other Medical Records are carefully kept.

A. H. TREVOR, Commissioners F. NEEDHAM, in Lunacy.

"MORANEDD," ONE OF THE VILLAS AT BRYN-Y-NEUADD.

SECOND VISIT.

NOVEMBER 18th, 1909.

Since our last visit to this Hospital on May 1st, the following changes have taken place among the patients:—there have been 54 admissions; 51 discharges, 19 upon recovery, and 14 deaths, all from natural causes.

There are to-day on the books the names of 199 gentlemen and 229 ladies, making a total of 428 patients; of these—45 are away on leave or trial, 23 gentlemen and 8 ladies being at Moulton Park, 11 at Bryn-y-Neuadd in Wales, and 3 elsewhere. There is also one voluntary boarder who is a fit case to remain upon that footing.

We have seen yesterday and to-day all the patients in residence, as well as those on leave at Moulton Park. They were for the most part happy and contented, and are evidently well cared for.

The Hospital is in good order throughout, and with its dependencies maintains the high standard of comfort which we are accustomed to find here.

Some minor points require attention:—We think that the day rooms of No. 3 on the male side require to be very much brightened, and provided with many more objects of interest. The pads of the inspection inlets of all the padded rooms are dangerously hard; and very much closer attention should be paid to the general condition and cleanliness of the clothing of the gentlemen who occupy the rooms of No. 6.

The general health of the Hospital is good, only 3 gentlemen and 5 ladies being confined to bed.

There has been a large amount of seclusion—this form of treatment having been employed in 64 cases on 869 occasions, for a total of 5,210 hours; two patients have had to be mechanically restrained on 96 occasions for 1,125 hours, for reasons detailed in the Patients' Book.

We have satisfied ourselves as to the propriety of the detention of all the newly admitted cases.

We have had private interviews with four patients whose names are mentioned in the Patients' Book.

The Case Books are carefully kept.

A. H. TREVOR, Commissioners in Lunacy.

BRYN-Y-NEUADD HALL & PARK (THE SEASIDE HOUSE OF ST. ANDREW'S HOSPITAL),

BRYN-Y-NEUADD,

LLANFAIRFECHAN,

MAY 3rd, 1909.

I have to-day seen the 3 gentlemen and 31 ladies who are residing here on leave from St. Andrew's Hospital. They were—with the exception of one lady, who was keeping to her room owing to a cold—in good health, and several expressed to me the benefit they were deriving from the change.

The fine and genial weather to-day has enabled them to take full advantage of exercise in the extensive grounds, which are now fresh and green with the early foliage. One or two of them appealed to be discharged, but otherwise there was general contentment, and it is evident that no pains are spared to render their life here comfortable and happy.

The gentlemen are residing in the Hafod Fadog house, which is within the estate.

The whole establishment is maintained in very good order.

I had the pleasure of meeting Mr. Bayley, as well as the Resident Medical Officer, Dr. Archdall.

SIDNEY COUPLAND,

Commissioner in Lunacy.

THE REPORT OF

The Medical Superintendent,

FOR THE YEAR 1909.

My Lords and Gentlemen,

I beg leave to submit to you my Annual Report for the year 1909.

On January 1st, 1909, there were 423 patients in the Hospital: of these 192 were males and 231 females.

During the year, 87 patients have been admitted—40 males and 47 females.

Fifty-seven patients have been discharged—21 males and 36 females.

Twenty-seven deaths have occurred: 10 males and 17 females.

The total number under treatment during the year was 510: of these, 232 were males and 278 females.

The average number resident has been 421—197 males and 224 females.

The numbers remaining on the books of the Hospital on December 31st, 1909, were 201 males and 225 females, total 426. This number includes one female voluntary boarder.

The Statistical Tables will be found at the end of this report.

MOULTON PARK HOUSE (2 MILES FROM ST. ANDREW'S HOSPITAL).

Four males and 10 females admitted during the year had been previously under treatment in the Hospital.

The number discharged—57—includes 33 recovered; 12 males and 21 females.

The per-centage of recoveries to the total number of admissions during the year has been 30 oo males, 44 68 females, total 37 93.

The proportion per cent. of recoveries to admissions (excluding transfers from other Asylums) has been 41'37 males, 58'33 females, total 50'76.

The per-centage of deaths to the average number resident has been 4.56 males, 8.03 females, total 6.41.

The per-centage of deaths to the total number under treatment has been 4'31 males, 6'10 females, total 5'29.

In the past year, as compared with 1908, there is an increase of 17 in the number of admissions.

There is an increase of 10 in the number of recoveries.

The average number resident has been greater by 7 than in 1908.

The total number under treatment has been greater by 25 than in the year 1908.

All the deaths have been from natural causes.

The health of the patients and officials generally has been good during the year.

The only case of infectious disease has been that of a nurse in the Hospital, who fell ill with measles. She was isolated, and soon recovered. There has been no other case.

The number of patients who have visited Bryn-y-Neuadd has been 184, the same number as the year before, and the

house and villas have been occupied during the whole year. We still have a number of patients who remain there the whole year round. Under the careful supervision of Dr. Archdall, the establishment has worked most satisfactorily, and no difficulty whatever has occurred. The farm, garden, and all the other out-door departments have also been under his supervision for the past year, and there is a great improvement in the state of things generally.

The employment of a very large number of patients has been continued, as will be seen by the figures given below:—

The following works have been carried out:-

At the Hospital:

A Motor House has been built.

At Bryn-y-Neuadd:

The House for the Resident Medical Officer has been completed, and is now occupied.

There has been no change in the staff of officers during the past year.

The Hospital has been visited as usual during the year by the Commissioners in Lunacy and the Lord Chancellor's Visitors.

The Assistant Medical Officers have performed their duties in a most satisfactory manner, and I must acknowledge the great assistance I have received from them in carrying out the work of the Hospital.

I am also glad to be again able to report that the members of the clerical staff in the different departments have performed their duties to my entire satisfaction.

With one or two exceptions, the conduct of the attendants and nurses, and of the staff generally, has been very good during the year.

^{*} Outside the Grounds.

To the Chairman and Committee of Management, and to the whole of the Governors of the Hospital, my thanks are due for their continued confidence and support.

I have the honour to be,

My Lords and Gentlemen,

Your obedient Servant,

J. BAYLEY,

Medical Superintendent.

January, 1910.

THE TENNIS COURT, ST. ANDREW'S HOSPITAL.

THE

Report of the Chaplain,

FOR THE YEAR 1909.

January 24th, 1910.

My Lords and Gentlemen,

I beg to submit to you my Annual Report for the year 1909.

The Sunday and Week-day Services have been held with the usual regularity, save on a few occasions of very inclement weather. The statistics give an average attendance on Sunday of 57 males and 73 females, and on week-days of 19 males and 16 females: which shows a slight increase on Sunday, and a slight decrease on week-days, in comparison with the figures of the previous year. The behaviour of the patients at Divine Service continues to be very satisfactory.

In my daily visits to the various wards and private apartments, and in my fortnightly visits to Moulton Park, I have been received in the same kindly manner as heretofore.

I am again enabled to report that the Library is well used and appreciated. There is a very good supply of newspapers and periodicals, and their circulation is actively kept up under my own superintendence.

In a holiday absence of twelve days in the month of September, my duties were fulfilled by the Rev. B. Mathews.

I have again to thank the Medical Superintendent and other officials for much courtesy and kindness in the discharge of the duties of my office.

I remain,

Your obedient servant,

JOHN CUNNINGHAM,

Chaplain.

A RETURN showing the Weekly Payments of Patients who received Charitable Assistance in the year 1909.
