### **COMMITTEE OF VISITORS**

OF THE

County Lunatic Asylum at Prestwich,

# TO THE ADJOURNED ANNUAL SESSION HELD AT PRESTON.

ON THURSDAY, THE 29TH DAY OF DECEMBER, 1864.

To Her Majesty's Justices of the Peace for the County of Lancaster, in Annual General Session assembled.

Prestwich, 28th December, 1864.

The Committee of Visitors of the County Lunatic Asylum at Prestwich present their Report to the Annual General Session, pursuant to the provisions of the Act 16th and 17th Vict., cap. 97, sec. 62.

The works in connection with the recent enlargement of the Asylum have been finished.

The approaches to the New Buildings have been laid out into Walks and Recreation Grounds. The enlargement of the Church has been completed in a most satisfactory manner. The original structure has been retained, and additional Transepts and a Chancel have provided accommodation for 350 Patients, making seat-room for a congregation of 750. Under the auspices of Mr. Chadwick, an East window, for which upwards of £200 have been subscribed, has been presented to the Church, and accepted by the Visitors.

The new Wash-houses meet the requirements of the Establishment.

The Fittings and Furniture for the new buildings, as well as the Clothing for the Patients, have been made in the workshops of the Asylum.

One Thousand Patients, viz.:—498 Males and 502 Females, can now be accommodated. On this day there are 461 Males and 485 Females on the books of the Establishment.

During the year 253 Males and 246 Females have been admitted; 95 Males and 127 Females have been discharged (of whom 81 Males and 93 Females were cured); 3 Males and 26 Females have been sent to Workhouses, and 70 Males and 66 Females have died.

The general health of the Patients has been good, but there are many chronic cases and infirm men and women in the Asylum.

No change has taken place among the superior officers.

The Visitors consider that great zeal has been shown by the Attendants in the exercise of the increased labours thrown upon them by the rapid and extensive admission of Patients placed under their immediate care.

The weekly charge for the maintenance of Patients belonging to Unions or Townships within the County has been 7s. 7d. throughout the year; that for the Unions or Townships not within the County, and which consequently did not contribute to the original cost of building the Asylum, 14s.

Your Committee regret to find that they are compelled to apply for a further sum to meet the outstanding claims consequent upon the enlargement of the Asylum. Prior to the Session held on the 9th September, 1863, the Court had granted £13,230 for the purpose of enabling the Committee to make such additions as would accommodate 400 Patients. At that Session the Court granted £5,600 to meet the cost incurred in obtaining accommodation for 500 instead of 400 Patients, to erect a Corridor, form a New Road and Airing Courts, construct a Main Sewer and Drains, enlarge the Gas Works, and to cover other extra expenses, as Gas Fittings, Water Supply, &c. The Visitors were led to believe that the sum then voted would be sufficient to complete the buildings, but at the close of the year they discovered that the estimate had been insufficient. Shortly afterwards it was found that in consequence of the unexpected

influx of an excessive number of demented, paralyzed, and epileptic patients of extremely offensive habits, the original building, principally adapted for Patients of a better class, would have to be appropriated to the use of those wretched cases, of whom 100 at least were lost to all sense of decency. Owing to this change, and more especially to the scarcity of Baths and Water Closets, and to their too close proximity to the living rooms, the wards so appropriated to the worst class of new Patients became foul in the extreme. It was found to be imperative at once to alter this objectionable state of affairs, and the Committee, at their second meeting in the present year, determined without delay to remove the nuisance, and to replace these conveniences in such a position as no longer to interfere with the general health of the Patients.

Semi-detached buildings, containing an ample supply of Baths, Lavatories, and Water Closets have been erected in connection with six out of the ten original Wards, the advantages of which are so perceptible that the Committee cannot regret the increased outlay incurred thereby.

It has been found necessary to construct externally large Coal Stores and Ash-pits, and to extend the Water Mains for Fire Plugs, to guard against accidents by fire. Much extra labour has likewise been employed on the formation of large Airing Grounds and other works far too numerous to detail.

The cost of the Church has exceeded the original grant by

nearly £600, but this includes the extension of the Warming Apparatus, a New Bell, and some necessary alterations not at first contemplated, but rendered necessary or desirable in encountering the difficulties always attending the adaptation of a small building to one of more extended accommodation, added to which there has been of late a considerable advance in the price of building materials and labour.

The sum now asked for is £4,500, which will increase the total cost of the additions and alterations to about £24,500, and will enable the Committee to accommodate with comfort 500 additional Patients, at the rate of rather less that £49 per head, a sum which your Committee believe is the lowest that could have been expended in providing such accommodation as is afforded by this Asylum for the care, comfort, and cleanliness of the insane.

The Visitors cannot close their Report without recording their sense of the severe loss they sustained by the lamented death, on the 1st of October last, of their late Chairman, the Rev. T. S. Mills, who had watched over the Institution from its earliest commencement—who, as Chairman of the first and of each successive Committee of Visitors for 18 years, had attended to its business with the greatest punctuality, doing what he could to promote its welfare, and contribute to the comfort of its unfortunate inmates—had at all times exhibited the highest integrity in the discharge of his duties, and had deservedly obtained the confidence and esteem of all with whom he was associated. A

few months before his death, a portrait of Mr. Mills, painted by Mr. Westcott, of London, was presented to the Committee by several subscribers, who felt that his valuable services called for some appropriate recognition on their part. The portrait hangs in the Committee Room, and the Visitors doubt not will long be valued as a memorial of the feelings of respect entertained for one who, for so many years, occupied such a prominent position in connection with this Asylum.

the discharge of his detice, and had descreedly obtained the

#### J. SHEPHERD BIRLEY,

Chairman,

OF THE

### SUPERINTENDENT.

County Asylum, Prestwich,

17th February, 1865.

GENTLEMEN,

In compliance with your request, I have the honour to submit, for your information, the following Report, annexed to which are the usual Statistical Tables.

On the 1st of January, 1864, the Asylum contained 810 Patients, of whom 378 were Men, and 432 Women. The admissions during the year amounted to 503; the total number under care and treatment 1,313. Of these—

174 have been discharged, recovered.

5 ditto relieved.

43 ditto unimproved.

3 escaped, and

138 have died.

The recoveries (32.6 per cent. on the admissions) do not, in proportion, equal those of the preceding years; but this is to be

ascribed to the removal from Workhouses of an excessive number of paralyzed and other incurable cases.

The mortality (10.5 per cent. upon the total number under treatment) has not exceeded the average of previous years. The chief causes of death have been, as usual, general paralysis and pulmonary consumption; 56 having died of the former, and 21 of the latter disease. In 10 cases death was attributable to epilepsy, in 9 to senile decay, and in the remainder to chronic disease of the brain and other causes.

Owing to the rapid admission of Patients in the first few months of the year, and to the inexperience of newly-appointed attendants, much confusion prevailed in the Wards. The attendants had not only to learn their duties, but to become acquainted with the peculiarities of those placed under their charge. The consequence was that the latter escaped in larger numbers than is usual in well-regulated Asylums; and other untoward circumstances arose which possibly we might not otherwise have had to deplore.

One woman contrived to commit suicide by immersing her head in a pail of water which she placed in a water-closet. Another most cunningly possessed herself of a knife belonging to a journeyman plumber, who was engaged in fitting up some new buildings, and with it inflicted a severe wound in the throat, which proved fatal in less than 36 hours.

Of three men who escaped within a few hours of each other two came to untimely ends. One reached his friends in Liverpool, but with a view to evade the relieving-officer and policeman who were in pursuit ran to the top of his house and jumped out of the window. He survived but a few hours. The body of the other was found in a pool of water, about a mile from the Asylum, a few days after his escape, the appearance of the body showing that he must have been dead some days. Both these Patients were regarded as trustworthy, and had been for some time employed in their respective trades in various parts of the Institution, neither of them being suspected of having a suicidal tendency.

One Patient labouring under great excitement, whilst being undressed preparatory to being placed in his bed-room, received a kick from another Patient which broke several of his ribs. The man died in consequence, but was at the same time suffering from general paralysis, although not in a very advanced stage of the disease. Inquests were held in all the cases, and verdicts returned in accordance with the facts.

The Patients generally, throughout the year, have been in a good state of health; and the excitement which prevailed during the first few months has gradually subsided, and the Wards are fast assuming their former quietude. The Attendants are becoming better acquainted with their duties and also with the Patients over whom they are placed, the result being fewer escapes and altogether less cause for anxiety.

The enlargement of the Church to double its original area will, I believe, prove no more than sufficient for the accommodation of the increased numbers who are likely to attend. Although the additions have been completed but a short time, between 500 and 600 Patients have already been present at one of the Morning Services.

Due attention has been, as usual, paid to the healthful and useful occupation of the inmates, as well as to their recreation, weekly amusements having been provided for them with as much variety as practicable.

I have every reason to speak well of the manner in which the duties of the Officers and Attendants have been discharged. The past year has been one of unusual anxiety, requiring constant vigilance on the part of all connected with the Asylum.

The great benefits arising from the additions and alterations already made in six of the Old Wards are so obvious that I would strongly recommend the two Wards which receive the more excited Patients being similarly improved. I would further suggest that at the same time a large room be added to each of these Wards for the better separation and occupation of these Patients. This would give great facilities for daily employing this excited class; such as in making and repairing mattrasses and picking hair and coir.

The following report was left by the Commissioners in

Lunacy at their last visit, in which they have minutely entered into the details of the Asylum:—

" Prestwich County Asylum,
" 11th August, 1864.

"Upon our visits to the Asylum yesterday and this day we have inspected it in all its departments, and seen its inmates.

"The following Tabular Statement shows the changes in the Patients since the visit of our colleagues 21st October last, and their present numbers:—

	м.	F.	TOTAL,
Admitted	275	299	574
Discharged from Books	52	76	128
,, of whom recovered	44	70	114
Died in the Asylum	56	56	112
Present Numbers on Books	470	498	968
" of whom out on trial	1	1	2
" of Shropshire Patients	30	10	40

"Two Male Patients, who had escaped, were killed—one by a fall from a window at his own home in Liverpool, and the other by drowning himself in a mill dam. In these circumstances we have, in the above enumeration, entered them as discharged from the books. The cases were duly reported to the Board, as also were three other cases wherein inquests were held, viz.:—1. A Male Patient who died of a

fractured rib and pleurisy, having, as is believed, been kicked by another Patient, an Epileptic. 2. An aged Female Patient who died from exhaustion after a fall and fracture of the thigh bone; and 3, another Female Patient who drowned herself by immersing her head in a bucket of water in the water-closet.

"Of the remaining deaths the assigned causes were as follows:-

м.	F.	TOTAL.
7	12	19
21	19	40
10	6	16
1	5	6
4	6	10
12	6	18
	M. 7 21 10 1 4 12	7 12 21 19 10 6 1 5 4 6

"From the above statement it would appear that since the last visit the rate of mortality, in relation to the average numbers resident, has been high, but it is material to observe that the numbers of Patients received during that period, many in an advanced stage of bodily disease and debility, have amounted to nearly 600.

"This rapid accession of Patients has taxed to the utmost the energies of the Medical and other officers, and of the Attendants, who at present are, in the Male Division, in the proportion of 1 to 12 Patients, and in the Female Division 1 to 15.

"The New Wards are now all occupied, and from their spacious dimensions, and the superior character of the furniture and decorations, present a very cheerful and comfortable aspect. Workmen are still employed in completing some of the alterations and improvements which were in progress at the time of the last visit, and which will tend materially to the convenient administration of the Institution, and the comforts of the Patients.

"The Chapel, as enlarged, will accommodate as many as 750 persons. The elevation is of a very pleasing character, and the interior will be most creditable to the architect. It is expected to be ready for occupation in about three months. During the progress of the additions the services in the original portion, which accommodated 150 Patients of each sex, have not been interrupted.

"In the present transition state of the Asylum, which has now attained its maximum size, it is not necessary, on this occasion, to enter further into detail as respects the extensive additions and improved arrangements now approaching completion-

"Four hundred Patients of each sex dine together and take their other meals in the General Halls in their respective divisions. The remaining Patients take their meals in rooms attached to their several Wards, Nos. 3, 4, and 5, the first two of which on each side, are appropriated principally to Paralytics, Epileptics, and excited Patients, and the last to the sick and infirm.

"One specially interesting new arrangement is the appropriation, as a place of out-door recreation for the more orderly and trustworthy Patients of both sexes in common, of a good Airing Ground in proximity to the New Buildings. We had this morning the gratification of seeing about 400 Patients enjoying themselves there in games, and listening to the excellent Asylum Band, consisting of upwards of 40 performers.

"The sanitary condition of the Asylum appears, on the whole, to be satisfactory, the Patients last registered as under medical treatment for bodily ailments being 14 on the Male side, and 21 on the Female.

"We found several Patients of both sexes in seclusion, under the influence of epileptic or ordinary acute mania, and according to the medical journal the instances of seclusion are very frequent, a circumstance which is no doubt in great measure attributable to the multitude of Patients received within the last few months. In reference also to the Female Patients of the worst class, we have to observe that, owing to the works in progress, they have for some time past been debarred free access to their Airing Court.

"We have to report favourably, as heretofore, of the clean state and creditable order of the several Wards, Rooms, and Beds, and the personal condition and orderly demeanour, generally, of the Patients "The canvas stretchers, without mattrasses, to which reference was made at the last visit, are in course of being disused.

"The records of employment show the following results ;-

MALES.	
Farm and Grounds	100
Trades	63
Others	77
Total	240
. TO CHE WILLIAM MORE.	
FEMALES.	
Needlework	149
Laundry, &c	48
Others	96
	-
Total	290

"The present weekly charge for Lancashire Patients is 7s. 7d.; that for Shropshire Patients is 12s. 3d. The latter are removable upon a month's notice from the Visitors.

"Upon the question of accommodation we have to observe that the present number of Patients on the books—970, is within 30 of the extreme number for which the Asylum, as now enlarged, is provided. The land, the property of the Asylum, is 37 acres in extent. About 24 acres are rented for a term of which 21 years are unexpired, and the purchase is expected shortly to be completed of 31 acres. The total quantity of land which will then be in the occupation of the Asylum will be about 92 acres.

"Mr. Ley, late of Haydock Lodge, has been appointed Second Assistant Medical Officer, and has entered on his duties.

"The general condition and management of the Asylum, and treatment of the Patients, continue to reflect much credit upon Mr. Holland and the other officers.

(Signed) "R. W. S. LUTWIDGE, "S. GASKELL.

" Commissioners in Lunacy."

The average weekly cost per patient during the year has been 7s. 73d.

I have the honour to remain, Gentlemen,

Your obedient humble servant,

J. HOLLAND, F.R.C.S.,

Superintendent.

To the Committee of Visitors of the County Asylum, Prestwich.
