#### COMMITTEE OF VISITORS

Appointed by the Court of Quarter Sessions, holden by adjournment on the 27th January, 1872.

ROBERT BESLEY, Esq., Alderman, Chairman.

The Right Hon. Sir SILLS JOHN GIBBONS, Bart., Lord Mayor.

Sir JAMES DUKE, Bart., Alderman.

Sir JOHN MUSGROVE, Bart., Alderman.

THOMAS CHALLIS, Esq., Alderman.

THOMAS SIDNEY, Esq., Alderman.

Sir DAVID SALOMONS, Bart., M.P., Alderman.

THOMAS QUESTED FINNIS, Esq., Alderman.

Sir ROBERT WALTER CARDEN, Knt., Alderman.

JOHN CARTER, Esq., F.A.S. and F.R.A.S., Alderman.

Sir WILLIAM ANDERSON ROSE, Knt., F.R.G.S. and F.R.S.L., Alderman.

WILLIAM LAWRENCE, Esq., M.P., Alderman.

WARREN STORMES HALE, Esq., Alderman.

Sir BENJAMIN SAMUEL PHILLIPS, Knt., Alderman.

Sir THOMAS GABRIEL, Bart., Alderman.

WILLIAM FERNELEY ALLEN, Esq., Alderman.

Sir JAMES CLARKE LAWRENCE, Bart., M.P., Alderman.

Sir THOMAS DAKIN, Knt., Alderman.

The Right Hon. RUSSELL GURNEY, Q.C., M.P., Recorder.

Sir SYDNEY HEDLEY WATERLOW, Knt., Alderman.

ANDREW LUSK, Esq., M.P., Alderman.

DAVID HENRY STONE, Esq., Alderman.

WILLIAM JAMES RICHMOND COTTON, Esq., Alderman.

THOMAS SCAMBLER OWDEN, Esq., Alderman.

THOMAS WHITE, Esq., Alderman.

CHARLES WHETHAM, Esq., Alderman.

(Subsequently added)

Sir FRANCIS WYATT TRUSCOTT, Knt., Alderman.

WILLIAM McARTHUR, Esq., M.P., Alderman.

JOHN WHITTAKER ELLIS, Esq., Alderman.

#### THE ANNUAL REPORT

OF

#### THE COMMITTEE OF VISITORS,

1872.

To Her Majesty's Justices of the Peace for the City of London in General Quarter Sessions assembled, by adjournment, on Saturday, the 25th day of January, 1873.

THE COMMITTEE Report that the state and condition of the Asylum continue to be of a highly satisfactory character.

On the 1st of January, 1872, there were 275 Patients in the Asylum, 116 males and 159 females.

During the year other Patients were received, making a total of 319.

Of this number 8 males and 8 females were discharged recovered, 1 male and 1 female relieved, 3 males and 1 female not improved (to other Asylums), 6 males and 7 females died; leaving in the Asylum on the 31st December last 119 males and 165 females, making a total of 284 Patients.

The general health of the Patients has been good, only 13 deaths out of a mean average of 283 having occurred during the past year, and by far the larger number of these are to be attributed to natural causes, and not to contagious or other disease.

The conduct of the Patients has been generally orderly, as may be evidenced not only from the circumstance that about 150 Patients of both sexes dine together daily in the Hall, but that nearly a like number attend Divine Service in the Chapel on Sundays.

The Library, under the superintendence of the Chaplain, has been increased, and several volumes of interest and amusement have kindly been presented, affording to many of the Patients a pleasurable occupation during their convalescent hours.

The Asylum has for the greater part of the year been full, and in order to meet the demands for further accommodation, the enlargement of the Building will before long become an imperative necessity.

With a view to the further protection of the Building, and the safety of the Inmates, a Fire Engine has been obtained from Messrs. Shand, Mason & Co., with suitable hose and appliances, and directions have been given for its frequent exercise by the Attendants and Male Patients, with the intention that, should at any time its services be required, it will be found not only in good order, but the Attendants and Patients accustomed to the proper use of it.

The apparatus for warming the corridors and day-rooms has received consideration, and certain alterations are in progress from which increased efficacy is anticipated.

The Farm Lands continue to afford healthful occupation to some of the more robust Patients, and material profit to the establishment.

It has recently come to the knowledge of the Committee that the late Miss Elizabeth Bathus, of Middleton Road, Dalston, bequeathed the sum of two hundred pounds to the City of London Lunatic Asylum, and that, owing to some misapprehension, that sum has not been paid to the Treasurer, but has, less certain legal charges, been paid into the Post Office Savings Bank, Shoreditch, to the account of the Registrar of the Shoreditch County Court, in accordance with the provisions of "The Trustees Relief Act, 1847," and "The County Courts Act, 1867." The City Solicitor has been instructed to take the necessary proceedings to obtain the legacy.

The Commissioners in Lunacy made their annual visit to the Asylum on the 27th November last. A copy of the observations made by them in the Visitors' Book on that occasion is appended.

For further information as to the care and treatment of the Patients, and for details as to the management of the Institution, reference is made to the Report of the Medical Superintendent, and to the several accounts and tables appended.

The Committee have again to record their approbation of the great attention manifested by Dr. Jepson, the Medical Superintendent, in the discharge of his duties, and of the very efficient co-operation with which he has been assisted by the other officials of the Asylum.

Dated this 10th day of January, 1873.

ROBERT BESLEY, Chairman.
JAS. CLARKE LAWRENCE.
THOMAS Q. FINNIS.
THOMAS S. OWDEN.
ROBERT W. CARDEN.

## Copy of Entry made by THE COMMISSIONERS IN LUNACY

in the Visitors' Book of the Asylum.

CITY OF LONDON ASYLUM, 27th November. 1872.

We have inspected the Asylum this day, and visited all the Wards and Offices. We have also seen every Patient, and afforded to each of them an opportunity of speaking to us and making what complaints they desired. No charges of ill-treatment or harsh usage were made, but we had numerous appeals for liberation, and complaints that the Committee did not often visit the Wards or afford them sufficient means to state their cases or hear their applications for discharge. As the power of discharge rests with the Committee of Visitors alone, we take leave to bring this subject under their consideration.

There are now 270 Patients resident, of whom 113 are men, and 166 women, and besides these are 4 men absent on leave, but whose names are still retained on the books. The present total accommodation is for 118 men and 167 women, so that, supposing the beds of the four absent men are used, there are vacancies for 5 males, but only 1 female.

The admissions have been 17 in the male and 23 in the female division, and 13 males and 9 females have been discharged, of whom 16 were recovered.

The mortality has been very low, only 14 Patients—6 men and 8 women—having died since the last visit, a period of more than twelve months. The following are the assigned causes of death:—

	Male.	Female.	Total.
General Paralysis	2	0	2
Other forms of brain disease, including apoplexy }	0	2	2
Epilepsy	1	2	3
Disease of heart and lungs	2	3	5
Total casualties	1	1	2

Particulars of these cases were duly forwarded to our Board, and notices were sent to the Coroner, who, however, only held an inquest on the body of the female Patient who died from injuries sustained in accidently falling from the bed-room window of one of the domestic servants into the Airing Court. The man died from suffocation during an epileptic fit.

There were post-mortem examinations in all but one case. It appears from the register that 4 men and 9 women are now under medical treatment. There is no record of any instance of restraint, and seclusion has only been resorted to in the cases of 2 men and 3 women, each having been secluded on one occasion.

We found the Patients to-day very quiet and orderly, and personally they were clean, and their clothing generally good. There was a little want of neatness amongst some of the women, and some special dresses in the men's Wards, which we hope it will some day be found practicable to dispense with.

The beds and bedding were throughout clean and of excellent quality, but we think that some low padded bedsteads should be procured for the use of Epileptic Patients, a few of whom now sleep on the floor.

At the general dinner in the Hall to-day there were 146 Patients, the sexes being in nearly equal proportions, and all behaved in the most orderly manner. Roast beef, potatoes, cabbage, and bread, all of good quality, were served very neatly. The beer, which we tasted, appeared to be of a very inferior quality, and by no means creditable to the brewer who supplies it. In the Dining Hall there are weekly dances during the winter months, and occasionally special entertainments by paid artistes. The other arrangements for recreation are as before reported, and about the usual number of inmates are usefully employed, the proportion being 72 in the male and 110 in the female division.

One hundred and seventeen Patients attend the services in the Chapel on Sunday, and about 50 are present on weekdays, the women being the more numerous on both occasions.

We have a very good report to make of the condition of the Wards, which were clean and well furnished, and abundantly provided with means of amusement and pleasing and ornamental objects. The Kitchen and Offices seemed to be in an efficient state.

An important provision has been made for the extinction of fire by the formation of a 4-in. main all round the building,

and the purchase of a fire-engine. Glass verandahs have been fixed over the doors leading to the Airing Courts in both divisions. As regards the walled Courts, we find they are never used, being only serviceable as poultry yards, and, such being the case, we repeat a recommendation formerly made, that the walls should be removed and the spaces thrown into the Gardens.

It will be seen from the above Report that the condition and management of the Asylum continues to be very satisfactory.

W. G. CAMPBELL, JOHN D. CLEATON, Commissioners in Lunacy.

#### SEVENTH ANNUAL REPORT

OF THE

# RESIDENT PHYSICIAN AND MEDICAL SUPERINTENDENT.

THE Medical Superintendent has the honour of presenting to the Committee of Visitors his Seventh Annual Report.

On the first day of the year just closed the numbers in the Asylum were as follows:—males 116, females 159—total 275; on this, the last day, there are resident, males 119, females 165—total 284, only two beds remaining unoccupied in the female division.

During the past year the admissions have amounted to 44,—21 male and 23 female, the smallest number received within the same period since the opening of the Asylum, a circumstance unfortunately not attributable to a diminution in the numbers of those becoming insane, but to the crowded state of the Asylum, in consequence of which admission had to be refused to several Patients. Of those admitted, 18 males and 21 females were received for the first time; the remaining 3 males and 2 females having been re-admitted on a recurrence of the malady for which they had been previously under treatment in this institution.

The number of Patients discharged is 22, of whom 8 of each sex were recovered, 1 of each sex relieved, and 3 males and 1 female were removed to other asylums, not improved. The percentage of recoveries upon the admissions being 38 upon those of the males, and 34 upon those of the females, making a mean average of 36 per cent.—a higher rate than had been attained in any previous year.

The deaths, on the other hand, present a lower percentage upon the average numbers resident in the Asylum than they have ever hitherto done, 6 having occurred in the male division and 7 in the female, and but for accidental occurrences the numbers would have been still less, 2 males having in the course of the year been accidentally suffocated through rolling on to their faces during the occurrence of epileptic seizures in the night, and 1 female having succumbed to injuries accidentally received in falling from a window which, in the temporary absence of the person who had charge of her, she had attempted to clean from the outside. In this case an inquest was held, and a verdict returned in accordance with the facts laid before the jury; the causes of death in the remaining 10 cases were of the ordinary character.

The total number of Patients who have been under treatment during the year is 319, viz., 157 males—182 females. The average number of residents being 118 males—165 females: mean total, 283.

Several improvements have been carried out this year; among them should be noted the laying of a 4-inch main

round the Asylum, with hydrants at fixed intervals for the supply of water in the event of fire occurring in any portion of the building; this service is capable of being used in two ways, having a double connection, one with the large tanks on either side of the Chapel, which are capable of containing 5,800 gallons each, and another with the supply pipe from the well, so that should the connection with the tanks become destroyed, water in abundant quantity would be obtained as soon as the engine and pumps could be set in operation. One of Messrs. Shand, Mason & Co.'s Manual Engines, with space for 16 men, has been purchased, in the practice of which both Patients and Servants are regularly exercised every month.

In accordance with a suggestion made by the Commissioners in Lunacy last year, Porticoes have been erected over the doors leading to the airing grounds on both sides of the building; they are nearly 30 feet in length, and project 13 feet; the roof is glazed with rough glass, and supported in the front by iron columns; these have been found of considerable service, affording the advantage of shelter to the aged and infirm from the rays of the sun in the summer, and affording a temporary refuge to considerable numbers when an occasional shower has fallen.

The boundary wall on the female side has again been raised along its entire length where it runs parallel with the main road, in order to afford greater privacy to the Patients and Attendants when exercising in the grounds, as they had been frequently subjected to much annoyance by the more curious of the passers-by.

The Chapel and Dining Hall have been thoroughly cleansed, the walls re-coloured, the paint and varnish renewed, and crimson curtains substituted for those which upwards of six years' exposure to the sun had rendered unfit for further service. Further repairs of a similar character are required in other parts of the Asylum, and will be carried into effect as opportunities for executing them occur.

There have been three attempts at escape during the year, but in each case the Patient was brought back to the Asylum after a brief absence from it.

The usual winter Amusements were provided: that which inaugurated the New Year being an Entertainment by Mr. Basil Young, of metropolitan celebrity, whose numerous impersonations and rapid transformation of character excited both surprise and delight. In the summer a "picnic" was held, by the kind permission of Tom Brown, Esq., of Oakfield, Dartford Heath, in the grounds attached to his residence, where the visitors were most hospitably treated; a portion of the Asylum String Band was in attendance, and dancing was kept up until a late hour, when a walk home by moonlight terminated a day of enjoyment.

The Statutory Visit of the Commissioners in Lunacy was paid on November 27th. A reference to the copy of their Report, which is appended, will show that they continue to express approval of the condition of the Asylum and its inmates.

The conduct of the Attendants and Servants generally has during the past year been very satisfactory, and the Medical Superintendent desires to express his appreciation of the manner in which their various duties, often of a very arduous and trying character, have been performed.

To the Officers of the Institution his best thanks are tendered for their cordial assistance in carrying out the various details of management, and especially to Mr. Weatherhead, the Assistant Medical Officer, are they due for his active co-operation on all occasions, and for the aid rendered in compiling the Statistical Tables which are appended.

OCTAVIUS JEPSON, M.D.

December 31st, 1872.

#### APPENDIX.

#### TABLE I.

Showing the Admissions, Re-admissions, Discharges, and Deaths, during the Year 1872.

	Male.	Female.	Total.
In Asylum, 1st January, 1872	116	159	275
Admitted for the first time during M. F. T.			
the year 18 21 39		1 1 1	
Re-admitted during the year 3 2 5			
Total admitted	21	23	44
Total under care during the year	137	182	319
Discharged or removed :-   M.   F.   T.			
Recovered 8 8 16			
Relieved 1 1 2 Not improved 3 1 4		16	
Died 6 7 13		1 3	
Total discharged during the year	18	17	35
Remaining in the Asylum, December 31st	119	165	284
Average numbers resident during the year	118.09	165.70	283.79

#### TABLE II.

Showing the Admissions, Re-admissions, Discharges, and Deaths, from the opening of the Asylum to the present date, December 31st, 1872.

	Male.	Female.	Total.
Persons admitted during the period of 6 p years. Re-admissions	319	319 23	638 31
