ANNUAL REPORT

OF THE

COMMITTEE OF VISITING JUSTICES,

For the Year 1884.

pauper patients in the two County Lunatic Asylums in the past year. On the 31st of December, 1884, the number of County paupers in confinement at Charminster and Forston was—Males, 194, females 235—total, 429, as against 422 on the corresponding day of 1883. At the same date the number of Out-County paupers was 28, of whom 14 were from Surrey; these last have been removed to their own County. The present number in this class is 16, all from the Town and County of Poole. There is one criminal patient confined under the Secretary of State's warrant. The number of Non-Paupers is 25 as against 24 at this time last year. The total number in the two Asylums is 217 males, 254 females—total, 471.

The admissions have been 71—32 males, 39 females. Of these 9 males and 20 females have been discharged 'recovered,' and 4 males and 2 females discharged 'improved.' This gives a percentage of recoveries on admissions of 40.8—a satisfactory proportion. The health of the females at the time of their admission was generally good, and their affliction more recent. To these facts the Superintendent attributes in a great measure the result that the recoveries of the females show a double percentage as compared with those of the males. It is satisfactory also to observe that there is only one case in the year of the readmission of a patient who had previously been under treatment.

The health of the patients generally has been good. There has been no accident of any importance, nor has any inquest been held. The deaths have been 26-11 males, 15 females—a low percentage, being about $5\frac{1}{2}$ on the daily average of the patients.

The general care and management of the two Asylums continues, as for so many years past, in the hands of the same Medical Superintendent, Mr. J. G. Symes. He deserves, as heretofore, the cordial recognition by the Visitors of the efficient and faithful discharge of his arduous duties.

Mr. Peacock, who for many years has been Medical Officer in charge of the Forston Asylum, and in that capacity had given the fullest satisfaction to the Visitors, resigned his office about the middle of the year, and on July 7th Mr. Davis, who had previously been an assistant in the Borough Asylum of Portsmouth, was appointed to succeed him. Both Mr. Macdonald, who was appointed to the Charminster Asylum last year, and Mr. Davis are well reported of by the Superintendent and promise to be useful and trustworthy officers.

The Matron at Charminster, Prudence Dewey, resigned her office at last Michaelmas, and was granted a pension of £1 per week in consideration of her exemplary conduct as matron for the long period of 37 years. The recently appointed matron at Forston has left, and Mrs. Murrant, the matron at the Bridgwater Union Workhouse, has been appointed in her place.

The Head Attendants continue to give satisfaction to the Visitors and the Superintendent, and the subordinate attendants, with two exceptions, have performed their duties with care and consideration for the patients; the exceptions alluded to were not of an important character, and were duly disposed of by the imposition of a moderate penalty in each case.

In consequence of a notice served on them by the Local Sanitary Board, the Visitors have had under their consideration for some time past the disposal of the Sewage at Forston Asylum. Several modes of dealing with it have been submitted to them. At their request the Superintendent visited the works at Taunton, and, in consequence of his favourable report, the process of upward-filtration has been adopted and carried out under the direction of Mr. Norman, the County Surveyor in Somerset. The works have recently been completed, and are now in operation, and so far satisfactory. The bills are not yet all paid, but the expenses will be about £200, which will be defrayed from the Non-Pauper and Out-County Surplus Fund.

The Asylums were visited on the 21st and 22nd of last August by two of the Metropolitan Commissioners in Lunacy. They report favourably of the condition of the patients and the two Asylums in almost every respect. The chief points to which they call the attention of the Visitors with a view to alteration or improvement are the deficiency of adequate accommodation for

three of the wards. As observed by the Commissioners, the former want as been met, perhaps not altogether satisfactorily, by the appropriation of one of the men's upper galleries and the rooms connected with it at Forston for the use of the females, and on the second point the Visitors will keep in view the recommendation of the Commissioners, but, having materially increased the number of attendants in the last few years, they are unwilling to incur the serious expense of a further addition to them unless they find a real necessity for such a step.

The maintenance rate has stood at the same figure, 1s. 2d. per diem, throughout the year.

The Loan Account is as follows :-

Principal Paid off	Money	Borrowed			£ 41,000 37,800	0	d. 0
	Re	emaining d	ue	 	3,200	0	0

The whole of this sum is due to the Police Superannuation Fund.

(Signed)

JOHN FLOYER,

Chairman.

REPORT

OF THE

COMMISSIONERS IN LUNACY.

Dorset Asylums,

August 20th and 21st, 1884.

IT is about 10 months since two members of our Board last visited these Asylums, since which time the changes that have taken place have been the following:—

Admitted	 	 	M. 25	F. 36	T. 61
Discharged			8	14	22
"	ieved" a mproved	[ot]	17	1	18
Died	 *	 	12	15	27

The number of patients on the books is 468-212 males and 256 females: 62 of the former and 75 of the latter are at Forston. the remainder, excepting one patient of each sex absent on trial, are at Charminster. Thirteen males and 11 females are private patients, for whose maintenance from 10s. to 14s. per week is paid. The rate for patients belonging to the County is 8s. 2d. There are now 14 vacant beds on the male and 10 on the female side. At the time of our colleagues' visit 15 men were boarded in these Asylums belonging to Surrey who have since been transferred to their own county, but there are here now 5 more women than there were last year, and our colleagues then reported the Asylums full on the female side. Accommodation has been found for the women by appropriating a male ward at Forston to female patients, but we desire to repeat the remark made in the last entry that "this cannot be regarded as a satisfactory arrangement or as other than a temporary expedient," and we must express a hope that the question of providing increased accommodation for the insane pauper lunatics belonging to the County of Dorset will receive early attention at the hands of the Committee.

Some of the floors at Forston are much worn, and if the Asylum there be continued much renovation will be required.

During the course of our inspection we saw every one of the patients in residence, gave to all an opportunity of speaking with us, and listened to their complaints, which were exclusively confined to alleged undue detention. The wards were clean, the bedding good and sufficient, and the patients themselves were properly dressed. The dinner served was of good quality and seemed generally liked. The behaviour of the patients was with very few exceptions quiet and orderly. No where did we detect the presence of sewer gas, and the ventilation of the wards and dormitories was good. We examined the various rooms with the view of ascertaining whether alternative exits were everywhere available in the event of fire, and except in one dormitory, which we pointed out to Mr. Symes, we were satisfied that the escape of the patients was fairly assured. The attendants seemed to us to be well selected and up to their duties. They were neatly clothed, but we have to remark that to neither sex is uniform given, and we think this should be supplied to them. There are 27 men and 24 women engaged as attendants; these numbers include 2 headattendants in either division, 3 night attendants on each side, and 6 artizan and 3 laundry attendants. Only 3 of each sex have been less than a year in the Asylums, whilst 18 men and 14 women have lived many years in the Asylum service.

The health of the patients continues satisfactory. We saw 4 men and 6 women in bed, and 8 and 11 respectively were registered last week as being under medical treatment.

The epileptics are 25 men and 20 women, who are under the charge of a night-attendant in each division, whose exclusive duty it is to watch them throughout the night; and though the supervision is not strictly speaking continuous, it is as good as the structural arrangements of the Asylum will permit. Seclusion has only been required in the case of 2 patients of each sex on 3 and 2 occasions and for a total of 33 and 15 hours. Restraint was found necessary by the jacket for surgical reasons for 1 man and 1 woman for 48 and 42 hours.

No death appeared to the Coroner to require an inquest to be held thereon, but autopsy verified the assigned cause of death in 22 out of the 27 cases. There is nothing to notice in the various causes of death, which are all ascribed to diseases ordinary in Asylums.

We have no important structural improvements to notice as having been completed or commenced since the last visit, except that filtering tanks for the sewage have been provided at Forston.

In some of the wards the staff did not appear to us to be too strong, and we think that No. 2 male and 2 and 4 female wards

should never be left with less than 2 attendants actually on duty in the wards. In the first ward mentioned there are 25 epileptics, in the second 20 epileptics, and in the last 48 patients with only two attendants assigned to each ward. It is obvious that with this staff the wards must sometimes be left in the care of one attendant only, which does not seem to us to be sufficient for the class of patients warded in these three wards.

We see from the returns furnished us that 138 patients were present at Divine Service at Charminster last Sunday morning and 42 at the evening service at Forston. The same number of patients attend the week-day prayers at Charminster and rather a smaller number than on Sundays join in the prayers at Forston on week days.

The men who walk beyond the grounds are 79 in number, and the women are 67.

The men who are in some way useful are 104 in all, 49 of whom work on the land and 38 are ward cleaners only, the rest being engaged in various trades, whilst 34 of the women work in the laundry, 17 help the cook or are employed in the offices, 25 clean the wards and the remainder knit or sew. Mr. Peacock who was in charge at Forston has left and is about to take up the position of Medical Superintendent of a licensed house in the Midland Counties, and Mr. Davis who was formerly at Bethnal House has been appointed in his place.

The rest of the principal officers of the staff here remain as at the last visit.

W. E. FRERE, Commissioners REGINALD SOUTHEY, in Lunacy.

CHAPLAIN'S REPORT.

THE Chaplain has the honour of submitting his Report for the year just closed.

Divine Service has been conducted as usual on Sundays and Weekdays throughout the year in the Chapels of the two Asylums. A short form of morning prayer has been read daily at Forston at 8.30. On Sundays, morning and evening service with a sermon has been read at Forston and, at the new Asylum—alternately, morning and evening at each. On Wednesdays there has been an evening service with a sermon, weekly, at the new Asylum. And on Thursday evenings a similar service has been held at the Forston Asylum.

The new Hymnal, which was introduced a few weeks back, is much liked by the congregation; the bright and stirring tunes to which many of the hymns are set, have helped to add much heartiness to the musical portion of the service.

The Holy Communion which has been celebrated monthly, has been but poorly attended, the number presenting themselves, being usually 12 or 13 at the new Asylum; and 5 or 6 at Forston.

The wards have been regularly visited by the Chaplain, and the Holy Scriptures and other books read to those who were disposed to listen; and the sick have been visited from time to time.

During the past twelvemonth nineteen burials have taken place in the Asylum Cemetery.

F. C. CARDEW, Chaplain.

January, 1885.

ANNUAL REPORT

OF THE

MEDICAL SUPERINTENDENT.

To the Chairman and Visitors of the Dorset County Asylums.

At the conclusion of another year I beg respectfully to lay before you the usual Statistical Tables, a careful perusal of which will show the general state and condition of the Asylum, and the work done, with its results.

On the 1st of January, 1884, there were resident in the two Asylums 474 Patients, of whom 14 males and 10 females were private or non-paupers, and 209 males and 241 females, paupers belonging to this county—these included, however, 9 men and 5 women belonging to the Town and County of Poole.

Admissions during the past year were 76—31 males and 39 females—paupers, and 4 men and 2 women non-paupers. They were of the usual average character as to general mental and bodily state—many were very weak and debilitated—13 being over 60 years of age, 4 over 70, and 1 was 84; these gave but very slight hope of amendment, and recovery was out of the question.

The Discharges were 46—of whom 25 were men and 21 women; of these 8 men and 20 women were recovered. Fourteen males were returned to the Surrey County Asylum.

The Deaths during the year were 11 males and 15 females—less than for several years past, being a percentage on the average number resident of a little over 5.

Several of these patients have lived here for a very long period. Two were admitted in 1846, therefore, had resided 39 years; 1 in 1859, 26 years; 1 in 1862, 23 years; and 2 in 1863, 22 years. There are now only 12 patients living who were here when first I became Medical Superintendent in 1854.

The general health of the patients has been good,—the accidents few and very unimportant, and no inquest has been considered necessary.

The weekly maintenance rate has been 8s. 2d. throughout the year, and I think is not likely to get lower; the extra cost of having two Asylums necessarily keeps the rate higher than if we were all together in one building.

The following Table, taken from the Commissioners' Annual Returns, published August, 1883, will give a fair general idea of Asylum charges:—

Asylu	ıms.	Averag re- varyi	sider	nt			-	Rate		Me aver Amo	age
		varyi	mg i	TOIL				00 11			d.
6		182	to	279		s. 9	d. 2	to	s. d. 12 10	 9. 10	8

*13		400	,,	490	***	8	2	,,	12 10	 9	9
9		500	,,	580		8	2	,,	$10 9\frac{1}{2}$	 9	31
8		613	,,	690		8	0	,,	9 5	 8	10章
4		719	,,	771		8	33	,,	9 11	 8	83
4		818	,,	869		8	6	,,	10 6	 9	71
1		949				10	0			 10	0
9		1035	,,	1410		7	7	,,	11 0	 9	03
3		1736	,,	1888		8	33	,,	10 6	 9	71/2
1		2230				10	1			 10	1

^{*} Dorset Asylum is one of the 13; two others only charging as ours, 8/2, and five were lower—namely, from 7/3 to 8/04.

Another friend has left the Asylum during the past year. Mr. Peacock had been Assistant Medical Officer at the old Asylum for several years, and had invariably been liked and respected by us all. His leaving was a source of considerable regret, but mixed with much real pleasure knowing he is gone to a home where he will have full scope for all his energy and activity—Ashwood House Asylum, Kingswinford, near Dudley, has now the benefit of his kind services, and I feel certain he will be as thoroughly appreciated there as he was here. Mr. A. H. Davis, who has had much experience in several private Asylums and also in the Asylum for Portsmouth under my old friend and former colleague, Mr. Bland, was elected in July to fill Mr. Peacock's post at Forston, and thus far I am enabled to speak very favourably of his services.

Mr. Macdonald continues with me and is in all respects a good and very effectual helper—by his constant care and attention materially lessening my work and relieving me of much worry and anxiety: to him I am again indebted for the great assiduity and attention he has given to the preparation of the various Tables.

The Matron of this Asylum, Mrs. Dewey, who has been in the service thirty-seven years, felt herself in the summer obliged to retire, and your appreciation of her long and faithful labor was materially shown by the pension granted her. I can only add how much I shall regret her leaving—indeed, she is now the only Officer left who was here when first I came.

The changes amongst the attendants, nurses, &c., have not been more than usual. I have experienced great help and assistance from the Head Attendants, both male and female, and desire thus to record my sense of their services.

The various amusements and occupations continue as for years past—indeed, with a population such as ours it becomes a source of considerable difficulty to make any material alteration. The constant and gratuitous supply of papers from the Proprietors of the Western Gazette, Sherborne Journal, Dorset County Chronicle, Dorset County Express, Poole Herald, and Dorset Telegram, in addition to many other daily and weekly publications, continue to be a source of great and lasting pleasure.

I have now completed thirty years' service as your Medical Superintendent, and with all sincerity and earnestness desire to thank you for your great and unvarying kindness and consideration, and feeling sure you will still accord me the same wise counsel and advice in all my times of need, I humbly hope I may continue to merit your approbation and goodwill so long as I am able to continue your Chief Asylum Medical Officer.

I beg to remain, with true respect,

Your faithful and obliged Servant,

J. GUSTAVUS SYMES,

Medical Superintendent.

DIETARY.

BREAKFAST.

Males.—6ozs. bread, 1 quart gruel—daily. Females.—5ozs. bread, 1½ pint gruel—daily.

SUPPER.

MALES.—8ozs. bread, 2ozs. cheese, or ½oz. butter; beer, ½pint; or 1 pint tea or coffee—daily.

FEMALES. -60zs. bread, 20zs. cheese, or 20z. butter; 1 pint

tea or coffee-daily.

DINNER.

SUNDAY.—16 to 18ozs. suet pudding, with treacle sauce, and the addition of fruit in summer, and dried fruit in winter.—

Males and Females.

MONDAY. - 3ozs. meat, vegetables not less than 1lb. - Males and Females.

Tuesdays. - 5ozs. meat, vegetables as on Monday.

Wednesday. -2 pints soup, 202s. meat, 50z. bread - Males.

1½ pint soup, 4ozs. bread—Female.

THURSDAY. — Meat pie, 12ozs. — Males; 10ozs. — Females. Vegetables as on Monday.

FRIDAY. - 50zs. meat, vegetables as on Monday.

SATURDAY .- As on Monday.

Half-pint of ale daily for dinner, except on Wednesday, both Males and Females.

Women working in laundry have tea and bread and butter twice a day extra on three washing days, and once a day on three ironing days; also bread and cheese and ½ pint of ale for lunch.

Women scrubbing in wards have bread and cheese daily for

lunch, with pint of ale. Men the same.

Men working in shops or on the farm have \(\frac{1}{2} \) pint ale extra at eleven and four o'clock.

Sick Diet as considered necessary by the Medical Superintendent.

Tobacco and Snuff distributed as directed.

Attendants and Nurses are all allowed 7lb. bread, ½lb. butter, 2½ozs. tea, and 8ozs. sugar weekly—in addition they dine in the Servants' Hall, without restriction as to quantity of meat, vegetables, &c., and for supper bread and cheese, ad libitum. Males—2 pints ale. Females—1 pint daily.

N.B.—"All meat is weighed after being cooked, and free from bone."

The Milk Gruel is made with the best oatmeal and milk. Meat Pie contains 3ozs. of meat without bone. Soup is made from liquor of boiled meat, thickened with Pearl Barley, Rice, Pea Meal, to which are added Vegetables, Herbs, &c. Fish for Dinner once a fortnight.

Ainuntiul Aqqounts.
