Bucks (to wit.)—*To Her Majesty's Justices of the Peace assembled at the GENERAL QUARTER SESSION OF THE PEACE to be holden at AYLESBURY, on MONDAY, the 4th day of JANUARY, 1858.*

THE REPORT

OF

THE COMMITTEE OF VISITORS APPOINTED FOR THE
PURPOSES OF THE LUNATIC ASYLUM AT STONE,
FOR THE PAUPER LUNATICS OF THE COUNTY.

UNDER THE STATUTE 16TH & 17TH VICTORIA, CAP. 97, SEC. 62.

SHEWETH,—That the conduct of the Asylum under the new Superintendent, Mr. Humphry, has, during the past year, been highly satisfactory; his powers of organization and general system of management have fully borne out the high character which your Committee received of him, and have thoroughly justified them in the confidence which they expressed in their last Annual Report, that he would fulfil their most sanguine anticipations.

The change of Superintendent has, of necessity, caused a change of the whole number of Male Attendants, with the exception of one; and of the Female Attendants, with the exception of two.

Your Committee have also found it necessary, during the past year, to appoint a new Matron in the room of Miss Nicholls, and Mrs. Caroline Thompson, late of No. 4, Stewart's Grove, Chelsea, widow, now holds the Office of Matron, discharging her general duties to the satisfaction of the Visitors.

Your Committee have also, during the past year, framed an amended code of General Rules, which have been approved by the Secretary of State, and also of Regulations for the Attendants and Servants, which have proved practically a great improvement upon those formerly in force.

On the 8th of March last, during a high wind, the Chimney of the Laundry was blown down, and did very considerable damage to the Roof; this accident occurring on a Sunday was fortunately unattended by any injury to the Patients or Servants of the Institution. The Chimney has been rebuilt double its previous thickness, which will, it is hoped, prevent the recurrence of a similar disaster.

As regards the all-important question of the Supply of Water, your Committee have the greatest satisfaction in stating that the Land recently purchased from Dr. Lee, called the "Willow Spring," has yielded a most abundant supply during the past Summer, one, it is to be observed, of unprecedented dryness, whence, notwithstanding the heavy rains which fell during the Autumn, the water in the deep well has subsided completely to its former level; in the absence, therefore, of the present supply, the Asylum would have been almost without Water during several Months of the past season; but, ample proof has now been realized that far more than a sufficient supply for all the wants of the Asylum, exclusively from this source alone, may, with the utmost confidence, be relied on. By the purchase of a horse the regularity of the supply of Water to the Asylum, and various buildings, is now assured, and since its purchase it has upon an average pumped 5,626 gallons per day; if employed for 6 hours in a day (which is a full day's work) it is capable of throwing 6,000 gallons; the horse, however, also performs other work in the service of the Asylum, and this has been found an economical arrangement.

The Committee, in compliance with the suggestions of the Commissioners in Lunacy, contained in the Minute of their visit, dated the 24th November, 1856, have notified their readiness to receive a limited number of Male Patients from other Counties, requiring this accommodation; but, the admission of such Patients has not been very extensively resorted to, and the description of Patients which have hitherto been sent have proved, for the most part, anything but desirable.

During the past year the Committee have caused additional buildings to be erected on the ground adjacent to the Stable, for the purpose of keeping a larger stock of Pigs, with the view to the consumption of the green and other crops grown on the Land, and for the supply of an increased quantity of Manure, all of which is turned to a profitable account, and the Manure, especially, is much needed on all parts of the Land.

Your Committee append a copy of the Minute made by the Commissioners in Lunacy, at their recent visit on the 6th of Nov. last, unfortunately at a time when the Medical Superintendent was temporarily absent on leave; it would have been a great satisfaction to him to have attended them in their survey of the various portions of the Institution;—the present body of Visitors, however, at this late period of their official year, think it most proper to leave to the future consideration of those who may succeed them the changes and alterations suggested in the Minute of the Commissioners in Lunacy.

The final Audit of the Year's Accounts is required by the 60th sect. of the Statute to be made previously to the month of March in each Year. In the Appendix No. 1 will be found a list of the Officers, Attendants, and Servants of the Establishment; in the Appendix No. 2 will be found an Abstract of the Capital Account, showing the application of the Monies raised for the purpose of building and fitting up the Asylum to the present time; in the Appendix No. 3 will be found an Abstract of the County Treasurer's Account, as to the Payment of Instalments of the Principal Monies and of the Interest thereof; in the Appendix No. 4 a statement of the "Building and Repairs Account;" and in the Appendix No. 5 a General Statement and Balance Sheet of the Maintenance Account.

The weekly cost of maintenance chargeable upon the parishes during the four quarters of the past year, has been respectively 11s., 10s. 6d., 10s., and 10s. 6d., as disclosed by the table on the next page, which will be considered satisfactory as shewing a gradual reduction in the rate of maintenance.

It is now the province of the Court of Quarter Session to appoint the Committee of Visitors for the ensuing Year, pursuant to the Statute 16th and 17th Vict., cap. 97, sec. 62, and your Committee notify to the Court that the following Justices have signified their desire not to be re-appointed Members of the Committee for the ensuing Year, viz.:—Charles Thomas Gaskell, Esq., William Pennington, Esq., the Rev. John Harrison, and the Rev. Richard Townsend.

(Signed)

THOS. RAYMOND BARKER,
Chairman.

TABLE SHEWING THE COST OF MAINTENANCE.

Column 1 contains the Cost of the Provisions consumed by the Patients.

2 the Cost of the Fuel and other Necessaries.

3 the Cost of Clothing, Utensils, Surgery, Garden, and Miscellaneous Articles, after deducting the Receipts of the Establishment.

4 the Amount of Salaries of Officers and Servants, and Cost of Provisions consumed by them.

* The single escape is the same Patient (since the 10th Sept., 1854).

The admission of fourteen Private Patients, and the discharge of eight and the death of two of them, since the opening of the Asylum, are included in the above Table.

MEDICAL SUPERINTENDENT'S REPORT.

TO THE COMMITTEE OF VISITORS OF THE PAUPER LUNATIC ASYLUM
FOR THE COUNTY OF BUCKINGHAM.

GENTLEMEN,

I beg to lay before you a Report of the condition of this Asylum during the Year ending December 19th, 1857.

On the 20th December, 1856, there were 194 Resident Patients—79 men and 115 women; and, during the past year 88 persons have been admitted—of whom 52 were men and 36 women—making the total number under treatment 282.

Of the 88 admitted 5 men and 2 women were received as Private Patients. Twenty-nine have had previous attacks, varying in number from 1 to 9; six of the 29 having been in this Asylum before, including one man who had been both discharged and re-admitted during the year.

Many of the Patients were, at the time of being admitted, in a feeble state of health, two men sinking from Acute Mania, the one in 9 the other in 13 days after their admission.

No fewer than 26 persons, or one-third of the total number received, had either meditated or attempted suicide.

The causes of the attack, were, in many cases, not ascertained, but in 7 the insanity was supposed to arise from intemperance, in 4 from anxiety about business, in 3 from fright, in 3 from exposure to sun, in 3 from blows on the head, and in 2 others from grief. Thirteen men and twelve women had at some period of time relatives who were insane.

Thirty-four persons were discharged recovered, being at the rate of 38.63 per cent. on the admissions, or 17 per cent. on the average daily number resident. Eight Patients were removed by their friends, having improved, and 4 women have been sent to other Asylums.

Sixteen men and six women have died during the past year, the ratio of mortality being 7.80 per cent. on the total number under treatment. Among the deaths 5 were from Pneumonia, occurring in old people, and 5 from General Paralysis.

Two women have had their collar-bones fractured, one from a fall when in a fit, the other from being suddenly thrust against the wall by another Patient.

The sanitary condition of the Patients, during the past year, has been good; there were, however, late in the Autumn, a few cases of Diarrhœa and 2 of Dysentery, one of which proved fatal in a woman, who, having resolutely determined to destroy herself by starvation, I was obliged to feed compulsorily.

A careful inspection of the Patients, made at the close of the year, has shewn that there is reasonable hope of recovery in only 13 of the 212 persons then resident in the Asylum.

Several attempts to escape have been made, but in no instance were they permanently successful.

The employment and recreation of the Patients have varied according to circumstances. During the Summer the men have enjoyed various out-door games, such as cricket, foot-ball, quoits, skittles, nine-pins, &c., and in the Autumn a party of women had a pic-nic to Velvet Lawn. The ten periodicals taken in weekly, continue to be eagerly sought after by many of the Patients, and our library has been increased, a grant of £5 having been made by the Committee to effect that object.

For several months during the year, prayers were read regularly in the Chapel morning and evening, but were discontinued at the commencement of the Winter, in consequence of the Patients being a good deal exposed to the weather in crossing and re-crossing the courts to the various galleries.

Early in the month of April, the water from the Willow Spring was made available for the service of the Asylum, and since that time we have had an abundant supply for all purposes. We have in consequence been enabled to receive several Patients from the Counties of Bedford, Hertford, and Northampton, and also from some of the Metropolitan Unions.

In conclusion, I desire to return my thanks to the Chairman and the different members of the Committee, for their kind co-operation and support in the discharge of the duties of my office.

I am,

GENTLEMEN,

Your obedient Servant,

JOHN HUMPHRY,

Medical Superintendent.

REPORT OF THE COMMISSIONERS IN LUNACY.

BUCKS COUNTY ASYLUM,
6th November, 1857.

On our visit to the Asylum this day, we have inspected all its Wards, Rooms, Offices, Workshops, Farm-buildings, and Grounds, and have seen all the Patients at present resident therein.

The number of Patients on the Books is 220, viz., 2 of each sex, Private Patients, and 99 males, and 121 females, Paupers.

Of the latter, 2 males and four females were absent on trial at the time of our visit.

Since the last visit of the Commissioners, on the 24th Nov. 1856, 76 Patients (44 males and 32 females) have been admitted, 38 (15 males and 23 females) have been discharged, of whom 14 males and 17 females were recovered—and 24 (17 males and 7 females) have died.

We were furnished with a statement of the causes of death, which call for no special observation.

The Patients at the time of our visit, with a few exceptions on the female side, were free from excitement.

Mechanical restraint is never employed.

According to the Medical Journal, the instances of seclusion are generally three or four in a week.

We found one female Patient in a state of acute mania, secluded in a Padded Room.

The Patients appear upon the whole to be in good bodily health. Three only of each sex are registered as now under medical treatment.

A considerable number of the patients are taken out frequently in parties to walk in the neighbourhood.

Upwards of 100 Patients usually attend Divine Service in the Chapel on Sundays—Prayers are read in the Wards twice on other days by the Attendants.

We submit that it would be desirable if some arrangement were made for reading prayers daily in the Chapel.

It appears by the Ward Returns that about 50 of the male and 70 of the female Patients are usually employed in various ways, and that about 40 of the males and 30 of the females are deemed incapable of any occupation.

According to the last Returns, only 13 male Patients were employed in out-door labor, and 6 as artisans.

The Patients, at the time of our visit, were clean and neat in their Persons, and suitably dressed.

They are under the charge of 7 male Attendants, and 8 nurses, besides a night Attendant for each Division.

The wages of the male Attendants commence at £20 and rise to £25. The head Attendant receives £35 per annum. The wages of the nurses vary from £15 to £18.

In the temporary absence of Mr. Humphry, the Medical Superintendent, we were conducted through the Wards by Mr. Sankey, assistant Medical Officer of the Littlemore Asylum, who was acting for Mr. Humphry. In our inspection of the Offices, Workshops, and Farm-buildings, we were accompanied by Mr. Hollyer, the Steward, and in our visitation of the female Wards and Laundry, &c., by Mrs. Thompson, the Matron, who succeeded the late Matron about five months ago.

We found the Asylum in all its departments clean and in creditable order, and the several galleries and rooms had an aspect of cheerfulness and comfort.

The Patients, without exception, sleep on horsehair mattresses, which are, nearly in all cases placed upon canvas stretchers.

The Airing Grounds, excepting one of the two on the female side, were in good order, and ornamentally kept up. In the female airing ground referred to, the plants had all been rooted up by the Patients.*

* NOTE.—The Superintendent had caused the remains of the plants alluded to here to be removed, as alterations under his direction were in progress.

We were glad to learn that the supply of good spring water is now abundant. It is obtained from the seven acres of land recently purchased,* and is pumped by horse power into a tank, from whence it is raised and distributed by steam power.

We saw the Patients at their dinner, which was well served, and good in quality.

In Gallery No, 6, on the female side, in which 53 Patients, including many epileptics and refractory were congregated, there are three Attendants, one of whom is constantly engaged as Superintendent of the work-room. Having regard to the number and class of Patients in this gallery, during this day, we think it most desirable that an additional Attendant should be engaged, whose principal duty should be to promote the exercise and recreation, and take charge of the Patients in the airing ground. We think that, by this arrangement, the comfort and tranquility of the Ward would be materially increased, and the ground would be kept in better order than at present. The beneficial effect of a similar arrangement has been felt on the male side.

We found upon full enquiry that the Lavatory on the Upper Floor, belonging to Ward No. 1 on the male side, had not been used for many months, and that the 37 Patients in that Ward all wash in two basins in the lower Lavatory.

We strongly recommend that the means of washing be furnished to the Patients generally in the associated Dormitories, and that they be encouraged and trained to make use of them.

We suggest, for the consideration of the Committee of Visitors, whether it would not be advisable to enclose the open covered ways, now communicating with the kitchen, to which all access at present is through the open air.

The furnace, for heating the drying Closets in the Laundry, was not, when we visited that Department, in proper working order, and requires more constant attention.

We noticed an Idiot Boy, seven years of age, named Francis Lloyd, whom we think a more fit object for an Institution for Idiot Children, than a Lunatic Asylum. We beg to draw the attention of the Committee to his case.

(Signed)

R. W. S. LUTWIDGE, } *Commissioners*
ROBERT NAIRNE, } *in Lunacy.*

* NOTE.—A plan of this Land, and of the Willow Spring, is prefixed to this Report.

APPENDIX No. 1.

LIST of the OFFICERS, ATTENDANTS, and SERVANTS of the ESTABLISHMENT, with their respective Salaries and Wages.

NOTE.—The *non-resident* Officers and Servants are distinguished thus *
