REPORT
OF
THE COMMITTEE OF VISITORS
OF THE
SURREY LUNATIC ASYLUM,
FOR THE YEAR 1861,
PRESENTED AT THE
COURT OF QUARTER SESSION,
HELD AT REIGATE, on the 8th day of APRIL, 1862.

THE Committee of Visitors in presenting their Twentieth Annual Report have to state, that at the commencement of the year 1861 there were 942 Patients in the Asylum, and that during the year 69 additional Patients were

admitted, making a total of 1,011; of these, 25 males and 12 females were discharged cured; 10 males and 3 females were discharged uncured; and 30 males and 27 females died; leaving in the Asylum at the close of the year 904 patients, of whom 414 were males and 490 females.

Of those discharged cured, 25 were presented with gratuities from the Benevolent Fund, varying from five to forty shillings each.

Of the deaths, 2 occurred under circumstances requiring Coroner's inquests. The particulars of these cases will be found in the annexed Report of the Chief Resident Physician.

The average number attending Chapel was 366, and an average of 425 was in daily employment.

The charge for the maintenance of each Patient was nine shillings per week throughout

the year, but this was insufficient; the total amount of the expenditure for maintenance having exceeded the receipts by the sum of £657. 12s. 11*d.* The Committee, however, have not increased the weekly charge. They hope that a decrease in the cost of some of the chief articles of consumption will render an increase unnecessary, but if they are disappointed in this respect, an increase at Midsummer will be unavoidable. It is not to the high price of provisions that the increased cost of maintenance is solely to be attributed, it is chiefly to the circumstance, as stated in the Report for 1860, “That in consequence of the
 “insufficiency of the Asylum, the Patients sent
 “for admission are, with few exceptions, those
 “which require more than usual care, and
 “thereby render indispensable the services of
 “an additional number of Attendants, as well
 “as increase the general expenditure of the
 “Asylum in many other respects.”

It will be observed that the number of Patients in the Asylum at the close of the year was 904, whilst at its commencement it was

942; but it must not be inferred from this diminution that the Asylum is not full.

From a desire to accommodate the largest number of Patients, more have been admitted than, in the opinion of the Chief Resident Physician, the Asylum could conveniently contain.

He reported in March, 1861, that the cubic space allotted to each bed in the Dormitories was insufficient, and that should Small Pox or Diphtheria occur in the Asylum, it might spread to an alarming extent, in consequence of no provision having been made for the separation of special cases of disease.

On a careful consideration of this Report, the Committee directed the removal, as vacancies should occur, of 24 beds from the Wards for male, and 19 from those for female Patients.

This reduction in the number of Patients is now completed, and, not being attended by any corresponding reduction in the staff of the

Asylum, has the effect of increasing the average cost of each Patient's maintenance.

A further addition to the expenditure has been made by the appointment of a Chaplain, who devotes the whole of his time to the duties of his office.

For many years the attendance of the Chaplain on three days in every week was considered sufficient, but with the present class of Patients, many of whom are approaching the close of life, and can only receive the ministrations of the Chaplain at the bedside, his whole time may be fully and beneficially employed.

The Rev. GEORGE STANHAM was appointed to this important office in March 1861, at a Salary of £250. per annum, with an allowance of £60. per annum in lieu of a house. His first Report, which is appended, will be read with interest.

The new Well, to which reference has so frequently been made in former Reports, is

now fully and satisfactorily completed. The supply of water obtained from it is ample and of excellent quality. No supply has been received from the Water Company since October last, whereby a considerable saving has been effected. The total cost of the Well with its Pumps, Engines, Machinery, and Fittings, has been £2923. 5s. 8d. The charge of the Water Company, for only a partial supply of Water, was about £466. per annum.

The improvements for which, on a Special Report of the Committee previously printed and circulated, the Session at Guildford in July last voted the sum of £550., are nearly completed, and further improvements are in progress. A copy of this Special Report is appended.

From the Returns of the Clerks to the Boards of Guardians of the several Unions and Parishes in the County under the provisions of the 16th and 17th Vict., cap 97, sec. 64, it appears that on the 1st of January, 1862, the number of Pauper Lunatics belonging to the County was as follows :—

In the Surrey County Asylum.....	909
In other County Asylums	8
In Licensed Houses	344
In Workhouses	439
Residing with Friends	115
	<hr/>
Total	<u>1815</u>

The number returned in each year since 1848 is as follows:—

	Parish Patients.	County Patients.	Total.
On the 1st January, 1849....	817	26	843
1850....	907	39	946
1851, ..	926	48	974
1852....	977	66	1043
1853....	1005	71	1076
1854... ..	1132	70	1202
1855....	1157	75	1232
1856....	1181	71	1252
1857....	1223	84	1307
1858 ...	1303	104	1407
1859....	1359	115	1474
1860....	1486	117	1603
1861....	1550	118	1668
1862....	1655	160	1815

From which it appears that the average increase in the number of these Patients during

the whole thirteen years was $74\frac{1}{3}$ per annum, whilst during the first seven years of the time it was $58\frac{3}{7}$, during the last seven years $87\frac{2}{7}$, and during the last three years $113\frac{2}{3}$ per annum.

It is obvious, therefore, that there has recently been a great increase in the number of such Patients in the County, and it is very probable that admission into the Asylum about to be erected near Woking will be required for a large number of Patients as soon as it is in a state to receive them.

Of Dr. MEYER, the Chief Resident Physician, and the other Officers of the Asylum, the Committee continue to entertain the highest opinion; and the conduct of the Attendants and Servants has, with few exceptions, been satisfactory throughout the year.

For further information respecting the management of the Asylum and the treatment of the Patients during the year, as well as respecting the Receipts and Expenditure of the Committee, and the Statistics of the Asylum

during the same period, reference is made to the Reports of the Chief Resident Physician and the Chaplain, the Accounts and the numerous Tables appended as usual.

SPECIAL REPORT

of the Committee of Visitors of the Surrey Lunatic Asylum, presented to the General Court of Quarter Session, held at Guildford, on Tuesday, the 2nd of July, 1861.

THE Committee of Visitors report that at a Special Meeting held on Saturday, the 8th instant, to consider a Report from the Chief Resident Physician, on the present state of the Asylum, they ascertained that amongst other defects, the Water Closet and Washing accommodation in the Establishment is generally insufficient for the class of patients now under care and treatment; and that it is so particularly inadequate in the Wards numbered 1, 3, 4, and 5, for Male Patients, and the Wards 1, 3, 4, 5, and 7, for Female Patients, as to render it necessary that in these Wards additional Water Closets and Washing places should be immediately provided.

The state of these Wards in these respects is as follows:—

Department for Male Patients.

	No. of Patients.	No. of W. C. Seats.	Extent of Washing Accommodation.
Ward No. 1	30	1	3 Basins fixed.
„ 3	45	2	4 ditto, 2 of which are inconveniently placed.
„ 4	43	5	{ 4 ditto, all ditto. 5 ditto, 3 ditto.
„ 5	40		

Department for Female Patients.

	No. of Patients.	No. of W. C. Seats.	Extent of Washing Accommodation.
Ward No. 1	31	1	Basins not fixed, used in Galleries and Day-Rooms.
„ 3	49	1	Ditto, ditto.
„ 4	40	1	Ditto, ditto.
„ 5	30	1	Ditto, ditto.
„ 7	58	3	Sufficient, ditto.

The great increase of foul linen in the Establishment, renders it also necessary that the

Foul Linen Laundry should be immediately enlarged.

The cost of enlarging the Water Closets in the Wards above-mentioned, so as to give one Water Closet seat for about every 15 patients, and of enlarging and re-arranging the Washing places, so that the patients may be washed expeditiously, and under proper superintendence, and also of enlarging the Foul Linen Laundry, is estimated to be as follows:—

	£	s.	d.
Enlarging Water Closets in Nos. 1 and 4 Wards for Males, and in Nos. 1 and 4 Wards for Females £30. each	120	0	0
Enlarging Washing Places in the same Wards £30. each	120	0	0
Enlarging Water Closets and Washing Places in connection, in Nos. 3 and 5 Wards for Males, and Nos. 3 and 5 Wards for Females £70. each	140	0	0
Building New Water Closet in No. 7 Ward for Females	20	0	0
Enlarging Foul Linen Laundry	120	0	0
Fittings	30	0	0
	<hr/>		
	£550	0	0
	<hr/>		

Under these circumstances it will be moved, at the Court of General Quarter Session to be held at Guildford, on Tuesday, the 2nd of July next, that the Committee of Visitors be authorized and directed to make the several alterations and additions above-mentioned, at a cost not exceeding £550.

A. BOYSON,
CHAS. FRANCIS,

JAS. PHILLIPS,
R. R. ROBERTS,

Surrey County Lunatic Asylum,
June 8th, 1861.

REPORT
OF
THE RESIDENT PHYSICIAN
OF THE
SURREY LUNATIC ASYLUM.

The Surrey County Lunatic Asylum,
31st December, 1861.

GENTLEMEN,

I have the honor to submit the following Report, containing a short summary of the proceedings of the year.

There remained in the Asylum :—

On 31st December, 1860.		Since Admitted.		Total Treated.		Died.		Discharged Recovered.		Removed.		Remaining 31st Dec., 1861.	
M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.
436	506	43	26	479	532	30	27	25	12	10	3	414	490

The rate of mortality for the year is low, the per centage for the males is 6.26; for the females, 5.07; for the establishment, 5.63.

The Asylum has been free from epidemic disease.

Aged, Feeble, Epileptics, Paralytics.—The number of aged, feeble, epileptic, and paralysed persons under care and treatment during the year has been very large, and has necessarily increased the expenses of the Establishment; such patients require an expensive diet, and much waiting upon by paid attendants; their clothing and bedding are also very expensive.

General Health and Amusements.—Every effort has been made to improve the general health of the patients. Walking parties have been arranged almost daily; and during the summer months a number of patients played at cricket several times in the week. In winter skittles take the place of cricket. A singing class has been formed under the immediate management of the baker; it is attended by male and female patients and attendants; they meet twice in the week for practice, and have made considerable progress.

Inquests.—Inquests have been held upon two male patients during the year, they were both subject to severe epileptic seizures, and were found dead. The verdict in each case was “Natural Death from epilepsy.”

Reduction in Number of Beds.—The number of Beds in the Asylum has been reduced, in the male division by twenty-one, in the female division by nineteen. The Asylum now contains 414 beds for males, and 492 for females: total 906. The cubic space for each bed, in many of the dormitories, being considerably increased. This desirable measure, and the small number of death vacancies, explain the reduction in the number of admissions.

Escapes.—Four male patients escaped from the Asylum, three were brought back within the 14 days allowed by Act of Parliament. One man has not been heard of.

Attendants.—Two additional male attendants have been appointed. The proportion of attendants to patients is—in the male division one

to $16\frac{1}{2}$, in the female division one to $18\frac{1}{2}$. These attendants perform no other duty, and are exclusive of the night attendants. I am able to report an improvement in the general conduct of the attendants, many of whom will, I believe, prove valuable servants to the Establishment.

Additions and Alterations.—Boarded floors have been laid down in ninety-one single rooms, thus completing the boarding of the single rooms throughout the Asylum. The following additions and alterations have been completed or are in course of construction—

In the Female Division—Two small single rooms in the Cross Gallery have been thrown into one room. A water-closet has been added to No. 7 Ward. A bath has been erected in the Basement. In Wards Nos. 1 and 4 increased lavatory and water-closet accommodation has been provided. In Wards Nos. 3 and 6 the same additions are now being made.

Over the Store-rooms at the back of the Kitchen an additional story has been raised, which will provide good accommodation for the

House Porter and his wife, the two Kitchen Maids, and four Laundry Maids, as well as for about eight female patients; this work is progressing towards completion.

In the Male Division—A room, formerly occupied as a dormitory, for which it was not well adapted, has been fitted up as a Store-room. Shutters have been fitted to the windows in the basement. In Wards Nos. 1 and 4 increased Water closet and Lavatory accommodation has been provided. In Nos. 3 and 5 the same additions are in progress. An important addition has been made to the Foul Laundry, which has been nearly doubled in size. Considerable additions have been made to the Furniture of the Establishment.

Chaplain.—The Rev. GEORGE STANHAM, has been appointed Chaplain, and devotes his whole time to the Asylum. Under his direction Reading Classes have been established in both male and female divisions. This new arrangement is to me most satisfactory.

Requirements.—In concluding this Report I would mention the following requirements:—

Increased Infirmary accommodation, specially in the Male Division; and in connection with it, accommodation suitable for the care and treatment of acute cases of mania. A Recreation and Dining Hall, the absence of which is much felt. Visiting Rooms for the reception of the friends of Patients. Quarters for the Junior Medical Officer.

To my colleagues, Dr. BIGGS and Mr. ORANGE, as also to Mr. BRIDGLAND and the other Officers of the Asylum, I owe my acknowledgment for much valuable assistance.

To the Committee of Visitors I must always feel grateful for their support and encouragement in the performance of my duties as Superintendent.

I have the honor to be,

Gentlemen,

Your obedient humble Servant,

JOHN MEYER.

REPORT
OF
THE REV. GEORGE STANHAM,
CHAPLAIN
OF THE
SURREY LUNATIC ASYLUM.

CAMBRIDGE LODGE, NEAR TOOTING, S.

February 21st, 1862.

GENTLEMEN,

Since commencing my duties as Chaplain to your Asylum, in May last, I have great satisfaction in being able to state, that my labours appear to have been appreciated, and blessed to the good of the patients.

In my daily ministrations amongst them, I have been permitted to receive much encouragement in the assurance given to me,

that many derive comfort and consolation through the means used for their souls' welfare.

The daily Morning Service in the chapel is attended by many patients, who evidently consider it a privilege thus to begin the day. The full Service on Wednesday evenings is much valued; and the large attendance of attentive, and in many cases devout patients, at our two Sunday Services, affords great hope that the Gospel is not preached to them in vain. The Service held every Thursday morning in the Day-room, near the Infirmary, for the special benefit of those patients unable to attend Chapel, is much prized by them, as also by many others allowed to be present, who frequently express their gratitude for the same. At this Service I have introduced the singing of hymns, leading the psalmody with my concertina. The patients much enjoy the music; and, after the service, in visiting them in the Infirmary and in the Wards, many are soothed and delighted by singing a few verses of a hymn, accompanied by my instrument.

Throughout the winter months, we have had Reading Classes for both male and female patients on three evenings in the week. These gatherings have been, in every way, encouraging.

Soon after entering upon my chaplaincy, with your approval, I introduced a systematic circulation of Tracts amongst the patients. I have now much pleasure in stating, that the result has been most satisfactory. They have been gladly received and read by very many patients, and, in several instances, they seem to have been blessed to their spiritual good.

The permission you kindly granted me of giving a Bible, Prayer Book, and Hymn Book to those patients who would make a proper use of them, has had a very beneficial effect. The regular distribution of the many admirable periodicals and papers so considerately granted by you, is also productive of much good.

Although the number of Communicants is not great, yet they have increased, and several

of those patients who have thus devoutly assembled at the Lord's Table, have been most thankful for the privilege, they having found real comfort and consolation in commemorating the dying love of their Redeemer in this Sacrament.

Of those patients who have died during the past nine months, some gave evidence that they had a good hope of heaven, through the whole of their sickness and suffering manifesting great patience, and humbly trusting to their Saviour to the last.

Considering the peculiar nature of the malady with which the many hundreds of the inmates of your noble Institution are afflicted, I cannot but think that it is owing to the excellent management which pervades every department that I have been permitted to enjoy the hope that God is blessing my work amongst them. During my constant visits I have always beheld a hearty kindness exercised by all towards the patients. None, from the Medical Officers down to the Attendants and Nurses, appearing

to think that their duties, although often most onerous, were a burden to them—their real anxiety being for the comfort and welfare of their afflicted charge.

With the prayerful hope that the blessing of the Almighty may continue to rest upon all the efforts made for the efficient working of your most valuable Asylum,

I have the honor to remain,

Gentlemen,

Your very obedient servant,

GEORGE STANHAM,

To the Committee of Visitors,
Surrey County Lunatic Asylum.

Chaplain.
