### COMMITTEE OF VISITORS

Appointed by the Court of Quarter Sessions, holden by adjournment on the 28th January, 1871.

ROBERT BESLEY, Esq., Alderman, Chairman.

The Right Hon. THOMAS DAKIN, Lord Mayor.

SAMUEL WILSON, Esq., Alderman,

Sir JAMES DUKE, Bart., Alderman.

Sir JOHN MUSGROVE, Bart., Alderman.

THOMAS CHALLIS, Esq., Alderman.

THOMAS SIDNEY, Esq., Alderman.

Sir FRANCIS GRAHAM MOON, Bart., F.S.A., Alderman.

Sir DAVID SALOMONS, Bart., M.P., Alderman.

THOMAS QUESTED FINNIS, Esq., Alderman.

Sir ROBERT WALTER CARDEN, Knt., Alderman.

JOHN CARTER, Esq., F.A.S. and F.R.A.S., Alderman.

Sir WILLIAM ANDERSON ROSE, Knt., F.R.G.S. and F.R.S.L., Alderman.

WILLIAM LAWRENCE, Esq., M.P., Alderman.

WARREN STORMES HALE, Esq., Alderman.

Sir BENJAMIN SAMUEL PHILLIPS, Knt., Alderman.

Sir THOMAS GABRIEL, Bart., Alderman.

WILLIAM FERNELEY ALLEN, Esq., Alderman.

Sir JAMES CLARKE LAWRENCE, Bart., M.P., Alderman.

The Right Hon. RUSSELL GURNEY, Q.C., M.P., Recorder.

SILLS JOHN GIBBONS, Esq., Alderman.

Sir SYDNEY HEDLEY WATERLOW, Knt., Alderman.

ANDREW LUSK, Esq., M.P., Alderman.

DAVID HENRY STONE, Esq., Alderman.

WILLIAM JAMES RICHMOND COTTON, Esq., Alderman.

Sir JOSEPH CAUSTON, Knt., Alderman.

(Subsequently added)

THOMAS WHITE, Esq., Alderman.

CHARLES WHETHAM, Esq., Alderman.

### City of London Lunatic Asylum,

STONE, NEAR DARTFORD, KENT.

### THE ANNUAL REPORT

OF

### THE COMMITTEE OF VISITORS,

1871.

To Her Majesty's Justices of the Peace for the City of London in General Quarter Sessions assembled, by adjournment, on Saturday, the 27th day of January, 1872.

THE COMMITTEE Report that the state and condition of the Asylum and its Inmates during the past year have been of a very satisfactory character.

On the 1st of January, 1871, there were 265 Patients in the Asylum; during the year other Patients were received, making a total of 347. Of this number 10 males and 12 females were discharged recovered, 3 males and 3 females relieved, 17 males and 5 females not improved (to Leavesden), 1 male discharged not insane, 10 males and 11 females died; leaving

in the Asylum on the 31st December last, 116 males and 159 females, making a total of 275 Patients.

From the foregoing statement it will appear that the demand for female accommodation was much greater than that required for males; it therefore became absolutely necessary that some alteration or addition should be made to the Asylum, whereby such demand could be fairly and properly met. The Committee—being unwilling to recommend to the Court that a new wing should be added to the female side, at necessarily a large expense—caused certain alterations to be made in the interior of the building, by which the accommodation desired has been obtained, while the complete separation of the sexes has not been affected or impaired.

The general health of the Patients has been excellent, notwithstanding that small-pox has been raging in immediate contiguity to the Asylum; and the Committee are thankful for being enabled to report that no single instance of that complaint has occurred in the Asylum.

The Farm Lands have been carefully cultivated during the past year, and have proved of great use and benefit, not only in providing a source of healthful employment to many of the Patients, but by the increased productions obtained have conduced materially to the economical working of the Institution.

The Committee have to deplore the loss they have sustained by the resignation, through ill-health, of Mr. Alderman Wilson, who for several years had ably discharged the duties of Chairman of the Committee, and by the deaths of Sir Francis Graham Moon and Sir Joseph Causton, both of whom took great and earnest interest in the Asylum and its Inmates.

Two of the vacancies thus caused have been filled up by the appointment of Mr. Alderman White and Mr. Alderman Whetham.

The Committee, having regard to the very important and responsible duties devolving upon the Medical Superintendent, and to the very able and satisfactory manner in which those duties have been performed by Dr. Jepson, from the opening of the Asylum, and for some time previously thereto, have increased his salary by an addition of 100*l*. a-year.

The annual visit of the Commissioners in Lunacy was made on the 6th November last, and a copy of the Entry then made by them in the Visitors' Book is annexed.

Further details, with reference to the management of the Asylum and the treatment of the Patients, will be found upon reference to the Report of the Medical Superintendent, and to the accounts and tables appended.

Dated this 19th day of January, 1872.

ROBERT BESLEY, Chairman. THOMAS Q. FINNIS.

JAS. CLARKE LAWRENCE.
THOMAS WHITE.

# Copy of Entry made by THE COMMISSIONERS IN LUNACY

in the Visiting Book of the Asylum.

CITY OF LONDON ASYLUM, 6th November, 1871.

We have this day inspected the Asylum in all its departments, and, excepting one woman absent on trial, have seen all the Patients, 279 in number, viz., 119 of the male and 160 of the female sex.

The changes in the Patients since the last visit of the Commissioners, 27th June, 1870, have been as follows:—

| ampire A odi si obini si | Male. | Female. | Total. |
|--------------------------|-------|---------|--------|
| Admitted                 | 41    | 62      | 103    |
| Discharged and removed   | 27    | 34      | 91     |
| Of whom recovered        | 7     | 17      | 24     |
| Proved not to be insane  | 1     |         | 1      |
| Died                     | 14    | 15      | 29     |

The chief causes of death have been:—General Paralysis 12, and Disease of Lungs 9. Post-mortem examinations are, as a rule, made in all cases.

The general sanitary condition of the Asylum is good. The Patients last registered as under medical treatment were 8 in the male division and 6 in the female. We found 6 of each sex in bed,

We have to report favourably of the general personal state of the Patients of both sexes.

With very few exceptions, amongst the females of the worst class, they were quiet and orderly.

We saw 140 Patients of both sexes assembled at dinner in the Hall. It consisted of an ample quantity of good boiled beef, potatoes, and carrots. From the mode adopted of cutting it up, which is all done by the two Head Attendants, it is necessarily cold before the Patients sit down to table. This would be best obviated by sending the meat for a limited number of Patients in covered dishes from the kitchen, to be cut up by the ward attendants at the several tables.

The numbers of Patients employed in various ways are about the same as at the time of the last visit.

All the clothes and shoes are made in the Asylum.

The attendance at Divine Service, twice on Sundays and on week-day mornings, has not materially varied. As to other matters of statutory inquiry, we find that 1 male Patient has, since the last visit, been restrained on three occasions for surgical reasons, and that 3 males and 10 females have been secluded, the former once each, and the latter altogether on 17 occasions.

Good provision continues to be made for recreation and amusements. There are weekly entertainments, at which nearly 120 Patients are present.

From 10 to 15 Patients of each sex are taken out three or four times in the week, and about 70 Patients of both sexes on Sundays for walks in the country. The condition of the Wards and of the beds and bedding throughout the Asylum we thought most creditable to the attendants.

Much has been done since the last visit to improve the Wards, and render them more cheerful, by colouring the upper portions of the walls (which were previously white-washed), and the introduction of more flowering plants and curtains to the windows.

The only structural alteration we have to record is the raising of the southern boundary-wall, in order to protect the Patients from annoyance by the neighbours.

The airing grounds are well laid out and planted, and we have no doubt that the Patients, especially the females of the more excitable class, derive the greatest benefit from the opportunities afforded them of taking exercise with others in the extensive general grounds, instead of being restricted, as they once were, to their more confined courts.

We recommend the construction of porches to the doors leading from the Infirmary corridors to the general grounds.

The male side of the Asylum is now full, and several Patients have been refused admission. On the female side there are 6 vacant beds, No. 5 Male Ward having been appropriated to 22 female Patients.

The only serious casualty which has occurred since the last visit was in case of a male Patient with strong suicidal tendencies, who inflicted a severe wound on his throat by a table knife, which he had secreted from the attendant's room, and which he had not missed. The attendant was at once

dismissed for this culpable negligence, but no notice thereof was sent to our Office, as required by the 50th Section of the Act.

We are glad to bear our testimony to the satisfactory state of the Asylum, and to the care and kindness with which the Patients are treated, which we think most creditable to Dr. Jepson, as Superintendent, and the other officers.

R. W. S. LUTWIDGE, Commissioners
JAMES WILKES, in Lunacy.

# CITY OF LONDON LUNATIC ASYLUM.

A General Statement of Receipts and Payments for the year ending 31st December, 1871.

Examined,

ROBERT BESLEY, Chairman. JAMES CLARKE LAWRENCE. W. F. ALLEN.

### REPORT

OF

## THE RESIDENT PHYSICIAN AND MEDICAL SUPERINTENDENT.

The Medical Superintendent begs to submit to the Committee of Visitors his Sixth Annual Report.

The number of Patients in the Asylum on January 1st, 1871, was 265, viz., 124 males, 141 females.

During the past year the admissions have amounted to 82, viz., 33 male, 49 female.

The total number of Patients who have been treated within the same period is 347, viz., 157 males, 190 females.

The mean total of residents has been 269.5, viz., 116.25 males, 153.25 females.

There have been discharged, or have died, 72, viz., 41 males, 31 females.

There are resident in the Asylum this day 275, viz., 116 males, 159 females, of whom 237 are chargeable upon the

Funds of the City of London Union, and 38 upon the City's Cash.

Of those admitted, 30 males and 43 females were received for the first time; 2 males and 3 females were returned from the Asylum for Imbeciles at Leavesden, whither they had been removed, having been found unsuitable to that institution; 1 female was brought back at her own request from a private asylum to which she had been removed; and 1 male and 2 females were admitted who had relapsed after recovery.

Of those discharged, there were Recovered—10 males, 12 females; total, 22. Relieved—3 males, 3 females; total, 6. Not improved—17 males, 5 females; total, 22. Not Insane—1 male.

Of those relieved, 2 females were removed to private asylums; one by order of the Lord Chancellor, having by the death of a relative become possessed of considerable property; the other, under special circumstances, with the consent of the Commissioners in Lunacy. The remainder were transferred to other asylums, having been made chargeable to parishes without the City.

Of those not improved, 14 males and 5 females were discharged by order of three Visiting Justices, that they might be taken to the Leavesden Asylum, the form of insanity under which they laboured being of a harmless character; the remaining 3 males were removed to the asylums of the counties to which they belonged.

One male Patient was discharged as not insane; he was admitted for the first time in February, 1871, with, apparently, delusions and considerable maniacal excitement, which, how-

ever, soon disappeared, and after a residence of four months he was discharged recovered. Shortly after he left, the Annual Report of the Asylum for the County of Kent was received, in which Dr. Kirkman so graphically described a man lately under his care who had proved to be an impostor,\* that there could be little doubt that the Patient just discharged was one and the same individual. He was, three months afterwards, again admitted, having been found wandering and taken by the police to the Union. Dr. Kirkman was at once communicated with, and he visited the Patient here, identifying him as the person mentioned in his Report. Upon these facts being laid before the Committee of Visitors, together with a Certificate that the Patient was not insane, they immediately ordered his discharge, and the circumstances were specially reported to the Commissioners in Lunacy, who suggested that steps should be taken to endeavour to punish the impostor; their letter, however, was not received until after he had left the Asylum. The man was admitted here under the name of George Hatton; at Barming Heath he was known as George Griffiths, alias George Hattum; and in the year 1861 he was in the Hanwell Asylum with a different name-Watkins-or some similar one, to your Medical Superintendent's personal knowledge, who has thought it desirable to relate this matter in detail that other officers of asylums may be on their guard.

The deaths, 21 in number—10 male and 11 female—have all been from natural causes, and no inquest has been held.

The inmates of the Asylum have been happily spared any epidemic visitation, though in the summer small-pox prevailed

<sup>\*</sup> See Twenty-fourth Annual Report Kent County Lunatic Asylum for 1870.

to an alarming degree on all sides of the building. The highest numbers recorded in any one week as having been under medical treatment for bodily disorder were 10 males and 10 females.

For the first time since the opening of the Asylum it has been found necessary, in one instance, to apply restraint, for surgical reasons. A Patient who had been admitted suffering from acute melancholia, with strongly-marked suicidal tendency, through the carelessness of an attendant secreted a common table knife, which he contrived to convey to his bed in an associated dormitory which he shared with nine other Patients, leading from the day-room in which the night attendant sat when not engaged in going his rounds. In the early morning, while under the bed clothes, he inflicted a severe wound on his throat, but so quietly that an intelligent Patient who slept in the next bed to him, and who happened to be unusually wakeful, was unaware that anything unusual had occurred. For some days afterwards he was in a very restless and excited state, and, to prevent his reopening the wound with his hands, it was found necessary to confine them to certain limits. The wound eventually healed, in spite of a persistent refusal to take food, and the Patient is still a source of unceasing anxiety from the pertinacity with which he seeks to elude the vigilance of those in charge of him for the purpose of self-destruction. The attendant, through whose neglect a fatal calamity had nearly occurred, was summarily dismissed.

There have been several attempts at escape within the past twelve months, but in each instance the Patient has been retaken within a brief period. A portion of the boundarywall on the southern side of the grounds has been raised this summer, and increased security thereby gained. In consequence of the urgent demand for accommodation for female Patients, and a corresponding decrease in that required for males, one ward in the division of the latter was separated from the others by a substantial screen, converted into a Sewing Room, and occupied by female Patients of the most orderly and industrious class. By this conversion 22 additional beds have been added to the side devoted to the females, and no inconvenience has as yet been felt through pressure in the male division, in which, however, there are at present but two vacancies.

The whole of the galleries, day-rooms and dormitories throughout the building, have this year been subjected to a thorough cleansing, and bright colours having been substituted for the whitewash which previously existed, an additional air of warmth and comfort has been conveyed to the internal aspect of the Asylum.

Divine Service has been performed in the Chapel as usual with but trifling variation in the numbers recorded as being present from those quoted in previous reports; the Weekly Bible Class conducted by the Chaplain in the winter months is fairly attended, and much appreciated by those capable of enjoying religious instruction.

The Medical Superintendent regrets having to record the death of Robert Boyce, the Tailor Attendant, who had been a valuable servant since the opening of the Asylum in 1866, and who had, by the manner in which he performed his duties, won the respect of all. At the request of his widow his remains were interred in the Cemetery of the Asylum.

In concluding this Report, the Medical Superintendent desires to express his warm appreciation of the assistance he has received from all the Officers of the Asylum, whose cordial co-operation, with that of the Head Attendants, has tended in a great degree to lighten the labours of a year of unusual anxiety.

To the Committee of Visitors he tenders his heartfelt thanks for substantial recognition of his efforts to serve them, and for much kindness, which can never be forgotten.

The usual Statistical Tables are appended.

OCTAVIUS JEPSON, M.D.

January 1st, 1872.
