THE

Fifty-First Annual Report

OF THE

COMMITTEE OF VISITORS

OF THE

COUNTY AND CITY OF WORCESTER LUNATIC ASYLUM.

Presented to the County Council of the County of Worcester and to the Town Council of the City of Worcester, pursuant to the 190th Section of the Lunacy Act, 1890.

1.—The Committee of Visitors of the County and City Lunatic Asylum beg to present to the County and City Councils their report on the affairs of the Asylum for the year ending the 31st December, 1903.

2.—The constitution of both the Medical and House Staffs remain as they were at the time we presented our last Report. We are glad to be able to express our approval of the manner in which Mr. Braine-Hartnell, our Medical Superintendent, and the gentlemen acting under him, as well as the House Staff and Officers of the Asylum generally, discharge the duties of their respective positions. We notified in our last Report the then recent appointment of the Rev. T. J. L. Davies as Chaplain, who took up his duties at the commencement of the year. Mr. Davies has discharged his duties to our complete satisfaction.

3.—The erection of the four additional Cottages for the accommodation of Asylum Attendants, the completion of which we reported to the Councils in the month of March last, has proved, as we anticipated would be the case, a great convenience, enabling us to have a larger number of our Attendants living in the immediate neighbourhood of the Asylum, and where they are more accessible at any time of emergency. We have lately been able to secure three other Cottages, which we are renting from Lord Coventry, and from whom also we have taken some additional land which lies adjacent to the Asylum, and which our Agricultural Sub-Committee considered it desirable we should add to the Farm.

4.—We have held the usual monthly meetings; the House Committee have also met from time to time as required by the Lunacy Act, 1890, when every Patient in the Asylum has been seen by some members or member of the Committee, and every opportunity given to the Patients not only to apply for his or her discharge, but to prefer any complaints which they may have to make. The Engineering and Agricultural Sub-Committees have also met as occasion arose.

5.—The following is a table of the attendances of the Committee:—

	General Meetings.	House Committee Meetings.
John Brinton, Esq. (Chairman)	8	 5
James Best, Esq	10	 6
Rev. H. W. Coventry	12	 6
Harry E. Dixey, Esq., M.D.	9	 5
G. W. Grosvenor, Esq	8	 1
Major W. C. Hill	7	 5
Gen. Sir Chas. C. Johnson, G.C.B.	5	 2
C. Pelham Lane, Esq	11	 3
E. V. V. Wheeler, Esq	3	 0
G. Edward Wilson, Esq	6	 2
Rev. J. B. Wilson	10	 4
The Mayor of Worcester (C. J.		
Whitehead, Esq.)	2	 0
Albert Buck, Esq	10	 3
Ernest Day, Esq	7	 3
John Millington, Esq	7	 1

The absence of the Chairman from several of the Meetings was accounted for by his recent serious illness. Mr. G. E. Wilson was nominated as a member of the Committee at the County Council Meeting held in March last in the place of Mr. A. R. Hudson, who then retired.

6.—Deputations from the Boards of Guardians of the Unions within the County and City of Worcester having Patients in the Asylum have visited it during the year. The reports of those Deputations as made to their Boards express the utmost satisfaction not only with the manner in which the Patients are treated, but with the general management of the Asylum.

7.—We have been compelled to raise the rate of maintenance for Patients to 8s. $5\frac{1}{2}d$. per head per week.

8.—We have had some difficulty, and have been put to some considerable cost, in remedying a leakage which occurred in the new Reservoir from which we draw our main supply of water to the Asylum, but we are glad to say the steps we have taken to remove this defect will, we think, prove effectual.

9.—Two of the Commissioners in Lunacy visited the Asylum on the 20th July last. A copy of their Report will be found, as usual, in the Appendix (Schedule III.). There are one or two points in that report upon which we wish to make a few observations.

Your Committee, while quite in accord with the opinion of the Commissioners as to the necessity of reflooring some of the Wards and plastering the rough walls, would point out the impossibility of such work being efficiently carried out at once owing to the crowded state of the Asylum (a matter to which the Commissioners themselves advert), but which will of course be relieved when the new County Asylum at Barnsley Hall is completed. With regard to the sanitary arrangements which the Commissioners condemn, your Committee, while agreeing that they may not be quite up to the latest modern ideas, do not admit that in the respects mentioned by the Commissioners they are in "a very insanitary condition." Alterations have been effected, which we hope may meet the Commissioners' views on this subject. The erection of an Isolation Hospital for the treatment of infectious diseases has for some time past engaged the attention of your Committee, but difficulties have arisen with regard to a site for such an Hospital, there being no land belonging to the Asylum upon which one could be fittingly erected as it would not be desirable to place it in contiguity to the Asylum. At present cases of infectious diseases are isolated at Broadfield's Farm, which your Committee rent from the Earl of Coventry, and the means there provided have so far proved sufficient when any cases needing isolation have trisen. The provision, however, of a more adequate Isolation Hospital for such cases still engages the attention of your Committee.

Your Committee have carried out a system of Electrical communication from the various Wards to the Porter's Room in the main building for use in case of fire, and they believe that, with the provision previously made and approved by the County and City Councils to meet such a disaster as a fire occurring in any part of the Asylum, means are afforded by which a fire might not only be kept in check, but the Patients and Attendants would be afforded the means of escape and safety.

* With regard to the appeals for their discharge made to the Commissioners by the Patients, your Committee would observe that it is not surprising that a large number of Patients, indeed the greater majority of them, should consider themselves improperly detained in the Asylum, and complain that they are not discharged. Your Committee fully feel the responsibility which is thrown upon them in this respect, not only as affecting the Patients themselves, but also the public at large, and they desire to say that in addition to considering very carefully every application, either directly or indirectly, made by a Patient for his or her discharge, the members of the House Committee, who, as already stated, see every Patient in the Asylum on the occasion of their statutory Meetings, give their most careful attention to any application for discharge or any complaint which may be addressed to them; and your Committee constantly give individual Patients the opportunity at their monthly Meetings of personally

addressing any such applications or bringing forward any complaints. Your Committee are naturally most anxious not to detain in the Asylum any Patient who is fit to be discharged or can go out upon trial, and they believe no single Patient is detained in the Asylum who should be allowed to go out.

10.—The accounts of the Asylum for the year ending the 31st March, 1903, were audited by Mr. W. D. Easterby, the Local Government Board District Auditor, in the month of October last, and his report thereon will be found in the Appendix (Schedule IV.).

11.—The following Table shows the number of Patients in the Asylum at the last meeting of the House Committee in each of the following years :—

	Male.	Female.	Total.
1898	 490	 624	 1,114
1899	 515	 635	 1,150
1900	 527	 638	 1,165
1901	 527	 654	 1,181
1902	 526	 685	 1,211
1903	 524	 626	 1,150

The above numbers do not include 14 Female Patients at the end of the year 1903 remaining in the Derby County Asylum, 15 Female Patients in the Northampton Asylum, and 15 in the Leicester Borough Asylum.

12.—We append to this Report the following :---

I.-Chaplain's (Rev. T. J. L. Davies) Report.

II.—Roman Catholic Chaplain's Report.

III.—Report of the Commissioners in Lunacy.

IV.-Report of Auditor of Local Government Board.

V.-Table showing state of Mortgage Debt.

JOHN BRINTON,

CHAIRMAN.

Powick,

1st February, 1904.

CHAPLAIN'S REPORT, 1903.

SCHEDULE I.]

WORCESTER COUNTY AND CITY LUNATIC ASYLUM,

JANUARY 1st, 1904.

MR. CHAIRMAN AND GENTLEMEN,

It is with pleasure that I submit this my first Annual Report to you, as I have found my duties and surroundings, in spite of what one generally hears to the contrary, of an interesting and encouraging nature; and much of this encouragement I have received from the work done by my predecessor.

The Services have been regularly held and well attended throughout the year; in the Chapel on Great Festivals, on Sundays at 10 a.m. and 3 p.m., and on Wednesdays at 10.30 a.m.; in the Recreation Room on all other days at 8 a.m.; and in the Centre and Annexe Infirmaries on alternate Sundays at 11 a.m.

The Holy Communion has been celebrated twice each month—on the second Sunday for the Patients, and on the fourth for the Staff, as well as on the Great Festivals; and there have been within the eleven months 700 Communious.

Our Harvest Thanksgiving Service was held on October 18th, when the Rev. W. Sweet-Escott, Rector of Leigh, preached a sermon full of interest and consolation, and so full of appreciation were his hearers that they described it as "too short." While dwelling upon the number of services, I wish, as a newcomer, to record my impressions of the worship and worshippers. I have never outside Wales heard services more heartily rendered in prayer and song, which emphasizes the wisdom of always choosing congregational music, nor observed better attention paid to the sermons than by the Patients; and another striking fact, that notwithstanding their being such creatures of impulse and often noisy without, as soon as they enter the Chapel they become amenable to good order and decorum. It is singularly exceptional to have interruption or disturbance. Indeed, their reverent demeanour and remarkable stillness make it a pleasure to minister to them. Our choir, too, most regular at the practices and ably led by Mr. Bubb (Deputy Superintendent), have rendered us invaluable help; as have the artistic decorations at the Great Festivals in another sense.

I have attended daily for the purpose of Pastoral Visitation, having had special regard to the sick, and aimed at a thorough knowledge of everyone, except, of course, the utterly unintelligent, even at a cost of seeing them less frequently; and I have always found them glad to receive human sympathy in their troubles, to seek help in their spiritual difficulties, and to value instruction in religious truths. However, the most agreeable, perhaps, have been the visits paid to those Patients about to be discharged; and since your Committee in July last approved that I should communicate with their respective clergymen, I have written about 70 letters, most of which have been gratefully acknowledged.

During the year 86 Patients have died, 50 of whom were buried in our Cemetery, all, with the exception of one (a Roman Catholic), according to the rites of the Church of England. The rest were removed by their friends for burial elsewhere.

The Library has been carefully used and appreciated by Staff and Patients alike, over 1,100 volumes having been issued. But during the latter months the demand has lessened and a call made for new books. Still, I hope with the 57 newly-purchased books the interest will revive, especially since reading conduces to kill time and divert thought. This decrease in the demand may be accounted for that the number of books total only 1,256, out of which the bookcases in the several wards have to be filled, and these books are changed every two months.

The stock of Prayer Books, Hymn Books, and Bibles allowed for the Wards have been supplemented by 157 Prayer Books, 133 Hymn Books, and 38 Bibles. CRICKET.—Owing to the inclement weather we played but 11 out of the 14 arranged matches, two of which we lost. We scored 889 runs to 480 against us.

These matches provide healthy recreation and diversion, and take away from our life much of that monotony so injurious to energy and robustness.

The New Pavilion has added much to our comfort.

I wish to record my appreciation and gratitude for the courtesy and kindness extended to me and my office by the Medical Superintendent and Staff.

I remain,

Your obedient Servant,

T. J. L. DAVIES,

Chaplain.

To the Committee of Visitors,

Worcester County and City Asylum.

[SCHEDULE II.]

ROMAN CATHOLIC CHAPLAIN'S REPORT.

THE PRESBYTERY, CALLOW END, NEAR WORCESTER,

JANUARY 2, 1904.

MR. CHAIRMAN AND GENTLEMEN,

I have the honour to submit to you my Report for the past year.

A Service has been held on all the Sundays throughout the year for the benefit of the Roman Catholic inmates in the Chapel set apart for this purpose. On an average about 28 Patients were present.

A Mass has been said once a quarter during the same period, and such Patients as were capable of receiving the Sacraments were duly prepared the day before, so that they have been able to receive Holy Communion at the Mass.

I have arranged, with the permission of the Medical Superintendent, to say Mass once a month in the future, and, if possible, on a Sunday.

Each week I have visited all the male and female patients alternately, and have, to the best of my ability, helped them with advice suitable to their condition.

When I have received notice from the authorities, I have at all times visited those who were dangerously ill and prepared them for death.

I beg to tender my sincere thanks to the Medical Superintendent, the Assistant Medical Officers, and the Staff for every help in the discharge of my duties.

I have the honour to be, Gentlemen,

Your obedient Servant,

W. OSMUND KNIGHT,

Roman Catholic Chaplain.

To the Committee of Visitors, County and City Asylum, Worcester.

[SCHEDULE III.]

REPORT OF COMMISSIONERS IN LUNACY.

COUNTY AND CITY OF WORCESTER ASYLUM,

20тн Јилу, 1903.

We have to-day visited this Asylum and inspected the Wards and Dormitories.

The Patients at present on the books are 1,181, viz.: 538 Males and 643 Females. Of these we saw 1,159. Of the rest, five Males were away on trial and two boys in the Isolation Hospital; five Females were in the Isolation Hospital, and 10 away on trial. We found all the rooms and dormitories clean and in good order, as also the beds and bedding. The Patients' dress was neat and varied, and there were no complaints as to their treatment.

Different dinners were supplied in the Central building and the Annexe. In the former a dinner of pressed mutton with bread and rice pudding was good and substantial; that in the latter of rice, hash with bread, was also of a substantial character. Some of the floors are polished; others are in a slow, but gradual progress in that direction. Several urinals We strongly urge their abolition and the are still in use. reconstruction of several of the sanitary annexes, which are in a very insanitary condition and far below the standard of similar Asylums throughout the country. We also recommend that the unplastered walls should be plastered, and the scoured floors be forthwith taken in hand and rendered impermeable to moisture. The Day Rooms and Dormitories on both the Male and Female sides were in many cases distinctly overcrowded, leading to noise and excitement. Improvements have, however, been carried out since the last visit of the Commissioners. The external iron staircases for the Dormitories, F.D. 6 and M.D. 6, have now been delivered, and will shortly be be completed.

Four new Cottages for the Male Attendants were occupied in November last. Thirteen external doors have been made to open outwardly. All exit doors are now tested fortnightly, and Patients are exercised in descending the exit stairs.

A fire alarm bell has been fixed connecting the Central Building with the Annexe, but there are no fire alarms in the Wards. Alternative exit doors have been provided in A and Sick Room Dormitories. Some Wards are still without bookcases and some without a sufficient supply of books and papers. Several Patients appealed to us for their discharge. These we referred to the Committee, who go through the wards on their statutory visits every two months. We submit for the consideration of the Committee whether it would not be desirable for the Patients to have a more frequent opportunity of laying their statements before them in person.

Since the last visit in June, 1902, 277 Patients have been admitted; 170 have been discharged or removed, of whom 102 were recovered, and 109 have died. The percentage of recoveries on admissions in 1902 was 39.5; that of deaths on the average number resident in 1902 was 9.7. The Epileptics at present are 18 per cent. The General Paralytics 1.50. The actively suicidal are 22. Patients whose beds were reported wet last night were only 2.4 per cent. Those usually attending Chapel are 50 per cent. There are 51 Roman Catholics, for whom a Priest conducts services at a stipend of £52 per annum, and is a frequent visitor to the Wards. Those usually attending the associated entertainments are 52 per cent. Those usually walking out beyond the Asylum are 47 per cent., and those beyond the Airing Courts are 32 per cent. Those confined to the Airing Courts are the somewhat excessive proportion of 21 per cent. Those usefully employed in and about the Asylum are in the proportion of 63 per cent. of the men and 67 per cent. of the women.

The deaths which have occurred since the last visit have been due to natural causes in all but one instance, that of a man who swallowed a piece of bone, which caused hemorrhage, from which he died. In this case the only inquest was held. General Paralysis accounted for 8.2 per cent. of the deaths; Phthisis for the large proportion of 21 per cent., and Dysentery for the excessive and unusual proportion of 16 per cent, while Erysipelas, Measles, and Scarlet Fever each caused one death.

Post-mortem examinations were made after intimation to the relatives accompanying the notice of death in 78 per cent of the total deaths. In 10.6 per cent. bed sores were present, as also in two patients in bed in the Wards.

In these we found only 42 patients in bed, but six were suffering from Dysentery, and two male children, five female Patients, and two Nurses were undergoing treatment for Scarlet Fever in the Isolation Cottage.

The general health of the patients appeared to be good, but we cannot describe the sanitary condition of the Asylum as at all satisfactory, for there has been 17 cases of Scarlet Fever, one of Erysipelas, seven of Measles, and no less than 109 of Dysentery. The cases of Scarlet Fever and Dysentery have been spread over a considerable period, and point to continuing sources of infection, to which the rough, unplastered walls, scoured floors, and insanitary Annexes cannot fail to be seriously contributory.

As the cases of Scarlet Fever occurred in both sexes the Farm Cottage, which is for one sex only, was inadequate, and the females had to be accommodated in a Dormitory in the main building. This indicates the necessity for a small Isolation Hospital for both sexes, in which suspicious cases could be at once segregated, just as the occurrence of 21 deaths from Phthisis suggests the need of its treatment out of the ordinary Wards and under improved conditions generally.

There has been a somewhat long list of serious casualties, for which the overcrowding may be held to be in some measure responsible. Nine Patients of each sex have sustained fractures of bones, and one woman a severe cut from broken glass. In one case a man had his skull fractured by another Patient by a broom, and had to be trepanned, and in two instances the causes of fractures of ribs could not be ascertained. Mechanical restraint has been used in one case for a short time for surgical reasons, and seclusion has been imposed on 48 Patients on 86 occasions and for 324 hours.

The Attendants in charge of Patients are 45 men and 53 women by day, and seven men and nine women by night. The Day Attendants and Nurses being in the proportion of one to every 11 2-5 Patients. Their record of service is very good. As many as 43 per cent. have served upwards of five years, and only 19 per cent. less than a year. Only one has been discharged, and he for no misconduct affecting the Patients.

The Medical Staff remains numerically the same. The Case Books continue to be carefully and intelligently kept.

> F. A. INDERWICK, F. NEEDHAM, Commissioners IN Lunacy.

[SCHEDULE IV.]

REPORT BY LOCAL GOVERNMENT BOARD DISTRICT AUDITOR.

THE MIDLAND COUNTIES AUDIT DISTRICT,

24, FRANCIS ROAD, EDGBASTON, BIRMINGHAM,

17th November, 1903.

MY LORDS AND GENTLEMEN,

I have the honour to state that I have concluded my Audit of the Accounts of the Worcester County and City Asylum for the year ended the 31st of March last.

The total expenditure for the year on Maintenance Account was £26,946 0s. 9d., which included a sum of £646 18s. 2d. excess on Out County, Private, and Criminal Patients (transferred to Building and Repairs Fund), and on the Building and Repairs Account there was £2,901 0s. 0d. expended.

The Farm and Garden Stock at the end of the Financial Year was valued at £4,129 8s. 9d.

For your further information as to the Accounts I beg to refer you to the Statutory Financial Statement as signed by me.

I am, my Lords and Gentlemen,

Your obedient Servant,

W. D. EASTERBY,

District Auditor.

To the Chairman and Members of the Worcester County and City Visiting Committee.

THE FIFTY-FIRST ANNUAL REPORT

OF THE

MEDICAL OFFICER & SUPERINTENDENT.

To the Committee of Visitors of the Worcester County and City Asylum.

MR. CHAIRMAN AND GENTLEMEN,-

I have the honour to lay before you the Fifty-first Annual Report for the year ending December 31st, 1903, with the usual Statistical Tables. The Financial Statement for the year ending March 31st, 1904, prepared by the Asylum Clerk, is also appended.

The changes that occurred among the patients were as follows:

							Males.	Females.	Total.
Number of 1903, e							517	641	1,158
Admitted							99	122	221
Discharged							47	75	122
Died							39	55	94
Number of 1903, e	Patie	ents in ling 45	Asylui Fema	n, Dec les boa	ember rded of	31st, ut	530	633	1,163

These figures show a net increase of five patients. The men have increased by 13, and the women have decreased by eight. The average number resident was 527 males, 636 females—total 1,163.

ADMISSIONS.—Two hundred and twenty-one patients were admitted during the year, of whom 27 males and 33 females had had previous attacks, or at the rate of 27.1 per cent. Of these 60 patients, 13 males and 26 females, or 17.6 per cent., had been in this Asylum previously. Heredity and family predisposition was a cause in 10.4 per cent. and 16.2 per cent. respectively. Intemperance in drink was a cause in 15.3 per cent., a much larger percentage than usual. "Unknown" is assigned in 23 per cent. This is due either to ignorance or unwillingness on the part of the friends to give any reliable history with the patient.

The following table shows the condition of bodily health of those admitted :

	BODILY	HEALTH	OF	THOSE	THOSE ADMITTED.			
					Males.	Females.	Total.	
3 13		3 63 33				~	00	

In Good Bodily Health and Condition	11	9	20
In Indifferent Health and Reduced Condition	66	90	156
In Bad Health and Exhausted Condition	22	23	45

Thirty-five of those admitted have been discharged "recovered." Fifteen have died.

DISCHARGES.—Thirty-nine males and sixty-five females, total one hundred and four, have been discharged "recovered," being at the rate of 41.75 per cent. for males and 57.52 per cent. for females; total 50.49 per cent. on the number admitted, excluding transfers from other Asylums. This is the highest recovery rate since the opening of the Asylum. The recovery rate of England and Wales in the last Blue Book was 35.3 per cent.

DEATHS.—The deaths numbered 94, being at the rate of 8.08 per cent. on the daily average number resident. Phthisis was responsible for 21 deaths, or a percentage of 22.3; dysentery for 11 deaths, or a percentage of 11.7; old age for 20 deaths, or a percentage of 21.3.

The following is a short summary of the causes of death. Full details will be found in Table V.

Diseases of Brain and Spinal Cord	 Males. 9	Females. 6	Total. 15
" Heart and Lungs	 13	22	35
,, Abdominal Organs	 9	11	20
Senile Degeneration	 7	13	20
Other causes	 1	3	4

SUMMARY OF CAUSES OF DEATH.

Post-mortem examinations were made in 82 out of 94 deaths, or 87.2 per cent.

PRIVATE PATIENTS.—The private patients decreased three during the year. Seven, including one criminal, were admitted, five discharged, three died, two were transferred from pauper to private, and four from private to pauper. Owing to want of room on the female side your Committee decided that no female private patients should be admitted at present.

INQUEST.—One inquest was held. The Jury returned the following verdict: "That the death of the said G. S. was due to hæmorrhage caused by the gullet being ruptured by a piece of bone." The patient had tried to swallow a part of a rib of beef measuring $4\frac{1}{2}$ in. by $1\frac{1}{4}$ in. This got impacted in the æsophagus, causing rupture of the muscle. He complained of no pain, and took his food without any discomfort.

ACCIDENTS.—With the exception of the foregoing case all the accidents were non-fatal. They consisted of one fracture of the skull. This was caused by a patient, W.P., striking another patient. C. L., on the head with a broom. He sustained a depressed fracture, epileptiform convulsions set in, trephining was performed. After the operation the seizures ceased, and the patient, I am glad to say, made a good recovery. The others were: one of the lower jaw, two of the fore-arm, seven of the ribs, one of the thigh, and two of the leg. In no case was any blame attached to anyone of the Staff.

ESCAPES.—Four patients escaped and were all recaptured in a short space of time.

HEALTH.—During the year four nurses, seven females and five male patients were attacked with Scarlet Fever, which caused death in two cases. One male attendant had Rheumatic Fever, and one suffered severely from Rheumatism and Rheumatic Iritis. Dysentery has been present with us all the year.

Under this heading reference may be made to the report of the Commissioners in Lunacy. They advocate the plastering of the walls and the dry rubbing of the floors as a means of rendering the wards more healthy and less liable to be sources of infection. Your Committee approve of these suggestions, but owing to the overcrowded state of the Asylum it is impossible to undertake the plastering at present. They also refer to "the insanitary condition of the sanitary Annexes." This your Committee do not admit, and, I must say, I take your view of the matter.

STAFF.—Mr. H. C. Manning, Third Assistant Medical Officer, and the Rev. T. J. L. Davies, Chaplain, entered on their duties in January, and have thrown themselves heartily into their work. The changes among the nurses and attendants have been very numerous. Several of the senior nurses have resigned to be married, some of the juniors to take up nursing, and others owing to restlessness and want of a change.

Some of the men were enticed by the glowing accounts of farming in Canada. One attendant resigned through illhealth (phthisis).

My thanks are due to my medical colleagues and the other officers for their loyal and ready help, and for the care with which they supervise their respective departments.

The following is a numerical statement of the Staff :

	Males.	Females.	Total.
Superintendent and Medical Officer	1		1
Assistant Medical Officers	3		3
Other Officers	8	4	12
Ward Attendants (including five Artizan			
Attendants)	45	53	98
Ward Night Attendants	7	9	16
Tradesmen and Artizans who do no Ward			
Duty	10		10
Storekeeper's and Engineer's Assistants,			
Stokers, &c	11		11
Gardeners and Farm Servants	16		16
Porters, Cooks, Laundry Maids, and other			
Domestic Servants	2	14	16

NUMERICAL STATEMENT OF THE STAFF.

COMMISSIONERS IN LUNACY.-Mr. F. A. Inderwick, K.C. and Dr. Needham, two members of the Board of the Commissioners in Lunacy, visited the Asylum on July 20th, 1903. Their report will be found in Schedule III.

GENERAL MATTERS.—The charge for patients remains at 8s. 5¹/₂d. per week.

The average cost per week per patient for the year ending March 31st, 1904, was 8s. 25d.

External iron staircases have been fixed from F 6 and M 6, with a landing outside and a door leading from F 2 and M 2.

All the exit doors are regularly and frequently opened, and the patients exercised in the use of the staircases.

The old screw coupling on the fire hose has been discarded, and the instantaneous method adopted.

Fourteen of the external doors which opened inwards have been altered to open outwards. Outside handles have been placed to all the doors of the dormitories and single rooms.

The wooden drying horses in the Laundry have been removed and iron ones substituted.

Electrical communication is being made from each ward to the Porter's Room for use in case of fire.

A Cricket Pavilion has been erected, which meets a longfelt want.

A small Billiard Table and some Card Tables have been placed in the Centre Male Visiting Room, and this is now utilised as a recreation room for the Male Attendants in the evening.

A Grand Piano has been purchased for the Ball Room. The old one has been placed in one of the female wards. A class has been formed for instructing some of the patients in basket-making. They meet every week, and several are doing well.

At Michaelmas last your committee took 80a. 3r. 37p. of land from Lord Coventry, together with three cottages. Our land is now in a ring fence.

B. Yarnall, a pensioner of your Committee, died on December 3rd last.

On October 21st, 1903, 15 patients of those boarded out at Derby County Asylum were transferred to the Leicester Borough Asylum.

The following Boards of Guardians visited the Asylum: Bromsgrove, Droitwich, Dudley, Evesham, Kidderminster, King's Norton, Martley, Pershore, Stourbridge, Upton-on-Severn (twice), Worcester.

The Farm shows a profit of £562 Os. 1d. on the year.

In conclusion, I beg to tender my thanks to the Committee for the kind assistance and consideration they have always afforded me.

I am, Mr. Chairman and Gentlemen,

Your obedient Servant,

GEO. M. P. BRAINE-HARTNELL.

May 7th, 1904.

Showing the Admissions, Discharges, and Deaths, with the Mean Annual Mortality and proportion of Recoveries per cent. of the Admissions for each year since the Opening of the Asylum, 11th August, 1852.

During the years so marked there were resident :-

Asylums. """, Asylum. Male Patients from the Durham Asylum. and 30 Female Patients from the Northampton Asylum Patients from the Stafford Asylums. Asylum's,

and 5 'Female Patients belonging to the County and City of Worcester boarded out at the Rubery Hill Asylum.

n.-25 Male and 30 Female Patients belonging to the County and City of Worcester, boarded out at the Rubery Hill Asylum.
o.-25 , and 30 Female Patients from the Essex Asylum.
p.-29 , Patients belonging to the County and City of Worcester, boarded out at the Derby Borough Asylum.
q.-55 , Patients belonging to the County and City of Worcester, boarded out, 30 at the Derby Borough Asylum and 25 at the Joint Counties' Asylum, Abergavenny.
r.-25 , Patients belonging to the County and City of Worcester, boarded out at the Joint Counties' Asylum, Abergavenny.
s.-30 , and 30 Female Patients from the Stafford Asylum.
t.-45 Female Patients belonging to the County and City of Worcester boarded out, 30 at Derby County Asylum, and 15 at Northampton County Asylum.

Contract Prices for the several Articles of Consumption for the year ending 31st March, 1904.

Conditions under which Private Patients are admitted into the Asylum.

I. The charge for Patients coming from, or having a settlement in, some Union in the County or City of Worcester is 15s. a week, payable quarterly in advance.

II. The charge for maintenance covers all ordinary expenses, but in cases of prolonged bodily disease an additional weekly charge may be made to cover the cost of special medicines and stimulants.

III. In the event of the death or discharge of any Private Patient before the maintenance moneys, paid in advance, have been exhausted by effluxion of time, the balance will be refunded to the person who made the last payment in respect of such Patient.

IV. The Patients may wear their own clothes, but will have the same accommodation in all respects as the other Patients.

V. Application for the admission of a Patient on the private class must be made in the first instance to the Medical Officer at the Asylum, who will supply all the various blank forms for the order and medical certificates.

VI. The excess charge made for Private Patients beyond the ordinary pauper weekly rate of maintenance is carried to the credit of the Repairs Account. ATTENDANTS' DIETARY SCALE.
