R E P O R T  
OF THE  
COMMITTEE OF VISITORS  
OF THE  
LUNATIC ASYLUM AT SNENTON, NOTTINGHAM.

---

*To the Court of Quarter Sessions for the County of Nottingham.*

The Committee of Visitors of the County Lunatic Asylum at Snenton report that the number of lunatics, idiots, and persons of unsound mind remaining under care and treatment at the close of the year 1878 was 390—namely, 189 males and 201 females.

The greatest number accommodated during the year at any one time was 401.

The Committee are glad to state that no patient from the county was refused admission. They were also able to receive all the patients brought from the parishes lately forming part of the county, but were not in a position to find room for new cases from the old portion of the Borough of Nottingham. At present there are 113 patients resident who are chargeable to the Nottingham Union, and about 85 to the recently annexed parishes. It is expected that nearly 200 patients will be removed to the new Borough Asylum in the course of the next twelve months.

The Asylum is in a fair state of repair. The sum of £552 13s. 0d. has been laid out in painting the exterior and interior of the building, and in papering day rooms and offices. The Committee do not ask the Court for a vote to reimburse this expenditure, but have paid for it out of the balance in hand received from time to time for the lodging of lunatics belonging to Nottingham, Newark, and other non-contributing places.

The Asylum has been free from all forms of epidemic disease; and no suicide, fatal injury, or escape has occurred.

The Committee passed the following resolution on the 19th of December:—

“Whereas due notice has been given to the Committee of Visitors of the intention to determine at this meeting the question of granting, under the provisions of the 57th section of the Lunatic Asylums’ Act of 1853, an annuity by way of superannuation to William Daley, an attendant, aged 63 years, who has been in the service of this Asylum 27 years, and has given notice to retire therefrom on the 6th January, 1879; the Committee hereby resolve to grant the sum of Forty-five Pounds a year to the said William Daley during his lifetime, and direct that this order, which three Visitors concur in and sign, be reported to the Court of Quarter Sessions for confirmation by the Justices in General or Quarter Sessions assembled, it being understood that one-seventh of this annuity is to be paid by the Town Council of the Borough of Nottingham, in accordance with the terms of the agreement between the county and the borough, dated the 6th day of April, 1874.—T. C. CANE, HENRY SHERBROOKE, ALBERT HEYMANN.”

*T. C. Cane,*

CHAIRMAN.

2ND JANUARY, 1879.

# ANNUAL REPORT

## OF THE SUPERINTENDENT.

~~~~~

MR. CHAIRMAN, MY LORD, AND GENTLEMEN,

In fulfilment of the tenth rule, I have the honour to submit the yearly report of the number of admissions, recoveries, discharges, and deaths that have occurred, and of other particulars relating to the state of the Asylum up to the 1st January, 1879. A summary of the movement of the population is set forth in the following table:—

TABLE I.

Showing the admissions, discharges, and deaths during the year 1878:—

|                                                 | M   | F   | T   |
|-------------------------------------------------|-----|-----|-----|
| In the Asylum on the 1st January, 1878 .....    | 187 | 206 | 393 |
|                                                 | M   | F   | T   |
| Admitted since for the first time               | 36  | 33  | 69  |
| Re-admitted .....                               | 10  | 6   | 16  |
| Total admitted.....                             | 46  | 39  | 85  |
| Total under treatment during the year.....      | 233 | 245 | 478 |
| DISCHARGED OR REMOVED.                          |     |     |     |
|                                                 | M   | F   | T   |
| Recovered .....                                 | 16  | 13  | 29  |
| Relieved .....                                  | 1   | 4   | 5   |
| Not improved .....                              | 1   | 1   | 2   |
| Died .....                                      | 26  | 26  | 52  |
| Total discharged and died during the year ..... | 44  | 44  | 88  |
| Remaining in the Asylum, 31st December, 1878 .. | 189 | 201 | 390 |
| Average number resident during the year .....   | 189 | 204 | 393 |

The chargeability of those remaining is thus distributed—Nottingham Union, 113; Radford Union, 54; Basford and Bulwell parishes, 31; making 198 whose settlement is in the Borough of Nottingham. Three others belong to the Borough of Newark, and 189 to the county and its Unions.

The applications from the county proper were all complied with, and 66 patients admitted; 15 also were received from the Radford Union; 3 from the parishes of Basford and Bulwell, now no longer forming a portion of the county for this purpose; and one, a criminal chargeable to the Nottingham Union, was brought in from Southwell House of Correction.

The Asylum has been on the verge of being full at various times, and on one occasion held 401 patients, the highest number ever reached. No room could be spared for new cases arising in the old borough, and the vacancies that occurred were replaced by those having a legal right of admission, and from the parishes formerly in union with the county.

Of those admitted 20 were 60 years old or upwards. One of the re-admissions was that of a woman after an interval of 46 years. On reference to our registers as to the number of lunatics in detention in 1832, a very different state of affairs from the present was found recorded. At that time 37 private patients and 51 paupers were under care here. At present there are 390 of the latter class alone in the Asylum, and 78 more maintained in other Asylums, exclusive of about 68 private patients confined in the Lunatic Hospital.

Undoubtedly the greater portion of this increase may be accounted for by the circumstance that the terms lunacy and idiocy were then used in a very restricted sense, but are now made to include all diseases of the brain accompanied by disorder of the intellect, and ranging from congenital imbecility to senile decay.

Eleven of those admitted were affected with epilepsy, generally an incurable complication; fourteen with general paralysis, a disease tending to a fatal issue, and the majority of the remainder in a weakly condition of bodily health. It is from a knowledge of the causes of insanity and by continued efforts to obviate them that we can hope to limit the increase of this deplorable affliction. Insanity depends upon a plurality of causes, and also upon a conjunction of them, as when two or three act together and produce the same effect. Of the 85 cases intemperance in drink was an agent, either sole or combined, in 24, or in 35 per cent. of the whole; and as regards sex in the proportion of 18 men to 6 women. Hereditary predisposition was apparent in 22 cases. This has a tendency to die out, but is continually renewed by the occurrence of instances originating out of other physical and moral causes to a great extent preventible. In some lunatics there is family history of intemperance sufficient to account for predisposition without the occurrence of absolute insanity in the ancestor. Nine cases were ascribed to adverse circumstances. The other causes of less frequency are enumerated in the tables annexed to this report.

The recoveries were 29, or 34 per cent. on the admissions, being at the rate of 4 per cent. above the average of the 58 Asylums in 1877, as furnished in the report of the Lunacy Commissioners. The deaths were 52, or 2.9 above the average, 10.3; and were the result of natural causes. One woman died aged 96 years. As this is the oldest Asylum in England, a slight excess in the death-rate may be expected until the conditions of comparison are made equal by the accumulation in the more modern establishments of aged lunatics in like numbers with this.

Private patients are no longer received here as they are in 24 other County Asylums. The statistics of this class are more favourable than those of the public beneficiaries. Their friends, moreover, have the power of removing them at will on the development of unfavourable symptoms, whereby the death-rate is lowered artificially.

According to the last return, 395 inquests were held in Nottingham and Nottinghamshire in one year. One only has taken place at the Asylum during the past twelve months, upon a man who had died suddenly of disease of the arteries of the brain. The only removal requiring notice is that of a quondam male criminal, who in 1877 created considerable anxiety by his homicidal propensities, shown by stabbing an attendant in several places. Having again treacherously wounded the same man in like manner, and as the superior officers could only perform their duties at the risk of being killed, it was deemed expedient to remove him again to Fisherton House, where others of his class are confined. The cost of providing attendants to watch him in this Asylum was found to be greater than in that institution, where systematic provision is made for the care of such persons.

No suicide or fatal injury happened to any of the 478 patients brought under treatment. It may be useful to compare this result with the statistics outside. According to the late return of the Registrar-General, 73 persons per million were proved to have destroyed themselves in England and Wales in one year. In the Nottinghamshire district 23 men and 11 women committed suicide in the following manner:—

|                 | M. | F. |
|-----------------|----|----|
| Gunshot.....    | 1  | 0  |
| Cut, stab ..... | 5  | 2  |
| Poison .....    | 1  | 2  |
| Drowning .....  | 3  | 6  |
| Hanging .....   | 11 | 1  |
| Others .....    | 2  | 0  |

It can scarcely be held that all these deaths were the result of vicious impulse, and not of disease amenable to treatment.

The accounts presented to-day are compiled in a new form furnished by the London Board. It appears to be necessary under this arrangement to have two banking accounts: one for the fabric and another for the maintenance, and to appor-

tion the general balance between them. The balance in hand will enable each department to commence with funds amply sufficient to meet all ordinary contingent expenses.

*Wm. P. Phillimore, M.B.,*

SUPERINTENDENT.

SNENTON, 16TH JANUARY, 1879.

# REPORT

## OF THE

### COMMISSIONERS IN LUNACY.

NOTTINGHAM COUNTY ASYLUM,

July 20 and 22, 1878.

The last visit to this Asylum paid by our colleagues was on November 13 and 14. At that time there were 395 patients under Dr. Phillimore's care. There is now a slight decrease in the numbers, there being at present 390 patients, of whom 186 are males, and 204 are females; of these 97 men and 100 women are County and County Union patients; 34 men and 36 women belong to the extended Borough of Nottingham, but these are considered to belong, as regards charges, for the present to the county; 52 men and 68 women are chargeable to the old Borough of Nottingham; and 3 men belong to the Borough of Newark. The weekly rate for the county patients is 10s., for the borough patients 11s., and for Newark patients 14s.

The following table shows the changes which have taken place since the last visit:—

|                                           | M  | F  | T  |
|-------------------------------------------|----|----|----|
| Admitted.....                             | 34 | 31 | 65 |
| Discharged as "Recovered".....            | 15 | 12 | 27 |
| "    "    "Relieved" or "Not Improved" .. | 2  | 5  | 7  |
| Died.....                                 | 20 | 16 | 36 |

Of those admitted, 15 were re-admissions, 7 men and 8 women. No patients were absent on leave. Since the 1st

January last we are informed that no patients have been admitted belonging to the "old" borough. The recoveries have been during the last eight months in the proportion of 41 per cent. to the admissions.\*

The mortality has been at the rate of 13.70 † per cent. per annum, calculated on the average daily numbers resident. This is about 3 per cent. higher than the average rate in English County and Borough Asylums. Post-mortem examinations were made in three instances only, and in these the deaths were recorded, respectively, as due to "Pulmonary Consumption," "Melancholia with Convulsions," and "Disease of the Arteries of the Brain." In the last-named the patient died suddenly in the night, and it was the only instance on which a coroner's inquest was held. The circumstances were reported to our Board at the time, and formed the subject of correspondence between the Commissioners and the Superintendent and Committee of Visitors. As regards the other deaths, no unusual or exceptional causes are assigned, 6 being ascribed to General Paralysis, 5 to Epilepsy, 12 to Diseases of the Heart and Lungs, and 5 to Senile Decay.

The difficulties hitherto said to exist in obtaining permission to make post-mortem examinations will, we hope, be overcome, and that for the future the proportion of these examinations to the deaths will be so largely increased that, among other advantages secured, the causes of death may be ascertained with greater certainty than can be the case at present.

The general health of the inmates is at present fairly good, and there were only eight patients voluntarily in bed, four of each sex. Under medical treatment there are 16 men and 14 women.

We saw all the patients in both divisions, conversed with many, and afforded to all the opportunity of making known to us their wishes and complaints. In one ward in each division

---

\* or, 11 per cent. above the average, 1877.

† or, 13.23 for the whole year.

there was some noisy excitement, though in the rest of the wards the patients were tolerably quiet. The dangerous patient referred to by our colleagues in their last entry has been removed to another Asylum. The men and women were both well clothed, and they were clean and tidy in appearance.

We had many appeals for release, but from none who were at present fit for discharge. A few who are recovering, and who will soon be able to leave, were contented with the prospect of early discharge.

No patient was mechanically restrained, and no male patient was in seclusion; but two women were locked in their rooms owing to violent or troublesome conduct. According to the Medical Journal, mechanical restraint has not been used since the last visit; but, during the interval of eight months, seclusion appears to have been rather largely employed—20 of the men and 12 of the women having been so treated—the former on 56 occasions for a total duration of 428 hours, and the latter on 94 occasions for an aggregate of 589 hours. According to the returns supplied to us the attendance at Divine Service on Sunday last included 99 men and 78 women, while at the week-day service 75 men, but only 33 women, were present.

The staff attendants consists of 13 day and 1 night attendant on the male side, and of 1 head and 12 day attendants and 2 night nurses on the female side.

The number of patients employed and their occupations, not including those assisting in cleaning the wards, is shown by the following table:—

| MEN.                             | WOMEN.                          |
|----------------------------------|---------------------------------|
| On the Land ..... 22             | Needlework and Knitting .... 19 |
| In Kitchen and Offices ..... 4   | Kitchen and Offices ..... 11    |
| In Workshops and at Trades .. 14 | Laundry and Washhouse .... 30   |

The number of men employed on the land and assisting tradesmen is still very small; with a slight addition to the

staff, and if this addition included a head attendant so often recommended by the Commissioners, we have no doubt that many men now unoccupied might be employed with benefit to themselves and advantage to the institution. Several male patients complained to us that they were not allowed to work on the land, and that, as a rule, they were limited for exercise to the airing courts, which are but small in size, and, owing to the rapid slope, not very favourable for that purpose. A proper room for hair picking is much wanted, and might be found in that now used by the gardener, if he could be transferred elsewhere.

The first day of our visit was one of the two days in the week on which meat is not given. The dinner, which we saw in the female wards, consisted of red currant pudding and beer. It was good in quality and liked by many, but some complained of its unsubstantial character. This objection might be met by allowing bread and cheese in addition, as is the case on the other pudding day in the week, as to which we had no complaint.

The indoor associated amusements are still held only monthly in the ironing room, and we desire to repeat the remarks made on this subject by the last Visiting Commissioners.

We found the rooms generally clean, and the beds and bedding, with a few exceptions on the female side in the old building, in good order. We are glad to report a marked improvement throughout the whole of the wards as regards brightness and cheerfulness, due to the fact that the whole of the interior has been painted, and the day-rooms papered, in good taste, since the last visit. On the removal of the borough patients, further improvements will, we hope, be made in the way of increased light in some day-rooms, and in better means of ventilation in the dormitories and single rooms of the old building.

The better lighting of the water closets by gas still needs attention.

During the last month, the female epileptic patients have been brought together at night into dormitories and single rooms, where they have the continuous supervision of a special night attendant; no such arrangement for the epileptics as yet exists on the male side, but it is equally needed, and we are glad to learn that it is proposed to adopt it as soon as possible. It would be well to include the suicidal patients in this system of continuous night supervision.

We have pointed out to Dr. Phillimore that on the female side the arrangements will not be complete until each single room is lighted by a gas burner, placed externally, and an opening made in each door, to allow the attendant, without entering the room, to readily hear and see the patient. A tell-tale clock, with at least two recording stations, should be procured, so that the special attendant's wakefulness can be tested half-hourly. One also for the ordinary female night attendant is still necessary, and there should be at least one recording station in each ward, both in the male and female division.

*W. E. Frere,*

N.B.—On comparing this table with that of last year there is an increase of 10 in the Nottingham Union return, and of 18 in the other Unions, including those lately annexed to the Borough. This increase of 18 is apparent only, and has been occasioned by the omission last year of 20 patients in the column "with friends" in the Mansfield Union. There is really a decrease of two.

## NOTE ON THE FABRIC ACCOUNT.

---

*Payments by the County Treasurer to the Treasurer of the Asylum, for Ordinary Repairs, under the Lunatic Asylums Act, 1853, Sections 31, 38.*

Enquiry having been made at the Financial Sessions, 1879, as to the nature and particulars of the expenditure of £617 7s. 8d. for the year ended December 31, 1878, the Superintendent has prepared the following statement for the information of the Justices.

On the 1st January, 1875, the county acquired the whole of the Asylum Estate, and became sole proprietor of the lands and buildings, with the additional responsibility of maintaining and upholding that portion amounting to one-third, the expense of which had previously been paid by the borough. It might have been expected that a proportionate call to that extent would have to be made annually, but so far this has not taken place, the average amount paid since 1875 having fallen below that of the four years preceding it, the last call of £617 7s. 8d. being the lowest of the four.

The rents and profits derived from non-contributories as Nottingham, Newark, and others, enabled the Committee of Visitors to pay £200 in 1876 to complete the boundary wall in Walker Street, and in 1878 to thoroughly paint the inside and outside of the Asylum, and to do the papering, graining, and other work necessary, at a cost of £552 13s. 0d., without making a call upon the county rate.

The following table gives the receipts from the county for the undermentioned years, being two-thirds for the first four years, and exclusive of the payments of one-third additional by the borough during that term:—

| YEAR.                                           | £   | s. | d. | EXTRA WORK DURING THE YEAR.                                                              |
|-------------------------------------------------|-----|----|----|------------------------------------------------------------------------------------------|
| 1871....                                        | 751 | 4  | 10 | Painting, and new joiners' shop.                                                         |
| 1872....                                        | 708 | 9  | 4  | Infirmaries established, day-rooms enlarged.                                             |
| 1873....                                        | 583 | 10 | 10 |                                                                                          |
| 1874....                                        | 964 | 14 | 9  | New boiler and fixing.                                                                   |
| 1875                                            |     |    |    | Dissolution of the Union, no call, £615 4s. 8d. paid out of balance in hand.             |
| The three shares paid henceforth by the county. |     |    |    |                                                                                          |
| 1876....                                        | 742 | 5  | 9  | Wall built enclosing land in Walker Street. £200 paid out of cash from non-contributors. |
| 1877....                                        | 639 | 5  | 7  |                                                                                          |
| 1878....                                        | 791 | 6  | 0  | Additional dead-house for women.                                                         |
| 1879....                                        | 617 | 7  | 8  | Painting, papering, £552 13s. 0d. paid out of cash from non-contributors.                |

It appears desirable to set forth briefly the extent of the buildings to be maintained fit for the occupation of lunatics and of those in charge of them.

The amount of masonry is extensive. There are three blocks accommodating 400 lunatics and the officials having care of them, with chapel, offices, workshops for joiner, tailor, shoemaker, upholsterer, gardener, baker, brewer, engine-house, laundry, lodge, superintendent's residence, airing court walls, and a boundary wall averaging 9 feet high, enclosing  $21\frac{1}{4}$  acres of land.

There are 113 single rooms for the more violent and destructive patients.

The number of windows is 766, partially glass doors 103, ditto shutters 35, fanlights 40, lamps 2, water closets 52, baths 19. There is a service of gas, hot and cold water, and drains to correspond. Fifty sets of keys are in daily use for the locking and unlocking of doors at ingress and egress.

The wear and tear of a building provided for a population selected on account of their dangerous or destructive habits is necessarily great.

In this, as in other Asylums, the Commissioners in Lunacy urge at their visits various alterations and additions from time to time. Unless they are carried out, unfavourable comments are published in the Parliamentary Blue Books.

Upon an examination of the returns from other Asylums it will be found that the Nottinghamshire expenditure will bear favourable comparison on the ground of economy.

With regard to prospective outlay, it may be stated that the present Asylum is sufficiently large to accommodate the lunatic population of the county likely to require care for the next thirty years.

The land is ample for the purpose of employment and exercise, and the substantial boundary wall prevents interruption, and renders escapes difficult. Owing to proximity to the town, no gas works are required, and the advantages of good markets are apparent in the moderate weekly rate charged to the parishes during the whole term that the Asylum has been in operation.

If a portion of the number of beds left empty after the removal of the borough patients could be utilized for out-county lunatics, a considerable reduction in the call upon the county rate might be effected annually.

The balance in hand is at present sufficient to pay the fabric bills in advance, and to meet certain recommendations of the Commissioners in Lunacy.

| Contract for whitewashing whole of the Asylum and appurtenances, except the chapel, and excluding scraping, stopping, and making good .....                                                                                                                                                                                                                                                                              | 70 | 0  | 0  |
| February.—Repairing fireplaces, cementing closets, repairing plaster floors, opening soughs for steam piping and hot water pipes, cleaning out chimney pots and cooking stove in kitchen. Materials: fire lumps for bridges, fire bricks, cement, floor plaster, laths.                                                                                                                                                  |    |    |    |
| March.—Cleaning out chimney pots, repairing and making good for boilers and rebuilding bridges after sweeps. Materials: fire lumps and bricks.                                                                                                                                                                                                                                                                           |    |    |    |
| April.—Opening flues for sweeps, making good walls for steam pipes, opening and making good soughs, repairing roof of kitchen, cleaning out stove, repairing wall, taking out and resetting fireplaces, taking out and cleaning brewing copper. Materials: mortar, cement, slates, nails, fire bricks, ceiling laths.                                                                                                    |    |    |    |
| May.—Repairing floors, scraping and preparing for whitewashers, taking out fireplaces, fixing new and putting in ventilators, cleaning out chimney bends, pointing round doors and windows for whitewashers and painters, pointing and stopping fireplaces. Materials: cement, fine plaster, mortar, fire bricks, lime.                                                                                                  |    |    |    |
| June.—Putting in new door frame, building wall, cleaning spouts and gutters, whitewashing chapel, scaffolding, whitening, putty, stone blue, glue, blue black, soft soap; breaking out and making good gable of kitchen, pointing round doorways out-doors; fixing flag pole for Prince of Wales' visit, making good slating. Materials: bricks, lime, plaster, cement, fine plaster, Portland cement, slates and nails. |    |    |    |
| July.—Pointing, stopping, repairing at lodge and back laundry, taking off old chimney heads and replacing with six new patent, cleaning out drain in kitchen. Materials: cement, fine plaster, lime.                                                                                                                                                                                                                     |    |    |    |

August.—Stripping roof and repairing, taking out and refixing fireplace, patching and repairing, building brick piers to shed. Materials: bricks for shed, lime, sand, slates, cement, fire bricks.

September.—Getting out ground, putting in drain and overflow for soft water cistern, building shed; taking out old fireplace and fixing new one, repairing roof at laundry. Materials: pipes for drains, bend, cement, lime, sand, fire bricks.

October.—Taking up flagging in laundry and making good, pointing scullery floor, taking out and bridging boiler flues; cleaning chimney pots, spouts, and gutter at laundry; assisting joiner with new roof to shed in garden, building gable ends, getting out ground, putting in drains, cutting wall and making good. Materials: fire lumps, fire bricks, cement, common bricks, 4-inch ditto, pipes, bends.

November.—Building panty pit; repairing plaster floor, fireplace, and putting in ventilators; torching and tiling shed. Materials: floor plaster, fine plaster, cement, hair, mortar, fire bricks.

December.—Taking out and resetting gardener's fireplace, whitewashing soiled bedrooms, cleaning out flues in brewhouse, making good floor of engine-house after steam piping. Materials: mortar, cement.—&c.

Dimensions of shed—Length, 79ft. 6in.; width 17ft.; height, 14ft. 6in.
