SUSSEX COUNTY LUNATIC ASYLUM, HAYWARDS HEATH.

EIGHTH ANNUAL REPORT OF THE COMMITTEE OF VISITORS, 1866.

Eighth Annual
Report.

To Her Majesty's Justices of the Peace for the County of Sussex, assembled in Quarter Sessions, held at Lewes, in and for the Eastern Division of the said County, on Monday, the thirty-first day of December, 1866; and at Petworth, in and for the Western Division of the said County, on Thursday, the 3rd day of January, 1867.

The COMMITTEE OF VISITORS OF THE SUSSEX COUNTY LUNATIC ASYLUM appointed at the Epiphany Sessions, 1866, REPORT:—

THAT in the Report to the Court of Quarter Sessions, presented at the Epiphany Session, 1866, after having referred the Court to the details set out in the Medical Superintendent's Report, which stated the number of the Patients then in the Asylum to be 510, viz., 233 males and 277 females, the Committee of Visitors expressed their belief that the numbers were steadily and constantly on the increase, and that the time appeared rapidly approaching when Male Paupers must be refused admittance. It will be recollected that the accommodation for Female Patients had previously been largely increased. The Committee of Visitors, in this belief, reported that the Asylum was not sufficient for the proper accommodation of

Reference to last
year's Report as
to the insufficient
accommodation
for Male patients.

the number of Male Pauper Lunatics for whom it might be necessary to provide.

The expectations of the Committee have been verified. There are now in the Asylum 543, viz., Males 240, Females 303, being an increase of 33, and the number of Males would have been larger, but they have been refused admittance for want of room.

Plans for increased accommodation ordered at the Epiphany Sessions 1866, approved by the Secretary of State.

At the Epiphany Sessions the Court ordered that Plans for increased accommodation should be prepared and laid before the Court. These were accordingly submitted to the Secretary of State, and approved by him, and at the Easter Sessions they were laid before the Court and approved. The cost of carrying these plans into execution will be about £9,300. The Court granted a sum of £6,500, and the Committee of Visitors will be enabled to make up the deficiency from a balance at their disposal, arising from an economical management of the Asylum. Part of the Plan sanctioned and approved of by the Secretary of State and the Court of Quarter Sessions was the purchase of two small Houses in front of the Asylum for the purpose of being altered and adapted for the reception of such infectious and contagious diseases as may from time to time occur in the Asylum. This purchase has been completed, and although fortunately the Asylum is free from all infectious and contagious complaint, the premises will be extremely serviceable at the present time for receiving a portion of the Male Patients until the new ward is complete. The alterations necessary to be made in these premises are trifling, and can be effected by the Workmen belonging to the Asylum.

Also the purchase of two Houses to form a Cottage Hospital.

Purchase of two small plots of ground recommended.

There are two small plots of ground immediately in front of the Asylum, containing each about a quarter of an acre,

which, in the opinion of the Committee, should be obtained. They have reason to believe that upon one of them a Beer Shop would have been erected—indeed, preparations had been commenced. This would have been a most serious injury to the Asylum. The funds at the disposal of the Committee will enable them to purchase these plots of ground for the County without asking for any further grant, and they have entered into negotiations for the purchase, subject to the approbation of the Court of Quarter Sessions and the sanction of the Secretary of State, at the price, for the two plots, of £176.

The Committee have every reason to believe that the alterations and additions already sanctioned by the Court, will be completed by the Easter Session, and part of them will be completed and in use within six weeks, and the whole will be completed within the estimate made by the Committee. They will be a most material and important addition to the Asylum, which will then accommodate about 700 Patients, the original number accommodated being 450.

The Committee are happy to state that the working of the Asylum is in every respect satisfactory, and they refer to the details stated in the Reports of the Superintendent, Dr. Robertson, and the Chaplain, Mr. Hawkins, which accompany the Visitors' statement. The conduct of the Officers and Servants is very good, and they also have the pleasure to state that the Farm adds greatly to the comfort and economical working of the Asylum, and is greatly improving in condition and increase of production.

Progress of new works and alterations.

General condition of the Asylum ; Reports of the Medical Superintendent and Chaplain.

(Signed), EDWD. SMITH BIGG.

Chairman of the Committee.

REPORT
OF
THE FARM COMMITTEE,
1866.

Annual Report,
1866.

THE Farm Committee beg to submit their annual Report
for 1866.

Condition of Farm

The Farm continues to improve. The new land purchased in 1864 has been got into better cultivation, old fences removed, &c., and a requisite road of 1142 yards length has been made of stone got on the estate, communicating with the farm buildings and the outlying fields.

New Road.

Farm Accounts.

The farm balance sheet for the year is herewith annexed.

EDWARD SMITH BIGG, CHAIRMAN.

JAMES H. SCLATER.

JOHN MANSHIP NORMAN.

THE
ANNUAL REPORT

The Medical Superintendent has the honor to submit his report to the Committee of Visitors.

On the 31st December, 1895, the numbers in the Asylum were as follows:

The admissions during the year have been: Male 70, Admissions Female 50, Total 120.

The discharges during the year have been: Male 23, Discharges Female 15, Total 38.

The deaths during the same period have been: Male 40, Deaths Female 20, Total 60.

The mean population resident during the year has been: Male 200, Resident Female 150, Total 350.

The number in the Asylum this day (31st December, 1895) was: Male 248, Total 348.

The several accounts rendered are annexed up to the first month of the year 1896.

The total number of patients since the opening of the Asylum is: Male 1000, Total 1500.

THE
MEDICAL SUPERINTENDENT'S
EIGHTH ANNUAL REPORT.

The Medical Superintendent has the honor to submit his Eighth Annual Report.
eighth Annual Report to the Committee of Visitors.

On the 31st. December, 1865, the Numbers in the Asylum Numbers on the 31st Dec., 1865.
were 233 Male, 277 Female. Total, 510.

The admissions during the year have been, Male 70, Admissions.
Female 89. Total, 159.

The Discharges during the year have been, Male 23, Discharges.
Female 33. Total, 56.

The Deaths during the same period have been, Male 40, Deaths.
Female 30. Total, 70.

The mean Population resident during the year has been, Mean Annual Population.
Male 239, Female 296. Mean Average, 535.

The numbers in the Asylum this day (31st December, 1866) Numbers this day 31st Dec., 1866.
are, Male 240, Female 303. Total, 543.

The several numerical results are summed up in the first Numerical results of the year, and also since the opening of the Asylum.
Table in the Appendix to this report. A similar statement
of the Total Numerical Results, since the opening of the
Asylum will be found in Table II.

Annual per cent-
ages for 1866.

The numerical results of the year 1866, yield the following per centage :—

(a) The Recoveries (including the cases Discharged Relieved) are 34.5 per cent. on the Admissions of the year. Excluding those cases Relieved, the percentage of Recoveries stands at, Male 24.2, Female 28.2. Total 26.4.

Mean Annual
Mortality.

(b) The mean Annual Mortality is, Male 16.7, Female 10.1. Total, 13.0.

High rate of Mor-
tality.

In explanation of the apparently high rate of mortality the Medical Superintendent desires to call the attention of the Visitors to the following table, shewing a list of Twenty-five cases admitted during the year 1866, in a hopeless and dying condition :—

NOMINAL LIST OF TWENTY-FIVE PATIENTS ADMITTED IN A HOPELESS DYING STATE DURING THE YEAR 1866.

Initials and Union.	Sex.	Age	Date of Admission.	Date of Death.	Cause of Death.	Condition on Admission.
S. B., Brighton.....	M.	42	January 5th	January 10th	Decay of Melancholia.	Very feeble and much reduced.
J. B., Westbourne...	M.	42	February 12th	February 17th	Decay of Mania.	Very reduced.
S. W., Ticehurst.....	M.	47	January 1st	February 21st	Decay of Melancholia.	Reduced. Bad cut throat, sup- purating open wound.
W. H., Cuckfield ...	M.	71	February 17th	March 3rd	Decay of Melancholia.	Reduced. Dying.
R. W., Petworth ...	M.	54	January 26th	March 11th	Hemiplegia.	Very reduced.
C. D., Westhamnett	F.	43	March 19th	April 5th	Decay of Mania.	Reduced.
G. F., Thakeham ...	M.	70	March 27th	April 17th	General Paresis.	Reduced. Last stage of disease.
J. T., Hastings	M.	49	March 26th	April 17th	General Paresis.	Reduced. Ditto.
J. S., Brighton	M.	31	January 26th	April 22nd	Decay of Epilepsy.	Reduced. [dition.
H. W., Cuckfield ...	M.	67	April 16th	April 23rd	Congestion of Brain—Epilepsy.	Very reduced, in a hopeless con-
G. T., Steyning.....	M.	36	April 17th	April 29th	Melancholia, Dysentery.	Very reduced. [food.
J. W., Brighton.....	M.	37	April 26th	May 1st	Exhaustion from Acute Mania.	Much reduced from refusal of
C. P., Cuckfield.....	M.	47	May 17th	June 27th	General Paresis.	Very feeble. Last stage of disease
T. B., Brighton.....	M.	41	January 16th	July 12th	General Paresis.	Reduced. Ditto.
A. W., Newhaven...	F.	52	July 13th	August 15th	Acute Melancholia, accelerated by disease of Liver, &c.	Enfeebled.
M. F., Cuckfield ...	F.	74	June 13th	August 31st	Decay of old age.	Very feeble.
S. A., Hailsham ...	F.	79	April 4th	September 24th	Decay of old age.	Very reduced and exhausted.
H. S., Steyning ...	M.	50	May 7th	October 19th	General Paresis.	Feeble. Last stage of disease.
P. H., Lewes	F.	46	April 10th	November 1st	Morbus Addisonii.	Very reduced.
E. B., Ticehurst ..	M.	62	August 4th	November 7th	Decay of Melancholia.	Enfeebled.
E. R., Battle	F.	76	July 19th	November 13th	Decay of old age.	A feeble old man.
C. P., Ticehurst.....	M.	56	November 14th	November 27th	Paralysis.	Hemiplegia. Dying.
J. G., Horsham	F.	52	November 1st	December 9th	Paralysis.	Dying.
D. S., Westhamnett	M.	69	December 6th	December 24th	Senile Dementia.	Very feeble—dirty in his habits.
E. B., Brighton.....	M.	27	October 27th	December 27th	Phthisis.	Reduced. Phthisis. Last stage.

Sanitary condition of Asylum.

The sanitary condition of the Asylum throughout the year has been good, and no epidemic disease has at any time been experienced.

Inquests.

Four Inquests have been held during the year, the details of which are shown in the following table:—

INQUESTS HELD DURING THE YEAR 1866.

NAME.	Sex	Age	Date on Admission.	Date of Death.	Verdict.	Remarks.
John Payne	M.	58	November 20th, 1865.	March 29th, 1866.	Died from General Paralysis of the Insane, with the addition that he received no ill-treatment as alleged by his wife.	An Inquest was held in this case owing to the wife having complained to people at Fines that he was ill-treated whilst in the Asylum.
Henry Marshall	M.	69	December 29th, 1865.	August 21st, 1866.	Died from Disease of the Heart.	Found dead in his bed by the night attendant when visited at 5.30 a.m. Post mortem examination.
Julia Hope	F.	54	March 3rd, 1866.	September 8th, 1866.	Died from Disease of the Heart.	Found dead in bed by the day attendant when she went to call her to get up. Post mortem examination.
Ellen Naldrett	F.	40	May 3rd, 1866.	November 5th, 1866.	Died from Disease of the Heart.	Found dead in bed when the day attendant went to call her to get up. Post mortem examination.

The Seventh Commemoration Day of the opening of the Asylum was held on the 25th July. The Annual Sermon was preached by the Rev. Heathcote Campion, M.A., Rector of Westmeston. In the afternoon Mr. Basil Young gave his yearly entertainment. This summer festival is looked forward to by the patients with much interest, and great care is applied to the decoration of the Chapel and Hall for the occasion.

Commemoration
Day, 1866.

The statistical tables recommended by the Medico-Psychological Association were introduced by the Medical Superintendent into his last Annual Report, and they are again given this year. This effort to promote an uniform system of Asylum Statistics has been favourably noticed by the Commissioners in Lunacy in their nineteenth Report to the Lord Chancellor (31st March, 1866), and recommended by them for general adoption.

Asylum Statistics.

“The importance (observe the Commissioners) of adopting in all asylums a uniform system of statistical tables and registers has long been felt by us, and we are glad to find that the subject has recently been again under the consideration of the Medico-Psychological Association, at whose last meeting a committee to whom it had been referred submitted forms of tables which were adopted and recommended for general use. These tables, confined to medical statistics, are simple in form, and only include the main and most important facts required to constitute a basis for more elaborate and detailed information.

Opinion of the
Commissioners in
Lunacy.

“The superintendents of most county asylums publish in their annual reports tables more or less elaborate, and containing a large amount of valuable information. While, however, the facts recorded may be identical in many if not most of the reports, the form in which they are recorded varies so greatly that it becomes impossible to tabulate them for the purpose of showing general results.

“In any future legislation it would no doubt be desirable, as suggested in the report alluded to, so to revise the present ‘Registry of Admissions’ as to include some of the more important particulars required, in order to obtain correct statistics of insanity. But in the mean time we trust that, with the view of facilitating statistical comparison, the visitors and superintendents of all institutions for the insane will not object to adopt the forms of tables recommended, which will be found in Appendix (I).

“Table I gives the numbers of admissions, readmissions, discharges, and deaths, with the average numbers resident during the year; the sexes being distinguished under each head.

"Table II. gives the same results for the entire period the asylum has been in operation.

"Table III furnishes a history of the yearly results of treatment since the opening of the asylum.

"The table also embraces a column for the mean population, or average numbers resident in each year. In other columns are shown for each year the proportion of recoveries calculated on the admissions; and the mean annual mortality, or the proportion of deaths, calculated on the average numbers resident. It is of the first importance that these two principal results under asylum treatment, when given, should be calculated on a uniform plan, and according to the methods here pointed out.

"Table IV gives a history of each year's admissions; how many, for example, of the patients admitted, say in 1855, have been discharged as cured, how many have died, and how many remain in the asylum in 1865.

"The value of this table in regard to the vexed question of the increase of insanity is evident. The table is adopted from the Somerset Asylum Reports.

"Table V. shows the causes of death classified under appropriate heads. This form is adopted from the Reports of the Commissioners in Lunacy for Scotland, with some addition and modification. It appears sufficiently detailed for statistical purposes.

"Table VI. gives the length of residence in the asylum of those discharged recovered, and of those who died during the year.

"Uniformity in recording the ages of patients on admission, the duration of the existing attack, and the form of mental disorder under which they labour, is also very desirable; and it is to be hoped that the medical officers of asylums may see the great importance of coming to some agreement upon these points. How far the table of the causes of death may require modification or extension will be a matter for subsequent consideration."

Detached Cottage
Hospital for six
patients of each
sex.

In his last annual report the Medical Superintendent referred to the want of a detached Hospital for the treatment of infectious diseases.* This defect has been remedied by the purchase of two small houses facing the entrance gates, pos-

*"During the existence of the small-pox epidemic the necessary means of isolating infectious cases were wanting, and the disease spread rapidly from one ward to another. At the suggestion of the Chairman, the Farm-house was temporarily occupied, and so far as its limited accommodation went this step aided in arresting the extension of the disease. The question of providing against a similar visitation by the addition to the Asylum of a detached Hospital Ward for both sexes has already been discussed by the Visitors at the July and October Quarter Sessions. Such a provision has recently been made at the Colney Hatch Asylum. The building there was visited by the Medical Superintendent and by the County Surveyor, and the plan of it laid before the Visitors. It appears to the Medical Superintendent desirable to provide accommodation for not less than six or eight patients of each sex, should the Visitors determine on this additional Ward."—*The Medical Superintendent's Seventh Annual Report.*

session of which has been obtained. They afford accommodation for six Patients of each sex, with the necessary offices.

The Medical Superintendent desires, in conclusion, to re- Conclusion.
cord his high sense of the value of the services to the Asylum
of the Assistant Medical Officer, Dr. S. W. D. Williams.

(Signed) C. L. ROBERTSON, *Medical Superintendent.*

Haywards Heath, December 31st, 1866.

CHAPLAIN'S EIGHTH ANNUAL REPORT.

Eighth Annual Report.

THE Chaplain's Report for 1866, which he has the honor to lay before the Committee of Visitors, completes the record of seven years of ministerial duty, and commences the history of the eighth.

Sunday Services.

No special observation is called for with respect to the Sunday services. The congregation has maintained the same order and propriety of demeanour that have been the subject of remark in previous notices. The devotional interest taken by many of the patients in the services at least equals that shewn by ordinary congregations of the same class of worshippers.

Additional Monthly Service.

An additional service has been introduced on the first Sunday of each month, at 8 P.M.; this is attended by several members of the establishment, by a few patients selected by the medical superintendent, and by some of the neighbours.

Week day Morning Prayers.

An important alteration has been made in the time allotted to the week-day morning prayers. With the view of facilitating the attendance of patients from the laundry, workshops, &c., who, under the former system, were disabled from joining in the early prayers, the service is now comprised within about ten minutes. It is hoped that the opportunity thus offered for a fuller assembly of worshippers may com-

pensate for the necessary discontinuance of the regular reading of the appointed Psalms, lessons, &c.

During the winter months, the usual afternoon service on Holy day Service. holy days is held at 3, instead of 5, P.M.

The choir meets regularly on Thursday evenings for practice, and the "harmoniumist" is very sedulous in his preparation for the Sunday services, which are rendered as creditably as could be expected. Since the opening of the chapel two of the conductors of its choir have been removed by death—of these, the second, Mr. John Stroud, after long and painful illness, died in the early part of the present year. Choir.

The graves are now distinguished by small iron indicators, Cemetery. being the number of the grave; the friends of deceased patients will thus be readily able to identify the grave which they may desire to visit. The appearance of the cemetery—beautiful, from its situation—would be greatly improved by a porch, or "lych gate," erected at the entrance. 45 interments have taken place during the past year; the number of burials removed has been 25.

The male and female classes assemble regularly as hitherto. Classes. The serial "Pleasant Hours" is found to be popular. In the male class, "Gleig's" History of England has been in use, and even Horace has been in requisition.

The usual meetings of the Asylum Missionary Association have been held. In September, the Rev. R. Winter, of the Delhi Mission, gave an interesting account of the work in his own portion of the mission field. A contribution from the funds of the association has been assigned to his district. Missionary Meetings.

Lent Preachers. During the season of Lent the following clergymen preached in the Asylum Chapel :—

Feb. 14—Rev. J. Foster, Incumbent of Wivelsfield ;
 21—Rev. L. Alison, Curate of Cuckfield ;
 28—Rev. W. Stallard, Vicar of Bolney ;
 March 7—Rev. R. E. Wyatt, Incumbent of St. Wilfrid's,
 Hayward's Heath ;
 14—Rev. H. Wetherall, Curate of Balcombe ;
 21—Rev. H. Hollingworth, Curate of Cuckfield ;
 31—Rev. J. O. W. Haweis, Slaugham.

Commemoration Day.

The Commemoration Services on St. James' Day commenced by a celebration of the Holy Communion, in the chapel, at 8.30. There were seven communicants. The morning prayers began at 12. The Lessons were read by the Rev. R. E. Wyatt, M.A., Perpetual Curate of St. Wilfrid's ; and the Rev. W. Fitzhugh, M.A., Rector of Streat. The latter part of the prayers were read by the Incumbent of Wivelsfield. The preacher on the occasion was the Rev. Heathcote Champion, M.A., Rector of Westmeston. The choir, as in former years, was led by Mr. Alfred White, organist of Cuckfield.

Memorials in the Chapel.

Two memorial gifts have been placed in the chapel in the course of the present year—a brass mural tablet, erected by the visitors, in remembrance of the late Dr. Valentine Browne ; and a handsome lectern, presented by Mr. S. A. Mortlock, in memory of his late wife. These offerings, while adding considerably to the ornamental effect of the chapel, at the same time preserve the memories of two fellow-labourers, who were constant worshippers within its walls.

Ward Visitations.

The infirmaries and other wards have been frequently visited. Occasional letters, concerning patients, have been received and answered.

The entries in the chaplain's book will be found duly made *Journal*.
up to the most recent date.

It is hoped that the foregoing remarks include most of the
topics to which reference would be expected.

(Signed) HENRY HAWKINS, *Chaplain*.

Haywards Heath, Christmas, 1866.

THE REPORT OF THE COMMISSIONERS IN LUNACY.

SUSSEX COUNTY ASYLUM,
3rd and 4th May, 1866.

To-day and yesterday we have visited every part of this Asylum, finding everything in excellent order, and the patients generally in a favourable state.

The admissions since the visit in May, last year, have been 138; the discharges, 56; and the deaths, 61; the proportions of male and female under these three heads respectively being 76 and 61, 26 and 30, and 39 and 20. The mortality is larger than usual, and it would seem that during the past year an unusual number of cases were received in an exhausted or dying state. Unfortunately, also, immediately after the last visit, small-pox broke out in the wards, originating with a patient admitted from Hastings, and from the absence of all means of immediately isolating cases, attacking more than 60 patients, with fatal results to 4; and also to one male attendant. In five other cases, two of epilepsy and paralysis, and three of disease of the heart, the suddenness of the deaths rendered inquests necessary—in two of these instances the patients having been found dead; but in all verdicts of natural death were returned. Of the remaining deaths, the principal causes were general palsy, epilepsy, phthisis, disease of the brain, and senile decay.

It has been satisfactory to learn that the Committee have

lost no time in providing the means of withdrawing immediately from the wards any infectious cases that may in future occur in either division, by the purchase of two houses, with two acres of land, opposite the Gate of the Asylum, and though the numbers are small which these can at present accommodate, they will admit of easy enlargement.

In the Asylum to-day there are 525 patients—234 males, and 291 females—two of each sex belonging to the private class. We have seen all these at our visit. There are besides on the books, 4 male patients on trial—two of whom we saw yesterday before they left—and another, an idiot child, put out to lodge in a neighbouring cottage, and greatly improved by the kind and judicious treatment given him, we have seen to-day.

Where necessary, in all cases of absence on trial, allowance is liberally made of the full charge of maintenance received, and the arrangement is found to act most beneficially.

The condition of all the inmates was very good; that of the women, in regard to personal appearance, being better than that of the men, whose clothing generally struck us as, for the most part, now requiring renovation.

The state of the wards containing the worst kind of patients (the real test of the satisfactory or inefficient supervision of an Asylum) was, upon the whole, orderly and quiet, every reasonable comfort being supplied, great pains taken to induce the inmates to occupy or amuse themselves, and attend to their own wants, and the provision of various kinds of indoor games and reading being usually good. Thus, though the numbers are very large in both divisions who can take no part in the regular daily employments, there

is little interruption in any of the Wards to the prevailing good conduct and absence of excitement.

Another satisfactory circumstance in connection with the numerous feeble cases on both sides, was the very few we found keeping their beds in either—three among the men, and four or five among the women.

We observed, with pleasure, an increase of those employed in the workshops, attributable, doubtless, to the number of skilled attendants engaged in teaching the patients, and inducing them so to apply themselves. Of the intelligence and fitness of the nurses, as well as the attendants generally, and of the advantages derived from the experienced services of the Head Attendant and Principal Nurse (who have been here since the Asylum opened), the remarks already made, are a sufficient indication.

Of the additions now in progress on the male side, which will increase the accommodation by the same number of 130 beds already added to the female division, the plans lately submitted have sufficiently informed our board. Much inconvenience, at present undergone, will be done away with on the completion of the dining Halls in each division; this will be in September next, and in the following spring the rest of the additions will be done.

In some of the Female Wards we saw the dinner served yesterday, and nothing could be more neat or clean; the dinner was plum pudding, which the women have once a week, and which did not seem to be unsatisfactory to them. As a fact, it must be mentioned, however, that not a few complaints were made to us, in both divisions, of the soup and mutton broth dinners given twice a week to the men, and once to the women.

Adverting to the subjects remarked upon at the last visit, we have to state that the suggestions then made have had attention. The hot water pipes in the new Female Day-rooms have been sufficiently protected, and were found during the winter months to warm the room to a proper degree of comfort. A new dead-house has been constructed.

The restriction from the use of particular airing courts during the day has been removed; and besides these matters, we have to notice other work done. The Female Infirmary Ward and the new Dormitories have been entirely painted. The Drying Ground has been doubled in extent. The Airing Court Terraces in both divisions have been planted, and some peacocks and hens introduced on the Female Terrace. A quantity of new furniture has been added, and we observed a handsome grand piano in No. 3 Female Ward, the gift of one of the Chichester Magistrates.

The returns of employment agree generally with what has formerly been reported in this respect; and the attendance over the three Sunday services in Church continues to be about 375 of both sexes, and at the week-day services less than half that number. The arrangements for out-door amusements, and for walking in or beyond the grounds, as well as the numbers able to enjoy such privileges, seem to be unaltered.

The health of the Asylum upon the whole appears now to be good; the numbers taking medicine for bodily or mental disease are about 60 of both sexes, but there is no serious case on the female side, and only one such case among the men. The instances of seclusion since the last visit, which have never been for lengthened periods, have been limited to not more than 12 patients of both sexes, and to the time immediately following their admission.

The night watch continues remarkably attentive; and out of the large number of epileptic and paralysis, the return last night for both divisions showed only six wet, and two dirty beds. The Dormitories were in good order throughout, and the beds and bedding excellent.

Our remarks will have shown the high opinion we continue to entertain of the conduct and management of this Asylum, and of the kind and judicious treatment of the patients. Even since the last visit much has been done to increase the cheerfulness of the wards, by cheap and attractive matters of ornament and decoration, and we have only strongly to recommend a continuance and increase of what has been attended by results so satisfactory.

(Signed)

TABLE XII.

ENGINEERS' SHOP.

- Cutting 30 iron bars to carry brick work of flue in greenhouse
 Making two iron gratings for 12 in. drain pipes
 „ 12 iron cramps to fix water closet doors
 Replacing syphon tap with new one to No. 1 F. water closet
 Repairing steam coil with one new cast iron syphon bend
 Fixing 10 ft. of 2 in. pipe, 1 elbow and 3 bends, to hot water tank
 „ 16 ft. waste water pipe and trap to bath room floor, No. 3 F. W.
 „ new syphon trap to water closet
 Cleaning and refixing wringing machine.
 Making iron frames for 7 sun shades for Superintendent's quarters
 Fitting 18 ft. pipe, waste water pipe, and grating to bath room floor, No. 3 F. W.
 „ ditto, ditto, No. 2 F. W.
 Altering and refixing gas lights in Superintendent's kitchen, 30 ft. $\frac{1}{4}$ in., 8 ft. $\frac{3}{8}$ in., and 6 ft. $\frac{1}{2}$ in. pipe, 2 sockets, 1 elbow, 2 tee pieces, 2 nose cocks, with burners and carriages, 1 swing bracket, nose cock and burner
 Fitting 12 ft. 2 in. waste pipe and grating to bath room floor, No. 4 M. W.
 „ grating to bath room floor, No. 2 M. W.
 „ large slop basin with new patent stink trap, 3 ft. 2 in. pipe, 1 bend, bolts and nuts, and 1.5 in. collar, 4 ft. $\frac{3}{4}$ in. pipe, 4 bends and $\frac{3}{4}$ bib cock, male sleeping gallery
 Taking down old and fixing new water closet, No. 2 M. W.
 Making 3 iron cramps to fix tablet in chapel
 „ iron work for clams for basket making
 „ 8 hooks and staples, and 16 shoes for music stand
 Fitting 30 ft. 1 in. pipe, to blow out boiler at well
 Taking down old sink, and fitting new slop basin, 6 ft. $\frac{3}{4}$ in. pipe, 3 elbows, 1 tee piece, 2 sockets. 1 stink trap, bolts and nuts, and 1.4 in. flange ring, male sleeping gallery
 Making 12 triangle plates for table legs
 „ new spring, catch, 2 staples and hook, for farm gates
 „ two 12 in. iron round gratings for drain pipes
 „ one damper plate for copper at farm
 „ one 12 in. perforated plate to bell trap for bakehouse
 „ two iron dogs to fix steam box in Russian bath
 „ two ditto for new coach house
 „ six plates with drilled holes for frame work in padded room
 „ iron work for stretching frame for bed sackings
 „ new side to iron bedstead
 „ 18 iron dogs to fix door frames for M. and F. wards, No. 1
 Fitting and fixing one fire hydrant valve with 3 in. cast iron tee piece, 1 ferule, 3 2 in. bends, 18 ft. 2 $\frac{1}{2}$ in. cast iron pipe
 Making new set iron work for farm gate
 „ large crowbar
 „ one 10 in. damper plate to copper at farm
 Altering pipes No. 6 M. broom room, 26 ft. 2 $\frac{1}{2}$ in. pipe, 1 bend, and 1 in. connection piece, 1 bend and cock to ditto
 Making 12 iron plates with drilled holes for padded doors, No. 6 F. W.
 „ six iron dogs to fix door frames, male sleeping gallery
 „ two iron straps to door and one chimney bar
 „ one 2 in. screwed nipple for fire hydrant
 „ 18 brackets for Venetian blinds

Fitting and fixing 90 ft. $\frac{3}{8}$ in. gas pipe, 4 tee pieces, 13 ft. $\frac{3}{8}$ in., 1 reducing socket, 1 tee piece, 1 stop cock, 12 sockets, 1 back nut, 2 ft. $\frac{1}{4}$ in. pipe, 1 bracket light with 2 elbows, in Superintendent's quarters

Making slide damper to chapel stove

Fitting and fixing 6 fire cocks, with 30 ft. 1 in. pipe, 3 bends, 2 elbows, 2 tee pieces, 1 nipple, 2 reducing and 6 plain sockets, 12 ft. $1\frac{1}{2}$ in. pipe, 3 sockets, 1 nipple, and tee piece

Fixing 4 ring burners for gas in Superintendent's quarters

Cutting two cast iron columns, making 8 plates, bolts and nuts, and fixing girders in new stores

Making plates and studs for swing windows in No. 5 and 6 F. W.

„ iron plates, bolts and nuts, two die plates, and fixing screwing post to screw pipes, for fire hydrants

„ eight iron dogs and 2 dowels, to fix door frames to new stores

„ four iron cramps to fix door frame in male sleeping gallery

„ 16 pivot and 6 stop plates, with drilled holes, for window frames, No. 5 F. W.

„ three cramps to fix door frame, smith's shop

„ four iron bands for mortar mixer

„ collar and key to fly wheel on mangle

Forging and riveting two iron plates to girders for new stores

Fitting and fixing 390 ft. of 2 in. wrought iron pipe, 10 tee pieces, 8, 2 in. screwed nipples, 6, 2 in. round elbows, 6, 2 in. reducing sockets, 100 ft. $1\frac{1}{2}$ in. pipe, 6 reducing sockets, and 6 tee pieces. 100 ft. 1 in. pipe, 12 elbows, 12 bends, and 14, 1 in. tee pieces, for fire hydrants, and fixing 33 cocks for fire hose, M. and F wings

Altering water main, and fixing 21 ft. of 2 in. wrought iron pipe, and making 3 socket joints, making 2 iron cramps to fix door frame in new stores

Fitting and fixing one gas light, 11 ft. $\frac{3}{8}$ in. pipe, 1 tee piece and elbow, in basketmakers' shop

„ one swing gas light, 12 ft. $\frac{3}{8}$ in. pipe, 2 elbows, in painter's shop

Cutting two cast iron columns for new building

Fitting and fixing 12 ft. 1 in. and 36 ft. $\frac{3}{8}$ in. pipe, 1 tee piece, 1 socket, 1 connection piece with back nut, 1 elbow, and 1 bib cock to supply new stores with water

„ 10 ft. $\frac{1}{2}$ in. and 54 ft. $\frac{3}{8}$ in. pipe, 3 tee pieces, 2 elbows, and 2 sockets, 32 ft. $\frac{1}{4}$ in. pipe, 1 elbow, 2 bracket lights, and 1 hanging light for gas to new stores

„ 14 ft. $\frac{3}{8}$ in. and 16 ft. $\frac{1}{4}$ in. pipe, 3 elbows, 1 tee piece, and two swing bracket lights over kitchen

Making 24 pivot plates for new windows in No. 6 F. W.

„ 30 bolts and nuts, and 315 stay nails, pipe hooks, &c., for ordinary repairs

„ 16 steel scrapers for painter, 7 chisels, 1 flint, and 1 hand hammer, 6 drills, 1 marling spike, 1 steel rod chisel, 3 stoking irons for boilers, 2 pair gas pipe tongs, 8 meat skewers, lettered, hooks, &c., for meat cellar, 2 Canterbury hoes, 1 dung fork, half mattock, turnip knife, spanner for plough, &c., &c.

General repairs to engines, boilers, washing and laundry machinery, steam apparatus, water closets, baths, water and gas pipes and cocks, ball cocks and tanks, fenders, fire-irons, culinary utensils, locks, bolts, &c., waggons, carts, and farming implements

Forging 164 steel horse shoes, and changing and shoeing farm horses, &c.

 Bath room F. No. 2, concreted and paved 160 ft., cement skirted 50 ft.
 ,, F. No. 3, ditto, ditto
 Closet F., No. 5, new pan fixed
 Drain at W. C. steward's stores, opened and cleared
 Fixing border tiles round grave at cemetery
 Bath room No. 1 F., brick trap and drain fixed, floor concreted 160 ft.
 ,, No. 4 M. floor paved 160 ft., cement skirted 50 ft.
 No. 2 M., concreted and paved, 160 ft.
 No. 2 M., new skirting fixed 50 ft.
 ,, M. water-closet, two new closet pans and trap fixed
 No. 3 M. bath room, concreted and paved 160 ft., and cement skirted 50 ft.
 Bath room No. 1 M., floor concreted and paved 160 ft., cement skirted 50 ft., and new drain 20 ft., man hole and syphon fixed
 Slating roof to pea-hen house, 16 ft. 6 in. by 6 ft. 6 in.
 Lower well trap fixed, wall repaired, and floor re-laid over water pipe
 Wall built across ditch at farm, 2 ft. by 3 ft.
 Third storey F., two closet pans fixed
 Dead house and coach house, 750 ft. wall pointed, 22 ft. cement verges, and 60 ft. ridging pointed
 Single room, No. 6 F., wall cemented, 10 ft. by 1 ft. 6 in.
 Kitchen ceiling, cleaned and whitewashed
 Brewhouse, new furnace bars fixed
 Slaughterhouse boiler taken out and refixed
 Culvert wall, bricked up, 4 ft. by 3 ft., 14 in. thick
 Door frame fixed, brickwork each side, 7 ft. by 10 ft., 18 in. thick, No. 6 airing court

Opening and concreting drain under F. day room, 8 ft. long
 Clearing tools and materials from shed adjoining gas works
 Cutting through wall and fixing four air gratings, No. 6, day room
 Bath room No. 2, floor taken up, drain opened and bricked up, iron
 pipe taken out, cleared and repaired
 Dairy walls cemented, 70 ft. long, 5 ft. high, ceiling and walls lime
 whited
 Bricklayer's shed and coal shed taken down
 Wine cellar, 2 slate shelves, 8 ft. 6 in. by 1 ft. 10 in., fixed, two parti-
 tions bricked up, 5 ft. by 2 ft. in Steward's department
 Male yard, one course brick in cement, under beer pipe, and tiled above,
 98 ft. long
 One pig pound concreted, floors and walls repaired, cow-house floor re-
 paired at farm
 Male corridor floor taken up and re-laid over gas and water mains, and
 walls made good
 Bridges at boiler house rebuilt
 Drain, 18 ft. long, and man hole, 1 ft. 6 in. square, fixed in Park
 Female back yard, 24 ft. brick paving, over gas and water pipes
 Fixing four new brick pig troughs, 8 ft. long, at farm
 Building coal store, adjoining carpenter's shop
 Hog wash tank, paved with bricks and cement, 3 courses, 4 ft. 6 in. by
 3 ft.
 Twelve brick piers, built at farm, 2 ft. high, 1 ft. 6 in. square, and
 cemented
 New drain of 9 in. pipes, re-laid in male back yard, 100 ft. long
 Drain lengthened, 12 in. pipes, bottom of garden under road
 Male refractory airing court, five new steps fixed
 and 6 steps fixed, 14 in. wall, built each side of door frame, 7 ft.
 high, two arches over door frame, and wall bricked, 4 ft. 6 in. by
 3 ft. 6 in.
 Two door frames and sills, fixed at two single rooms adjoining vegetable
 stores
 Superintendent's quarters, floor taken up and re-paved, over water main,
 14 ft. by 3 ft.
 Two single rooms adjoining vegetable stores, floors taken up, earth
 cleared away, and six sleeper walls built to receive boarded floor, each
 room cemented, 320 ft. "Keens on Portland," two air bricks fixed for
 ventilating floors, and ceilings repaired and whitewashed
 Floor taken up and syphon pipe fixed at farm
 Twelve brick piers, 1 ft. 6 in. by 1 ft. 6 in., built and cemented at farm
 Gas meter room, doorway cut and cemented each side, and ventilator
 fixed, lime whited, and walls pointed
 Centre coal cellar, opening cut through wall, air grating fixed, and floor
 repaired
 Broom room No. 6, trap fixed, floor repaired, and wall cemented, 6 ft.
 by 5 ft.
 Dormitory, third storey, 300 ft. skirting, pointed
MALE DORMITORY.—1. Door frame taken out and opening bricked up,
 7 ft. 6 in. by 3 ft. 6 in. 2. Doorway cut through and door frame fixed,
 50 splayed bricks, cut and bricked up each side door frame, two arches
 fixed over same, and skirting made good. 3. Doorway cut through
 and frame fixed and bricked up each side
MEDICAL SUPERINTENDENT'S Quarters.—Stove fixed, and chasing cut in
 wall for flue, wall closed, ventilator and air grating fixed, ceiling cleaned
 and repaired, walls cleaned and yellow washed, staircase plastered
