SUSSEX COUNTY LUNATIC ASYLUM, HAYWARDS HEATH.

SEVENTH ANNUAL REPORT OF THE COMMITTEE OF VISITORS, 1865.

Seventh Annual
Report.

To Her Majesty's Justices of the Peace for the County of Sussex, assembled in Quarter Sessions, held at Lewes, in and for the Eastern Division of the said County, on Monday, the 1st day of January, 1866; and at Petworth, in and for the Western Division of the said County, on Thursday, the 4th day of January, 1866.

The COMMITTEE OF VISITORS OF THE SUSSEX COUNTY LUNATIC ASYLUM, appointed at the Epiphany Sessions, 1865, REPORT:—

THAT in laying before the Court their Annual Report relating to the Lunatic Asylum, the Visitors beg to refer to the details set out in the Reports of the Medical Superintendent, and of the Chaplain, which accompany it.

Reports of
Medical Superin-
tendent and Chap-
lain.

In the month of May the Asylum was visited by a terrible affliction—the small-pox having been introduced by a pauper patient received from Hastings. This, unfortunately, occurred at a time when the Medical Superintendent was absent on leave; and a short time afterwards the Assistant-

Visitation of
Small-pox in May
and Death of As-
sistant Medical
Officer.

Aid afforded by
Drs. Maudsley and
Beard.

Medical Officer died suddenly from a paralytic attack, thus depriving the Asylum of all Medical superintendence. Medical assistance was obtained immediately, and Dr. Maudsley and Dr. Beard—two most competent men—gave their attendance at the Asylum, and remained until Dr. Robertson's return.

Visit of the Com-
missioners in
Lunacy.

At the time the Asylum was deprived of the advantage of control and superintendence, the Chairman of the Committee visited it, and there met two of the Commissioners in Lunacy, who, not knowing the circumstances, had made their annual visit of inspection; and they, after devoting a part of two days to their examination, expressed themselves to the Chairman as highly satisfied with the general state of the Asylum, and the order and regularity that pervaded every department. The Committee think it due to all the Subordinate Officers of the Asylum to state this, which they think highly creditable to them.

Spread of Small-
pox from want of
means of isolation.

From the impossibility of effectually separating the Patients afflicted with the small-pox, no proper check could be given to the spread of the disease, and 40 Patients in all—24 males and 16 females—suffered from its attacks. The females had the disease in a mild form, and had the advantage of partial isolation, which the late additions to the Female Wing of the Asylum enabled the Superintendent to give, and the disease was fortunately subdued without any fatal result. On the male side the disease was more formidable, and great difficulty was found in separating the Patients. All the Servants of the Establishment located in the Farm House were sent away, and the Patients provided for there, but four deaths took place before the disease could be subdued.

The Committee cannot shut their eyes to the fact that the Asylum is always exposed to the recurrence of contagious disease. Paupers from all parts of the County must constantly be admitted, and unless they are presented at the Asylum with the disease in an active form it cannot be discovered until it breaks out, when it may, probably, have been communicated to others. Many Asylums have acted on this conviction, and separate establishments have been erected, or are in course of erection, where Patients afflicted with contagious disease may be promptly and effectually isolated.

Continued risk of contagious diseases in the Asylum.

Necessity for a detached Hospital.

It is unfortunate at the time when this necessity makes itself so obvious that the crowded state of the Male Department in the Asylum is also calling for pressing attention. The Committee lament that the constant notice of insufficient room should be brought before the Court, but the numbers seem to be steadily and constantly on the increase; and although the Committee have ordered that all Male Paupers should be received so long as any accommodation, however crowded, can be afforded, the time appears to be rapidly approaching when the Male Paupers must be refused admittance.

Crowded state of the Male Wards.

The Committee, therefore, in pursuance of the provisions of the Act of Parliament under which they are appointed are compelled to report that the Asylum is not sufficient for the proper accommodation of the number of Male Pauper Lunatics for whom it may be necessary to provide. This increase in the number of Lunatic Patients, which no human being can control, has necessitated a constant addition to most, if not all, of the County Asylums in England.

Asylum insufficient for the accommodation of the Male Patients of the County.

Similar experience in other Counties.

In other respects the Asylum is in a very satisfactory state. The Farm is improving, and although it has been a

General condition of the Asylum very satisfactory.

Farm much improved.

year when farming operations have not generally been in a very prosperous condition, the Asylum has not had very great reason to complain. Part of the land yielded 12 sacks of wheat to the acre, which the Committee think may be taken as a proof of improvement. With an average number of 20 cows the Patients have been well supplied with milk; and the Committee have the greatest satisfaction in stating that the stock, which have amounted in number to upwards of 30, have been entirely free from disease.

(Signed) EDWARD SMITH BIGG,

Chairman of the Committee.

Haywards Heath, 23rd December, 1865.

REPORT
OF
THE FARM COMMITTEE,
1865.

It becomes the duty of the Farm Committee, at the close of another year, to report to the Quarter Sessions the condition and progress of the Asylum Farm.

Considerable improvement is shown in the general cultivation of the Farm, and twenty-two acres of woodland have been reclaimed, and are ready for the plough.

An exceptional year for oats, and loss from disease among the Pigs, have reduced the balance in favour of the Farm to £159 2s. 7d. Yet the year's results must still be considered satisfactory, for while, in 1864, the valuation and provender in hand amounted to £653 7s. 9d., in 1865 they amount to £942 13s. 6d.

The Wheat crop has been good, yielding twelve sacks to the acre, while the Rye Grass under sewage still shows the astonishing result of four heavy crops in the year.

The Committee look with confidence to the future prospects of the Asylum Farm, and are of opinion that the

advantage of the lands lately purchased, becomes every day more apparent, and especially with reference to the probable increase of patients.

Every year's experience confirms the value of farm labour as a means of cure and a source of healthy occupation to the inmates.

THE
MEDICAL SUPERINTENDENT'S
SEVENTH ANNUAL REPORT.

THE Medical Superintendent has the honour to submit his Seventh Annual Report.
Seventh Annual Report to the Committee of Visitors.

On the 31st December, 1864, the numbers in the Asylum Numbers on the 31st Dec., 1864.
were 225 Male, 276 Female. Total 501.

The Admissions during the year have been 67 Male, 57 Admissions.
Female. Total 124.

The Discharges during the year have been—Male 23, Discharges.
Female 27. Total 50.

The Deaths during the same period have been—Male 36, Deaths.
Female 29. Total 65.

The mean Population resident during the year has been Mean Annual Population.
Male 227, Female 281. Total 508.

The numbers in the Asylum to-day (31st December, 1865) Numbers this day 31st Dec., 1865.
are Male 233, Female 277. Total 510.

The several Numerical Results are summed up in the first Numerical results of the year, and also since the opening of the Asylum.
Table in the Appendix to this Report. A similar statement
of the Total Numerical Results since the opening of the
Asylum will be found in Table 2.

The numerical results of the year 1865 yield the following Annual per cent-ages for 1865.
per centage :—

(a) The Recoveries (including the cases Discharged Re-
lieved) are 36.3 per cent. on the Admissions of the year, ex-

cluding those cases relieved, the per centage of Recoveries stands at Male 23.8, Female 29.8. Total 26.6.

Sanitary condition of Asylum; outbreak of small-pox.

(b) The mean Annual Mortality is Male 15.8, Female 10.3; mean 12.7 per cent. During the months of May, June, and July the Asylum was visited by small-pox; introduced undoubtedly when in the latent stage by a male patient admitted from the Hastings Union on the 25th of April, and in whom the disease shewed itself on the 3rd of May. Twenty-four cases of the disease occurred on the male side and sixteen on the female side of the House.

Death of Male Attendant.

Four male patients died from the confluent form of this terrible disease, and also one male attendant, George Marsh, who had held his appointment since the opening of the Asylum in 1859. He was a sober, industrious, and deserving man, who, previous to his appointment, had served with the Naval Brigade before Sebastopol. He was buried in the Asylum-ground, and the Visitors sanctioned the erection of a suitable memorial over his grave.

Want of means of isolating infectious cases.

During the existence of the small-pox epidemic the necessary means of isolating infectious cases were wanting, and the disease spread rapidly from one ward to another. At the suggestion of the Chairman, the Farm-house was temporarily occupied, and so far as its limited accommodation went this step aided in arresting the extension of the disease.

A detached Hospital suggested.

The question of providing against a similar visitation by the addition to the Building of a detached Hospital Ward for both sexes has already been discussed by the Visitors at the July and October Quarter Sessions.

Reference to the Hospital at Colney Hatch Asylum.

Such a provision has recently been made at the Colney Hatch Asylum. The building there was visited by the

Medical Superintendent and by the County Surveyor, and the plan of it laid before the Visitors. It appears to the Medical Superintendent desirable to provide accommodation for not less than six or eight patients of each sex should the Visitors determine on this additional Ward.

The Medical Superintendent has also to record with deep regret the death, on the 17th of May, of Dr. William Valentine Browne, who for five years was associated with him in the medical duties of his office. The Visitors have ordered the placing in the Asylum Chapel of a mural tablet in memory of Dr. Browne's faithful services; a recognition which has been highly gratifying as well to the patients as to the officers and servants of the house.

The Death of the
Assistant Medical
Officer.

On the 1st of June the Visitors appointed, on the recommendation of the Medical Superintendent, Dr. Frederick Lewins as successor to Dr. Browne. During the anxious period of the small-pox visitation Dr. Lewins gave to the Medical Superintendent most efficient aid in the performance of the heavy duties which then devolved on him.

Appointment of
Dr. F. Lewins.

Inquests have been held during the year on two cases of sudden death, on the 8th April and the 22nd November; and also on a female patient, E. M., No. 633, admitted 6th June, 1862, who committed suicide on the 21st of April, by drowning herself in the cold rinsing tank in the laundry. The jury, after a careful investigation, arrived at the conclusion that no blame could be attached to any of the laundry servants in this painful matter,—an opinion in which the Medical Superintendent entirely concurred. No care can at all times avail against a strong suicidal determination.

Inquests.

Suicide.

Asylum statistics;
efforts of the
Medico-Psychological
Association
to establish an
uniform standard.

At the annual meeting of the Medico-Psychological Association, held at the Royal College of Physicians, on the 13th July last, a Report of a Sub-Committee, of which the Medical Superintendent was a member, appointed to draw up a uniform series of statistical tables for Asylum purposes was adopted. The Tables thus recommended have been introduced into the Statistical Appendix of this Report. It is obviously only by such an uniform system in recording the results of treatment in the English County Asylums that any facts of value for comparison or treatment can be arrived at.

Idiot children.

On the 31st of March an Idiot child, 5 years old, was sent from the Westhampnett Union to the Asylum. The child was, with the sanction of the Visitors, boarded with the wife of one of the attendants. This is an instance in illustration of the existing want of proper care and treatment for the idiot children of the poor. The wards of the County Lunatic Asylum are admitted by those most familiar with such subjects to be quite unsuited for the purpose. A single visit to the Idiot Asylum at Earlswood would illustrate how different the relative arrangements necessary for the treatment of lunatics and idiots are. This important question is thus referred to by the Commissioners in Lunacy in their last Report to the Lord Chancellor :—

Opinion of Commissioners in
Lunacy.

We have, during the past year, had occasion specially to consider the question of providing for the care and training of idiots as a separate class of the Insane, in Institutions exclusively confined to that object, and wherein the system of education and treatment might be adopted, which has been so successfully carried out at Earlswood, near Reigate, and at Essex Hall, Colchester. It has long been our opinion, as the result of extended experience and observation, that the association of Idiot children with Lunatics is very objectionable and injurious to them, and upon our visits to County Asylums, we have frequently suggested arrangements for their separate treatment and instruction. In some cases attention has been given to the suggestion. We may instance the Gloucester Asylum, wherein the Head Attendant forms the Idiot Boys

to a class, and with intelligence and kindness superintends and conducts their exercise, amusements, and instruction. The same observations apply strongly to Idiot Children in Workhouses.

It is always to us a painful thing to see Idiot Children, whose mental faculties, and physical powers and habits are capable of much development and improvement, wandering, without object or special care, about the Wards of a Lunatic Asylum.

The benefits to be derived, even in Idiot cases apparently hopeless, from a distinctive system, and from persevering endeavours to develop the dormant powers, physical and intellectual, are now so fully established that any argument upon the subject would be superfluous. The soundness and importance of such views are generally recognised and appreciated, and benevolent efforts are being made in several quarters to try them into practical operation.

It is our wish by every means in our powers to encourage and promote the establishment of Institutions for Idiot Children; and these, we think, will be most beneficial and successful if upon an adequate scale, and conducted upon the voluntary principle, so as to enlist the sympathies and elicit the liberal contributions of the wealthy and charitable.

To facilitate the operations of such Institutions, therefore, and the care and treatment of Idiot Children generally, we think it desirable that the requirements of the Lunacy Acts not essential to the special object should be dispensed with, and that, among other things, all forms of certificates, medical certificates, return, &c. should be as much as possible simplified; and we hope shortly to see these objects attained by Legislation.

This subject is one to which the attention of the Visitors will doubtless from time to time be directed, as similar cases to the one here referred to arise.

The Medical Superintendent desires also to direct the attention of the Visitors to the present want of accommodation in the Male Wards. The Asylum was originally built for 100 male patients. By a careful distribution of the space the number on the opening of the Asylum was raised to 225; the recent enlargement of the Workshops added other 10 beds.

The enlargement
of the Male
Wards.

The number of Male Patients chargeable to the County continues, however, yearly to increase, as will be seen by the following table:—

Table shewing the number of Pauper Lunatics chargeable to the County of Sussex, on the 31st December, in the seven years 1859-65.

			Males.		Females.
31st of December,	1859	...	128	...	152
"	1860	...	151	...	202
"	1861	...	171	...	224
"	1862	...	198	...	251
"	1863	...	211	...	243
"	1864	...	217	...	271
"	1865	...	231	...	274

These numbers are calculated exclusive of the private and out-county patients, and the sailors who were here temporarily during the years 1861-63. These Patients have all been discharged to make room for the yearly increase in the Sussex patients.

Conclusion.

The Medical Superintendent desires, in conclusion, to record his continued approval of the manner in which Mr. Mortlock, the Clerk and Steward, Mrs. Stroud, the Housekeeper, and Mr. Knox and Miss Buckle, the Head Attendants of the Male and Female Departments, perform their respective duties. They are now all tried servants of the House, and the confidence with which the Medical Superintendent is enabled to rely on their co-operation greatly lightens the responsibilities and cares of his office.

(Signed) C. L. ROBERTSON, M.D.,

Medical Superintendent.

Haywards Heath, December 31st, 1865.

THE CHAPLAIN'S SEVENTH ANNUAL REPORT.

In the Seventh Annual Report of the duties of his office, Seventh Annual Report. which he has the honour to submit to the Committee of Visitors, the Chaplain will refer as usual to the details of his department under their respective headings.

The Services on Sundays have been duly celebrated. The Chapel Services—Sundays. The behaviour of the congregation continues to be very satisfactory. Propriety of demeanour, audible responses, and the intelligent use of their Service Books, by many, indicate a reverential appreciation of the privilege of Public Worship, which is highly gratifying to witness. An intelligent Visitor who had attended the Chapel Service at its first institution was strongly impressed by the marked improvement in the conduct of the congregation on the occasion of a recent visit.

The Daily Morning Prayer at 8.30, and the Evening Service with Sermon, at 5 p.m. on Holydays, afford opportunities of Daily Prayer—Holidays—Household Service. worship, which are valued by not a few. The Household Evening Service on Fridays at 8 p.m.—reluctantly suspended in consequence of default of attendance—has recently been resumed; so far, with some prospect of success.

The Monthly Attendance at Holy Communion averages Communicants about 18; the Communicants, chiefly Female Patients, are particularly quiet and devout in their behaviour.

Choir.

In consequence of prolonged indisposition, Mr. Stroud felt himself, unfortunately, obliged to resign, along with his other duties, the management of the Choir, which his diligence and rapid progress were enabling him to conduct with very creditable success. A very promising appointment has, however, been made in his place.

Burials.

During the year 51 Burials have taken place in the Cemetery. Among the number that of George Marsh, the lat matmaker, whose cheerful and obliging disposition had made him a general favourite in the establishment. A Memorial Stone is about to be erected over his grave. The Chaplain ventures to suggest that if Memorials, for disposal at a *very low* rate, were kept in stock, they would often be gladly purchased by friends of deceased Patients.

Classes.

The Male and Female Reading and Writing Classes continue to assemble regularly, and to furnish a source of wholesome and profitable interest to many. Transcription of passages of prose and poetry, copy-book exercises, and reading from the serial "Pleasant Hours," furnish occupation for the allotted hour.

Bible.

A Scripture Class, for Women, meets on Tuesday Evening. The Book of Psalms, with a simple commentary, forms the subject of their present course of reading.

Missionary Meetings.

Since the beginning of the year, five Missionary Meetings have been held. In November, the Missionary of the Kasapad (Madras Presidency) delivered an address, illustrated by pictures of Indian customs. The audience was deeply interested. Between £9 and £10 have been remitted, as the year's contribution, to the Society for the "Propagation of the Gospel in Foreign Parts."

Readings from "Enoch Arden," "The Oiled Feather," Secular Readings. and "Dombey and Son," have been given by the Chaplain from time to time.

At the Wednesday Evening Services, in Lent, Sermons Lent Preachers. were preached by the following Clergymen, at the invitation of the Chaplain. *March* 1, Rev. J. Foster, Incumbent of Wivelsfield; (8), Rev. R. E. Wyatt, Curate for St. Wilfrids, Hayward Heath; (15), Rev. J. H. Cooper, Curate of St. Paul's, Brighton; (22), Rev. C. King, Stoke St. Gabriel, Somerset; (29), Rev. J. T. A. Swan, Incumbent of Staplefield. *April* 5, Rev. G. B. Watson, Curate of Cuckfield.

The almost sudden death of Dr. Browne, in May, shocked Death of Dr. W. V. Browne. and saddened the whole establishment. The Chaplain has had already an opportunity of expressing the very high sense which he, in common with all who were associated with Dr. Browne, entertained of his professional and private worth. The memory of his faithful service and of his blameless life will not readily be forgotten.

At a Confirmation held by the Bishop of the Diocese in Confirmation. Cuckfield Church, on 4th June, four Patients, two of each sex, were admitted to that rite, after preparation from the Chaplain.

The Annual Commemoration Day commenced with a cele- Commemoration Day—25th July. bration of the Holy Communion at 8.30 A.M. Morning Prayer was read at 12. The Preacher on the occasion was the Rev. J. Foster, Incumbent of the Parish. As in former years, Mr. Alfred White, Organist at Cuckfield, conducted the Choir.

Though not belonging strictly to the subject matter of his Foresters' Club. Report, the Chaplain is unwilling to leave unnoticed the

Annual Meeting of the Foresters' Society to which many of the Employés of the Asylum belong. Divine Service with Sermon was held for their accommodation in the Chapel on the 11th September.

Library.

The Subscription to Mudie's, for the use of the Household, not having been found to be attended with corresponding advantage, it has been considered advisable to recur to the former system of purchasing out of the Library Grant, a stock of Books for the permanent reading of the Household and Patients.

Prayer and Hymn Books.

A considerable number of Prayer and Hymn Books have, in the present year, been furnished for the use of the Patients. The regular manner in which they are brought, by the more intelligent, into Chapel, and the good use made of them during Service, are satisfactory proofs that the loan of these Books is highly valued.

The Chaplain ventures to hope that the foregoing remarks, at the close of another year of duty, may have some interest for the Visitors of the Asylum.

(Signed)

HENRY HAWKINS, M.A.,

Chaplain.

Haywards Heath,

Christmas, 1865.

THE REPORT
OF THE COMMISSIONERS IN LUNACY.

SUSSEX COUNTY ASYLUM,
17th & 18th May, 1865.

We yesterday made our official inspection of this Asylum, and we are sorry to report that Dr. Browne, the Assistant Medical Officer, died early in the morning of that day from an attack of paralysis. It is feared that his death was hastened by his unceasing attention to the duties of his office. Many of the patients expressed to us their regret at his loss, and said that he had always shown them the greatest kindness. The attack of paralysis of which Dr. Browne died took place on Sunday, the 14th inst., and as it most unfortunately happened that Dr. Robertson was absent on leave, it became necessary at once to secure medical supervision for the Patients, and Dr. Maudsley, of London, was soon after in attendance.

On the day of our visit, however, Dr. Maudsley had been obliged to go to London, and Dr. Beard, of Brighton, was in charge for the day.

Mr. Bigg, the Chairman, and Mr. Hollis, one of the Committee of Visitors were at the Asylum. Mr. Bigg assured us that he had taken steps to provide proper Medical Superintendence until Dr. Robertson's return.

There are now on the books of the Asylum 227 Male, and 280 women, but of these 3 Men and 2 Women are away

on trial, so that the total number of Patients in the Wards is 502, leaving vacant accommodation for 11 Male, and 76 Female Patients. Four males and two females are of the private class, and there are 41 out-county Patients, from the boroughs of Chichester, Seaford, and Hastings.

The changes since the last visit, on the 20th June, 1864, are as follows :—

		Males.	Females.	Total.
Admitted	...	54	83	139
Discharged	...	17	19	36
Died	...	36	21	57

Of the Patients who were discharged, 21 were recovered.

Excepting in one case of suicide, the particulars of which have been before our Board, the deaths have been from ordinary causes.

Inquests were held in four cases, and in that of the female who committed suicide, the jury attached no blame to any of the Officers of the Asylum.

During our visit we personally examined every Patient, and inspected the Wards, Workshops, &c. The greatest order and tranquillity prevailed throughout, and no Patients of either sex were secluded. Seclusion, indeed, seems to be very sparingly employed, for during the past year only 37 instances are recorded, having reference to 11 Men and 5 Women. One woman is reported to have worn gloves for Medical reasons.

There are some very feeble paralytic cases in the Infirmary, in both divisions, but very few Patients were in bed, and the general health of the inmates is good. We were much pleased with the very excellent and comfortable

arrangements made for the sick in the Infirmarys. On the women's side the room has been more than doubled in size, and in the male division the old shoemaker's and tailor's shops have been thrown together, and now afford comfortable accommodation for 14 Patients (extra). The necessary shops have been provided by adding a storey to the old range of workshops, and much additional space and convenience has thus been obtained.

The additions, the plans for which have been submitted to our Board, are now completed. We find also that a day-room has been added to No. VI Ward, on the Female side, for which, as far as we are aware, no plans were ever shown to us, and we believe that no notice was given of the intended alterations in the Workshops and Infirmary. In No. VI Ward the old day-room has been converted into a dormitory

The new day-room is large, but not so well situated, and it has been constructed without fire-places,—in our opinion a most objectionable plan. The means adopted for warming are coils of pipes filled with hot water, and these, as yet, are not protected, so that accidents might easily occur when they are sufficiently heated.

The room is lofty and open to the roof, and must, we should think, be very cold in the winter.

The large amount of additional sleeping accommodation which has lately been provided, without any corresponding increase in the day-rooms, has rendered necessary an arrangement which we hope will be only temporary. The dining-rooms attached to Wards No. I and II on the Female side are used as day-rooms, and the general bath-room in the basement of the new wing, which has not yet been fitted up,

is for the present converted into a dining-room, and for which, of course, it is very ill-adapted.

Nothing has yet been done towards the erection of the proposed new general dining-hall, or the removal of the dead-house.

Some little confusion prevailed in the Female division in consequence of the sweeps being engaged in some of the rooms; but in general the wards were in the best order, and the bedding throughout was scrupulously clean. The attendance during the night continues to give the most satisfactory results, and the number of wet beds on the men's side is rarely more than two, and in the Female division four.

The general management and arrangements remain the same as previously reported, and the staff of Attendants and Nurses is sufficient. There are 18 of the former, and 20 of the latter, including the night Attendants.

With regard to the returns of useful labour, we find that on an average 185 men are regularly at work, as many as forty or fifty being engaged on the farm and garden. There are also 3 Carpenters, 12 Tailors, 10 Mat and Mattress-makers, 4 Painters, 4 Brewers, 3 Bakers, &c., &c,

Of the women, 40 work regularly in the Wash-house and Laundry, 5 in the Kitchen, 55 do Household work, and about 110 are employed at their needle.

The attendance at Chapel averages about 177 men, and 219 women on Sundays, and from 80 to 90 of each sex on week days.

Balls and other entertainments have been given during the winter,

A very large proportion of the Patients are taken for walks—generally three times a week—beyond their airing courts, but it appears that it is the custom in this Asylum, after the 1st of April, to restrict the women in Wards I and II from using their airing court during the day-time. On the days when they do not go out for a walk they are therefore kept in their Wards until six o'clock in the evening, an arrangement which in our opinion is very unadvisable; and several Patients have complained to us of the restriction thus imposed upon them.

In conclusion, we have again the pleasure of reporting that the Asylum continues to be in excellent order; and the good condition and contented demeanour of the Patients gives evidence that they are treated with kindness and consideration.

(Signed)	W. G. CAMPBELL,	} Commissioners in Lunacy.
	ROBERT NAIRNE.	

A very large proportion of the Patients are taken for
 walks—generally three times a week—beyond their assigned
 courts, but it appears that it is the custom in this Asylum
 after the last of April, to restrict the women in Wards 1 and
 11 from leaving their assigned courts during the day-time. On
 the days when they do not go out for a walk, they are allowed
 to sit in their Wards until six o'clock in the evening,
 an arrangement which in our opinion is very undesirable;
 and several Patients have complained to us of the restriction
 thus imposed upon them.

In conclusion, we have upon the subject of restricting
 that the Asylum continues to be in excellent order; and the
 good condition and contented demeanour of the Patients
 gives evidence that they are treated with kindness and con-
 sideration.

W. G. CAMPBELL, Esq.,
 Commisary-General,
 ROBERT NARRING, Esq.,
 Surgeon-General.

and I have much pleasure in stating that the
 Asylum continues to be in excellent order; and the
 good condition and contented demeanour of the Patients
 gives evidence that they are treated with kindness and con-
 sideration.

The Asylum continues to be in excellent order; and the
 good condition and contented demeanour of the Patients
 gives evidence that they are treated with kindness and con-
 sideration.

The Asylum continues to be in excellent order; and the
 good condition and contented demeanour of the Patients
 gives evidence that they are treated with kindness and con-
 sideration.

TABLE XII.

ENGINEERS' SHOP.

- Making four iron gratings for water closets
 Refitting waste water pipes to bath
 Fixing tank for condensed water, and fitting 100 feet $\frac{1}{2}$ in. pipe and $\frac{3}{4}$ cock
 Fitting 20 ft. $\frac{3}{4}$ in. pipe to potato washer
 " 3 in. throttle valve to hot water apparatus
 Making 10; $\frac{1}{2}$ in. bolts 2 feet long, with nuts and plates, and 2 do. 5 ft. long $\frac{5}{8}$, with nuts, for vegetable tank
 " 6; $\frac{3}{4}$ bolts, 6 ft. long, with nuts, and 6; $\frac{5}{8}$ do. do. 6 ft. long, for beer tun
 Fitting 40 ft. $\frac{3}{4}$ in. pipe, and 1 $\frac{3}{4}$ in. cock, to vegetable tank
 Fitting and fixing condensed valves, pipes, cocks, in laundry
 Forging 4 large plates, and cutting and screwing 16 bolts and nuts for beer tun
 Making 3 swing lights for cabinet-maker's shop, and fixing 31 ft. $\frac{1}{2}$ in. gas pipe; 10 ft. $\frac{3}{8}$ in., and 15 ft. $\frac{3}{4}$ in., with 3 tees and 1 elbow
 Fixing blow-off pipe to water gauge to steam boiler, 6 ft. $\frac{1}{4}$ in. pipe
 Fitting and fixing 3 bracket gas lights in needle-room, 34 ft. $\frac{1}{4}$ in. pipe, 7 elbows, and 2 tees
 Alterations in Female Corridor.—Fitting and fixing 49 ft. 2 in. cast iron pipe and 4 bends for gas main, drilling 2; $\frac{3}{4}$ in. holes, making 4 elbow bends, 2 back nuts, and connecting branch pipes to main
 Fitting and fixing 49 ft. of 3 in. cast iron pipe, and 4 bends for water main
 Making 6 large dog irons, 6 square staples, 5 $\frac{5}{8}$ bolts and nuts, 5 in. long, for farm buildings
 " 4 gate springs, catches, and head irons for farm
 " new slide rod to pump guide
 " 12 feet iron spear for stone quarry
 " four slide iron rings and plates for cattle stalls
 " spanner for cocoa mill and 12 window fastenings
 " new foot iron to plough
 " 8 iron window bars (100 lbs.) for meat cellar
 " wrought iron end and lift to mangle
 Fitting and fixing 50 ft. $\frac{1}{2}$ in. steam pipe, 1- $\frac{3}{4}$ tee piece, 2- $\frac{1}{2}$ in. elbows, 1 stop cock, and valve for Russian bath
 Fitting and fixing 62 ft. 1 in. pipe and 15- $\frac{3}{4}$ in., 1 elbow, 3 tee pieces, 1 reducing socket, 6 bends, 2- $\frac{3}{4}$ in. stop cocks, and 1 ball cock to supply cattle shed at farm
 Making iron lever and double stay for window No. 6, F. W.
 Fitting and fixing 9 ft. $\frac{1}{2}$ in. pipe, stop cock, 2 elbows, 1 bend, 1- $\frac{3}{4}$ reduced socket and nipple, with 7 screwed joints to condense box, of hot water tank in kitchen
 Making 3 wrought iron frames and foot plates to cover valves in kitchen
 Fixing 7 ft. $\frac{3}{4}$ in. pipe, 1- $\frac{3}{4}$ tee piece and nipple, 1- $\frac{1}{2}$ in. stop cock and key for water in No. 6 airing court (female)
 Making 4 perforated plates, 2 ft. 8 in. and 2 ft. 6 in. for bell traps in kitchen
 Cutting, screwing, and fixing 40 ft. 2 in. pipe, making 6 bends and 2 connection pieces for waste water from sinks in scullery

- Cutting, screwing, and fixing 45 ft. 1 in. pipe, 4 tees, and making one connection piece to supply scullery sinks with cold water
- Cutting, screwing, and fixing 28 ft. $\frac{3}{4}$ in. pipe, 8 elbows, 4 tee pieces, 8 bib cocks, $8\frac{3}{4}$ in. sockets, and making 8 double nipples and 48 screwed joints to supply scullery sinks with hot and cold water
- Cutting, screwing, and fixing 18 ft. $\frac{3}{4}$ in. pipe, 6 elbows, $2\frac{3}{4}$ bib cocks, and making 1 $\frac{3}{4}$ in. connection piece, and 14 screwed joints, fixing iron sink in officers' pantry, and fitting 18 ft. $\frac{3}{4}$ in. pipe, 2 bends, 2 elbows, and cock from hot water tank in kitchen
- Making and fixing one guide pulley and spindle, with wall plates, nuts, and washers, to washing machine
- ,, large iron cramp to fix iron door frame to drying closet
- ,, 6 large iron cramps to fix door frames to new building
- Fitting and fixing 67 ft. 2 in. pipe, and 1 connection piece, boring 2, 3 in. holes, making 2, 6 in. flanges, 4, 2 in. back nuts, and cutting two long threads to connect large water tanks on towers
- Fixing 1, 3 in. Lambert's valve to clean large tank, boring 1, 3 in. hole, drilling 6, $\frac{7}{8}$ in. holes, fixing 3 in. cast-iron bend, 1 tee piece, 3 cast-iron cement joints, with bolts, nuts, and washers, &c.
- Fitting and fixing 20 ft. $1\frac{1}{2}$ in. pipe, 4 bends, 1 tee piece, 1, $1\frac{1}{2}$ in. stop cock, 15 screwed joints, and connection to waste water pipe, drilling 2, $1\frac{3}{4}$ in. holes, cutting two long threads, making 1, 2 in. reducing socket, &c., to clean hot water supply tanks, female wards
- Fitting and fixing 30 ft. $1\frac{1}{2}$ in. pipe, 1 tee piece, 3 bends, 1, $1\frac{1}{2}$ in. stop cock, making 16 screwed joints, and connection to waste water pipe, to clean hot water supply tanks, male wards
- Making 12 large staples for cow stalls, 12 stay irons for hand rails, and 22 iron plates for wheelbarrows
- ,, 2, $\frac{5}{8}$ in. bolts and nuts 3 ft 3 in. long, for meat larder
- ,, 2 cup leathers for pumps at well
- ,, and fixing 1, 2 in. stop valve to supply tanks
- Fitting and fixing 2 bends and 1 length 5 in. cast-iron pipe to blow off boilers
- Altering gas main to surgery and fixing 12 ft. $\frac{3}{8}$ in. pipe, 2 bends, and 1 plug
- Making 3 steel shears for horse hoe
- ,, 5, $\frac{3}{4}$ in. connection pieces, and 3, 1 in. for gas main
- Lining two wheelbarrows with iron
- Making 8 large dog plates for new building at farm
- Cutting main and laying water pipes to supply cattle pond in meadow
- Fixing 126 ft. 6 in. cast-iron pipe, making 14 lead joints to blow out steam boilers
- Fixing 4 gas star-lights in female wards, cutting, screwing, bending, and fixing 50 ft. $\frac{1}{2}$ in. pipe, 4 elbows, 4 tee pieces, and making 2, $\frac{3}{4}$ in. connecting pieces, and connecting to main pipe
- Fitting scullery sink with 22 ft. $\frac{3}{4}$ in. pipe, and 3 ft. 1 in., 2 elbows, 2 sockets, 1 tee piece, making 8 bends, 1 connection piece, 12 socket joints, and 2 bib cocks, to supply hot and cold water, No. 5 F. W.
- Fitting and fixing 22 ft. $\frac{3}{4}$ in. gas pipe, 1 tee piece and elbow, making 4 elbows, bends, and fixing gas-light in sculley, No. 5 F. W.
- Fitting lavatory, No. 5 Female Ward, with 3, 1 in. reducing socket, 1 elbow, 2 sockets, and 2 bib cocks, $\frac{3}{4}$ in., 6 ft. $\frac{3}{4}$ in. pipe, 1, tee piece, bend, and plug for hot and cold water
- Making 3 ft. iron frame for foot plate over gas valve
- ,, 2 wrought-iron cramps for filter tank for manure
- Fitting 12 ft. 1 in. pipe and 1 stop cock to clean hot water tank in laundry

- Fitting and fixing 60 ft. $\frac{1}{2}$ in. gas pipe, 3 tee pieces, 4 elbows, and 1 connection piece to vegetable room
 Making iron cramp for girders in drying closet
 „ 2 ditto for furnace doors, gas house
 „ chimney bar for stove
 Fixing and fixing new gas light in stores, 20 ft. $\frac{1}{2}$ in. pipe
 Fixing 3 gas retorts
 Fitting up new stove, forging 2 cramps and 3 chimney bars, No. 6 M. W.
 Fixing and fitting 2 gas-lights in female attendants, bed room, 26 ft. $\frac{1}{4}$ in. pipe, 4 bends, and 2 elbows
 „ 1 gas-light in head female attendant's bed room, 24 ft. $\frac{1}{4}$ in pipe, 1 elbow, 2 bends, and connection piece
 „ 1 gas-light in housekeeper's bed room, 13 ft. $\frac{1}{4}$ in pipe and 1 elbow
 Making 12 iron cramps to fix doors of water closets, female gallery
 „ 2 large iron guards to hot water apparatus, No. 6 F. W. (176 lbs iron)
 Fitting and fixing 20 ft. 1 in. pipe, and making connection piece to tank. to carry steam from hot water tank in kitchen
 „ 1 new pendant gas-light in servants' hall
 Making 1, 1 in connection pipe for steam to cooking coppers
 „ new lever for water closet
 „ two large iron cramps to fix doors at new coach house
 „ 2 ditto ditto for new dead house
 Taking out, fitting and re-fixing ascending pipe to gas retort
 Making 7 window guards for airing court, No. 6 Female Ward
 Cutting 18 zinc plates for repairing roof
 Making handle and lengthening bolts to coach house doors
 „ 4 cramps and chimney bar to fix stove
 „ new back to stove, painter's shop
 „ and fixing two iron handles to washing machine
 Fitting and fixing 1 new bib cock to lavatory, No. 3 Male Ward
 Making 2 cramps to fix door frame to gas meter house, and 2 iron bands for 4 in. gas pipe
 Fixing gas meter, &c., for new supply
 Making 176 bolts and nuts, 42 chain links, double needle to plough, 42 rings and staples, 129 pipe hooks, hooks and plates, door scraper and 2 trivets, 102 stay-nails and hold-fasts, 36 hooks and plates
 1 tongs, 1 chisel bar, 2 smith's hammers, 9 chisels and 11 steel scrapers for bricklayer, 2 mat-maker's knives, 2 pair gas pipe tongs, 1 screw driver, 1 pole axe, 1 slate ripper, 1 large flattening tool, 2 punches, 3 corking tools, 3 wedges, 112 steel horse shoes
 Repairing farm and garden implements, engines, gas apparatus, pipes, burners, &c.

TABLE XIII.

CARPENTERS' SHOP.

- Making frame for skylight at farm, 4 ft. 3 in. by 3 ft. 3 in.
 „ 2 baker's peels
 „ 3 sets of stops for closet doors
 Hanging 3 doors and fixing 3 brass barrel door springs to closet doors, 1, 2, and 3 F. W.
 Making 12 air flues, 12 ft. long by 1 ft. 3 in., 4 with partitions in middle

- Fixing 1 brass spring to closet door, No. 5 F.
 Making 5 rails, 7 ft. 2 in. by $1\frac{1}{4}$ in., for laundry
 „ 16 „ 3 ft. 2 in. by $1\frac{1}{4}$ in., for laundry
 „ and fixing frame round floor, 5 in. by 3 in.
 Hanging door in bakehouse
 Making water tank, 5 ft. by 3 ft., 2 ft. deep., 2 in. yellow deal
 „ 8 air tubes for closets, 5 ft. long, 9 in. by 5 in.
 „ 2 chopping boards
 „ tank, 5 ft. long, wide, and deep, $2\frac{1}{4}$ deal
 „ table, 7 ft. 2 in. long, 3 wide, $1\frac{1}{4}$ in. deal
 „ 2 racks, 7 ft. long, 1 ft. 2 in. wide, with 5 bearers and 4 rails each
 „ 1 hot-bed frame, 10 ft. 6 in. by 7 ft., 2 ft. 2 in. high, and 3 frames
 „ 7 ft. 3 in. long by 3 ft. 3 in., for lights, $1\frac{1}{2}$ in. deal
 „ frame, 2 sliding doors, 7 ft. by 2 ft. 3 in.
 Raising partition in stable 10 ft. by 3 ft. 3 in.
 Cutting out and fixing 10 iron gratings to air flues, and fixing 6 air flues
 in No. 1, and 3, sleeping gallery, F. side
 Making 6 frames for padded room, 5 ft. 6 in. by 3 ft., M. W. No. 1
 „ 1 mashing oar for brewer, 7 ft. long
 Laying new floor in hay room at farm, 24 oak joists (with lining for trap
 door), 16 ft. by 15 ft., $1\frac{1}{4}$ in. deal boards
 Fixing 4 oak posts and partitions for 3 cow stalls at farm, 9 ft. by 3 ft.
 Preparing and fixing 67 feet facet board and 72 ft. O. G. guttering round
 shed at farm, 36 ft. to roof of hay room, and 192 feet round pigstye
 Preparing and fixing roof, 20 ft. by 9 ft., for goose house at farm
 Making 7 trays for salting meat, 4 ft. 3 in. by 2 ft. 3 in., 5 in. deep each,
 $1\frac{1}{2}$ in. deal
 „ stand for ditto, 4 ft. 9 in. by 3 ft. 6 in., 2 ft. 3 in. wide, with
 bars and runners for trays to slide on
 Preparing and fixing fencing round 9 fir trees in park
 Making 4 gambrels for slaughter house
 „ 2 partitions, boarded, each 8 ft. by 3 ft. 6 in., $\frac{3}{4}$ in. board, for
 laundry
 „ frame for sink in pantry, 8 ft. 6 in., 2 ft. wide by $4\frac{1}{2}$ in. deep, and
 flap for ditto, $1\frac{1}{2}$ in. deal
 „ 5 foot boards for wash house, 9 ft. by 14 in. each
 „ 2 „ 6 ft. each
 „ 9 window curtain poles, 4 ft. 6 in. by 2 in.
 „ window frame, 4 ft. 6 by 3 ft. 6 in., with 8 iron bars for meat
 stores
 Making one centre, 4 ft. long, rise 4 in. and
 „ one „ 3 ft. 6 in. long, 3 in. rise, for meat stores
 „ 130 ft. 3 in. by 2 in. top rail for padded room
 „ 12 frames for padding in padded room, 6 ft. 6 in. by 3 ft.
 Roman bath, fixing match boarding to roof, 11 ft. by 9 ft., and two slides
 and frames, 1 ft. 6 in. by 6 in.
 Making 73 picture frames and back, various sizes for wards
 Making 6 cricket bats
 „ 2 sashes, 4 ft. 8 in. by 2 ft. 1 in., for skylights over workshops
 „ table, with bearers let into wall, 15 ft. long, 2 ft. 3 in. wide, $1\frac{1}{2}$
 in. top, in kitchen
 „ and fixing dresser in kitchen, 11 ft. long by 2 ft. 7 in. wide, $1\frac{1}{2}$ in.
 deal, with cupboard front
 „ „ 1 set of 3 shelves—8 ft. by 2 ft. 9 in.
 „ „ 3 —6 ft. 6 in. by 5 ft. 6 in.
 „ „ 6 —6 ft. 6 in. by 1 ft. 3 in.
 „ „ 3 —8 ft. by 4 ft. 4 in.
 „ the shelves— $1\frac{1}{2}$ inch deal with $\frac{3}{4}$ inch match boarding
 „ „ 1 cupboard front and dresser top, 8 ft. by 2 ft. 9 in.,
 with 3 doors and shelves, for laundry

Preparing and fixing 1 manger for cattle, 60 ft., with 12 oak posts and bearers let into wall, at farm

Making 11 new wheelbarrows for farm

- „ strong table for meat stores, 4 ft. by 3 ft., top 3 inches, ash
- „ 3 tops for wash stand basins, 7 ft. long, by 1 ft. 6 in. wide
- „ 2 frames, 3 ft. 9 in. by 2 ft. 4 in., covered with perforated zinc, for dairy
- „ 2 box wheelbarrows for engine-house
- „ 2 cupboards for medicine, one 2 ft. by 15 in., 14 in. deep, No. 6, F.W., and one 2 ft. 3 in. by 2 ft. 2 in., and 2 ft. 11 in. deep, No. 5, F.W.
- „ frame and sliding doors for cupboard in stores, 4 ft. 10 in. by 3 ft. 4 in., 1½ inch deal
- „ cupboard with panelled door, 8 ft. high by 3 ft. 4 in., and 2 ft. deep, for officers' pantry

NEW CORN STORE AT FARM.—Making 1 girder 12 ft long, 9 by 9 inches. Preparing and fixing 2 pieces of plate, 38 ft. long, each 4 in. by 3 in. Preparing and fixing 30 floor joists, 16 ft. 9 in. by 3 in. Making centre for bricklayer, 10 ft., rise 12 in. Framing and fixing roof, 39 ft. by 17 ft., 8 ft. pitch. 2 wall-plates, 39 ft. each, 4 in. by 3 in. 4 tie-beams, 17 ft. long, 7 in. by 5 in. 62 rafters, 11 ft. 6 in., by 4 in. by 2¼ in. Fixing 14, 6 ft. lengths of O. G. guttering. Preparing and laying 6 squares 1½ in. flooring boards, tongued

Making 3 hand-rails for staircase, 13 ft. 6 in., 14 ft., and 9 ft., oak

- „ 1 side table, 5 ft. 7 in. by 3 ft., for needle room
- „ 1 do. do. 4 ft. 2 in. by 2 ft. 8 in., for steward's office
- „ 2 knife boxes, with locks and keys

Fixing trap door and frame in ceiling under water tank

Making 2 sashes for meat stores, 3 ft. 6 in. by 1 ft. 6 in.

- „ side table, 3 ft. 7 in. by 2 ft., No. 6, F.W.
- „ 3 shelves, 7 ft. 6 in., and 2 do., 5 ft. 6 in. by 13 in., 1½ in. deal, with bearers, No. 5, F.W.
- „ 1 foot-board, 10 ft. long, by 14 in. wide, for scullery No. 5, F.W.
- „ one side to bath, 7 ft. by 2 ft., 1½ in. No. 5, F.W.

Casing timber of roof in laundry, 18 ½-in. board, 18 ft. by 9 in. long,

Making 2 seats for No. 5, F.W. terrace, 12 ft. long

- „ 3 ironing skirt boards, 6 ft. long by 21 in., for laundry
- „ and fixing pin rail, hall porter's room
- „ „ cupboard, front and dresser top, 3 ft. 8 in. by 2 ft. 9 in., with shelves in laundry

DRYING CLOSET IN LAUNDRY.—3 pieces of plate to carry joists, 25 ft. 4 by 3 in. 66 joists, 10 ft. long, 3 by 2½ in. each. 16 posts, 7 ft. long, 3 by 3 in. 2 top rails, 25 ft. long. 44 rails, 7 ft. long, 2½ by 1¾ in. 48 rails, 2 ft. 10 in. long 2½ by 1¾ in.

Making stool for No. 1, M.W.

- „ 1 ladder, 9 ft. long
- „ air flue, 5 ft. 9 by 6 in., No. 6, M.W.
- „ 3 clothes' strainers, 2 ft. 6 in. by 2 ft. 6 in., 2 ft. deep, on castors, for laundry
- „ coal box, 3 ft. 20 by 21 in.
- „ 1 step ladder, 11 ft. long

ALTERATIONS IN DEAD HOUSE AND COACH HOUSE.—Making 2 window frames, 4 ft. 3 in. by 3 ft. 3 in. Preparing and fixing one girder, 27 ft. long, 9 by 9 in., and 3 posts, 10 ft. long, 9 by 4 in. Fixing 2 pieces of wall plate, 27 ft. long each, 4 by 4 in. Framing and fixing roof for coach-house, 18 by 13 ft. Rafters, 10 ft. long. Laying floor over coach house for corn stores, 18 by 12 ft., 1-in. floor boards. Making

and fixing 1 pair of coach house doors, 9 ft. by 3 ft. 10½ in. each.
 Framing and fixing roof over dead house, 13 ft. long, 9 by 9 in., gutter
 rafters, 8 ft. 4 by 2½ in. Framing and fixing roof over porch, 7 by
 6 ft., fixing slate battens and 60 feet facet board. Making 2 orna-
 mental window frames for porch, 4 ft. 3 in. by 1 ft. 6 in. Making 1
 circular-headed door frame for folding doors, 8 ft. 6 in. by 4 ft. 6 in.,
 and one pair of folding doors for do. Making 1 door-frame, 6 ft. 10 in.
 by 4 ft., and door for do. Making 1 curb and skylight, 6 ft. by 3 ft.
 6 in. Making 12 trestles and 6 boards, 6 ft. by 1 ft. 6 in., for dead
 house
 Making 1 door frame and door, 6 ft. 6 in. by 4 ft. 6 in., and 1 do., do.,
 6 ft. 3 in. by 4 ft. wide, for gas meter room
 „ 53 coffins during the year
 „ 91 handles to mops, brooms, tools, &c.

TABLE XIV.

BRICKLAYERS' WORK.

Building brick culvert, 80 feet long, 1 ft. 6 in. diameter at farm
 „ hovel, 65 ft. long, 15 ft. wide, 12 feet high, 9 in. brick work for
 farm cattle shed
 Tiling hovel at farm, 65 ft. long, 15 ft. wide
 Bricking up window opening, 4 ft. high, 3 ft. wide, and fixing skylights 5
 ft. long, 3 ft. 6 in. wide, at fowl house
 Walling-in cattle shed, 6 ft. high, 180 ft. long
 Fixing two iron ventilators, 2 ft. long, 1 ft. high, in recreation hall
 Bricking up two man holes, 1 ft. 9 in. square, 2 ft. deep, and fixing two 4
 in. pipe drains, 20 ft. long, in female airing court
 Building wall, 8 ft. long, 4 ft. high, for dust hole at brewhouse
 „ brick piers and fixing washing tank for vegetables, 4 ft. long, 2
 ft. wide
 Bricking-up opening, 10 ft. long, 8 ft. high, in tailors' shop
 Cutting and taking out two walls, 7 ft. high, 7 ft. 6 in. wide, for passage to
 vegetable stores
 Building two 9 in. walls, 8 ft. high, 7 ft. 6 in. long, and fixing York stone,
 7 ft. square, 6 in. thick, over passage to vegetable stores
 Fixing 8 stone steps and walling, 8 ft. high, 18 ft. long, to form passage
 from airing court to vegetable stores
 Fixing iron trap and drain, 20 ft. long, 4 in. pipes, and paving floor, 6 ft.
 long, 7 ft. wide, at passage to vegetable stores
 Building 9 in. wall, 11 ft. high, 16 ft. long, and fixing door frame and
 stone sill at female airing court No. 6
 Cutting out ceilings and floors, and fixing 8 wood tubings, 14 in. by 6 in.,
 33 ft. high, in male and female water closets
 Fixing 4 lengths of iron piping, 12 ft. long, and building brick flues, 6 ft.
 long 5 in. wide, from water closet shafts to chimney flues in male and
 female wings
 Underpinning cart lodge at farm, 4 ft long 10 ft. high, building two brick
 piers, 1 ft. 6 in. square, 10 ft. high, building up window opening, 4 ft.
 wide, 3 ft. 6 in. high
 Pitching stable floor, 20 ft. long, 7 ft. wide, levelling ground and pitching
 new cattle pen floor, 16 ft. square
 Building duck and goose house, 20 ft. long, 8 ft. wide, 6 ft. high

Lathing and tiling roof of ditto, 22 ft. long, 10 ft. wide
 Building brick cesspool, 2 ft. square, 4 ft. deep, in vegetable room
 Wall bricked-up, 7 ft. wide, 6 ft. high, in female airing court
 Two extra stone steps, 4 ft. long, fixed at water-closet, in female airing court
 Three brick piers, 2 ft. high, 2 ft. wide, and two stone sinks, 6 ft. long, 2 ft. wide each, and slop pail fixed in scullery in kitchen
 Two walls cut through and iron 5-in. pipe drain, 20 ft. long, fixed from slop pail in scullery to hog wash tank in yard
 Brick trap, 1 ft. 6 in. square, 2 ft. deep, built in meat cellar
 40 ft. of 6 in. pipes from drain in meat cellar to main drain
 Fixing two drains from scullery sinks, 22 ft. long
 Paving floor, 21 ft. long, 15 ft. wide; slate shelves fixed, 16 ft. long, 15 in. wide; walls cemented, 80 ft. by 1 ft. 6 in.
 Two openings cut through walls, 6 ft. 6 in. high, 3 ft. 6 in. wide
 One ditto, 8 ft. long, 7 ft. 6 in. high, in meat larder
 Hog-wash tank, 5 ft. 6 in. long, 4 ft. wide, 4 ft. high, built in airing court
 Ditto cemented, 108 ft., super $\frac{3}{4}$ in. thick
 Paving round wash tank, 16 ft. square
 Walls cemented in washing room of Roman bath, 9 ft. high, 10 ft. square
 Laundry wall underpinned, 10 ft. long, 3 ft. high
 Three stone steps fixed, 3 ft. 6 in. long, in Female Terrace
 Twelve new chimney pots fixed on centre building and work shops
 Three man-holes built, 1 ft. 6 in. square, and 120 ft. of 6-in. pipes fixed, in female north airing court
 Main drain removed round cesspools in park, 160 ft. long, of 12-in. pipe
 Two brick traps, 2 ft. square, fixed at gas house
 Door frame taken out at laundry and bricking up same, 6 ft. 6 in. high, 4 ft. wide
 Building wall for new scullery, No. 5 F. W., 12 ft. high, 6 ft. wide; sink fixed 4 ft. long
 Drain fixed from sink to main drain, 8 ft. long
 Bath and slop pail fixed, two drains connected to main drain, 10 ft. long, at Female Infirmary
 Horse block built in stable yard, 2 ft. 6 in. high, with 6 steps and landing, 2 ft. square; brick trap, 4 ft. square, 4 ft. deep, built in main drain.
 Making tank for sewage from female side, 20 ft. long, 10 ft. wide, 4 ft. high, and bottom paved
 Laying and fixing 70 yards of 6-in. drain from sewage tank to field
 Five and a half acres of land levelled, and trenches dug for irrigation
 Three steps, 4 ft. long, fixed at farm building; building sheep wash, 2 walls, 20 ft. long, 6 ft. high, paving floor of same
 Twelve iron hay racks, fixed at farm buildings for cattle; new main drain, 170 yards long, fixed in park
 Levelling and trenches dug for irrigation in park
 Making tank for sewage from male side, 20 ft. long, 10 ft. wide, and 4 ft. high, paving floor of same
 Wall taken down 10 ft. high, 7 ft. 6 in. wide, and building wall, 13 ft. wide, and 16 ft. high, at coach-house
 Building wall between coach-house and dead-house, 13 ft. wide, 16 ft. high
 Building wall to enlarge dead house, 8 ft. high, 7 ft. long
 Portico built to dead-house, 8 ft. square, 12 ft. high, and paving same
 Dead-house paved with tiles, 18 ft. long, 16 ft. wide
 New coach-house, ceiling lathed and plastered, 18 ft. by 12 ft.
 New dead-house, roof lathed and plastered, 30 ft. long, 16 ft. wide

Made good, slates at new skylight, at post-mortem room, 7 ft. long, 4 ft. wide
 Stable yard pitched, 18 ft. long, 16 ft. wide, and fixing trap and drain, 30 ft. long, of 4-in. pipe
 Slating new coach-house, 400 ft. super ; ridging, 20 ft. run
 Slating new dead-house, 250 ft. super ; ridging, 30 ft. run
 Fixing two iron boxes in floor of Male and Female Corridor, for Gas valves, making good round same, 5 ft. wide, 6 ft. long
 Taking up floor in centre building, 80 ft. long, 3 ft. wide for new gas main, and repairing same
 Cutting wall, 4 ft. wide, 6 ft. high, for gas meter, fixing same and brick-ing up wall, fixing two door frames, cutting window opening, 2 ft. 6 in. square, fixing frames and making steps to doorway, 4 ft. long

TABLE XV.

PAINTERS' SHOP.

FEMALE ATTENDANT'S ROOM (No. 2.)—18 ft. by 8 ft. ; scraped and painted, 4 coats, 4 ft. 8 in. high, with 2 in. red band ; ceiling whitewashed, and upper part of walls coloured
 FEMALE WARD (No. 6, Cemented Room.)—10 ft. by 8 ft., 7 ft. high, painted
 IRON HAND LIGHTS FOR GARDEN.—Three painted
 SKY LIGHT AND FRAME FOR FARM BUILDINGS.—Painted
