THE REPORT

OF

THE UNITED COMMITTEE OF VISITORS

OF

The Leicestershire and Rutland Lunatic Asylum,

TO THE

THIRTIETH GENERAL ANNUAL MEETING,

HELD AT THE JUDGES' LODGINGS,

On Thursday, the 31st day of January, 1867.

IN presenting the Report, the Visitors desire to express their deep regret that the state of health of the Chairman prevents his presence at the Annual Meeting. Mr. Packe has been Chairman of the Committee of Visitors since the establishment of the Asylum in the year 1837, and from that time to the present, a period of thirty years, he has spared no labour or attention to promote the welfare of the Institution. The services he has rendered have been recognized from time to time by repeated votes of thanks; and the Visitors trust that these services, so beneficial to the Institution, may be long continued.

Below is a tabular statement of the average number of Patients during the past ten years. The Visitors find that the total number for the past year is about the same as that of the preceding year, notwithstanding that the Borough Patients have been greatly reduced in number. This reduction has been made in compliance with the direction of the

Visitors, a direction which was given with reluctance, and only because it was rendered absolutely necessary by the requirements of the County paupers.

The numbers for the last ten years are as follows:—

	1857.	1858.	1859.	1860.	1861.	1862.	1863.	1864.	1865.	1866.

On reference to this table it will be seen that the number of County Pauper Lunatics in the Asylum, has increased from 162 in the year 1857 to 266 in the year 1866, an increase of upwards of 64 per cent. during the period. The Visitors fear that this progressive annual increase is not likely to be diminished, and that the alteration in the law referred to in the last Annual Report, by which the maintenance of Pauper Lunatics is cast upon the Common Fund of the Union will tend to fill the Asylum with chronic and incurable cases.

The Visitors during the past year have endeavoured to provide for this increase by reducing the Borough Patients to the lowest number the Visitors are compelled to receive, that is to say, *forty!* but even with this, the inconvenience of the past year has been very great, the numbers in the House on one occasion reaching as high as 411.

In the year 1868, the agreement between the Counties and the Borough terminates, and the Visitors will then have the right to require the removal of forty patients; but even with this relief the prospects for the future must cause considerable anxiety, since at the last Annual Return of Lunatics, it was found that there were 176 then in the County of Leicester who were not in the Lunatic Asylum.

The Visitors, however, are not prepared to recommend the erection of any additional buildings at present.

The Report of the two Commissioners in Lunacy on

their annual visit to the Asylum is appended to this Report, but the Visitors regret to say that it will be found on its perusal that they are at issue with the Commissioners on an important point respecting the management of the Asylum, and which they beg now to submit to the Annual Meeting for its careful consideration.

The Commissioners in Lunacy for the last two or three years have pressed upon the Visitors the necessity of appointing an Assistant Medical Officer. Had this recommendation been coupled with any reason for making such an appointment, other than a general statement of its expediency, the Visitors would have considered the subject with all the respect and attention which has been invariably shown to the suggestions of the Commissioners; but as no fault has been found with the management of the Asylum, on the contrary, as each visit of the Commissioners produced fresh praises of the state and condition of the Institution; the Visitors were at a loss to conceive why any alteration of such a satisfactory state of things was necessary. In consequence, however, of the repeated suggestions of the Commissioners a Committee was appointed at the Annual Meeting of last year to consider the subject, and, inasmuch as the only reason suggested for the alteration was the relief of the Superintendent from undue pressure in the performance of his office, the Committee requested of the Superintendent a distinct answer to the questions: "Whether the safety of the Asylum required an Assistant Medical Officer? and whether his own labours were so onerous as to require assistance?" To each of those questions the Superintendent professed himself unable to give a satisfactory answer. It was then enquired of him what the duties of an Assistant Medical Officer would be in case of his appointment, when his reply was, that some of the duties of the Head Attendant would be transferred to the Assistant Surgeon. The Visitors, however, are not prepared to transfer the duties of an experienced man as the Head Attendant may be presumed to be to a young and inexperienced person as the Assistant Surgeon must in the outset necessarily be, and as the Superintendent did not either originate the suggestion in his own behalf, or during the enquiry, make any suggestion that the duties of his office were too onerous for him, the Committee of Visitors came to the following resolution: "That after hearing Mr. Buck's explanation, the Committee are not prepared to recommend to the Visitors the appointment of an Assistant

Medical Officer." At the General Quarterly Meeting in October last this resolution was adopted, but in order to relieve the Superintendent from any undue pressure in his medical duties, and to afford him assistance in urgent cases, it was at the same Meeting resolved, "That the Physicians and Surgeons of the Leicester Infirmary be respectively appointed Consulting Physicians and Consulting Surgeons to the Asylum, and that Mr. Buck be empowered to call in any one of them whenever he thinks it expedient so to do, and to pay the customary fees on such occasions." Since the foregoing Resolutions were passed two of the Commissioners have again visited the Asylum, and without any reference to the enquiry that had been made by the Visitors as recorded in the Minutes, and without requesting any explanation whatever of the reasons why the Visitors declined to appoint an Assistant Surgeon, have reiterated their desire for such appointment in more peremptory terms, and by their Secretary have required that the special attention of the Visitors should be called to such recommendation.

The Visitors desirous of treating the Commissioners with all possible respect have again appointed a Committee to enquire into the matter, and especially whether the pressure of his office is so great upon the Superintendent that he requires any and what relief. The Visitors have heard a statement of these duties, and of the time which may be reasonably occupied in their performance, they find that the average number of persons under medical treatment during the past year has not exceeded twelve a week, and that these cases are such as do not require any other than ordinary medical treatment, may be inferred from the fact that Mr. Buck has not availed himself in any one case, of the privilege granted him of calling in the aid of any consulting Physician or Surgeon, and they have come to the conclusion that the duties of the Superintendent are such as may be performed without any undue pressure upon his time; and that undue pressure cannot be alleged as an excuse for the omission which is adverted to in the Commissioner's Report.

But the Visitors report further that the Superintendent himself, on enquiry being made of him, does not desire an assistant officer, unless a separate house can be erected for himself, and that unless this is done the Superintendent would rather that the staff of the Asylum remained as it is.

But the Visitors are not at all prepared to recommend to the ratepayers of the County any such expenditure. The

Asylum has been satisfactorily managed hitherto, as is admitted in the Report of the Commissioners year after year. The Visitors believe that much of this satisfactory management is due to the fact of the Superintendent living in the Asylum and sleeping within its walls, and they are not at all prepared to recommend that a separate establishment and a separate house be provided for the Superintendent.

The Visitors feel that if the Asylum has been well managed hitherto under their direction, as the Commissioners have constantly asserted it to be, they have a right to continue such management in their own way, until the Commissioners can point out some specific defect. In that case the Visitors will pay instant attention, and, if possible, apply a remedy; and in the present case, if any statement be made to them at any future time by the Superintendent himself that the duties of his office have become too onerous to be performed by himself alone, they will immediately institute an enquiry into the nature of these duties and the time required for their performance, and if relief is required from any pressure, that relief shall be afforded, but at present no complaint whatever is made by the person chiefly affected; on the contrary, he himself prefers to be without an assistant, unless a separate house and establishment can be provided for himself. And the Visitors, therefore, with all respect to the Commissioners, decline to adopt their recommendation, and for the present refuse to appoint any Assistant Medical Officer to the Leicestershire and Rutland Lunatic Asylum.

On making up the Balance Sheet of the past year, which, with the usual medical tables will be appended to this Report, it is found that there has been a slight loss on the Household Account, the cash balance of £3,539. 5s. 10d. in 1865, being reduced to £3,398. 9s. 7d. in 1866, but, independently of the high price of provisions during the year, the Asylum has had to incur some extraordinary expenses, in concurring with the Borough of Leicester in a Parliamentary opposition to the Leicester Waterworks Bill. The Visitors therefore have not thought it necessary to raise the weekly rate of maintenance, and they regard the financial condition of the Asylum as satisfactory.

The Farm and Garden have been very productive, and the Visitors desire to record their appreciation of the successful management of the land by the Superintendent, so that while the cultivation of the land is a material feature in promoting the health of the Patients, the Asylum reaps a large pecuniary benefit.

The Capital Stock of the Charity has been increased this year by a legacy from the late Samuel Waters, Esquire, of £100., and the total Capital Stock now exceeds £6,000., independently of the share of the Charity in the Buildings of the Asylum.

The Reports of the Medical Superintendent and Matron will be laid before the Meeting. As also the Report of the Commissioners already referred to. In the latter the Commissioners say, "We have again to report very favourably of the condition of the Asylum and its inmates. The utmost tranquility and good order prevailed throughout, and the personal condition of the patients was satisfactory." The Visitors believe that these remarks of the Commissioners are well deserved, and have pleasure in adding their own testimony to the services rendered by the Medical Superintendent and the Officers under his direction during the past year.

CHARLES THOS. FREER,

Chairman of Committee.

REPORT
OF
THE COMMISSIONERS IN LUNACY
ON THE STATE OF THE ASYLUM,
AT THEIR LAST ANNUAL VISIT,
November 27th, 1866.

SINCE our Colleagues' last visit on the 16th of August, 1865, 29 male and 44 female Patients of the Pauper Class have been admitted; and 4 males and 13 females of the Private Class have also been received. Of the Patients discharged, 2 males and 7 females were Private, and 17 males and 24 females, Pauper Patients.

The deaths amounting to 14 in the male and 21 in the female division were all from ordinary causes. These numbers are moderate, and we observe as an indication of the sanitary condition of the Asylum during the past year, that only two deaths were due to consumption.

The Asylum now contains a total of 407 Patients, of whom 51 are of the Private and 356 of the Pauper Class. These numbers leave only two vacant beds in each division.

How far this narrow margin of vacant accommodation may affect the discharge of Patients, and be the cause of their too early removal, we cannot tell, but it is a fact worthy of notice, that out of the 90 admissions since August, 1865, 24 were re-admissions.

We have again to report very favourably of the condition of the Asylum and its inmates.

The utmost tranquility and good order prevailed throughout, and the personal condition of the Patients was satisfactory. We had no complaints of harshness on the part of the attendants or nurses, and it is a fact worthy of notice that there has been no change among the male attendants for two years past.

The arrangements for occupation and amusement continue as before reported, a good proportion of the inmates of both sexes are regularly and usefully employed, and all the shoes, clothes, etc., are made on the premises. As usual a great many of the men work on the land, and the farm continues to prove a source of considerable profit. All these operations are carried on with an unusually small amount of assistance from paid servants and labourers, and with evident pleasure and alacrity by the patients.

Divine Service is performed on Sundays and Wednesdays. On Sunday upwards of 270, and on Wednesdays about 220 patients usually attend.

The means of amusement seem to be ample, and we report with pleasure that 45 men and 22 women are permitted to walk beyond the premises unattended. Large parties also go out for walks with their attendants.

The excellent practice of allowing patients to visit their friends for short periods is also carried out to a considerable extent and with the best results.

The wards were clean and properly ventilated, and they present a cheerful appearance.

Papering has been carried out in most of the wards, more especially in the female division, and various improvements have been completed; amongst these we may specially notice that handles have been placed on the inside of 13 single doors on the male, and 10 on the female side, and these doors are never locked on the outside.

In connection with this subject we have to state that no instance of seclusion is recorded during the past year, and that there has been no mechanical restraint.

There was only a small number of patients in bed to-day, and the general health is very good.

Some new baths are being fixed, and we have to recommend that rules for the guidance of the attendants in bathing the patients be drawn up, and a copy hung in every bath room. We also suggest that the appearance of the bath rooms be improved, and that additional comforts be introduced in them.

We have made the usual statutory enquiries, and have signed and examined the various books and registers.

The Medical Records are neither so complete nor so closely written up as is necessary. For this we think no blame can fairly be attributed to Mr. Buck, who in addition to the labour of organizing and keeping up the Asylum in

the very satisfactory state which we have described above, has also the duty imposed upon him of dispensing the medicines, and keeping up the registers, case books, and the correspondence.

Any assistance which the Superintendent might formerly have received in the medical treatment of the patients, has been withdrawn by the resignation of Dr. Shaw; and we desire to record our opinion, that the duties imposed upon the Medical Superintendent in this large Asylum cannot be fully performed with justice to himself, and due regard to the medical treatment of the patients, by any one individual however zealous and efficient. We therefore again beg to press upon the Visitors the necessity of no longer postponing the appointment of an Assistant Medical Officer.

W. G. CAMPBELL,
JOHN D. CLEATON,

Commissioners in Lunacy.
