APPENDIX

THE DEARBORN TRUCK COMPANY

*the Justices of the Peace of the County of Derby,
assembled at their General Quarter Sessions of the
Peace at Derby, on the 9th day of April, 1861.*

The additional Works referred to in our last Report and then
progress, have been satisfactorily completed. This necessary
enlargement of the Asylum has provided accommodation for 63
additional Patients.

The terms of high commendation in which the Commis-
sioners in Lunacy, and also all the Foreign Medical Visitors,
of this Asylum, render it unnecessary for us to do more
than express our entire concurrence in the well-merited praises
bestowed upon the Institution.

H. SEYMOUR BLANE,

Chairman.

TO THE COMMITTEE OF VISITORS OF THE
DERBY COUNTY ASYLUM.

GENTLEMEN,—

I beg to submit the following statement of the admissions, discharges, and deaths of Patients occurring at the Asylum during the year 1860.

Fifty-eight Men and thirty-two Women have been admitted, a very large proportion of whom were in a feeble state of bodily health; thus, nineteen cases were more or less paralysed, six epileptic; three had been idiotic from birth, two were worn out by old age and sickness; one was deaf and dumb; and one patient was in such a state of exhaustion as to die on the second day after admission, and another, so much so, as to die on the third day—having been sustained in life thus long by stimulants, and assiduous nursing. Thus, of thirty-three cases, or one-third of the admissions, it could safely be predicted, at the time they were received into the Hospital, that they could not recover; of the remaining two-thirds many had been insane for long periods. I have so frequently referred to the evils of delay in bringing Patients to the Asylum, that I now leave these melancholy facts to make their own impression upon the public mind.

Twenty-eight Men and fourteen Women, or 46 per cent. of the admissions, have been discharged, Cured; and eight Men and two Women have been discharged, Improved.

Two convalescent Patients escaped, and were concealed by their reputed friends, until a fortnight had passed away, and thus

Escapes.

obtained their freedom; the Lunacy Act requiring that at expiration of a fortnight new Certificates, testifying to Insanity of the Patient, be obtained, before he can be re-admitted into the Asylum. One of these cases, at the end of the fortnight when he made his appearance, was properly taken by his police officer to a Medical man, who did not feel justified in certifying that the Patient was then Insane. The other case, notwithstanding an energetic search for the previous fortnight on the part of the Asylum Attendants, was permitted by his relatives and others to be at large. In an exacerbation of his malady, several weeks after he had quitted the Asylum, the poor fellow destroyed himself.

In order to facilitate his cure a large amount of freedom is given to a convalescent Patient; and it is, therefore, not a difficult task for him to escape from the Asylum, should he be disposed to do so. It would frequently occur, were it not for moral ties induce him to remain. When an exception springs up, when impatience, or any other cause, prompts the Lunatic to forget his obligations, to break his parole, and to escape from his guardians, it is much to be regretted that one should consider it a friendly act to conceal him from the Attendants who go in pursuit of him. In the case above referred to, the Patient distinctly stated to persons who saw him of his escape, that he had been kindly treated at the Asylum. Such concealments, by increasing the cost of search, inflict a great expense upon a Charitable Institution, is a great wrong to the Patient himself, and injurious to society at large. It should not be forgotten, that no person has a pecuniary interest in the detention of a Patient in a County Lunatic Asylum, and his discharge is certain to be given to him as soon as his mental health is firmly established.

Eleven Men and Seventeen Women have died, mainly

of twenty-eight, out of three hundred and sixty-nine patients who have been under treatment, being something under ten per cent. The mortality, therefore, has not been very high, though, as has been shown above, two Patients were nearly dead at the time of their admission.

Deaths.

Coroner's Inquests have been held upon four cases—one on the person of an aged woman, who fell down, accidentally, and so fractured her thigh as to cause death in a few days; two on cases brought to the Asylum much bruised, and dying in a few days afterwards—in each of these two cases a verdict of “Died from natural causes” was justly returned. The fourth case was upon a Woman who committed Suicide. This case was fully reported to the Visitors, at the time of its occurrence, and was investigated by the Commissioners in Lunacy at their visit on the 8th of August, who left the following record respecting it: “The mode in which the act was committed was very peculiar, and from the explanations which have been afforded us, we do not think any blame attaches to the persons who had charge of the Patient.” Diseases from which the Patients have died, have been Phthisis, Softening of the Brain, General Paralysis, Epilepsy, and Pulmonary Consumption.

Many Patients now in the Asylum are suffering from organic diseases of the Brain and Spinal Cord, and the deaths from these diseases will be numerous next year.

Employment has been carried out during the past year so far as has been consistent with the health of the Patients; but the number of aged, feeble, or paralysed Patients is now so large, that the amount of work achieved on the Farm and Garden is less than of yore. Amusements and Instruction have been liberally provided. Every Thursday evening throughout the Months of September, December, January, February, and March in each

Employment,
and
Amusements.

year is devoted to an Entertainment of a mixed character, consisting of select Readings, Lectures, the Exhibition of the Magic Lantern, Draughts, Music, Songs, and Dancing, so that the taste of each Patient may, as far as possible, be gratified. I have to express my cordial thanks to Mr. Williams, now of Wyke House, to Mr. Braddon, to Mr. Turpie of Derby, to Mr. Pigott of Findern, for contributing to the instruction of the Inmates by Reading or by Songs; and also to Mr. Campbell of Derby, for kindly supplying gratuitously some excellent scenery for an amateur dramatic performance, which greatly amused the Patients. The Christmas Eve Entertainment, always delightful, was much enhanced in merriment by the clever performance of the laughable farce of "Box and Cox," by two gentlemen, and by one of the nurses of the Institution.

The General Results of the past year are as follows:—

		Men.	Women.
Number of Patients in the Asylum on the first of January, 1860		136	11
		<hr/>	
		279	
Admitted during the year		58	
Discharged Cured		28	
——— Improved		8	
Escaped when Convalescent		2	
Died		11	
		<hr/>	
Remaining in the Asylum on December 31, 1860...		145	

General
Results.

The proposed enlargement of the Asylum, which provided for fifty additional beds, has been completed, and the rooms are now occupied. It forms a most valuable addition to the Asylum, for while meeting an urgent want it also adds materially

itectural completeness of the building. There is now accommodation for thirty additional Male Patients, and thirty-three Female Patients, an accommodation which will be much required, as each passing year leaves behind it a large number of Patients, who, although *Incurable*, require the resources of an Asylum not only to preserve Society from the consequences of their morbid impulses, but also that the unfortunate sufferers themselves be preserved from cruelty and wrong. The number of incurable Pauper Lunatics is increasing so largely that their proper disposal is becoming an embarrassing question. Asylums of large dimensions are being further enlarged, and additional Asylums are being built in almost every county. This evil will continue to progress until parsimonious Boards of Directors recognise the oft-repeated truth, that the surest economy in the management of Lunacy is to place the sufferer *at once* under appropriate treatment; and, when he is restored, to guard against his relapse by treating him generously during the first few weeks of his recovery, when he is called upon to grapple with the difficulties of life. It would be found that a present sacrifice of a few shillings would be followed by the saving of many pounds, and that simple obedience to the Christian law of charity would be the wisest measure of parochial finance.

Additional
Accommo-
dation.

The Asylum was visited by the Commissioners in Lunacy, on the eighth of August, who, after spending many hours in minutely inspecting the arrangements of the Institution, left the following record:—"We have the satisfaction of reporting that this Institution continues to maintain its high position for good and careful management, and the Patients evidently receive the attention."

Commis-
sioners'
Report.

It only remains for me to state, that the officers and servants of the Institution are entitled to my thanks for their services during the past year; and that, I desire to express my gratitude

to the Committee of Visitors for their benevolent labours, and for the support which they have always afforded, to

Gentlemen,

Your obedient Servant,

JOHN HITCHMAN, M.D.
