Bucks (to wit).—*To Her Majesty's Justices of the Peace assembled at the GENERAL QUARTER SESSION OF THE PEACE, to be holden at AYLESBURY, in and for the said County, on MONDAY, the 4th day of January, 1886.*

THE ANNUAL REPORT

OF THE COMMITTEE OF VISITORS ELECTED AT THE EPIPHANY SESSION, 1885, FOR THE PURPOSES OF THE LUNATIC ASYLUM, AT STONE, FOR THE PAUPER LUNATICS OF THE COUNTY, UNDER THE STATUTE 16TH AND 17TH VICT., CAP. 97, SS. 22 AND 62.

SHEWETH,—That your Committee Report (in the terms of the Statute) that the “State and Condition” of the Asylum have been satisfactory throughout the year, and the accommodation is sufficient and proper for the number of Male Patients.

The conduct and efficiency of the several Officers and Servants have been satisfactory.

The full number of Patients on the 18th day of December, 1885 (the day of the last Meeting of your Committee), was as follows :—

	M.	F.	TOTAL.
County Patients	145	246	391
Out-County Patients	9	9	18
Private Patients	11	5	16
On Probation ; County Patients	1	1	2
 TOTAL.....	166	261	427

The number of County Patients in the Asylum at the corresponding period of the year ending 20th December, 1884, was 391.

The Asylum is constructed to accommodate 210 Male and 270 Female Patients, in all 480.

The number of Patients admitted since the commencement of the year 1885 has been :—

	M.	F.	TOTAL.
County Patients	36	36	72
Out-County Patients	4	6	10
Private Patients	0	3	3
 TOTAL.....	40	45	85

The amount per head per week charged to the Unions in the County, having Patients in the Asylum during the four quarters, has been a uniform charge of 9s. 11d., being the same amount as was charged during the year 1884.

The following is a table showing the cost of maintenance :—

TABLE SHOWING THE COST OF MAINTENANCE.

- Column 1 contains the Cost of Provisions consumed by the Patients.
 " 2 the Cost of the Fuel and other Necessaries.
 " 3 the Cost of Clothing, Utensils, Surgery, Garden, and Miscellaneous Articles, after deducting the Receipts of the Establishment.
 " 4 the Amount of Salaries of Officers and Servants, and Cost of their Uniforms and of Provisions consumed by them.

1.	2.	3.	4.	Total of Columns Nos. 1, 2, 3, 4, being the Total Cost on which the rate of Maintenance of the Patients is calculated.	Rate of Maintenance per Patient per Week. Two of the Commissioners in Lunacy visited the Asylum on the 3rd of October, 1885, and the following is a copy of their Report upon that occasion :—

BUCKS LUNATIC ASYLUM,

October 3rd, 1885.

Of both sexes there are now 429 Patients in this Asylum ; one of the Females is absent on Probation. As a rule Probation precedes discharge hence. The Men on the Books are 170, the Women 259. Of the total number 397 are chargeable to Unions in the County, 17 are Out-County cases, 15 are Private Patients. We saw every Patient except the Woman away on leave. No one was noisy during our inspection, or in seclusion, or under restraint. In the Male Division 5, in the Female 10, were in bed. No. 10 Women's Ward is much overcrowded ; here are placed 42 Patients with three Nurses, and they include many excitable, and 25 epileptics. The superficial day space is 1,152 feet, which allows little more than 26 feet for each Patient, while 2 only are in the adjoining single rooms, as was the fact to-day. It seems that those now occupying the Ward are unfit for transfer to any other Ward in the Asylum. Difficulty in finding sufficient day space for the Females has arisen from the provision of increased sleeping accommodation for Women, by the building of the epileptic dormitory for them without any new day-room, and through the admission of more violent cases than heretofore in proportion to the quiet and easily managed. The same difficulty has not arisen on the Male side, as the vacant beds in that department are 40, the vacancies for Females being only 10. We are also bound to observe that single rooms for Women Patients appear also to be deficient in number, having regard to the number of troublesome cases now in the Asylum. The defects above noticed will, we trust, receive early consideration by the Committee. We can again report favorably of the general order and cleanliness which the Wards and Dormitories exhibit. The staff consists of 16* Male Attendants, as many Nurses*, besides a Workwoman, who may be reckoned as a Nurse. No. 5 Male Ward accommodates 39 Patients now, and there has been no addition to the 5† Attendants on duty.

* Should be 17 and 23.

† Should be 3.

This is the Ward occupied by the more turbulent Male Patients, and 16 epileptics are in it. It is, we think, to be regretted that the troublesome are in this Asylum associated together in larger numbers than the quiet in each division. Since the Commissioners' last visit, which was on the 13th June, 1884, the admissions have been 112 ; of the Patients admitted 15 had previously been Patients here ; 43 cases have been discharged on recovery, and 13 others relieved or not improved. All but three of the deceased were subjects of *post-mortem* examination. Four Inquests are recorded, the verdicts in each case were natural cause of death. The mortality has been somewhat higher than during the year preceding the visit of 1884. Last year 8 Men and 6 Women were upwards of 70 years old when they died, the oldest man being 92, the oldest Woman 82. Diarrhoea was not unknown in the Asylum and Village last Autumn, but it has not recurred this year. The few casualties which have occurred were made subjects of enquiry by us, but do not require notice here. The only Patient who made an appeal to us, which we do think it necessary to mention, is George Channer ; he appears to have been admitted here in August, 1881, by order of the Secretary of State at that time for the Home Department, and he appealed to us for his discharge ; he had been tried for house-breaking, and was acquitted on the ground of insanity, according to the entry in the Asylum Case Book. The Medical Superintendent considers him to be "recovered," and reported him as recovered to the Home Office last January, since which date no reply has been received from the Secretary of State. The Man is working steadily, and is, we understand, uniformly well behaved ; his age appears to be 23 years. The total number of Male Patients usefully employed here is 120 ; of Female Patients 138. Of these 42 of the men are Ward helpers, and 104 of the 138 are described as employed in the Wards and in needle-work. Fifty of the Male Patients are, we are informed, incapable of work, and as many as 121 Female Patients ; 49 Men work on the land, 34 Women in the Laundry. The Gardens are well kept up, and in good weather the Patients are often in them. Exercise beyond the grounds is by no means forgotten, parties of Women go out twice a week, and Men on Sundays ; last Sunday 80 of each sex, or thereabouts, walked out. The more violent and troublesome have separate out-door

exercise under special care. The Patients under Medical treatment, according to the latest registry, are 8 Males and 22 Females. The epileptics are 29 in the Men's division, 39 on the Women's side. There are 4 general paralytics of each sex. A large proportion of the Patients, especially of the Women, are feeble and old persons, and very few indeed in either division seem to be curable cases. Six Males have been secluded on 16 occasions, for a total of 142 hours, and 2 Females on 4 occasions for 35 hours. One Female has been restrained by bandages for 27 days and 8 hours, and 1 Male by polka for 17 days, both for surgical reasons. The structural works since June, 1884, have been improvements only in the Gas and Water supply. Dr. Grant, who succeeded the late Assistant Medical Officer, has written up the Case Books, and they do not now exhibit the arrears noticed in the Commissioners' last entry, so that our report can be even more favourable than that of 1884.

(Signed) CHARLES PALMER PHILLIPS, } Commissioners
 W. RHYS WILLIAMS, } in Lunacy.

No. 10 WARD FEMALE PATIENTS.

With reference to that portion of the Report of the Commissioners which calls attention to the insufficiency of space for the number of Patients in this Ward, and the deficiency of single Rooms for the separation of noisy and troublesome cases at night, your Committee have considered the subject, with the Medical Superintendent, and are of opinion that additional accommodation is required, and that at no distant period it will be necessary to apply to the Court for authority to make the outlay for enlarging the building, which Mr. Brandon estimates, approximately, will be at least £3,000.

COTTAGES FOR ATTENDANTS AND ARTISANS.

These three pair of Cottages have been completed, with the exception of fencing them from the adjoining Land, and three of the Cottages are occupied by Attendants.

In the Appendix No. 1 will be found an abstract of the Treasurer's Accounts, as to the repayment of instalments of the principal monies borrowed, and the interest thereon.

In the Appendix No. 2 is shown the amount expended in Repairs; and also the Additions, Alterations, and Improvements, under section 38 of the Statute.

In the Appendix No. 3 will be found a general statement and balance sheet of the Maintenance Account.

And in the Appendix No. 4 will be found an Abstract of the Garden and Farm Account for the year 1884.

It is now the province of the Court of Quarter Session to appoint a Committee of Visitors of the Asylum for the ensuing year, pursuant to the 22nd sec. of the Statute.

(Signed)

HENRY BODE,

CHAIRMAN.

MEDICAL SUPERINTENDENT'S REPORT.

TO THE COMMITTEE OF VISITORS OF THE BUCKINGHAMSHIRE COUNTY ASYLUM.

GENTLEMEN,

I have the honour to submit to you the Thirty-third Annual Report of this Asylum, for the period ending December 19th, 1885.

The number of Patients resident at the date of the last Report December 20th, 1884, was 426—167 Men and 259 Women. The number since admitted has been 85—40 Men and 45 Women; the total under care and treatment during that time being 511. The daily average for the year has been 427—168 Men and 259 Women; the greatest number in the Asylum on any one day was 432, and the smallest number was 417. Of the admissions 72 were chargeable to Unions in this County, against 61 in 1884; 10 came from Metropolitan districts, and 3 were Private Patients. Four Men and Twelve Women had been at some former time under treatment here.

The forms of Mental Disorder on admission were—Mania 39, Melancholia 18, Dementia 8, Epilepsy 9, General Paralysis 8, Congenital Mental Deficiency 3. Of these more than one-half were hopelessly incurable.

The condition of the Patients admitted during the year has materially influenced the ratio of recoveries. Whereas last year the proportion of both sexes discharged recovered amounted to 54 per cent., this year the number discharged as recovered amounted only to 27—13 Men and 14 Women, or in the proportion of 31·7 per cent. on the total number received. Three patients were discharged to the care of their friends, and two were transferred to other Asylums.

Fifty-two Deaths occurred during the year—24 Men and 28 Women. The mortality rate calculated on the daily average numbers resident was 12·1 per cent., and on the total number under treatment

10·1 per cent. This is a higher rate than has occurred for many years, and in looking over the causes of Death with a view to account for so high a ratio, it is evident that the increased mortality has occurred among the Female Patients, and is due principally to pulmonary consumption. An analysis of table No. 5 gives the following causes of Death :—

	M.	F.	TOTAL.
Cerebro-spinal Disease	14	...	19
Thoracic Disease	5	...	14
Abdominal Disease	1	...	4
Other causes	4	...	5
 TOTAL.....	24	...	52

Post-mortem Examinations were made in 50 cases. The average age at death was Males, 53 ; Females, 55.

Two Inquests have been held—one on the body of a Man 58 years of age, when a verdict was returned of "Death from natural causes," and the other on a Woman 70 years old, who was admitted with fracture of the arm and several bruises on her body caused by falling down a bank 8 days before her admission; in this case the verdict was "Death from senile decay, accelerated by the effects of a fall on the 13th inst."

Considering the large number of feeble and aged cases now resident, the general health of the Patients has been good throughout the year, and the Asylum has been entirely free from any infectious or contagious disorder.

I am thankful to be able to record that there has been no suicide or fatal accident, though there have been several attempts at self-injury. The casualties have been few and unimportant. Two Men sustained fractures, one of the arm and the other of one rib ; the causes of these accidents were carefully inquired into and reported on at the time of their occurrence. Both made a satisfactory recovery. One Female Patient was kept under restraint for surgical reasons for 27 days, and one Man for 17 days for similar causes.

One Birth took place during the year. The Mother (who had been here five times previously) left recovered at the end of a Month.

The attempts at escape have been few, two Men however got away ; one was brought back directly, the other after the lapse of 13 days, the greater part of which time he was in the care of the Police in the Metropolitan District.

A large amount of work has been done during the year in replacing worn-out material and re-painting and papering some of the Wards and the Recreation Room. A new Water Supply Pipe to the Gardener's and Engineer's Cottages, as well as to the Cottages built for the Attendants, has been laid ; a new and larger Gas Main for the supply of the whole building, the old one, laid 33 years ago, having become quite inadequate. A new Boiler and heating plates for the supply of warm air to Wards 10 and 12 has been fixed, and a large covered brick Tank has been built at the Willow Spring, to supersede the open Pond formerly used for the collection of water from the several Springs. In forming this Tank, Springs yielding an additional supply of nearly 10,000 gallons of water in 24 hours have been opened up.

Six Cottages for the residence of Married Attendants have been built and three of them occupied in November.

There has been no change among the principal Officers during the year, and I have pleasure in bearing testimony to the willing assistance rendered me by the Staff generally. To Dr. Grant my acknowledgments are due for the careful manner in which he managed the Asylum during my temporary absence and for his assistance in compiling the Statistical Tables attached to this Report.

I beg to renew my thanks to the Committee of Visitors for the kind support and confidence accorded to me during another year, and

Am, GENTLEMEN,
Your obedient Servant,
J. HUMPHRY.

E. HAWKINS, Tailor.

CHAPLAIN'S REPORT.

THE VISITING COMMITTEE OF THE BUCKS COUNTY LUNATIC ASYLUM.

GENTLEMEN,

I have much pleasure in presenting to you my Report for the year 1885.

The regular routine of my work is recorded in detail in the Chaplain's Journal, proceeding on the same lines as in previous years.

The regular Services are well attended, and, as far as one can judge, heartily appreciated, and entered into by a very large number of the Patients present. One cannot but feel that such attendance and such attention must be a very real help to all concerned, and in many cases a great comfort.

Holy Communion has been administered the usual number of times.

In visiting the Wards a short reading is in most cases practicable, and, by many present, evidently listened to with interest, whilst bedside visiting is often gratefully welcomed.

There is nothing of any special character that I have to report, but, as on every previous occasion, I beg to state that I have received every possible help in the performance of my duties from all the Officials with whom I have been brought into contact.

I remain, GENTLEMEN,

Your obedient Servant,

CHRISTOPHER RIDLEY.

Aylesbury,

December 15th, 1885.
