LEICESTERSHIRE AND RUTLAND
LUNATIC ASYLUM.

THE REPORT

OF THE

UNITED COMMITTEE OF VISITORS

OF

The Leicestershire and Rutland Lunatic Asylum,

TO THE

SEVENTEENTH GENERAL ANNUAL MEETING,

HELD IN THE BOARD ROOM OF THE ASYLUM,

ON MONDAY, THE 30TH DAY OF JANUARY, 1854.

IN pursuance of an established custom, the General Annual Meeting of the Subscribers to the Charity (which by law must be held in the month of January) is selected by the Visitors as that to which they will make their Report for the past year.

The resignation of the late Superintendent, the death of the Matron, and the changes effected in the domestic management of the Institution, combine to render the past year one of the most eventful in the history of the Asylum.

It will be seen on reference to the Report of the last year, that the late Superintendent had suffered from a severe and dangerous illness; he resumed his duties in the spring of the year, but having received the written opinion of a

Physician and Surgeon, that his continuance in the office would probably be attended with another and fatal attack, he tendered his resignation to the Visitors, which they accepted.

Mr. Prosser had been the Medical Superintendent of the Asylum from its foundation in the year 1837; and for many years the entire weight of the Establishment, medical and financial, had rested on him: the increase of the Patients rendered a division of labour in some respects essential, but to the last, he manifested a zeal in the welfare of the Institution, and he left it in such a state of general advancement and prosperity, that the Visitors deeply regret that any circumstances should have made it necessary to sever the connexion between them.

Miss Thornton, the late Matron, was appointed to that office in the year 1842; her duties had so increased with the extension of the Institution, that the Visitors had determined to relieve her of her charge over the management of the Household, in order that her whole time might be devoted to the Patients; and it was principally for this purpose that they appointed a Storekeeper, as mentioned in their last year's Report: before, however, Miss Thornton could derive the relief from the change that was intended, she was seized with a fatal illness, under which, after lingering for several months, she expired in the month of March last. In her the Visitors lost an officer with whose fidelity to the interests of the Institution they had every reason to be satisfied, and whose kindness and attention to the Patients are still remembered with gratitude.

In consequence of these events the Visitors issued Advertisements, declaring that the situations of Superintendent and Matron were vacant, and inviting Candidates to come forward; numerous applications were received for each office, and the election finally took place by ballot at the Asylum, on the 11th day of May, 1853, when Mr. Buck was ap-

pointed to the Office of Superintendent, and Miss Carpenter to that of Matron.

The former was a gentleman then in general practice in Leicester, but, in addition to other Testimonials which he produced, was one which probably had its full weight on the minds of the Visitors, viz. that which they themselves had given in their notice of his services at the Asylum during the preceding year. Mr. Buck had acted for Mr. Prosser during his illness, and thus the Visitors had had an opportunity of personally estimating Mr. Buck's fitness for the office in question. Miss Carpenter's Testimonials were of the highest character, and she was, at the time of her election, filling an important office in the Northampton Asylum.

In addition to these changes, another, and of an important character, has been made during the past year; the Visitors, believing it to be of importance that the services of Dr. Shaw should be continued to the Institution, unanimously appointed him to the office of Visiting Physician; thus securing to the Patients the benefit of his regular attendance; and the Visitors have his authority for making the following statement, as to the Medical Condition of the Asylum during the past year:—

“ At the commencement of the year the number of Patients in the Asylum was 233, since that period 120 have been admitted, 63 males, and 57 females; this is the largest number of admissions that has taken place in any one year since the establishment of the Institution.

“ The health of the Patients generally has been good.

“ There has been an immunity from epidemic disease, for, although some few cases of diarrhœa occurred in the Autumn, they were readily amenable to treatment. There have been few accidents; none serious.

“ During the past year 36 Patients have died,—20 males, and 16 females. The average age of those who died is 51.75. There has been one case of suicide, the first for some

years. The number of Patients cured amounts to 65, of these, 30 are males, and 35 are females. There have also been discharged relieved 18,—making a total of 83 Patients who have derived benefit.

“It would thus appear that the admissions, cures, and deaths, have all been in larger numbers than during any preceding year.

“There are at present in the Asylum 234 Patients, a large proportion of whom are incurable; of these, 21 males, and 16 females, are epileptics.

“There are also 18 Criminal Lunatics in the Asylum.”

Dr. Shaw, stating that soon after his appointment he had laid before the Committee a memorandum, drawing attention to the question of restraint and employment, in regard to which he felt most anxious, added, “that it was gratifying to state that there had not been for some time past, a single case of restraint, either on the male or on the female side of the House; whilst, during the same period, the recourse to seclusion had been less frequent and for shorter periods.

“It is right to say that the cases of restraint were very few, though of some duration; these Patients may now be seen quietly walking about or engaged at work.”

Dr. Shaw further stated that “much attention had been given to the industrial capabilities of the Establishment, and the amount of labour, both in-door and in the field, had increased, though not to the extent which could be desired, chiefly from want of work-rooms and other conveniences.”

The New Law of Lunacy need not be particularly referred to in this Report; it may, however, be mentioned that it gives power to Medical Persons, Guardians, and Overseers of Unions and Parishes to visit the Pauper Patients of such Unions and Parishes confined in any Asylum; a power which the Visitors of this Asylum hope will be frequently exercised.

The number of admissions during the year, the deaths that have taken place, the number of cures or cases that have been discharged as relieved, will be found in the Report of Dr. Shaw, before referred to, and in the annexed Tables.

The great rise in the price of provisions has necessarily increased the current expenses of the Establishment, and compelled the Visitors to discontinue the plan spoken of last year, of carrying over an annual sum of £500. to the Building Fund; indeed, so heavily does the price of provisions press on the finances of the Institution, that it was a serious consideration with the Visitors at their last Quarterly Meeting, whether the weekly charge for maintenance must not be raised in all cases; the savings, however, of former years had left such a balance in hand, that it was resolved to continue the present rates for another Quarter, except in the case of Subscribers' Patients during the first year, the weekly rate for whom is henceforth to be the same as the Chronic, or 5s. per week.

The Capital Fund of the Charity has been augmented during the past year by the undermentioned sums, which the Visitors gratefully acknowledge.

| | | | |
|---|----|----|------------------|
| Legacy from the late Mr. John Cook ... | 10 | 0 | 0 |
| Ditto from the late Mr. Thomas Perkins | 50 | 0 | 0 |
| Donation by a friend of Thos. Paget, Esq. | 3 | 0 | 0 |
| Ditto by a friend at Ashby | 20 | 0 | 0 |
| Proceeds of Ball, 1853 | 98 | 14 | 4 |
| | | | <u>£181 14 4</u> |

In the annexed Accounts will be found Statements of the Capital and Income Accounts of the Charity, in addition to the List of Annual Subscribers; several of these have lately been removed by death, and the Visitors would earnestly solicit increased support for this most excellent charity; its value can scarcely be too highly estimated; and, at such a season as the present, many a one, having the charge on

him of a relative afflicted with mental disorder, must for the first time in his life, have sought parochial assistance, had it not been for the succour afforded by this Institution.

The average number of Patients during the year has been $240\frac{33}{52}$; that of the County Paupers $187\frac{10}{52}$; Out County $4\frac{5}{52}$; Subscribers' Patients $34\frac{17}{52}$; and Independent $15\frac{1}{52}$; the greatest number of Patients in the Asylum in any one day was 250.

In conclusion, the Visitors would express their belief that the changes in the Asylum will be productive of good in every respect; and they close their Report in the hope that the efficiency of the newly-appointed Officers, and their cordial co-operation with each other will be such as to make the results of the current year, under the Divine blessing, subjects for unmixed congratulation.

Signed on behalf of the Visitors,

CHARLES WILLIAM PACKE,

Chairman.

TABLE No. 2.

Annual Average Mortality of the Asylum
from 1838 to Dec. 31, 1853.

| Years ending 31st Dec. | Average Number of Patients. | Number of Deaths. | Per centage of Deaths. |
