REPORT  
OF  
THE COMMITTEE OF VISITORS  
OF THE  
SURREY LUNATIC ASYLUM,  
FOR THE YEAR 1864,  
PRESENTED TO THE  
COURT OF QUARTER SESSION,  
HELD AT REIGATE on the 4th day of APRIL, 1865.

---

THE Committee of Visitors in presenting their twenty-third Annual Report have to state, that at the commencement of the year 1864 there were 918 patients in the Asylum; and that during the year 133 additional patients were admitted, making a total of 1051. Of these, 26 males and 15 females were discharged cured, 13 males and 8 females were discharged un-

cured, and 41 males and 33 females died; leaving in the Asylum at the close of the year, 915 patients, of whom 415 were males, and 500 females.

Of those discharged cured, 16 were presented on leaving, with gratuities from the Benevolent Fund, varying from two shillings and sixpence to thirty shillings each.

Of the deaths, 8 occurred under circumstances requiring Coroner's inquests. The particulars of these cases will be found in the annexed Report of the Chief Resident Physician.

The average number attending Chapel was 349, and an average of 378 was in daily employment.

The charge for each patient was nine shillings per week throughout the year.

During the same period, many improvements have been made in the Wards of the Asylum.

These are specially adverted to by the Chief Physician in his Report.

The settlements of patients chargeable to the County, continue to be investigated by Messrs. W. H. and M. SMALLPEICE, whose Report is appended.

It appears from Returns which have been made by the Clerks to the Guardians of the several Unions throughout the County, that there were on the 1st of January, 1865, 424 pauper patients in Licensed Houses and other County Asylums, for whom admission into the Asylum is required. It is hoped, that on the completion of the new Asylum at Woking, there will be accommodation in the two Asylums for these patients, and for all others for whom admission may be desirable for some years.

The Committee obtained possession of the land recently purchased, in time for Spring sowing and planting; and the crops have proved satisfactory and beneficial to the Institution.

The Committee have been engaged for some time, in extending the privacy and the security of the Asylum, by the erection of a fence along the northern boundary, and by greatly enlarging the kitchen garden. These will be effected partly by brick walls, and partly by an oak fence; and they are quite indispensable, as the adjoining land has already been extensively laid out for building purposes.

For further information respecting the management of the Asylum, the treatment of the Patients, the Receipts and Expenditure of the Committee, and the Statistics of the Asylum; reference is made as usual to the Reports of the Resident Physician, the Chaplain, and others; and to the Accounts and numerous Tables; all of which are appended.

The Report of the Chief Physician, and of the Chaplain, will be read with much interest; and the Committee have renewed pleasure in reporting their continued confidence in the Officers of the Asylum, who appear, under the kind, judicious, and energetic guidance of the

Chief Physician, Dr. BIGGS, to be animated by a common desire to increase the comfort, and promote the best interests of the Establishment.

March 18th, 1865.

REPORT  
OF  
THE RESIDENT PHYSICIAN  
OF THE  
SURREY LUNATIC ASYLUM.

The Surrey County Asylum,  
31st December, 1864.

GENTLEMEN,

I have the honour to submit the  
Twenty-third Annual Report.

The Statistical Return is as follows :—

Remaining 31st December, 1863,		Since Admitted,		Discharged Recovered,		Removed,		Died,		Remaining 31st December, 1864,	
M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.
418	500	77	56	26	15	13	8	41	33	415	500
918		133		41		21		74		915	

The total number treated has been 1051.

The average number resident has been 913.

The admissions of Patients (including re-admissions) have been 6 more than during the preceding year.

The re-admissions have been 12. The longest period of absence from the Asylum was 18 years and 3 months ; the shortest case was a fortnight ; but in this instance, previous to discharge, leave of absence had been granted for four weeks. One patient admitted in 1843, has been re-admitted 6 times, and is now an inmate.

A constant cause of re-admission arises from the difficulty a discharged patient has in obtaining employment, and from the mental and bodily depression consequent upon utter destitution. A moderate parochial allowance, until means of living were accessible, would in many instances obviate the necessity or convenience of return to Asylum care and support. Such a plan would prove an economical arrangement.

If a patient is fit for discharge, he cannot be detained on account of the presumption (how-

ever reasonable), that his poverty will drive him to some act which will again consign him to an Asylum. It is for such a case that I urge the expediency of temporary parochial out-door relief.

The Committee of this Asylum, by the considerate distribution of their Benevolent Fund, do all in their power to assist discharged patients, and during the present year 16 persons have received gratuities in sums varying from 2s. 6d. to 30s., besides which several patients have been supplied with clothing.

The recoveries (not including cases removed) are 31 per cent. on the admissions.

The mortality has been 7 per cent. on the total number treated; 8.1 per cent. on the mean population.

The average age at death was  $43\frac{1}{2}$  years.

The average mortality during the past six years, has been 7 per cent. on the aggregate number treated.

Eight Inquests have been held. Four of them were upon Criminal patients. In three of the other cases, death resulted from Asphyxia during Epileptic seizure; and in one case, from Syncope, induced by extensive disease of the Lungs. In every instance the Verdict was "Natural death."

No death from Suicide has occurred for more than five years.

The most fatal forms of disease are identical with those recorded last year; forty-nine deaths, or two-thirds of the gross mortality being enumerated under the same heads of disease; viz:—General Paralysis, 15; Phthisis, 9; Epilepsy, 9; and Softening of the Brain with effusion, or with disease of Arteries, 16.

Table No. 25, gives a summary of Post-mortem appearances, representing the immediate cause of death.

Of the 133 patients admitted, 18 have been discharged recovered, and 11 have died. Not

more than 20 of the remaining 104 are possibly curable. 40 have been transferred from other Asylums.

The probability of recovery greatly depends upon the early admission of patients into Asylums. The erroneous idea of economy, which prompts the detention of the Insane in a Workhouse, until a recent and probably curable case becomes chronic, in most instances entails a charge upon the parish which is terminated only with the life of the patient.

The 8th Section of the "Lunacy Acts Amendment Act, 1862," under the conditions approved by the Commissioners in Lunacy, and the President of the Poor Law Board, would be rendered more advantageous, if the practice of sending all recent cases to the County Asylum were the rule instead of the exception.

Twelve Criminal patients have been admitted. Three have been discharged recovered—4 have been removed to the State Asylum at Broadmoor—4 have died.

Thirty-two Criminal patients remain.

No patient has escaped.

There has been no epidemic disease.

The condition of the patients has been satisfactory; their general conduct has shown improvement, destruction of property has greatly diminished, and instances of seclusion have been comparatively rare for some months past. Of 1051 under treatment, only 37 have been placed in seclusion, on account of violent behaviour, and generally for very short periods.

The number of occasions of seclusion has diminished from 138 during the last year, to 56 in the present year.

The improved clothing, the successful efforts which have been made for their amusement, the walking and cricket parties (in which only 30 of the 415 male patients are unable to join, and these on account of physical inability) together with the more cheerful aspect of the

Wards, are the means doubtless of inducing a change which has borne good results, in the greatly increased numbers who are willing to be employed daily in agricultural or other useful labour.

The food has been of good quality ; extra diet for the sick has been freely given as the circumstances required.

There are this day under special medical treatment, 24 males and 17 females, of whom 7 males and 13 females are confined to their beds.

There are 40 cases of General Paralysis in the Male Division, and 2 cases in the Female Division.

There are 114 Epileptic patients.

The number of straw mattresses for patients of unclean habits has been reduced, and the supply of straw used is only half of what it was in 1861.

The sanitary condition of the Building has been improved by the removal of the slate and asphalte from Galleries and Day Rooms, and by the substitution of boarded floors; by the use of Linoleum in the place of Cocoa-nut-fibre matting, which retained moisture and unpleasant odours; by better Ventilation and by a larger supply of Water.

About 380 patients are habitually employed. During the Summer and Autumn 75 men were engaged in out-door work. At the present time 30 work at various trades.

130 women are regularly employed in Needlework; they make all the clothing required for patients, and, in addition, earn sums which are contributed to the Benevolent Fund.

The Chapel and Ward Services, and the Reading Classes have been conducted as usual by the Revd. G. STANHAM.

The average attendance at the Chapel has been 349.

The amusements of the patients have been more varied than heretofore. The Christmas trees decorated with presents for those who work, and which are distributed at the Annual Winter party,—the exhibition of dissolving-view lanterns,—the Summer party on the lawn for the women, and Harvest Supper after a cricket match for the men,—and the entertainment suggested spontaneously, and given by the Male Attendants, have been a source of much gratification.

Mr. JACKSON has given several Readings, some of which have been attended by 300 patients.

The weekly Dance is continued throughout the Winter, in one of the Wards in the Female Division.

The Cricket party averaged 40, and played regularly during the Summer months; those who were unable or unwilling to play, went out in walking parties every afternoon. The system has been adopted of sending out in

parties, all patients who are able to walk, including those, who, from occasional violence, had been considered dangerous : under careful management the plan has proved very successful.

There has been great difficulty in obtaining the services of suitable Attendants who are also musicians ; but we have the nucleus of a band, to which Mr. Grabham kindly devotes his time.

The very important work of putting down boarded floors has been steadily prosecuted, and well performed. This structural improvement is now required in the Galleries of Wards 8, 9, 10, 11 and 12, in the Male Division ; and in the Galleries of Wards 6, 9, 10, 11, and 12, in the Female Division. It is hoped that all will be finished by next Midsummer.

Several of the Wards have been painted,—with pleasing effect.

Gas has been supplied to Water closets and sinks.

Linoleum has been substituted for Matting in the Galleries.

Tables, chairs, and pictures, have been placed in the Wards.

Books have been added to the Library.

The Lavatory accommodation has been increased, and a larger stock of brushes, combs, and towels provided.

Hand-rails have been fixed to the Staircases.

A Sewing-machine of the best kind is in daily use.

Objects of Amusement to the patients, and articles of Decoration for the Wards, have been supplied by small grants from the Benevolent Fund; and, as the result, they have aquaria, birds, pictures, musical boxes, and a pair of dissolving-view lanterns.

A Washing-machine has been adapted to steam power, and placed in the Laundry.

An additional Main has been supplied to

the tanks in the towers of each division of the building.

The three Pumps in the old well have been lowered 24 feet, they have been in use for a month, and the increased supply of water amounts to 5,000 gallons *per diem*. 17,000 gallons can be pumped daily from this well.

The new Well can supply 45,000 gallons *per diem*.

The Steam-pipes for heating the Old Building have been thoroughly repaired, or new ones substituted.

A new iron 4-inch Main has been laid on from the new well to the Female Division.

The general conduct of the Attendants has been very satisfactory. In the Male Division, I have had to bring under your notice, only three cases of misconduct. In the Female Division, there has been nothing of an unfavourable nature to report.

The Night Attendants do their duty to my entire satisfaction.

My best thanks are due to my Medical Colleagues, to Mr. BRIDGLAND and to the other Officers, for most valuable help in the performance of the responsible duties with which you have intrusted me.

I respectfully and earnestly thank the Committee of Visitors, for their continued support and encouragement.

I am, Gentlemen,  
Your obedient humble Servant,  
J. STRANGE BIGGS.

REPORT  
OF  
THE REV. GEORGE STANHAM,  
CHAPLAIN  
OF THE  
SURREY LUNATIC ASYLUM.

---

CAMBRIDGE LODGE,

NEAR TOOTING, S.

*February 24th, 1865.*

GENTLEMEN,

IN presenting you with my Fourth Annual Report, I have again the honor and privilege to speak favourably of the religious condition of the inmates of the Asylum.

During the past year, the Daily Morning Services in the Chapel have been regularly attended by the usual number of patients. They appear to have an increasing apprecia-

tion of the blessing of thus commencing the day in prayer and praise to God, and in the hearing of His Word.

The Chapel is always well filled at both of the Sunday Services. The devotion and attention of the patients during Divine Worship and the preaching of the Gospel is most gratifying; and their devout behaviour would bear favourable comparison with that of many congregations in the enjoyment of the great blessing of mental health denied to them.

The full Service every Wednesday Evening is likewise well attended, and evidently much valued by many patients. For some time during the past twelvemonths, I have, at the conclusion of this Service, practised the Psalmody with several male and female patients, who have been allowed to remain in Chapel for this purpose. The consequent improvement in their singing is manifest.

The Sacrament of the Lord's Supper is regularly administered in the Chapel and in the

Infirmary. I have much satisfaction in being enabled to state that those patients who participate in this means of grace, appear to do so with much devotional gratitude and spiritual comfort. During my absence for two Sundays in September last, one of the brother clergymen who took my duty was a late Chaplain of the Asylum. He told me that he was very pleased with the marked improvement in the patients attending the Chapel Services. He alluded particularly to their more intelligent joining in the responses of the Liturgy, and their attention to the Word of God read and expounded to them.

The Thursday Morning Service, held in the day-room of the Infirmary, continues to be appreciated. I believe many patients derive much religious comfort, and are strengthened in their Christian course through their weekly attendance thereat.

My visits throughout the various Wards of the Asylum, to both male and female patients, are received by them with pleasure and thank-

fulness; and in an especial manner is this the case with respect to the sick and the dying. Many of them have thus been cheered and supported with the consolations of the Gospel in their last hours; and they have passed away from the trials and sorrows of earth with a good hope of being for ever with their Saviour.

The Reading Classes for the patients have been conducted as usual; and they still afford the means of instruction and entertainment to those who attend them.

An increasing desire is shewn by the patients to avail themselves of the use of the books, tracts, periodicals, and newspapers, which are supplied to them.

On many occasions, since my last Report to you, I have been much pleased to find that several patients have apparently been aroused, through my ministrations, to speak to me concerning their hopes of salvation. In conversing with them, they are wont to allude to the truths of the Gospel brought before them

in the various religious services. I have also reason to believe that some of those patients who have recovered, and have left the Asylum, derived much benefit from the means of grace afforded them during their sojourn in it; and before leaving they expressed their thankfulness for these privileges. Hearing of the serious illness of one who had formerly been a patient, and who had expressed a great wish to see me, I visited her; she was then recovering from severe inflammation of the lungs. It was a source of great satisfaction to find how grateful she was for all that had been done for her when an inmate of the Asylum. She retains the most thankful remembrance of the kind interest that was taken in her temporal and spiritual happiness, and asked many questions respecting the welfare of those still connected with the Asylum.

Amongst the male patients now in the building, I may allude to one who has for some time afforded me much encouragement in my work. Whenever this man was spoken to about attending the services of the Chapel, or reading the tracts or books, he would reply

in the most self-righteous manner of his not needing any such means for his soul's welfare; and this behaviour lasted for upwards of two years. For the past seven or eight months, this same patient has become a constant attendant at the Chapel; he also gladly reads the tracts and books, and enters into conversation; and is anxious to influence other patients for good.

Of those who have died in the faith of our Lord Jesus Christ, it may be interesting to allude to one of each sex. The female patient, who died in February, always appeared to have the support and comfort of true religion. She was a communicant, and evidently derived spiritual consolation and strength from partaking of the Sacrament. My visits to her, and especially during her last illness, were a source of much comfort to myself, from the proof afforded to me of the reality of her religion, and of its blessedness in enabling her to have joy and peace in trusting to her Saviour, and in looking forward to be with Him when death should release her from her

sufferings. Her case was one which tended to strengthen my own religious faith.

The male patient, who was a native of Scotland, died in May last. Although his mind was much affected, and proved that he was insane, and had delusions on many subjects, yet it was most satisfactory to find that the knowledge of Scripture, which his countrymen so generally acquire, afforded him strong consolation during his severe illness. He was most grateful for my visits, and always evinced much thankfulness for my ministrations. I saw him a short time previous to his becoming, through weakness, insensible, in which state he remained some hours before death; and I have every reason to believe that he was trusting to the Atonement of Christ, and that he passed happily to his heavenly rest.

In taking a general view of the condition of the Asylum, in all its varied aspects, as a home for so large a number of our afflicted fellow-creatures, there is one important point for hearty congratulation. I beg to allude to the advance that has been made of late towards rendering your valuable Institution a large

domesticated family, in which all, whether Officers, Matron, Attendants, or Patients, are regarded with respect, consideration and kindness; and an earnest effort is mutually made by all for the happiness and prosperity of every individual.

In the prosecution of my own duties, I would especially acknowledge the kind assistance afforded me by Dr. BIGGS, the other Medical Officers, and by Mr. BRIDGLAND.

I would also respectfully express to yourselves my sincere thanks for the confidence you have invariably shewn me, and I trust, at all times, to enjoy the same.

With every prayerful wish for the blessing of our Heavenly Father to rest upon our united efforts for the prosperity of the Asylum,

I have the honor to be,

Gentlemen,

Your very obedient, humble Servant,

GEORGE STANHAM.

To the Committee of Visitors of the  
Surrey County Lunatic Asylum.

REPORT  
OF  
MESSRS. W. H. & M. SMALLPEICE.

---

GUILDFORD,

*9th February, 1865.*

DEAR SIR,

We beg to inform you, for the information of the Committee of the Visiting Justices of the County Lunatic Asylum, that we have, during the past year, made numerous enquiries into the settlements of the Lunatics in the County Asylum chargeable to the County, and have in five cases obtained sufficient evidence to justify us in applying for Orders of Adjudication. The following are the names of the cases, with the particulars of the Orders in each case:—

1. An Order on the Medway Union, in the County of Kent, in the case of Philip Henry Webb, a Criminal Lunatic, for the payment of 14s. a week for his future maintenance.

2. An Order on the Portsea Island Union, in the County of Southampton, in the case of John Cook, a Criminal Lunatic, for the payment of 14s. a week for his future maintenance.

3. An Order on the Parish of St. Mary, Newington, in the case of Harriet Harris, a Pauper Lunatic, for the payment of the sum of £25. 4s. 4d. in respect of her past, and 9s. a week in respect of her future maintenance.

4. An Order on the Tetbury Union, in the County of Gloucester, in the case of James Davis, a Pauper Lunatic, for the payment of the sum of £26. 3s. 10d. in respect of his past, and 14s. per week in respect of his future maintenance.

5. An Order on the Parish of Bermondsey, in the case of John Mitchell *alias* Smith, a Criminal Lunatic, for the payment of the sum of 9s. a week for his future maintenance.

In the first four cases the Lunatics were accepted without any appeal being made against the Orders, but in the case of Mitchell the Parish of Bermondsey appealed, and it appear-

ing that the evidence given by the father of the Lunatic when the Order was obtained was incorrect we were compelled to abandon the Order, but we are now in a position and intend shortly to apply for a fresh Order on the Parish of Saint Olave's, Southwark.

Among other cases we made enquiries into the settlement of a Lunatic named William Clarke, and clearly ascertained that he was settled in the Parish of Saint John, Hackney, but shortly before the day on which we had intended to obtain an Order of Adjudication, the Lunatic was discharged from the Asylum cured.

We have lately attended at the Asylum and taken the examinations of the Lunatics chargeable to the County, who had been admitted since our last visit and have since been engaged in making enquiries into their settlements, many of these Lunatics are natives of either Scotland or Ireland, who have gained no settlement in England, and who consequently must remain chargeable to the County; among the others there are cases in which we shall, no

doubt, be able to ascertain the settlements of the Lunatics, and hope, before long, to obtain sufficient evidence in several cases to enable us to apply for the necessary Orders.

We are, dear Sir,

Yours faithfully,

W. H. & M. SMALLPEICE.

Stephen Bridgland, Esq.

Clerk to the Committee of Visitors,  
County Lunatic Asylum.

REPORT  
OF THE  
CLERK TO THE COMMITTEE OF VISITORS  
OF THE  
SURREY COUNTY LUNATIC ASYLUM.

---

SPRINGFIELD,

25th February, 1865.

*To the Committee of Visitors.*

GENTLEMEN,

The Clerks to the Boards of Guardians of the several Unions and Parishes in the County of Surrey, have made their Annual Returns to the Committee of Visitors, as required by the 64th section of the Lunatic Asylums Act of Parliament (16 & 17 Vict. cap. 97,) and I have made an Abstract therefrom, which is hereto annexed, from which it appears that 1797 pauper patients are chargeable to Parishes, and 136 vagrant lunatics are chargeable to the County funds, making a grand total of 1933, they are described as follows, viz :—

In the County Asylum, Chargeable to Parishes . . . .	769
Ditto                      ditto      to the County..	135
Ditto                      ditto      to other Counties	11
	<hr/>
	915
In other County Asylums . . . . .	32
In Licensed Houses . . . . .	391
Vagrant in Licensed House . . . . .	1
In Workhouses . . . . .	490
Residing with Friends . . . . .	104
	<hr/>
Grand Total. . . . .	1933

The numbers returned in each year, commencing in 1849, are as follows:—

	Parish Patients	County Patients	Total.
In 1849 . . . . .	817	26	843
1850 . . . . .	907	39	946
1851 . . . . .	926	48	974
1852 . . . . .	977	66	1043
1853 . . . . .	1005	71	1076
1854 . . . . .	1132	70	1202
1855 . . . . .	1157	75	1232
1856 . . . . .	1181	71	1252
1857 . . . . .	1223	84	1307
1858 . . . . .	1303	104	1407
1859 . . . . .	1359	115	1474
1860 . . . . .	1486	117	1603
1861 . . . . .	1550	118	1668
1862 . . . . .	1655	160	1815
1863 . . . . .	1806	145	1951
1864 . . . . .	1818	141	1959
1865 . . . . .	1797	136	1933

I have the honor to be,

Gentlemen,

Your obedient humble Servant,

STEPHEN BRIDGLAND,

*Clerk to the Committee of Visitors.*

ABSTRACT OF THE RETURNS OF LUNATICS AND IDIOTS IN THE  
COUNTY OF SURREY, MADE BY THE CLERKS TO BOARDS OF  
GUARDIANS OF THE SEVERAL UNIONS AND PARISHES, IN PURSUANCE  
OF THE 64TH SECTION OF THE ACT 16TH AND 17TH VICT., CAP. 97,  
FOR THE YEAR 1865.

S. BRIDGLAND,

Clerk.

## PRESENT DIETARY OF THE SURREY LUNATIC ASYLUM.

DAYS.	BREAKFAST.	DINNER.	SUPPER.
Monday..	.. .. Cocoa, 1 pint, with Bread and Butter.	Boiled Beef, 7 oz., with vegetables, bread, and $\frac{1}{2}$ pint of beer.	Tea, 1 pint, with Bread and Butter.
Tuesday..	.. .. ditto	Baked Stew, with 4 oz. of meat for males, and $3\frac{1}{2}$ oz. for females, vegetables, bread, and $\frac{1}{2}$ pint of beer.	ditto
Wednesday ..	.. .. ditto	Meat Pie, containing 5 oz. meat for males, and 4 oz. for females, vegetables and beer as before.	ditto
Thursday ..	.. .. ditto	Baked Stew, &c., as on Tuesday.	ditto
Friday ..	.. .. ditto	Boiled Beef, &c., as on Monday.	ditto
Saturday ..	.. .. ditto	Boiled Mutton, 8 oz., vegetables, bread, and beer as before.	ditto
Sunday ..	.. .. ditto	Roast Beef, 8 oz. males, and 7 oz. females, with vegetables, bread, and beer as before.	ditto

The quantity of meat weighed out from the Stores amounts weekly for Male Patients to 2 lbs. 11 oz., and for Female Patients to 2 lbs. 8 oz., which is exclusive of bone.

The Male Patients who work in the garden and farm, as well as those employed as bricklayers, carpenters, painters, plumbers, glaziers, tailors, and shoemakers, and in the engine house, are allowed for luncheon, bread and cheese, with half-a-pint of beer, and in the afternoon half-a-pint of beer each; and the Females employed in the kitchen and laundry, bread and cheese, with half-a-pint of beer for luncheon, and in the afternoon half-a-pint of beer each. The sick throughout the Establishment are dieted at the discretion of the Chief Resident Physician.

STEPHEN BRIDGLAND, *Clerk and Steward.*
