18. ARTHUR EDWARD MONCK, Esq.

REPORT OF THE VISITORS TO THE QUARTER SESSIONS.

NORTHUMBERLAND.

To Her Majesty's Justices of the Peace in Quarter Sessions assembled.

16 & 17 Vic.,
c. 97, sec. 62. THIS is the period when your Committee is required to lay their Annual Report before you under the 62nd section of the Act.

1. The Asylum is in an efficient state and condition, and provides for the accommodation of the Officers and Inmates in a satisfactory manner, as far as relates to the present numbers, but it requires to be enlarged.

2. The numbers are upon the increase—in our last year's Report (18th December, 1865) there were 139 Males and 138 Females, and on this day (17th December, 1866) there are 142 Males and 144 Females, and 15 applications have been refused for want of Room.

3. Your Committee are satisfied with the management of the Asylum, and with the conduct of the Officers and Servants, except in relation to certain charges of inattention by the Medical Officers when Cholera for a short time existed in the Asylum.

Upon this subject your Committee have to state that, in the latter part of October, this disease made its appearance in the House.

George Trueman, attacked 28th October, at 9 a.m., and died at 3 a.m. on the following day.

Margaret Daglish, attacked 2nd November, at 5 a.m., and died same day at 6.35 p.m.

Mary Ann Hall, attacked 3rd November, at 9 a.m., and died next day at 12.30 a.m.

Ralph Havis, was attacked on 4th November, at 1 a.m., and died at 7.45 p.m. on the same day.

There were no other cases, and the Asylum has been free from this complaint ever since. Your Committee had the disagreeable duty to perform of investigating the above charges, particularly with reference to the case of Ralph Havis, which

ended in the resignation of Mr. Hughes, the Assistant Medical Officer, and in censuring Mr. Wilson, the Medical Superintendent. The whole matter was from time to time communicated to the Commissioners in Lunacy, and your Committee are happy to be able to state that the decisions they have come to, met with the entire approval of the Commissioners.

Your Committee have caused the Rules to be made more stringent, and hope such inattention will not occur again.

4. Your Committee, upon the resignation of Mr. Hughes, called in Mr. Shute as a temporary substitute, intending to have advertised for a successor, but, finding that Mr. Shute was an old Medical Practitioner in Morpeth, and that he had previously acted in this Asylum during the absence of the Superintendent on account of his health, and at one time for 6 weeks together—that he had always taken a great interest in the Asylum, and had given every satisfaction since Mr. Hughes left, your Committee offered him the vacant situation, which he has accepted.

5. The cost of maintenance is the same as last year, (viz.)—9s. 11d. per head per week; your Committee do not propose to raise it, although the cost has a little exceeded that sum, but they will reconsider the subject at the end of the half-year.

6. The Commissioners in Lunacy visited the Asylum on the 16th March, 1866, and made several suggestions, and reported most favourably of the cleanliness and good order of the several Wards, Rooms, Beds, and Bedding, and they also bore testimony to the general quiet and orderly demeanour and satisfactory personal condition of the Patients of both sexes.

7. Your Committee, under the Special Reports made to your Bench, and approved by the Commissioners, are now taking steps to carry out the plans for increasing the Asylum, so as to accommodate the increased number of 65 Males and 65 Females, with the sanction of the Secretary of State. The new Buildings will be begun as soon as the winter months are over.

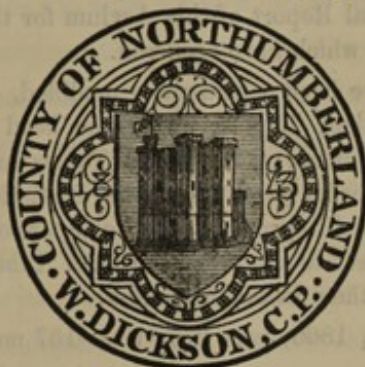

8. Your Committee beg to mention that not less than 7 Members of the Bench must be elected Visitors for the next year—the present Committee may be re-elected.

M. W. RIDLEY,
Chairman.

ASYLUM, 17th December 1866.

CONFIRMATION OF COMMITTEE'S REPORT.

County of
Northumberland.

1867.

At the General Quarter Sessions of the Peace of our Lady the Queen, held at the Moot Hall, in and for the said County, on the Second day of January, in the Thirtieth Year of the Reign of our Sovereign Lady Victoria, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, before Her Majesty's Justices of the Peace, assigned to keep the Peace in the said County, and also to hear and determine divers Felonies, Trespasses, and other Misdemeanors, done and committed therein.

PAUPER LUNATIC ASYLUM, (Annual Report and Election of Visitors).

The Visitors of the Pauper Lunatic Asylum for this County having presented their Annual Report, according to the Statute (16 & 17 Victoria, cap. 97, sec. 62), which was read and considered; Ordered that the same be and it is hereby approved of, and that it be entered upon the Records of this Court immediately after this Order, and it is further Ordered, pursuant to the Statute (16 & 17 Victoria, cap. 97, sec. 22), that the following Justices of the Peace for this County be, and they are hereby appointed Visitors of this Asylum for the year ensuing, namely:—

1. SIR CHARLES MILES LAMBERT MONCK, BARONET.
2. ADDISON JOHN BAKER CRESSWELL, ESQUIRE.
3. RALPH CARR, ESQUIRE.
4. THOMAS ANDERSON, ESQUIRE.
5. SIR MATTHEW WHITE RIDLEY, BARONET.
6. JOHN ERRINGTON, ESQUIRE.
7. GEORGE BURDON, ESQUIRE.
8. JAMES HENRY HOLLIS ATKINSON, ESQUIRE.
9. SIR WALTER CALVERLY TREVELYAN, BARONET.
10. CHARLES WILLIAM ORDE, ESQUIRE.
11. JOHN COOKSON, ESQUIRE.
12. THE REVEREND CHARLES THOMAS WHITLEY.
13. JOSEPH YOUNG, ESQUIRE.
14. THE REVEREND EDWARD LAWSON.
15. JOHN PHILIP MITFORD ESQUIRE.
16. JOHN CRASTER, ESQUIRE.
17. ARTHUR EDWARD MONCK, ESQUIRE.

By the Court,

DICKSON.

SUPERINTENDENT'S ANNUAL REPORT.

NORTHUMBERLAND COUNTY ASYLUM,
COTTINGWOOD, MORPETH, *February 22nd, 1867.*

GENTLEMEN,

I beg respectfully to present to you the Annual Report of this Asylum for the past year, along with Statistical Tables respecting the Patients, and the changes which have occurred.

Several of the Tables have been adopted for the first time, while others have been considerably modified, in accordance with a recommendation of the Commissioners in Lunacy, who, in their Report, under the head of Medical Statistics, call attention to the importance of adopting an uniform system of Statistical Tables and Registers, so as to include some of the more important particulars required, in order to obtain correct Statistics of Insanity. They then proceed to state that "they trust, with the view of facilitating statistical comparison, the Visitors and Superintendents of all Institutions for the Insane will not object to adopt the Forms of Tables recommended." A description, copied from their Report, is given along with them in the Appendix.

The number of Patients remaining in the Asylum on the first of January, 1866, was 275, viz.—137 men and 138 women.

The number admitted during the year was 55, (23 men and 32 women), making a total under treatment of 330. The number of re-admissions of Patients, some after a long interval of time, amounted to 8, viz.—1 male and 7 females. A list of all the Patients re-admitted since the opening of the Asylum will be found in Table 2 in the Appendix.

The changes have been as follows:—6 men and 14 women, total 20, have been discharged, recovered; and 28 (13 men and 15 women) have died, leaving in the Asylum on the first of January, 1867, 282, viz.—141 men and 141 women. The daily average number resident during the year was 284, 142 of each sex.

The subjoined Table, as supplied to the Commissioners in Lunacy, gives more detailed particulars respecting the Patients remaining in the Asylum at the commencement of the year.

Number of Patients 1st January, 1866.			Admissions during the year 1866.			Discharged during the year 1866.						Deaths during the year 1866.								
						Total Number.			Number Recovered.			Total Number.			From Suicide.

(a)—Patients confined under Secretary of State's Warrant. (b)—Pauper Patients, whose settlements cannot be ascertained.

The Admissions were few in number compared with previous years from several cases having to be refused admission, consequent upon the full state of the Asylum. Those also that were admitted did not hold out much hope of cure; the more recent cases, for which application had at first been made, having in many instances so far recovered in the Workhouses, as to prevent the necessity of their being sent to the Asylum, when it chanced there was room; whilst others were often sent instead, troublesome perhaps, but hopeless, among which number I may mention that 4 were epileptic, 1 idiotic, and 3 paralysed. It is also to the more recent admissions and cases that we chiefly look for recoveries, and the reasons stated will account in a great measure for the comparatively small number of Patients who have been able to be discharged recovered, being only 34 per cent. as compared with 47 per cent. the previous year.

In the tabular statement given respecting the Patients remaining in the Asylum at the commencement of the year, one of the columns is devoted to the number deemed curable, which includes all those for whom there is the slightest hope, however doubtful their recovery may be; and this year the Commissioners in Lunacy have required to be furnished with a return of the number of Chronic and Probably Incurable cases, also; classified, as will be seen by the Table appended, under different heads, and supplying a detailed account of those for whom we can hold out no hope of recovery whatever.

Return as to the Mental Condition, &c., of Pauper Patients in the Asylum
on January 1st, 1867.

Total , ,	42	27	69	14	6	20	35	28	63	1	1	2

Of the above 11 Males and 2 Females are affected with general paralysis.

Of the admissions during the past year, nineteen were reported as suicidal, and several of the Patients were received in an extremely weak state of health. For detailed particulars respecting them—the form of Insanity and its complications—I beg to refer you to Table 8 in the Appendix.

The deaths were one less than in the previous year, though predominating greatly over the recoveries. The chief causes have been General Paralysis and Pulmonary Consumption, nine being attributable to the former, and six to the latter. There is one special cause however to which it is necessary for me particularly to allude, the epidemic which has lately visited us, by the sudden outbreak of Asiatic Cholera towards the close of the year, and which from the crowded state of the Asylum, and the class of people to be dealt with, caused much anxiety, more especially from the want of any suitable detached building for the immediate isolation and treatment of such or any similar cases of infectious disease, and I would respectfully suggest to the Committee that during the present enlargement of the Asylum, they would take into their consideration the propriety of erecting a small detached building for the purpose of a Hospital upon a simple cottage plan, where sick Patients could be comfortably and suitably tended, as well as isolated from the rest of the inmates. With respect to the Cholera cases, I refer to your Annual Report (as Visitors) to the Bench.

I can only regret that the Committee should have had any occasion to find fault with the Medical Officers, but I trust that they will not be again troubled as to matters of this kind. One inquest was held during the year, in the case of a female epileptic who was found dead in bed.

The employment of the Patients has continued to be an important element of treatment, and the most part of the men have been occupied as usual in the cultivation of the farm lands, and laying out and keeping in order the grounds generally. From the agricultural nature of the County, the male Patients are chiefly labourers, very few of the class of artisans being admitted.

We are able however to employ some in assisting in the Workshops under the direction of the tradesmen Attendants. A new Sewing Machine has been lately obtained for the Tailor's Shop, which I expect will prove of much benefit to the Institution. The women have also been industriously occupied in their different departments, and a statement of the amount of work done in the Sewing Room during the year is given at the end of this Report.

The means of recreation have continued much as in previous years. The ball is kept up weekly, with an occasional exhibition of the Magic Lantern, and in the summer a pic-nic to the sea-side, croquet, and other outdoor amusements are added.

Among the alterations and improvements during the past year, I may mention that the windows in the Sewing and Recreation Room have been considerably lowered, and give a much more cheerful aspect to the place. The urinals in the Lavatories on the male side, which were very unsightly and objectionable, have been taken away, their place being supplied, in some instances, by others of different construction and more suitably situated. A new Heating Apparatus by means of flues, in lieu of the former one by hot water pipes, (and from which we suffered much inconvenience,) has been fitted up in the Drying-Closet in the Laundry, and promises to answer effectually. Gill-stoves have also been provided for the Bath-rooms in both divisions.

The Commissioners in Lunacy visited the Asylum in March last, and left the following Report :—

“NORTHUMBERLAND ASYLUM,
16th March, 1866.

“The changes in the Patients since the last Commissioners’ visit, 17th February, 1865, and the present numbers of Patients, all of whom we have seen, are shewn by the following Tabular Statement :—

	M.	F.	Total.
Admitted , , , , ,	40	49	89
Discharged, all recovered , , , , ,	18	21	39
Died , , , , ,	14	15	29
Present Numbers , , , , ,	142	139	281

“With the exception of a case of suicide by strangulation, in the Male Division the particulars of which were duly reported, the Deaths have been from ordinary causes.

“The Sanitary condition of the Asylum appears to be good, the Patients registered as under medical treatment for bodily ailments being only five in each Division.

“According to the Medical Journal, since last visit, 17 Male and 21 Female Patients have been placed in seclusion, the former altogether on 86, and the latter on 130 occasions.

“The Records of employment shew that about 80 men and 120 women are usefully occupied. Of the former about 30 are employed in agricultural labour and 10 as artisans, and of the latter, about 35 are engaged in needle-work and knitting, and 25 in the Laundry department.

“The Male Patients are under the immediate charge of a Head and 14 ordinary Attendants, assisted by the Plumber and Joiner, and the Female Patients of a Head and 10 ordinary Attendants, including 2 Laundry-maids.

“The Wages, which are advanced from time to time, according to conduct and efficiency, commence on the male side at £25, and on the female at £15. The former advance to £32. The Head Male Attendant receives £35.

“The Chapel attendance on Sundays averages 70 in the Male Division, and 90 in the Female, most of the number being present both morning and afternoon. There has not, as yet, been any arrangement made for Divine Service on week days.

“We have to report most favourably of the general quiet and orderly demeanour, and satisfactory personal condition of the Patients of both sexes, and the cleanliness and good order of the several wards and rooms, beds, and bedding.

"The old female Sewing-room has been converted into a Dormitory, and the Recreation-room, formerly the Chapel, is now applied also to the purposes of a Work-room. The windows of the latter are about to be lowered, as suggested at the last visit.

"The Male Division of the Asylum is now full, and on the Female side there are only six vacant beds.

"Plans are in preparation, (the necessary funds having been voted by the Justices in Quarter Session), by which additional accommodation will be provided to the extent of 59 beds in each division. The Plans will also embrace a new range of Workshops, new Dining-rooms and Offices.

"We trust that the present great deficiency of adequate Store-rooms will also be supplied.

"A third Summer-house has been erected in No. 3 Male Airing Court.

"We desire to draw the special attention of the Visitors to the defective, indeed almost wholly useless state of the Drying Closet, the temperature of the air in which cannot, in general, be raised above 70°.

"The means of warming the Chapel also have hitherto wholly failed, a matter which ought at once to receive attention.

"We have only in conclusion to repeat the recommendations contained in the last Report, so far as the same have not been carried out.

"In Dr. Wilson's temporary absence, we received every information and assistance from Mr. Hughes, who appears to be very active and efficient.

R. W. S. LUTWIDGE, } Commissioners
ROBERT NAIRNE, } in
Lunacy."

In consequence of the dearness of Provisions, the cost per head per week during the year has been 10s. 2½d.

I have the honour to remain,

GENTLEMEN,

Your most obedient Servant,

RICHARD WILSON.

*The Committee of Visitors,
County Lunatic Asylum,
Cottingwood, Morpeth.*

Carried forward	2874	12	7	181	9	6	Carried forward				1599	16	10	

(A) As a great part of the Farm Labour is performed by the Patients, it was agreed by the Committee that this Produce should be set against that Labour, and the Asylum and Farm treated as one concern.

(B) And (as in other Asylums) the Wages of those three Parties are paid by the County, being less costly to the County as Landlords than to employ Tradesmen. The Asylum gives Board and Lodging in consideration of occasional services as Assistant Attendants.
