JUDICIUM

Saluberrimæ Facultatis Parisiensis super formulas Medicamentorum à certo quodam digestas, nunc in Cancellariâ Facultatis Medicinæ Ponti-Mussanæ publicè jacentes.

MEDICAMENTORUM formulas, numero triginta, nullo munitas chirographo, nobis à decano, jubentibus vobis, commissas legimus, seduli examinavimus: de stilo quo exaratae sunt, sileremus, cum stilus nihil insidietur ægro- tantibus, at turpe nobis visum est, Medicum, imò medicaf- trum, non vitasse saltem errores, in adolescente verberibus emendandos.

Quosnam verò in usus vocatae fuerint ejusmodi formulæ? Quibusnam in morbis, temperamentis, præscriptæ sint? Divi- nare, vel etiam suspicari impossibile nobis fuit; adeò confusè calida refrigerantibus, stimulantia temperantibus, irritantibus demulcentia, validè purgantibus Emetica, miscentur.

Nullum latet, aut latere debet Medicum, quantâ cautione

opus sit, in ministrando opio; harum autem formularum author, non solum *immoderatas* opii doses, porrigit, at ita porrigit, ut paucissimo tempore à voratis laudani granis duobus, jubeat ægrum edere.

Nec prudentiorem ipsum agnovimus, in distribuendis aliis alterantibus, spirituosâ Olea essentialia, aliaque id genus, ita propinat, ut quæ jubet, uno haustu deglutienda, in tres, quatuor, vel sex doses partienda judicemus.

Vestrum est Decane Vig. viri Medici, statuere, an non specialem judicum animadversionem, in se debeant convertere, ejus farinae medicastrî.
