REPORT OF THE COMMITTEE OF VISITORS

OF THE

County Lunatic Asylum at Prestwich,

TO THE

ADJOURNED ANNUAL SESSION HELD DECEMBER 31st, 1861.

Prestwich, 30th December, 1861.

The Committee of Visitors of the County Lunatic Asylum at Prestwich, present their report to the Annual General Session, in accordance with the provisions of the Act 16 and 17 Vict., cap. 97, sec. 62.

The buildings are in a satisfactory state. They have been thoroughly whitewashed, and have been painted, internally with two coats, and externally with one coat of paint. Ventilators of an improved construction have been placed upon the air-shafts, and have proved completely effectual in creating a current of air through the Asylum.

A new and convenient dining-room for the attendants has been formed, by covering with glass a vacant space between the kitchen and the corridor No. 5 on the female side, whereby additional room has been gained for the use of the patients. A large hay-shed has also been constructed near to the farm, with a room to shelter the patients in wet and keep them warm in cold weather.

The whole of the work, excepting that in relation to the hay-shed, has been performed by the attendants and patients, who also dug the foundations and contributed the unskilled labour towards the erection of the shed.

The walks have been gravelled, and the grounds are yearly improving in their general appearance; while new walks continue to be added to those already formed.

The Visitors have secured a lease, for a long term, of about 23 statute acres of land, immediately adjoining the grounds of the Asylum. They regard this as a valuable acquisition.

No change has taken place among the superior officers of the Asylum, who have discharged their respective duties to the satisfaction of the Committee.

During the year 76 males and 81 females have been admitted; 38 males and 55 females have been discharged, of whom 31 males and 50 females were cured; and 42 males (including 2 suicides) and 26 females have died.

The Asylum is capable of accommodating 510 patients, and on this day there are 495 on the books of the establishment. All are in their usual general state of good health.

The weekly charge for the maintenance of patients belonging to Unions or Townships within the County has been 7s. 7d. throughout the year; that for the maintenance of patients belonging to Unions or Townships not within the County 14s.

In conformity with the resolution passed at the Annual General Session, held on the 15th of March last, that the Asylum at Prestwich be enlarged so as to afford accommodation for 400 additional patients, the Visitors have directed their attention to the best and most economical mode of carrying out the directions of the Court, for the sum of £13,230, granted for that purpose. The Committee have decided on the following scheme:—To convert certain rooms in the present buildings (now used as bed-rooms for female patients), into apartments for a second assistant medical officer, and an assistant matron or chief female attendant, by which change, and a few minor alterations in the existing Asylum, accommodation for 40 patients will be sacrificed; and to erect two large buildings to be connected by corridors with the present establishment, and a new laundry in lieu of the one now in use, which is to be converted into a dining-room for the female patients, scullery, store-rooms, and apartments for the attendants, by which accommodation will be obtained for 460 additional patients; and lastly, as a con-

sequence of this increase, to enlarge the Church, so as to render it capable of holding from 600 to 700 persons. Plans have been prepared to carry out this scheme, (except so far as it refers to the enlargement of the Church,) and have been submitted to the Commissioners in Lunacy, who have expressed their general approval of the same, and it is believed, would at once sanction the proposed alterations and additions, provided a sufficient quantity of land could be obtained for the purpose of being added to that already attached to the Asylum. The Visitors hold in fee 37a. 1r. 23p. of land, statute measure, including the site of the buildings, and, as before stated, have taken on lease about 23 acres of like measure. They are in treaty for other land, in a convenient position as respects the Asylum, and on this point will use their best endeavours to meet the requirements of the Commissioners in Lunacy, so that the want of accommodation for pauper lunatics, so long and increasingly felt in this division of the County, and to which frequent allusions have been made in previous reports, may be alleviated with as little delay as possible.

THOS. S. MILLS,

Chairman.

REPORT OF THE SUPERINTENDENT.

*County of Lancaster Asylum,
Prestwich, February 14th, 1862.*

Gentlemen,

The proceedings of the past year, so far as they relate to the Asylum, have been such a repetition of those of former years that a very few words from me, in addition to the usual statistical tables, will be sufficient.

On the first of January 1861, there remained in the Asylum 500 patients, viz:—247 men, and 253 women: the number admitted in the year was 157 (76 men, and 81 women); making a total of 657 under care and treatment during that period. Of these,

82 have been discharged, recovered;

8 ditto relieved;

4 ditto nôt improved;

1 has escaped; and

68 have died;

leaving 494 in the establishment on the 1st of January, 1862.

The recoveries (52 per cent. on the admissions) have a little exceeded the average of the previous seven years, which amounted to 50 per cent. The deaths have been more numerous than usual, the proportion to the numbers under treatment having been 10·35 per cent. The chief causes of death have been general paralysis and pulmonary consumption.

The general health of the patients has been good throughout the year.

Although I make no particular allusion to what has been accomplished in altering and improving different parts of the Asylum and grounds, and also in farm and garden operations, I beg you to believe that there has been no relaxation on the part of the patients, and those under whose immediate care and direction they are placed, in their endeavours to carry out all that has been planned; neither have the usual means of recreation been forgotten.

I learn with much pleasure that the accommodation of the Asylum is about to be considerably increased. Everything appears to be now so far arranged that the additional buildings may be commenced early in the spring, and I fully anticipate that they will be ready at the commencement of next year for the reception of patients. The ordinary staff of the establishment and several of the patients are already engaged in making such furniture and clothing as will be required for the new wards.

The Asylum will hold, when these additions are completed, upwards of 900 patients, and, although the increased size of the establishment will necessarily add to the anxieties of its management, I do not anticipate that there will be any difficulty in maintaining the Asylum in the same position that it now holds amongst the same class of institutions.

The Commissioners in Lunacy, at their last visit, left the following report:

*“Prestwich County Asylum,
“16th May, 1861.*

“The changes in the patients since the Asylum was last visited by the Commissioners, on the 16th Nov., have been as follows, viz:—

“Admitted.....	{ 20 Males 48 Females } 98
----------------	----------------------------	----------

“Discharged	{ 23 Males 34 Females } 57
-------------------	----------------------------	----------

“Of whom recovered	{ 19 Males 30 Females } 49
--------------------	----------------------------	----------

“Removed to other Asylums	{ 1 Male 1 Female } 2
------------------------------------	------------------------	---------

“Died	{ 20 Males 15 Females } 35
-------------	----------------------------	----------

"A large proportion of deaths on the male side were from general paralysis, and on the female from pulmonary consumption.

"Peter Westby, a criminal patient, escaped on the 1st January last, and has not been retaken. It may be well to observe that there is no limitation of time for the re-capture of criminal patients. Notices of their escape should be given to the Home Office.

"The patients, including one woman absent on trial, are now 507 in number, viz:—246 males, and 261 females. A male patient, whom we did not see, died during our visit.

"Two patients, one of each sex, at the time of our visit, were in seclusion on account of their maniacal excitement. With the exception of those two patients, and three or four of the women, we found the inmates tranquil and orderly. As respects clothing and otherwise their personal condition was very satisfactory.

"The Asylum in its various departments, and the beds and bedding throughout, were in the best order. The aspect of the galleries and day-rooms, generally is rendered cheerful and comfortable by the carpeting and homely character of the furniture, consisting *int. al.*, of arm and other chairs, and small tables, some of the former, and all of the latter, being made in the Asylum. There are no benches, with or without backs, excepting in the Dining-rooms and Recreation Hall.

"In the latter, we found about 80 female patients employed in needle-work and knitting. Many also in the several wards were similarly occupied.

"Mechanical restraint is never resorted to, nor are there any instruments of restraint in the Asylum.

"Since the last visit, 99 patients (35 males and 64 females) appear by the medical journal, which is very accurately kept, to have been placed in seclusion, about four times each on an average.

"The system of night watch continues to work most satisfactorily in all respects, especially in preventing and correcting uncleanly propensities.

"The means of washing in lavatories, all of which are on the ground floor, have been considerably extended, and the basins now average, in number, two to every seven patients.

"Mr. Holland is of opinion that, in the special circumstances of this Asylum, and with reference to the existing arrangements for confining the upper floors wholly to sleeping accommodation, washing in the dormitories would be undesirable. Amongst other reasons he states, that the present system admits of the more complete ventilation, by opening all the windows wide, of the upper galleries and dormitories. We may here mention that by means of brass mortice locks and dead bolts, about 150 of the windows in the various wards can be rendered secure, whilst the sashes will admit of being opened to the full extent.

"The routine of the Asylum, as to employment and recreation, and the performance of religious services, continues as heretofore. The Asylum is, altogether, in a most satisfactory state, and under excellent management, in its medical and other departments.

"The Asylum is quite full, and plans for its enlargement for 400 more patients, at an estimated cost of £13,400, are, as we learn, about to be submitted. Further details would be premature.

(Signed)

"R. W. S. LUTWIDGE,

"ROBERT NAIRNE,

"Commissioners in Lunacy."

The average weekly cost per patient during the year has been 7s. 11½d.

I have the honour to remain,

Gentlemen,

Your faithful and obedient servant,

J. HOLLAND, F.R.C.S.,

Superintendent.

To the Committee of Visitors

of the County of Lancaster Asylum,

Prestwich.
