T H E R E P O R T

OF

THE UNITED COMMITTEE OF VISITORS

OF

The Leicestershire & Rutland Lunatic Asylum,

TO THE

THIRTY-FIFTH GENERAL ANNUAL MEETING,

HELD AT THE JUDGES' LODGINGS,

On Wednesday, the 31st day of January, 1872.

THE Report now presented is the last that will come from the United Committee of Visitors in the present shape; henceforth the interests of the Charity will be kept so completely distinct from those of the Asylum generally, that it is probable that separate Reports will be presented from the different Committees.

During the past year, the agreement which was entered into for the separation of the Charity, and which is referred to in the Report presented in 1871, as having received the sanction of the Secretary of State, has also received the sanction of the Court of Chancery through His Lordship the Master of the Rolls; and the scheme for the regulation and management of the Charity, and of the application of the present and future income thereof, has been approved by the

same Judge, and it is according to this scheme that the Asylum has been managed during the past year.

By this scheme, the old division of the patients into four classes, and the estimate and appropriation of the supposed profits of the second and fourth classes, has been done away with. Henceforth the patients in the Asylum are divided into two classes only—pauper and private; and the latter are those exclusively who are borne on the books of the Charity.

The average number of patients in the Asylum during the past year has been $422\frac{3}{4}$; of these, $376\frac{3}{4}$ are pauper patients, and $46\frac{1}{4}$ private patients.

Of the pauper patients, $332\frac{5}{8}$ belong to the County of Leicester; $41\frac{1}{2}$ to the County of Rutland; and the remainder $2\frac{3}{8}$ are Out County Patients, whose stay is only till they can be removed to their respective Unions.

The average cost of the patients during the past year has been higher than usual, averaging 9s. 11d. per week per head; as the charge for such maintenance made to the County Unions is only 9s., it is obvious that there is a loss of elevenpence per head per week on all County Patients.

To meet this loss, the Asylum now takes the profits of the Farm exclusively to itself, instead of as formerly paying over one-fifth to the Charity. This, and some other small receipts will go in aid of the deficiency, which cannot be exactly ascertained until the accounts are finally made up; but it is manifest that unless some diminution can be effected in the household expenditure, the present weekly charge of 9s. must be increased.

The Visitors will only consent to this increase with great reluctance, and it is hoped that by various improvements introduced into the household such increase may be avoided, but the management of the Asylum will require strict economy to do so.

It has been proposed to erect a separate house for the residence of the Medical Superintendent, and the plans proposed for the same have received the approval of the Commissioners in Lunacy. This work will probably be completed during the year, and it is hoped with beneficial results, as the space thus obtained in the main building, will be available for the separation of the pauper from the private patients, as proposed in the scheme of the Charity.

The amount due from the Counties to the Charity on the adjustment of their respective shares in the Asylum Estate

is £5,000. This is still due ; but the Counties have £4,000 invested in India Bonds, in readiness for a payment on account, and it is intended ere long to discharge the balance.

The Charity by the alteration in the constitution of the Asylum has now to bear the cost of all the Private Patients in the Asylum, and as the average cost has been during the past year, as before mentioned, 9s. 11d. per week, and there have been 2,423 weeks spent by the Private Patients in the Asylum during the year, the Charity has to pay £1,201 8s. 1d. as its share in the household expenditure ; it has also to pay as its share of the repairs and furniture £149 14s., making in all £1,351 2s. 1d. : but against this it has to set off the receipts of the Private Patients, amounting during the year to £1,391 11s. 5d., leaving a profit to the Charity on the patients of £40 9s. 4d., in addition to its income from subscriptions and investments, amounting to a considerable sum. It is understood, however, that the Charity will not in future receive patients paying a high rate of maintenance, and thus, as the few remaining of that class leave the Asylum, the income from subscription and investment must be brought in aid of the payments required for the maintenance of the Charity patients.

At the present Annual Meeting, a Chairman, Treasurer, and Clerk will be appointed by the Subscribers for the Charity, exclusively of those for the Counties, and the fund of the Charity handed over to the Treasurer of the Charity. The accounts will show that the funds of the Charity are in a very prosperous state, and there is a sum due for the dividends of past years which will be received during the current year : against these, however, is to be placed the costs of the proceedings in the Court of Chancery, which are not yet taxed, and which, as the Attorney General was obliged to be made a party, will be considerable.

The Asylum has been visited during the past year by the Commissioners in Lunacy, whose report is set forth in the appendix.

The Superintendent and Chaplain have also presented Reports, which are now laid before the Meeting.

During the past year, the Visitors have had to lament the decease of Lord Berners, who had been a Visitor of the Asylum from its commencement, and had continued to hold the office for 36 years, during the whole of which time he had been a most able and zealous supporter of the Institution.

He has (by his Will) bequeathed £1,000 to the Charity of the Asylum. The death of another Visitor (the Rev. J. P. Goulton-Constable,) who had but lately been appointed, is also to be noticed with regret.

In concluding this Report, and with it, as it were an important period in the history of the Asylum, the Visitors would desire to record their appreciation of the services rendered by the Medical and other Officers of the Institution, and to congratulate the Subscribers and Ratepayers on the high state of prosperity it has attained to. They close this chapter of its history with deep thankfulness to Almighty God for the good He has permitted to be accomplished, and with the earnest hope that by His blessing that good may be continued and extended in the future.

A. G. HAZLERIGG,

Chairman.

25th January, 1872.

To the Visitors of the Leicestershire and Rutland Asylum.

GENTLEMEN,

I have the honour to submit to you the following Report:—

On the 1st January, 1871, there remained in the Asylum 417 patients: viz., 203 men and 214 women. The number admitted during the year amounts to 101 (59 males and 42 females); making a total of 518 under care and treatment during that period. Of these

38	have been discharged	Recovered,
12	ditto	Relieved,

and 42 have died, leaving 426 in the Asylum,
on the 1st January, 1872.

Of the 101 patients admitted, 3 were transferred from other Asylums, and 12 were cases of readmission into this Asylum.

During the year, 4 criminal patients have been admitted; one from the Derby County Prison, and three from the Leicester County Prison.

Of the 518 patients under care and treatment during the year, the average number has been 422, showing an increase of 11 upon the average of the preceding year.

The steadily increasing number of patients chargeable to the public rates has as yet received no check, and the fact that the Asylum now contains a permanent population of upwards of 100 pauper patients more than obtained in 1861 is very suggestive of the often-raised question as to the general increase of insanity.

It would be out of place for me here to enter upon the discussion of such a question, but I do not hesitate to express my belief that many patients are now sent to the Asylum, who would not with similar symptoms have been sent to a Lunatic Asylum twenty years ago.

Many are sent now in extreme old age, and in such a state that it is obvious to all concerned that they are only

sent in order that the wants of their very numbered days may be met by the resources of your Asylum.

Several cases have been admitted during the year of patients (not being paupers,) being sent into the Asylum by the powers given to two Magistrates in the 68th section of the 16th and 17th Vic., cap. 97.

In these cases, the friends of the patients repay the parish authorities the whole, or part, of the patient's maintenance, and hence there occasionally follows some indisposition on the part of the patient's friends to submit to the ordinary rules and regulations of the Asylum.

These quasi-pauper patients are an increasing class not only in this, but, I believe, in all County Asylums.

I venture to express a hope that the Charity attached to your Asylum will before long be able to afford relief to this class of patients, and so encourage a spirit of independence (now somewhat cramped) amongst the poorer members of the middle class society of this neighbourhood, whose friends become the object of Asylum care.

During the early part of this year, (in consequence of the prevalence of small pox in the neighbourhood) some fifty of the patients and servants were vaccinated.

In July last, a Coroner's inquest was held upon a female patient, who had died somewhat suddenly from disease of the heart.

Several accidents have occurred, but none of fatal character, or such as to call for special notice; and the health of the patients has been generally good, and free from epidemic disorders.

There is, I think, a very perceptible increase in the difficulties of providing suitable amusements for the patients, or rather in amusing the patients, and this is, I imagine, attributable to the fact that we no longer receive the patients of a town population, but almost exclusively those of an agricultural district.

We have during the year had several concerts and plays given us by warm-hearted and intelligent members of local amateur societies.

The female patients (of course properly attended by Nurses) have frequently extended their walks to the neighbouring villages, and I am glad to say these excursions have often been followed by very satisfactory results.

The Tuesday evening dances have been held with scarcely

an interruption, and are always found to be cheerful and orderly gatherings.

On the first Tuesday in each month, these parties are on a somewhat more extended scale, and some singing and music form part of the entertainment.

I am not without hope that some systematic public readings, which formerly used to find favour with the patients, may be renewed.

There is, of course, some difficulty in supplying such means of amusement from the limited resident staff of the Asylum, and I should gladly welcome any neighbouring friends who will volunteer their assistance in such good work.

The operations on the farm have been carried out under disadvantageous circumstances, owing to the uncongenial weather which has characterized the year; and I regret to say that the profits on the farm amount to less by £55 than it was in 1870. This is partly to be accounted for by the purchase of stock, and by the partial failure of the potato crop.

I wish especially to acknowledge the willing services of Dr. Compson, which have efficiently contributed to the well-being of the patients.

I have the honour to be, Gentlemen,

Your obedient Servant,

JOHN BUCK.

REPORT
OF
THE COMMISSIONERS IN LUNACY
ON
THE STATE OF THE ASYLUM
AT THEIR LAST ANNUAL VISIT,
1st March, 1871.

WE have seen all the patients (except a woman, who is away on trial,) and have visited all the wards and offices. Altogether there are now on the books the names of 418 patients: viz., 21 males and 26 females, private; and 182 males and 189 females of the pauper class.

We have a very good report to make as to the state of the Institution. The wards were throughout in the best order, and most comfortable as regards the furniture, and the supply of means for amusement and occupation; and the patients were, without exception, free from excitement, and personally in a very satisfactory state. There was no one secluded or restrained. The regulations affecting the occupations of the patients of both sexes remain as before; and about the same numbers continue to attend Divine Service, and are present at the meetings in the recreation-room.

These meetings are held weekly, but once a month the amusements are upon a somewhat more extensive scale than on the other days, and prolonged to a later hour. The farm, which is entirely cultivated by the patients, continues to be a source of profit, and the land is in the best order. All the clothes and shoes are made in the Asylum.

We had no complaints from the patients; and we thought that the Attendants, most of whom have been here for many years, seemed kind and well-acquainted with their duties.

As regards matters of statutory enquiry, we have to report that 40 pauper and 5 private males, and 37 pauper and 9 private females have been admitted; and 15 pauper and 3 private males, and 17 pauper and 5 private females have been discharged.

The deaths, amounting altogether to 40 since our last visit a year ago, were all from ordinary causes. Of these patients, 4 men and 5 women were private, and 15 men and 16 women were pauper patients.

Two inquests were held: one on a man who died suddenly from disease of the heart, and the other in the case of an old man, 80 years of age, who, having been brought to the Asylum suffering from recent burns, and in a most feeble condition, died in three days. The verdict was "Death from shock to the nervous system caused by burns, together with his advanced age." We are glad to find that the general practice here is to make *post mortem* examinations, and there have been only ten exceptions to this rule since our last visit.

The present weekly charge for paupers is 9s., and there are about fifty vacancies.

We have great pleasure in again bearing testimony to the kind and able manner in which the patients are treated by Mr. Buck.

W. G. CAMPBELL,	} <i>Commissioners</i>
JAMES WILKES,

During the past year the proceedings in the Court of Chancery have been brought to a close, but there are still many unsettled Accounts as between the Counties and the Charity which will require careful examination and audit. The change in the constitution of the Asylum and the appointment of separate Treasurers for the Asylum and the Charity, and the change of Banking Accounts from the Bank of England to Pares's Leicestershire Banking Company, all tend to make a special and careful preliminary audit necessary, before starting the new Accounts with the respective Treasurers. As this could not be done in time for the publication of this Report, the only account printed is the Balance sheet of the Household during the year, showing the Income and Expenditure and the several Cash Balances as transferred from the Bank of England to Messrs. Pares, on the 23rd February, 1872.

These were as follows :—

	£.	s.	d.
For the Household	4561	7	2
For the Building	217	6	11
For the Adelaide Fund	28	19	0
For the Charity	1223	3	4
	<u>6030</u>	<u>16</u>	<u>5</u>
Less Balance due to Bank on Repairs Account	246	16	5
Net Balance	<u>£5784</u>	<u>0</u>	<u>0</u>

During the year the sums due to and from the several Accounts will be settled and agreed on between the respective Treasurers, and the Accounts shown in the Report for the year 1872.
