REPORT

OF THE

COMMITTEE OF VISITING JUSTICES

or

The Lunatic Asylum, Abergavenny.

The Committee of Visiting Justices have to report that the Joint Counties and City of Hereford Lunatic Asylum continues to be conducted to their entire satisfaction, and that, with the exception of one inferior officer, dismissed for misconduct, the whole of the persons employed have, during the past year, faithfully and zealously performed the duties entrusted to them.

The Commissioners in Lunacy, in summing up their report at their last visit in June, 1856, write—"On the whole, the Asylum is in a very satisfactory state, and the patients are evidently under kind and judicious treatment."

Since the 1st of January, 1856, 115 patients have been admitted; the discharges and deaths during the same period amounting to 88, viz.:—

There are at present in the Asylum 122 males & 162 females.

The building will admit of an alteration at a trifling expense, whereby some 10 to 12 additional beds for female patients may be obtained; but as the number of females now exceeds by seven the number provided for by the increased accommodation in the attics, it is evident that, should the number of female patients continue to increase in the same proportion, it will be necessary to add some day and sleeping rooms to their side of the building.

The attics on the male side have been fitted up according to the suggestion in the last report: of the sum of £600 granted for that purpose, there remains a balance of £131 to the credit of the repair fund, and it is not probable that any additional accommodation will be required on that side.

Offers have been made to sell to the Asylum about 13 acres of land, at a price of £1600, and it was resolved, that provided the consent of all the Quarter Sessions could be obtained, the Vi-

siting Justices would enter into a negociation for the purchase. This additional quantity of land would be cultivated at the same expense of hired labour as the present farm, and a considerable saving would be effected in the purchase of provisions (£123 having been paid for potatoes only during the past year).

The Commissioners in Lunacy recommended the purchase of some more land in their report of 1854, as a means of providing employment for the patients, and as the land now offered adjoins that which belongs to the Asylum, the Visiting Justices consider the purchase desirable, if it can be effected on reasonable terms.

The charge for patients during the past year has been 10s. per head weekly; the Committee of Visiting Justices are of opinion that it may be reduced to 8s. 6d. per head, and have accordingly ordered such a reduction to be made, to commence from the beginning of the next quarter.

ARCHER CLIVE, Chairman.

Joint Counties & City of Hereford Lunatic Asylum, December 26th 1856.

COMMISSIONERS' REPORT.

Counties' Asylum, Abergavenny, 23rd July, 1856.

There are at present 277 patients in this institution, viz., 127 men and 150 women. We found them all quiet and comfortable to-day, and no one was under instrumental restraint or in seclusion. In general the clothing was good and clean, and the bedding of excellent quality. One man and three women were in bed.

The general health of the patients is good—34 of them are at present under medical treatment.

Since the last visit there have been 97 admissions; and within the same period 54 have been discharged, and 32 have died from various causes.

Mechanical restraint has not been employed during the year, and seclusion appears to be rarely resorted to.

Prayers are read as usual by the Chaplain, and the average attendance of the patients appears to be about 130 on Sundays and 111 on week days.

The patients are employed in various ways; and by the register which is kept, we find that last week 107 men and 101 women found occupation in various ways.

In reference to the recommendations made by the Commissioners who last visited, we find—

- 1.—That some additional furniture has been placed in the wards, but more might be supplied with advantage.
- 2.—That the walk round the property has been nearly completed.
- 3.—That a night watch has been established, and found to be very useful.
- 4.—That the division walls between the airing courts have not been removed.
- 5.—The occupation of the patients within doors appears to have been somewhat increased.
- 6.—The farm buildings are now occupied by the engineer and gardener, and there are no patients there.

On the whole, the Asylum is in a very creditable state, and the patients are evidently under kind and judicious treatment.

Signed,

W. G. CAMPBELL, J. R. HUME,

Commissioners in Lunacy.

TO THE COMMITTEE OF VISITORS

OF THE

Aniseh Counties' Lunatic Asylum, Abergavenny.

Report of Medical Superintendent For the Year 1856.

A fifth year (this report is made for the whole year, and the Chairman's report is up to the 26th Dec., 1856,) has now elapsed since the opening of this Asylum for the reception of the Insane Poor.

At the close of 1855 there remained in the Asylum 257 patients, viz., 114 males and 143 females. During the year 1856, 116 patients have been admitted, viz., 62 males and 54 females; of these, one male was a criminal lunatic admitted under a warrant of the Secretary of State.

The re-admissions during the year amounted to 17, viz., 7 males and 10 females.

The discharges during the year have amounted to 57. viz., 34 males and 23 females: of these, 33 males and 20 females were recovered or relieved; one male (the criminal lunatic) succeeded in effecting his escape, and three females were discharged on the solicitation of friends, and on

the agreement that they were to be properly looked after and taken care of.

The deaths during the year have amounted to 34, viz., 20 males and 14 females; 15 of the deaths occurred in persons advanced in life, varying from 58 to 83 years of age; and the average duration of life in the whole number was 51 years.

The state of bodily health of the patients admitted during the year was "good," or "tolerably good," in 47 cases; in 33 cases, it was "feeble," and complicated with various diseases; and in 36 cases it was "bad." The cases of epileptic mania admitted during the year have amounted to 11. The average daily number of patients resident during the year have amounted to 275.

There now remains in the Asylum 278 patients, viz., 120 males and 158 females; and one male and three females are out on trial for a month's leave of absence.

The general health of the establishment has continued to be satisfactory, and no diseases of an epidemic or contagious character have prevailed.

The criminal lunatic, who escaped, had been committed as a vagrant for three months to the Hereford County Gaol. During his imprisonment he became insane, and a warrant was procured from the Secretary of State, and he was transmitted to this Asylum. He laboured under the idea that three months was the term of his im-

prisonment, and that he could not be detained longer. As the term of his imprisonment approached he became very anxious, and was frequently observed to be on the look out. On one day (a Sunday), when most of the inmates were at chapel, he succeeded in getting over the wall, was observed in the garden, and immediately followed, but no trace of him could be discovered, nor has any thing been heard concerning him up to the present time. His state of bodily health was however good, and if he succeeded in reaching Staffordshire, where he had been previously employed, it is probable that he would seek for and gain employment again.

No case of sudden or unexpected death, or no accidents of any consequence have occurred du-

ring the year.

The hereditary taint and congenital deficiency of intellect has, as usual, formed a large proportion of the admissions during the year.

The supply of water during the year has continued to be satisfactory.

The conduct and attention of the attendants and servants to their respective duties have generally been good.

The established dietary continues to answer well, and, as usual, the only deviations from it have been on the grounds of sickness, and these have been few and unimportant.

CHAPLAIN'S REPORT.

ABERGAVENNY, January 14th, 1857.

GENTLEMEN,

I beg leave to report that my ministrations among the patients of this Asylum during the past year have been attended with better results than persons unacquainted with the phenomena of insanity are apt to imagine, from an impression much too common, though on the decrease, that madmen are entirely different from sane men, which is a mistake—the difference in most cases not being radical but superficial—a difference rather in the accidents than in the essence of human nature. The daily contact with the means of grace (previously almost altogether avoided perhaps) into which many are brought while chastened by suffering, and subdued by the salutary discipline to which they have to submit, must, among some of those who become convalescent, produce those religious restraints which tend so much to keep the mind in a sound

state; while many of those who suffer from insanity in a chronic form, provided they are not without some amount of understanding, derive instruction and comfort from the daily services; and even those who are not possessed of understanding, find them an agreeable change to vary the monotony of their existence.

The patients have been supplied with religious books whenever a demand occurred; and every personal application for a book has been attended to, provided the applicant seemed likely to take care of what was entrusted to him.

I have the honour to be,
Your obedient servant,
W. G. DAVIES, Chaplain.
