THE REPORT

OF

THE UNITED COMMITTEE OF VISITORS

OF

The Leicestershire and Rutland Lunatic Asylum,

TO THE

THIRTY-THIRD GENERAL ANNUAL MEETING,

HELD AT THE JUDGES' LODGINGS,

On Monday, the 31st day of January, 1870.

THE Report now presented to the Annual Meeting, will contain a recital of events of more than ordinary importance and interest in the history of the Asylum.

During the past year the union between the Counties of Leicester and Rutland and the Borough of Leicester has been dissolved, and the Patients belonging to the Borough have been removed from the County Asylum, to a Building recently erected by the Town of Leicester for the reception of its own Insane Poor.

The union between the Borough and the Counties had lasted for upwards of twenty years, and, in recording its termination, the Visitors desire to express their appreciation of the courtesy and liberality with which, during the whole

period, the authorities of the Asylum have been treated by those of the Borough. The Mayor of Leicester was by arrangement an *ex officio* Visitor, and a Committee of the Town Council was annually selected to inspect the state and condition of the Borough Patients within the Asylum.

The Visitors believe that not a single complaint has ever been made by the Borough, in reference to the County Asylum, during the whole period of their union; and this union, so mutually advantageous, was only brought to a conclusion by reason that the County Asylum had become insufficient to receive the Patients of the rapidly increasing Town of Leicester. The first Superintendent of the new Borough Asylum (one of many and highly qualified candidates) was at the time of his election the Assistant Medical Officer in the County Asylum, and the Visitors desire to express their earnest wishes for his success in his new office, and for the welfare and prosperity of the Institution under his care.

The Tabular Statement of the Patients for the last ten years is as follows:—

It will be seen that the increase of the Borough Patients was very great during the years 1868 and 1869, this was owing to some unexpected delay in the completion of the Borough Asylum, to meet which, a wooden building was erected on the Asylum land during the winter of 1867, as mentioned in the Report of 1868. The importance of this building to the Borough can hardly be overrated, as enabling the Visitors to receive the Borough Patients; and the Borough Authorities willingly agreed to pay a weekly charge for lodging beyond the actual cost of maintenance of their Patients. The money so received amounts to a considerable

sum, and leaves a surplus in the hands of the Treasurer after defraying all the cost of the building.

But it is not only of the dissolution of the union between the Counties and the Borough that the Visitors have to speak, but of another and more important event, and which may affect the whole working of the Asylum. At the Annual Meeting of the Visitors, held on the 31st January, 1868, a Committee was appointed to enquire into the effect that the approaching separation of the Borough from the Asylum, would have upon the Charity; and to consider the state and condition of the Asylum generally, and to report thereon to any General Meeting of Visitors. This Committee having held many meetings and examined much evidence, presented their Report to a Special General Meeting assembled on the 2nd of October, 1869, which Report had been previously printed and sent to each Visitor and Subscriber. At that Meeting the following Resolutions were agreed to:—

“That after January 1st, 1871, no more private Independent Patients be received into the Asylum, excepting only such Charity Patients as may be in the Asylum at that date, who shall be permitted to have the option of remaining in the Asylum as Independent Patients.”

“That on January 1st, 1870, the Lunatic Asylum shall be the sole charge of one Clergyman, who shall not undertake any other parochial duty.”

“That after the 1st of January, 1870, the office of Matron be abolished, and in lieu of that officer, a Head Female Attendant and Housekeeper be appointed, whose appointment and removal should be in the hands of the Visitors.”

As the result of these Resolutions, the appointment of another Chaplain became necessary, inasmuch as the then Chaplain (the Reverend Abraham Hill, as Incumbent of the District of St. George) could not hold the office under the new regulations, and the Reverend J. W. Alloway was elected, and has lately entered upon his duties. The thanks of the Visitors were unanimously voted to the late Chaplain, and his letter acknowledging the same was ordered to be recorded in the Asylum Journal.

In pursuance of the foregoing Resolution, the office of Matron in the Asylum has been done away with, and a Chief Female Officer appointed, with new duties, under the title of Head Attendant.

At the same General Meeting lastly referred to, it was also Resolved, that the Magistrates of the Counties of Leicester and Rutland be requested to appoint a Committee at the next Quarter Sessions to consider, in conjunction with a Committee to be appointed by the Visitors of the Asylum, the present value of the interests of the Charity in the Leicestershire and Rutland Lunatic Asylum, and a Committee of five Visitors as representing the Asylum was then appointed.

At the ensuing Quarter Sessions for Leicestershire a Committee of five Magistrates was appointed, and at the Quarter Sessions of the County of Rutland a Committee of three Magistrates. The united Committee, consisting thus of thirteen Members, have held one Meeting, at which it was Resolved, to appoint an Assessor to make a valuation of the Asylum Estate, and Mr. Colin A. Macaulay, of Leicester, was appointed for that purpose.

It is understood that Mr. Macaulay has made his Report, but the same has not yet been presented.

It is not for the Visitors to anticipate what changes may be the effect of this valuation, nor is it necessary that they should do so, as none can be made without the whole body of Subscribers being made fully acquainted with them, and without the consent of the Secretary of State being previously obtained. The Visitors will here only express their belief that no change will be made without the interests of the Charity being fully and carefully attended to.

The Financial condition of the Asylum is highly satisfactory, the last payment to the Borough of Leicester in respect of the twelve acres of Land, referred to in the last Report, has been made, without any money being required from the Counties: and there is a large balance in hand belonging to the General Account, arising from the profits of the land, and other sources, during the last twenty years; this sum is now available for any exigency that may require it in any arrangement with the Charity.

The Financial condition of the Charity is also equally satisfactory. During the past year the Capital Stock of the Charity, which now exceeds £4000, has been increased by

the three following Legacies, for which the Visitors desire to return their thanks:—

			£.	s.	d.
Miss C. K. Burnaby	50	0	0
J. Blakesley, Esq.	99	1	2
Mrs. Lockinge	100	0	0

The Charity has also a further Balance in hand on the *Income* Account, the result of its share in the profits of the Asylum during its connection with it. The interests of the Charity in the Asylum Estate must also be in value many thousands of pounds beyond the sums already mentioned.

From these statements it will be seen that whatever changes may become necessary in the Asylum, there is every reason to believe that the Charity will sustain no loss thereby, but be placed on a wider basis, and its blessings be proportionately extended.

The Report of the Superintendent and of the Commissioners in Lunacy on their last official visit are annexed hereto, they will be read with interest.

The Tables forming the usual Appendix, and showing the several Balance Sheets of the Asylum, have been prepared, and when duly examined and audited, will be printed with this Report and circulated as heretofore.

The weekly cost of the Patients during the past year has been 8s. 10d., and the charge for maintenance 9s. In the present abnormal state of the Asylum no reduction can be made in the latter at present.

Dr. Compson has been appointed Assistant Medical Officer in the place of Dr. Finch, promoted to be Superintendent of the Borough Asylum; and in concluding their Report, the Visitors have pleasure in bearing testimony to the efficient services rendered by the Officers of the Institution generally during the past year.

A. G. HAZLERIGG,

Chairman.

January 31st, 1870.

To the Visitors of the Leicestershire and Rutland Asylum.

MY LORDS AND GENTLEMEN,

I beg to submit to you the following Report upon the condition of the Asylum for the past year.

On the 31st December, 1868, there were 487 patients in the Asylum; and since that date 130 have been admitted (62 male and 68 female); thus making a total of 617 under treatment.

Of these	40	have been discharged	Recovered,
	90	ditto	Relieved,
	27	ditto	Not Improved,

and 53 have died, leaving 407 patients in the Asylum, on the 31st December, 1869.

Of the 130 patients admitted, 24 were re-admissions, and 5 were transferred from other Asylums.

The average number of patients during the year has been 484.

During the year 53 patients have died, being 10.95 per cent. upon the average numbers resident.

The rate of mortality has been unusually high, but it has not been influenced by any epidemical disease; the real cause is to be found in the deteriorated physical condition of the patients prior to their admission.

The Obituary Table No. 3, shows that the deaths are mainly from causes common amongst those suffering from diseases of the brain and nervous system. Post mortem examinations were made in all but 5 cases; and one Coroner's Inquest has been held upon a young female who died suddenly of epileptic convulsions.

The year which has just terminated, has been marked by some special anxieties connected with the admission—the care of, and the subsequent discharge of the patients belonging to the Borough of Leicester.

Fifty-seven fresh cases have been admitted from Leicester since the commencement of the year; and 106 have been transferred to the new Asylum at Humberstone since the 2nd of September. Many of the older patients appeared to feel very much their removal from an Asylum which they had long considered as their home.

It is due to the Officers and persons employed by the Leicester Board of Guardians, to say that they accomplished their task in a very creditable manner; and, as far as the patients were concerned, in a very comfortable manner.

There are now in the Asylum only 4 male patients belonging to the Borough, and I am expecting the necessary powers for their removal.

Concurrently with the removal of the Borough patients, several of the older servants left the Asylum service for various reasons. Three of the older attendants whose period of service averaged eight years, have been made Head attendants in other public Asylums. Five other servants and attendants have also left us to find employment of either advanced character or emolument in the Borough Asylum.

The withdrawal of so many experienced servants, has added not a little to the anxieties, and I may say difficulties, of the general management of the Asylum.

The continuing increase in the patients belonging to the Counties of Leicester and Rutland is a serious consideration. This increase of permanent patients is not dissimilar to that taking place in conterminous counties, nor indeed, to that of all the public Asylums in England, and I do not think that any diminution of this increase is at present to be anticipated.

A careful review of the cases sent in from the Counties of Leicester and Rutland for the last two years, shows that 57 per cent. may be considered as incurable at the time of their admission; 33 per cent. from congenital defects, epilepsy and general paralysis; and 24 per cent. from the previous length of time that the mental disorder had existed.

Cases of uncomplicated insanity have obtained in greater proportion amongst those sent from the Borough of Leicester, and this probably arises from the promptitude which the Leicester Union Authorities have always shown in placing their insane poor in the Asylum, and, as a natural result, it has happened that the proportion of patients discharged cured from the Borough during the last two years, has been somewhat higher than that of the patients from the two Counties.

The wooden building has continued to prove a very

serviceable addition to the Asylum. It is very easily warmed (by means of hot water) in the winter time, and in the summer time it has always had a cooler temperature than could be obtained in the main building. It has always been a very favourite residence with the older patients; and, with the exception of some external painting, the building is in very good order.

The uncertain supply of water from the Company's mains, has, at times, been a source of much trouble, as well as some anxiety. It has on two or three occasions happened, that for several days and nights no water has reached our cisterns; and, but for the supply raised by the old capstan pump, our boilers and heating apparatus, would have been useless, or what is worse, a source of danger.

The amusements of the patients have been maintained as in former years, with few alterations and additions. The weekly dances are a never-failing source of enjoyment; and in the early part of the year, Amateur Theatricals had some prominence amongst the efforts made for their diversion. The pieces, principally broad farces, were successfully performed; at all events they seemed to give great enjoyment to the spectators.

The cheerful and systematic manner in which the labour on the Farm has been carried out, was never more manifest than in the past year; and the Farm and Garden Account shows a balance of £504. 8s. 2d. in favour of the Asylum.

It is with much gratification that I am able to record that no serious accident has happened, although there have been some very serious and frequent attempts at suicide on both sides of the Asylum.

Dr. Finch having resigned his appointment as Assistant Medical Officer on his election as Medical Superintendent to the Borough Asylum, has been succeeded by Dr. Compson, and from these gentlemen, I have received very material and important services in the management of your Asylum.

I have the honour to be, Gentlemen,

Your obedient servant,

JOHN BUCK.

R E P O R T
OF
THE COMMISSIONERS IN LUNACY
ON
THE STATE OF THE ASYLUM,
AT THEIR LAST ANNUAL VISIT,
May 15th, 1869.

IN the course of our visits yesterday and this day, we have seen and spoken to every patient now resident; and have inspected all the Wards and Offices. The numbers on the books are as follows:—Private Patients, 21 Males and 27 Females; Paupers, 210 Males and 244 Females; Total 502. There are said to be vacancies for 2 men and 11 women, but the wards and dormitories are much overcrowded, and must remain so until the removal of the Leicester Borough patients, 123 in number. It is expected that the new building will be ready for their reception, in the month of July. The admissions since the last visit have amounted to 53 in the male, and 58 in the female division, of whom 4 patients of each sex, were of the private class. Sixteen men and 21 women have been discharged, five being private cases; and 27 men and 15 women have died, 3 of the former, and 1 of the latter, private patients.

All the patients discharged were reported to be recovered, but the pressure for accommodation, and the crowded state of the building, no doubt continues in a measure, to encourage the too early discharge of many, and the number of re-admissions is somewhat larger than it should be.

The general health has been good, and a review of the causes of death, shows that the sanitary state of the Asylum has been very satisfactory. This good result is to be attributed no doubt to the scrupulous cleanliness which prevails throughout, and especially in the bath rooms, lavatories, and water closets. At present 7 patients of each sex are under medical treatment.

There is an entry in the Medical Journal, shewing that one patient was placed in restraint for 30 hours for surgical reasons only, and there is but a single record of seclusion, and that on the female side. At our visit, we found one of the men secluded in his room suffering from epileptic mania.

As a rule, the patients were most orderly and comfortable, and from many we received assurances that satisfied us they were under very kind treatment. There were no complaints of the attendants and nurses. Many of them have been here a long time, and are well acquainted with their duties, but they are fewer in proportion to the patients than in most other County Asylums. One additional male attendant has been appointed, but this does no more than meet the increase in the number of patients. Referring to matters of ordinary statutory enquiry, we find the general arrangements remain precisely as before reported, and that about the usual proportion of inmates are usually employed. The cultivation of the land continues to be carried on with advantage to the funds of the Institution, and the plan adopted for the continued and early distribution of the sewage is quite successful. The chapel is well filled on Sundays, and prayers are read as usual.

We have already stated that the wards were very clean, and have only to add that the bedding was well attended to, and that the personal condition of the patients was satisfactory. No report has yet been made by the sub-committee of Justices, who were appointed to enquire into the charitable funds belonging to the Institution, and to consider the state and condition of the Asylum generally.

We have examined and signed the various books and Registers, and are glad to report that the case books are now fully entered up by the care of Mr. Finch, the assistant Medical Officer. This gentleman has been appointed Superintendent of the new Asylum for the Borough, and as it will be necessary that he should enter upon his duties there at an early date, and for some considerable time before the opening, we trust no time will be lost in appointing his successor.

There have been improvements in various departments, and we desire to notice, with special approval, the changes which have been made in No. 2 Ward on the women's side. This ward in which the most impulsive women are placed, is now as well if not better furnished than any other, and

the effect produced by the change has been most encouraging.

There has been no destruction whatever of the pictures and other ornaments, and there has been a marked improvement in the conduct of the inmates.

We are glad again to have to report that the condition of the Asylum continues to reflect credit on the management of Mr. Buck.
