No fermented liquors for the Patients of this Institution shall be allowed, except under special medical order.

The Board of Governors disapproves and disallows the use of fermented drink, as part of the ordinary diet of the Patients, *or under the plea of supporting strength during any employment*: leaving, as heretofore, the widest discretion to the medical officer, in the use of wine and porter, for cases seeming specially to require the use thereof; and the Board is fully determined to maintain the nutritious and substantial diet, substituted some years ago for the use of fermented drink.

All the sleeping-rooms (except for patients irretentive of their urine) shall be supplied with water for drinking.

The House Surgeon shall specify in his Journal daily, the names of the Patients whom he may select to take walks into the country or town, giving preference to the country in fine weather; and similar entry shall be made of the names of the Patients selected to go to church on Sundays.

The Patients shall not be confined to Needlework, or other sedentary employment, when they can be employed in the open air.

## ATTENDANCE, SECURITY.

No Patient who resists shall be removed from one place to another, without the aid of two attendants.

The Attendants shall be required to be good-tempered, sober, able-bodied persons: Females not under five feet five inches high, Males not under five feet nine inches.

The Attendants shall report to the House Surgeon, whenever any Patient is held by the hands as much as ten minutes; and the House Surgeon shall enter in the "Register of Control" each manual detention which he may direct to be further continued above the said ten minutes.

The person of every Patient shall be especially and carefully examined weekly by the House Surgeon and Matron respectively, while bathing, or otherwise while changing their linen; and marks (if any) found upon their persons, shall be reported in the "Daily Return of the State of the Patients" forthwith to the Board.

CONTROL.

No Officer or Servant shall keep in his possession on the premises, any instrument of Restraint.

All instruments of Restraint used by the friends of Patients for bringing them to the Asylum, shall be always returned at the same time.

Not fewer than two Attendants shall be sent in search of Patients who may have escaped.

The House Surgeon shall be empowered to engage, temporarily, any number of extra Attendants necessary for the care of any Patient persevering in acts of extraordinary violence.

Whenever it may become absolutely necessary to overpower a refractory Patient, two Attendants shall be employed for that purpose, to prevent as much as possible the risk of resistance and struggle.

RELIGIOUS OBSERVANCES.

The House Surgeon shall be empowered to have Evening Prayers for the Establishment, and such of the Patients as he may think proper, at such time and in such manner as not to interfere with the distinctive duties of the Lord's Day.

The Servants of this Establishment shall be each supplied with the use of a Testament and Prayer Book.

DISCHARGE, REMOVAL, DECEASE.

The Chairman of the first Weekly Board after the removal of any Patient, shall address a letter to the friends of the Patient, requesting, as a favor, the communication of any complaint against the House in regard to the treatment of such Patient, or in regard to the property, accounts, or any other matter whatsoever; and requesting a statement of their satisfaction, if satisfied.
