# REPORTS

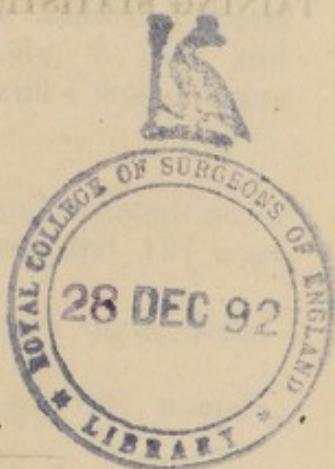

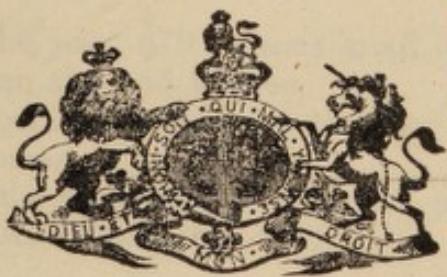

UPON

## BROADMOOR CRIMINAL LUNATIC ASYLUM,

1891.

### TWENTY-NINTH ANNUAL REPORT OF THE MEDICAL SUPERINTENDENT.

*Broadmoor Criminal Lunatic Asylum,  
Crowthorne, Berks,*

SIR,

24th September 1892.

I HAVE the honour to submit, for the information of the Council of Supervision, the following report upon this asylum for the year 1891; together with the usual statistical tables for the same period.

The financial tables in the Appendix have reference to the twelve months ending on the 31st of March 1892.

On the 1st of January 1891, the asylum contained 624 inmates, there being 474 men and 150 women.

During the year, 41 men and 15 women were admitted, 8 men and 1 woman were discharged out of custody, 7 men and 1 woman were sent back to prison, and 7 men and 4 women were transferred to other asylums.

There were 13 deaths, 11 men and 2 women.

On the 31st of December 1891 there were under detention in the asylums 639 inmates, of whom 482 were men and 157 were women.

In the course of the year, 679 persons in all were under detention, namely, 514 men and 165 women.

The average number resident during the year was 631, namely, 477 men and 154 women.

The following is the numerical distribution of the two classes of inmates on the 31st of December 1891.

Class.	Males.	Females.	Total.
Under Detention during Her Majesty's pleasure	395	144	539
Under Sentence	of penal servitude (Convicts)	83	13
	of imprisonment for shorter periods	4	0
Total	482	157	639

Table 28 details the crimes of the 639 patients who were in the asylum on the 31st of December 1891, and their classification according to the official stages at which insanity was recognised. It will be seen that the asylum population included 336 persons who had committed homicide (313 cases of murder and 23 of manslaughter). Of these, 205 were men and 131 were women.

The proportion of cases of homicide was, for the whole population, 52·5 per cent., for the male inmates alone 42·5 per cent., and for the female inmates alone 85 per cent.

As many as 169 inmates (155 men and 17 women) were under detention for "attempt to murder, maim, &c."

#### Admissions.

Of the 56 admissions (41 men and 15 women) during the year, 33 (20 men and 13 women) were "Queen's pleasure" inmates, i.e., insane persons (being criminal offenders) not sentenced to any term of imprisonment, but ordered to be detained during Her Majesty's pleasure. The remaining 23 (20 men and 3 women) consisted of insane convicts, i.e., of persons certified to be insane whilst undergoing various terms of penal servitude, including two men who were so certified in the course of a term of ordinary imprisonment.

#### Re-admissions.

The admissions include 4 men and 2 women who had previously been inmates.

The details of all the cases of re-admission are given in Table 22.

#### Deaths.

The deaths were 13 in number, namely, 11 men and 2 women. The per-cent-age of deaths, reckoned upon the average number resident during the year, was, for the men 2·30; for the women 1·29; for both sexes 2·06.

The yearly average per-cent-age of deaths since the opening of the asylum is for men 3·22; for women 2·59; for both sexes 3·07.

The whole of the deaths were due to natural causes; 5 were referable to diseases of the brain and nervous system, 3 to diseases of the lungs, 2 to heart disease, and 1 to cancer.

There was no successful attempt at suicide.

In accordance with regulation, the coroner held an inquest in every case of death, and the verdicts returned are given in Table 5.

A *post-mortem* examination was made in each case, and the notes are recorded in Table 37.

The average age at death including both sexes was 56 years.

#### No escape.

No inmate succeeded in effecting escape; and it was not found necessary to have recourse to mechanical restraint in any form during the year.

#### Industrial occupation.

From the Return given in Table 34 it will be seen that 232 men and 128 women were usefully employed at remunerative work. The value of their labour amounted to 4,349*l.* The sum actually placed to the credit of the working inmates was 544*l.*, being one-eighth of the value of work done by them.

In Table 35 are recorded the principal diseases which occurred among the inmates during the year. The general standard of health was good.

There was no casualty of a grave sort during the year.

In 1890 the Council of Supervision brought the inadequacy of the accommodation on the female wing to the notice of the Secretary of State, and the result was that Treasury sanction was received to carry an extension of this division of the asylum at an estimated total cost of 8,855*l.*

The work was commenced in April 1891, and one portion of the extension, together with certain alterations, has already been constructed. It consists of an addition to the south front of Block 2, 90 ft. in length, and comprising 12 single rooms, sculleries, and staircase.

The new garden boundary wall is in advanced progress, and will be completed this year.

A new boiler, in connexion with the heating of Block 1 in the male division, has been fixed, and a new mangle has been supplied for the laundry.

Two members of the Board of Commissioners in Lunacy visited the asylum on the 8th and 9th of June; and a copy of their report will be found at page 8.

The Parliamentary grant for the year ending 31st March 1892 (inclusive of "new works and alterations") was 33,866*l.*, the total expenditure amounted to 33,535*l.* 9*s.* 8*d.*; the unexpended surplus of 330*l.* 10*s.* 4*d.* was surrendered to the Exchequer.

The average cost per patient for the year, as shown in Table 41, column 10, was 43*l.* 10*s.* 8*d.*

The details of the expenditure under the various sub-heads of the vote are given in Table 38.

The general conduct of the staff of attendants has been good.

*The staff.*

A Departmental Committee of Inquiry into the pay and position of prison warders, and of the subordinate staff of Broadmoor Asylum sat during the year under the presidency of Lord de Ramsay. The recommendations of the Committee resulted in sanction being given by the Treasury to an increase in the scales of pay for the various grades of male and female attendants and others ranking with them.

My best thanks are due to Mr. Phelps, the Steward, and also to Mr. Hazle, Superintendent's Clerk, for their ready and valuable help at all times.

My medical colleagues, Dr. Isaac and Dr. Noott, continue to give me every assistance. In the early part of the present year Mr. William Ernest Miles succeeded Mr. Pope as Junior Assistant Medical Officer, and gives promise of becoming a good asylum officer.

*New works and alterations.*

On two occasions during the year I visited Dublin as a member of a Committee appointed by His Excellency the Lord Lieutenant to inquire into the condition of the Central Asylum at Dundrum.

During the current year the Rev. J. T. Burt, who retired from the Chaplaincy of this Asylum in 1880, died at the advanced age of 81. He was held in the highest esteem by all who knew him.

Death has removed, also during the current year, Mr. J. E. Leveson Gower, one of the members of the Council of Supervision, and the Secretary of State appointed Mr. James William Maenabb to the vacancy thereby caused.

I have again to express my grateful thanks to the Council of Supervision for their kindly consideration at all times.

I have the honour to be,

Sir,

Your most obedient Servant,

DAV. NICOLSON, M.D.

To Sir Warwick C. Morshead, Bart.,  
*Chairman of the Council of Supervision.*

## THE CHAPLAIN'S REPORT.

SIR,

*Broadmoor Asylum, 11th August 1892.*

DURING the year 1891 the full appointed services of the Church were held in the chapel of this asylum, in the morning and afternoon on all Sundays, and on Good Friday, and on the mornings of Ash Wednesday and Christmas Day; on all other days a shortened form of service was used in the chapel at 8.30 a.m. The Sacrament of the Lord's Supper was administered on Easter Day, Whit Sunday, and Christmas Day, and on the first Sunday of each month. The number of communicants was 30, viz., 11 men and 19 women. The short form of evening prayer continued to be used daily throughout the asylum. The usual addition was made to the library, and was much appreciated by the patients.

A large number of the best books are now in the reading room of the convalescent ward, and are well cared for by a patient, under the direction of the principal attendant.

The school was inspected under the Education Department on the 19th of November, the boys having been previously examined in drawing on the 14th of October by the inspector under the Department of Science and Art, whose report was "Good." The number presented for inspection under the Education Department was 122, viz., 80 in the mixed school, and 42 in the infants room. The amount of the grant was 75*l.* 19*s.*, the average attendance during the year having been 102. The inspector reports, "the tone of the school, and the behaviour of the children are very satisfactory."

I desire, with great respect to tender my sincere thanks for the kind consideration and cordial support I have at all times received from the Superintendent and all the officers of the Asylum in the execution of my duties.

I have the honour to be,

Sir,

Your most obedient humble Servant,

THOS. ASHE, M.A., Chaplain.

*To the Chairman of the  
Council of Supervision.*

REPORT OF THE COMMISSIONERS IN LUNACY.

To the RIGHT HONOURABLE HENRY MATTHEWS, one of HER MAJESTY'S PRINCIPAL SECRETARIES OF STATE.

The report of the Commissioners in Lunacy, made under the Act 23 & 24 Vict. c. 75., intituled "An Act to make better provision for the custody and care of Criminal Lunatics," for the year ending December 31st, 1891.

1. The Commissioners in Lunacy have the honour to report that in the year 1891 the asylum for criminal lunatics at Broadmoor (being the only asylum appointed under the Act above mentioned) was visited by two of the Commissioners, viz., W. E. Frere, Esq., Barrister-at-Law, and Reginald Southey, Esq., Doctor of Medicine, on the 8th and 9th of June 1891.

2. A copy of the memorandum of the visit of the Visiting Commissioners is appended hereto.

Dated this 2nd day of March 1892.

The Common Seal of the  
Commissioners in Lunacy }  
affixed in presence of } (L.S.)

G. HAROLD URMSON,  
Secretary.

---

**MEMORANDUM OF INSPECTION.**

---

7th August 1891.

On the 8th and 9th of June last, we paid our annual official visit to the Criminal Lunatic Asylum at Broadmoor, and we are glad to be able to report that this asylum maintains the high reputation it has always held for efficient administration and excellent order and condition. The interval between the visit of last year and our present inspection has been nearly a year. At our colleagues' visit there were 622 patients on the books, on June 8th of this year 632 were under treatment here, 480 men and 152 women. There is no vacant accommodation on either side. The changes which have taken place among the patients

have been the admission of 44 males and 11 females for the first time, and the re-admission of two men and one woman, eight men and three women have been discharged (conditionally) on recovery, and six men who had recovered have been sent back to prison. Whilst nine men and five women, whose sentences have expired, have been sent to pauper asylums. The deaths have been of 18 men and two women. Post-mortem examination was made, and the coroner held an inquest on every death, and all excepting one were due to natural causes. The exception was in the case of a man who committed suicide. This matter formed the subject of correspondence with our Board, and needs no further comment.

The general health of the patients has been good, and though we saw rather a large number of patients in bed, the asylum has been free from any infectious or contagious disorder.

Mechanical restraint has not been considered necessary. Seclusion is still needed under three classes, but that of Class I. is the only species of seclusion which is employed against the will of the patient, unless he be sick. There were thus treated nine men and one woman. The former on 1,702 occasions and for 10,446 hours. The latter seven times, and for 29 hours in all. Some patients were noisy and abusive, but the majority were well behaved. We had no complaints excepting such as were manifestly founded on delusion alone, but appeals for discharge were as usual numerous.

The epileptic and actively suicidal patients are 132 in all, of whom 47 sleep in associated dormitories, and 85 in single rooms. 192 men are usefully employed and 103 women. 122 patients were present at the morning, and 110 at the evening service on the Sunday preceding; 14 patients attended the last Roman Catholic, and 15 the last Wesleyan service.

There have been the usual amusements provided for the patients which continue to be much appreciated.

The staff of attendants continues to be efficient. They number 84 in the male, and 30 in the female division; nine of the former and four of the latter are on duty by night. Their duration of service here is good, nearly  $\frac{3}{4}$ ths of the male, and 45 per cent. of the female attendants have lived here for over five years.

As we mentioned before, there are no vacant beds in either division, we are therefore glad to report that buildings to increase the accommodation by 50 beds in the women's division are in progress.

Painting and decoration is going on in many parts, and two new steam boilers have been placed in the laundry, instead of two of an antiquated type.

(Signed)

W. E. FRERE,  
REGINALD SOUTHEY,

} Commissioners  
} in Lunacy.

## APPENDIX TO THE SUPERINTENDENT'S REPORT.

TABLE 4.—Showing the HISTORY of the ANNUAL ADMISSIONS, &c.—*continued.*

Class.	• The Re-admissions may be classified as follows :	Male. Female. Total.			Summary of the Total Admissions and Re-admissions.			Male. Female. Total.	
		28	12	16	Per-cent of Cases Recovered and discharged	"	6·08	17·23	8·68
1	Persons under orders of detention during Her Majesty's pleasure, who have been conditionally discharged, and who have subsequently relapsed	16	12	28	"	"	3·88	2·34	3·52
2	Persons under orders of detention during Her Majesty's pleasure who have been discharged to the care of guardians of union workhouses; and readmitted under fresh warrants	1	—	1	"	"	36·22	28·51	34·42
3	Persons under orders of detention during Her Majesty's pleasure who have been transferred to private licensed houses; and re-admitted under fresh warrants	1	—	1	"	"	22·25	18·30	21·33
4	Persons removed to prisons, recovered; and re-admitted under fresh warrants	6	2	8	"	"	0·20	0·00	0·15
5	Persons removed to other asylums on completion of sentences of penal servitude; and re-admitted under fresh warrants	14	3	17	"	"	0·19	0·21	0·20
6	Persons removed to prison for trial; and re-admitted under orders of detention during Her Majesty's pleasure	1	—	1	"	"	31·18	33·41	31·70
7	Persons recaptured after escape	—	—	—	"	"	—	—	—
		42	17	59			100·00	100·00	100·00

\* Further particulars with respect to the whole of the re-admissions from the opening of the asylum are given in the 22nd Table.  
The actual number of persons re-admitted under Class I was 25, one man and two women are shown twice, having been twice re-admitted, Classes IV. and V. include one man who has been twice re-admitted, once under each class.

TABLE 5.

Showing the CAUSES of DEATH during the Year 1891.

Causes of Death.	Male.	Female.	Total.
<b>Diseases of the brain and nervous system :</b>			
Softening of the brain -	2	—	2
General paralysis of the insane	1	—	1
Meningo-encephalitis	1	—	1
Cerebral hemorrhage -	—	1	1
<b>Diseases of the circulatory system :</b>			
Fatty degeneration of heart	1	—	1
Valvular disease of heart	1	—	1
<b>Diseases of the respiratory system :</b>			
Phthisis	2	—	2
Pulmonary apoplexy	1	—	1
<b>Diseases of the digestive system :</b>			
Inflammation of the bowels	1	—	1
<b>Diseases of the urinary and generative systems :</b>			
Cancer of the vagina	—	1	1
<b>Diseases of the organs of locomotion :</b>			
Strumous caries	1	—	1
<b>Total</b>	<b>11</b>	<b>2</b>	<b>13</b>

An INQUEST was held in every case of DEATH, and the following were the Verdicts returned :—

Initials.	Date of Admission.	Date of Death.	Age at Death.	Verdict.
<b>Males.</b>				
J. M.	23 April 1889	29 Jan.	42	Died of softening of brain.
J. S.	13 Feb. 1865	4 Feb.	60	Died of phthisis.
F. C.	26 Dec. 1870	20 „	67	Died of phthisis.
W. R.	6 Feb. 1865	10 April	61	Died of heart disease.
T. H.	18 Mar. 1867	2 May	74	Died from natural causes, namely, angina pectoris.
R. K.	27 Feb. 1864	26 „	73	Died of softening of brain.
J. M.	16 Sept. 1873	26 June	51	Died of pulmonary apoplexy.
P. M.	12 May 1868	7 Aug.	49	Died of strumous caries and abscesses.
M. McK.	6 Feb. 1865	13 „	73	Died of inflammation of bowels.
S. W.	26 Feb. 1891	5 Nov.	47	Died of general paralysis of the insane.
A. W. G. D.	9 Dec. 1890	7 Dec.	26	Died of inflammation of the brain and its membranes.
<b>Females.</b>				
S. C.	7 June 1883	27 Jan.	68	Died of cerebral hemorrhage.
E. C.	26 Oct. 1876	7 Feb.	48	Died of internal cancer.

SHOWING the NUMBER of Patients remaining in the Asylum on 31st December 1891, who had been tried by MILITARY and NAVAL COURTS.

TABLE 32.  
Showing the PARTICULARS of PATIENTS whose Sentences had expired on 31st December 1891.

Reg <sup>r</sup> No.	Initials.	Occupation.	Convicted.		Crime.	Sentence.	When Sentence expired.
			Where.	When.			
<i>Males.</i>							
1058	T. K.	Seaman	-	Portsmouth	-	Assault	-
1143	H. W.	Soldier	-	North Walsham	-	Incorrigible rogue	-
203	J. D.	Labourer	-	Glasgow	-	Theft	-
22	C. C.	Not known	-	Salford	-	Receiving stolen goods	-
<i>Female.</i>							

1058 T. K. detained after expiration of sentence in consequence of having murderously assaulted a warden in Portsmouth Gaol.

1143 H. W. detained on account of his history.

203 J. D. detained, being not in sufficiently good health to be removed.

22 C. C. detained after expiration of sentence in consequence of having murdered a fellow patient in the Fisherton House Asylum.

TABLE 33.

The following FIGURES, extracted from the ANNUAL VOLUMES of the JUDICIAL STATISTICS for ENGLAND and WALES, show the RATE of MORTALITY which has prevailed amongst CRIMINAL LUNATICS since the Year 1856, and also show the Extent to which the Rate of Mortality, and the Degree of safe Custody, have been affected by the opening of Broadmoor Asylum.

In this Table each Year, up to 1883 inclusive, ends on the 29th of September, and from 1884, the year ends on the 31st of October.

(1.) Returns relating to the Seven Years immediately preceding the opening of Broadmoor.

Year.	Total Number of Criminal Lunatics under Detention in England and Wales during each Year.	Number of Deaths in each Year.	Number who escaped and who were not recaptured before the end of each Year.
1856	686	21	6
1857	748	39	7
1858	798	33	1
1859	901	43	4

TABLE 34.

SHOWING the Kinds of INDUSTRIAL OCCUPATION in which PATIENTS were employed during the year ended 31st March 1892, with the ESTIMATED VALUE of their LABOUR.

Description of Employment.	Value of Labour.
	£ s. d.
Making and repairing uniform clothing - - - - -	102 8 11
Making and repairing clothing for patients, and bed and house linen for patients and attendants - - - - -	590 19 5
Making and repairing boots, shoes, &c. - - - - -	235 9 9
Making and repairing mattresses, carpets, mats, &c. - - - - -	166 12 6
Making and repairing furniture, tinware, &c. - - - - -	176 8 6
Printing, book-binding, writing, &c. - - - - -	199 12 8
In the garden, and on the terraces and farm - - - - -	507 3 0
In the kitchens, bakehouse, and stores - - - - -	434 16 8
In the laundry - - - - -	441 1 7
Cleaning the wards, &c. - - - - -	897 15 8
Carrying coals and cutting up firewood - - - - -	45 10 0
Carpenters, Bricklayers, Painters, and Labourers, employed in repairs and alterations to buildings - - - - -	396 14 4
Relaying airing courts - - - - -	154 13 4
Total - - - - -	£ 4,349 6 4

The above estimate refers only to the work done by patients, and does not include the work performed by the attendants and journeymen in the various wards and shops.

The number of patients employed in the work above described was 232 men and 128 women.

Of the total estimated value of their work, the patients employed were credited with the authorised allowance of one-eighth for their own use.

TABLE 35.

SHOWING the Number of Cases of the Principal DISEASES among the INMATES who came under Treatment during the Year 1891.

DISEASES.	Remaining under Treatment 31st Dec. 1890.		Admitted under Treatment during 1891.		Total Number treated.		Recovered, Relieved, or Removed from Treatment.		Died.		Remaining under Treatment 31st Dec. 1891.

TABLE 37.

## POST-MORTEM RECORDS.

No. in Register.	Sex, Age, Height, Date of Admission and of Death.	HISTORY.		
		General History.	Mental State during Residence.	Bodily State during Residence.
355	S. C. Female, 68. 5 ft. 6½ in. June 7, 1883. Jan. 27, 1891.	Single. Formerly a domestic servant. Tried at the Central Criminal Court on the 29th May 1883, for maliciously wounding (her aunt) by cutting her throat with a razor). Found not guilty on the ground of insanity, and ordered to be detained during Her Majesty's pleasure. Admitted from Clerkenwell Prison.	Chronic mania, accompanied by delusions of a religious nature; thought that her soul was lost, and that she was not fit to live.	Fair on admission, became enfeebled analytic. Suffered from hemiplegia.
1431	J. M. Male, 42. 5 ft. 3½ in. April 23, 1889. Jan. 29, 1891.	Labourer. Married. Tried at the Middlesex Sessions on 11th October 1886, for maliciously wounding a man, and sentenced to five years penal servitude. Certified to be insane 9th April 1889. Admitted from Portland Prison.	Formerly suffered from chronic mania, with occasional sub-acute attacks. Latterly demented.	Good until within two of death, when he rapidly very feeble.
241	J. S. Male, about 60 5 ft. 5 in. Feb. 13, 1865. Feb. 4, 1891.	Condition of life not known. Found insane by jury on arraignment at Cardiff in October 1858, on a charge of stabbing and wounding, and ordered to be detained during Her Majesty's pleasure. Admitted from Fisherton House Asylum.	Suffered from chronic mania, apt to make sudden assaults on attendants and patients.	Had attacks of acute tism on several occasions. Latterly developed syphilitis, of which
259	E.C. Female, 48. 5 ft. 1½ in. Oct. 26, 1876. Feb. 7, 1891.	Married. Wife of a grocer's assistant. Tried at the Central Criminal Court on the 20th September 1876, for wounding with intent to murder (her child, four months old, by cutting off its hand with a table knife). Found not guilty on the ground of insanity, and ordered to be detained during Her Majesty's pleasure. The child afterwards died from the injury. Admitted from Newgate Prison.	Epileptic, with recurrent attacks of epileptic mania, when she became noisy, incoherent, and inclined to be violent. Quiet and well behaved in the intervals.	Good on admission, suffered from catarrh of vagina, from which she died.

TABLE 37.  
POST-MORTEM RECORDS.

temper- ature and time of death; No. of hours after death when the Post- mortem examina- tion was made.	POST-MORTEM NOTES.			Absolute Weights of Principal Organs in ounces avoirdupois.
	Head and Spine.	Thorax.	Abdomen.	
46° F. Moist. 6 hours.	Dura mater adherent to calvaria and to the other membranes along the region of the longitudinal sinus. Grey matter of convolutions somewhat dark in colour. The white matter of the left hemisphere was contracted and wasted at a point about its centre, external to the optic thalamus; immediately superior to the island of Reil was a small portion of softening, due to embolism, and containing calcareous deposits.	Left pleura slightly adherent at base. Both lungs small and emphysematous. Aorta atheromatous.	Liver firm and congested. Cortex of both kidneys atrophied. In pyramidal portion of right kidney there were found two small stones, very irregular in shape, and with sharp edges.	Right hemisphere 19½ Left " 18½ Cerebellum - 5½ Pons and medulla ¾  Total encephalon 44½  Right lung - 8½ Left " - 8 Heart - 8½ Liver - 30½ Spleen - 2½ Right kidney - 3 Left " - 4
46° F. Dry. 6 hours.	Calvaria thick and dense. Dura mater thickened and opaque, and strongly adherent to brain substance over the vertex. An excessive amount of sub-dural fluid. Arachnoid and pia mater adherent to brain substance. White matter of cerebrum atrophied and much softened, breaking down readily under pressure. Lateral ventricles dilated and contained an excessive amount of fluid. Floor of both ventricles and of fourth ventricle granular.	Both pleurae slightly adherent at apex. Lungs normal. Heart small. Aorta slightly atheromatous.	Liver small and slightly cirrhotic.	Right hemisphere 20 Left " 19½ Cerebellum - 4½ Pons and medulla ¾  Total encephalon 45½  Right lung - 25½ Left " - 19 Heart - 7½ Liver - 34½ Spleen - 3½ Right kidney - 3½ Left " - 4
45° F. Moist. 6 hours.	On anterior portion of left parietal bone was a well-defined circular depression, causing a bulging of inner table and flattening of corresponding surface of brain. Dura mater slightly adherent over vertex.	Right pleura thickened and covered with a layer of yellow lymph. Right pleural cavity contained about 20 ounces of dark straw-coloured fluid. Left pleura adherent at apex. Right lung completely disorganized by tubercular deposit. Upper lobe of left lung infiltrated with tubercle. Heart small. Aorta atheromatous.	Liver large and very mottled on the surface. On section showed considerable increase of fibrous tissue. Spleen very large and pulpy.	Right hemisphere 17½ Left " 17½ Cerebellum - 4 Pons and medulla ¾  Total encephalon 40½  Right lung - 23½ Left " - 31½ Heart - 11 Liver - 67½ Spleen - 11 Right kidney - 4½ Left " - 4½
44° F. Moist. 6 hours.	Calvaria thick and dense. Dura mater thickened and congested. Arachnoid and pia mater congested. Brain substance congested, puncta cruenta numerous, exuding dark fluid blood. Ventricles full of fluid. A considerable amount of fluid found under the membranes and at the base of the brain.	Both lungs emphysematous along the anterior free edges and anterior surfaces. Aorta atherosomatous at commencement.	Much wasting of pyramidal portions of both kidneys. A cancerous mass was found involving the whole of the vaginal structures. A circular ulceration, about size of a shilling, forming a communication with the rectum, the mucous membrane of which, however, was not involved.	Right hemisphere 17½ Left " 17½ Cerebellum - 4½ Pons and medulla ¾  Total encephalon 40½  Right lung - 8½ Left " - 6½ Heart - 5½ Liver - 31½ Spleen - 1½ Right kidney - 2½ Left " - 2½

Table 37—*continued.*

No. in Register.	Sex, Age, Height, Date of Admission and of Death.	HISTORY.		
		General History.	Mental State during Residence.	Bodily State during Residence.
665	F. C. Male, 67. 5 ft. 5½ in. Dec. 26, 1870. Feb. 20, 1891.	Single. Seaman in merchant service. Tried at the Consular Court at Constantinople, 15th August 1870 for the murder of a fellow sailor, by stabbing. Found not guilty on the ground of insanity, and ordered to be detained during Her Majesty's pleasure. Admitted from Her Majesty's troop ship "Crocodile" at Portsmouth.	Formerly suffered from chronic melancholia, with hallucinations of hearing and delusions of suspicion and persecution. Once attempted suicide. Latterly became much more tranquil on the disappearance of hallucinations and delusions, but remained very weak-minded.	Fair. Had attacks of diarrhoea from time to time, the result of former dysentery contracted abroad. Lately suffered from pulmonary phthisis, from which he died.
233	W. R. Male, 61. 5 ft. 7½ in. Feb. 6, 1865. Apr. 10, 1891.	Single. Soldier in the Royal Marines. Tried by Court Martial off Sebastopol, 2nd July 1855, for stabbing with intent to murder his superior officer, and sentenced to death. Sentence afterwards commuted to transportation for life. Removed from Bethlehem Hospital, 30th April 1856, to Fisherton House Asylum from whence he was admitted into Broadmoor.	Formerly suffered from chronic mania, and would strike out suddenly at patients and attendants without any apparent cause. Latterly became demented.	Good latterly. Suffered from fatty heart, which was the cause of death.
390	T. H. Male, 74. 5 ft. 5½ in. Mar. 18, 1867. May 2, 1891.	Single. An artist. Found insane by jury on arraignment at the Leeds Assizes, 13th December 1866, on a charge of wounding with intent to murder the master of the union workhouse at Wakefield, and thereupon ordered to be detained during Her Majesty's pleasure. Admitted from Leeds Prison.	Suffered from chronic mania with delusions of persecution and hallucinations of sight. Was at times dangerous and destructive.	General health good latterly failing from advancing age and disease.
8	R. K. Male, 73. 5 ft. 7 in. Feb. 27, 1864. May 26, 1891.	Single. Carpenter. Tried at York in July 1846 for the murder of his father. Found not guilty on the ground of insanity, and ordered to be detained during Her Majesty's pleasure. Admitted from Bethlehem Hospital.	Formerly suffered from chronic mania with incoherence, which gradually passed into dementia.	Had good bodily health within a year of death; he became bedridden and gradually advanced paralytic.

Table 37—continued.

Temperature and State of air; No. of hours after death when the Post-Mortem Examination was made.	POST-MORTEM NOTES.			
	Head and Spine.	Thorax.	Abdomen.	Absolute Weights of Principal Organs in ounces avoirdupois.
50° F. Dry. 4 hours.	Dura mater adherent to calvaria. Subdural space contained a large quantity of fluid. Pia mater very adherent to brain, thickened and opaque. White matter of brain atrophied. Ventricles enlarged, and contained a large quantity of fluid.	Left lung completely atrophied. Right lung, puaumonic. Phthisis at base, small cavities in centre, grey hepatisation at upper part, and emphysematous at free border. Pericardium contained a large quantity of fluid. Heart hypertrophied. Right side containing ante mortem clot.	Liver enlarged and fatty. Gall bladder completely filled by large gall-stone. Spleen enlarged, soft, and friable.	Right hemisphere 19½ Left " 19½ Cerebellum " 4½ Pons and medulla 1 Total encephalon 44½  Right lung - 22½ Left " - Heart " - 17½ Liver - 46 Spleen - 12 Right kidney - 5½ Left " - 6
51° F. Dry. 9 hours.	Calvaria thick and dense. Dura mater thickened, adherent over vertex to brain substance, arachnoid and pia mater congested. White matter of cerebrum somewhat soft.	Heart large and covered with a thick deposit of fat. Muscular wall of left ventricle hypertrophied and undergoing fatty degeneration. Aorta atherosomatous.	Cortex of both kidneys considerably atrophied.	Right hemisphere 24½ Left " 24½ Cerebellum " 5½ Pons and medulla 1 Total encephalon 55½  Right lung - 27½ Left " - 23 Heart " - 17½ Liver - 63 Spleen - 10½ Right kidney - 6½ Left " - 6½
50° F. Dry. hours.	Dura mater thickened, slightly opaque, and adherent along longitudinal sinus to brain substance. White matter of cerebrum considerably softened, breaking down readily under pressure. Lateral ventricles much dilated. Cerebellum very soft and pulpy. Vessels of brain markedly atheromatous.	Both pleura firmly adherent to thoracic wall. Both lungs considerably congested at base and generally oedematous. Muscular wall of heart hypertrophied and undergoing fatty degeneration. Tricuspid and mitral valves a good deal thickened and shrivelled. Aorta atherosomatous.	Liver congested, and cirrhotic; spleen tough and fibrous. Large cyst about size of a hen's egg at apex of right kidney, which was fibrous and contracted. Cortex and pyramids of both kidneys considerably atrophied.	Right hemisphere 22½ Left " 22½ Cerebellum " 5½ Pons and medulla 1 Total encephalon 50½  Right lung - 21 Left " - 23 Heart " - 14½ Liver - 36½ Spleen - 5½ Right kidney - 4½ Left " - 6
50° F. Moist. hours.	Dura mater slightly opaque. A large excess of subdural fluid. White matter of cerebrum very soft and much atrophied. Lateral ventricles very dilated, and contained an excessive amount of fluid.	Left pleura adherent generally. Upper lobe of left lung quite solid, and on section resembled grey granite. Muscular substance of heart atrophied and friable. Aorta atherosomatous.	Substance of liver very friable, breaking down readily under pressure. Spleen soft and pulpy; kidneys very pale; pyramids much atrophied.	Right hemisphere 20½ Left " 20½ Cerebellum " 5½ Pons and medulla 1 Total encephalon 47  Right lung - 13 Left " - 17 Heart " - 9½ Liver - 35½ Spleen - 4½ Right kidney - 5½ Left " - 4½

Table 37—*continued.*

No. in Register.	Sex, Age, Height, Date of Admission and of Death.	HISTORY.		
		General History.	Mental State during Residence.	Bodily State during Residence.
798	J. M. Male, 51. 5 ft. 5 in. Sept. 16, 1873. June 26, 1891.	Married. A tanner's labourer. Tried at the Leeds Assizes, 26th March 1873, for the murder of his uncle, by striking him with a poker and stool. Found not guilty on the ground of insanity, and ordered to be detained during Her Majesty's pleasure. Admitted from Leeds Prison.	Formerly suffered from chronic mania with delusions of persecution. Latterly became demented and incoherent.	Good until latterly
555	P. M. Male, 49. 5 ft. 7 in. May 12, 1868. Aug. 7, 1891.	Single. Soldier. Tried by general court-martial at Birr, Ireland, in October 1863, for insubordination, and sentenced to four years' penal servitude. Removed from Millbank Prison, 19th March 1867, to Fisherton House Asylum, from whence he was admitted into Broadmoor.	Formerly suffered from recurrent attacks of maniacal excitement. Latterly became demented and incoherent.	Good to within three years, from which time suffered from strumous affection of the left malar and maxilla, of right carpus and of right knee joint. Last became paralysed.
234	M. McK. Male, 73. 5 ft. 4 in. Feb. 6, 1865. Aug. 13, 1891.	Single. Occupation not known. Tried at Newcastle in July 1851 for an unnatural offence (bestiality), and sentenced to transportation for life. Removed from Bethlehem Hospital in December 1853 to Fisherton House Asylum, from whence he was admitted to Broadmoor.	Imbecile	Good
1513	S. W. Male, 47. 5 ft. 6½ in. Feb. 26, 1891. Nov. 5, 1891.	Married. Sawyer. Tried at the Preston Sessions on 26th November 1890, and sentenced to five years' penal servitude for larceny of a shirt, sheet, &c., after seven previous convictions. Certified to be insane 21st February 1891. Admitted from Stafford Prison.	On admission was partially demented and incoherent. Latterly his speech became hesitating and indistinct, and his pupils unequal in size.	Indifferent on admission, improved considerably, convulsions on two occasions.

Table 37—continued.

Temperature and state of body; No. of hours after death when the Post-mortem examination was made.	POST-MORTEM NOTES.			
	Head and Spine.	Thorax.	Abdomen.	Absolute Weights of Principal Organs in ounces avoirdupois.
7° F. Dry. hours.	Scalp, calvaria, and dura mater normal. Arachnoid and pia mater congested, but non-adherent. Grey matter of convolutions of cerebrum atrophied. White matter of cerebrum firm and atrophied. Ventricles dilated. Vessels of brain congested.	Pleural contained a quantity of venous blood. Lungs very congested and oedematous, especially the right. Pericardium natural. Heart enlarged, muscular hypertrophy.	Liver very congested and enlarged. Spleen enlarged, soft, and friable. Kidneys very congested.	Right hemisphere 21½ Left " 21½ Cerebellum 5½ Pons and medulla 1½  Total encephalon 50½  Right lung - 21½ Left " 16½ Heart " 15½ Liver - 69½ Spleen - 4 Right kidney 5½ Left " 5½
68° F. Moist. 3 hours.	Large quantity of fluid in sub-dural space. Arachnoid and pia mater very thickened and congested, non-adherent. White matter of cerebrum congested. Ventricles contained a large quantity of fluid.	Some small pleuritic adhesions present. Lungs very small, congested at bases, emphysematous at free borders. Heart: right side engorged; some large and firmly organised ante-mortem clots.	Liver small and fatty. Spleen enlarged, very soft and friable. Kidneys small and fatty.	Right hemisphere 18½ Left " 18½ Cerebellum 4½ Pons and medulla ¾  Total encephalon 42½  Right lung - 9 Left " 8 Heart " 9½ Liver - 29½ Spleen - 6 Right kidney 3 Left " 3
68° F. Dry, 2 hours.	Dura mater thickened and opaque. White matter of cerebrum very soft and much atrophied. Lateral ventricles dilated by an excessive amount of fluid.	Both pleura slightly adherent. Heart small, muscular substance somewhat atrophied. Aorta atheromatous.	Patches of inflammation on lining membrane of lower part of small intestines. Pyramids and cortex of both kidneys irregularly atrophied.	Right hemisphere 21½ Left " 21½ Cerebellum 5½ Pons and medulla ¾  Total encephalon 40½  Right lung - 16½ Left " 25½ Heart " 8 Liver - 39½ Spleen - 1 Right kidney 4 Left " 4
—	Dura mater thick and opaque. A large quantity of subdural fluid. Grey matter of convolutions thin and dark in colour. White matter of cerebrum considerably atrophied, soft, and pulpy. Lateral ventricles dilated, and contained a large quantity of fluid. The floor of fourth ventricle markedly granular.	Both lungs somewhat congested at base.	Pyramids of both kidneys somewhat atrophied. NOTE.—From the 1st April 1872 the administration of the works connected with the maintenance and repairs of the buildings was placed under Her Majesty's Office of Works, and so continued until the 31st March 1879, when it was again transferred to the control of the Council of Supervision. During the years whilst the buildings were under the care of the Office of Works the expenditure under ordinary repairs was not kept separate from that for additions and alterations. In making up this table the plan adopted for those years has been to debit ordinary repairs with the sum inserted in the Estimates for the year for that service, and to carry the balance of expenditure for the year to the debit of rates and taxes.

## TABLE 44.

## PATIENTS' DIETARY.

## BREAKFAST.

Every day - Males and }  
Females } Tea with bread and butter.

## DINNER.

*Males.*

Sunday	-	Beef or mutton, without bone, and weighed after cooking, 4 ozs.; potatoes, weighed raw, 12 ozs.; currant pudding, 8 ozs., or fruit pie, 12 ozs.; beer, $\frac{3}{4}$ pint; and bread.
Monday	-	Bacon or pork, without bone, and weighed after cooking, 5 ozs., or corned beef, 6 ozs.; potatoes, weighed raw, 12 ozs.; peas pudding, 4 ozs.; beer, $\frac{3}{4}$ pint; and bread.
Tuesday	-	Beef or mutton, without bone, and weighed after cooking, 4 ozs.; potatoes, weighed raw, 12 ozs.; raisin pudding, 8 ozs., or soup, 1 pint; beer, $\frac{3}{4}$ pint; and bread.
Wednesday	-	Beef or mutton, without bone, and weighed after cooking, 5 ozs.; potatoes, weighed raw, 12 ozs.; fruit pie, 12 ozs., or suet pudding, 4 ozs.; beer, $\frac{3}{4}$ pint; and bread.
Thursday	-	Mutton, without bone, and weighed after cooking, 5 ozs.; potatoes, weighed raw, 12 ozs.; beer, $\frac{3}{4}$ pint; and bread.
Friday	-	Pork or bacon, without bone, and weighed after cooking, 5 ozs.; potatoes, weighed raw, 12 ozs.; peas pudding, 4 ozs.; beer, $\frac{3}{4}$ pint; and bread.
Saturday	-	Beef or mutton, without bone, and weighed after cooking, 5 ozs.; potatoes weighed raw, 12 ozs.; suet pudding, 4 ozs.; beer, $\frac{3}{4}$ pint; and bread.

*Females.*

Sunday	-	Beef or mutton, without bone, and weighed after cooking, 3 ozs.; potatoes, weighed raw, 12 ozs.; currant pudding, 8 ozs., or fruit pie, 12 ozs.; beer, $\frac{1}{2}$ pint; and bread.
Monday	-	Bacon or pork, without bone, and weighed after cooking, 4 ozs., or corned beef, 5 oz.; potatoes, weighed raw, 12 ozs.; beer, $\frac{1}{2}$ pint; and bread.
Tuesday	-	Beef or mutton, without bone, and weighed after cooking, 3 ozs.; potatoes, weighed raw, 12 ozs.; raisin pudding, 8 ozs., or soup, 1 pint; beer, $\frac{1}{2}$ pint; and bread.
Wednesday	-	Beef or mutton, without bone, and weighed after cooking, 4 ozs.; potatoes, weighed raw, 12 ozs.; fruit pie, 12 ozs., or suet pudding, 4 ozs.; beer, $\frac{1}{2}$ pint; and bread.
Thursday	-	Mutton, without bone, and weighed after cooking, 4 ozs.; potatoes, weighed raw, 12 ozs.; beer, $\frac{1}{2}$ pint; and bread.
Friday	-	Pork or bacon, without bone, and weighed after cooking, 4 ozs.; potatoes, weighed raw, 12 ozs.; peas pudding, 4 ozs.; beer, $\frac{1}{2}$ pint; and bread.
Saturday	-	Beef or mutton, without bone, and weighed after cooking, 4 ozs.; potatoes, weighed raw, 12 ozs.; suet pudding, 4 ozs.; beer, $\frac{1}{2}$ pint; and bread.

Fish dinners are given occasionally.

Meat pie is occasionally substituted for the usual Saturday's dinner.

On four days of the week, other vegetables, such as may be in season, are given in lieu of 4 ozs. potatoes, according to the following scale—weighed, or measured, before cooking :—

Cabbage, 12 ozs.; French beans,  $\frac{3}{4}$  pint; broad beans, shelled,  $\frac{3}{4}$  pint; green peas, shelled,  $\frac{1}{2}$  pint; vegetable marrows, 1 lb.; carrots, 12 ozs.; parsnips, 12 ozs.; onions, 8 ozs.

TEA.

Every day - Males and } Females } Tea with bread and butter.

---

Seed bread is given twice weekly in lieu of bread and butter to those of the patients who like it.

Oatmeal gruel at bed time is supplied to those who wish for it.

The sick are dieted at the discretion of the superintendent.

Working patients are allowed 4 ozs. bread and 1 oz. of cheese for lunch, with oatmeal and water.

Every patient is allowed 1 $\frac{1}{2}$  ozs. tea, 7 ozs. sugar, 7 ozs. butter, and 1 $\frac{3}{4}$  pts. milk weekly. Bread is unlimited; the quantity consumed daily averages 18 ozs. for males, and 14 ozs. for females.

The soup consists of the liquor from the boiling of the meat with the addition of 12 $\frac{1}{2}$  lbs. of peas and barley, and 10 lbs. of vegetables, for 100 patients.

Currant pudding consists of flour, 37 $\frac{1}{2}$  lbs., currants, 12 $\frac{1}{2}$  lbs., and suet or dripping, 12 $\frac{1}{2}$  lbs., to make 100 lbs. when cooked.

Fruit pies consist of flour 3 ozs., fruit 8 ozs., sugar 1 oz., and dripping 1 oz., to make 12 ozs. when cooked.

Seed bread is made from dough, with the addition of 10 lbs. dripping, 9 lbs. sugar, and 1 $\frac{1}{4}$  lbs. caraway seeds to 100 lbs. dough.

Meat pies consist of 4 ozs. meat without bone, 7 ozs. mixed dough, and 8 ozs. vegetables, for males; 3 $\frac{1}{2}$  ozs. meat without bone, 6 ozs. mixed dough, and 8 ozs. vegetables, for females.

Suet pudding consists of flour 50 lbs. and suet 12 $\frac{1}{2}$  lbs., to make 100 lbs. when cooked.

Rye (corn)	-	10	0	0			
Potatoes	-	19	2	37			
Mangolds, swedes, and cabbage	-	19	2	33			
Grass land, two years old and upwards	-	95	3	5			
					165	0	35
Uncultivated heath land	-				60	2	7
Total	-				323	2	6

TABLE 49.

The following STATEMENT shows the LENGTH of SERVICE of the  
ATTENDANTS on the 31st December 1891.

Period of Service.	Male.	Female.	Total.
Under 1 year	7	2	9
Above 1 year and under 2 years	3	4	7
,, 2 years	5	3	8
,, 3 "	7	3	10
,, 4 "	—	5	5
,, 5 "	21	7	28
,, 10 "	6	—	6
,, 15 "	11	2	13
,, 20 "	13	3	16
,, 25 "	11	1	12
Total	84	30	114

One of the chief reasons why fewer changes occur amongst the men than amongst the women is that the men are retained in the service after their marriage, provided they obtain leave to marry, whilst marriage usually, although not always, leads to the retirement of women from the service. It will be seen by the foregoing figures, that over 73 per cent. of the male attendants have been in the service more than five years, whilst over 48 per cent. have been in the service for periods above ten years. Of the female attendants over 43 per cent. count above five years' service, whilst 20 per cent. count above ten years.

Leave of absence for the day is granted every ninth day; and, in addition, every attendant has a holiday of ten days annually.
