## REPORT OF THE COMMITTEE OF VISITORS.

Epiphany Sessions, January 3rd, 1871.

The Twenty-fifth Annual Report of the Committee of Visitors of the Devon County Lunatic Asylum, presented to the Court at Epiphany Sessions, 1871, as required by the Lunatic Asylums Act, 1854, sec. 62. We have to report at the Sessions as to the state and condition of the County Asylum, the sufficiency of proper accommodation for the Patients, the management of such Asylum, the conduct of the officers and servants thereof, and the care of the Patients therein.

With reference to the state of the Asylum, we have to report that no change has taken place during the past year.

The buildings are in good repair, and although in consequence of the increased value of timber, we have not yet effected some of the improvements required, and which we think very desirable, such as the substitution of wood for asphalte floors, and the formation of additional bath rooms and lavatories, it is our intention to proceed with them forthwith.

With regard to the sufficiency of accommodation, we have to report that the wards are still overcrowded, especially on the female side.

The Secretary of State having expressly declined, as we stated in our last Report, to sanction a renewal of our contract with the authorities at Plymouth, 30 of their Patients have been removed, and the remaining six will be removed at Lady-day next. The city of Exeter also having provided, at their Workhouse, accommodation for chronic cases, has removed some of their Patients. Still the numbers in the Asylum are—234 males, and 387 female Patients, and 67 borough Patients; total 688. During the year 203 Patients have been admitted, 68 have died, and 146 have been discharged, either recovered or at the request of friends.

We hope that in consequence of the removal of the borough Patients, the present buildings will be found sufficient for the accommodation of the county Patients.

We have thought it desirable, after full inquiry, to make considerable alterations in the mangement of the Asylum, by separating the offices of clerk and store-keeper, and farm bailiff, which have been hitherto held by one person.

On the 15th day of March last, Mr. Hannaford was appointed storekeeper at a salary of £80, with board and residence. Since that time he has left, not being equal to the management of the large wants of the Institution, and an appointment has been made of another storekeeper in his place, which, we have every reason to believe, will prove satisfactory. Mr. Smith has been appointed farm bailiff—his wife to manage the dairy—the salary is £75 a year, with residence and certain allowances of vegetables, milk and butter.

We have also created a new office, that of auditor of the accounts of the Asylum, and Mr. Frederick Pollard has been appointed to it, at a salary of  $\pounds 25$  a year.

Mrs. Cunningham having resigned the situation of housekeeper, we have appointed Mrs. Quick to succeed her, at a salary of  $\pm 50$ , with board and residence.

We regret that it is not in our power to give the same satisfactory report as in previous years of the conduct of the officers and servants of the Asylum. It having been discovered that seven of the male attendants had been using and wearing the Asylum clothing, and that there was reason to suspect that they had carried away some of the stores, warrants were issued for searching the house of Skinner, one of the attendants, and other houses, and as many articles

were found in his house, the Clerk was directed to prosecute him. He is now on bail, to take his trial at the next Assizes. The other six attendants have been dismissed. In consequence of this investigation the Superintendent inspected the apartments of the Clerk, Mr. Badcock, at the farm, and reported that he had there found large quantities of stores, a great many of which he, Mr. Badcock, had admitted to belong to the Asylum. Having fully considered the report of the Superintendent, and visited the apartments, we came to the following resolution :- "The Committee having seen the articles found in Mr. Badcock's apartments, and having investigated the circumstances and heard what Mr. Badcock had to state in reference to them, are of opinion that the investigation was imperatively necessary, and that Mr. Badcock had been guilty of great irregularity in retaining these articles in his possession; that his explanation is unsatisfactory, and that his services be dispensed with."

Mr. Badcock has left the Asylum, and Mr. F. Sanders has been appointed Clerk, at a salary of £120 year.

We have framed with great care a new set of regulations for the conduct of the different officers, and hope that this may lead to a better system and greater regularity in the discharge of their various duties.

It is not probable that we shall for the present have it in our power to reduce the charge of maintenance below 9s. 6d. for county, and 13s. for borough Patients. But the Court may rely on our desire to administer the funds of the Institution with as much economy as possible, always having regard to health and proper care of the Patients.

We beg, in conclusion, to state that the annual account will be presented at the next Quarter Sessions, and that the Visitors for the ensuing year are to be appointed at these Sessions.

> S. T. KEKEWICH, Chairman.

## TWENTY-FIFTH ANNUAL REPORT

#### OF THE

## MEDICAL SUPERINTENDENT.

The Medical Superintendent has the honor to submit to the Committee of Visitors the Twenty fifth Annual Report, accompanied by the Statistical Tables in the Appendix.

During the year 1870, 203 Patients have been admitted, of whom 93 were men, and 110 were women.

One hundred and forty-six Patients have been discharged; 72 males, and 74 females.

Eighty-five were discharged cured, of whom 41 were male, and 44 females.

Sixty-eight Patients have died, males 31, females 37.

Compared with the previous year the admissions shew an increase of 9, the discharges an increase of 26, and the deaths a decrease of 16.

The total number of Patients under treatment during the year has been 902; males 372, females 530.

The following Table shews more in detail the changes which have occurred.

Patients in Asylum, 1st Jan., 187 Admitted for the first time 6	279	Females. 420	Total. 699
Re-admitted during the year 3	93	110	203

Total discharged and	died			103	111	214
The maintain and the mount						
				269	419	688
Average number resident d	uring	the y	year	278	426	704
Maximum number on Books	-			280	437	717
Minimum, December 28th				269	419	688
Number deemed curable, 1				11	13	24

Of the 688 remaining in the Asylum, 620 are chargeable to Unions, 6 to Plymouth, 28 to Exeter, and 34 to other non-contributing boroughs.

The per centage of recoveries on the admissions has been 42; 44 per cent. on the males, and 40 per cent. on the females. Of those discharged, as relieved and not improved 7 were removed to other Asylums, 2 to Union workhouses, 16 to the Exeter City workhouse, and 23 to Plymouth, 17 to care of friends.

The mean death rate has been 9.65 per cent. on the average number resident, 11.15 on the males, and 8.6 on the females. The average age at death was males,  $48\frac{1}{2}$ ; females,  $59\frac{1}{4}$ .

An analysis of the obituary table gives the following as the causes of death :—Apoplexy, 2; Epilepsy, 3; Maniacal and Melancholic Exhaustion, 3; General Paralysis, 9; Softening of Brain, 3; Inflammation of Lungs and Bronchi, 3; Pulmonary Consumption, 15; Disease of the Heart, 4; Dysentery and Diarrhœa, 6; General Dropsy, 3; General Debility and Old Age, 10; Erysipelas, 5.

The deaths have all arisen from natural causes. No inquest has been held. The general health of the Patients

has been good, except in the Autumn months, when there were a number of severe cases of dysentery and diarrhœa, caused, probably, by the climatic changes following an unusually hot and dry summer. There have also been many severe cases of erysipelas, which at one time assumed an epidemic type.

The number of admissions has exceeded that of any previous year, except in 1862, when there were 208; but in making this comparison it must be borne in mind that no Patients have been sent from Plymouth during the year, and since Michaelmas, when the contract for the reception of pauper lunatics from the City of Exeter expired, recent cases from Exeter have been sent elsewhere.

In October last, the wards were over-crowded, especially in the female division, and for a short time it became necessary to refuse admission to female patients, except when vacancies were occasioned by death or discharge. Temporary relief was happily afforded by the removal of a number of patients to the Plymouth workhouse, and a few patients of a chronic and harmless class were sent to union workhouses or entrusted to the care of friends.

With due care in the selection of harmless patients, the Asylum might be still further relieved by boarding such cases with their friends or others, at a weekly rate of maintenance considerably less than that charged in the Asylum. The difficulty is to provide for the periodical inspection and proper supervision of patients thus placed. In Scotland, a large number of the insane poor are treated in private dwellings, and the system is highly spoken of by Dr. Mitchell, one of the Commissioners in Lunacy, who has taken considerable interest in the question. At a time when the everincreasing number of applicants for admission into our county asylums is attracting attention, it deserves consideration whether by some such means room cannot be obtained for recent and acute cases, and the necessity for extending the present Asylum buildings be obviated.

The medical and moral treatment of the Patients has been the same as in former years. The Friday evening entertainments have been continued regularly during the winter, and consist of readings, dances, and concerts Two theatrical entertainments have been given, in which characters were taken by the assistant medical officer and some of the male attendants. The Patients highly appreciate the privilege of attending these social gatherings, as it tends not only to lessen excitement and discontent, but materially aids in promoting the recovery of curable cases, and in checking the tendency of others lapsing into a listless demented state.

Your Superintendent regrets to report, that, after investigations made by himself, in October last, four male charge attendants and three under attendants were summarily dismissed, for wearing Asylum clothing; one of them, Skinner,\* has been committed for trial at the Assizes. And that it also became his duty to report, on more than one occasion, the grave misconduct of the Clerk and Steward. Mr. Badcock, which led to his subsequent dismissal. He is grateful for the confidence and support shewn him by the Visitors in carrying out the most painful duties which he has encountered during his connection with the Asylum. He cannot omit to mention that the remaining staff of attendants and servants have conducted themselves most satisfactorily under trying circumstances. Since the appointment of the three new officers, Clerk, Storekeeper, and Farm-Bailiff, they have heartily co-operated with the Superintendent in promoting the comforts of the Patients, as well as economy in every department of the Asylum. The Assistant Medical Officer, Dr. Burman, has rendered him valuable assistance in the performance of his duties during the past year.

(Signed)

G. SYMES SAUNDERS, M.B. (LOND.) Member of the Royal College of Physicians (Lond.)

\* Skinner, at the recent Lent Assize, was convicted of stealing a number of articles from the Asylum, and sentenced to six months imprisonment with hard labour.
