LEICESTERSHIRE AND RUTLAND LUNATIC ASYLUM.

THE REPORT

OF

THE UNITED COMMITTEE OF VISITORS

OF

The Leicestershire and Rutland Lunatic Asylum,

TO THE

TWENTY-THIRD GENERAL ANNUAL MEETING

HELD AT THE JUDGES' LODGINGS,

On Friday, the 27th day of January, 1860.

THE Visitors of the Leicestershire and Rutland Lunatic Asylum commence their Annual Report by setting forth the average numbers of patients during the last five years. These are as follows:—

	1854.	1855.	1856.	1857.	1858.	1859.
Leicestershire	123 $\frac{1}{2}$ $\frac{2}{2}$	139 $\frac{3}{5}$ $\frac{2}{2}$	151 $\frac{3}{5}$ $\frac{2}{2}$	162 $\frac{5}{5}$ $\frac{0}{3}$	173 $\frac{2}{5}$ $\frac{7}{2}$	186 $\frac{2}{5}$ $\frac{0}{2}$
Borough . .	57 ⁴	64 ³⁷	69 ¹⁵	71 ¹⁸	73 ¹¹	71 ¹²
Rutland . .	20 ²⁹	20 ³⁶	22 ³³	23 ³⁵	26 ¹⁰	29 ²¹
Out County .	4 ⁴²	5 ⁴¹	4 ³¹	1 ³¹	1 ³¹	1 ¹⁵
Subscribers .	34 ¹⁸	30 ³⁷	37 ¹⁷	37 ¹⁷	41 ²¹	38 ³⁹
Independent .	17 ¹⁸	20 ²³	16 ⁴³	16 ⁵⁰	13 ²¹	10 ²³
	<u>257$\frac{2}{5}$$\frac{4}{2}$</u>	<u>282$\frac{5}{5}$$\frac{2}{2}$</u>	<u>302$\frac{2}{5}$$\frac{2}{2}$</u>	<u>313$\frac{4}{5}$$\frac{5}{3}$</u>	<u>329$\frac{2}{5}$$\frac{7}{2}$</u>	<u>337$\frac{2}{5}$$\frac{0}{2}$</u>

The average increase for the whole year appears to be 337 patients in 1859 against 329 in 1858, or an increase of 8 patients only. This, however, does not represent the present condition of the Asylum, a greater number of patients than ordinary having been received during the past half year.

The number of patients in the house on the 31st December, 1859, was 358, being the greatest number during the year. It is probable that the average number of patients during the current year will even exceed this number.

As yet, however, the increased accommodation provided during the year 1858, has not been filled up, so that, however alarming in a general view, this gradual, and it would appear permanent increase of insane patients may be, the Visitors have not at present to consider the necessity of any further enlargement of the buildings of the Asylum for their accommodation.

But the increase of patients that has already taken place, and that which may be too surely expected, has imposed upon the Visitors the necessity of considering how far they can increase the means of *employment* for the inmates of the Asylum; that being now well established as one of the most powerful curative agents, and of all employment, that in the open air being considered the most beneficial.

It was on this consideration that the Visitors were induced to sanction the experiment of hiring 27 acres of land in the Parish of Knighton, for cultivation by the spade labour of the patients; the result, in a *medical* point of view, has been highly satisfactory, while for that of a *financial* character, the Visitors refer with pleasure to the balance sheet of the Garden and Farm of the year 1859. It will be seen, that notwithstanding the high rent paid for the land (£4. per acre), there has been a clear profit on the year of £310. 16s. 8d., after allowing for interest on the capital and the sums paid for *hired* labour.

This great success has led the Visitors to deem it of vital

importance to the interests of the Asylum, that the means of extending, or at any rate of continuing this experiment, should not be lost by the absorption of the land in the vicinity of the Asylum for other purposes; and the Visitors regarded with extreme anxiety the approach of that period when the land on the south-west side of the Asylum might be legally appropriated for the Leicester Cemetery. They have every reason, however, to hope and believe, that this serious evil will be prevented, and they trust that in their next report, it will be shown that their hopes have been realized, and that this cloud which was hanging over the welfare of the Asylum will have passed away.

The tables appended to this Report will show the general working of the Institution, as it regards the medical and financial statistics; the average cost of the patients has diminished, and is less this year than in any period since the year 1853.

The Visitors append to this Report a copy of the minutes made by the Commissioners on their last visit to the Asylum, some of the recommendations therein contained have already been carried out, and all will receive the careful consideration of the Visitors.

The Visitors have also received the Report of the Medical Officers, which, after giving details embodied in the tables annexed to this report, states that "it is with much satisfaction that we are able to record freedom from acts of violence and determined attempts at suicide. The cultivation of the land has been a source of almost constant employment to a large number of patients, and has contributed much to the well working of the establishment. In the management of the Asylum, we have with much satisfaction to record the fact of the completion of the Chapel and the Recreation Room, and to state that they have been found well suited to their respective uses."

The Chaplain has also presented his Report, and the Visitors are much gratified by observing therein, his testi-

mony to the spiritual benefits derived by the patients from the erection of the Chapel within the Institution.

The Matron has presented her Report as to the amount of work done by the female patients, and the state of that part of the Asylum under her care, which is in every way satisfactory, both as to the condition of the patients, and the conduct of the nurses.

In conclusion, the Visitors are happy in expressing their belief that the Asylum is in a satisfactory condition, and in bearing their testimony to the efficient services rendered by the visiting physician, the medical superintendent, and the other officers during the past year; and although it is with deep regret that the Visitors are compelled to advert to the apparent increase of insanity throughout the Kingdom, and to the prospect that ere long, the *Leicester Asylum* (enlarged as it has lately been) will be insufficient for the reception of those intitled by law to admission therein, they feel that their duty is plain before them, and that is, to combat the disease by every expedient which experience or medical science can suggest. The Visitors would still adhere to the opinion, so often expressed by them, that the true way of restoring a patient to mental health, is to place him under proper treatment *as soon as possible after the manifestation of the disease*. The Visitors earnestly desire that the Asylum should be considered as a *House of Cure* rather than a *House of Detention*, and their efforts will not be relaxed to achieve this object. Other evils, which once afflicted this land, and for which there seemed to be no effectual remedy, have been diminished by the means which God in His providence enabled mankind to use; and the Visitors will not doubt but that in His good time and with His aid and blessing, the progress of this, the most fearful of all human maladies, may yet be arrested.

Signed on behalf of the Visitors,

CHARLES WILLIAM PACKE,

Chairman.

REPORT
OF
THE COMMISSIONERS IN LUNACY
ON THE STATE OF THE ASYLUM,
AT THEIR LAST ANNUAL VISIT,
AUGUST 5TH AND 6TH, 1859.

SINCE the Commissioners' last visit, on the Twenty-seventh of October last, eighty-six patients have been admitted, forty have been discharged, and twenty-five have died. Ten admissions, fourteen discharges, and six deaths having occurred amongst the private patients. The deaths seem to have arisen chiefly from paralysis, old age, and other causes, amongst which, however, were two from small pox in January last.

There are now three hundred and forty-seven patients (one hundred and sixty-three males, and one hundred and eighty-four females,) in the Asylum, of whom seven males and five females are registered as now taking medicine. The seclusions have been almost exclusively amongst the female patients since the last visit, and are confined mainly to one private and two pauper females. The attendants occasionally place patients in their rooms for a very

short space of time, but we have recommended the Superintendent to require regular returns of these cases, in order that they may be registered equally with cases of longer duration, and that every instance of black eyes (of which there are several on the women's side) should be entered also.

We have on these days seen the patients, and have inspected their rooms and galleries, which are generally clean. The patients on the male side, with two or three exceptions, were tranquil. There were exceptions on the female side, where several females were in a state of much excitement. We think it very desirable that patients of this character should have as much out of door exercise as their health will allow: and that the females generally should take exercise in the afternoon or evening as well as in the morning.

It is most desirable that the field adjoining the female side of the Asylum should be obtained for the patients. At present the female airing ground forms the boundary of the property, and therefore, it is not easy to afford the means of extended exercise to the patients of that sex; besides which, it is important that no road or building should be allowed to approach very near this portion of the Asylum. In the meantime, the wall which runs at the ends of the women's airing court should be removed, and replaced by a low and light fence, which would admit of their obtaining a view of the distant country. This airing court would be improved by trees and seats, and all the airing court walls would look more cheerful if planted with creeping shrubs and flowers.

The women's rooms and galleries want more seats and furniture, which should be of a somewhat lighter description. If there were a better carpenter and joiner shop (the present one being very small and insufficient), probably such addition to the furniture would be made by the labour of the patients.

We recommend that the padded rooms should be

diminished in number, and also the ticken dresses, of which there are several in use amongst the females.

A residence at the sea side in the summer months would prove advantageous, we think, to some patients. Amongst whom, we refer especially, to Mr. ——— and Miss ———. This lady (who is very indifferently dressed) is in rather delicate health. As we understand that Miss ———, for whom one pound weekly only is paid, formerly lived on property bequeathed to her by her father in a state of respectability and comfort, we trust that the Committee of the Asylum will make enquiry into the amount of her property and income, so as to be assured that they are properly protected.

We have suggested that the attendants should be instructed to prevent all patients from crouching on the ground,

facilitating the bathing of the patients. The Asylum and Recreation Hall have been built, that all the clothing is made in the house, that while one hundred and sixty-four patients of both sexes are employed, forty work on the land (fifteen being now employed in reaping the corn), and that thirty-nine acres of land are all cultivated by spade husbandry. A party of women have been lately sent for a holiday into the forest, and we witnessed (on the first day of our visit) a large party of male patients engaged in cricket, with others present as spectators, while seven or eight of the attendants performed various pieces of music on wind instruments during the game. The whole scene was remark-

ably cheerful and pleasant, and must be very beneficial to the patients themselves.

There are fifty private patients in the Asylum. We understand that patients of this class have been repeatedly refused admission here. We submit to the consideration of the Committee of Visitors, the expediency of separating the two parts of the establishment from each other, and procuring (or if necessary, erecting,) a building on some other site for the private patients alone. This plan has been adopted at several places where the same union of private with public patients existed, namely, at Gloucester, Stafford, and Nottingham, and has been attended, we believe, with success in each instance.

We find that Miss Carpenter has left the Asylum, and is succeeded as Matron by Miss Fryer.

Table No. 2.

Annual Average Mortality of the Asylum, From 1839 to Dec. 31, 1859.				
Years ending Dec. 31.	Number of Admissions.	Average number of Patients.	Number of Deaths.	Per centage of Deaths.
