REPORT

OF

The Committee of Visitors

OF THE

County Lunatic Asylum,

AT THE

EPIPHANY SESSIONS, 1858.

Southampton, to wit.—At the General Quarter Sessions of the Peace of Our Sovereign Lady the Queen, holden at the CASTLE OF WINCHESTER, in and for the said COUNTY OF SOUTHAMPTON, on Monday, in the first Week after the twenty-eighth day of December, One Thousand Eight Hundred and Fifty-seven, to wit, the fourth day of January, in the twenty-first year of the Reign of Our Sovereign Lady VICTORIA, by the Grace of God of the United Kingdom of Great Britain and Ireland Queen, Defender of the Faith, and in the year of our Lord One Thousand Eight Hundred and Fifty-eight, before THE RIGHT HONORABLE CHARLES VISCOUNT EVERSLEY, Chairman, SIR WILLIAM HEATHCOTE, BARONET, and others their Fellows, Justices of our said Lady the Queen, assigned to keep the Peace of our said Lady the Queen, in the County aforesaid: and also to hear and determine divers Felonies, Trespases, and other Misdeeds, committed in the same County:—

*By the Court.*

ORDERED, that the Report of the Committee of Visitors of the County Lunatic Asylum, presented to this Court, be printed, as soon as the Receipt and Expenditure Accounts are duly received, and that Copies be transmitted to the several acting Justices, and to the Boards of Guardians of the several Unions within the County.

FARR.

# REPORT.

---

THE Committee of Visitors of the County Lunatic Asylum, beg leave to submit to the Court of Quarter Sessions, their Annual Report of the Institution under their care and inspection, in conformity with the provisions of the 16 and 17 of Vic., c. 97.

The Committee propose, according to the arrangement of subjects adopted in their former Reports for previous years, to state, in the first place, the number of Patients resident in the Asylum at the present time, the Admissions during the year 1857, the Discharges and Deaths during the same period; and, secondly, to lay before the Court the estimated Receipts and Expenditure for the past year; and, afterwards, briefly to advert to such other matters connected with their duties, as it appears to them desirable to notice.

General  
Statement.

At the last Meeting of your Committee, held at the Asylum on the 26th of December, 1857, the Books shewed that the number of Patients then residing therein, was 495, viz.:—230 Males, and 265 Females, being an increase of no less than 97, as compared with the number of Patients

in the Institution at the termination of the year 1856. The Patients are composed as follows:—

	Males	Females	Total
Chargeable to Parishes in the County	131	161	292
„ to County .. ..	9	4	13
„ to Boroughs in County ..	65	84	149
„ to Boroughs and Parishes } not in County .. }	19	16	35
Private Patients .. ..	6		6
Total ..	230	265	495

Admissions.

During the last year, 210 Patients have been admitted, viz.:—91 Males, 119 Females.

Average Daily Numbers.

The average daily number of Patients in the Asylum has been 471, being 108 in excess over the number of the preceding year.

Deaths.

The number of Deaths has been 30 Males and 21 Females. Total 51—which gives a percentage of rather more than 10 upon the daily average of the number of Inmates.

Cures and Discharges.

The number of Recoveries has been 17 Males and 33 Females: Total 50. Discharged Unimproved, or transferred to other Asylums, 3 Males and 1 Female. Discharged in Improved condition, 3 Males and 5 Females. Total number taken off the Books, 113—including Deaths.

Increase of Patients.

From the above Returns it will be apparent, that the great increase in the number of Patients during the present year, is to be mainly attributed to the reception of the Portsmouth and Southampton Borough Patients, who were admitted, under Contract, in the Months of January and March, and now reach 129 in number.

With regard to the actual Financial state of the affairs of the Asylum for the past year, your Committee are not in a position this day to lay the same accurately in detail before the Court, as the last Quarter's Accounts have not yet been received, nor the Bills audited: all that the Committee of Visitors can now produce is, an approximate estimate of the Receipts and Expenditure, and, by permission of the Court, they propose to remedy this unavoidable deficiency, by supplying a detailed Account of the past Annual Receipts and Disbursements for publication as soon as practicable, should the Court deem it expedient that the present Report of the Committee be printed and circulated amongst its Members, as in former years.

Financial  
Statement.

The nearest approximation of the Receipts and Expenditure Account which the Committee are enabled this day to produce shews, that the Receipts during the past year, from all sources, exclusive of balances, have amounted to £12958 : 12 : 4, and the Expenditure, to £13448 : 10 : 1, in which latter Sum is included a payment of £582 : 3 : 10, constituting the first Instalment, together with 1 year's Interest upon the Loan of £1500, raised by the authority of this Court in November, 1856, and £720, balance due to the Contractors for the erection of the New Workshops, Lodges, and Mortuary Chapel.

The weekly charge for Care, Maintenance, Clothing, and Medical treatment of each Patient, whether belonging to the County or Non-contributing Boroughs, has been reduced during the present year, from 9s. 6d. to 9s.: which Sum, combined with the produce arising from the Farm, has been found sufficient to meet the Expenditure under those heads, and to leave a Balance in the Treasurer's hands.

Weekly Charge.

## New Works.

The only work of an especial character which the Committee have found it incumbent upon them to carry out during the present year, has been in connexion with the Gas Works: these works, as originally constructed, have been found insufficient, but more particularly so, since the additional Buildings were erected the year before last. The opinion of an experienced practical person (the Superintendent of the extensive Gas Works at Southampton) has been taken upon the subject, and, by his recommendation, the whole of the apparatus, with the exception of the gas-holder and condensers, has been reconstructed and reorganized, leaving the building itself untouched. Your Committee are led to expect, by the adoption of these arrangements, that not only a sufficient quantity of gas will be obtained, of a superior quality, but that an economy in the consumption of coal, and wear-and-tear of retorts, will be the result.

Appointment  
of Assistant  
Medical Officer.

The Committee have to report, that the Assistant Medical Officer resigned his situation in November last, and his place has been filled up by the appointment of Mr. G. Addison, whose testimonials were of the highest character.

Criminal  
Lunatics.

The Committee have to bring before the notice of the Court a growing evil which, in their opinion, ought to be remedied by the intervention of the Government; they allude to the increased and still increasing number of Criminal Lunatics, for which they are called upon by the Secretary of State to provide accommodation. There are in the Asylum, at the present moment, no less than 17 Patients of that class. Many of the Pauper Patients, who have committed no Offence against the Laws of their Country, are extremely sensitive upon this point, and resent the association of such persons being forced upon them; and considerable danger arises by this

constant source of irritation, that the recovery of both classes of Patients is thereby retarded.

Your Committee are far from wishing that Lunatics of this description should be detained in the gloomy cells of a Prison, or be deprived of that care and enlightened Medical treatment which experience has shown may be safely extended to the Insane generally, but your Committee contend that the only efficient remedy for this alleged evil (which must be felt more or less at all similar Institutions) is, for the Government to erect a State Asylum.

Practical evidence of the expediency of making separate provision for Criminal Lunatics by the State, is not wanting, as in Ireland an Asylum has been erected at Dundrum, for the reception of this particular class of Patients, and the results, both as regards the County Asylums, which have been relieved from the presence of these intruders, and the State Institution itself, are reported by the Commissioners in Lunacy for that Country, to be highly satisfactory. The Committee of Visitors therefore venture to express an earnest hope, that those Members of this Court whose legislative position in this County can give weight to their counsels, will make it their business to press this subject home on the consideration of the Government; and, that the evil now complained of, and acknowledged to exist by the executive Government, will be speedily remedied by the removal of the Criminal Lunatics to an Asylum erected for this special purpose.

Your Committee regret they cannot repeat their former favorable record of the conduct of the whole of the staff of servants and attendants. In one or more instances during the past year, male Servants have been guilty of grossly

Conduct of  
Officers.

misconducting themselves, and have been dismissed. The Committee have found much difficulty in supplying well-qualified persons to fill the vacancies: they hope, however, by having rendered their assistance to the Medical Superintendent in the selection of applicants, and by a strict examination as regards the characters of the candidates, as well as their qualifications, that the result will be to raise, in future, the moral tone of those constituting this very necessary portion of so large an establishment.

Meetings of  
Committee.

During the year 1857, the Committee have held 19 Meetings, including those of the House Committee; and they feel much pleasure in being able to record their general approval with the interior arrangements and management of the Establishment; and they consider it a pleasing duty they owe to Dr. Manley, to express their appreciation of the skill and energy which he has displayed in the care and medical treatment of the Patients committed to his charge.

Superintendent's and  
Chaplain's  
Reports.

The Annual Reports of the Medical Superintendent and Chaplain have been received, and will be found appended to this Report.

Appointment  
of Visitors.

In conclusion, the Committee have to remind the Court that it is the privilege and duty of the Justices, now present at this Epiphany Sessions, under the provisions of the 16 and 17 Vic., c. 97, to appoint the Committee of Visitors for the year 1858.

WM. HANS SLOANE STANLEY,

*Chairman.*

WICKHAM,

*December 24th, 1857.*

MR. CHAIRMAN, MY LORD, AND GENTLEMEN,

In its general features my present Report will not materially differ from the two former ones, though, during the past year, my ministerial experience has been somewhat of a chequered character. The regular Services in the Chapel, and the shorter ones in the Wards, have been fully attended, as usual, with the same order and decorum—the same apparent interest on the part of the majority of the Patients; and, although in a large proportion of cases, it is impossible to determine to what extent the Services are appreciated, still, to many, on their own voluntary testimony, they have proved a source of instruction, support, and consolation. There have come under my observation a few cases of a peculiarly interesting character, which well may encourage one in setting forth, with all earnestness and simplicity, the great truths of the Gospel, assured that it cannot be in vain. The Holy Communion has been administered, four times during the year, to a small number of Patients and Officers of the Asylum. It has been my duty to perform the Burial Service thirty-four times since my last Report, and, it will thus be seen, that the number of interments in the Cemetery has not reached the anticipated average.

My thanks are due to the Committee for their recent grant of Testaments and Prayer Books—a grant rendered very desirable from the increase of Patients and other causes. On a former occasion I spoke of my anxiety while ministering to the spiritual necessities of the afflicted Inmates of the Asylum—never willing to lose sight of those other Members of the Institution, on whom the comfort of the Patients, and the general well-being of the place so materially depended, and some circumstances have occurred in the past year, which have caused me deep concern, and impressed me with the great importance of this part of my duty. It will be unnecessary for me to make more especial reference to these occurrences, but, as Chaplain, it would be impossible for me to pass them over in silence; they shew how the anxieties of your Chaplain can be more assimilated to those of a Parish Priest, than could at first be conceived, and they have brought out in a stronger light, that truth, of which the Committee cannot but be fully convinced, how inseparably connected with the welfare and reputation of the Asylum, is the character of those to whom any office is entrusted.

That I may be guided aright in all my future ministrations, and that a more extended blessing may accompany my labours, is the earnest prayer of

Your very faithful and obedient Servant,

G. H. MASON.

*To the Chairman of Committee,  
Hants County Lunatic Asylum.*

HANTS COUNTY ASYLUM,

*December 26th, 1857.*

MR. CHAIRMAN, MY LORDS, AND GENTLEMEN,

I have, to day, the honor of presenting to you the fifth Report of this Establishment, which contains the statistics and principal occurrences of the year 1857.

On December 25th, 1856, there were, in the House, 398 Patients, of whom 192 were Males, and 206 were Females; and, of this number, only 30 Males, and 31 Females, could be fairly considered curable. During the past 12 months, 210 Patients have been admitted, of whom 91 were Males, and 119 were Females. A very large proportion of them were Chronic Cases transferred from another Asylum, and, as would naturally be supposed, of a very unfavorable character as regards recovery. An analysis of them confirms this supposition, for only 30 Males, and 52 Females, could be selected as probably curable.

Thus, there have been in this Institution, during the year, 607 Patients, only 143 of whom presented any reasonable prospect of recovery. Of this number, 50 have been discharged recovered, and 8 improved, whilst several others are progressing in a very favorable manner.

Since the opening the Asylum, the Daily Average Number of Patients has steadily increased each year. This year, having been 471, it has exceeded that of the former year by 108.

This extraordinary increase is accounted for by the fact, that all the Lunatics belonging to Portsmouth and Southampton, who were formerly in the Licensed House at Camberwell, are now Inmates of this Establishment.

No unusual number of admissions can reasonably be calculated on during the ensuing year; for it is satisfactory to learn, that the number of Pauper Lunatics, not in the Asylum chargeable to parishes in the County, which on January 1st, 1855, reached 536, was, on the first of the present year, only 333.

During the autumn Diarrhœa, which was very prevalent in the neighbourhood, appeared to some slight extent in the Asylum, and one of the Nurses, and a few Patients, suffered at that time from Dysentery, but happily no death was either caused or accelerated by the Epidemic. In other respects, the Patients have been remarkably healthy during the past year.

Several accidents have happened both to Attendants and Patients.

One Attendant accidentally fractured one of the bones of his fore-arm, and was, unfortunately, during an exceedingly hot day in June, attacked with lock-jaw, which terminated fatally in a few hours.

The House Porter, whilst rendering assistance in secluding a violent Maniacal Patient, was thrown down and his knee-cap dislocated

A Male Epileptic Idiot Patient slipped off a night-commode, and fractured his right arm.

Lastly, a Female Patient slipped down two stone steps in the Laundry, and broke the small bone of her arm. The three last cases have all done well.

One Inquest has been held at the Asylum during the year. A Male Epileptic Idiot, who had been recently admitted, turned on his face in a fit, and was found dead in his bed. The Night Watch had seen him an hour and a half before, when he was sleeping comfortably. Every precaution had been used, in this, as in other Epileptic cases, to prevent such an occurrence, but the Patient had placed his sheet over the open-work pillow on which he slept, and thus destroyed its usefulness. Eleven other Patients slept in the same room with him, but gave no notice to the Ward Attendant. This is not at all surprising, as death appeared to have occurred without a struggle.

During the past year 51 Patients have died, and a reference to the obituary shows that many, indeed, the large majority of them, passed off from a general decay of nature: and our Surgery Books and the extra Dietary Tables prove the low type of illness that has predominated in the Asylum throughout the year. Indeed, with an increase of about one-fourth in the number of our Patients, our wine and spirit account has been doubled.

This year, I need scarcely refer in detail to our Mortality Table; the remarks offered last December being equally applicable to the present time, as many of our Patients were admitted in a sinking condition.

One Female Patient has, this year, been confined in the House. According to her own statement, a Baker Attendant, formerly employed in the Asylum, and who absconded suddenly, was the father of the infant. Information was immediately given to the Board of Guardians of the Union from which the woman had been sent; and a searching inquiry was instituted by the Committee of Visitors without delay. The Patient was suffering from Recurrent Mania, and, at the time of conception, was in a convalescent state, and under probation prior to anticipated discharge—assisting in the Servants' Hall. The child survived, and, up to the present time, has continued in the Asylum, from which I have recently recommended its removal to the Workhouse.

In my last Report, I alluded to the Escape of a Male Patient, whom I had previously sent out for one month on trial, but who was brought back to the Asylum, having been found by the Police in a state of Intoxication. During the last eighteen months, he has resided in this parish, and, although, he has been constantly under their supervision, neither the Parochial Surgeon, nor Officers, have considered it necessary, hitherto, to procure his re-admission into the Asylum. I cannot, therefore, but think, that my recommendation for his discharge, was not only warranted, but judicious.

On examining the Recovery Table, it will be seen, that No. 533 has been discharged. I allude specially to this case,

as it is that of the unfortunate woman, who, in my Report of 1855, I mentioned, as having lost her eye-sight, by an act of self-mutilation.

The Amusements of the Patients, and Walks away from the Asylum, have continued as formerly; and but little change has occurred in the management during the past year.

The alterations which call for notice<sup>\*</sup> are the following:—

Five Male Patients, with an Attendant and his wife, now occupy one of the Lodges, and are daily employed on the Farm.

The Male Refractory Patients have been removed to a more cheerful Ward, on the upper story, and the gallery they formerly occupied, converted into a Dining Hall for the Farm and Garden Patients, upwards of 100 of whom now mess together.

The Laundry Ward, for 26 Female Patients always engaged in the Laundry, has been opened, and a Farm Ward, for the same number of Males, will shortly be occupied.

Very few Patients have this year attempted to escape, and the expenses incurred in their re-capture has scarcely exceeded 50 shillings.

The Services in the Chapel and in the Wards have been continued, and the attention paid by the Patients present at them has been very pleasing.

During the last twelve months, 34 Patients have been interred in the Asylum Cemetery, and, in many instances, the Friends have followed the bodies to the grave.

Tables, similar to those furnished on former occasions, accompany this Report, and the two last Tables give the daily number of Patients employed, taken casually at quarterly intervals from the Reports, and the quantity of ground cultivated by them.

The List of Articles, Made and Repaired in the Workroom and Shops, appears in the Appendix.

Thanking the Committee for the continuance of their kind support in the performance of my duties, during the past year, I beg leave to subscribe myself, with great respect,

MR. CHAIRMAN, MY LORDS, AND GENTLEMEN,  
Your obedient faithful Servant,  
JOHN MANLEY.

*To the Committee of Visitors of the  
Hants County Asylum.*

TABLE, No. 1,

Shows the number of Patients in the Asylum, December 25th, 1856, the number of Patients admitted and discharged, during the past year, and the number remaining in the House on the 25th December, 1857.

	TOTAL	Males	Females
On the 25th December, 1856, there were in the House . . .	398	192	206
Admitted during 1857 . . .	210	91	119
