# TRUSTEES' REPORT.

### To His Excellency the Governor of the Commonwealth and the Honorable Council.

The thirty-seventh annual report of the Northampton Lunatic Hospital gives the more important results and changes for the year 1891–92. The numerous improvements which have been made and the increase in the number of admissions indicate that the work of the hospital becomes more exacting and complicated, and that the institution is becoming more of a hospital and less of an asylum.

The number of patients in the hospital Sept. 30, 1891, was 453, — men 225, women 228. One hundred and seventyseven patients were admitted within the year, — 102 men, 75 women. The number of cases under treatment was 630, — men 327, women 303. One hundred and forty-one patients were discharged, — men 85, women 56, including 38 deaths. Four hundred and eighty-nine patients remained in the hospital Sept. 30, 1892, — men 242, women 247. The average daily number was 469.09. The largest number on any one day was 492, the smallest 446.

Thirty-seven patients were discharged as recovered, including 2 inebriates; 19 as much improved, 21 as improved, 23 not improved and 3 not insane. Of those admitted, 25 were supported by individuals, 97 by towns and cities and 53 by the State.

The number of patients committed from the general population within the year is larger by 36 than in the previous

year, and larger by 7 than in any other year since the opening of the hospital. The increase in the number of patients in the house for the year is 36. According to estimates which have been made by the State Inspector of Institutions, the normal capacity of this hospital is 394 patients. The excess at present is 95. If the numbers continue to increase for the coming year as in the past, it will be readily seen that the hospital must become greatly overcrowded. With the increase in the number of commitments there is also a large increase in the number of acute cases, which require separate rooms and special treatment.

There are in the hospital about forty patients whose residence is in the eastern part of the State. It is desirable that they be removed, so as to enable this hospital to accommodate the patients from the western district.

The meetings of the Board have been held regularly each month, with occasional visits from members in the intervals. The usual inspections of the hospital and verifications of accounts have been made regularly at these meetings. The affairs of the hospital have been conducted in the usual manner and with about the usual results.

No epidemic has prevailed, with the exception of a considerable number of cases of influenza in the winter. No suicide or serious accident has occurred. There has been a very small amount of acute disease among the patients. The number of deaths is a little larger than it has been for several years. This may be accounted for by the fact that no less than ten of the deaths were of people who were in an extremely feeble condition when admitted, and lived only a short time.

The farm has been successfully managed, and, as usual, has contributed largely to the hospital supplies.

The improvements have been carried on, several acres of waste land cleared for cultivation, new roads made and the products increased. The year has been an important one in the number of improvements that have been made in buildings. The remainder of the appropriation that was made by the Legislature of 1890–91 for enlarging the hospital and for necessary repairs, amounting to \$19,177.19, has been

expended. Of the appropriation of \$50,000 which was made at the session of the Legislature of 1891-92, \$13,321.78 has been expended. The new dormitory for male help is nearly ready for use. The carpenters' and engineers' shops are in use. Four steel boilers, each having fifteen hundred square feet of heating surface, have been placed in the boiler house, with Smith's setting. An additional story is being built over the old boiler house for rooms for female help, and the laundry will soon be removed to the same building. The building which was erected for a storehouse in 1884 is being fitted up for the reception of patients. One-half of the lower floor will be used for a dining-room, the second story will be used as a day room and the third story as a dormitory. An addition twenty-two feet square, three stories in height, is now being built, on the north side, for wash-rooms, bath-rooms and closets. A similar building has been erected adjacent to the third section of the south wing, which will contain bath-rooms and water-closets for that section. An extension twenty by twenty-five feet has been added to the west end of the same section. This addition will contain two rooms for patients, and a large open bay at the end of the corridor on each of the three stories. An iron staircase is being put into the same section, and other changes are being made which will improve the lighting and ventilation The stable for horses has been enlarged of this section. and otherwise improved. Four of the halls in the male wing have been refitted with ash doors and casings, and the floors Many other smaller improvements have been renovated. made, which do not require mention.

The financial condition of the hospital is satisfactory. The report of the treasurer is appended, giving the details : —

(I

Cash assets S	eptem	ber a	30,			\$46,996 6	59
Liabilities,	•	•			•	6,269 7	2
Bala	nce,					\$40,726 9	7

The amount of purchased supplies on hand September 30 was estimated at \$10,040.06. The products of the farm on hand were estimated to be worth \$8,348.47.

The amount charged for board of each class of patients was as follows : --

State patients,				\$14,846 04
Town patients,				51,981 21
Private patients,				19,078 05

Dr. Emily F. Wells, after seven years of efficient service, resigned to enter upon private practice. Jane R. Baker, M.D., was appointed to fill the vacancy.

In the performance of their duties the trustees have had the co-operation of the superintendent and all other officers of the institution.

# TREASURER'S REPORT.

### To the Trustees of the Northampton Lunatic Hospital.

I hereby present my report, as treasurer of the hospital, for the fiscal year ending with the 30th of September, 1892. It contains, as usual, an appraisal of the property of the institution, an account of the receipts and the disbursements of money during the year, and the financial condition at its close.

### 1. — General Statistics of the Year — Concluded.

The number of patients admitted within the year is larger by 7 than in any former year, and larger by 36 than in the preceding year, not including transfers. The year began with 453 patients. One hundred and seventy-seven cases (102 men and 75 women) were admitted within the year, making the whole number under treatment 630, -327 men, 303 women. Of these, 7 were committed under the dipsomaniac act.

One hundred forty-one cases were discharged (85 men and 56 women), including 38 deaths; which makes the number in the hospital Sept. 30, 1892, 489, -242 men and 247 women.

The daily average for the year was 469.09. Of the discharged, 77 returned to their homes, 13 were removed out of the State, 6 eloped, 6 were removed to almshouses and 1 to Sherborn Prison.

The number of first admissions of cases was 140, of second admissions 27, of third admissions 8, of fourth admissions 1 and of seventh admissions 1. One man was discharged, readmitted and again discharged; 1 man and 1 woman were admitted and discharged twice within the year; 1 man and 3 women were discharged and readmitted within the year; which makes the number of persons admitted within the year 175. Persons discharged 138, and persons under treatment 623, — men 324, women 299.

## STATUS OF PATIENTS.

Of the 453 patients in the hospital Oct. 1, 1891, 80 were charged to State account, 302 to towns or cities, and 71 were supported by individuals.

The commitment of patients to the hospital is by an order of the judge of some court. If any individual comes forward and assumes the responsibility of paying for the support of any patient, such patient is put upon the list of private patients. All other patients are either charged to State account or to towns or cities, according as they have legal settlements in any town or city, or not. It is often the case that the friends of patients allow them to be charged to the town in which they have a settlement, and then indemnify the town or city, in order to save expense. Recently private patients are received at lower rates than formerly, in deference to the wishes of friends who desire to pay the bills themselves.

Twenty-six of the patients admitted this year were supported by friends, 53 were wards of the State and 96 were supported by cities or towns. Of those remaining in the hospital Sept. 30, 1892, 85 are State patients, 331 town and 73 private. The weekly average of the different classes are given in the table which follows, indicating the change in status which is continually taking place.

Private patients,	:	:	:	32.41	36.16	68.57	32.52	40.75	73.27	

## RECOVERIES.

The number and ratios of recoveries are not large. This is owing to the large number of incurable cases that were admitted. The number reported as recovered at the time of leaving the hospital was 37. Four of these had been previously discharged as recovered. Thirty-one of those recovered had never been treated in this hospital, 4 of them were second admissions and 2 the third. The percentage of recoveries on the number admitted was 20.9, on the number of persons discharged 26.08.

### DEATHS.

The percentage of deaths in a hospital is always to a certain extent accidental, depending mainly upon the age of the patient, the character of his disease, and the progress which such a disease has made when the patient was admitted. The number of deaths within the past year is the largest that it has been for the last eleven years. The special reason for this is that 10 of the men who died were in such condition when admitted as to make death almost certain within a short time. They lived a period varying from eight to thirty-five days. Twenty-nine men and 9 women are included in the list of deaths. Six patients died of paresis, 4 of heart disease, 3 of phthisis, the same number of pneumonia and epilepsy, 1 each of old age, Bright's disease, paralysis, pyæmia, abscess of the throat, enteritis and exhaustion of toxic mania. Erysipelas caused the death of 2 feeble aged men. In 4 cases exhaustion of chronic brain disease was the cause of death. Three died of exhaustion of chronic mania and 2 of exhaustion of acute melancholia.

The percentage of deaths on the whole number treated within the year was 6.03, on the daily average 8.1. The numbers and ratios of deaths since 1858 will be found in the annexed table : --

Deaths and their Ratios, from Sept. 30, 1858, to Oct. 1, 1892.

## PUBLIC DOCUMENT - No. 21.

## WORSHIP AND ENTERTAINMENT.

The question of entertainment for patients which shall be satisfactory, and at the same time useful, taxes the ingenuity and skill of those who have it in charge, to give it sufficient variety and make it attractive. The religious exercise, the reading, the illustrated lecture, the musical assembly and the dance all have their advocates. This hospital has maintained with regularity some sort of exercise a large portion of the year, for the past twenty-eight years, and it is with satisfaction that we look back and see that the work has not been in vain. So many of those who attend give evidence that the moral effect is beneficial. While in some the effect is intellectual, in others sentiment is appealed to. The hospital has no chaplain, hence the work falls mainly on the physicians. The average attendance upon the services on Sunday was 292.

The following table gives the character of the exercises : --

### Exercises in Chapel.

1.	ON	THE SABBATH : -	
		Divine worship,	
2.	On	Secular Evenings :	

(a)	Readings and Recitations, opened and closed with Music : -
	The Bible, 2 days

	Lecture, 1 day.
(c)	Social Assemblies : -
	Quadrille parties,
	No assembly,
	365 days.

### FARM.

The farm has been very productive under the usually good management. With the exception of a dry period in the

1892.]

. . 52 days.

early spring, the weather has been favorable. The crops have been large and excellent, the hay well up to the standard. The quantity of milk has increased from year to year, as it has come to be a necessity among the feeble patients and in many acute cases where exhaustion and enfeebled digestion prevail. The daily average quantity of milk used in the house was 398 quarts; the total amount was 36,429 gallons, one-third of which is given in the table of products, the other two-thirds charged to the cost of animals and their food. The apples produced amount to 1,246 barrels, nearly all of which are used in the hospital. The custom of purchasing beef cattle of prime quality for slaughtering is still continued during a larger part of the year, which insures a good quality of beef for consumption.

Improvements are continually carried on each year, such as can be made by the regular employees, in the intervals between the busier seasons of the year, without additional expense. A tract of fertile land in the south-west part of the farm, which was entirely covered with bushes, is being cleared for cultivation. Another tract of twenty acres in the west part of the farm, covered with bushes and bowlders, has been cleared. Nearly the whole of the farm (which at present contains about 495 acres) can eventually be brought under cultivation, excepting some groups of trees. As usual, many patients have been employed in the farm work.

The following table gives the annual amount of hay produced : ---

1864, estimated,		40	tons.	1879, w	eighed,		144 t	ons.

Oats, 80 bushels,					32 00
				-	

### FINANCES.

\$18,803 87

The hospital depends for its income upon the products of the farm and the amounts charged for the board of patients. The hospital receives for the support of all State and town or city patients \$3.25 each per week. The average cost per patient for the year past was \$3.84. The term "support," as interpreted by law, includes board, clothing, medical attendance, damage to the property of the hospital, etc. No extra charge is allowed in the bills, except as provided in chapter 87, section 45, of the Public Statutes: "No pauper shall be discharged from the State hospital without suitable clothing, and the trustees may furnish the same at their discretion, together with such sum of money, not exceeding twenty dollars, as they may deem necessary. Such money and the cost of such clothing, the expense of pursuing such lunatics as escape therefrom, and of burial of such as die in the hospital, shall be reimbursed to the trustees by the places of legal settlement of city and town paupers, and by the Commonwealth in the case of State paupers."

The daily average of State and town patients for the past year was 395.06. The charge for board of private patients is not uniform, but varies according to the arrangements made with the parties paying such board. The average price charged for all private patients who were in the hospital Sept. 30, 1892, was \$4.79 per week. The daily average number of this class was 74.03. The clothing and damages are charged extra. The average weekly pay per capita charged by the hospital for all its patients, State, town and private, in the course of the year, was \$3.52.

The amount of cash assets on hand is \$46,996.69, the liabilities are \$6,269.72. The purchased supplies on hand, including provisions, clothing and fuel, are estimated to cost \$10,040.06, making the working surplus of the hospital \$50,767.03. The amount expended from the regular receipts of the hospital for extraordinary repairs and improvements was \$17,939.78. In addition to this, \$19,177.19 was expended from the appropriation made by the Legislature of 1890-91, and \$12,921 from the appropriation made by the Legislature of 1891-92, for enlarging the hospital and for necessary repairs and improvements, making a total of \$50,037.97 expended within the year. The total amount of appropriations which have been made by the State and expended for the construction, repairs and improvements of the hospital, from the time of the passage of the act authorizing its erection, according to the list furnished by the State treasurer, is \$418,470.40.

### ACKNOWLEDGMENTS.

Thanks are due to Mr. S. E. Bridgman, Mrs. D. D. Gorham, Miss Florence Austin and others, for magazines, papers and other reading matter; to the "N. E Staaten Zeitung" for two copies of that paper, to the "Christian Register" for one copy for the year.

The usual stereopticon exhibitions were given by Dr. T. W. Meekins. The weekly dances were favored with music from Mr. Frank's orchestra. Many of the patients have reason to be grateful to Mrs. S. A. Woodworth and Mrs. S. M. Butler for favors received.

It gives me pleasure to acknowledge the many expressions of interest and good wishes which almost constantly come from friends for the prosperity of the hospital, and success of the efforts which are made for those under our care.

### CONCLUSION.

The year has brought very few changes in the offices of the hospital. Dr. Emily F. Wells resigned her position as physician, to engage in private practice, after a long and faithful service. Jane R. Baker, M.D., was appointed to fill the vacancy, and has acceptably filled the position for about two months. The number of changes among the attendants has been larger than usual.

It is a pleasure to acknowledge the willing help which has been given by the official staff, and the assistance and support of your Board.

> EDWARD B. NIMS, Superintendent.

# DIETARY OF THE NORTHAMPTON LUNATIC HOSPITAL.

[There are two bills of fare, the first of which is supplied to the tables of about two hundred persons, and the second to those of somewhat over three hundred.]

### BILL OF FARE No. 1.

### BREAKFAST.

- Monday. Tea, coffee, broiled beefsteak, potatoes, warm rolls ("biscuit"), bread and butter.
- Tuesday. Tea, coffee, fried tripe,\* potatoes, warm rolls, bread and butter.
- Wednesday. Tea, coffee, broiled beefsteak, potatoes and warm brown (rye and Indian) bread.
- Thursday. Tea, coffee, broiled beefsteak, potatoes, warm rolls, bread and butter.
- Friday. Tea, coffee, fried tripe,\* potatoes, warm rolls, bread and butter.
- Saturday. Tea, coffee, either fried fish-balls or liver, meat hash, hot corn cake, bread and butter.

Sunday. — Tea, coffee, cold corned beef, potatoes, warm rolls, bread, butter and fried Indian corn pudding.

### DINNER.

- Monday. Roast beef, potatoes and one other vegetable, bread, butter, boiled rice with syrup or sugar
- Tuesday. Vegetable soup, roast or stewed veal,<sup>†</sup> potatoes and one other vegetable, bread, butter and baked Indian pudding.
- Wednesday. Either fried or baked fresh fish or boiled mutton, potatoes and one other vegetable, bread, butter and berry or apple pudding, with sauce.<sup>‡</sup>
- Thursday. Vegetable soup, corned beef, potatoes and one other vegetable, bread, butter and boiled suet pudding with syrup.

1 In spring, maple syrup is used as sauce for puddings.

<sup>\*</sup> Tripe is replaced in winter by sansages, and in spring by fried ham and eggs, except in the season of shad, when that fish is given once each week instead of ham and eggs, and once instead of beefsteak.

<sup>+</sup> Substituted in winter by fresh pork ribs, roasted.

- Friday. Either boiled or roasted mutton\* or stewed or roasted veal, potatoes and one other vegetable, bread, butter and tapioca pudding or raisin pudding of either rice, bread or cracker.
- Saturday. Baked beans, corned beef, potatoes and one other vegetable, pickles, bread, butter and baked bread pudding.
- Sunday. Cold corned beef, potatoes, warmed baked beans, pickles, bread, butter and pies, the kind varying with the season.

### SUPPER.

- Monday. Tea, bread, warm corn cake, butter, hard gingerbread and a relish.
- *Tuesday.* Tea, white bread, graham bread, butter, soft gingerbread and a relish in the warm season, substituted by buckwheat cakes in the cold season.

Wednesday. - Tea, bread, butter, cookies and ginger snaps and a relish.

Thursday. — Tea, bread, butter, pie (the kind varying with the season) and cheese.

Friday. - Tea, bread, butter, cake (the kind varying) and a relish.

Saturday. - Tea, bread, butter, doughnuts and cheese.

Sunday. - Tea, bread, butter, cookies and ginger snaps and blancmange or corn starch.

Extra. — In the winter and spring months hulled corn at supper, once in two weeks, on Saturdays.

### BILL OF FARE No. 2.

### BREAKFAST.

Monday. - Coffee, cold corned beef, potatoes and bread.

Tuesday. - Coffee, cold roast beef, potatoes and bread.

Wednesday. — Coffee, meat stew, potatoes and warm rye and Indian corn brown bread.

*Thursday.* — Coffee, picked codfish cooked in milk, potatoes and bread. *Friday.* — Coffee, cold corned beef or meat stew, potatoes and bread.

Saturday. - Coffee, hash, either of meat or fish, and bread.

Sunday. --- Coffee, cold baked beans, potatoes and bread.

Butter is used in two halls in the morning.

### DINNER.

Monday. — Roast beef, potatoes and one other vegetable,<sup>‡</sup> boiled hominy with molasses and bread.

‡ Except two months in the spring.

<sup>\*</sup> Substituted by stewed oysters in winter and spring, with some kind of roasted meat for those who prefer it.

<sup>+</sup> This term, used for the want of better, includes dried beef, berries, baked apples, apple sauce, and canned fruits, all of which are supplied, and each according to the season.

## 1892.] PUBLIC DOCUMENT - No. 21.

- Tuesday. Vegetable soup, potatoes and one other vegetable,\* baked Indian pudding† and bread.
- Wednesday. Boiled fresh fish with drawn butter sauce, potatoes and one other vegetable,\* boiled hasty pudding with molasses and bread.

Thursday. — Vegetable soup, potatoes, cabbage or some other vegetable, boiled rice with molasses ‡ and bread.

- Friday. Boiled codfish with drawn butter sauce, potatoes, beets or some other vegetable, boiled hasty pudding with molasses and bread.
- Saturday. Hot baked beans, potatoes, baked Indian or bread pudding, pickles and bread.
- Sunday. Cold corned beef, potatoes, pies (the kind varying with the season) and bread.

### SUPPER.

Monday. — Tea, bread and butter.

Tuesday. - Tea, bread, butter and soft gingerbread.

Wednesday. - Tea, bread, butter and some kind of relish.

Thursday. - Tea, bread and butter.

Friday. - Tea, bread, butter and soft gingerbread.

Saturday. - Tea, bread and butter.

Sunday. - Tea, bread and butter.

### EXTRAS.

In August and September these tables are furnished at supper with either berries, tomatoes or baked apples, as many as five times a week.

In four halls, sauce, of either fresh or dried apples, is furnished as often as three times a week for the rest of the year.

### EXTRAS FOR THE WHOLE HOUSEHOLD.

All persons have roasted turkey at dinner on Thanksgiving Day, and either turkey or chicken on one other day in the year.

From four to five bushels of green sweet corn, in the ear, is consumed in its season, daily, with the exception of Sunday.

Tomatoes, cucumbers and melons are furnished in liberal quantities in their season.

In the spring, cowslips and dandelions are largely used as greens, and horseradish as a condiment.

During eight months of the year, a barrel of apples is distributed, daily, among the patients.

Beef tea, chicken broth, mutton broth, scalded milk, arrow-root gruel, oatmeal gruel, milk punch, cracked wheat, oatmeal porridge, dry toast, milk toast, toast with dropped egg and boiled eggs, for invalids and all who are not able to take the regular fare.

<sup>\*</sup> Except two months in the spring.

<sup>+</sup> All baked puddings for the whole household are made with milk.

<sup>&</sup>lt;sup>†</sup> Maple syrup is furnished, in place of molasses, three or four times in the spring.
