OF THE

Committee of Visitors of the Three Counties Asylum.

---

*To Her Majesty's Justices of the Peace for the  
United Counties of Bedford, Hertford, and Hunt-  
ingdon, in Quarter Sessions assembled.*

---

The Committee of Visitors of the Three Counties Asylum beg to submit their Seventh Annual Report to the Quarter Sessions for the Counties of Bedford, Hertford, and Huntingdon. And they have much pleasure in again saying, that the state and condition of the Asylum, notwithstanding its crowded numbers, is highly satisfactory, the conduct of the Officers and Attendants cordially co-operating with each other, has done much to effect this, and merits the approval of the Committee.

The number of Patients at the date of their last Report was—

	Males.	Females.	Total.

Total	<u>5</u>

The mortality has been large during the past year, viz :—

Males .....	28
Females .....	46
Total	<u>74</u>

The per centage on the whole number being 11.6.

The immediate causes of Death were from the usual diseases of Paralysis, General Debility, and Epilepsy, but the proximate causes are the ages and bodily health of the Patients when sent to the Asylum, as will be seen by the following tables :—

At their first meeting in January the Committee appointed Mr. F. G. Butler, of St. Neots, Clerk to the Visitors, and confirmed Mr. Lester, of Bedford, in his office of Clerk to the Asylum, and the experience of the year confirms their good opinion of these Officers.

The Committee, in proof of their high opinion of the manner in which the Chaplain has fulfilled his duties, have increased his salary from £200 to £250 per annum.

Mr. Gray, the Assistant Medical Officer, having resigned at the end of his three months of probation, the Committee have appointed Mr. J. Coyte Bailey in his place, who entered on his duties last May, and has proved an efficient Officer.

The Committee, having decided that instead of always meeting on the fourth Monday in every month, they would hold their meetings on the Third Friday in every month, from November to March, inclusive, and on the Fourth Monday in every month from April to October, inclusive, have made the necessary alterations in the General Rules, and the Regulations and Orders to carry out this and the former Resolutions, as to the division of the offices of Clerk to the Visitors and Clerk to the Asylum.

On the 31st of August, two of the Commissioners in Lunacy visited the Asylum, and left the following entry.

THREE COUNTIES ASYLUM,

31st August, 1866.

Yesterday and to-day we have visited every part of this Asylum and seen all the patients. The numbers are 528, being in the male division 239, and in the female division 289, of which there are belonging to the County of Hertford 256, to that of Bedford 169, to that of Huntingdon 80, and to the Borough of Bedford 23. Not included in these numbers there are at present away 6 males and 3 female patients; the period of probation for all cases "on trial" being two months, the final discharge being conditional on perfect recovery, and during the whole time of absence a payment of three shillings and sixpence a week being considerably secured to each patient.

Since the Asylum was visited on the 16th of last November 108 patients have been admitted, 47 males and 61 females ; 46 have been discharged, 18 males and 28 females, all of whom had recovered except one male ; and 71 have died, 31 male and 40 females. Two had died suddenly in Epileptic fits, but inquests were not required, and the unfavourable character of a very large proportion of the cases received will be indicated by mention of the principal causes of death. There were 18 from Paralysis, 16 from General Debility, 15 from Epilepsy, and 12 from diseases of the lungs, this also accounts for the large mortality.

The prevalence of Patients of this class renders much more grave the inconvenience incident to the present crowded state of the Asylum, especially on the female side. The day room accommodation is small for even the ordinary complement of inmates, and with the existing excess in the wards of 23 (on the books there is an excess of 32) there are no means for a better distribution of the least favourable cases. We were not surprised therefore to find much noise and discomfort in 5 and 6 wards among the women, which in this respect, as well as in the aspect of the wards themselves, in matters of ornament and cheerfulness, contrasted strongly with the rest of the Asylum. The corresponding wards on the male side have similar defects, but on the whole the inmates were quiet and orderly ; and in both divisions the state of the clothing generally was good, every part of the building was in clean and proper condition, and the persons of the Patients of every class showed that for the most part they are fairly attended to.

In connection chiefly however with the 5 and 6 wards on both sides, we would press upon the Committee three considerations that seem to us urgent, even apart from the immediate necessity of making provision for additional numbers ; the first is, that on the female side there should be two more nurses, one for the infirmary, where now there are only two for 43 patients ; and one for the so-called Refractory Ward, where there are never more than three for 55 patients of the worst class, and to-day there were only two. The second is, that in both divisions these wards should be made more cheerful by more prints and other inexpensive matters of ornament or domestic furniture, above all by the provision of some indoor games of which at present there are literally none. The third and not the least important is, that the 5 and 6 Airing Courts on both sides should be planted and rendered less entirely unsuitable for their purpose than they now are, something indeed is done by proper and liberal arrangements for exercise in and beyond the Asylum grounds to correct the marked deficiency in this respect, but to a full two-thirds of the inmates of both sexes these arrangements cannot apply, and the need for exercising grounds less dull and depressing is very great.

Of the cleanliness and order of the dormitories throughout the Asylum, of the proper condition of the bedding without exception, and generally of the good ventilation we have to report most favourably ; but in a majority of instances where beds are now laid on the floor, low padded bedsteads might with advantage be substituted ; where the former are continued a second mattress should be placed underneath ; and too many straw beds are still used, there being on the men's side 47, and on the women's 32. The principal results of this will always be to abate the vigilance by lessening the trouble and responsibility of attendants, and in the same degree to leave uncorrected the objectionable habits of patients. Thus, notwithstanding the night watch in both divisions, there were reported last night, on the women's side, 13 wet and dirty cases, and on the men's 36.

Adverting to subjects remarked upon at the last visit, we have still to note an insufficiency in the number of papers and illustrated periodicals lying on the tables in the wards, and though we strongly approve of the practice of the Chaplain in selecting books and lending them himself to patients most likely to profit by them, we think that by putting small bookcases in each ward, and rendering the contents of the general library more readily accessible in turn to the inmates of each, the plan would be found to work more satisfactorily. Printed rules have now been placed in all the bath rooms, and we trust that as the water supply is abundant, directions will be given to change the water for each patient. As yet no arrangement is made for elementary instruction ; but the Chaplain has made considerable additions lately to his Bible and singing classes, and among other zealous services for the welfare of the inmates, we have great satisfaction in observing his successful establishment of a Sunday school for the Attendants' children.

The regular attendance at the Church services presents, we think, a rather small average of patients, numbering of both sexes at the morning service 146, and at the evening 98. Attempt should be made to increase this as far as practicable. The numbers employed appear about the same as formerly, including of the men 155, 60 of whom work on the farm and garden, 11 in the shops, and 84 in the wards or other offices, while of the women regularly occupied, 56 are in the laundries and kitchen, 47 at needlework, 2 at straw work, and 68 are ward helpers, making 173 altogether. It seems strange that in these counties more should not be regularly engaged in straw-plaiting ; but we are assured that many pursue it as a leisure occupation in the wards and it would be desirable to extend it to large numbers.

As to other matters of statutory enquiry, it is to be added that restraint is never employed here, and that the instances of seclusion since the last visit have extended over 36 patients ; the numbers under treatment to-day

are 12 males and 23 females, but the majority are for ordinary and slight disorders. Generally we observe deficiencies in the keeping of the medical and other records, but this is accounted for by late changes in the Assistant Medical Department, taxing too greatly the exertions of the Superintendent. Mr. Denne has now an Assistant, Mr. Bailey, who seems interested in his duties, and we are assured that immediate attention will be given to all arrears.

We ought not to have omitted to mention, speaking of the instances of seclusion, that the rooms employed for the purpose require better ventilation, and that the frequency of such instances here, in our opinion, arises mostly from the inadequacy of the exercising grounds.

To that indeed and the crowding of the wards, we attribute mainly the defects observable in this otherwise well-administered and ably-conducted Asylum, and in whatever mode it may seem right to the Committee to provide further accommodation, whether by additions to the main building that might provide also a Recreation Hall, now much wanted, or by detached cottage or farm buildings of a comparatively inexpensive kind, it has become clear that enlargement, in some form or other, cannot any longer be delayed.

JOHN FORSTER,	}	Commissioners in Lunacy.
JOHN D. CLEATON,		

On this Report the Committee would make a few observations.

The noise and discomfort amongst the Patients in Wards, No. 5 and 6, on the Female side were on that day exceptional, the reverse being generally the case, indeed no one can go through these—the worst wards—without being struck by their freedom from both noise and excitement; but these wards and those which correspond on the male side might be made more cheerful by additional prints, common pictures, and other inexpensive matters of ornament, any of which would be thankfully received should any Justice kindly present them to the Asylum.

The indoor games consist of cards, bagatelle, drafts, and dominoes, with dancing parties every other week, and theatricals at Christmas.

Out of doors there is cricket, and last summer athletic sports were tried one day with success. Besides which the Patients, both male and female, continue, weather permitting, to take walks into the surrounding country, and every patient that is fit to be taken is allowed to go.

The Committee have under consideration plans for making the airing courts for Nos. 5 and 6 wards on either side more cheerful, either by lowering the walls or planting shrubs.

The Lending Library has been again increased, it is entirely under the care of the Chaplain, who uses every exertion to distribute the books amongst the patients; a great addition has also been made to the number of the periodicals.

The attendance at Chapel has decreased, and this chiefly on the male side. The Chaplain says he can only account for this fact by the discharge or death of those who were regular attendants, and their places being filled up by others who are either not capable of attending, or who are not so religiously disposed. The average numbers who attend morning and evening services are—

	Males.	Females.	Total.
Patients .....	114	134	248
Attendants.....	12	12	24
Total	126	146	272

But the burden of the whole entry is the inadequate accommodation for the number of Patients, and the absolute necessity for the immediate enlargement of the Asylum, either by additions to the main building, or by the erection of detached cottages.

In their report of last year the Committee called the attention of the Courts of Quarter Sessions to the great increase in the number of Patients during that time, which was then causing them much anxiety. But has that number increased or decreased during the present year? The following table shows that it has not, for on the—

	Males.	Female.	Total.
1st January, 1866, the numbers were	242	286	528
„ February	237	283	520
„ March	234	290	524
„ April	232	283	515
„ May	231	283	514
„ June	231	285	516
„ July	235	283	518
„ August	235	286	521
„ September	239	288	527
„ October	240	283	523
„ November	242	287	529
„ December	238	284	522

The difference from month to month being very trifling, one month shewing a small increase, which is counter-balanced by a proportionate decrease in the next, so that the conclusion might be almost now come to, that the maximum number of Patients has been reached, and therefore the Committee do not feel justified at this present time in asking the several Courts of Quarter Sessions to incur the heavy expense of enlarging, by either plan, the

accommodation in the Asylum. They desire to await the issue of another year; but as a temporary arrangement they have reduced the numbers by sending, with the permission of Her Majesty's Secretary of State for the Home Department, twenty female patients to the Asylum at Fisherton, near Salisbury. The difference of the cost of maintenance there and that at the Asylum will be a charge upon the several counties, but by the following resolution, which was unanimously agreed to last year, and afterwards confirmed by the several Courts of Quarter Sessions—

That all Patients sent to the Asylum from Hertfordshire above 236, all Patients from Bedfordshire above 159, and all Patients from Huntingdonshire above 90, be deemed in excess, and that the rent for the additional accommodation be charged to each County accordingly, together with any other extra expense incurred, beyond what would have been incurred if the Patients had continued in this Asylum.

Those counties whose Patients are now in excess will have to pay their proportions accordingly.

The Rate of Maintenance during the year has been as follows :—

	s.	d.
First Quarter.....	8	6
Second „ .....	8	0
Third „ .....	8	0
Fourth „ .....	8	6

The main building of the Asylum, both within and without, is in excellent condition, but the Chaplain's House and some of the Cottages have required repairs.

The supply of water, which last year was reported to have been ample, has again failed, and the various means of improving it are now under the consideration of the Committee.

The Committee have again cause to be well satisfied with the profits shown by the accounts of the Farm and Garden, during the year ending 30th September last, which will be found in the Appendix.

The plan for distributing the Sewerage, works capitally.

In the Appendices will be found the usual Annual Abstract of Accounts, the Reports of the Resident Medical Superintendent, and of the Chaplain, with the usual Tables, &c., &c.

## REPORT

OF THE

## RESIDENT MEDICAL SUPERINTENDENT.

*To the Committee of Visitors of the Three Counties Asylum.*

THREE COUNTIES ASYLUM,  
February, 1867.

GENTLEMEN,

I beg to submit to you my Seventh Annual Report of this Asylum.

The number of Patients in the Asylum on the 31st of Dec., 1866, was 508—viz, 243 males and 265 females, besides which 7 were absent on trial, 5 males and 2 females.

The admissions during the year have been 134—viz, 59 males and 75 females, bringing the total number under treatment to 668; the average daily number resident being 520. The discharges during the same period amounted to 79—viz, 26 males and 53 females; of these 55 were recovered, 2 relieved, 20 sent to Fisherton House Asylum, and 2 to other Asylums not improved.

The deaths during the above period have been 74—viz, 28 males and 46 females, this great mortality has been occasioned in a great measure by the debilitated state in which many of the patients have been brought here.

The form of mental disease in those admitted, and the causes of death, will be found in the statistical tables, which have been this year considerably increased through the able assistance rendered by Mr. Bailey.

No Coroner's inquest has been holden this year.

Several casualties have occurred, some interest is attached to one in particular. A female patient, S. H., who was labouring under a delusion that the devil had possession of her, and that it was necessary for her to be buried alive, in order to escape from him. With the impression that no one in the Asylum would help her to accomplish this, she squeezed herself through a window of the corridor where she was sleeping, the size of the opening being  $7\frac{1}{4}$  inches by 16 inches (the window opening upon a central pivot), she fell to the ground—a distance of 20 feet 9 inches—and sustained a fracture of the left humerus and femur. She made a good recovery. With regard to the other accidents, they were of an ordinary character and require no special comment.

Two patients, a male and a female, made their escape, they were both however brought back within the prescribed time.

Notwithstanding that an epidemic of Typhus Fever raged with severity for some time in the adjacent villages, it did not affect any of the patients; one attendant was laid up with it, but remained at home with his friends until his perfect recovery. The general health of the patients has been very satisfactory.

The entertainments for the patients have been more numerous than in past years. Amateur theatricals were given by the New Stagers Club both in January and again at Christmas, on both occasions being well received, not only by the patients, but by some visitors who were present. Three concerts have also been given, one of which was principally composed of negro melodies given in character, in all of which the patients were greatly interested. During the summer, there has been cricket and some athletic sports, as well as dancing parties on the cricket field.

Dances have also been held fortnightly during the winter months as heretofore.

The Commissioners in Lunacy visited the Asylum on the 30th and 31st of August.

In the appointment of Mr. J. Coyte Bailey as Assistant Medical Officer, I have an active, intelligent, and careful gentleman.

My thanks are due to the Officers, for their continued co-operation in the performance of my various duties.

With renewed thanks for the many kind favours received at your hands,

I have the honor to be

Your obedient faithful Servant,

WM. DENNE.

APPENDIX  
[B]REPORT OF THE CHAPLAIN.  

---

*To the Committee of Visitors of the Three Counties Asylum.*

GENTLEMEN,

In presenting to you my seventh Annual Report, I would beg to call your attention in the first place to Table 1, annexed thereto, which shews that the average attendance of Patients at the Sunday services has been 114 males and 134 females, making a total of 248; and of attendants 12 males and 12 females, making a total of 24. Besides these there has been a most regular attendance of all the Officers; and I have been pleased to observe a considerable increase this year in the numbers of Attendants' families and others connected with the Asylum at our services. I mentioned in my last report the formation of a choir amongst the Attendants, and the introduction of a small Harmonium, for the better conducting of Divine Service. This arrangement is still continued; but as that Harmonium was found too small for our purpose, a much larger one was substituted for it, by order of the Committee, in October. Singing practices, as a preparation for the Sunday services, continue to be held twice a week, once for the choir alone, and once for the patients and choir conjointly. Besides the regular services on Sundays and week days, I must be permitted to mention the special service which was held on March 9th, the day appointed by the Bishop of the Diocese on account of the Cattle Plague. The day was observed strictly; there being, through the arrangement of the Medical Superintendent, an entire suspension of work, and thus an opportunity was afforded to all the Patients to be present at chapel. The services were the same as on Sunday, and were well attended.

Table 2 shews an increase this year of 29 Patients attending my Bible class, in addition to those whose names have been entered in my book. It continues to be held once a week, and the average attendance throughout the year has been 15 males and 19 females, making a total of 34.

In Table 3 a return has been made of the number of Lending Library books distributed since my last report, and shews the average distribution of 302 volumes per month ; the total number that was distributed throughout the year being 3621. This is the largest number that I have as yet returned. Notwithstanding this free distribution, the books are kept in a very fair condition by being frequently re-covered and repaired. Deducting the losses, which average ten volumes yearly, there are 927 volumes in the library. A great addition has been made this year to the papers and periodicals, which are taken in for the amusement of the Patients. These are placed in the wards for their use indiscriminately.

Table 4 contains a return of the attendance at the Holy Communion. There have been seven celebrations during the year, and these have been fairly attended considering the diminution in numbers of the regular communicants, of whom eight Patient have been discharged and three have died since my last report. The highest number which communicated at one time was 42, of whom 18 were Patients. At the other celebrations there were present 29, 30, 34, 27, 36, 37 respectively. The new communicants have numbered 12 this year, of whom nine are Patients.

In the cases of private visitation, that have come under my especial notice, there has been the usual amount of interest and satisfaction. The notes in my Journal shew that my visits have been blessed for good to many, and have been permitted to be a help and comfort to them. The short service that I hold in the Infirmary once a week, is much appreciated by those who are too feeble to leave their ward to attend chapel. By order of the Committee at their meeting in June,

I was instructed to furnish discharged Patients with a Bible or Prayer Book, whichever they might prefer. I have accordingly, since then, presented them with the book they wished, writing in it their names, and stating that it was given to them by the Committee of Visitors in remembrance of their discharge: and I have taken the opportunity of urging upon them at the same time the duty of publicly returning thanks for their recovery, in their own parish church, on their return home.

There have been 53 burials in the Cemetery during the year. Friends of the deceased have been more often present than usual, and many have been much gratified to see with how much quietude and solemnity the funerals are conducted. In Advent and Lent the usual services have taken place at eight o'clock every Wednesday evening, without interruption, for the officers, attendants, and others connected with the Asylum. The Glee Singing Class has been revived this year, and by its help we have been enabled to give two concerts, which seem to have afforded the Patients much pleasure.

The school for the attendants' children is continued every Sunday afternoon. The number of names on the books of those attending during the year is 38; but this number has been lessened, in consequence of some of the attendants leaving, so that at the close of the year we numbered only 30 children. They are very regular in their attendance at school, and are present at certainly one and some of them at both of the services in chapel.

Trusting that this report may meet with your approval, and thanking you for your kind appreciation of my endeavour to fulfil the duties committed to me,

I have the honor to remain,

Gentlemen,

Your faithful servant,

JAMES ACTON BUTT,

Chaplain.
