OF THE

COMMITTEE OF VISITORS.

To the Court of Quarter Sessions for the County of Nottingham, and to the Town Council of the Borough of Nottingham.

THE Committee of Visitors of the County and Borough of Nottingham Lunatic Asylum, at Sneinton, have to report the following summary of their proceedings for the year 1866, in accordance with the Act of Parliament under which they are appointed.

On the 31st of December, 1866 : The number of patients under care and treatment this day consists of-

| | MALES. | FEMALES. | TOTAL. |
|-----|-----------------------|----------------------|---------------|
| | 167 | 177 | 344 |
| The | space left unoccupied | is sufficient for 35 | patients, viz |
| | MALES. | FEMALES. | TOTAL. |
| | 24 | 11 10 mail broken | 35 |
| The | Asylum can, therefore | e, accommodate 379 | patients, viz |
| | MALES. | FEMALES. | TOTAL. |
| | 191 191 hours | 188 | 379 |

The eleven vacant beds now allotted for the reception of women have been taken from the upper storey of the male division in order to prevent the inconvenience of refusing admission to female patients. These will be restored to their former use when the additions now in progress are completed.

At the close of the year 1865 the numbers were-

| | | MALES. | FEMALES. | TOTAL. |
|----------------------|----|--------|-----------------------|--------|
| On the books | | 163 | 175 | 338 |
| Admitted since | | 52 | 50 | 102 |
| Discharged recovered | | 19 | 24 | 43 |
| Do. relieved | | 8 | 7 | 10 |
| Do. not improv | ed | 1 | icie ni <u>-</u> mont | 1 |
| Died | | 25 | 17 | 42 |

Compared with the previous year the changes are as follows :---

| | A | dmissions. | Recoveries. | 42 8 41 3 | Patients Dec.31. | |
|------|---|------------|-------------|-----------|------------------|-----|
| 1865 | | 109 | 42 | 8 | 41 | 338 |
| 1866 | | 102 | 43 | 11 | 42 | 344 |

On the 6th November, 1866, Mr. William Ward, the contractor, commenced operations for carrying out the enlargement of the Asylum, for which the funds have been voted by the Court of Quarter Sessions and the Town Council. Considerable progress has been made with the building, which will provide accommodation for 50 additional female lunatics, at a cost to the united county and borough of £1,852. It is expected that some portion of it will be ready for occupation during the ensuing spring.

The sanitary condition of the Asylum during the past twelve months has been very satisfactory, and the buildings, fixtures and furniture generally are in good order, the painting and whitewashing having been completed within and without during the year. The periodical Parliamentary Inspections of the Patients and of the Asylum have been duly made, and the condition of both are regularly reported as being satisfactory.

The office of storekeeper having become vacant by the resignation of Mr. T. C. Temple, Mr. J. Brown has been appointed to that office.

The Lunacy Commissioners visited the Asylum on the 24th September, and made their annual report, which will be appended to the statistical and other documents usually printed.

The advanced price of provisions, and the increased expenditure in several departments, will probably render it necessary that the scale of charges to be made during the next year should be revised.

William Vickers,

CHAIRMAN.

JANUARY 2, 1867.

ANNUAL REPORT

OF THE SUPERINTENDENT.

MR. CHAIRMAN, MY LORD, AND GENTLEMEN,

The movement of the insane population of the Asylum during the year 1866, is exemplified in the following table :----

| Wan Vickers, | allo . | | | м. | F. | т. |
|--|--------------|--------------|---------------|--------------------------------------|-----------|------------|
| Patients remaining 31st Decem " admitted during 1866 | ber, 18 | | :: | $\begin{array}{c}163\\52\end{array}$ | 175 50 | 338 102 |
| Total under Treatment | | | | | 225 | 440 |
| The second s | м. | F. | т. | | | |
| Discharged Recovered ,, Relieved ,, not Improved | 19 3 1 | 24 7 0 | 43 10 1 | | ening | in the |
| Died | 25 | 17 | 42 | | by the | Cons |
| Constant Constant and the | 48 | 48 | 96 | 48 | 48 | 96 |
| Remaining 31st December, 186 | 6 | | | 167 | 177 | 344 |

The admissions, 102, are seven fewer than those of 1865; and this circumstance may be regarded as of favourable import in the solution of the question,—the alleged increase of insanity, as I am not aware that there has been any disposition shown on the part of the parochial officers to keep back cases of insanity that ought to be sent hither for treatment. The deaths and other removals have not kept page with the admissions; consequently there remain over six more inmates than there were at the close of the preceding year.

The re-admissions were 16, viz., 8 males and 8 females.

The daily average number of lunatics resident was 347.72, against 335 in 1865.

The cases deemed curable are 18 males and 20 females.

The recoveries amount to 43, or 42.16 per cent on the admissions, and the deaths to 42, or 12.07 per cent. on the mean population, and 9.54 per cent on the total number under treatment.

These ratios, when compared with those of other similar establishments, show that the Asylum is in a healthy condition, and otherwise well fitted for the objects for which it was established.

There have been no suicides, violent deaths, or accidents requiring the holding of inquests, or demanding other special notice. In connection with this subject it is interesting to compare year by year the number of suicides occurring in the registration County of Nottingham. The returns of the Registrar-General are as follows:—

| YEAR. | MALES. | FEMALES. | TOTAL. |
|-------|--------|----------|--------|
| 1862 | 20 | 8 - | 28 |
| 1863 | 20 | 11 | 31 |
| 1864 | 18 | 7 | 25 |

It seems probable that the number might be greatly reduced if the friends and neighbours of those known to be disposed to such deplorable tendencies would consider their condition as premonitory of mental derangement, and take measures to render them amenable to moral and medical treatment. The articles of prime necessity, flour, meat, malt, coals, &c., have all risen in price during the year, so that the low rates which have been charged for the last eight years cannot be permanently maintained. It is evident that the cost of maintenance must fluctuate in this Asylum for the foregoing reason, and even more so here than in those Institutions which have endowments of extensive landed estate attached to them, by means of which they are supplied with large quantities of produce without entailing cash payments from the maintenance account.

I have pleasure in stating that the conduct of the attendants nurses, and servants generally, has been indulgent to the patients, decorous, and otherwise commendable. No greater proof of this is needed than the fact of the immunity from accidents and violence, which has characterised the proceedings of the year.

I have the honour to be,

MR. CHAIRMAN, MY LORD, AND GENTLEMEN,

Your obedient Servant,

Wm. Phillimore Stiff, M.B.

SUPERINTENDENT.

COUNTY AND BOROUGH LUNATIC ASYLUM, SNEINTON NEAR NOTTINGHAM, JANUARY 16TH, 1867.

REPORT

OF THE

COMMISSIONERS IN LUNACY.

NOTTINGHAM COUNTY AND BOROUGH ASYLUM,

24TH SEPTEMBER, 1866.

Upon our visit this day, we have inspected the Asylum in its several departments, and seen all the patients.

We have to record the following as the changes in the patients since the visit of our colleagues, 10th August, 1865, and their present numbers:—

| | М. | F. | т. |
|---------------------------------|---------|-----|-----|
| Admitted | 60 | 59 | 119 |
| Discharged and Removed | 25 | 38 | 63 |
| " of whom Recovered | 22 | 30 | 52 |
| Died (all from ordinary causes) | 33 | 17 | 50 |
| Present Numbers | 166 | 179 | 345 |

No inquest has been held, nor has there occurred any casualty calling for special notice, since the last visit. The sanitary condition of the Asylum is good. There has not, since the last visit, been therein any disorder of an Epidemic character. The patients last registered as under medical treatment for bodily ailments were 11 in the male, and 13 in the female division. In the former we found only five, and in the latter three patients in bed.

The records of seclusion, since the last visit, shew the following results:-

| | | M. | F. | т. | |
|-------------------|------|----|-----|-----|--|
| Patients Secluded | | 12 | 18 | 30 | |
| Occasions | | 65 | 184 | 249 | |

The following is a summary of the ward returns of patients employed:-

| MALES. | 10,000,00 | FEMALES. | |
|------------------|------------|-------------------------------|-------|
| Agriculture | 20 | Needlework and Knitting | 27 |
| Trades | 10 | Laundry Department | 34 |
| Otherwise | 55 | Kitchen and Offices | 7 |
| specied the Asyl | di Bend | Otherwise | 22 |
| Total | 85 | Total | 90 |
| | Artin alla | arata record the following as | Lall! |

The patients who attend divine service in the chapel are-

| | | | м. | F. | т. |
|-----------|------|---------|----|----|-----|
| Sundays | | | 73 | 92 | 165 |
| Thursdays | | havette | 63 | 48 | 111 |

The inadequacy and objectionable construction and arrangements of the present chapel were commented upon by the Visiting Commissioners in August 1861, and we repeat the opinion then recorded,—that the most desirable plan would be to erect a detached chapel on the front ground. The clothing of the patients generally was of good quality, and in proper order. We think, however, that by increased vigilance and attention, the present number of unsightly strong fustian suits, worn by men of faulty habits, might be materially and beneficially reduced.

We found the beds (all of which are of horse hair) and bedding, and the dormitories, and single rooms throughout, and the wards generally, perfectly clean, and in the best condition; we noticed, however, several three and four-bedded dormitories in the old building, wherein the cubical space for patients is considerably below the proper minimum of 500 feet; and wherein also the ventilation is most imperfect. With a view, as far as practicable, to remedy the latter defect, we recommend that in the uppermost storey, openings be made in the ceilings, communicating with the roof, and in the lower rooms, outlets into the disused chimneys now bricked up.

In reference to out-door exercise, we were glad to learn that a certain number of the patients of the respective sexes walk on alternate days round the kitchen garden. We trust that this practice will be further extended, and we think it would greatly facilitate its being fully carried out if the principal walks along the boundary were asphalted, and if a few seats were placed at convenient points, available for short rests of patients who might be fatigued.

In reply to our enquires respecting the female patients employed in the washhouse and laundry, we were informed that they take exercise during the summer months after tea, but that in the Autumn, Winter, and Spring, they walk, on Sundays only, in the airing grounds and garden, the reason assigned being, that the weekdays afford barely sufficient time for the requisite amount of washing to be completed. We recommend that efforts be made by the introduction of more machines or otherwise, to expedite the work in this department, and so to enable the patients therein employed to enjoy the benefit of more regular out-door exercise.

In connexion with the important subject of employment and out-door exercise, we have again to advert to the inadequate staff of attendants, to which no further addition has been made since the last visit.

There are at present 9 attendants only of each sex; being about one to 18 patients in the male division, and one to 20 in the female. There is no head attendant in either division. There are also a male and female night attendant.

The wards on each side are four in number, the detached block constituting one. In one of the wards in each division, containing about 50 patients, there are three attendants, and in each of the others two. There is, as DR. STIFF informs us, no special classification as between the several wards, each of which, as he states, forms "an Asylum of itself." The sick are treated in their respective wards. There are no infirmaries or wards set apart for the treatment of the sick.

In reference to the last report, we have to state as follows:-

1. The detached block on the female side is about to be extended, so as to accommodate 50 more patients, by raising the whole a third storey, and the erection of a receding wing of three storeys, and a staircase tower, as on the male side. The works, for which tenders have been accepted, and the necessary fund voted by the Corporation, will be commenced as soon as the proportionate contribution of the County shall have been voted by the Justices in Quarter Session. By a temporary distribution of the men, increased accommodation has been provided for women.

2. The extension of the day accommodation of the men's block has been completed by enclosing and taking in the groined recesses as on the female side.

3. Printed regulations for the guidance of the attendants have been hung up in the bath rooms.

4. Arrangements have been commenced for carrying out generally the recommendation of a change of body linen twice a week in the male division.

We have further to note, as an improvement, that the large unsightly steam pipes for heating the galleries have been taken down, and fire places substituted; thereby improving the ventilation and aspect of the galleries.

The general condition and management of the Asylum continues to be creditable to the Superintendent and other officers.

R. W. S. Lutwidge, John D. Cleaton,

COMMISSIONERS IN LUNACY.

APPENDIX.
