## THE ANNUAL REPORT

OF THE COMMITTEE OF VISITORS ELECTED AT THE EPIPHANY SESSION, 1875, FOR THE PURPOSES OF THE LUNATIC ASYLUM AT STONE, FOR THE PAUPER LUNATICS OF THE COUNTY, UNDER THE STATUTE 16TH AND 17TH VICT., CAP. 97, SS. 22 AND 62.

SHEWETH,—That your Committee Report, in the terms of the Statute, that the "State and Condition" of the Asylum have been satisfactory throughout the year, and the accommodation is sufficient and proper for the number of Patients.

The conduct and efficiency of the several Officers and Servants are satisfactory, and there has been no change during the past year amongst the Principal Officers of the Establishment; but your Committee, with great regret, have to notice that they are about to lose the valuable services of Mr. Richard Roberts Hollyer, the House Steward and Clerk of the Asylum, through ill-health; this Officer has faithfully, and with great

energy and ability, discharged the duties of his Office since the opening of the Asylum in the year 1853, and his loss to the Institution will be severely felt.

The full number of Patients on 16th December, 1875, the day of the last meeting of your Committee was as follows:—

	M.	F.	TOTAL.
County Patients .....	135	217	.... 352
Out County Patients .....	30	11	.... 41
Private Patients.....	9	5	.... 14
On Probation Pauper Patients (County) ....	1	8	.... 9
On Leave (Private Patient).....	0	1	.... 1
Gross Total.....	175	242	.... 417

The number of County Patients in the Asylum at the corresponding period of the year ending 17th December, 1874, was 342.

The number of Patients admitted since the commencement of the year has been:—

	M.	F.	TOTAL.
County Patients.....	43	48	.... 91
Out County Patients .....	30	11	.... 41
Private Patients. ....	5	2	.... 7
Gross Total.....	78	61	.... 139

The amount per head per week charged to the Unions in the County having Patients in the Asylum during the four quarters has been a uniform rate of 11s. 1d., being the same rate of charge per head per week as that made for the year 1874, which may be considered as moderate in amount.

The following is a Table shewing the cost of the maintenance:—

# TABLE SHOWING THE COST OF MAINTENANCE.

Column 1 contains the Cost of Provisions consumed by the Patients.  
 " 2 the Cost of the Fuel and other Necessaries.  
 " 3 the Cost of Clothing, Utensils, Surgery, Garden, and Miscellaneous Articles, after deducting the receipts of the Establishment.  
 " 4 the Amount of Salaries of Officers and Servants, and Cost of Provisions consumed by them.

Two of the Commissioners in Lunacy visited the Asylum on the 23rd of September last, and the following is a Copy of their Report upon that occasion:—

BUCKS COUNTY ASYLUM,  
September 23rd, 1875.

Since this Asylum was visited by Members of our Board ten months ago, the number of Patients here has risen from 392 to 416. The Bucks Patients of the pauper class are 355, *i.e.*, 133 males and 222 females. The Out County Patients are 45, *i.e.*, 31 men and 14 women. The private Patients consist of 10 men and 6 women. One Pauper of each sex and one private Patient are away on leave; all the rest we have seen. The

maintenance charges are the same as at last visit. There is a very large number of infirm, demented and idiot cases in the wards, but very few general paralytics. There are but five vacant beds on the male side, and the female department has one Patient over its estimate of accommodation. We find that of the Out County Patients, 11 belong to Middlesex, 6 to Surrey, and 23 were received here under some arrangement between the Visitors of Littlemore Asylum and the Committee of this Asylum. For the future accommodation of the Bucks Patients it is evident that something must now be done towards discharging the Out County Paupers and Private Patients unless, as we recommend, proper arrangements be made for a considerable number of the Patients now in this Asylum by removal either to Workhouses, or into single charge with their friends. We refer of course, to such Patients only as are chronic and harmless cases, and we repeat under special arrangements for their care the friends of some might, we think, be able and willing to receive their insane relatives, with some pecuniary assistance from the Unions, and such Patients should be frequently visited by the Union Medical Officers. We are told by Dr. Humphry that of the 416 inmates of the wards, he considers not more than six to be curable. The admissions since last visit have been paupers, 74 from Unions in Bucks; 40 from other Unions; 7 private Patients; together 121. Discharges—29 Bucks Patients, 21 Out County, 6 private class; together 56. The Death Records inform us that 42 Patients have been so taken away—37 Bucks, 3 Out County, and 2 private Patients. Of the dead 22 were men, 20 were women; 21 of the 42 died within twelve months after their admission; 5 had been 22 years in the wards. The chief causes of death were diseases of the brain, including general paralysis and apoplexy, which were fatal in 13 cases, diseases of the heart and lung in 10, and epilepsy in 7 instances. One of the epileptics was found dead in a single room, and the only inquest held since the last visit was in that case; the verdict was "Natural Death." *Post mortem* examinations were made in 18 instances. Seclusion has been employed with 13 males and 14 females, but with most on one occasion only, the men have been 18 times secluded, and the women on 27 occasions in all. Restraint by means of the waistcoat was used with a man for 13 days to prevent self-injury. Both sexes were quiet in the several rooms occupied by them; in fact, too quiet, the great majority sitting listless and wholly unoccupied. Not overlooking the fact that many are much demented, we yet would advocate persistent and strenuous efforts to rouse them from their do-nothing condition. The introduction of a larger supply of cheap and simple games and more illustrated newspapers might have a good effect, and the attendants should also do their utmost to encourage reasonable amusements among the less intelligent of those who are capable of something better than absolute inaction. The dietary is, we understand, the same as at last visit. A fish dinner is occasionally given; to-day's fare for dinner was suet and currant pudding with beer; we tasted both and found them to be good, and upon the subject of diet no person complained to us. The

register of employed gives the number as 103 men and 119 women. In the Laundry we took the names of 27 women there engaged. An extension of the Washhouse is in progress which will provide for shutting off the machinery for the safety of the Patients, and at the same time give more space for the necessary work of that department. If the plans of this extension have not been submitted to the Secretary of State, that step should be taken without delay. The Drying-ground contiguous to the Laundry is also in process of enlargement. Of the male Patients, 25 suffer from epilepsy, and on the female side 29 are afflicted in like manner. We have pointed out to the Medical Superintendent more than one way in which we think the continuous supervision of that class might be secured; it will probably involve some outlay in building, but the necessity for such supervision is great. The Infirmarys were, as noticed at previous visits, in an over-crowded condition, and they require enlargement in regard to day room space. The acutely suicidal cases are closely watched both by day and night, and no fatal results have followed the attempts made at self-destruction in this Asylum during the past ten months. The only serious casualties appear to have been the fracture of an elbow joint, and the fracture of a shoulder, neither attributable to neglect or ill-treatment. We found 1 man and 6 women in bed. The general health is fair, but there are a few cases of diarrhoea. Under Medical treatment, 17 men and 23 women are at the present moment registered. The wards are as we have usually found them, in excellent order, well ventilated, and in a perfect condition of cleanliness, and we continue to entertain a high opinion of the management of this Asylum, and of the kindness with which its patients are treated.

CHARLES PALMER PHILLIPS, } Commissioners  
JAMES WILKES, } in Lunacy.

#### ENLARGEMENT OF THE LAUNDRY.

In compliance with the Resolution of the Court at the last Easter Sessions, your Committee have during the past year completed the enlargement of the Washhouse and Laundry, under contract with Mr. George Cooper, of Aylesbury, at the cost of £333, and it will be in the recollection of the Court that at the same Sessions, the Court directed that the addition to the Dormitories for epileptic Patients, which the Commissioners in Lunacy recommended in their Report of their visit, on the 24th Nov., 1874, should be postponed; but it will be observed that the Commissioners, in the Report of their late visit, again point to the expediency of the enlargement of these Dormitories.

### CHRONIC AND HARMLESS FEMALE PATIENTS.

The Committee have, however, made arrangements with the Guardians of the Aylesbury, Wycombe, Leighton, and Newport Pagnell Unions for the removal of the chronic and harmless female Patients from the Asylum to the Workhouses of those Unions in accordance with the recommendation of the Commissioners in Lunacy, which has relieved the female ward of a small number of Patients.

### OXFORDSHIRE MALE PATIENTS.

During the past year the Committee have entered into an agreement (approved by the Secretary of State) with the Committee of Visitors of the Littlemore Asylum for reception of 25 male Patients into this Asylum at the current rate of maintenance, with the addition of the sum of 1s. 9d. per head per week, by way of rent for the Building, and this latter sum is payable by the County of Oxford, whether the full number of 25 such Patients are continuously in the Asylum or not; up to the present time 23 only of such Patients have been admitted.

### SUPPLY OF WATER.

Your Committee in their last Report expressed a fear that the decrease in the Supply of Water at the "Willow Spring" would render it necessary for them to seek a supply from other sources; they have, however, now the satisfaction of stating that the supply throughout the year has been abundant, although of the same hard quality as before noticed.

In the Appendix No. 1 will be found an Abstract of the County Treasurer's Accounts, as to the repayment of instalments of the principal monies borrowed and the interest thereon.

In the Appendix No. 2 is shown the amount expended in Repairs, and also the Additions, Alterations, and Improvements, under sec. 38 of the Statute.

In the Appendix No. 3 will be found a General Statement and Balance Sheet of the Maintenance Account.

And in the Appendix No. 4 will be found an Abstract of the Garden and Farm Account for the year 1875.

It is now the province of the Court of Quarter Sessions to appoint a Committee of Visitors of the Asylum for the ensuing year, pursuant to the 22nd sec. of the Act.

(Signed)

PETER THOMAS OUVRY,

CHAIRMAN.

## MEDICAL SUPERINTENDENT'S REPORT.

---

TO THE COMMITTEE OF VISITORS OF THE PAUPER LUNATIC ASYLUM  
FOR THE COUNTY OF BUCKINGHAM.

GENTLEMEN,

In compliance with the rules of the Asylum, the following Report of its operations for the year ending the 18th of December, 1875, is respectfully submitted.

The number of Patients under care at the beginning of the year was 388 (148 males and 240 females). The number admitted during the last twelvemonths was 139 (78 males and 61 females), making a total of 527 Patients under treatment during that time. The highest number in the Asylum on any day was 423, the lowest number was 384. The average daily number resident was 403, or 29 more than in the year 1874, while the number on the books at the close of the year was 414.

The number of admissions and of Patients under treatment has exceeded that of any former year, with one exception. Of the 139 admissions, 23 were transfers of Idiots and Imbeciles from the Oxford County Asylum, received under agreement with the Visitors of that Asylum, and 53 others were suffering from such forms of insanity or such complications as precluded the hope of recovery.

Sixty-five Patients were discharged, of whom 40 had recovered, 12 were discharged relieved and 13 were unimproved, of which latter class 12 were transferred to other Asylums. Of the recoveries recorded, 17 were males and 23 were females, the proportion of recoveries among the males

(omitting all calculation of the 23 Idiots and Imbeciles from the Oxford County Asylum) being at the rate of 32 per cent., and for the females 38 per cent., of the admissions during the year.

The deaths were 48 in number (26 males and 22 females), being in the proportion of 12 per cent. of the average daily number resident, or 9 per cent. of the total number under treatment. The causes of death were organic diseases of the brain 28, diseases of the heart and lungs 7, pulmonary consumption 3, diseases of the abdominal viscera 4, senile decay 5, acute rheumatism with pericarditis 1. The average age at the time of death was—for the men 57 years, for the women 49 years. One half of the mortality occurred among the Patients recently admitted, thus 8 (4 males and 4 females) did not live for one month after their admission, 6 (3 males and 3 females) died within three months, and 10 more (6 males and 4 females) had not been resident for longer periods than from 3 to 9 months.

The Coroner held one inquest during the year on the body of a private Patient who had been admitted only the night before his death, and who had got out of bed and died suddenly on the floor of his room in an epileptic fit. Verdict, "Death from natural causes."

Three female children have been born within the Asylum during the past year. In the first case, both mother and child left at the end of the month; in the second case the child was born dead, and the mother still remains in the Asylum; while in the third case the infant was removed by the father, and the mother in the course of a few weeks improved sufficiently to return to her home. A large number of the Patients admitted during the year had strong suicidal propensities, and though several attempts have been made, it is a ground for sincere thankfulness that owing to the vigilance of the attendants the cunning projects of these patients have been frustrated.

The general health of the Inmates has been good throughout the year, with the exception of several cases of diarrhoea in the autumn, and no serious accident to be recorded has happened.

The only structural alterations made during the past year consists of a

much needed addition to the Washhouse in the Laundry. This department had not been increased in size since the opening of the Asylum, though there are now more than twice as many Patients as were originally contemplated. No other changes have been made in the buildings, but a considerable amount of papering, colouring and painting has been done.

Early in the last spring, Mr. Hollyer, the Clerk and Steward began to suffer from illness, and though unable to continue to perform the active duties which had devolved on him from the opening of the Asylum, and in which he had always taken such an anxious interest, he, with the additional assistance which you granted him, was able to continue to supervise the business of his office, until latterly when his condition became so serious as to render it a matter of urgent necessity that he should give up all official duties.

Throughout the year the subordinate officers have performed their duties in a satisfactory manner, and but few changes have occurred. The Head Attendants of both divisions who have been connected with the Asylum for several years, and whose services are of great practical usefulness, are entitled to my thanks for their assistance and co-operation in the management of the Asylum.

To Mr. Dodsworth, who has now for upwards of two years acted as Assistant Medical Officer, my acknowledgements are due for his unvarying attention to all matters connected with the medical treatment of the Patients.

In conclusion I beg to express to you my warmest thanks for the kindness and support I have experienced at your hands during the past year, as well as for the substantial proofs you have given me of your approbation.

I am, Gentlemen,

Your obedient servant,

J. HUMPHRY.

## CHAPLAIN'S REPORT.

TO THE COMMITTEE OF VISITORS OF THE PAUPER LUNATIC ASYLUM FOR  
THE COUNTY OF BUCKINGHAM.

GENTLEMEN,

Years roll on in rapid succession, and the time has again come round when I have to lay before you a summary of my duties as your Chaplain.

These duties, a record of which has been laid before you at your monthly meetings, I have endeavoured humbly and faithfully to discharge. The character and disposition of the Patients vary so considerably that each case calls separately for the spiritual application of the Divine Word. To each and all I have given special attention, in the hope that they "may obtain mercy and find grace to help in" their peculiar "time of need." My heart's desire and prayer has always been to draw them in the grace of the Holy Spirit nearer to God in Christ; that, relying solely on their Saviour's perfect work and mediation, their Christianity may be of a practical character, a faith working by love.

Assuring you that I shall continue to give my best attention to the work entrusted to me,

I remain,

GENTLEMEN,

Yours obediently,

CHARLES LOWNDES.

Hartwell Rectory,

December 15th, 1875.

*of the County Rates, and the Interest thereof, pursuant to the 49th section of the Statute 16th and 17th Vict., cap. 97.*
