# REPORT OF THE COMMITTEE OF VISITORS,

*Presented at Hilary Sessions for 1872.*

To Her Majesty's Justices of the Peace for the County of Wilts, in Quarter Session assembled, January 2nd, 1872 :—

The Report of the Visiting Justices of the Wilts County Lunatic Asylum :—

	MALE.			FEMALE.			TOTAL.		
Number of Patients in the Asylum									
January 1st, 1871.....	195			254			449		
	M.	F.	T.						
Admitted for the first time during the year.....	48	42	90						
Re-admitted during the year .....	12	5	17						
	<hr/>			60	47	107	<hr/>		
Total under care during the year.....	255			301			556		
Discharged or Removed :—									
Recovered .....	18	15	33						
Relieved .....	2	5	7						
Not improved.....	1	0	1						
Died .....	30	29	59						
	<hr/>			51	49	100	<hr/>		
Remaining in the Asylum 31st Dec., 1871, inclusive of 3 males and 2 females absent on Trial.....	204			252			456		

The Committee still indulge the hope that any further enlargement of the Asylum may be unnecessary.

#### THE MAINTENANCE ACCOUNT.

The reduction in the charge for patients from 8s. 2d. to 7s. 7d. per head per week, adopted by the Court on the recommendation contained in the last year's report, has produced an excess of expenditure above receipts to the extent of £632 : 5s. 5d.

The Committee are unwilling again to raise the weekly payment unless there is an evident necessity for doing so, and as there is still a balance in hand on this account, they recommend that the same rate of payment be continued for the present.

#### FIRST COST ACCOUNT.

The balance of £652 : 8s. 3d. at the expiration of the last year has been increased by receipts in excess of payments to the amount of £339 : 16s. 2d. There is now therefore £992 : 4s. 5d. available for future expenditure in additional buildings, or otherwise ; and, as the Committee do not think there is any present necessity for increased accommodation, they recommend that this balance be appropriated towards the payment off of £1,000 of the existing debt.

The Committee are glad to be able to report that the working of the new Steam Engine and Boiler is very satisfactory, and that a considerable saving of coal has been effected by the introduction of the latter.

A deficiency in the supply of water to the Asylum having been experienced, new borings and tunnelling have been made under the direction of the County Surveyor, who has no doubt they will secure a very sufficient additional supply at no distant date.

John Vines, the farm bailiff, having retired, from failing health, the Court of Quarter Sessions confirmed the recommendation of the Committee that a superannuation allowance of £52 a year should be made to him, and Charles Durnford has been appointed bailiff in his place.

The Committee conclude their report with the expression of their continued satisfaction with the management of the Asylum by the Medical Superintendent, and also their general approbation of the conduct and attention of the other officers and attendants of the Institution.

The usual Reports of the Medical Superintendent and the

Chaplain, and the Financial Tables of the Steward, will be attached to this Report ; and printed copies will be in the hands of Magistrates a month before the April Sessions.

M. WILKINSON,  
Chairman.

TWENTY - FIRST  
 ANNUAL REPORT  
 OF THE  
 MEDICAL SUPERINTENDENT.

After the lapse of another year the Medical Twenty-First Annual Report  
 Superintendent presents his Twenty-First Report,  
 as follows :—

During the year 1871, 107 cases have been ad- Numbers and Admissions.  
 mitted, being a somewhat smaller number than has  
 been reported for seven years past. Of these, 90  
 were of patients admitted for the first time, and 17  
 were re-admissions. Regarding the crowded state  
 of the male wards, it is unfortunate that the prepon-  
 derance of numbers, as during the preceding year,  
 still remains with the men ; the number of whom  
 was 13 in excess of that of women. The total Total Number treated.  
 number treated was 556 ; viz., 255 men and 301  
 women, or 15 fewer than in 1870, the decrease  
 being chiefly among patients of the female sex.

The average numbers resident have, however, Average Numbers.  
 been in excess of the preceding year. The follow-  
 ing table shews the progressive increase in these  
 numbers during the last four years.

## AVERAGE NUMBERS.

		Males.		Females.		Total.
1868	—	176·4	...	258·6	...	435·
1869	—	185·6	...	258·8	...	444·4
1870	—	193·8	...	252·7	...	446·5
1871	—	199·	...	255·5	...	454·5

The number under care at the beginning of the year was 449; there are now 456, of whom 5 are absent on trial. The numbers are one less than two years ago.

Crowded state  
of Wards.

In June last, the wards for men were again so crowded (there being 205 of that sex in the house,) that some remedy for the pressure seemed imperative. The Committee authorized the Superintendent, should the pressure continue, to remove to some Asylum of an adjoining county, where accommodation could be obtained, a certain number of the men. The numbers, however, gradually diminished, and the necessity for this measure was fortunately obviated. Had the case arisen, a certain number would have been sent to the County Asylum, near Dorchester, at a weekly charge of 12s. 9d. It must here be remarked that the necessity for avoiding the transfer to the Asylum of any male patients who may be susceptible of treatment in the Union houses, or at their own homes, remains exactly as it did a year ago.

Discharges  
and  
Recoveries.

The *recoveries* have been fewer than usual, reaching only the number of 33. Seven have been

discharged *relieved*, and one *not improved*, under order of transfer to the Bristol Asylum. The less favourable results of the past year are fully explained by the hopeless character of many of the cases brought to the Asylum, and by the larger proportion than usual of paralytic and epileptic patients. Two of the women reported relieved were discharged at the request of their friends, under the provision of the Act 16 and 17 Vict., c. 97, sec. 81; the relatives entering into an undertaking in writing that the patient shall be no longer chargeable to any Union, Parish or County, and shall be properly taken care of and prevented from doing injury to themselves or others.

The general health has on the whole been good; General Health. no epidemic, excepting a few cases of dysenteric diarrhœa having prevailed. Small pox, so prevalent in the Southern Counties, we are thankful to have escaped. As mentioned in the Nineteenth Report, this disease prevailed extensively in the Devizes district two years ago. Under these circumstances a general re-vaccination of the inmates has not been thought requisite, but would not be overlooked in case of a re-appearance of the disease in the neighbourhood.

The deaths remain somewhat above the average. Deaths and rate of Mortality. They were 59 in number, giving an annual mortality at the rate of 12.98 per cent. or rather more than one per cent. above the average of 20 years. Ten

of those who died were persons of 70 and upwards, none having attained the age of 80.

MEAN ANNUAL MORTALITY.	MALES.	FEMALES.	BOTH SEXES.
For the year 1871 ...	15·	11·3	12·9
For 20.35 years—1851-71*	14.8	9·7	11·7

**Causes of Death.**

Among the causes of death, Diseases of the Brain were, as during last year, especially prominent. Altogether 27 or well-nigh half, were attributable to this class, viz., 3 to Apoplexy, 9 to ordinary forms of Paralysis, 2 to General Paresis, 7 to Epilepsy, and 6 to other forms of Cerebral Disease. Pulmonary Consumption, many cases of which were obscure or even latent, proved fatal to as many as 12 persons. The only deaths in the zymotic class, were one case of Erysipelas, and one of Dysentery.

**Inquests.**

One death was the subject of investigation by the Coroner. The case was that of a poor idiot, aged 20, an inmate of nearly eight years standing. His childish and disorderly habits rendered him an object of dislike to one of the other patients, who one day before breakfast, when the attendant's back was turned, attacked him with much violence. The injuries appeared disproportionate to the sad result in the autopsy showing that death had resulted from "shock and injury to the brain and Spinal Cord, and not from any traumatic mischief. The verdict

\* Viz., from the opening of the Asylum, Sept. 19th, 1851, to the end of the year 1871.

of the Coroner's Jury was—"That the deceased came by his death from injuries inflicted by \* \*, not being of sound mind, memory, and understanding, but lunatic and distracted, not felonious or by malice aforethought." The case was further investigated in full, by the Visitors ; but nothing was elicited to show that the deplorable result could have been prevented by any ordinary precautions.

Three accidental fractures form the list of casual- Casualties. ties. One of the clavicle, and another of the *tibia*, were in epileptics, and directly or indirectly connected with paroxysms of the disorder under which they suffer. The third, a fracture of the *humerus*, appears to have occurred independently of any external violence. It happened during the night, the patient seeming to have turned over on her arm in her sleep. She is an idiot, in her 53rd year, and has suffered frequently from rheumatic gout. It is probable that the bones are atrophied, and consequently abnormally fragile.

In March last, a patient admitted in the previous Birth of Child. August gave birth to a female child. At the expiration of about six weeks, and after its successful vaccination, always resorted to in these cases, the child was removed by the parochial authorities in good health.

There have been half-a-dozen escapes, all of men. Escapes. Five of the number were brought back after periods

varying from two to five hours respectively. The two which last occurred, being the case of two imbecile boys, are noticeable from the fact of their having assisted each other in climbing the walls of the airing court, during the time of service on a Sunday afternoon. Another escape claiming remark is that of a man who, after more than four years residence, had very much improved, without arriving at such a state of reasonable temper as is usually required to justify confidence in apparent recovery. He succeeded in reaching his home at Wilton, and at the urgent request of his relatives and former employer, was allowed to remain on trial for a period of three months, which has not yet expired.

Improvements.

Engine and  
Pumps.

The past year, like that which preceded it, has been one of great labour to the Engineer. The new Engine, and Pumps connected with it, referred to in the last report, were completed and fixed by the engineer, assisted only by the smith; and were brought into satisfactory working order in April. An additional well, required for this engine, was sunk to a depth of sixty feet by the side of the old one. As a result of the improved principle of construction of the new engine and pumps, the consumption of coal has been reduced by one half. The old engine has been put into thorough repair, and a new triple pump has been substituted for the old one. The old engine will be worked alternately with the new.

There being some failure in the water supply, <sup>Water Supply,  
Wells.</sup> and consequent inconvenience on the days for bathing, the Committee of Visitors, on the advice of the County Surveyor, have caused two additional shafts to be sunk, 55 feet deep and 50 yards apart, connected by tunnelling three feet wide and two feet high, which has been carried 140 yards, and is capable, if requisite, of extension to 250 yards. Springs of considerable yield have been already reached, and an adequate supply of water, it is supposed, will be obtained without carrying the heading very much farther. The average yield of water has been 20,000 gallons of water *per diem*; and it is confidently anticipated that the desired quantity of 30,000 will be shortly obtained. The average daily supply for each inmate, hitherto about 40 gallons, will thus be raised to the large amount of 60 gallons per head.

The Gas Works have been almost entirely re- <sup>Gas Works.</sup> modelled and rebuilt, on a much enlarged scale. They were brought into working order at the end of the summer; after an interval of only a few weeks, during which the necessary lighting of the establishment was with candles. The completion of these works has been purposely deferred until another year. The new Retorts are of much enlarged size and improved form; and when complete will be seven in number, in place of five. The "patterns" for the Gas Retorts, and also those

for the new Engine, were made in the Carpenter's shops, according to the engineer's sketches, at a much lower cost than they could have been made elsewhere.

Hot Water  
Tank.

A new Iron Tank of 200 gallons has been placed alongside the old one, in order to ensure a better supply of hot water to the Laundry. It is made of wrought iron plates, put together and riveted chiefly by one of the patients, under the Engineer's direction.

Engineer's  
Works.

The improvements referred to in this and the two preceding Reports extend over nearly the whole of the engineer's works, which have by degrees been replaced by improved fittings and machinery, and that at a cost very much less than was incurred for the same works in the first instance.

Officers,  
Attendants,  
and  
Servants.

The staff of Officers remains the same; and the Medical Superintendent believes that the administration of the Establishment in its several departments continues to be very satisfactorily conducted. The duties of the attendants and servants have for the most part been properly performed; but one male attendant has been discharged for irregularity of conduct; and another, for misbehaviour towards a patient, has been punished by what is practically a fine; namely, a postponement of the date for the increase of his wages.

Superannua-  
tion of Bailiff.

The Farm Bailiff, who had filled that situation

since the opening of the Asylum in 1851, being incapacitated by age and illness, resigned; and a superannuation allowance of £1 per week has been awarded to him. His successor, who entered upon his post at Michaelmas last, is likely to prove an efficient servant.

The weekly charge still remains at the low rate <sup>Weekly Charge.</sup> of 7s. 7d. Whatever inference may be drawn, it is to be observed that, with one exception, this is as low a weekly rate as in any of the fifty County and Borough Asylums of the kingdom. That for Dorset (6s. 10d $\frac{1}{4}$ ), is alone lower; those at Chester and Lancaster Moor are at the same rate. The others range from 8s. to 15s. per week.

The Medical Superintendent concludes his Re- <sup>Conclusion.</sup> port with the reiterated expression of his obligation to the Committee of Visitors, for their continued support and confidence.

(Signed)

JOHN THURNAM, M.D.,

Medical Superintendent.

R E P O R T  
OF THE  
C H A P L A I N .

*To the Chairman and Visitors of the Wilts County  
Lunatic Asylum.*

GENTLEMEN,

It may be felt and said that in making a report year by year there is little room for variety.

It has been my endeavour to perform the services of my office with as much punctuality and regularity as possible. I am thankful to be able to say that, neither from illness nor from any other cause, has the daily prayer been omitted or interrupted for a single day. On referring to the Chaplain's book, it will be found that there was no second service on Sunday, the 13th of August. This fact is to be accounted for by the circumstance that, being delayed by a violent thunder-storm till after the appointed time of service, and the patients who had assembled having been dismissed to their wards, it was not thought desirable to re-assemble them.

The Holy Communion has been administered four times as usual in the course of the past year, at which the average attendance of patients is five. Their behaviour on these occasions is orderly and devout. Indeed, the general conduct during the services in chapel may be an example to many congregations outside these walls.

I think that the musical portion of our services gradually improves, and is enjoyed and appreciated by those present.

I remain, Gentlemen,

Yours very faithfully,

H. T. PURRIER, Chaplain.

REPORT  
OF THE  
COMMISSIONERS IN LUNACY.

WILTS COUNTY ASYLUM,

Wednesday, 2nd August, 1871.

Since this Asylum was visited, on the 8th of last November, 83 patients have been admitted, 48 males and 35 females ; 24 have been discharged, 12 of each sex, of whom all but 1 of each sex were recovered ; and in the same interval there have been 47 deaths, 27 males and 20 females. One inquest has been held, in a case of which the circumstances were considered at Whitehall, when a youth received a shock to the brain from injury by a fellow patient in the airing court ; and another inquest will be held in the case of a man found dead in his bed this morning. In the other deaths there does not seem to have been anything unusual, the principal causes having been Paralysis (of which there were 15 instances), Epilepsy (of which there were six), Phthisis, diseases of the brain, lungs, and heart, and exhaustion. The proportion of paralysed and infirm patients is large here, but otherwise the health is good at present, and not many were seen by us in bed ; 16 males and 20 females being entered as taking medicine. Post mortem examinations (notice being also so given as to obtain the consent of relatives), have been made in eleven cases since our colleagues were here.

The numbers in the Asylum to-day are 451, 198 males, and 253 females, and there are besides 5 patients, 3 males and 2 females, absent on trial. Generally they were free from excitement, and the clothing in both divisions (but especially in the

women's) was good ; the objectionable feature being the number of locked dresses among the men. An advance has been made since the last visit towards improvement in the least favourable part of the ward accommodation, by lowering the windows in both the wards set apart for the refractory ; and the effect has been so good, and was spoken of so gratefully to-day by both attendants and nurses, that we hope it may lead to the adoption of recommendations, not less earnestly made in these entries, for assimilation of these wards in other respects, by more furniture and introduction of more objects of cheerfulness, to the rest of the Asylum.

We had again to notice at this visit the remarkable cleanness and tidiness of all the wards, galleries, dayrooms, and dormitories ; we had only to regret the too general absence of varied and cheerful colours from the wards. Some of the day rooms are papered, and the effect is such that we could have wished to see them everywhere. We ought to add that there is a good supply in both divisions of matters interesting to the inmates, such as birds, plants, pictures, and occasional in-door games ; nor have we to remark on the absence of cheap illustrated papers, or amusement of that kind, of which there is a fair amount. We had to object here and there to some taint in the atmosphere arising from the number of unfavourable cases ; but keeping in mind this latter circumstance, it was even matter of surprise to us connecting with it the other fact that the proportion generally of attendants to patients is less here than in other asylums, to observe the cleanliness and good order of the dormitories. In No. 3, first floor, on the women's side, there are 27 inmates, of whom 14 are of objectionable habits, 8 being also epileptic ; yet these patients, 12 of whom last night were either wet or dirty, have only one nurse. It is to be added, as an almost necessary incident, that straw beds continue to be used here for such cases, and that this mode of treating them has a tendency rather to prolong than to cure such habits. In this division alone there are upwards of 30 straw beds, and we found some insufficiently filled. Other

wards are in the same position, receiving only, as No. 3 does, occasional help from a supernumerary nurse; but we think it objectionable that patients of this class and number should be left as a rule under charge of only one person.

The lavatories and bathrooms were all in proper order, but we think that the patients should be supplied with brushes as well as combs, and we should much like to see more washing materials placed in the large dormitories. It seems to us important also that the gas brackets should be removed from the single sleeping rooms, experience having shewn (especially in some recent cases at other Asylums) how dangerous they are, and how much better such rooms are lighted by a properly protected burner over the door communicating with the corridor. There is as yet no change in the bathing arrangements, as many as two regularly, and very often as many as four being placed in the same water; but improvements are about to be effected in the water supply which will lead we trust to the most desirable change of giving fresh water to each patient.

Adverting to matter remarked upon at the last visit, we find that the tailor's shop has not yet been enlarged, much grave inconvenience being incident to its very limited size; nor has any room been opened to give easy employment to the many imbeciles here who could be made useful in taking to pieces and restuffing mattresses; nor has the washhouse been enlarged; but the bath keys are now kept by the Head Attendant and Matron. We mention the fact that no notice was taken here of the request conveyed by the circular on the small pox issued by the Commissioners, none of the patients having been vaccinated in consequence. As to matters of ordinary statutory enquiry, there is not much to say. The records of employment show on the male side 38 working on the land, 14 in the shops, and 28 in house work; while in the other division, 58 are engaged in needlework, 41 in the laundry, and 45 in housework and the kitchen. Taking exercise beyond the grounds, there seems to be but from 25 to 30 of the men once

or twice a week ; and from 100 to 130 of the women once a week. The attendance at chapel averages 205 of both sexes on Sundays and 185 on week days. The occasional dances, tea parties, and cricket parties, are said to be continued. The seclusion since the last visit has not been considerable in regard to instances on the female side or to persons in the male division, 14 women having been secluded on 17 occasions, and 9 men on 63 occasions. The number of beds reported as vacant at present are 6 on the male side, and 27 on the female side ; but we should say, from what we observed of the crowding of some of the dormitories, that this estimate is open to doubt, and we think the time has arrived when the question of the necessary enlargement of the Asylum will have to be considered.

Of the condition generally in which we have found it to-day, and of the care, kindness, and efficiency that characterize its management and supervision, we leave with a very favourable impression.

JOHN FORSTER.  
JAMES WILKES.

Total . . .	8	4	12	4	1	5

TABLE 6.—SHEWING THE NUMBERS ADMITTED DURING EACH MONTH.

MONTHS.	Male.	Female.	Total.
January . . . . .	4	1	5
February . . . . .	10	6	16
March . . . . .	3	10	13
April . . . . .	3	2	5
May . . . . .	9	6	15
June . . . . .	6	3	9
July . . . . .	3	2	5
August . . . . .	2	4	6
September . . . . .	7	4	11
October . . . . .	5	3	8
November . . . . .	5	1	6
December . . . . .	3	5	8
Total . . . . .	60	47	107

TABLE 7.—SHOWING THE CONDITION IN REFERENCE TO EDUCATION.\*

EDUCATION.	Male.	Female.	Total.
Of Fair Education . . . . .	...	...	...
Can Read and Write . . . . .	26	27	53
Can Read only . . . . .	10	11	21
Can neither Read or Write . . . . .	8	3	11
Unknown. . . . .	4	1	5
Total . . . . .	48	42	90

\* The 17 re-admitted cases having been once given, are not repeated in this Table. The same applies to Tables 8, 9, 10, and part of 11.

TABLE 8.—SHEWING THE OCCUPATION.

OCCUPATION.	Male.	Female.	Total.
Agricultural and other Labourers; their Wives and Children . . . . .	24	17	41
Farmer, Son, Wife, and Bailiff . . . . .	3	1	4
Innkeepers . . . . .	2	...	2
Shoemaker's Wife, Widow and Daughter . . . . .	...	3	3
Groom's Wife, Gamekeeper's Wife. . . . .	...	2	2
Railway Gate Keeper and Engine Driver . . . . .	2	...	2
Plumber and Glazier . . . . .	1	...	1
Weaver, and Cloth Workers . . . . .	1	3	4
Clerks . . . . .	2	...	2
Carpenter, Sawyer, and Trunk Maker . . . . .	3	...	3
Masons (2); Brickmaker's Wife (1) . . . . .	2	1	3
Engine Fitter, and Smith, and Wives . . . . .	2	2	4
Discharged Soldiers . . . . .	3	...	3
Policeman . . . . .	1	...	1
Domestic Servants . . . . .	...	9	9
Laundress (1), and Needlewomen (3) . . . . .	...	4	4
Pedlar . . . . .	1	...	1
No occupation . . . . .	1	...	1
Total . . . . .	48	42	90

TABLE 9.—SHEWING THE RELIGIOUS PROFESSION.

PROFESSION OF RELIGION.	Male.	Female.	Total.
Church of England . . . . .	36	30	66
Roman Catholics . . . . .	1	1	2
Independents. . . . .	2	2	4
Baptists . . . . .	2	5	7
Wesleyan Methodists . . . . .	2	2	4
Primitive Methodists . . . . .	1	1	2
Plymouth Brethren . . . . .	1	1	2
Unknown . . . . .	3	...	3
Total . . . . .	48	42	90

TABLE 10.—SHEWING THE CONDITION IN REFERENCE TO MARRIAGE.

CONDITION IN REFERENCE TO MARRIAGE.	Male.	Female.	Total.
Unmarried . . . . .	23	15	38
Married . . . . .	21	22	43
Widowed . . . . .	4	5	9
Total . . . . .	48	42	90

TABLE 11.—SHEWING THE AGES AT THE TIME OF THE FIRST ATTACK, AND UPON ADMISSION.

AGE.	Age at First Attack.			Age at Admission and Readmission.		
	Male.	Female.	Total.	Male.	Female.	Total.
Under 5 years . . . . .	6	2	8	...	...	...
From 5 to 10 years . . . . .	...	2	2	1	...	1
„ 10 to 15 „ . . . . .	1	...	1	1	...	1
„ 15 to 20 „ . . . . .	2	3	5	1	4	5

„ 60 to 70 „ . . . . .	4	3	7	7	3	10
„ 70 to 80 „ . . . . .	2	4	6	4	6	10
„ 80 to 90 „ . . . . .	...	...	...	...	...	...
Unknown . . . . .	...	...	...	...	...	...
Total . . . . .	48	42	90	60	47	107

TABLE 12.—SHEWING THE DURATION OF THE DISORDER WHEN ADMITTED.

DURATION OF DISORDER WHEN ADMITTED.	Male.	Female.	Total.
FIRST CLASS.—Cases of the first attack, of not more than three months' duration . . . . .	6	16	22
SECOND CLASS.—Cases of the first attack, of more than three, but not more than twelve months' duration . . . . .	11	8	19
THIRD CLASS.—Cases not of the first attack, but of not more than twelve months' duration . . . . .	14	7	21
FOURTH CLASS.—Cases of the first or not first attack, and of more than twelve months' duration . . . . .	29	16	45
Total . . . . .	60	47	107

TABLE 13.—SHOWING THE PROBABLE CAUSES OF THE DISORDER, SO FAR AS ASCERTAINED.

CAUSES.	Male	Female	Total
<b>PREDISPOSING CAUSES.</b>			
Hereditary Predisposition ascertained . . .	11	13	24
Congenital Weakness of Mind . . . . .	7	3	10
Imperfect vision . . . . .	1	1	2
Nervous Temperament . . . . .	2	.	2
Advanced Age . . . . .	4	5	9
Hysteria . . . . .	.	2	2
Prolonged Lactation . . . . .	.	1	1
Feeble Health . . . . .	6	6	12
Intemperate and Irregular Habits . . . . .	7	2	9
Syphilis . . . . .	1	1	2
Want of Occupation . . . . .	3	1	4
Railway Journey (1) & Christmas Excitement (1)	.	2	2
Total . . . . .	31	24	55
<b>EXCITING CAUSES.</b>			
<b>PHYSICAL.</b>			
Injury of the Head . . . . .	5	1	6
Sunstroke . . . . .	2	.	2
Paralysis (Apoplexy) . . . . .	3	1	4
General Paresis . . . . .	4	1	5
Epilepsy . . . . .	7	1	8
Fever . . . . .	1	.	1
Acute Rheumatism . . . . .	1	2	3
Disorder of Menstruation . . . . .	.	1	1
Puerperal Disorders . . . . .	.	3	3
Stoppage of Discharge . . . . .	1	.	1
Intemperance (Tobacco, 1) . . . . .	15	2	17
Nursing and Loss of Rest . . . . .	.	2	2
<b>MORAL.</b>			
Fright . . . . .	2	1	3
Disappointed Affections . . . . .	.	1	1
Fear on Marriage . . . . .	1	.	1
Grief for Death of Relatives (Shipwreck, 1)	1	1	2
Disappointed Hopes . . . . .	.	1	1
Other Domestic Troubles—Desertion, &c. .	.	2	2
Distress and Pecuniary Reverses . . . . .	1	1	2
Anxiety from Unjust Accusations . . . . .	.	3	3
Religious Excitement . . . . .	.	1	1
Remorse . . . . .	1	.	1
Total . . . . .	45	25	70
NO CAUSE ASCERTAINED . . . . .	1	1	2

TABLE 14.—SHEWING THE FORM OF MENTAL DISORDER ON ADMISSION.

FORMS OF DISORDER.						Male	Female	Total
