### THE THIRD REPORT

OF

### THE COMMITTEE OF MANAGEMENT.

IN their Report of last year the Visitors explained the principle on which the Charity of the Asylum was conducted, and recorded in their Minutes as follows—"That the Asylum has "for its primary object the cure of patients, and that chronic "cases must, when necessary, be removed to make room for "recent and curable cases."

In accordance with this principle, the Visitors have been careful to secure that the admission of cases where the recovery from the continuance of the disease was doubtful, should not be allowed to interfere with the admission of those whose malady, of more recent occurrence, afforded from that circumstance the hope of speedy cure; but they are happy to say that in this year, as in the preceding, they have not been compelled to refuse admission to any case presented to them, and they will therefore continue to hope that the past year, like that of the preceding, has been one in which there has been no increase of the malady which this Charity is intended to alleviate.

The number of patients admitted during the past year has been 6 only, and of these only 2 remain in the Asylum; the number of patients on the books of the Charity during the whole year has been 41, the average number 35, and the number on the books on the 31st December, 1874, was 35.

The separation between the private and pauper patients is complete. The centre of the main building has been set apart exclusively for private patients, into which the pauper patients have no right to enter.

The average weekly cost of maintenance for the past year has been 9s. 6d., as against 9s. 10d. last year, and the amount due from the Charity to the Household for the year 1874 is £985. 4s. 6d., the contribution for Repairs and Furniture is £132. 13s. 10d., the Clerk's Salary, Printing, and Incidental expenses amount to £70. 16s. 3d., making the entire outlay for the Charity during the past year £1188. 14s. 7d.; the Receipts from patients, and the Income of the Charity from other sources will exceed this sum.

During the past year the Charity has received a Legacy of £19. 19s. 0d. under the Will of the late Miss Nedham, for which the Visitors desire to record their thanks.

The Cash Balance in the hands of the Treasurer at the close of the year was, as is seen in the Balance Sheet annexed hereto, the sum of £1,657. 16s. 4d., and the Subscriptions and arrears received during the past year amounted to the sum of £96. 7s. 0d. Out of the Cash Balance, however, the above-mentioned sum of £1,188. 14s. 7d. has to be deducted, leaving the actual balance in the hands of the Treasurer £469. 1s. 9d., and no more.

During the year the Treasurer has invested a further sum in the purchase of £500. Midland Debenture Stock, and the Capital Stock of the Charity is now as follows:

India Stock, £5. per cent.	...	...	£4,000
Midland Debenture Stock	...	...	£6,000
Debt due from the Asylum	...	...	£1,000

---

£11,000

The year that has passed has confirmed the Committee in the belief of the value of the new scheme for the working of the Charity of the Asylum, and in the efficiency for good which that scheme will ultimately develop.

As in their former Report, the Committee in this do not offer any remarks upon the general management of the In-

stitution, as this will more properly be the subject of remark from the Chairman and Visitors of the Asylum, but they may, as in the previous year, express their satisfaction in referring to the continued approval which the Commissioners in Lunacy, on their official visit, have expressed as to the general management of the Asylum and the conduct of the Officers, and their belief that such approval is well deserved.

HENRY ST. JOHN HALFORD,

*Chairman.*

# LEICESTERSHIRE AND RUTLAND LUNATIC ASYLUM.

## THE REPORT

OF

THE COMMITTEE OF VISITORS

OF

*The Leicestershire & Rutland Lunatic Asylum,*

TO THE

THIRTY-EIGHTH GENERAL ANNUAL MEETING,

HELD AT THE COUNTY ROOMS,

*On Saturday, the 30th day of January, 1875.*

THE Committee of Visitors, in presenting their Report to the Thirty-eighth Annual General Meeting, have pleasure in stating at the outset that the result of the past year, as regards the cost of the Household, has been more favourable than in the previous year.

The aggregate number of weeks spent by all the patients in the Asylum during the past year has been 21,905, and of these the proportion belonging to the private patients is 1,845.

The total expense of maintenance of the patients during the past year is £10,420. 17s. 5d., making the average cost per head per week 9s. 6 $\frac{3}{4}$  $\frac{3}{4}$  $\frac{2}{5}$ , the amount therefore payable to the Treasurer of the Asylum by the Treasurer of the Charity for the year 1874 in respect of maintenance of the private patients is £876. 7s. 6d., which, together with a sum of £90. 13s. 2d., expended in clothing and repairs for them, makes a total of £967. 0s. 8d.

The total expense incurred for Repairs and Furniture during the past year is £1575. 8s. 8d., the proportion thereof to be borne by the Charity being £132. 13s. 10d.

The average number of the pauper patients in the Asylum during the past year has been  $385\frac{1}{2}$ ; of these  $342\frac{1}{2}$  belong to the County of Leicester,  $38\frac{1}{2}$  to the County of Rutland, and  $4\frac{1}{2}$  to Out Counties.

The patients in the year 1873 were respectively: Leicester  $337\frac{3}{4}$ , Rutland  $37\frac{3}{4}$ , Out Counties  $2\frac{1}{2}$ , thus showing for the past year an increase of 5 for the County of Leicester, 1 for the County of Rutland, and 2 to Out Counties.

The aggregate result of the working of the Institution including the profit on the Farm account has been to place a further sum of £1285. 16s.  $1\frac{1}{2}$ d. to the credit of the General Asylum Revenue, the balance on which account now stands at £3031. 11s. 10d. Taking into account the various sums owing to the Asylum for maintenance, the actual cash balance in hand, as well on the other hand as the amount of expenditure payable at the beginning of the year in respect of the last quarter's bills, there does not appear to be any reason why the £1,000. still owing to the Charity with the interest due thereon should not be paid, and the Committee therefore intend to carry that proposal into effect as soon as convenient.

The Farm account for the past year shows a profit of £574. 10s. 6d., the Superintendent having in his hands at the end of the year a cash balance of £154. 3s. 9d.

The accounts of the Asylum have been audited by Mr. Watson, of Derby, the professional auditor, and are signed by him.

The attention of the Visitors has been drawn to the insecure state of the Asylum in the case of an outbreak of Fire occurring in any part of the building, which, from its peculiar construction, added greatly to the danger. Captain Shaw, the Superintendent of the London Fire Brigade, was consulted, and acting on his report, the Visitors have most carefully considered the scheme suggested by him, which they believe would prevent the extension of fire from one portion of the building to another.

This scheme, the estimates for which amount to about £2,000., is now being carried into effect, and a grant for that sum has been voted at the General Quarter Sessions.

The Visitors have to express their thanks to the Medical Superintendent for his efficient and satisfactory management

of the Asylum, and also to the Assistant Medical Officer for carrying out the Medical Superintendent's directions.

The Visitors have again the pleasure of recording that the conduct of the Officers and Attendants has been satisfactory, and the Visitors have accorded an increase in salary to the Storekeeper and wages to the Attendants.

The Asylum has been visited during the past year by the Commissioners in Lunacy, whose Report is set forth in the Appendix.

The Medical Superintendent and Chaplain have also presented Reports which are now laid before the meeting.

During the past year Mr. J. I. Bowes, Assistant Medical Officer, resigned his office in consequence of impaired health, and the Committee appointed in his stead Dr. J. F. Dixon.

The statements of account and statistical tables hereto annexed will give information as to the financial position and general working of the Asylum during the year.

A. G. HAZLERIGG,

*Chairman.*

---

25th January, 1875.

*To the Visitors of the Leicestershire and Rutland Asylum.*

GENTLEMEN,

I have the honour to submit to you the following Report upon the condition of the Asylum for the year 1874.

On the 1st of January, 1874, there were 414 patients in the Asylum, and since that period 98 patients have been admitted (51 males and 47 females), making a total of 512 under treatment during the year. Of these

48 have been discharged Recovered,

7 ditto Relieved,

and 37 have died, leaving 420 in the Asylum,  
on the 1st January, 1875.

Of the 98 patients admitted, 14 were cases of readmission into this Asylum, and 2 were transferred from other Asylums.

Of the 512 patients under treatment, the average number has been 421.

There are now 35 Private, or Charity patients in the Asylum.

The admissions have exceeded the average of the last 4 years by 12, and our numbers seem once more to be slowly increasing.

The deaths have been 37, being 9 per cent. upon the average numbers resident.

There have been 55 discharges, of which 48 were recoveries, being in the proportion of 56 per cent. on the admissions.

The sanitary condition of the Asylum has been generally good throughout the year.

In the early part of the year there were 3 cases of Erysipelas in a mild form, and several cases of Diarrhoeal disorders, but all terminated favourably.

During the autumn months there was scarcely any of the epidemical complaints usually prevalent at that period.

The occurrence of 10 severe cases of Erysipelas and Fever at the close of the year, rendered it desirable to remove some of these cases to the detached workshops in the rear of the building.

With some slight alterations in the unoccupied rooms of

these buildings, very good accommodation can at any time be given to patients labouring under contagious or infectious diseases—and there are at present date, two severe cases of Erysipelas located therein, under the care of a special Nurse.

A criminal patient, G. F., was admitted from the County Gaol on the 2nd of July, in a state of considerable exhaustion from loss of blood, the result of a wound self-inflicted some days before his admission. This man died shortly after an operation performed for his relief, two days subsequently to his admission.

A Coroner's Inquest was held in this case, and the Jury returned a verdict to the effect—that “the deceased cut his throat while in an unsound state of mind, and died from the effects of such wound.”

I deeply regret to have to record a death from suicide, which was committed in the Asylum on the night of the 1st of December. At a Coroner's Inquiry which was held two days afterwards, the following verdict was returned—“that the deceased committed suicide whilst in an unsound state of mind, and they considered that there was no blame attached to any of the officials, as all precautions had been taken for her safety.”

Thirteen years have elapsed since I had to record a similar occurrence.

Post mortem examinations were made in 19 cases.

During the past year 7 cases have been received from the County Gaol, and they have been a source of considerable anxiety and difficulty in the management of the Asylum. They often make daring attempts to escape, they are unruly and destructive, and unlike ordinary patients, they often conspire, either amongst themselves or with other patients, for improper purposes. It is impossible to exaggerate the discouraging influences which result from the introduction of criminal patients into the ordinary wards of a County Asylum.

The occupations and amusements of the patients continue to receive systematic attention—and a large number of male patients are always employed upon the Farm and Garden, with the best possible results.

By the renewal of the steam piping in the laundry yard, and the diversion and renewal of the steam piping from the kitchen gateway to a more direct course, a result has been obtained which has been attended with good and economical results.

The American stoves, of which we have 12 in number, have been worked more satisfactorily.

The removal of the glass screen in the kitchen gateway, some 12 feet from the kitchen, has been found very advantageous to those employed in this part of the establishment.

By the conversion of the old Fire Engine shed into a vegetable cleaning house, we shall obtain the removal of those female patients who now perform this necessary work in the sculleries and kitchen gateway.

These alterations have been conducted by Mr. Sollitt, who has been very energetic in promoting economy in the administration of the Asylum, and is now engaged in making further efforts to improve the management of the kitchen department.

The operations on the Farm this year have been so far successful, that the Farm Revenue Account shows a profit of £574. 10s. 6d. upon the year, and I have been enabled to pay over £500. to the Household Account. The sales by auction every Saturday morning of vegetable produce have been very encouraging, and are beginning to excite a good deal of interest, not only amongst the frequenters of the market, but the public generally.

Two of the Commissioners in Lunacy visited the Asylum on the 25th and 26th of June last, and after examining all the patients, and inspecting various parts of the building, have left a report of favourable character.

I wish to acknowledge the valuable assistance afforded me by Mr. J. F. Dixon, who entered upon the duties of Assistant Medical Officer in June last.

I have the honour to be, Gentlemen,

Your obedient Servant,

JOHN BUCK.

## CHAPLAIN'S REPORT,

1874.

*To the Visitors of the Leicestershire and Rutland County  
Lunatic Asylum.*

GENTLEMEN,

I have the honour to Report that during the year 1874, the Chapel Services have been punctually performed at the customary hours, viz. : at 11 a.m. and 3 p.m. on Sundays, and at 8.45 a.m. on weekdays.

The average number of patients has been 421, of whom 62 per cent. continue, as during 1873, to attend Chapel more or less ; but the average attendance on Sundays has been greater by six, and the average on weekdays less by seven than in 1873.

The demeanour of the patients in Chapel, and the effects of Daily Service continue very good. Holy Communion has been celebrated four times for an average of 10 persons : and thanksgiving has been regularly offered in Chapel for those who have been discharged—in most cases at their personal request.

New hassocks and matting are required for the comfort of the congregation ; and a new altar cloth is desirable.

During my absence in August, the Sunday Services were performed for me by the Rev. G. E. Bruxner, Rector of Thurlaston, Canon Burfield and Rev. John Gregory, of St. Mark's, and the Rev. W. M. Jones, Curate of St. Mary's. These gentlemen have recorded their approval of the heartiness of the singing and responses, and the general behaviour of the congregation. I found on my return that their ministrations had given great pleasure, and done no little good to the patients ; and I now renew my sincere thanks for their kind assistance.

The wards have been visited regularly, and the intercourse with many of the patients has been of a very satisfactory character. Apathy and discontent is the normal condition of very many—but some are cheerful; and not a few patient, contented, and thankful, for the care and attention bestowed upon them.

There have been lately several severe cases of erysipelas, which, by desire of the Medical Superintendent, have not been visited by the Chaplain.

I have the honour to be, Gentlemen,

Your humble Servant,

CHAS. HENTON WOOD, B.A.,

*Chaplain.*

REPORT  
OF  
THE COMMISSIONERS IN LUNACY  
ON THE  
STATE OF THE ASYLUM  
AT THEIR LAST ANNUAL VISIT,  
JUNE 26th, 1874.

---

YESTERDAY we examined all the patients now under treatment in this Asylum, and inspected the rooms occupied by them, and the rest of the buildings, visiting also the detached wards in the grounds.

The inmates registered in the books as pauper patients are 387, consisting of 202 males and 185 females; there are besides, 18 men and 19 women belonging to the private class, all of whom, with very few exceptions, have been admitted in accordance with the terms of the Charitable Trust existing in connection with this Asylum. There is excellent accommodation for 50 such patients; we therefore trust, that as the advantages of this department of the Institution become more widely known, the benefits of the charity will extend to the full number. We also hope that No. 3 of the Rules made for administration of the Trust, pursuant to 10th clause of the scheme, may be liberally construed, so that no delay shall intervene in the early treatment of patients.

The admissions of 63 patients are recorded since our colleagues were here on the 6th November, 1873, comprising 30 in the male and 33 in the female division. Nine men and 18 women, together 27 persons, have been discharged; 7 of the former, 17 of the latter having previously recovered, and the register of deaths declares that 22 patients have died, 8 males and 14 females.

The rate of mortality has been very low, especially among the men. The causes of death were all such as are ordinary

in Asylums, and there has been no fatal casualty or sudden death. No Coroner's Inquest has been held. Post mortem examinations were made in 10 cases.

The weekly maintenance charge for paupers is 10s., the payments for private patients vary from 4s. to 21s. each per week.

The number of vacant beds in this Institution are 55, that is to say, 12 on the male and 43 on the female side.

The general health of the patients appears to be good, allowance being made for a certain number of inmates suffering from chronic incurable physical disease, as we passed through the wards we found 5 men and 6 women only in bed, and 8 males and 9 females are registered as under medical treatment.

In both divisions we noticed that each sex was quiet and orderly, and their clothing was suitable, and very generally clean and neat, with a few exceptions on the male side, and these were patients of faulty habits, all were in satisfactory personal condition. No person was in seclusion, this mode of treatment is, in fact, almost disused here. Since the last visit of the Commissioners in November, one patient only of each sex has been so treated, the man on two occasions, and for a total period of 12 hours, the woman thrice, and for 18 hours. Of restraint there has not been a single instance.

The dinner in the wards yesterday consisted of boiled bacon, peas, bread, and beer; the quality and quantity of the articles supplied were quite satisfactory, and the meal appeared to be generally liked by the patients. Some revision of the dietary has recently taken place, and that now in use seems to be liberal and suitable; the weekly allowance of cooked meat, free from bone, is 30 ounces, or thereabouts, for the men, and about 26 ounces for the women.

The fish dinner, in lieu of meat, continues to be given once in every fortnight, and is much appreciated.

The attendance at Divine Service in the Chapel on Sundays has been of late somewhat increased, and comprises about 116 males and 108 females.

The weekly and monthly Entertainments are kept up, and Dramatic Performances are frequent, but the dimensions of the Recreation Room must be insufficient to accommodate as many of the patients as would derive benefit from going thither. We concur in the opinion expressed by our colleagues at the last visit, that an excellent Recreation Room,

adequate to the wants of the Asylum, might be provided by uniting the present Amusement Hall and the Chapel, and we trust that their recommendation on this point may be ere long carried out by the Visitors. A detached Chapel being also erected for the patients on a convenient site.

The arrangements for out-door exercise are much the same as heretofore reported. Besides the usual walking parties, and the occasional large attendance of patients at public Athletic Sports, &c., given in a neighbouring field, we are glad to find that as many as 28 men and 4 women can be, and are trusted to walk unattended beyond the Asylum grounds, and that they do not abuse the privilege.

The records of employment furnish the following particulars :—

	MEN.		WOMEN.
Employed	58 on the land.		37 at needlework.
„	4 as shoemakers.		37 in laundry and washhouse.
„	3 as tailors.		2 in domestic duties.
„	19 in other shopwork.		24 ward cleaning.
„	3 in domestic offices.		
„	14 as ward cleaners.		
	<hr/> 101 <hr/>		<hr/> 100 <hr/>

The staff of attendants appears to be sufficient in numbers, but stronger in the female division than on the men's side.

The wards in the main and detached buildings when inspected by us were all very clean and comfortable, and well ventilated, and the bedding was in good condition, but under blankets are not as they should be in general use on the male side. Matting is now generally placed upon the stone floors, and strips of matting, or carpet, are at the bed sides throughout. A portion of the interior of the Asylum has been painted since our colleagues were here, and similar work is in progress.

The substitution of wood for stone floors in the end day room of No. 2 male ward would be so great an improvement, that we trust it will be no longer postponed.

For as many as 12 open fire places in the Asylum, American Stoves have been substituted, which certainly are not so cheerful, though they are said to effect a large saving in fuel.

We did not fail to visit the Workshops or Airing Courts.

We think that an Airing Court on the female side would be improved by the addition of another flower bed to be laid out where a mound formerly existed.

A change has taken place in the Medical Staff through the resignation in April last of Mr. Bowes, in consequence of impaired health, and the succession of Dr. John F. Dixon to the post of Assistant Medical Officer.

We have no hesitation in reporting that the Asylum itself shews in every department that it is wisely managed, and that the patients are under an able and kind-hearted Superintendent.

CHARLES PALMER PHILLIPS, } *Commissioners*  
JOHN D. CLEATON, } *in Lunacy.*
