REPORT.

*North and East Ridings' Lunatic Asylum, Clifton, York,
22nd December, 1855.*

TO HER MAJESTY'S JUSTICES OF THE PEACE FOR THE SAID
RIDINGS, IN GENERAL QUARTER SESSIONS ASSEMBLED.

NINTH ANNUAL REPORT OF THE COMMITTEE OF VISITORS.

YOUR Committee are glad to be able to report that the Asylum, with respect to the health and general condition of the Patients, is most satisfactory.

The Superintendent, in spite of his efforts to accommodate as many Patients as possible, has been compelled, from want of room, to refuse several cases, for whose admission applications have been made. The over-crowded state of the House precludes the possibility of increasing the present numbers, which have reached the amount of 311, and in consequence, the Patients belonging to the Borough of Richmond (which the Court is already aware is annexed by Law to the North Riding) cannot be admitted until a portion of the new building on the Female side is completed, a part of which the Superintendent proposes to use for the accommodation of Male Patients, until the Wing on the Male side is ready for their permanent reception.

Although the commencement of the Buildings was necessarily delayed until the sanction of the Court, at the Midsummer Quarter Sessions, had been obtained for the proposed outlay, the Committee are happy to state, that the additional works are now progressing as expeditiously as their nature will allow.

At the last Quarter Sessions your Committee reported on the defective state of the old drains, and in accordance with the notice which they then gave, after mature consideration, a new system of

drainage is now being proceeded with, and is almost completed, (to the construction of which the labour of the Patients has largely contributed,) and which, together with the new steam engine and pumps already in full operation, will secure the Institution against any damage by floods, and by means of the latter also, an ample supply of pure water will at all times be ensured to every part of the building, provisions which they feel are of a paramount importance, now that the Establishment has grown to three times its original dimensions, since the opening in the year 1847.

The borough of Richmond has paid to the Treasurers of the Asylum, as directed by the Statutes, its proportion of the original costs of the Institution, namely, the sum of £674. 16s. 11d., of which your Committee, in lieu of charging the Riding with a similar account on the repair and alteration accounts, (the former being £208 3s. 9d., and the latter £357 12s. 8d.,) have devoted the sum of £565 16s. 5d. to the discharge of the drainage, steam pumps, &c., above alluded to, leaving a balance of £109. 0s. 6d. for the completion of the works in question.

Notwithstanding the high price of provisions, your Committee have much satisfaction in stating that the Institution has, during the last year, been conducted at the same low rate of charge of 6s. 8½d. per patient per week, without any diminution of their comforts.

J. V. B. JOHNSTONE,

CHAIRMAN.

*North and East Ridings' of Yorkshire Lunatic Asylum,
31st March, 1856.*

TO HER MAJESTY'S JUSTICES OF THE PEACE FOR THE SAID
RIDINGS IN GENERAL QUARTER SESSIONS ASSEMBLED.

THE Committee of Visitors present to the respective Courts of Quarter Sessions the Annual Report of the Superintendent, and recommend that it be printed as formerly.

WM. RUTSON,

CHAIRMAN (pro tem.)

*North and East Ridings' Lunatic Asylum, Clifton, York.
31st March, 1856.*

NINTH ANNUAL REPORT OF THE MEDICAL SUPERINTENDENT.

To the Committee of Visitors :

GENTLEMEN,—Happily the events of the year 1855 were so similarly prosperous to those of all former years, that with respect to the moral and physical state of the patients there is very little to remark particularly upon. Their general health was excellent and their spirit and enterprise equal to the demands and emergencies consequent upon the enlargement of the Asylum. The mortality is again below the average in the County and Borough Asylums, although slightly higher than the previous year, and the recoveries were at the rate of $46\frac{18}{67}$ per cent. upon the number admitted; there being not more than ten probably curable males, and fifteen probably curably females out of the 67 cases received during the year.

The excavations for foundations and the extensive range of basement floors for offices amounting to upwards of 12,000 square yards, were begun last April, and occupied until September, when the foundations of the centre pile and Male and Female Wings were commenced. Since then they have been daily employed in works belonging to construction. Amongst which is the substitution of an entirely new system of drainage from the present building to capacious Reservoirs dug in the Garden, whence the sewage is pumped into the Tower Tank at an elevation to command the whole Estate. These measures are amongst the most important of any which in the course of nine years have been carried out, not only for sanitary reasons and the cessation of all annoyance to the public, but by enriching the land and thereby rendering it much more productive. Notwithstanding the immense amount of work performed by the Patients in aid of

the buildings and drainage, worth together £600, all the ordinary duties of Farming and Gardening and those belonging to the various Trades, Household Work, &c. &c., have gone on in the most regular manner; this unmistakeable evidence is a convincing proof that the limits of the present comparatively small quantity of land do not allow sufficient scope for the industry of the Patients, nor space for the absorption of the vast quantities of manure produced; and when it is remembered that the future Establishment will contain more than 500 persons instead of about 330, it will be readily seen how indispensable it is to add largely to the Asylum Estate.

The Commissioners in Lunacy at their last visit were so struck with the state of our Garden and Farm, as well as with the fact of the Patients having without the help of additional attendants executed within so short a period as five months, the heavy and costly works just alluded to; that in recording their opinion of the condition of the Patients and Asylum, they recommended the purchase of a much larger quantity of land, being persuaded it would be both profitable to the Institution and beneficial to the Patients. Such an increase of land would go a long way towards providing proper and *varied means* for employing the Patients, and turning to useful and proper account the Sewage. It must not be forgotten that the waste of any part of the daily produce of this large Institution is a direct loss to the Ratepayers of the Ridings, whilst the natural application of every thing is a clear profit to them; as well as best promoting the curable modes of treatment for the patients. The advantages to patients and ratepayers are perfectly mutual. It is therefore impossible to overestimate the good, which with such resources can be achieved; and before leaving this part of the subject it may be mentioned that the steady prosecution of the only really rational plan of management and treatment of the insane has saved the Ridings, since the opening of the Asylum, thousands of pounds. In confirmation of this assertion the results of the dear provisions' year of 1855 may be advanced. The average weekly charge for the maintenance of Lunatics in the several County and Borough Asylums of England and Wales has been about 9s. 4d., whilst in this it has been 6s. 8½d. exclusive of furniture, bedding, and repairs to the building which cost 10½d. per head per week, making the total cost per head 7s. 7d. The daily average number of patients here was 305; so that the sum of £1400 has been saved upon the whole charges consequent on their residence in the Asylum, as compared with the average cost in the other English and Welsh Asylums in which the expenses for bedding, furniture and repairs to the building are not generally included,

as I have done in this instance. This explanation is afforded for the purpose of demonstrating, that since the opening of the Asylum the aggregate annual savings have amounted to enough to pay for much of the additional land required.

The large increase now making would alone involve the absolute necessity for the purchase of a proportionate additional quantity of land to maintain in operation the principles of treatment and management so fully recognized by the Ridings, and attracting the attention of Magistrates in several other Counties. The Courts of Quarter Sessions in Bedfordshire, Hertfordshire, and Huntingdonshire have recently purchased, under my advice, 257 acres of good land upon which they have determined to erect an Asylum for 500 patients. The abandonment of their existing Institution has arisen entirely from the striking contrast between its circumscribed bounds at Bedford and the more extended range enjoyed by the inmates under my care, which so materially influences this Asylum, besides the amazing difference in the weekly charge for maintenance. It therefore behoves me to strongly press upon you and the Court of Quarter Sessions the necessity and wisdom of forthwith buying a sufficient quantity of land for the consumption of the whole of the Sewage and Manure produced; and which will for the future be much greater in quantity. The £600 earned by the patients in labour bestowed upon works of construction, have been so much in diminution of the cost of building, but supposing that sum had been paid into our Exchequer the charge during the year 1855 would have been less than 6s. weekly upon the charges of maintenance; thus also pointing out the justice of my appeal for more land for the purpose of expending the labour of the patients and the manure upon which, very soon without it, will otherwise be both superfluous and wasted. This, though, is the lowest point of view from which to regard the argument; the other being the first and highest, viz., the health, happiness and contentment of the patients. It was just now remarked that the interests were perfectly mutual as between ratepayers and patients: this is most consolatory and must be encouraging to every benevolent mind. The affluent and independent classes will have to take pattern by what is doing for their poorer brethren afflicted with insanity; for whatever is done to advance the welfare of the latter, ought to be reflective of good upon the former. The crying want for those in the ranks alluded to, who suffer under insanity, in any of its forms, is such an Institution wherein may be embraced advantages equal in extent and character to those secured for the insane poor. There is no more gentlemanly occupation than gardening and farming, nor are many handicrafts beneath the notice of the upper and middle

classes of society. The indolence so much indulged in by insane ladies is too often destructive of their happiness, engenders all kinds of strange desires and a general indifference to almost every thing, but the imaginary evils springing out of an unsound condition of mind. It is sincerely to be hoped that more correct views are beginning to impress the public, and that such as are able to help in a cause requiring the practical exercise of benevolence in behalf of those whom it has pleased God to deprive of the right use of reason, and whose judgment is perverted and therefore requiring constant assistance and guidance, will bestir themselves to promote the establishment of an Institution suited to the circumstances of the insane of the upper and middle classes.

When the mention of conducting a County Asylum upon self-supporting principles was many years since first made, it was looked upon as Eutopian. Time has however demonstrated the possibility of managing such an Establishment upon a plan to enable it to pay its own expenses. My advocacy of the principle has mainly arisen from a conviction that until the weekly cost of the chargeable insane poor is reduced to almost a nominal price, no effective stop can be put to the rapid increase of this unfortunate and pitiable class, now become so burdensome. Allusion has been made in former Annual Reports to the manner in which the weak-minded and insane portions of the population are augmented. The young are permitted to be at large, or are rather overlooked until some overt act has been committed and they have become parents, leaving behind them children who are almost certain to pass through a similar career ending in results equally to be deplored. In fact, these mischievous and unhappy creatures are great feeders of Asylums, and will ever continue to be so, unless the cost of such seemingly harmless young people is reduced to so small a price in Asylums as no longer to be avoided, but to act as an invitation to Parish Authorities to have early care taken of them, before any of the sad evils to which they are so commonly exposed have happened. Some stringent law will have to be passed for checking the growth of insanity arising out of the unpardonable oversight of those who are not only wanting in humanity but also blind to their own interests. The enormous expenses incurred by Counties and Boroughs in our own times have been chiefly caused by the gross heedlessness of Parish Officials in former years. I may state that the purchase of an adequate quantity of land will have the effect of lowering our weekly charge to about half of what it is at present, or in other words 3s. 6d. or 4s.

There were in the Asylum on the 1st January, 1855:—

	Males.	Females.

Serous apoplexy	1	0
Epilepsy	1	0
Consumption of Lungs	1	0
Old age	1	5
Disease of spine	0	1
Disease of heart	0	1
Total	16	8

Extensive improvements are in progress, but as they belong to the current year, it is only necessary to draw your attention to them as they more properly belong to a future report.

The further advancement of this Institution upon the principles of management hitherto receiving your advocacy will depend on the acquisition of more land, and therefore in again thanking you for your constant attention to the requirements of this Institution, I cannot but urge the indispensable necessity of a full consideration of this important subject.

I have the honour to be, GENTLEMEN,

Your very obliged and humble Servant,

SAMUEL HILL.

In compliance with a Resolution of the North Riding Court of Quarter Sessions, held at Easter, the following is extracted from the Superintendent's Seventh Annual Report, dated 27th March, 1854:—

“It may be interesting to mention, there is accommodation in the Asylum for 312 patients, inclusive of the Infirmaries. The Land comprises 88a. 1r. 39p. and cost £10,070 1s. 6d.; the various buildings, furniture and original outfit, £40,079 13s. 4d., making a total of £50,149 14s. 10d., which together is at the rate of £160 per patient for founding the Asylum.”

At the Midsummer Sessions, 1855, it was determined to enlarge the Asylum for an increased number of patients, for which purpose £14,500 was voted, making in the whole, accommodation for 472 patients at a total outlay of £64,649 14s. 10d. The cost upon this number is now reduced to £137 per patient.

RECEIPTS AND PAYMENTS by the Treasurers of the North and East Ridings of Yorkshire County Lunatic Asylum, from the 1st day of January to the 31st day of December, 1855. (Pursuant to the 16th and 17th Vict., cap. 97, sec. 58.)

14324 cubic yards of excavations for buildings and new system of drainage
Laying 665 yards of fire clay pipe drainage

NORTH AND EAST RIDINGS OF YORKSHIRE LUNATIC ASYLUM.

Dietary Scale.

DAYS.	BREAKFAST.	DINNER.	SUPPER.*
Monday	Gruel, thickened with oatmeal, $1\frac{1}{2}$ pint, with 6 oz. of bread.	Pease soup, $1\frac{1}{2}$ pint, with 6 oz. of bread.	6 oz. of bread with butter and tea.
Tuesday	Cooked meat, free from bone, 5 oz.; bread, 6 oz. for males and 4 oz. for females, with vegetables and $\frac{1}{2}$ pint of beer.
Friday			
Sunday			
Wednesday	Meat pie, with vegetables, and $\frac{1}{2}$ pint of beer.
Saturday			
Thursday			
		Irish stew, $\frac{1}{2}$ pint, with 4 oz. of bread.

Great additions are made to the above table, as for example, those patients who do not eat pease soup and irish stew, on Mondays and Thursdays, are allowed rice and suet pudding, and all epileptic, palsied, aged and weakly patients are allowed extra diet, consisting, according to circumstances, of beef-tea, mutton broth, egg pudding, bread, rice, tapioca, sago, and arrow root puddings, mutton chops, mince meat, porter, port and sherry wine.

The idiotic classes are allowed a pint of good meat broth, with bread and vegetables every morning at half-past ten o'clock, together with the firemen, bakers, house cleaners, &c.

* On Thursdays, $\frac{1}{2}$ pint of beer, with two ounces of cheese, are substituted for the male patients, in lieu of tea and butter.

Indulgences consist of tobacco, beer, tea, &c., and may be said to be enjoyed by nearly all the patients; since but few are, at any time, unemployed.

The pease soup and irish stew are made with legs of beef and necks of mutton, Scotch barley, vegetables, herbs, &c.

JOHN ROBERTS, *Steward.*

REPORT

Report on the Progress of the Work of the Committee on the Administration of the Government of the District of Columbia, for the Year 1901.

The Committee on the Administration of the Government of the District of Columbia, created by the Act of March 3, 1891, and continued by subsequent Acts, has the honor to submit herewith its report for the year 1901. The Committee has the pleasure to announce that it has completed its work for the year, and has prepared a report which it believes will be of interest and value to the public. The report contains a full and complete statement of the work of the Committee during the year, and also a statement of the progress of the work of the Committee on the Administration of the Government of the District of Columbia, for the year 1901. The Committee has the honor to submit herewith its report for the year 1901.

The Committee on the Administration of the Government of the District of Columbia, created by the Act of March 3, 1891, and continued by subsequent Acts, has the honor to submit herewith its report for the year 1901. The Committee has the pleasure to announce that it has completed its work for the year, and has prepared a report which it believes will be of interest and value to the public. The report contains a full and complete statement of the work of the Committee during the year, and also a statement of the progress of the work of the Committee on the Administration of the Government of the District of Columbia, for the year 1901. The Committee has the honor to submit herewith its report for the year 1901.

THE SECRETARY OF THE DISTRICT OF COLUMBIA, GEORGE W. WATSON, has the honor to submit herewith the report of the Committee on the Administration of the Government of the District of Columbia, for the year 1901. The report contains a full and complete statement of the work of the Committee during the year, and also a statement of the progress of the work of the Committee on the Administration of the Government of the District of Columbia, for the year 1901. The Committee has the honor to submit herewith its report for the year 1901.

AN ACT OF THE DISTRICT OF COLUMBIA, passed at the Session of the District of Columbia, for the year 1901, and approved by the President of the United States, on the 10th day of March, 1901. The Act is entitled "An Act to provide for the better administration of the Government of the District of Columbia, and for other purposes." The Act is numbered 1001.

THE SECRETARY OF THE DISTRICT OF COLUMBIA, GEORGE W. WATSON, has the honor to submit herewith the report of the Committee on the Administration of the Government of the District of Columbia, for the year 1901. The report contains a full and complete statement of the work of the Committee during the year, and also a statement of the progress of the work of the Committee on the Administration of the Government of the District of Columbia, for the year 1901. The Committee has the honor to submit herewith its report for the year 1901.
