R E P O R T
OF
THE COMMITTEE OF VISITORS
OF THE
SURREY COUNTY LUNATIC ASYLUM,
AT WANDSWORTH,
FOR THE YEAR 1866,
PRESENTED TO THE
COURT OF QUARTER SESSION,

HELD AT REIGATE, on TUESDAY, the 9th day of April, 1867.

THE Committee, in presenting their Twenty-fifth Annual Report, have to state that at the commencement of the year 1866 there were 914 patients in the Asylum, and that during the year 121 additional patients were admitted,

making a total of 1,035. Of these, 27 males and 14 females were discharged cured, 5 males and 9 females were discharged uncured, and 43 males and 22 females died; leaving in the Asylum at the close of the year 915 patients, of whom 414 were males, and 501 females.

Of those discharged cured, 9 were presented, on leaving, with gratuities from the Benevolent Fund. Of those discharged uncured, one was removed, with the sanction of the Commissioners in Lunacy, to Fisherton House Asylum, Salisbury.

Of the deaths, 5 occurred under circumstances requiring Coroner's Inquests. In 4 of these cases, the proceedings were formal, but requisite, as the patients were Criminals. If they had not been of this class, no inquest would have been necessary. In the fifth case, the death of the patient was evidently the result of injuries received in the Asylum; and although the verdict of the Coroner's Jury was

“Accidental Death,” the Committee deemed it right to investigate, most carefully and minutely, all the circumstances, so far as they could be ascertained, under which the death occurred, and they have made regulations, with the entire concurrence of the Medical Officers, which it is trusted will prevent the recurrence of any similar misfortune. The particulars of this painful case will be found in greater detail in the annexed Report of the Chief Physician and Medical Superintendent, see page 17.

The average number attending Chapel was 364, and an average of 422 was in daily employment.

The charge for the maintenance of each patient was nine shillings per week throughout the year; but as this has been found to be less than the cost, an increased charge in 1867 will be indispensable.*

* The charge has been increased from 1st January, 1867, to ten shillings per week.

The cases of patients chargeable to the County continue to be carefully investigated, and it will be seen from the annexed Report (Page 31) of the Solicitors, that the settlements of nine of them,—the same number as in the preceding year,—have been ascertained, and the County relieved from the further cost of their maintenance, whereby a saving of £5. 17s. per week has been effected.

Early in the year the Committee placed Two thousand five hundred pounds (£2,500) on deposit in a Joint Stock Bank, which some time afterwards suspended payment. The suspension, however, was only temporary; one moiety of the amount, with interest from the date of the deposit to that of repayment, has since been received, and for the remainder, with like interest, promissory notes have been issued, which it is not doubted will be promptly honoured as they become due.

The Committee regret to report that they

were obliged, on two occasions in the year, to take legal proceedings against subordinates in the Establishment. In the former case, a female, only recently engaged, with apparently a good character, was taken into custody for robbing her former employers, and in her possession were found some things purloined from the Asylum. She was indicted for both offences, and on conviction for one of them was sentenced to penal servitude for five years. In the latter case it was ascertained that, notwithstanding the anxious vigilance of Dr. BIGGS, and the other Medical Officers, to prevent such occurrences, two of the attendants had assaulted a male patient. For this offence, which in law is a misdemeanor, they were tried and convicted, and sentenced each to imprisonment with hard labour for two calendar months. And a third attendant, who had charge of the ward in which the assault was committed, and who was cognizant of it, and did not report it, was dismissed.

During a part of the year, viz., from the 4th

of August to the 17th of November, no patients were admitted into the Asylum. At the commencement of this period, cholera was very prevalent in the metropolis, and it was consequently deemed prudent to make suitable provision for the treatment of the complaint in the event of its appearing in the Establishment. To effect this, the separation of those so afflicted from other patients was deemed indispensable; and for the purpose of securing the means by which this might be accomplished, the vacancies that occurred within the period stated were not filled up. No case of decided cholera occurred; but in August and September, Diarrhœa was very prevalent, and some of the cases were of a choleraic character; but the Committee are able to report, and they do so with deep thankfulness, that none proved fatal.

A severe case of small-pox also occurred, but the means taken to prevent contagion were successful, and on the 27th day after the commencement of the attack, the patient, who

was an attendant, and the attendant who had nursed him, were allowed leave of absence sufficiently long to render, in the opinion of the Chief Physician, the spread of the complaint very improbable.

The following New Rules have been adopted as part of the General Rules for the Management of the Asylum. The former on the recommendation of the Commissioners in Lunacy; the latter in the place of an old rule, which gave the Treasurership of the Asylum exclusively to the Governor and Company of the Bank of England. It may, however, be right to add, that the Governor and Company of the Bank of England are still the Treasurers.

“ The person of every patient (male and
 “ female) shall, immediately after admission, be
 “ carefully examined by the Head Attendant,
 “ who shall forthwith report in writing to the
 “ Superintendent the bodily condition of the
 “ patient, and especially any bruise, injury, or

“mark which may have been observed in such
 “examination: and it shall be the duty of the
 “Superintendent, upon receiving notice of the
 “existence of any recent injury or apparent
 “bodily disorder, at once himself to make a
 “personal examination of the patient.”

“They shall appoint the Governor and Com-
 “pany of the Bank of England, or the Direc-
 “tors of any Joint Stock Bank in London, to
 “be their Treasurers; and shall cause all
 “monies received from every source to be paid
 “to the account of the Asylum, at the Bank
 “of such Treasurers; and they shall make all
 “payments by cheques, signed by two of their
 “body, and countersigned by their Clerk.”

The number of Pauper Lunatics in the County continues to increase. At the close of 1866 it was 2,115; whilst at the close of 1865 it was 2,020; and at the close of 1849, only 843. Of the present number, 477 are in Licensed Houses, and 574 in Workhouses.

For the whole of those in Licensed Houses, and for a portion of those in Workhouses, probably one-fourth part, admission into the Asylum is desired. It is, therefore, to be feared, that when the New Asylum at Woking is completed, and fully inhabited, there will still be a deficiency of accommodation in the County for its paupers of this class.

For further information respecting the Asylum, reference is made as usual to the Reports of the Resident Physician, the Chaplain, and others, and to the Accounts and numerous Tables, all of which are appended.

In conclusion, the Committee have to state, that notwithstanding the painful occurrences to which reference has been made, and which were the cause of much anxiety to themselves, and all concerned in the supervision of the Establishment, Dr. BIGGS, the Chief Physician, and those acting with and under him, are at all times using their best exertions to

secure for the Asylum an efficient management, and are fully entitled to the continued confidence of the Magistrates of the County.

REPORT
OF
THE RESIDENT PHYSICIAN.

The Surrey County Asylum,
December 29th, 1866.

GENTLEMEN,

I have the honour to submit the
Twenty-fifth Annual Report.

The Statistical Return is as follows:—

Remaining 31st December, 1865.		Since Admitted.		Discharged Recovered.		Removed.		Died.		Remaining 31st December, 1866.	
M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.
413	501	76	45	27	14	5	9	43	22	414	501
914		121		41		14		65		915	

The total number treated has been 1035.

The average number resident has been 907.

The admissions of Patients (including six re-admitted, only one of whom was discharged within the year) have been one less than during the previous year.

The recoveries (not including removals nor cases discharged relieved) are 33·8 per cent. on the admissions.

The mortality has been 6·2 per cent on the total number treated; 7·1 per cent on the mean population. (The average mortality for the past eight years has been less than seven per cent. on the total numbers treated.)

The average age at death was 44·4 years.

General Paralysis was the cause of death in 24 cases, equal to 37 per cent. of the whole.

Five Inquests have been held. In four of these the patients were Criminals, the proceedings were simply formal, and the verdict in each instance was "Natural Death." The only case

requiring notice is that of a patient, who had been an inmate of the Asylum for seven weeks ; he was the subject of Melancholia, and, under the influence of delusions, refused to take food. On the afternoon of the day before his death, I found that he had severe injuries of the chest, and a post-mortem examination revealed fractures of the ribs on both sides, and laceration of the right lung. I communicated the facts to the friends of the deceased patient, to the Coroner, to the Chairman of the Committee, and to the Commissioners in Lunacy. After a long and careful investigation, the Coroner's Jury returned an unanimous verdict of "Accidental Death."

Separate investigations as to the cause of such extensive injuries were made by myself and by the Committee of Visiting Justices ; the conclusion arrived at was, that the injuries were the result of pressure upon the patient during forcible feeding, and that no intentional violence had been committed.

The unwilling manner, however, in which

three out of the four Attendants gave evidence before the Committee was considered unsatisfactory, and their further services were discontinued. The practical result of this unfortunate case is, that no forcible feeding is permitted, except in the presence of a Medical Officer.

Of the 121 patients admitted, 18 have been discharged recovered, 12 have died, and 3 have been removed. Twenty-four have been transferred from other Asylums.

Seventeen patients of the Criminal class remain.

No patient has escaped.

Thirty-six patients (or 3.47 per cent. of the total number resident) have required seclusion; some of them on several occasions.

The average daily number under medical treatment for disease has been 22 males and 16 females.

There are this day under medical treatment

27 males and 18 females, of whom 2 males and 10 females are confined to their beds.

There are 28 cases of General Paralysis in the Male Division, and 2 cases in the Female Division. This disproportion explains the difference in the numbers under treatment in each division.

There are 125 Epileptics.

On the 1st of March, one of the Male Attendants was attacked by Small-pox. On the 27th he was in a fit state for removal, and had leave of absence for a month. The Attendant who nursed him was not allowed to do duty until after a fortnight's absence. Great care was taken to prevent contagion, and it was necessary to stop the admission of male patients for a month.

No other case of Small-pox occurred.

On the 4th of August, I submitted for your consideration the propriety of closing the Asylum during the prevalence of cholera, as in

the event of any such attack, the crowded state of the dormitories rendered separation a very difficult arrangement. During August and September, Diarrhoea was very prevalent, and some of the cases were of choleraic character. None proved fatal. The Asylum was closed until the end of November, but the reduction in numbers amounted to only 20, and barely gave me the command of a small Dormitory in each division.

The average number of patients regularly employed has been 422.

The average attendance at Chapel has been 364.

Two Theatrical entertainments were given in April, a Concert in October, and two exhibitions of Dissolving Views in November.

My best thanks are due to Mr. JACKSON (who undertakes the management) and to the gentlemen who have so kindly devoted much time and trouble to the amusement of the

patients. The success of the entertainments is worthy of a better theatre. The only available place at present is the laundry—a room 80 feet long, 20 feet wide, and 11 feet 8 inches high. The stage occupies 17 feet, thus reducing the length to 63 feet. When filled, as it has been on such occasions by 377 persons, the space for each person amounts to a fraction over 39 cubic feet. The ventilation is very imperfect, and the use of the Laundry for such a purpose interferes to some extent with its own proper employment. A more commodious building, which would be used as the daily work-room of the female patients, to the relief of the crowded Wards, would be of great advantage.

The Band (under Dr. GRABHAM) now numbers thirteen efficient musicians, seven of whom play regularly at the weekly dance of the female patients.

The general internal aspect of the Asylum has been improved by painting, and by articles of decoration.

Improvements and additions have been made to the machinery of the Well, and of the hot water supply.

The mattress woman, who commenced duty on the 13th of June, was, on the 13th of August, taken into custody on a charge of robbing her former employer. On examination, it was found that she had also stolen property belonging to the Asylum. She was prosecuted at the Central Criminal Court, pleaded guilty to the latter charge, and was sentenced to five years penal servitude.

Many changes have been required in the staff of Attendants.

On the 22nd of September, I suspended two Attendants for alleged violence to a patient. I also suspended the attendant in charge, who was reported to have been cognizant of the ill-usage. On the 24th, I applied for and obtained a warrant from the Wandsworth Police Court for the apprehension of the two former Attendants, they surrendered, were committed for trial at the Central Criminal Court in

October, were convicted and sentenced to two months imprisonment with hard labour. The three Attendants were discharged from the service, and were reported to the Commissioners in Lunacy.

I submit for adoption several tables which have been recommended for general use by the Medico-Psychological Association, the object being to establish an uniform standard of comparison.

Table 1. Gives the Admissions, Re-admissions, Discharges and Deaths, with the average numbers resident during the year; the sexes being distinguished under each head.

Table 2. Gives the same results, from the opening of the Asylum to the present time.

Table 3. Gives the Admissions, Discharges, and Deaths, with the mean Annual Mortality and proportion of recoveries per cent. of the admissions for each year since the opening of the Asylum.

Table 4. Gives a history of each year's Admissions, with the Discharges and Deaths, and the numbers of each year remaining at the present time.

Table 5. Shows the Causes of Death during the year.

Table 6. Gives the Length of Residence of those discharged recovered, and of those who have died during the year.

In conclusion, I desire to acknowledge the efficient and valuable assistance I invariably receive from my Medical Colleagues (Dr. GRABHAM and Mr. JACKSON) and from the other Officers of the Asylum.

I respectfully thank the Committee of Visitors for their continued confidence, and

I have the honour to be,

Gentlemen,

Your most obedient Servant,

J. STRANGE BIGGS.

To the Committee of Visitors.

REPORT

OF

THE REV. GEORGE STANHAM,

CHAPLAIN.

CAMBRIDGE LODGE, NEAR TOOTING. S.

March 1st, 1867.

GENTLEMEN,

I have now the honour of presenting to you the Annual Report of my ministerial labours amongst the inmates of your Asylum.

I am thankful to be enabled again to give a satisfactory account of the religious condition of the patients committed to my charge.

During the past year I have received many evidences that the Gospel of Our Lord Jesus Christ has proved to be the power of God for the salvation of souls. This fact is most encouraging when considering the severe affliction which all, more or less, suffer from.

The mission of our Saviour to this world, His commission to His followers to preach the Gospel to every creature, and the promise that God's Word shall not return to Him void, assures us that our labour is not in vain.

I beg to state that my daily ministrations and visits amongst the patients continue to be received by them with gratitude, and that they are the means of affording them much comfort and consolation. Many of those who have died, and others who have been discharged cured from the Asylum, have expressed their thankfulness for the temporal and spiritual blessings afforded them while sojourning with us.

It has been my privilege to call your atten-

tion to these facts, from time to time, during the past twelvemonths. Several interesting cases will be found recorded in my Journal.

As to my general work in the Asylum, I have to report that the Daily Morning Service in the Chapel has been regularly attended by the usual number of patients, who still much value this opportunity of commencing each day in worshipping God, and listening to His Word.

At the Services on Sundays, the Chapel is well filled. The devout behaviour of the patients in joining in the responses of our beautiful Liturgy, and in singing the praises of the Lord, testifies to the benefit they derive from the same. Their marked attention also to the reading and preaching of the Word of Truth, continues to give the assurance that they value religious instruction.

The Sacrament of the Lord's Supper has been administered in the Chapel and in the

Infirmary upon the appointed days. Those who participate in this Means of Grace do so with becoming devotion.

The full Evening Service on each Wednesday has been well attended by the patients, whose appreciation of it seems to increase, and thus affords the hope that many of them are advancing in their Christian course.

The Thursday-Morning Service in the day room of the Infirmary is still greatly prized by those who regularly come to it. At its conclusion it is most gratifying to find, from the conversation of many of the patients, that they have derived good, and that they have had their faith strengthened.

The Reading Classes have been conducted as usual, and a growing interest is taken in them by the patients. Arrangements have been made for a larger number to attend them than in previous years.

They much enjoy joining in the reading of the Scriptures, as also in listening to instructive and amusing passages, which I read to them, from various Authors.

The more extensive distribution of Tracts, commenced about eighteen months since, is, I believe, productive of much good, as the patients are very eager to obtain them.

The Library Books are sought after and read, so that the whole of them are generally in circulation.

The newspapers and various periodicals are judiciously lent to those who most value them. The number of patients who take pleasure in this class of reading is increasing.

It is with much pleasure that I acknowledge the assistance at all times given to me for carrying on my work in the Asylum, by Dr. BIGGS and the other Medical Officers, as also by Mr. BRIDGLAND and the Matrons.

I likewise beg to be permitted to return you my grateful thanks for the kind support and interest you continue to afford me in my duties, and I trust always to enjoy your confidence.

With the fervent prayer that the blessing of God may abide upon our conjoined efforts to promote the welfare of the poor afflicted people intrusted to our care and sympathy,

I have the honour to be,

Gentlemen,

Your very obedient and humble Servant,

GEORGE STANHAM.

To the Committee of Visitors of the
Surrey County Lunatic Asylum.

REPORT

OF

MESSRS. W. H. & M. SMALLPEICE.

GUILDFORD,*7th February, 1867.*

DEAR SIR,

In making our Annual Report for the information of the Committee of Visitors of the Surrey County Lunatic Asylum, of the results of the enquiries made by us since February, 1866, into the Settlements of the Lunatics chargeable to the County, we have but little to report respecting the Patients confined in your Asylum.

In consequence of all the Criminal Lunatics being now sent direct to Fisherton House, and the Clerk of the Peace attending at the time when application is made for Orders on the County Treasurer in the cases of all Pauper Lunatics, there are scarcely any fresh cases sent to the County Asylum, in which we can ascertain the Settlements of the Patients; we

have, however, obtained Orders of Adjudication in the cases of Henrietta Wise, a Pauper; and Harriet Smith, and Charles Smith otherwise Alfred Chamberlin, two Criminal Lunatics confined in that Asylum.

In accordance with the instructions received from you in June last, we attended at Fisherton House Asylum, and took the examinations of the Patients chargeable to the County who were there confined. A good many of these cases were either Foreigners or Irish, in which nothing could be done; but in three cases, namely, those of Frederick Williams, Charles Whitehouse, and Eliza Clifford otherwise Elizabeth Lewis, the places of the settlements have been ascertained, and Orders of Adjudication made thereon; and there are one or two other cases in which we hope to obtain sufficient information to enable us to apply for Orders of Adjudication.

Since instructions were given to the Governor of the House of Correction to report to us when any Criminal Lunatics were sent from there to an Asylum, we have received notice of

seven cases; three of these having been very recently sent, we have not as yet made enquiries concerning them; of the remaining four, one was an Irish girl who had gained no settlement in England; and in the other three cases Orders of Adjudication were made on the respective Unions or Parishes of their Settlements.

The aggregate amount of the expense of maintaining these nine patients, which has thus been transferred from the County to the Unions or Parishes of their Settlements is £5. 17s. per week, and in eight out of the nine cases the places upon which the burden of the expense has been thrown are situate out of the County of Surrey, three of them being situate in Middlesex, two in Kent, one in Suffolk, one in Herefordshire, and one in Buckinghamshire.

We are, dear Sir,
Yours faithfully,

W. H. & M. SMALLPEICE.

STEPHEN BRIDGLAND, Esq.

*Clerk to the Committee of Visitors,
Surrey County Lunatic Asylum.*

R E P O R T
OF THE
CLERK TO THE COMMITTEE OF VISITORS.

SPRINGFIELD,

23rd February, 1867.

To the Committee of Visitors.

GENTLEMEN,

The Clerks to the Boards of Guardians of the several Unions and Parishes in the County of Surrey, have made their Annual Returns to the Committee of Visitors, as required by the 64th section of the Lunatic Asylums Act of Parliament (16 & 17 Vict. cap. 97,) and I have made an Abstract therefrom, which is hereto annexed, from which it appears that 1989 pauper patients are chargeable to Parishes, and 126 vagrant lunatics are chargeable to the County Funds, making a grand total of 2115; they are described as follows, viz.—

In the County Asylum, chargeable to Parishes	777
Ditto ditto to the County	126
Ditto ditto to other Counties..	12
	<hr/>
	915
In other County Asylums	39
In Licensed Houses	477
In Workhouses	574
Residing with friends	110
	<hr/>
Total	2115

The numbers returned in each year, commencing in 1849, are as follows—

	Parish Patients.	County Patients.	Total.
In 1849	817	26	843
1850	907	39	946
1851	926	48	974
1852	977	66	1043
1853	1005	71	1076
1854	1132	70	1202
1855	1157	75	1232
1856	1181	71	1252
1857	1223	84	1307
1858	1303	104	1407
1859	1359	115	1474
1860	1486	117	1603
1861	1550	118	1668
1862	1655	160	1815
1863	1806	145	1951
1864	1818	141	1959
1865	1797	136	1933
1866	1889	131	2020
1867	1989	126	2115

I have the honour to be, Gentlemen,
Your obedient humble Servant,

STEPHEN BRIDGLAND,

Clerk to the Committee of Visitors

ABSTRACT OF THE RETURNS OF LUNATICS AND IDIOTS IN THE COUNTY OF SURREY, ON 1ST JANUARY, 1867, MADE BY THE CLERKS TO BUREAUX OF GUARDIANS OF THE SEVERAL UNIONS AND PARISHES, IN PURSUANCE OF THE 64TH SECTION OF THE ACT 16TH AND 17TH VICT., CAP. 97.
