KING EDWARD'S SCHOOLS

REPORT OF THE BOARD OF SUPERVISORS
FOR THE YEAR ENDING 31st DECEMBER 1863

CHAPLIN'S REPORT, 1863.

To His Majesty the King
The President of the Board of Education
The Secretary of the Board of Education
The Treasurer of the Board of Education
The Board of Education

I have the honor to acknowledge the receipt of your report on the progress of King Edward's Schools for the year ending 31st December 1863, and to thank you for the information it contains.

The report shows that the schools have been conducted in a most efficient manner, and that the pupils have made great progress in their studies. The expenditure for the year has been within the limits of the grant, and the accounts are found to be correct. I am glad to hear that the schools are well attended, and that the teachers are well qualified. I have no objection to the report, and I am sure that the King and the Board of Education will be pleased with the results.

KING EDWARD'S SCHOOLS.

CHAPLAIN'S REPORT, 1863.

To the Right Worshipful the PRESIDENT,
the Worshipful the TREASURER, and the
GOVERNORS of King Edward's Schools.

MY LORDS AND GENTLEMEN,

I have the honour to present to you my Report on the state and progress of King Edward's Schools for the year 1863.

During that year, there were

Admitted.			Discharged.		
Boys	83	Boys	84
Girls	57	Girls	52
		---			---
Total	140	Total	136

There were remaining in the School on the 31st of

December last, 100 Boys and 99 Girls, making a total of 199 inmates.

Of the number admitted during the year, 3 boys only, and no girls, had been brought before the Magistrates for theft, vagrancy, or other minor offence;—a circumstance upon which I sincerely congratulate you.

The Sub-Committee of Governors, who meet at the School on the second and fourth Friday in every month for the purpose of admitting candidates, have exercised the greatest care that none but the most destitute cases shall partake of the benefits of your noble Institution; and, as a rule, they have refused to admit any but fatherless children.

No case sent from the City has been rejected; and the Scheme for the Regulation of the Charity has been carried out most strictly, both in the letter and the spirit.

I feel it necessary to call your attention to the extreme youth of most of the applicants for admission, because it has an important bearing upon the number discharged to situations during the last two years, as well as upon the number of former inmates who in 1863 presented themselves for rewards for good conduct; in both of which, it will be seen by a reference to the Tabular Statements in former Reports, there has been a decrease. When I became your Chaplain, eight years ago, the average age of Candidates for admission was 14 and 15 years. Of the 83 boys admitted last

year, 31 were under 13 years of age ; and of the 57 girls admitted, 35—more, that is, than one-half were under 13. Most of these had, indeed, only exceeded the age of 12 by a few weeks, and 2 boys and 3 girls were under 12. This circumstance affects rather inconveniently the Industrial Employment of the inmates. I have had some difficulty in keeping the Boys' Trades Classes at their usual strength ; and it will be readily understood that there are many parts of household and laundry work in which it is scarcely possible, nor indeed safe, to employ little girls of tender age. I am unable to account for the fact to which I have alluded, except by supposing either that children now obtain employment more readily than was formerly the case, or that the multiplication within the last few years of Reformatory and other Charity Schools in the Metropolis and its neighbourhood, has visibly diminished the calls upon our own Institution. In either case, the subject, it must be admitted, is one for congratulation rather than the reverse.

I am happy to Report that the conduct of the inmates during the last year has been excellent. Punishment is almost unknown amongst them ; and their frank demeanour and cheerful appearance would assure any visitor that they possess in the School a happy home.

We have lost two children by death ; but, upon the whole, the health of the inmates has been remarkably good ; and we have again been mercifully spared from the visitation of any epidemic disease.

The boys who have left us during the year have been disposed of as follows :

Outfitted to the Royal Navy	55
To Situations in Trades.....	13
Removed by their Friends.....	7
Absconded	4
Sent Home ill	4
Died.....	1
	—
Total.....	84

I continue to receive the most satisfactory accounts of the conduct of our boys who have joined the Royal Navy. During the last eight years I have placed no less than 503 boys in that most desirable service, and I am able to state positively that considerably more than 400 of them are still serving their Queen and Country, to the entire satisfaction of their commanding officers. At Christmas, we invited all of our boys who were on leave of absence from the training ships to spend an evening at the Schools, and gave them a magic lantern entertainment and a supper. A considerable number attended, and seemed thoroughly to enjoy the opportunity of renewing their acquaintance with their masters and schoolfellows.

Fifty-two girls have left the Institution during the year. They have been disposed of as follows :—

Outfitted and sent to Situations	39
Removed by Friends	8
Absconded	2
Sent Home ill	2
Died.....	1
	—
Total.....	52

I regret that I should have to report that 4 boys and 2 girls have absconded. This is an event of most unusual occurrence. Three of the boys, however, and both the girls, returned at once to their friends: the other boy has, I am afraid, fallen into evil courses.

On the 31st of July, the Schools were examined by H. M. Inspector, in the presence of the President and some of the Governors. I insert the official report.

“ I have this day examined the Children in King Edward's Schools. They are intelligently iustructed, and passed a very fair examination, considering the unfortunate circumstances in which they have mostly passed their previous lives. The Establishment appears in excellent order throughout.

“ (Signed),

E. CARLETON TUFNELL,

“ H. M. Inspector of Schools.”

146 boys, and 41 girls, formerly inmates of the Schools, attended before the Committee during the year, with certificates of good conduct from their employers, and received the customary reward of £1. each. Of these, 63 boys and 25 girls were rewarded for the first time; 61 boys and 9 girls for the second time; and 22 boys and 7 girls for the third and last time.

I trust that this Report will not seem to you to be less favourable than those which I have presented in former years. With the exception of the few instances in

which the benefits of the Institution were wilfully renounced, I am not aware that there is any circumstance to mar the pleasing retrospect of the year that has just passed away.

I have only to add my best thanks for the courtesy and kindness I have experienced from yourselves, and to subscribe myself,

My Lords and Gentlemen,

Your obedient Servant,

EDWARD RUDGE,
Chaplain and Superintendent.

KING EDWARD'S SCHOOLS.

No. 10.

DAILY OCCUPATION OF THE INMATES.

Hours of Rising.

Six o'clock in the summer months, and not later than 7 o'clock in the winter months.

After private prayer in each dormitory, washing, dressing, &c.

On Week-days.

Until 8 o'clock.—The Trades-boys to be employed at their Trade, and the School-boys in making the beds, and sweeping and cleaning the dormitories and other apartments on the male side. The girls selected for employment in the Laundry and Kitchen, and in Household Work to be engaged in their particular occupations, and the rest in making beds and sweeping and cleaning the dormitories and other apartments on the female side.

From 8 to 9 o'clock.— Prayers, breakfast and recreation.

From 9 to 1 o'clock (except Saturdays)—Trades-boys at their trades from 9 to 12, and in School from 12 to 1, except three boys employed as bakers, who shall attend School two hours every afternoon.

School-boys in school from 9 to $\frac{1}{4}$ before 12 o'clock, and in occupation from 12 to 1 under the Arts-masters, as the Superintendent shall direct.

Girls selected for particular employments to be at their respective occupations from 9 to 1 o'clock, as the Matron shall direct; and on alternate days at school during the same hours.

From 1 to 2 o'clock—Dinner and recreation.

From 2 to 6 o'clock (except Saturday)—Trades-boys at their trades. School-boys at school from 2 till 5 o'clock, and from 5 till 6 o'clock in occupation, as the Superintendent shall direct.

Girls selected for particular employments to be at their respective occupations, and the rest at needlework, from half-past 2 till 5 o'clock, and in occupation from 5 till 6 o'clock, as the Matron shall direct.

From 6 to 7 $\frac{3}{4}$ o'clock—Supper and recreation.

From 7 $\frac{3}{4}$ to 8 o'clock—Prayer.

8 o'clock—Bed-time.

On Saturdays.

No school to be kept, either in the morning or afternoon, and no Trades-boys to be required to work at their trades after 12 o'clock. The inmates on this day to be engaged in cleaning the establishment, assorting and distributing clean linen, using the bath, and in such other occupations as the Superintendent and Matron shall respectively direct. The recreation of the inmates to be, when the weather will permit, in the airing-grounds, and at other times in the day-rooms, which are to be provided with suitable books for amusement and instruction.

On Sundays.

Until 8 o'clock—The inmates to be occupied in *making beds, changing linen, and delivering up all that is dirty*, and preparing for the proper spending of the day.

From 8 to 10 o'clock—Breakfast and walking in the airing-grounds, when the weather will permit.

From 10 to 11 o'clock—In school-rooms, reading the Lessons for the day, repeating Catechism, and answering questions on scriptural subjects.

From 11 to 1 o'clock—In Chapel for Morning Service and Sermon.

1 o'clock—Dinner.

1½ to 3½ o'clock—In the day-rooms and airing-courts.

3½ o'clock—Afternoon Service in Chapel and Sermon.

7 o'clock—Supper.

8 o'clock—Bed-time.

BETHLEM HOSPITAL

REPORT

Presented to the Right Worshipful the President, the
Worshipful the Treasurers, and the
Governors of the Royal Hospital of
Bethlem.

My Lords and Gentlemen,

I have the honour to present you with the Report of
the Hospital for the year 1863, and also with the Statist-
ical Tables according to the usual form.

During the year, one hundred and sixty-seven patients
were admitted on the Curable Establishment, and eight
into the Criminal Department, pursuant to their respec-
tive warrants. On the 1st of January, 1864, there were
remaining in the Hospital, three hundred and twenty-nine
patients, classified thus:—

Total	Females	Males
144	84	60
88	34	54
112	1	111
—	—	—
344	119	225

BETHLEM HOSPITAL.

REPORT.

To the Right Worshipful the PRESIDENT, the
Worshipful the TREASURER, and the
GOVERNORS of the Royal Hospital of
Bethlem.

MY LORDS AND GENTLEMEN,

I have the honour to present you with the Report of this Hospital for the year 1863, and also with the Statistical Tables according to the usual form.

During the year, one hundred and sixty-seven patients were admitted on the Curable Establishment, and eight into the Criminal Department, pursuant to their respective warrants. On the 1st of January, 1864, there were remaining in the Hospital, three hundred and twenty-five patients, classified thus :—

	Males.	Females.	Total.
Curable	60	84	144
Incurable	34	34	68
Criminal	112	1	113
	<hr/>	<hr/>	<hr/>
	206	119	325

The hundred and seventy-five patients admitted were as follows :—

	Males.	Females.	Total.
Curable	64	103	167
Criminal	8	0	8
	<hr/>	<hr/>	<hr/>
	72	103	175

Of the hundred and forty-four Curable patients discharged, there were :—

	Males.	Females.	Total.
Cured	36	56	92
Uncured	19	25	44
Special reasons	1	7	8
	<hr/>	<hr/>	<hr/>
	56	88	144

There were also removed, by order of the Secretary of State, three male criminals. With one exception the whole of the female criminals were removed, in May last, to the new Criminal Lunatic Asylum at Broadmoor, and the Government building formerly occupied by them is now out of use. It is anticipated that warrants will soon be received for the removal of about eighty male criminal lunatics. The one female patient who still remains in the Hospital was retained by the Secretary of State, on the recommendation of the Committee, in consequence of her being blind and aged.

The nineteen patients who died were :—

	Males.	Females.	Total.
Curable	5	7	12
Incurable	1	1	2
Criminal	5	0	5
	<hr/>	<hr/>	<hr/>
	11	8	19

Two patients were discharged in consequence of no account having been given of them by their friends after they had left the Hospital on leave of absence for a month; and it may be stated, that in both cases applications were again and again made for a report of their health, so that they might, if recovered, have been eligible for re-admission in case of a relapse; but these requests were entirely disregarded.

Four of the patients discharged for special reasons were removed by their friends, judiciously, with the hope that a change might prove conducive to their recovery; and three were removed contrary to the strongest advice of the Committee and Medical Officers.

A tragic result occurred in the case of one female, who had been resident in the Hospital twelve months, and was removed by her friends, who were quite aware of her suicidal disposition, and appeared in a position to afford her all necessary protection. For two months before leaving she had improved very much, both in her mental and bodily health, and the Committee felt justified in allowing her to go to her home for a month's leave of absence. About three weeks after she left, she committed suicide by taking a large dose of the essential oil of almonds, carelessly supplied to her by a chemist in the neighbourhood.

It is a subject of the greatest congratulation and thankfulness, that another year has passed without any casualty or accident of the slightest importance having occurred to any of the patients within the Establishment,

and that there has been no attempt at suicide. This immunity from disaster may mainly be attributed to the care and vigilance of the attendants in charge of the several wards.

It is worthy of remark, that the class of patients treated in the Hospital are peculiarly objects of anxiety, since, of the number of patients admitted during the year, eighty were reported, by the medical men who signed the certificates for their admission, to be suicidal. (Vide Table XV.)

By reference to Table No. XIX. it will be noticed, that a considerable number of the patients reported to have died during the year were very advanced in years, and that ten died of diseases totally unconnected with mental derangement. Four cases of death from acute mental disorder occurred within a very few days of their admission,—the patients being in such an exhausted condition when brought to the Hospital, consequent upon the excitement under which they had been suffering, that little or no hope of their recovery was entertained from the first,—and they were really received because it was feared that the fatigue of a further journey, even for a short distance, might immediately prove fatal.

Although cases of general paralysis are ineligible for admission according to the Rules of the Hospital, three cases are reported to have died from that disease during the year. The symptoms at the time of their reception were so masked, that a doubt existed as to whether they were suffering from that form of disorder; and it has

always been the expressed wish of the Committee of the Hospital, that, where there is the least doubt on the matter, the applicant should have the benefit of it, and they were consequently admitted. At the present time there are several inmates suffering from this disease, whose recovery is hopeless, but who will have the advantage of remaining the full term of residence allowed to curable patients.

It cannot be too strongly impressed upon every mind how much a favourable result in the treatment of the insane depends on early and judicious management: this can rarely be obtained to its full extent except in an Institution specially adapted for the purpose. Though this advice is continually urged by all the Superintendents of the various Asylums in the Country, yet it is painfully manifest what an indisposition exists in the friends of patients to realise the truth of the fact, that by permitting delay the prospects of recovery are greatly diminished, and very often rendered hopeless. This loss of opportunity for treatment, at the most important stage of disease, can only be accounted for by supposing that a false notion exists, that by becoming an inmate of an Asylum a person incurs an ineradicable social stain.

It may be worthy of mention, that many eligible cases are annually admitted into this Hospital by the power vested in the Commissioners in Lunacy to order a transfer of an insane person from one Asylum to another, when they may deem such a removal expedient; and it is frequently the case that these persons come from private Asylums, their friends having ceased to be in a

position to defray the cost of their further maintenance. It so happens that in these cases, as a rule, the disease has existed for a considerable period, and has assumed a chronic character, and recovery is very rare.

Through the liberality of the Governors a number of patients of both sexes have again had the privilege of spending several weeks at the seaside, accompanied by trustworthy attendants. The advantages they derived from the change of air and scene were considerable; and no single circumstance occurred to cause regret that such indulgence had been granted. Although their enjoyment whilst absent was very great, yet, on the expiration of their holiday, they all appeared delighted to return to their old home in Bethlem.

In addition to these special indulgences, numerous opportunities have been afforded of visiting places of public amusement, both scientific and otherwise,—Exhibitions, the Crystal Palace, Cattle Show, &c.,—the situation of the Hospital having afforded facilities for such purposes. The following extract from the Report of the Commissioners in Lunacy, on their late visit to the Hospital, shews the extent of liberty which has been afforded during the last twelve months:—

“ We are informed that, of the whole number of inmates, eighty-eight are allowed to take exercise beyond the precincts of the Hospital, and passes enabling patients to enjoy this privilege were granted on 1,311 occasions.”

Very few changes have been made amongst the at-

tendants during the year,—the most satisfactory proof that could be given of the way in which they have performed their respective duties, and that the confidence reposed in them has not been abused. One of the few changes was caused by the resignation of an attendant in consequence of failing health, who had been a servant of the Hospital for twenty-eight years. The Governors have kindly recognised her long and faithful services by granting her a retiring annuity.

The President and other Governors and friends have, during the last year, most liberally presented the Hospital with really valuable works of art, prints, books, and articles of amusement. The interest thus shown in the welfare of the inmates cannot but tend to increase the kindly feeling which naturally arises between the recipients of a bounty and the donors, and in many instances may have the effect of re-awakening, in minds dulled by disease, a sense of gratitude, and so eventually lead to complete mental restoration.

In addition to the usual evening amusements, such as balls and other social gatherings, we have been frequently favoured with readings from the poets and comic writers, by a gentleman who kindly volunteered his services. These readings have been much enjoyed, and highly appreciated by large audiences, as was evident by the hearty applause with which the Reader has been greeted whenever he appeared.

A beneficial change has been made during the past year by our Chaplain, in the performance of Divine

Service in the Chapel. He has instituted a Weekly Class to practice Church Singing, and has been able to introduce Chanting with great success in our Sunday Services. The patients join very heartily in the responses, and seem to appreciate the alteration.

In conclusion, I feel very deeply how much my own duties have been lightened by the kind assistance and co-operation of all my brother officers; and I am sure the Governors will be gratified, that the same good feeling which has marked our association for so many years past, still exists.

To the Committee my thanks are especially due for their liberality and consideration in adopting any suggestion I may have made, and helping me in every difficulty.

I desire to assure the Governors that I shall continue to use my best energies to the advantage of the patients under my care, and for the maintenance of the credit of this Royal Hospital.

I have the honour to be,

My Lords and Gentlemen,

Your very obedient and obliged Servant,

W. HELPS, M.D.

January 22nd, 1864.

No. 2.

AVERAGE NUMBER OF PATIENTS in the HOSPITAL, attending Chapel, and under restraint, during the last Twenty-three years.

During the Year.	Number of Patients.	Sunday Chapel Attendance.	Weekly average of Patients under restraint.
1841	341	80½, or 23.60 per cent.	9, or 2.64 per cent.
1842	369	139, or 37.66 per cent.	3, or 0.81 per cent.
1843	367	181, or 49.31 per cent.	3, or 0.81 per cent.
1844	359	164*, or 46.45 per cent.	1½, or 0.33 per cent.
1845	403	†	$\frac{2}{3}$, or 0.17 per cent.
1846	395		1½, or .06 per cent.
1847	392	147, or 37.50 per cent.	$\frac{1}{4}$, or .05 per cent.
1848	399	138, or 34.58 per cent.	$\frac{73}{385}$, or 0.5 per cent.
1849	406	138, or 33.9 per cent.	$\frac{63}{385}$, or .04 per cent.
1850	391	147, or 37.59 per cent.	$\frac{37}{385}$, or 0.25 per cent.
1851	388	133, or 34.28 per cent.	None.
1852	374	132, or 35.56 per cent.	None.
1853	343	141, or 41.1 per cent.	None.
1854	311	159, or 51.1 per cent.	None.
1855	334	170, or 51.50 per cent.	None.
1856	340	179, or 52.64 per cent.	None.
1857	321	171, or 53.27 per cent.	None.
1858	354	192, or 54.23 per cent.	None.
1859	353	195, or 55.21 per cent.	None.
1860	341	194, or 56.86 per cent.	None.
1861	344	192, or 55.80 per cent.	None.
1862	327	180, or 55.04 per cent.	None.
1863	333	177, or 53.15 per cent.	None.

AVERAGE DAILY NUMBER OF PERSONS EMPLOYED.

Males	153
Females	82

 235

* To 30th June, when the enlargement of the Chapel was begun.

† Partially suspended during the enlargement of the Chapel.

No. 3.

TOTAL NUMBER OF CURABLE PATIENTS admitted into BETHLEM HOSPITAL during One Hundred Years, ending the 31st December, 1863, with the amount of Cures and Deaths.

Total number of Patients admitted	19,567.
Discharged cured	8,641 or 44.16 per cent.
Died	1,377 or 7.03 per cent.

The Hospital is repaid by Government, on account of Criminal Lunatics, the wages of ten male attendants, with an allowance of £35. per annum each for maintenance and clothing.

The wages of male attendants commence at £25. per annum, and they increase, if their conduct be satisfactory, £1. yearly afterwards, until they become £35. per annum, after which no further increase is allowed ; Attendants in charge of a Ward are allowed £5. per annum extra. Female attendants commence at any amount not exceeding £18. per annum, and after they increase with like restriction £1. yearly, until they become £25. per annum, after which no further increase is allowed. The wages of male attendants were permitted, previous to the year 1841, to increase to £60. per annum.
