CATALOGUE OF BOOKS,

IN

MEDICINE, SURGERY, ANATOMY, CHEMISTRY, &c,
NEW AND SECOND HAND ;

AMONGST WHICH ARE THE FOLLOWING SCARCE AND VALUABLE
WORKS :

FOLIO.

Albinus's Tables of the Bones'
&c.
Cooper on Hernia, *complete*.
Halleri Icones.
Hunter's Plates of the Gravid
Uterus.
Johnstoni Historia Naturalis.
Oeder Flora Danica.

QUARTO.

Memoires de l'Academie de
Chirurgie, *complete*.
Ruyfchii Opera.
Schæfferi Icones Insectorum, *co-
loured plates*.
Zinn Descriptio Oculi Humani.

OCTAVO.

Baynton on Ulcers.

Bichat Anatomie Generale.
————— Descriptive.
Boyer Anatomie.
Corvissart sur les Maladies Cœur.
Duncan's Medical Commenta-
ries, 20 vols.
Fordyce on Fever, *complete*.
Gariot sur les Maladies de la
Bouche.
Gregory Conspectus Medicinæ.
Hewson on the Blood, *complete*.
Lind on the Scurvy.
Medical Observations and En-
quiries, *complete*.
Sabatier Anatomie.
Soemmerring de Corporis Hu-
mani Fabrica.
Withering on Fox-glove,
&c. &c.

SOLD BY

T. UNDERWOOD,

40, WEST SMITHFIELD,

LONDON.

(Successor to the late Mr. W. GRACE.)

TO WHICH ARE ADDED,

TABLES OF THE PAY OF THE MEDICAL DEPARTMENT OF THE
ARMY, NAVY, AND EAST INDIA COMPANY'S SERVICE, A
COMPLETE LIST OF THE LECTURES DELIVERED IN
LONDON, WITH THEIR TERMS, HOURS OF
ATTENDANCE, &c. &c.

A Discount of 10 per Cent. for ready Money.

All Works relating to Medical or Chemical Science as soon as published.

Periodical Publications regularly supplied.

* * * STATIONERY OF EVERY DESCRIPTION.

WELLCOME LIBRARY

INSTITUTE

Low and Gilbert, Printers, St. John's-Square, London.

T. UNDERWOOD (successor to the late Mr. Wm. Grace) begs leave respectfully to inform Gentlemen of the Faculty, that every Publication relating to Medicine, Anatomy, Surgery, Chemistry, Botany, &c. may be obtained of him as soon as published; and that Orders for Books in every Department of Literature will be punctually executed: at the same Time he embraces the Opportunity of returning his sincere Thanks for the Favours conferred on him during the short period that he has entered on the Business; and of assuring them that it shall be his study by rendering his Stock of Medical Books worthy of their Attention, and by the liberality of his Terms, to merit their future support.

40, West Smithfield.

September 26, 1810.

☞ Gentlemen leaving this Country for the East or West Indies, Surgeons in the Army and Navy, &c. may be supplied on the shortest Notice with a complete Assortment of Books, adapted to the different Climates, and to the Diseases of Soldiers and Seamen.

J. UNDERWOOD (presented to the
the Hon. Genl. (Genl. G. G. G.) has been respectfully to
before the Hon. Genl. of the Faculty, that every
Publication relating to Medicine, Anatomy, Sur-
gery, Chemistry, Botany, &c. may be obtained of
him as soon as published; and that Orders for
Books in every Department of Literature may be
promptly executed: at the same Time he continues
the Opportunity of returning his former Thanks for
the Favours conferred on him during the short
period that he has entered on the Business; and of
assuring them that it shall be his Study by rendering
his Stock of Medical Books worthy of their atten-
tion, and by the liberality of his Terms to merit
their future Favours.

Ed. Underwood
Sept. 1754

of Gentlemen leaving this Country for the
East or West Indies, Surgeons in the Army and
Navy, &c. may be supplied on the shortest Notice with
a complete Assortment of Books, adapted to the
several Circumstances, and to the Dispositions of Soldiers and
Sailors.

Printed and sold by J. Underwood, in Pall-mall.

UNDERWOOD'S
MEDICAL CATALOGUE
FOR 1810.

* * *Those Books with an * prefixed, have been published
since October 1809.*

* **A**BERNETHY, John. Surgical Observations on the constitutional Origin and Treatment of Local Diseases, and on Aneurisins. 8vo. 7s.

* ————— Surgical Observations on Diseases resembling Syphilis; and on Diseases of the Urethra, 8vo. 6s.

Accum, Frederic. A System of theoretical and practical Chemistry, 2 vols. 8vo. with Plates, 1l. 1s.

— A Manual of Analytical Mineralogy, intended to facilitate the Practical Analysis of Minerals, 2 vols. 12mo. 2d edition, 14s.

— A Practical Essay on the Analysis of Minerals, exemplifying the best Methods of analysing Ores, Earths, Stones, inflammable Fossils, and mineral Substances in general, 12mo. 7s.

A Companion to the Medicine Chest; or plain Directions

for the Employment of various Medicines and Utensils contained in it, and for the Treatment of Diseases. By a Medical Practitioner, 4th Edition corrected, 18mo. 1s. 6d.

Adair, J. M. An Essay on Diet and Regimen, as indispensable to the Recovery and Preservation of firm Health, especially to the Indolent, Studious, Delicate, and Invalid with appropriate Cases, 8vo. 3s. 6d.

—Natural History of the Body and Mind, 8vo. 3s. 6d.

Adams, Dr. Joseph. Observations on Morbid Poisons; Chronic and Acute. The first comprehending Syphilis, Yaws, Sivvens, Eliphantiasis, and the Anomala confounded with them; the second, the Acute Contagions, particularly the Variolous and Vaccine. Second Edition, illustrated with Coloured Engravings, and further Commentaries on the Doctrines of Mr. Hunter, 4to. 1l. 5s.

—Observations on the cancerous Breast, consisting chiefly of original Correspondence between the Author and Dr. Baillie, Mr. Cline, Dr. Babington, Mr. Abernethy, and Dr. Stokes, 8vo. 3s. 6d.

—A Popular View of Vaccine Inoculation, with the Practical Mode of conducting it. Shewing the Analogy between the Small Pox and Cow Pox, and the Advantage of the latter, 12mo. 4s. 6d.

—An Inquiry into the Laws of Epidemics, with Remarks on the Plans lately proposed for exterminating the Small Pox, 8vo. 5s. 6d.

Aikin, A. & C. R. A Dictionary of Chemistry and Mineralogy, with an Account of the Processes employed in many of the most important Chemical Manufactures. To which are added, a Description of Chemical Apparatus, and various useful Tables of Weights and Measures, Chemical Instruments, &c. &c. Illustrated with 15 Engravings. In 2 vols. 4to. 3l. 13s. 6d.

- Allan, Robert. A Treatise on the Operation of Lithotomy, in which are demonstrated the Dangers of operating with the Gorget, and the Superiority of the more simple Operation with the Knife and Staff. Illustrated with Plates. Folio. 11. 11s. 6d.
- Alley, G. An Essay on a peculiar eruptive Disease arising from the Exhibition of Mercury; illustrated with Cases taken at the Westmoreland Lock Hospital, Dublin, 8vo. 4s.
- * — Observations on the Hydrargyria, or that Vesicular Disease arising from the Exhibition of Mercury, 4to. 12s.
- A large Plate, twenty-eight inches by twenty, representing at one View, the Whole of the Blood-vessels of the Human Body, carefully drawn from injected Preparations, under the immediate direction of the most eminent Surgeons in the Kingdom. By George Kirtland, Anatomical Draftsman. Upon a Canvas Roller, accompanied by a Plate of the same Size, containing a correct coloured Outline, with a very copious Explanation, 2l. 2s.
- A Plate, engraved from a very accurate Drawing by Kirtland, exhibiting, at one View, the Blood-vessels of the Head, with their Names and References, 10s. 6d. coloured.
- A large folio Plate, coloured, exhibiting the interior Blood-vessels of the Arm, 10s. 6d.
- An anterior and posterior View of the Blood-vessels of the Thigh. A large Plate, coloured, 10s. 6d.
- An enlarged coloured View of the External and Internal Ear, from a Preparation of an eminent Surgeon, 5s.
- A single coloured Plate, giving a very accurate transverse Section of the Eye, much magnified, accompanied with a short Explanation. By Dr. Hooper, 3s.
- Anatomical Plates of the Arteries of the Human Body ac-

- curately coloured, and reduced from the Iconis of Haller; with a concise Explanation, 8vo. 15s.
- Anatomia Britannica*; a System of Anatomy and Physiology, selected from the Works of Haller, Albinus, Monro, Winslow, Hunter, Soemmering, Scarpa, Cruikshank, Masgagni, Murray, Walter, Sabatier, Meckel, Zinn, &c. &c. 2d edition, 3 vols. 12mo, 15s.
- Anatomical Examinations.* A complete Series of Anatomical Questions with Answers. The Answers arranged so as to form an Elementary System of Anatomy, and intended as preparatory to Examinations at Surgeons' Hall. To which are annexed, Tables of the Bones, Muscles and Arteries, 2 vols. 12mo. 10s. 6d.
- Andrews, Dr. M. W.* Observations on the Application of Lunar Caustic to Strictures in the Urethra and Æsophagus, 8vo. 5s. 6d.
- An Essay addressed to Medical Students, on the Importance and Utility of the Profession; and on the urgent Necessity there is for them to obtain a more perfect Knowledge of its different Branches than is acquired by Pupils in general, 12mo. 2s. 6d.
- Annual Medical Register for the Year 1808.* By a Society of Physicians, 8vo. 9s.
- * ————— Review and Register, for the Year, 1809. By a Society of Physicians, 8vo. 12s.
- Armstrong, Dr. George.* An Account of the Diseases most incident to Children. To which is added, an Essay on Nursing, with a particular View to Infants brought up by Hand. Also a short Account of the Dispensary for the Infant Poor. A new Edition, with many additional Notes, by A. P. Buchan, M. D. of the Royal College of Physicians, London, 8vo. 7s.
- Arnold, Dr. Thomas.* Observations on the Management of Insane Persons; and particularly on the Agency and

- Importance of humane and kind Treatment in effecting their Cure, 8vo. 3s.
- Arnold, Dr. Thomas. Observations on the Nature, Kinds, Cures, and Prevention of Insanity, 2d Edition corrected and improved, 2 vols. 8vo. 16s.
- Auffin, on the Stone and Bladder, 8vo. 3s.
- * Aysford, Dr. Henry. Tabular Views of the Anatomy of the Human Body, 4to. 10s. 6d.
- Badham, Dr. George. Observations on the Inflammatory Affections of the Mucous Membrane of the Bronchiæ; comprehending an Account of the acute Inflammation of the Parts, of Peripneumonia Notha, and of Chronic Coughs, &c. 12mo. 3s. 6d.
- Baillie, Dr. Matthew. Anatomical Descriptions of the Gravid Uterus, 4to. 5s.
- A Series of Engravings, accompanied with Explanations, which are intended to illustrate the morbid Anatomy of some of the most important Parts of the Human Body, 4to. 10 Fasciculi, 8l. 8s.
- Morbid Anatomy of some of the most important Parts of the Human Body, 3d Edition, corrected and considerably enlarged, 8vo. 9s.
- Banks, Sir Joseph. A Short Account of the Cause of the Disease in Corn, called by the Farmers, the Blight, the Mildew, and the Rust. The 2d Edition, with Additions, and a Letter to Sir J. Banks, on the Origin of the Blight, and on the Means of raising late Crops of Garden Pease. By T. A. Knight, Esq. 8vo. 2s.
- Beddoes, Dr. Thomas. Observations on the Medical and Domestic Management of the Consumptive; on the Powers of Digitalis Purpurea; and on the Cure of Scrophula, 8vo. 7s.
- X —Researches Anatomical and Practical concerning Fever, as connected with Inflammation, 8vo. 8s. 6d.

Barclay, Dr. J. A New Anatomical Nomenclature, relative to the Terms which are expressive of Position and Aspect in the Animal System, 8vo. 5s.

—The Muscular Motions of the Human Body, 8vo. 12s.

Bardsley, Dr. S. A. Medical Reports, or Cases and Experiments, with Observations, chiefly derived from Hospital Practice. To which are added, an Enquiry into Canine Madness; and Thoughts on a Plan for its Extirpation from the British Isles, 8vo. 8s.

Barton, B. S. Elements of Botany; or, Outlines of the Natural History of Vegetables. Illustrated by thirty Plates, 8vo. 15s.

—With coloured Plates, 1l. 4s.

Baudelocque. A System of Midwifery, translated from the French, by John Heath, Surgeon, illustrated by Engravings, 3 vols. 8vo. 1l. 5s.

* Bell, Charles. A System of Dissections, explaining the Anatomy of the Human Body, with the Manner of displaying the Parts; the distinguishing the natural from the diseased Appearances; and pointing out to the Student the Objects most worthy of Attention: during a Course of Dissections. The Third Edition, 2 vols. 12mo. 12s.

* ————— A System of Dissections, explaining the Anatomy of the Human Body, the Manner of displaying the Parts, and their Varieties in Disease, 2d Edition, illustrated by Engravings. Folio. 3l. 3s.

—Engravings of the Arteries, illustrating the second Volume of the Anatomy of the Human Body, by John Bell, Surgeon; and serving as an Introduction to the Surgery of the Arteries. 2d Edition, 8vo. 1l. 1s.

—A Series of Engravings, explaining the Course of the Nerves, 4to. 1l. 1s.

—On the Anatomy of Expression in Painting, 4to. 2l. 2s.

- Bell, Charles. The Anatomy of the Brain explained in a Series of Engravings, 4to. 2l. 2s.
- A System of Operative Surgery, founded on the Basis of Anatomy, 2 vols. 8vo. 1l. 14s.
- * Vol. 2. may be had separate, price 16s.
- * ————— Letters concerning the Diseases of the Urethra, with six Plates, 8vo. 7s. 6d.
- John. The Principles of Surgery, in three Volumes, 4to. Volume I. Of the ordinary Duties of the Surgeon, containing the Principles of Surgery, as they relate to Wounds, Ulcers, and Fistulas; Aneurisms, and wounded Arteries, Fractures of the Limbs, and the Duties of the Military and Hospital Surgeon, 4l. 4s.
- Vol. II. A System of Surgical Operations, containing the Principles of Surgery, as they relate to Surgical Diseases and Operations, as Lithotomy, Trepan, Hernia, Hydrocele, Amputation, &c. 5l. 5s.
- Vol. III. Part I. Containing a Series of Cases, calculated to illustrate chiefly the Doctrine of Tumours and other irregular Parts of Surgery, and to instruct the young Surgeon how to form his Prognostics, and to plan his Operations, 2l. 2s.
- Discourses on the Nature and Cure of Wounds, second Edition, 8vo. 8s.
- * Letters on Professional Character and Manners, on the Education of a Surgeon, and the Duties and Qualifications of a Physician, addressed to James Gregory, M. D. Professor of Medicine in the University of Edinburgh, 8vo. 12s.
- * ————— Engravings of the Bones, Muscles, and Joints, illustrating the first Volume of the Anatomy of the Human Body, 3d Edition, 4to. 1l. 11s. 6d.
- John and Charles. Anatomy of the Human Body. In four volumes, 8vo. The two first Volumes contain the Anatomy of the Bones, Muscles, and Joints, and of the

Heart and Arteries, with numerous Engravings. The third, the Anatomy of the Brain, and Description of the Course of the Nerves, and the Anatomy of the Eye and Ear, with Engravings. The fourth, the Anatomy of the Viscera of the Abdomen, the Parts of the Male and Female Pelvis, and the Lymphatic System, 3l. 1s.

Bell, Benjamin. System of Surgery, illustrated with Copper-plates; the seventh Edition, corrected and enlarged, 7 vols. 8vo. 3l. 3s.

—Treatise on the Venereal Disease, exhibiting a System of modern Practice on this Disease, founded upon the Experience of the most eminent Practitioners in Europe, second Edition, 2 vols. 8vo. 16s.

—George. A Treatise on the Cow Pox; containing an Enumeration of the principal Facts in the History of that Disease; the Method of communicating the Infection by Inoculation; and the Means of distinguishing between the genuine and spurious Cow Pox. Illustrated by Plates. Second Edition, 12mo. 4s.

Bergman's Chemical Essays, 3 vols. 8vo. 1l. 1s.

Berthollet, C. L. An Inquiry into the Laws of Chemical Affinity. Translated from the French by M. Farrell, M. D. 8vo. 7s.

—An Essay on Chemical Statics, with copious Explanatory Notes; and an Appendix on Vegetable and Animal Substances. Faithfully translated from the original French, by B. Lambert, 2 vols. 8vo. 16s.

Black, Dr. J. Lectures on the Elements of Chemistry, delivered in the University of Edinburgh. Now published from his Manuscripts, by John Robinson, L.L.D. Professor of Natural Philosophy in the University of Edinburgh, 2 vols. 4to. 3l. 3s.

Blackburne, Dr. W. Facts and Observations concerning the Prevention and Cure of the Scarlet Fever: with

- some Remarks on the Origin of Acute Contagions in general, 8vo. 4s.
- Blaine, Delabere. A Domestic Treatise on the Diseases of Horses and Dogs: so conducted as to enable Persons to practise with Ease and Success on their own Animals, without the Assistance of a Farrier; including likewise the Management, as Stabling, Feeding, Exercise, &c. together with the Outlines of a Plan for the Establishment of genuine Medicines for those Animals throughout the Kingdom, 12mo. 4s.
- The Outlines of the Veterinary Art, or the Principles of Medicine, as applied to a Knowledge of the Structure, Functions, and Economy of the Horse, the Ox, the Sheep, and the Dog; and to a more scientific and successful Manner of treating their various Diseases, 2 vols. 8vo. 1l. 5s.
- Blane, Dr. Gilbert. Observations on the Diseases of Seamen, third Edition, 8vo. 7s.
- Blair, William. Anthropology, or the Natural History of Man, with a comparative View of the Structure and Functions of animated Beings in general, 8vo. 5s.
- Blumenbach, J. F. A Short System of Comparative Anatomy, translated from the German, by William Lawrence, with numerous additional Notes, and an Introductory View of the Classification of Animals, by the Translator, 8vo. 12s.
- Bostock, Dr. John. An Essay on Respiration. Parts I. and II. 8vo, 6s.
- Remarks on the Reform of the Pharmaceutical Nomenclature, and particularly on that adopted by the Edinburgh College, read before the Liverpool Medical Society. 8vo. 2s.
- Botanical Lectures. By a Lady. Altered from Botanical Dialogues for the Use of Schools; and adapted to the

Use of Persons of all Ages, by the same Author. 8vo. 6s. 6d.

Botanists' Calendar, and Pocket Flora: arranged according to the Linnæan System. To which are added, References to the best Figures of British Plants. 2 Vols. 12mo. 12s.

Bourne, Dr. Robert. Cases of Pulmonary Consumption, &c. treated with Uva Ursi. To which are added, some Practical Observations, 8vo. 7s. 6d.

Boyer's Lectures upon the Diseases of the Bones, arranged into a systematic Treatise, by A. Richerand, Professor of Anatomy and Physiology, and principal Surgeon to the Northern Hospital at Paris. Translated from the French, by M. Farrell, M. D. In 2 vols. 8vo. 14s.

Bree, Dr. R. A Practical Inquiry into disordered Respiration; distinguishing the Species of Convulsive Asthma, their Causes and Indications of Cure. The fourth Edition, with additional Practical Observations, 8vo. 8s.

Brown, Dr. John, Medical Works; to which is prefixed a Biographical Account of the Author; by William Cullen Brown, M. D. lately one of the Presidents of the Royal Medical Society of Edinburgh, 3 vols. 8vo. 1l. 1s.

— Thomas, An Inquiry into the Antivariolous Power of Vaccination; where, from the State of the Phenomena, and the Occurrence of a great Variety of Cases, the most serious Doubts are suggested of the Efficacy of the whole Practice, and its Powers at best proved to be only Temporary. From which will also appear, the Necessity of and proper Period for submitting to Variolous Inoculation, 8vo. 7s. 6d.

Bryce, James. Practical Observations on the Inoculation of Cow-pox; pointing out a new Mode of obtaining and preserving the Infection; and also a certain test of perfect Vaccination. Illustrated by Cases and Plates.

The Second Edition. With an Appendix, containing additional Observations, together with a Plan for extinguishing the Contagion of the Small Pox in the British Empire, and for rendering the Vaccine Inoculation general and effectual. 8vo. 9s.

Buchan, Dr. W. Advice to Mothers, on the Subject of their own Health, and on the Means of promoting the Health, Strength, and Beauty of their Offspring, 8vo. 6s.

—Domestic Medicine, or a Treatise on the Prevention and Cure of Diseases by Regimen and simple Medicines, with an Appendix, containing a Dispensatory for the Use of private Practitioners, the 20th Edition; to which are added, some important Observations concerning Seabathing, and the Use of Mineral Waters, with many other Additions, 8vo. 10s. 6d. bound.

—Observations concerning the Prevention and Cure of the Venereal Disease, intended to guard the Ignorant and Unwary against the baneful Effects of that insidious Malady. Third Edition, augmented and improved by the Author, to which is added a Supplement, containing Remarks on some anomalous Venereal Affections, a Pharmacopœia Syphilitica, &c. 8vo. 5s.

—Dr. W. P. Practical Observations concerning Seabathing; to which is added, Remarks on the Use of the Warm Bath, 2d Edition, 8vo. 7s.

Burdin, Dr. A Course of Medical Studies: containing a comparative View of the Anatomical Structure of Man and of Animals; a History of Diseases; and an Account of the Knowledge hitherto acquired with regard to the regular Action of the different Organs. A Work chiefly designed for the Use of Medical Students. Translated from the French, 3 vols. 8vo. 11. 1s.

Burke, W. A popular Compendium of Anatomy; or, a concise and clear Description of the Human Body, with

the Physiology or natural History of the various Actions and Functions of its different Organs and Parts; containing also an Article on suspended Animation, with the proper Means to be used for the Recovery of Drowned Persons, 12mo. 6s.

Burke, W. A Compendium of the Anatomy, Physiology, and Pathology of the Horse: being a clear, and familiar Description of the various Organs and Parts, together with their Functions, of that useful and beautiful Animal. And also comprising a View of the Diseases and Injuries, with their Symptoms and Modes of Cure, to which the several Parts are liable. Together with a concise Examination of the Economy and Structure of the Foot, and Observations on Shoeing, 12mo. 6s.

Burns, John. On Inflammation, containing Dissertations on some of the Laws of the animal Economy. The History, Causes, Consequences, and Cure of simple Inflammation. On the Phagedenic, and some other Species of Inflammation. On the spongoid Inflammation; on the scrofulous Inflammation; and on the cancerous Inflammation, 2 vols. 8vo. 14s.

—Observations on Abortion: containing an Account of the Manner in which it takes Place, the Causes which produce it, and the Method of preventing or treating it, 8vo. 2d Edition, 5s.

—The Principles of Midwifery; including the Diseases of Women and Children. 8vo. 14s.

*—Practical Observations on the Uterine Hemorrhage; with Remarks on the Management of the Placenta. 8vo. 5s.

*—Allan. Observations on some of the most frequent and important Diseases of the Heart; on Aneurism of the Thoracic Aorta; on preternatural Pulsation in the Epigastric Region; and on the unusual Origin and Distri-

- bution of some of the large Arteries of the Human Body. Illustrated by Cases, 8vo. 7s.
- Butler, Dr. William. A Treatise on Infantile Fever, 8vo. 1s. 6d.
- * Buxton, Dr. Isaac. An Essay on the Use of a regulated Temperature in Winter-Cough and Consumption: including a Comparison of the different Methods of producing such a Temperature in the Chambers of Invalids. 12mo. 4s. 6d.
- * Bywater, John. An Essay on the History, Practice, and Theory of Electricity, 8vo. 6s.
- Cabanis, P. J. G. Sketch of the Revolutions of Medical Science, and Views relating to its reform, translated from the French, by A. Henderson, M. D. 8vo. 9s.
- * Campbell, Dr. Hector. The Pharmacopœia of the Royal College of Physicians of London, 1809. Translated, 12mo. 4s.
- Carmichael, Richard. An Essay on the Effects of Carbonate of Iron upon Cancer. With an Inquiry into the Nature of that Disease. 2d Edition, enlarged and improved, 8vo. 10s 6d.
- * ————— An Essay on the Nature of Scrofula, with Evidence of its Origin from Disorder of the Digestive Organs. Illustrated by a number of Cases successfully treated, and interspersed with Observations on the general Treatment of Children, 8vo. 5s.
- Carpue, J. C. An Introduction to Electricity and Galvanism; with Cases shewing their Effects in the Cure of Diseases: to which is added, a Description of Mr. Cuthbertson's Plate electrical Machine, 8vo. 4s.
- Caton, T. M. A Practical Treatise on the Prevention and Cure of the Venereal Disease; particularly its Consequences, as Strictures, Affections of the Prostate Gland, Tabes Dorsalis, including Onanism, &c. in.

- which a mild and successful Mode of Treatment is pointed out. Third Edition, enlarged, 8vo. 4s. 6d.
- Cavallo, Tiberius. The Elements of natural and experimental Philosophy: with a Number of Engravings, 4 vols. 8vo. 2l. 2s.
- On Electricity, 3 vols. 8vo. 18s.
- Celsus, Cornelius. De Medicina Libri octo quibus accedunt Indices capitum astorum et rerum ex recensione. Leonardi Targæ. 8vo. 12s.
- Chamberlain, W. Practical Treatise on the Efficacy of Stizolobium or Cowhage, internally administered in Diseases occasioned by Worms, 12mo. 3s.
- Chaptal, M. J. A. Chemistry applied to Arts and Manufactures, translated from the French, 4 vols. 8vo. With Plates, 1l. 16s.
- Chevalier, Thomas. A Treatise on Gun-shot Wounds, which obtained the Premium given by the Royal College of Surgeons in London, for the Year 1803. 8vo. 4s. 6d.
- Ditto, 12mo. 3d edition, 4s.
- An Introduction to a Course of Lectures on the Operations of Surgery, 8vo. 2s.
- Cheyne, Dr. John. Essays on the Diseases of Children, with Cases and Dissections. Essay I. of Cynanche Trachealis or Croup, with Plates, 8vo. 15s. Essay II. On the Bowel Complaints, more immediately connected with the Biliary Secretion; and particularly to Atrophia Ab-lactatorum, or weaning Brash, 8vo. 12s. 6d. Essay III. On Hydrocephalus Acutus, or Dropsy in the Brain, Imperial 8vo. 12s. 6d.
- An Essay on Hydrocephalus Acutus, or Dropsy of the Brain, 8vo. 8s.
- * —The Pathology of the Membrane of the Larynx and Bronchia, Royal 8vo. 10s. 6d.
- * Chisholm, Dr. Colin. A Letter to John Haygarth,

M.D. F.R.S. London and Edinburgh, &c. exhibiting further Evidence of the Infectious Nature of the Pestilential Fever in Grenada, during 1793, 4, 5, and 6; and in the United States of America, from 1793 to 1805: in order to correct the pernicious Doctrine promulgated by Dr. Edward Miller, and other American Physicians, relative to this destructive Pestilence. 8vo, 6s.

Churchill, Dr. Thomas. The Medical Remembrancer; or Pharmaceutical Vade Mecum. Being a short Sketch of the Properties and Effects of all the Medicinal Compositions and Simples now in Use, as directed by the College of Physicians, in the last New London Pharmacopœia; arranged under their several Classes. To which is added, an alphabetical Table in Latin and English, with the former and present new Names, containing the proper Doses of each Medicine. Intended as a Complete Pocket Manual. 2d Edition. 12mo. 2s. 6d.

* Clark, Bracey. A Series of original Experiments on the Foot of the living Horse, exhibiting the Changes produced by Shoeing, and the Causes of the apparent Mystery of this Art, 4to. 10s. 6d.

————— Dr. John. Practical Essays on the Management of Pregnancy and Labour, and on the Inflammatory and Febrile Diseases of Lying-in Women, 8vo. 2d Edition, 4s. 6d.

————— Dr. Edward Goodman. The Modern Practice of Physic, 2d edition, 8vo. 9s.

————— *Medicinæ Praxeos Compendium, Symptomata, Causas, Diagnosin, Prognosin, et Medendi Rationem, exhibens. Editio Quarta. Plurimum aucta et emendata, 18mo. 5s.*

————— *Pharmacopœiarum Collegiorum Regalium Londini, Edinburgi, et Eblanæ, Conspectus, Medicus, virtutes, doses et morbes quibus utuntur medicamenta et preparata ostendens, 18mo. 4s. 6d.*

Clark, Dr. John. Observations on the Diseases which prevail in long Voyages to hot Climates, particularly on those in the East Indies, and on the same Diseases as they appear in Great Britain. Third Edition corrected, 8vo. 7s. 6d.

Clutterbuck, Dr. Henry. An Enquiry into the Seat and Nature of Fever, as deducible from the Phænomena, Causes, and Consequences of the Disease, the Effects of Remedies, and the Appearances on Dissection. In two Parts. Part the First. Containing the general Doctrine of Fever, 8vo. 9s.

Coleman's Dissertation on Natural and suspended Respiration 2d Edition, 8vo. 6s. 6d.

Conversations on Chemistry; in which the Elements of that Science are familiarly explained, and illustrated by Experiments, 2 vols. 12mo. 3d Edition. 14s.

* Cooke, W. A Practical Treatise on Tinea Capitis Contagiosa, and its Cure; with an Attempt to distinguish this Disease from other Affections of the Scalp, and a Plan for the Arrangement of Cutaneous Appearances, according to their Origin and Treatment; including an Enquiry into the Nature and Cure of Fungi Hæmatodes and Nævi Materni. The whole exemplified by Cases. Royal, 8vo. 10s. 6d.

Cooper, Samuel. Critical Reflections on some important practical Points relative to the Cataract: comprehending an Account of a new and successful Method of Couching particular Species of that Disease, 8vo. 5s.

— First Lines of the Practice of Surgery, being an Elementary Work for Students, and a concise Book of Reference for Practitioners, 8vo. 2d Edition improved and enlarged, 14s.

— A Treatise on the Diseases of the Joints: being the Observations for which the Prize for 1806 was adjudged by the Royal College of Surgeons, 12mo. 5s.

— A Dictionary of Practical Surgery; containing a

complete Exhibition of the present State of the Principles and Practice of Surgery, collected from the best and most original Sources of Information, and illustrated by Critical Remarks, 8vo. 15s.

* Copeland, Thomas. Observations on some of the principal Diseases of the Rectum and Anus; particularly Stricture of the Rectum, the Hæmorrhoidal Excrecence, and the Fistula in Ano, 8vo. 5s.

Cox, Dr. J. M. Practical Observations on Insanity, in which some Suggestions are offered towards an improved Mode of treating the Mind, 8vo. 6s.

Crampton, Dr. P. An Essay on the Entropion; or, Inversion of the Eyelids, 8vo. 2s. 6d.

Crichton, Dr. Alexander. An Inquiry into the Nature and Origin of mental Derangement; comprehending a concise System of the Physiology and Pathology of the human Mind, and an History of the Passions and their Effects, 2 vols. 8vo. 14s.

—A Synoptical Table of Diseases, exhibiting their Arrangement in Classes, Orders, Genera, and Species, designed for the Use of Students, Folio, 2s. 6d.

Crowther, Bryan. Practical Observations on the Disease of the Joints, commonly called White Swelling; with Remarks on Caries, Necrosis, and Scrofulous Abscess, in which a new and successful Method of treating those Complaints is pointed out. A new Edition, with considerable Additions and Improvements, illustrated with seven Copper-plates, 8vo. 10s. 6d.

Cullen, Dr. William. First Lines of the Practice of Physic. A new Edition, carefully compared with the Author's most correct Edition. With some few Notes by Dr. Gregory, of Edinburgh, 2 vols. 8vo. 7th Edition, 16s.

—Synopsis Nosologiæ Methodicæ Exhibens Clariss, Virorum Sauvagesii, Linnæi, Vogelli, Sagari, et Mac-

- bridii, Systemata Nosologica, edidit suumque proprium Systema Nosologicum Adjecit, Editio Sexta emendata et prioribus accuratius excusa, 8vo. 8s. 6d.
- Cullen, Dr. William. *Materia Medica*, 2 vols. 4to. 2l. 2s.
- Nosology, or Diseases arranged in their Classes, Order, Genera, and Species, accurately defined, with copious Notes and References, 12mo. 5s.
- * — Nosology: or a Systematic Arrangement of Diseases, by Classes, Orders, Genera, and Species, with the distinguishing Characters of each, and outlines of the Systems of Sauvages, Linnæus, Vogel, Sagar, and Macbride. Translated from the Latin, 8vo. 7s.
- Culley, George. *Observations on Live Stock; containing Hints for choosing and improving the best Breeds of the most useful Kinds of Domestic Animals. The fourth Edition, with an Appendix*, 8vo. 7s.
- Culpepper, Dr. *The English Physician, enlarged with Three Hundred and Sixty-nine Medicines made of English Herbs, not in any former Impression of his British Herbal, containing an Astrologo-Physical Discourse on the various Herbs of this Nation, and also a complete Method of Physic, whereby a Man may preserve his Body in Health, or cure himself when Sick, with such Remedies only as grow in England, being the best adapted for English Constitutions. Illustrated with correct Copper Plates of the most useful and remarkable Plants. To which is added, the Family Physician, and a Present for the Ladies, containing the best Remedies for every Disease incident to the Human Body. By Dr. Parkins*, 12mo. 5s.
- * * * On fine Paper with Coloured Plates, 7s. 6d.
- Cuming, Dr. Ralph. *The Naval, Military, and Private Practitioner's Amanuensis, Medicus et Chirurgicus; or a Practical Treatise on Fevers, and all those Diseases which most frequently occur in Practice, with the Mode*

of Cure. Likewise on Amputation, Gun-shot Wounds, Trismus, Scalds, &c. With new and successful Methods of treating Mortification, of amputating at the Shoulder Joint, and of curing Femoral Fractures, 8vo. 7s.

Currie, Dr. James. Medical Reports on the Effects of Water, Cold and Warm, as a Remedy in Fever, and other Diseases, whether applied to the Surface of the Body, or used internally. The third Edition, corrected and enlarged. Two Volumes, 8vo. 14s. Vol. I. including an Inquiry into the Circumstances that render Cold Drink, or the Cold Bath, dangerous in Health. To which are added Observations on the Nature of Fever; and on the Effects of Opium, Alcohol, and Inanition. Vol. II. consisting of the Author's Experience of this Remedy, subsequent to the second Edition of Vol. I. in 1798; and of important Communications from others on the same Subject. To which are added, Four Letters; one on the Sphere of Febrile Contagion; two on the Establishment of a Lunatic Asylum in Liverpool, and one on the Effects of Nitrous Acid in Lues Venerea.

* * * The Second Volume may be had separate, 7s.

Curtis, Charles. An Account of the Diseases of India, as they appeared in the English Fleet, and in the Naval Hospital at Madras, in 1782 and 1783; with Observations on Ulcers, and the Hospital Sores of that Country, &c. &c. To which is prefixed, a View of the Diseases on an Expedition, and Passage of a Fleet and Armament to India, in 1781, 8vo. 7s.

—William. Practical Observations on the British Grasses, especially such as are best adapted to the Laying down or Improving of Meadows and Pastures; likewise an Enumeration of the British Grasses. The 4th Edition with Additions. To which is now added, a Short Account of the Causes of the Diseases in Corn, called

- by Farmers the Blight, the Mildew, and the Rust.
By Sir Joseph Banks, Bart. 8vo. 5s. or with coloured
Plates, 7s. 6d.
- Cuthbertson, John. Practical Electricity and Galvanism;
containing a Series of Experiments, calculated for the
Use of those who are desirous of becoming acquainted
with that Branch of Science. Illustrated by Plates, 8vo.
10s. 6d.
- Cuvier, G. Lectures on Comparative Anatomy. Translated
from the French, by William Ross, under the Inspection
of James Macartney, 2 vols. 8vo. 1l. 1s.
- Dallas, R. C. Elements of Self-Knowledge, intended to lead
Youth into an early Acquaintance with the Nature of
Man, by an Anatomical Display of the human Frame, a
concise View of the mental Faculties, and an Inquiry into
the genuine Nature of the Passions: with an appropriate
Engraving, 8vo. 9s. 12mo. 7s.
- Dalton, John. A new System of Chemical Philosophy.
Part I. 8vo. 7s.
- Darwin, Dr. Erasmus. Zoonomia, or the Laws of Organic
Life, 4 vols. 8vo. Third Edition, corrected. 1l. 16s.
- Phytologia; or the Philosophy of Agriculture and Gar-
dening. With the Theory of draining Morasses, and
with an improved Construction of the Drill Plough. 4to.
1l. 11s. 6d.
- * —Robert Waring. Principia Botanica; or a concise
and easy Introduction to the sexual Botany of Linnæus,
containing the Genera, their mode of Growth, as
Tree, Shrub, or Herb; the known Number of Species
to each Genus; where principally native; and the Num-
ber of Indigenous to the British Isles: arranged in a Ta-
bular Form, under each Class and Order; and digested
alphabetically under several Generic Distinctions. Togeth-
er with three Indexes. 1. Of the Linnæan Genera, ac-
cented with the British Names. 2. Of such trivial

- Names as were the Genera of old Authors. 3. Of the British Names, with the Linnæan Genera; to which are added the specific Names. Also a Table of Vegetable Drugs not in the Indexes. The third Edition, corrected and enlarged, with many curious and useful additional Notes. 8vo. 10s. 6d.
- Davis, Dr. J. F. An Inquiry into the Symptoms and Treatment of Carditis; or the Inflammation of the Heart, illustrated by Cases and Dissections, 12mo. 6s.
- Davy, H. Outlines of a Course of Lectures on Chemical Philosophy, 8vo. 3s.
- * Daubenton's Observations on Indigestion; in which is satisfactorily shown the Efficacy of Ipecacuan, in relieving this, as well as its connected Train of Complaints, peculiar to the Decline of Life. The Third Edition, with Additions by Dr. Buchan, 8vo. 1s. 6d.
- * Dawson, G. P. Observations on the Walcheren Diseases, which affected the British Soldiers in the Expedition to the Scheldt, commanded by Lieut. Gen. the Earl of Chatham, 8vo. 7s.
- Dede, James. The English Botanists' Pocket Companion; containing the essential Generic Characters of every British Plant, arranged agreeably to the Linnean System; together with a short and easy Introduction to the Study of Botany, and an Explanation of the Principles upon which the Classification of the Species is founded, 12mo. 4s.
- Denman, Dr. Thomas. Introduction to the Practice of Midwifery, 4th Edition, 2 vols. 8vo. 17s.
- Ditto, 4to. with Plates, 5th Edition, 2l. 2s.
- * ——— Observations on the Rupture of the Uterus, on the Snuffles in Infants, and on Mania Lactea, 8vo. 2s. 6d.
- Aphorisms on the Application and Use of the Forceps and Vectis; on preternatural Labours, on Labours at-

tended with Hemorrhage, and with Convulsions. 5th Edition, 12mo. 3s. 6d.

Dewar, H. Observations on Diarrhoea and Dysentery, as those Diseases appeared in the British Army, during the Campaign in Egypt, in 1801. To which are prefixed, a Description of the Climate of Egypt, and a Sketch of the Medical History of the Campaign, second Edition, 8vo. 4s.

Domestic Pharmacopœia: or Complete Medical Guide for Families, 12mo. 4s.

Duncan, Dr. A. Medical Commentaries for 1801, 2, 3, 8vo. 1l. 5s.

— Drs. A. sen. and jun. Annals of Medicine, exhibiting a concise View of the latest and most important Discoveries in Medicine and Medical Philosophy, for 1801, 2, 3, and 4. 3 vols. 8vo. 9s. each.

* — Dr. A. Jun. The Edinburgh New Dispensatory: containing 1. The Elements of Pharmaceutical Chemistry. 2. The Materia Medica, or the Natural, Pharmaceutical, and Medical History, of the Substances employed in Medicine. 3. The Pharmaceutical Preparations and Compositions. Including Translations of the London Pharmacopœia, published in 1809; of the Edinburgh Pharmacopœia, in 1805; and of the Dublin Pharmacopœia, in 1807. Illustrated and explained in the Language, and according to the Principles of Modern Chemistry. With many new and useful Tables; and several Copper-plates of Chemical Characters and Pharmaceutical Apparatus, 5th Edition, 8vo. 14s.

Dunne, Charles. The Chirurgical Candidate; or, Reflections on Education, indispensable to complete Naval, Military, and other Surgeons, 8vo. 10s. 6d.

Earle, Sir James. A Letter, containing some Observations on Fractures of the lower Limbs; to which is added, an

Account of a Contrivance to administer Cleanliness and Comfort to the Bed-ridden, or Persons confined to bed by Age, Accident, Sicknefs, or any other Infirmity, with explanatory Notes, 8vo. 3s.

Earle, Sir James. Observations on the Cure of the curved Spine, in which the Effect of mechanical Assistance is considered, second Edition, 8vo. 5s.

—A Treatise on the Hydrocele; containing an Examination of all the useful Methods of obtaining Relief in that Disease. The radical Cure by Injection is particularly described and illustrated with Cases, third Edition, with Notes and Additions, 8vo. 6s.

—Practical Observations on the Operation for the Stone, second Edition, with an Appendix, containing a Description of an Instrument to improve that Operation, 8vo. 5s.

Edinburgh Medical and Surgical Journal, exhibiting a concise View of the latest and most important Discoveries in Medicine, Surgery, and Pharmacy, 6 vols. 8vo. 3l. 15s. or in 24 Numbers at 3s. each.

Edinburgh Medical and Physical Dictionary; containing not only an Explanation of the Terms of Art used in Anatomy, Physiology, Pathology, Therapeutics, Surgery, Midwifery, Pharmacy, Materia Medica, Botany, Chemistry, Natural History, &c. as employed in the present improved State of Medical Science; but also a copious Account of Diseases and their Treatment, agreeably to the Doctrines of Cullen, Monro, Hunter, Fordyce, Gregory, Denman, Saunders, Home, and other modern Teachers in Edinburgh and London. With a copious Glossary of obsolete Terms. By Robert Morris, M. D. James Kenrick, Surgeon, F. L. S. and others. 2 vols. 4to. 4l. 4s.

Edinburgh Practice of Physic, Surgery, and Midwifery; preceded by an Abstract of the Theory of Medicine, and

the Nosology of Dr. Cullen; and including upwards of six hundred authentic Formulæ, from the Books of St. Bartholomew's, St. George's, St. Thomas's, Guy's, and other Hospitals in London, and from the Lectures and Writings of the most eminent public Teachers, with twenty quarto Plates. A new Edition, in five large Volumes, 8vo. 3l. 15s.

Edmonston, Dr. Arthur. A Treatise on the Varieties and Consequences of Ophthalmia. With a preliminary Enquiry into its contagious Nature, 8vo. 7s.

Elements of Natural History; being an Introduction to the Systema Naturæ of Linnæus: comprising the Characters of the whole Genera, and most remarkable Species; particularly all those that are Natives of Britain, with the principal Circumstances of their History and Manners. Likewise; an Alphabetical Arrangement, with Definitions of Technical Terms. With explanatory Plates, 2 vols. 8vo. 18s.

Elements of the Science of Botany, as established by Linnæus; with Examples to illustrate the Classes and Orders of his System, 2 vols. 8vo. 2d Edition, 1l. 6s. with coloured Plates, 2l. 2s.

Elliot, Dr. John. The Medical Pocket-book, containing a short but plain Account of the Symptoms, Causes, and Methods of Cure of the Diseases incident to the Human Body; including such as require surgical Treatment; together with the Virtues and Doses of medical Compositions and Simples. Extracted from the best Authors, and digested into alphabetical Order: 6th Edition, with Additions and Corrections, 18mo. 3s. 6d.

Euler's Letters on different Subjects in Physics and Philosophy, addressed to a German Princess, translated from the French, by Henry Hunter, D. D. with original Notes, and a Glossary of Foreign and Scientific Terms, second Edition, 2 vols. 8vo. 18s.

Falconer, Dr. William. A Practical Dissertation on the Medicinal Effects of the Bath Waters. Third Edition, 8vo. 5s.

Farmer's Dictionary. The Complete Farmer; or, General Dictionary of Husbandry and Agriculture: comprehending the most improved Methods of Cultivation: the different Modes of raising Timber, Fruit, and other Trees: and the modern Management of Live Stock: with Descriptions of the most approved Implements, Machinery, and Farm Buildings. The fifth Edition, wholly rewritten and enlarged, 2 vols. 4to. 6l. 6s.

* Ford, Edward. Observations on the Disease of the Hip-Joint: to which are added some Remarks on White Swellings of the Knee, the Caries of the Joints of the Wrist, and other similar Complaints, the whole illustrated by Cases and Engravings, taken from the diseased Parts. The second Edition, revised carefully, and published with some additional Notes, by Thomas Copeland, Fellow of the College of Surgeons, and Assistant Surgeon to the Westminster Dispensary, 8vo. 12s.

Fothergill, Dr. A complete Collection of his Medical and Philosophical Works: with an Account of his Life, and occasional Notes by John Elliott, M.D. 8vo. 7s. 6d. bound.

—A concise and systematic Account of a painful Affection of the Nerves of the Face, commonly called Tic Douloureux, 8vo. 3s.

Fourcroy, A. F. Elements of Chemistry and Natural History, to which is prefixed the Philosophy of Chemistry, the fifth Edition, with Notes, by John Thomson, Surgeon, Edinburgh, 3 vols. 8vo. 1l. 11s. 6d.

—A General System of Chemical Knowledge, and its Application to the Phenomena of Nature and Art. With the Synoptic Tables of Chemistry. Translated from the new and enlarged Edition of the French Original, re-

cently published at Paris, (which includes the whole of Modern Discoveries.) By William Nicholson, Author of the Chemical Dictionary and Philosophical Journal, &c. &c. 11 vols. 8vo. With the Synoptic Tables in Folio, 3l. 3s.

* * * The Tables may be had separate, 14s.

Fourcroy, A. F. Chemical Philosophy; or the Established Bases of Modern Chemistry. Intended to serve as an elementary Work for the Study of that Science. Third Edition, considerably enlarged and amended. Translated from the French by W. Desmond, 8vo. 7s.

Fox, Dr. Joseph. A New Medical Dictionary, containing a concise Explanation of all the Terms used in Medicine, Surgery, Pharmacy, Botany, Natural History, and Chemistry, compiled, revised, and augmented, by Thomas Bradley, M. D. a new Edition, 12mo. 5s.

— Joseph. Natural History of the Human Teeth, Vol. I. including a particular Elucidation of the Changes which take Place during the second Dentition, and describing the proper Mode of Treatment to prevent and remedy Irregularities of the Teeth; to which is added, an Account of the Diseases which affect Children during their first Dentition, 4to. 1l. 1s.

Vol. II. The History and Treatment of the Diseases of the Teeth, Gums, and Alveolar Process, with the Operations which they respectively require. To which are added, Observations on the Diseases of the Mouth, and on the Mode of fixing Artificial Teeth. Illustrated with Copper-plates, 1l. 1s.

Frazer, Dr. Henry. Treatise on Epilepsy and the Use of the Viscus Quercinus, or Mistletoe of the Oak, in the Cure of that Disease, 8vo. 2s. 6d.

Freer, George. Observations on Aneurism, and some Diseases of the Arterial System, 4to. 1l. 1s.

Fyfe, Andrew. Compendium of the Anatomy of the Hu-

- man Body, with Plates representing the most important Parts of the Human Body, and concise Explanations, selected for the Use of Students attending Anatomy, 3 vols. second Edition, 8vo. 1l. 11s. 6d. Without Plates, 3 vols. 8vo. 18s. With Plates, 3 vols. 4to. 5l. 5s. Coloured, 7l. 7s.
- Gall, Dr. Some Account of his new Theory of Physiognomy, founded upon the Anatomy and Physiology of the Brain, and the Form of the Skull. With the Critical Strictures of C. W. Hufeland, M. D. Author of the Art of prolonging Life, &c. 8vo. 6s.
- Garnett, Dr. T. Outlines of a Course of Lectures on Chemistry, delivered at the Royal Institution of Great Britain, 8vo. 5s.
- Gregory, Dr. G. The Economy of Nature explained and illustrated on the Principles of Modern Philosophy. The third Edition, with considerable Additions, 3 vols, 8vo. with Plates, 1l. 11s. 6d.
- Haller. First Lines of Physiology, translated from the third Latin Edition: to which is added, a Translation of the Index, composed for the Edinburgh Edition, printed under the Inspection of Dr. William Cullen, 8vo. 10s. 6d.
- Halliday, Dr. Andrew. Observations on Emphysema, or the Disease which arises from an Effusion of Air into the Cavity of the Thorax, or Subcutaneous Cellular Membrane, 8vo. 5s.
- Hamilton, Dr. James. Observations on the Utility and Administration of Purgative Medicines in several Diseases, 3d Edition, 8vo. revised and enlarged, 9s.
-
- A Collection of Engravings designed to facilitate the Study of Midwifery, explained and illustrated, 8vo. 6s.
-
- * Hints for the Treatment of the principal Diseases of Infancy and Childhood, adapted to the Use of Parents, 8vo. 6s.

Hamilton, Dr. Alex. *Outlines of the Theory and Practice of Midwifery*, fifth Edition, with numerous Corrections and Alterations, 8vo. 7s. 6d.

————— *A Treatise on the Management of Female Complaints, and of Children in early Infancy, &c.* Sixth Edition. Revised and enlarged by Dr. James Hamilton, Professor of Midwifery in the University of Edinburgh, &c. 8vo. 9s.

— *Select Cases in Midwifery, extracted from the Records of the Edinburgh General Lying-in Hospital, with Remarks*, 8vo. 4s.

— Robert. *Letters on the Cause and Treatment of the Gout; in which some digressive Remarks on other Medical Subjects are interspersed*, 8vo. 5s. 6d.

— William. *Observations on the Preparation, Utility, and Administration of the Digitalis Purpurea, or Fox-glove, in Dropsy of the Chest, Consumption, Hemorrhage, Scarlet Fever, Measles, &c.* Including a Sketch of the Medical History of this Plant, and an Account of the Opinion of those Authors who have written upon it, during the last thirty Years. Illustrated by Cases, 8vo. 6s.

————— *The Enchiridion Medicum; or Young Practitioners Pocket Companion: being a Conspectus of the London, Dublin, and Edinburgh Pharmacopæias, with a Collection of Formulæ; and the requisite Tables of Synonyms*, 12mo. 6s.

Harrington, Dr. Robert. *The Death Warrant of the French Theory of Chemistry, signed by Truth, Reason, Common Sense, Honour, and Science.* With a Theory fully clearly, and rationally accounting for all the Phenomena. Also, a full and accurate Investigation of all the Phenomena of Galvanism; and Strictures upon the Chemical Opinions of Messrs. Weigleb, Cruickshanks, Davy, Leslie, Count Rumford, and Dr. Thomson. Likewise

- Remarks upon Mr. Dalton's late Theory, and other Observations, 8vo. 7s. 6d.
- * Harrison, Dr. Edward. An Address delivered to the Lincolnshire Benevolent Medical Society at their Anniversary Meeting in 1809, containing an Account of the Proceedings lately adopted to improve Medical Science, and an Exposition of the intended Act for regulating Medical Education and Practice. To which is added an Appendix, comprising the Acts of Henry the 8th, and the Correspondence had with the Public Bodies; together with the legal Opinion of an eminent Counsel on the Subject of Medical Regulation, &c. Published at the unanimous Request of the Meeting. 8vo. 6s.
- Harty, W. Observations on the simple Dysentery, and its Combinations; containing a Review of the most celebrated authors who have written on this Subject; also an Investigation into the Source of Contagion in that and some other Diseases, 8vo. 7s. 6d.
- Hassam, John. Observations on Madness and Melancholy: including practical Remarks on those Diseases; together with Cases, and an Account of the morbid Appearances on Dissection. The second Edition considerably enlarged. 8vo. 9s.
- Hauy, M. R. J. An Elementary Treatise on Natural Philosophy. Translated from the French by Olinthus Gregory, A. M. 2 vols. 8vo. 1l. 4s.
- Haygarth, Dr. J. Clinical History of Diseases—Part I. A Clinical History of Acute Rheumatism.—II. A Clinical History of the Nodosity of the Joints. Read to the Literary and Philosophical Society at Bath, 8vo. 5s.
- On the Prevention of infectious Fevers, and on the Prevention of American Pestilence, 8vo. 5s.
- Heberden, Gulielmus. Commentarii de Morborum Historiâ et Curatione, 8vo. Editio Altera, 7s. 6d.

Heberden, Dr. William. Commentaries on the History and Cure of Diseases, 3d Edition, 8vo. 8s.

—An Epitome of the Diseases incident to Children, 12mo. 3s.

—An Epitome of Infantile Diseases, with their Causes, Symptoms, and Method of Cure. Translated into English by John Smith, M. D. 8vo. 3s.

—Observations on the Plague; &c. 4to. 5s.

Herdman, Dr. John. Dissertations on White Swelling of the Joints, and the Doctrine of Inflammation. Dissert. I. Of the Nature and Cure of Scrofula.—II. An Examination of the Grounds on which White Swelling of the Joints has been divided into a scrophulous and rheumatic Species.—III. Of the Doctrine of Inflammation, and the Causes and Nature of White Swelling of the Joints.—IV. Of the Method of Cure which should be employed in White Swelling, 8vo. 5s.

————— Discourses on the Management of Infants and the Treatment of their Diseases. Written in a plain familiar Style, to render them intelligible and useful to all Mothers, 8vo. 6s.

* Hey, William. Practical Observations in Surgery, illustrated by Cases. The 2d Edition corrected and enlarged; with additional Plates, 8vo. 13s.

* Highmore, Anthony. The Public Charities of London, being an Account of their Origin, Design, and present State, classed alphabetically under the Denominations of Hospitals, Dispensaries, Colleges, Alms-houses, Schools, and Miscellaneous Charities, 4to. 1l. 1s.

Home, Everard. Observations on Cancer, connected with Histories of the Disease, 8vo. 5s. 6d

—Practical Observations on the Treatment of Ulcers on the Legs, considered as a Branch of Military Surgery. To which are added, some Observations on Varicose Veins and Piles. Second Edition, considerably enlarged, 8vo 7s.

- Home, Everard. *Practical Observations on the Treatment of Strictures in the Urethra and in the Œsophagus.* In 2 vols. 8vo. 3d Edition. 14s. 6d.
- Hooper, Dr. Robert. *The Anatomist's Vade-Mecum, containing the Anatomy, Physiology, Morbid Appearances, &c. of the Human Body, the Art of making Anatomical Preparations, &c.* To which are now added, Anatomical, Physiological, Medical, and Surgical Examinations for Students, a new Edition, very materially improved, 12mo. 9s.
- *Anatomical Plates of the Bones and Muscles, diminished from Albinus; accompanied by Explanatory Maps. For the Use of Students.* The 3d Edition, 12mo. 7s.
- *Anatomical Plates of the Thoracic and Abdominal Viscera: accompanied by Explanatory Maps. For the Use of Students,* 12mo. 5s.
- *The Physician's Vade Mecum: containing the Symptoms, Causes, Diagnosis, Prognosis, and Treatment of Diseases. Accompanied by a select Collection of Formulæ, and a Glossary of Terms,* 12mo. 6s.
- Howard, John. *Practical Observations on the Natural History and Cure of the Venereal Disease,* 2 vols. 8vo. 18s.
- Hull, Dr. John. *The British Flora, or a systematic Arrangement of British Plants. Vol. I.* 2d edition. All the new Species of British Plants belonging to the first 23 Classes are now added from Sowerby's *British Botany*. References are given to the Plates of that Work up to the Month of May, 8vo. 9s.
- *A Defence of the Cæsarean Operation, with Observations on Embryulcia, and the Section of the Symphysis Pubis, addressed to Mr. W. Simmons, of Manchester, Author of Reflections on the Propriety of performing the Cæsarean Operation. Containing some new Cases, and illustrated by seven Engravings,* 8vo. 9s.

- Hull, Dr. John. Elements of Botany, 2 vols. 8vo. 16s.
- Hunter, Dr. William. Plates of the Gravid Uterus, as large as Life, with Explanations in Latin and English, Folio, 5l. 5s.
- An Essay on the Diseases incident to India Seamen, and Lascars in long Voyages, Folio, 15s.
- John. Treatise on the Blood, Inflammation, and Gun-shot Wounds; to which is prefixed, an Account of the Life of the Author, by Everard Home, with Plates, 4to. 1l. 11s. 6d.
- Observations on certain Parts of the Animal Economy. Second Edition, 4to. 16s.
- Natural History of the Human Teeth: explaining their Structure, Use, Formation, Growth, and Diseases. Illustrated with Copper-plates. To which is added, a Practical Essay on the Diseases of the Teeth. Third Edition, 4to. 1l. 1s.
- * —A Treatise on the Venereal Disease. The Third Edition, enlarged from the Materials left by the Author for that Purpose; with occasional Observations of the Editor, Everard Home, 4to. 1l. 11s. 6d.
- * —A Treatise on the Venereal Disease, with an Introduction and Commentary by Joseph Adams, M. D. 8vo. 14s.
- Observations on the Diseases of the Army in Jamaica, and on the best Means of preserving the Health of Europeans in that Climate. Also Observations on the Hepatitis of the East Indies. Third Edition, 8vo. 7s.
- Imison, John. Elements of Science and Art; being a familiar Introduction to Natural Philosophy and Chemistry. Together with their Application to a Variety of elegant and useful Arts. A new Edition, considerably enlarged, and adapted to the improved State of Science. By T. Webster. Illustrated by thirty Plates, by Lowry, 2 vols. 8vo. 1l. 5s.

- Innes, John. A short Description of the Human Muscles, arranged as they appear on Dissection; together with their several Uses, and the Synonyma of the best Authors. A new Edition, with considerable Alterations and Improvements; illustrated with sixteen Plates, descriptive of the Bones and Muscles, 12mo. 7s. 6d.
- Irvine, Dr. William. Effays, chiefly on Chemical Subjects, 8vo. 9s.
- * —Some Observations upon Diseases, chiefly as they occur in Sicily, 8vo. 5s.
- Jackion, Dr. R. Remarks on the Constitution of the Medical Department of the British Army; with a Detail of Hospital Management, and an Appendix, attempting to explain the Action of Causes in producing Fevers, and the Operation of Remedies in effecting Cures, 8vo. 7s. 6d.
- A System of Arrangement and Discipline for the Medical Department of Armies, 8vo. 12s. 6d.
- An Outline of the History and Cure of Fever, Endemic and Contagious; more expressly contagious Fevers of Jails, Ships, and Hospitals, the concentrated Endemic, vulgarly called the Yellow Fever of the West Indies. To which is added, an Explanation of the Principles of military Discipline and Economy; with a Scheme of medical Arrangement for the Army: and a Refutation of the Strictures made by the late Dr. Currie on that Part of the Work, which relates to the Affusion of cold Water on the Surface, 8vo. 2d Edition, 7s.
- Jackion, Dr. R. An Exposition of the Practice of affusing cold Water on the Surface of the Body, as a Remedy for the Cure of Fever: to which are added, Remarks on the Effects of cold Drink, and of Gestation in the open Air in certain Conditions of that Disease, 8vo. 10s. 6d.
- Jamefon, Robert. A System of Mineralogy; comprehending

- Oryctognosy, Geognosy, Mineralogical Chemistry, Mineralogical Geography, and Œconomical Mineralogy. Vols. I. and II. containing Oryctognosy, 1l. 6s. Vol. III. containing Geognosy, 12s.
- Jameson Robert. A Treatise on the external Characters of Minerals, 8vo. 4s.
- Johnson, Dr. W. B. History of the Progress and present state of Animal Chemistry, 3 vols. 8vo. 1l. 4s.
- * —C. T. A Practical Essay on Cancer: being the Substance of Observations, to which the Annual Prize for 1808 was adjudged by the Royal College of Surgeons of London, 8vo. 5s. 6d.
- Johnston, Henry. Practical Observations on Urinary Gravel and Stone; on Disease of the Bladder and Prostrate Gland, and on Strictures of the Urethra, 12mo. 5s.
- Johnstone, Dr. J. An Account of the Discovery of the Power of Mineral Acid Vapours, to destroy Contagion, &c. 8vo. 1s.
- Jones, J. F. D. A Treatise on the Process employed by Nature in suppressing the Hemorrhage from divided and punctured Arteries; and on the Use of the Ligature, concluding with Observations on Secondary Hemorrhage: the whole deduced from an extensive Series of Experiments, and illustrated by fifteen Plates, 8vo. 10s. 6d.
- * —Dr. E. G. An Account of the remarkable Effects of the Eau Medicinale d' Hussion, in the Gout, 2d Edition, 8vo. 4s. 6d.
- Joyce, Rev. J. Dialogues in Chemistry, intended for the Instruction and Entertainment of Young People; in which the first Principles of that Science are fully explained. To which are added, Questions and other Exercises for the Examination of Pupils. 2 vols. 12mo. 2d Edition. 7s.
- Keighley, Dr. W. A new System of Family Medicine, for

the use of Midwives, Mothers, and Nurses; also a complete Treatise on the Management and Diseases of Children, 8vo. 6s.

Kentish, Dr. Edward. Essay on warm and Vapour Baths: with Hints for a new Mode of applying Heat and Cold, for the Cure of Disease, and the Preservation of Health. Illustrated by Cases. 8vo. 4s. 6d.

Kinglake, Dr. Robert. A Dissertation on Gout; exhibiting a new View of the Origin, Nature, Cause, Cure, and Prevention of that afflicting Disease, illustrated and confirmed by a Variety of original and communicated Cases, 8vo. 7s. 6d.

— Additional Cases of Gout, in further Proof of the salutary Efficacy of the cooling Treatment of that afflicting Disease; with illustrative Annotations, written Authorities in its Support, controversial Discussions, and a View of the present State and future Prospects of the Practice, 8vo. 8s. 6d.

Kirby, J. Tables of Materia Medica, or a Systematic Arrangement of all the Articles admitted by the Colleges of London, Edinburgh, and Dublin, with a Number of Original and Selected Formulæ, 18mo. 4s.

Kirtland, J. Anatomical Plates of the Bones and Muscles of the Extremities of the Human Body; with explanatory Maps, 12mo. 5s.

Kirwan, Richard. The Manures most advantageously applicable to the various Sorts of Soils, and the Causes of their beneficial Effect, in each particular Instance, 12mo. 2s. 6d.

— Geological Essays, 8vo. 9s.

Klaproth, Matthew Henry. Analytical Essays towards promoting the Chemical Knowledge of Mineral Substances. Translated from the German, 2 vols. 8vo. 16s. 6d.

Lambe, Dr. William. Reports on the Effects of a pecu-

liar Regimen on Schirrous Tumours and Cancerous Ulcers, 8vo. 5s.

Lambe, Dr. William. Inquiry into the Origin, Symptoms and Cure of Constitutional Diseases, 8vo. 5s. 6d.

—Researches into the Properties of Spring Water, 8vo. 5s.

Lara, B. A Dictionary of Surgery; or the Young Surgeon's Pocket-Assistant, 12mo. bound 6s.

Latham, Dr. J. On Rheumatism and Gout, 8vo. 2s.

Latta, James. A Practical System of Surgery, with Copper-plates, 3 vols. 8vo. 1l. 4s.

Lavoisier. Elements of Chemistry in a new systematic Order, containing all the modern Discoveries, illustrated by thirteen Copper-plates, translated from the French by Robert Kerr, F. R. and A. S. Edinburgh, fifth Edition, 2 vols, 8vo. 14s.

* Lawrence, William. A Treatise on Ruptures, containing an Anatomical Description of each Species, with an Account of its Symptoms, Progress, and Treatment. The 2d Edition corrected, and very considerably enlarged, 8vo. 10s. 6d.

Leslie, John. An Experimental Inquiry into the Nature and Propagation of Heat, with nine Engravings by Lowry, 8vo. 14s.

Lewis, W. The new Dispensatory, containing I. The Elements of Pharmacy. II. The Materia Medica; or an Account of the Substances employed in Medicine, with the Virtues and Uses of each Article, so far as they are warranted by Experience and Observation. III. The Preparations and Compositions of the New London and Edinburgh Pharmacopœias; with some of the most celebrated foreign Medicines; the most useful of those directed in Hospitals; sundry elegant extemporaneous Forms, &c. digested in such a Method as to form a regular System of Pharmacy; with Remarks on their Pre-

parations and Uses; the Means of distinguishing Adulterations: of performing the more difficult and dangerous Processes with Ease and Safety, &c. The Whole interspersed with practical Cautions and Observations. The sixth Edition, carefully revised, in which are inserted the various Improvements that have occurred in Medicine, from the Period of its last Publication. 8vo. 9s.

Lewis, W. An Experimental History of the Materia Medica, or of the natural and artificial Substances made use of in Medicine: containing a compendious View of their Natural History, an Account of their Pharmaceutic Properties, and an Estimate of their medicinal Powers, so far as they can be ascertained by Experience, or by rational Induction from their sensible Qualities. The Fourth Edition, with numerous Additions and Corrections by John Aikin, M. D. 2 vols. 8vo. 15s.

Lind, Dr. James. An Essay on Diseases incidental to Europeans in Hot Climates. With the Method of preventing their fatal Consequences. To which is added, an Appendix, concerning Intermittent Fevers, and a simple and easy Way to render Sea water fresh, and to prevent a Scarcity of Provisions in long Voyages at Sea. Sixth Edition, 8vo. 8s.

Linnæus, Sir Charles. A general System of Nature through the three grand Kingdoms of Animals, Vegetables, and Minerals, systematically divided into their several Classes, Orders, Genera, Species, and Varieties, with their Habitations, Manners, Economy, Structure, and Peculiarities. Translated from Gmelin's last Edition of the celebrated *Systema Naturæ*: amended and enlarged by the Improvements and Discoveries of later Naturalists and Societies, with appropriate Copper-plates, by William Turton, M. D. 7 vols. 8vo. 5l. 5s. with coloured Plates, 6l. 6s.

Lipscomb, Dr. George. **The History of Canine Madness and Hydrophobia: with the Methods of Treatment Ancient and Modern,** 8vo. 7s.

London Practice of Midwifery, or a Manual for Students; being a complete Course of Practical Midwifery; in which are included, the Treatment of Lying-in Women, and the Diseases of Children; second Edition, 12mo. 6s.

————— **Physic, wherein the Definitions and Symptoms of Diseases, with the present Methods of Cure, are clearly laid down: to which are added proper Tables, exhibiting the Doses of Medicines, and the Quantity of Purgatives, Opiates, and Mercurials, in the Composition of the London Dispensatory; and complete Indexes of the Diseases and Medicines. The whole calculated for the general Use of Young Practitioners. The sixth Edition, with large Additions and Amendments,** 8vo. 8s.

——— **Medical Review, Vol. I. II. and III** 1l. 11s. 6d. To be continued Quarterly, 2s. 6d. each Number.

——— **Dissector; or a Compendium of Practical Anatomy; containing a Description of the Muscles, Vessels, Nerves, and Viscera of the Human Body, as they appear on Dissection; with Directions for their Demonstration.** 2d Edition, 12mo. 5s.

——— **Medical Dictionary, including under distinct Heads every Branch of Medicine, viz. Anatomy, Physiology, and Pathology; the Practice of Physic and Surgery, Therapeutics, and Materia Medica; with whatever relates to Medicine in Natural Philosophy, Chemistry, and Natural History. By Bartholomew Parr, M. D. In 2 vols. 4to. with Plates,** 6l.

Luxmoore, Thomas. A Manual of Anatomy and Physiology, reduced as much as possible to a tabular Form, for the

Underwood's Medical Catalogue

- Purpose of facilitating to Students the Acquisition of these Sciences, 12mo. 8s. 6d.
- * Luxmoore, Thomas. Practical Observations on the Structure of the Urethra with Cases illustrative of the comparative Merits of the Caustic and Common Bougie; also Remarks on Fittula in Ano, and an improved Method of treating Tinea Capitis. With annexed Cases, 8vo. 5s. 6d.
 - * Maclean, Dr. L. An Enquiry into the Nature, Causes, and Cure of Hydrothorax; illustrated by interesting Cases, and many living Examples of the Success of the Mode of Treatment recommended, 8vo. 12s.
 - * Maiben, Dr. W. A Treatise on the Use of Mercury, in certain Diseases, 8vo. 2s. 6d.
- Mc. Gregor, James. Medical Sketches of the Expedition to Egypt from India, 8vo. 7s.
- Marryatt Improved. Therapeutics: or the Art of Healing, by Thomas Marryatt, M. D. To which are added, a Glossary, explaining all the difficult Words. And Receipts for preparing the most useful popular Medicines. The twentieth Edition, revised, corrected, and enlarged, 12mo. 4s.
- Martin, W. Outlines of an Attempt to establish a Knowledge of Extraneous Fossils on Scientific Principles, 8vo. 8s.
- * Mathias, Andrew. An Inquiry into the History and Nature of the Disease produced in the Human Constitution by the Use of Mercury, with Observations on its Connexion with the Lues Venerea, 8vo. 7s.
- Medical Facts and Observations, 8 vols. 8vo. 1l. 14s. 6d.
- Medico-Chirurgical Transactions, published by the Medical and Chirurgical Society of London, vol. 1, 8vo. 14s.
- Memoirs of the Medical Society of London, instituted in the Year 1773. Vol. VI. 8vo. 12s.
- Miller, Philip. The Gardeners' and Botanists' Dictionary; containing the best and newest Methods of Cultivating

and Improving the Kitchen, Fruit, and Flower Garden, and Nursery; of performing the practical Parts of Agriculture; of managing Vineyards, and of propagating all Sorts of Timber Trees. A new Edition, to which is now first added, a complete Enumeration and Description of all Plants hitherto known, with their generic and specific Characters, Places of Growth, Times of Flowering, and Uses both Medicinal and Economical. The Whole corrected and newly arranged, with the Addition of all the modern Improvements in Landscape Gardening, and in the Culture of Trees, Plants, and Fruits, particularly in the various Kinds of Hot Houses and Forcing Frames; with Plates explanatory both of them, and the Principles of Botany. By Thomas Martyn. B. D. F. R. S. Regius Professor of Botany in the University of Cambridge, in 2 vols. folio, 14l. 14s.

Milne, Dr. Colin. A Botanical Dictionary, or Elements of Systematic and Philosophical Botany, third Edition, revised, corrected and considerably enlarged; illustrated by twenty-five new Plates, 8vo. plain 1l. 1s. coloured 1l. 15s.

Monro, Dr. Alexander, jun. Observations on Crural Hernia: to which is prefixed, a general Account of the other Varieties of Hernia: illustrated by Engravings, 8vo. 7s. 6d.

—Alex. Works published by his Son, 4to. 1l. 4s.

Moore, Dr. Medical Sketches, 8vo. 6s.

Mosely, Dr. Benjamin. A Treatise on Tropical Diseases, on Military Operations, and on the Climate of the West-Indies. The fourth Edition, with considerable Additions, 8vo. 12s. 6d.

—Medical Tracts.—I. On Sugar.—II. On Cow-pock.—III. On the Yaws.—IV. On Obi; or African Witchcraft.—V. On the Plague, and Yellow Fever of America,

—VI. On Hospitals.—VII. On Bronchocele.—VIII. On Prisons, second Edition, 8vo. 6s. 6d.

Mosely, Dr. Benjamin. Hydrophobia, its Prevention and Cure; with a Description of the different Stages of Canine Madness, illustrated with Cases, 8vo. 5s.

Munro, Hugh. A compendious System of the Theory and Practice of modern Surgery, arranged in a new nosological and systematic Method, different from any yet attempted in Surgery, in the Form of a Dialogue, second Edition, corrected and improved, 8vo. 7s.

Murray, Dr. Adolphus. A Description of the Arteries of the Human Body, reduced into the Form of Tables, translated from the Latin, 8vo. 4s.

—J. Elements of Chemistry, 2 vols. 8vo. 12s.

—A System of Chemistry, in 4 vols. 8vo. 2d Edition, 2l. 8s.

* —A System of Materia Medica and Pharmacy, 2 Vols. 8vo. 1l. 1s.

Neale, Dr. H. St. John. Practical Essays and Observations on the Nature, various Causes, and the most rational Mode of treating and eradicating that Species of Consumption incident to Youth, and the different Stages of Life, commonly called *Tuberculosis*. Third Edition, 8vo. 7s.

—Chirurgical Institutes on the Knowledge and Treatment of Gun-shot Wounds, drawn from Practice during the American War, 8vo. 6s.

Nicholson, William. A Dictionary of Practical and Theoretical Chemistry, with its Application to the Arts and Manufactures, and to the Explanation of the Phenomena of Nature; including throughout the latest Discoveries, and the present State of Knowledge on those Subjects. With Plates and Tables, 8vo. 1l. 1s.

—The British Encyclopædia, or Dictionary of Arts and Sciences. Comprising an accurate and popular View of the

present improved State of Human Knowledge. Illustrated by upwards of 150 elegant Engravings, by Messrs. Lowry and Scott, 6 vols. 8vo. 6l. 6s.

* * The Articles on Anatomy, Comparative Anatomy, and Natural History of Man, Physiology, Surgery, &c. were drawn up by William Lawrence, Esq. Anatomical Demonstrator at St. Bartholomew's Hospital.

Nisbet, Dr. W. A general Dictionary of Chemistry; containing the leading Principles of the Science in regard to Facts, Experiments, and Nomenclature, 12mo. 8s. 6d.

—A Medical Guide, for the Invalid to the principal Watering Places of Great Britain; containing a View of the Medicinal Effects of Water. I. As applied to the Body in its simple State. II. As exhibited in its impregnated or Mineral Form. III. As employed in this Form for the Cure of particular Diseases, with their Modes of Treatment, and IV. As assisted in its Effects by the Situation and Climate of the Watering Places resorted to, 12mo. 5s. 6d.

—The Edinburgh School of Medicine; containing the preliminary or fundamental Branches of professional Education, viz. Anatomy, Medical Chemistry, and Botany. Intended as an Introduction to the Clinical Guide. The Whole forming a complete System of Medical Education and Practice according to the Arrangement of the Edinburgh School, 4 vols. 12mo. 16s.

—Clinical Guide, Part I. containing a View of the leading Facts on the History, Nature, and Cause of Disease. Part II. on the Nature and Treatment of such local Disease as form the Object of Surgery. Part III. on the Nature and Treatment of the various Diseases of Midwifery. Part IV. on the Nature and Treatment of Diseases of Infancy. Part V. The Clinical Pharmacopœia, or General Principles of Practice and Prescriptions, 5 vols. 12mo, 1l. 7s. 6d.

* * * Either of the Parts may be had separate at 5s. 6d. each.

- Nisbet, Dr. W. A Treatise on Diet, and on the most salutary Means of supporting Life and Health. 12mo, 6s.
- Noble, E. A. A Treatise on Ophthalmy, and those Diseases which are induced by Inflammations of the Eyes, with new Methods of Cure, two Parts, 8vo. 6s. 6d.
- Nooth, James. Observations on the Treatment of Schirrhous Tumours and Cancers of the Breast, 8vo. 3s.
- Paley, Dr. William. Natural Theology; or Evidences of the Existence and Attributes of the Deity, collected from the Appearances of Nature, 8vo. 12th Edition. 9s.
- Pargeter, Dr. R. Formulæ Medicamentorum Selectæ, 12mo. 1s. 6d.
- * Parkes, Samuel. A Chemical Catechism, with Notes, Illustrations and Experiments. Fourth Edition, containing the new Discoveries, and considerable Additions, 8vo. 12s.
- * — The Rudiments of Chemistry; illustrated by Experiments, and eight Copper Plate Engravings of Chemical Apparatus, 18mo. 5s.
- Parkinson, James. The Hospital Pupil, or an Essay intended to facilitate the Study of Medicine and Surgery, 12mo. 3s. 6d.
- Medical Admonitions to Families, fifth Edition, 8vo. 10s.
- Villager's Friend and Physician, 8vo. 1s.
- The Chemical Pocket-book, or Memoranda Chemica; arranged in a Compendium of Chemistry, with Tables of Attractions, &c. Fourth Edition, with the latest Discoveries, 12mo. 9s.
- A Sketch of Mr. Davy's recent Discoveries of the Chemical Agencies of Electricity, and of the Decomposition and Composition of the fixed Alkalies, of Ammonia, the Alkaline Earths, &c. 8vo. 1s.

Parkinson, James. *The Cure of the Gout proposed on rational Principles*, 8vo. 5s. 6d.

—An Examination of the Mineralized Remains of the Vegetables and Animals of the Antediluvian World; generally termed Extraneous Fossils, containing the Vegetable Kingdom. With coloured Plates, 2 vols. 4to. 5l. 5s.

—Richard. *Practical Observations on Gypsum, or Plaster of Paris, as a Manure*, 12mo. 3s. 6d.

Pearson, John. *Observations on the Effects of the various Articles of the Materia Medica, in the Cure of Lues Venerea; illustrated by Cases. The second Edition, with Additions*. 8vo. 8s.

—Principles of Surgery, for the Use of Chirurgical Students, a new Edition, with Additions, 8vo. 8s. 6d.

—Dr. George. *A Translation of the Table of Chemical Nomenclature, proposed by de Guyton, (formerly De Morveau) Lavoisier, Bertholet, and De Fourcroy; with Explanations, Additions, and Alterations: to which are subjoined, Tables of single Elective Attraction, Tables of Chemical Symbols, Tables of the precise Forces of Chemical Attraction; and Schemes and Explanations of Cases of single and double Attractions. Second Edition, enlarged and corrected*, 4to. 15s.

—Richard. *A Practical Synopsis of the Materia Alimentaria and Materia Medica, a new Edition, comprising the latest Improvements in the London, Edinburgh, and Dublin Pharmacopœias*, 8vo. 12s.

* —Thesaurus Medicaminum; a selection of Medical Formulæ, distributed into Classes, and accompanied by Pharmaceutical and Practical Remarks. Fourth Edition. Adapted to the last Editions of the Pharmacopœia of the London, Edinburgh, and Dublin Colleges. 8vo. 8s.

- Pemberton, Dr. Robert Christopher. A practical Essay on various Diseases of the Abdominal Viscera, 8vo. second Edition, 7s. 6d.
- Percival, Dr. T. Works, Literary, Moral, and Medical; to which, are prefixed, Memoirs of his Life and Writings, and a Selection from his Literary Correspondence; a new Edition, 4 vols. 8vo. 1l. 16s.
- * Pettigrew, T. J. Views of the Basis of the Brain and Cranium, accompanied with Outlines, and a Dissertation on the Origin of the Nerves, interspersed with Surgical Observations, 4to. 1l. 1s.
- Pharmacopœia Collegii Regii Medicorum Londinensis, 4to. 1l. 4s. * 18mo. 4s.
- In Usum Nosocomii Londinensis Sancti Thomæ, 12mo. 4s.
- Collegii Regii Medicorum Edinburgensis. In this Edition, the New Chemical Nomenclature of the French, and the Botanical Nomenclature of Linnæus, have been adopted. 8vo. 6s.
- Collegii Regii Medicorum Edinburgensis, 1803, a new Edition, 18mo. 4s.
- Nosocomii Regii Edinburgensis, 18mo. 3s.
- * ————— of the Royal College of Physicians of London, 1809. Translated into English, with Notes, &c. By Richard Powell, M. D. Fellow of the College, Physician to St. Bartholomew's and the Magdalen Hospitals. Second Edition, corrected and enlarged. 8vo. 10s. 6d.
- * — Chirurgica; or, a Manual of Chirurgical Pharmacy; comprising all the Formulæ of our several Pharmacopœias appertaining to this Branch of Science; with Notes and Observations, as well on the Method of comprehending, as likewise on the Properties and use of each. By J. Wilson, Surgeon, Huntingdon, Honorary Member of

the Medical Society of Guy's Hospital, and several Years Assistant Apothecary to that Institution. 6s.

* Phelps, Rev. W. *Calendarium Botanicum*, or a Botanical Calendar: exhibiting, at one View, the Generic and Specific Name, the Class, Order, and Habitat. of all the British Plants, from the Class Monandria Monogynia, to Polygamia Dioecia, inclusive. Arranged according to their Time of flowering under each Month of the Year, 8vo. 10s. 6d. Royal Paper. 11. 1s.

Pinel, P. A Treatise on Insanity, in which are contained the Principles of a new and more practical Nomenclature of Maniacal Disorders than has yet been offered to the Public, exemplified by numerous and accurate Historical Relations of Cases from the Author's public and private Practice, with Plates illustrative of the Craniology of Maniacs and Ideots. Translated from the French, by D. D. Davis, M. D. 8vo. 9s.

Plumptree, A. An Historical Relation of the Plague at Marseilles in the Year 1720, from the French Manuscript of M. Bertrand, Physician at Marseilles, who attended during the whole Time of the Malady, 8vo. 7s. 6d.

Pole, Thomas. *The Anatomical Instructor*: or, an Illustration of the modern and most approved Methods of preparing and preserving the different Parts of the Human Body, and of Quadrupeds, by Injection, Corrosion, Maceration, Distention, Articulation, Modelling, &c. with a variety of Copper Plates, 8vo. 7s.

Pott, Percival. *Chirurgical Works*, a new Edition, with his last Corrections. To which are added, a short Account of the Life of the Author, a Method of curing the Hydrocele by Injection, and occasional Notes and Observations. By Sir James Earle, F. R. S. Surgeon Extraordinary to the King, &c. &c. 3 vols. 8vo. 31. 7s.

- Powell, Dr. Richard. Observations on the Bile and its Diseases, and on the Economy of the Liver, 8vo. 5s.
- Practical Materia Medica, in which the various Articles are fully described, and divided into Classes and Orders, according to their Effects. Their Virtues, Doses, and the Diseases, in which they are proper to be exhibited, are fully pointed out. Interspersed with some practical Remarks, and some select Formulæ. To which is added a general Nosological Table. Intended principally for the Use of Students and junior Practitioners. 12mo. 5s.
- * Pringle, Sir John. Observations on the Diseases of the Army. A new Edition. 8vo. 12s.
- Proceedings of the Board of Health at Manchester, 12mo. 4s.
- Pugh, John. A Physiological, Theoretical, and Practical Treatise on the Utility of the Science of Muscular Action, for restoring the Power of the Limbs, 4to 2l. 2s.
- Reece, Dr. Richard the Medical Guide, for the use of Families and of young Practitioners in Medicine and Surgery: being a practical Treatise on the Causes, Prevention, Cure, &c. of the Diseases incident to the Human Frame; exhibiting the latest and most important Discoveries in Medicine, Pharmacy, &c. In two Parts. Sixth Edition, considerably enlarged and improved. 8vo. 10s. 6d.
- A Treatise on the Antiphthical Properties of the Lichen Islandicus, and the Medical and Dietetic Management of the different Species of Pulmonary Consumptions, with their Characteristic Symptoms, &c. second Edition, considerably enlarged and corrected, 8vo. 4s.
- The Medical and Chirurgical Pharmacopœia for the Use of Hospitals, Dispensaries, &c. 12mo. 3s. 6d.
- A Practical Dictionary of Domestic Medicine; comprising the latest Discoveries relative to the Causes, Treatment, and Prevention of Diseases. With a popular Description of Anatomy, Casualties, Chemistry, Cloath-

- ing, Dietetics, Pharmacy, Physiology, Surgery, Midwifery, Therapeutics, &c. &c. 8vo. 1l. 1s.
- Reece, Dr Richard. Practical Treatise on the Radix Rhatinæ, or Rhatany Root, 12mo. 2s.
- * — The Outlines of a New System of the Practice of Physic, and Medical Surgery. Royal 8vo. 12s.
- * Rees, Dr. George Practical Observations on Disorders of the Stomach, with Remarks on the Use of the Bile in promoting Digestion, 6s.
- Regnault, Dr. J. B. Observations on Pulmonary Consumption, or an Essay on the Lichen Islandicus, considered both as an Aliment and a Medicine in that Disorder 8vo. 4s.
- Reid, Dr. John. A Treatise on the Origin, Progress, Prevention, and Treatment of Consumption, 2d Edition, 8vo. 7s.
- , Dr. Thomas. Essay on the Nature and Cure of Phthisis Pulmonalis, 3d Edition, 8vo. 6s.
- Richter, A. G. Medical and Surgical Observations, translated from the German by Thomas Spens, M. D. 8vo. 5s.
- Richerand's Elements of Physiology, containing an Explanation of the Functions of the Human Body, in which the modern Improvements in Chemistry and other Sciences are applied, to explain the Actions of the Animal Economy. Translated from the French by Robert Kerison, Member of the Royal College of Surgeons in London, 8vo. 6s.
- Ring, J. A Treatise on the Cow Pox; containing the History of Vaccine Inoculation, and an Account of the various Publications which have appeared on that Subject, in Great Britain, and other Parts of the World, 2 vols. 8vo. 1l. 1s.
- Robertson, Dr. John. A practical Treatise on the Powers of Cantharides, when used internally, demonstrated by Ex-

- periments and Observations, in three Parts. Including an Inquiry concerning the Nature and proper Medical Treatment of Gleet, Leucorrhœa, and obstinate Sores, 8vo. 7s.
- Robertson, Dr. John. A Popular Treatise on Medical Police, and on Diet, Regimen, &c. 2 vols. 8vo. 12s.
- Robertson, Dr. Archibald. Colloquia Anatomica, Physiologica, atque Chemica, Quæstionibus et Responsis; ad usum ingenuæ Juventutis accommodata. 18mo. 5s.
- Dr. Henry. A general View of the Natural History of the Atmosphere, and of its Connexion with the Sciences of Medicine and Agriculture; including an Essay on the Causes of Epidemical Diseases. 2 vols. 8vo. 11. 1s.
- Dr. Robert. Observations on Diseases incident to Seamen, whether employed on, or retired from actual Service, for Accidents, Infirmities, or old Age. A new Edition, much enlarged and improved. 4 vols. 8vo. 11. 16s.
- Royston, William. Observations on the Rise and Progress of the Medical Art in the British Empire. Containing Remarks on Medical Literature, and a View of a Bibliotheca Medicinæ Britannica, 8vo. 2s.
- Russell, James. A practical Essay on a certain Disease of the Bones, termed Necrosis. Illustrated with six Plates 8vo. 4s.
- A Treatise on Scrofula, 8vo. 5s.
- Sanders, Dr. James. Treatise on Pulmonary Consumption, in which a new View of the Principles of its Treatment is supported by original Observations on every Period of the Disease. To which is added, an Inquiry, proving that the Medicinal Properties of the Digitalis, or Fox Glove, are diametrically opposite to what they are believed to be, 8vo. 8s.
- Saumarez, Richard. A new System of Physiology, 2 vols 8vo. 14s.

- Saunders, Dr. W. Treatise on the Structure, Economy, and Diseases of the Liver, together with an Inquiry into the Properties and component Parts of the Bile and Biliary Concretions. To which is added, a more particular Account of the Hepatitis of India, with Observations on the prevalent Use of Mercury in the Diseases of this Country, fourth edition, 8vo. 9s.
- Treatise on the Chemical History and Medical Properties of some of the most celebrated Mineral Waters; to which are added, Observations on the Use of cold and warm bathing, second edition, 8vo. 9s. 6d.
- J. C. The Anatomy of the Human Ear, illustrated by a Series of Engravings of the natural Size; with a Treatise on the Diseases of that Organ, with the Causes of Deafness, and their proper Treatment, Folio, 1l. 5s.
- Scarpa, Antonio. Practical Observations on the principal Diseases of the Eyes: illustrated with Cases. Translated from the Italian, with Notes, by James Briggs, 8vo. 10s. 6d.
- A Treatise on the Anatomy, Pathology, and Surgical Treatment of Aneurism, with Engravings. Translated from the Italian, with Notes, by John Henry Wishart, 8vo. 15s.
- Shaw, Dr. George. General Zoology, or Systematic Natural History. With Plates from the first Authorities and most select Specimens, engraved principally by Mr. Heath, 7 vols. 8vo. 18l. 7s. 6d.
- Zoological Lectures. Delivered at the Royal Institution. With 169 Plates from the first Authorities and most select Specimens, engraved principally by Mrs. Griffiths, 2 vols. 8vo. 2l. 12s. 6d.
- Simmons W. Cases and Observations on Lithotomy: including Hints for the more ready and safe Performance of the Operation. With an Engraving. To which are added,

Observations on the Chimney-Sweepers Cancer, and other Miscellaneous Remarks, 12mo. 2s. 6d.

Sinclair, Sir John. The Code of Health and Longevity, or a Concise View of the Principles calculated for the Preservation of Health and the Attainment of long Life, 4 vols. 8vo. 2l. 8s.

* Skelton, George. A Practical Treatise on the Nature History and Cure of the Venereal Disease; designed for general Use: being an attempt to remedy, prevent, and render less frequent those dreadful Effects on the Constitution, which are too often occasioned by the Neglect or improper Treatment of that insidious and destructive Malady, 12mo. 2s. 6d.

Skrimshire, Fenwick. A Series of popular Chemical Essays; containing a Variety of Instances of the Application of Chemistry to Arts and Manufactures; the Explanation of natural Phenomena; and other useful Purposes. The second Edition, 12mo. 4s.

— Sketches of Natural History, 2 vols. 12mo. 2d Edition, 7s.

Smellie, Dr. William. Anatomical Tables, with Explanations, and an Abridgement of the Practice of Midwifery; with a View to illustrate a Treatise on that Subject and Collection of Cases. A new Edition, carefully corrected and revised, with Notes and Illustrations, adapted to the present improved Method of Practice. By A. Hamilton, M. D. F. R. S. Edin. and Professor of Midwifery in the University of Edinburgh. Folio. 2l. 2s.

Smith, Dr. Brabazon. The Physician's portable Library, or, Compendium of the modern Practice of Physic, 12mo. 5s.

— Dr. James, Edward. An Introduction to Physiological and Systematical Botany, 8vo. 2d Edition, 14s. With coloured Plates, 1l. 8s.

- Spallanzani, Lazarus. *Memoirs on Respiration*, 8vo. 7s.
- *Traacts on the Natural History of Animals and Vegetables*; translated from the original Italian, by John Graham Dalyel, Advocate; with *Physiological Illustrations* by the Translator. Second Edition, 2 vols. 8vo. 15s.
- Stewart, Alexander. *Medical Discipline, or Rules and Regulations for preserving the Health of Seamen in Voyages to hot Climates*, 12mo. 3s.
- Stock, Dr. J. C. *Medical Collections on the Effects of Cold, as a Remedy in certain Diseases; with an Appendix containing an Account of some Experiments made with a View to ascertain the Effects of Cold Water upon the Pulse*, 8vo. 6s.
- Stone, Dr. Arthur. *Practical Treatise on the Diseases of the Stomach, and of Digestion; including the History and Treatment of those Affections of the Liver and Digestive Organs, which occur in Persons who return from the East or West Indies, with Observations on various Medicines, and particularly on the improper Use of Emetics*, 8vo. 6s.
- Struve, Dr. C. A. *The Art of maintaining feeble Life, and of prolonging it in incurable Diseases*, translated from the German, by William Johnston, 8vo. 8s.
- *A Familiar Treatise on the physical Education of Children during the early Period of their Lives*, translated from the German: to which are prefixed, three *Introductory Lectures* on the same Subject, by A. F. M. Willich, M. D. 8vo. 8s.
- *A practical Inquiry into the Art of recovering suspended Animation; together with a Review of the most proper and effectual Means to be adopted in Cases of imminent Danger*: translated from the German, by A. F. M. Willich M. D. 12mo. 2s.

Surgeon's Vade Mecum containing the Symptoms, Causes, Diognosis, Prognosis, and Treatment of Surgical Diseases. Accompanied by the modern and approved Method of operating, select Formulæ of Prescriptions, and a Glossary of Terms, 12mo. 6s.

Swediaur, Dr. F. *Materia Medica, seu cognitionis medicamentorum simpliciorum Epicrisis Analytica*, 2 vols. 18mo. 5s.

— *Traité complet sur les symptômes, les effets, la nature, et le traitement des Maladies Syphilitiques*, 2 vols. Vol. I. Des effets du virus syphilitique sur les Organes de la generation, dans les deux Sexes. Vol. II. Des Effets du virus syphilitique sur tout le Systeme de l'economie Animale, 8vo. 14s.

— *Practical Observations on Venereal Complaints, with a Pharmacopœia Syphilitica*, 8vo. 5s.

— *Pharmacopœia Medici Practici Universalis, sistens Medicamenta Preparata et Composita, cum eorum Usu et Dosibus*, 2 vols. 18mo. 6s.

Sylvester, Charles. *An Elementary Treatise on Chemistry, comprising the most important Facts of the Science, with Tables of Decomposition, on a new Plan; to which is added an Appendix, giving an Account of the latest Discoveries*, 8vo. 7s. 6d.

* *Synopsis Pharmacopœia Londinensis*. 12mo. 1s. 6d.

Taplin, William. *A Compendium of Practical and Experimental Farriery, originally suggested by Reason and confirmed by Practice. Equally adapted to the Convenience of the Gentleman, the Farrier, the Groom, and the Smith. Interspersed with such Cases, as evidently tend to secure the Prevention, as well as to ascertain the Cure of Disease*. 8vo. 6s.

Temple, Dr. R. *Practice of Physic; wherein is attempted a concise Exposition of the Characters, Symptoms, Causes*

- of Diseases, and Method of Cure, with Formulæ, in which such new Articles are introduced as seem from Trial to be valuable Additions to the Materia Medica: with a copious Index of Diseases and Remedies. The Whole intended for the Assistance of the Young Practitioner, second Edition, 8vo. 6s.
- Thomas, Dr. Robert. The modern Practice of Physic, exhibiting the Characters, Causes, Symptoms, Prognostics, morbid Appearances, and improved Method of treating the Diseases of all Climates, 3d Edition, corrected and considerably enlarged, 8vo. 14s.
- * Thomson, Dr. Thomas. A System of Chemistry, fourth Edition, 5 vols. 8vo. 3l. 15s.
- * — The Elements of Chemistry. 8vo. 10s. 6d.
- Dr. John. Observations on Lithotomy, being a Republication of Dr. James Douglas's Appendix to his History of the Lateral Operation for the Stone, and the original Papers relative to Mr. Cheselden's Invention and Improvement of that Operation. To which is added a Proposal for a new Manner of Cutting for the Stone, 8vo. 4s.
- * — Anthony, Todd. A Conspectus of the Pharmacopœias of the London, Edinburgh, and Dublin Colleges of Physicians; being a practical Compendium of Materia Medica and Pharmacy, 18mo. 5s. 6d.
- Thornton, Dr. R. J. Philosophy of Medicine, or medical Extracts on the Nature of Health and Disease, with practical Observations, including the Laws of the animal Economy, and the Doctrine of Pneumatic Medicine. 4th Edition, illustrated with 36 Plates in Anatomy, and the Heads of the most eminent Teachers in Medicine, 5 vols. 8vo. 3l.
- Practical Botany, being a new Illustration of the Genera of Plants, Vol. I. 1l.
- * Toulmin, Dr. George Hoggart. The Elements of the

- Practice of Medicine, on a popular plan: comprehending, on immutable Laws, the healthy State, as sustained by all the Powers of Nature; also, the Theory, Characteristics, and Treatment, of the Diseases of every Climate. Being an elementary Work for Students; and a Book of Reference for Practitioners: with an Appendix, containing Formulæ, together with Preparations and Compounds, 8vo. 12s.
- Townsend, Rev. Joseph. The Physician's Vade Mecum; being a Compendium of Nosology and Therapeutics, for the Use of Students, 10th Edition, 12mo. 4s.
- Elements of Therapeutics, or a Guide to Health; being Cautions and Directions in the Treatment of Diseases: designed chiefly for Students, third Edition, 8vo. 9s.
- Trotter, Dr. Medicina Nautica, an Essay on the Diseases of Seamen; comprehending the History of Health in the Channel for the Years 1799, 1800, and 1801, 3 vols. second Edition, 8vo. 11. 3s.
- Observations on the Scurvy, second Edition, 8vo. 4s.
- An Essay, Medical, Philosophical, and Chemical, on Drunkenness, and its Effects on the Human Body, 4th Edition, 8vo. 6s.
- A View of the Nervous Temperament; being a practical Enquiry into the encreasing Prevalence, Prevention, and Treatment of those Diseases, commonly called Nervous, Bilious, Stomach, and Liver Complaints, Indigestion, Low Spirits, Gout, &c. 2d Edition, 8vo. 7s. 6d.
- Turnbull, William. The Naval Surgeon; comprising the entire Duties of professional Men at Sea. To which are subjoined, a System of Naval Surgery, and a compendious Pharmacopœia. The whole illustrated by Plates, 8vo. 9s. 6d.
- Turton's Medical Glossary, second Edition, 4to. 11. 1s.
- Underwood, Dr. Michael. A Treatise on the Diseases of

- Children, with Directions for the Management of Infants from the Birth, fifth Edition, 3 vols. 8vo. 13s. 6d.
- Underwood, Dr. Michael. Surgical Tracts, containing a Treatise upon Ulcers of the Legs; together with Hints on a successful Method of treating some scrophulous Tumours, the mammary Abscesses, and sore Nipples of lying in Women; Observations on the more common Disorders of the Eye, and on Gangrene, 8vo. 6s.
- A Treatise on the Disorders of Childhood, adapted to Domestic Use, 2d Edition, 3 vols. 8vo. 12s.
- Uwins, Dr. David. Modern Medicine; containing a brief Exposition of the principal Discoveries and Doctrines that have occasioned the recent advancement of Medical Philosophy, with Strictures on the present State of Medical Practice, and an Enquiry how far the Principles of the Healing Art may become the Subjects of unprofessional Research, 8vo. 6s.
- * —Cursory Remarks on the Prevention, Causes, and Treatment of Fever; occasioned by the recent Occurrence of an Epidemic Disorder in Aylesbury, and its Neighbourhood, 8vo. 3s.
- Vetch, Dr. John. An Account of the Ophthalmia which has appeared in England since the Return of the British Army from Egypt, 8vo. 6s.
- Wadd, William. Practical Observations on the Nature and Cure of Strictures in the Urethra, 8vo. 3s.
- Wakefield, Priscilla. An Introduction to Botany, in a Series of Familiar Letters, with illustrative Engravings, 5th Edition, 12mo. 3s. 6d. With coloured Plates, 6s. 6d.
- Waller, John Gottlieb. Plates of the Thoracic and Abdominal Nerves, reduced from the Original, as published by Order of the Royal Academy of Sciences at Berlin; accompanied by coloured Explanations, and a Descrip-

tion of the Par Vagum, Great Sympathetic and Phrenic Nerves, 4to. 18s.

* Ward, Michael. Facts, establishing the Efficacy of the Opiate Friction in Spasmodic and Febrile Diseases. Also Outlines of an Attempt to investigate the Nature, Causes, and Method of Cure, of Hydrophobia and Tetanus: Republished from the London Medical and Physical, and the Edinburgh Medical and Surgical Journals. To which are added Cases and Remarks not before published, 8vo. 5s.

Wardrop, James. Essays on the Morbid Anatomy of the Human Eye. Illustrated by Plates, 8vo. 1l. 1s.

—Observations on Fungus Hæmatodes, or soft Cancer, in several of the most important Organs of the Human Body: containing also a comparative View of the Structure of Fungus Hæmatodes and Cancer, with Cases and Dissections. Illustrated with Eleven Plates, 8vo. 12s.

Ware, James. Chirurgical Observations relative to the Eye, with an Appendix on the Introduction of the Male Catheter, and the Treatment of Hæmorroids, 2 vols. 8vo. 18s. 6d.

—Remarks on the Purulent Ophthalmia which has lately been epidemical in this Country, 8vo. 2s.

Wathen on the Fistula Lachrymalis, 4to. 1s.

Watson, Bishop of Landaff. Chemical Essays, 5 vols. 12mo. 1l. 1s.

Watt, John James. An Encyclopædia of Surgery, Medicine, Midwifery, Physiology, Pathology, Anatomy, Chemistry, &c. To which is added, an abridged Translation of Cullen's Nosology, 12mo. 8s.

—Anatomico-Chirurgical Views of the Nose, Mouth, Larynx, and Fauces, with appropriate Explanations and References. With an additional Anatomical Description of the Parts, by Mr. W. Lawrence, Demonstrator

- of Anatomy at St. Bartholomew's Hospital. Plain
1l. 11s. 6d. Coloured 2l. 2s.
- Watt, Robert. Cases of Diabetes, Consumption, &c. with
Observations on the History and Treatment of that
Disease in general, 8vo. 9s.
- Werner, A. G. A Treatise on the external Characters of
Fossils, translated from the German, by J. Weaver,
8vo. 8s.
- Werneria: or Short Characters of Earths, with Notes accord-
ing to the Improvements of Klaproth, Vauquelin, and
Hauy, by Terræ Filius, 8vo. 4s.
- Whately, Thomas. Practical Observations on the Cure of
Gonorrhœa Virulenta in Men, 8vo. 2s. 6d.
- Practical Observations on the Cure of Wounds and Ul-
cers on the Legs, without Rest, illustrated with Cases,
8vo. 7s.
- An improved Method of treating Strictures in the Ure-
thra, 2d Edition, 8vo. 5s.
- Observations on Mr. Home's Treatment of Strictures,
8vo. 2s. 6d.
- Cases of two extraordinary Polypi removed from the
Nose, the first by Excision with a New Instrument, the
other by improved Forceps; with an Appendix, describ-
ing a new Instrument for the Fistula in Ano, with Ob-
servations on that Disease, illustrated with a Copper-
plate, 8vo. 2s.
- White, Charles. An Account of the regular Gradation in
Man, and in different Animals and Vegetables, and
from the former to the latter, illustrated with Engravings,
4to. 10s. 6d.
- E. L. A popular Essay on the Disorder familiarly
termed a Cold, with the most effectual Method of re-
moving it, 12mo. 5s.
- W. A Treatise on Inflammation, and other Diseases
of the Liver, commonly called Bilious; including th

Synochus Biliofa; Cholera Morbus; Torpor; Schirrous; Biliari Calculi; which is preceded by a short Description of the Structure of the Liver, and the different Physiological Opinions respecting the Use of the Bile. Lastly, is added, a Monthly List of Diseases, from the 1st of June, 1806, to the 30th of June, 1807, with the State of the Weather, and Thermometer, 8vo. 5s.

* White, James. A Treatise on Veterinary Medicine, in 2 vols. 12mo. Vol. I. containing a Compendium of the Veterinary Art; or an accurate Description of the Diseases of the Horse, and their Mode of Treatment; the Anatomy and Physiology of the Foot; and the Principles and Practice of Shoeing; illustrated by Plates: with Observations on Stable Management, Feeding, Exercise, and Condition. The Ninth Edition, considerably enlarged. Vol. II. containing the Materia Medica and Pharmacopœia, 12s.

—Robert. Practical Surgery, containing the Description, Causes, and Treatment of each Complaint, together with the most approved Methods of Operating, second Edition, 8vo. 6s. 6d.

Wildenow, D. C. The Principles of Botany and Vegetable Physiology. Translated from the German, 8vo. 10s. 6d.

Wilkinson, C. H. Essays, Physiological and Philosophical, on the Distortion of the Spine, the motive Powers in Animals, the Fallacy of the Senses, and the Properties of Matter, 8vo. 5s.

—Elements of Galvanism, in Theory and Practice; with a comprehensive View of its History from the first Experiments of Galvani to the present Time. Containing also, Practical Directions for constructing the Galvanic Apparatus, and plain systematic Instructions for performing all the various Experiments. Illustrated with a great Number of Copper-plates, 2 vols. 8vo. 11. 1s.

Willan, Dr. Robert. Description and Treatment of cutaneous Diseases. Vol. I. Illustrated by 33 coloured Plates, containing near one hundred Subjects, 4to. 4l. Each Part may be had separate, viz. Part I. Order I. Papulus Eruptions of the Skin, 15s. Part II. Order II. Scaly Diseases of the Skin, 1l. 4s. Part III. Order III. Rashes, Part I. containing the Varieties of Rubeola and Scarlatina, 18s. Part. IV. Order III. Rashes, Part II. On the Utricularia, Roseola, Purpura, and Erythema. And Order IV. Bullæ. On Erysipilas, Pemphigus, and Pompholix, 1l. 3s.

— Reports on the Diseases of London, 12mo. 5s.

— On Vaccine Inoculation, with Plates, 4to. 15s.

Willich, Dr. A. F. M. The Domestic Encyclopædia, or a Dictionary of Facts and useful Knowledge; comprehending a concise View of the latest Discoveries, inventions, and Improvements, chiefly applicable to rural and domestic Economy; together with Descriptions of the most interesting Objects of Nature and Art; the History of Men and Animals in a State of Health or Disease; and practical Hints respecting the Arts and Manufactures, both familiar and commercial: illustrated with numerous Engravings and Cuts, in 4 vols. 8vo. 2l. 2s.

— Lectures on Diet and Regimen; being a systematic Inquiry into the most rational Means of preserving Health and prolonging Life; together with physiological and chemical Explanations, calculated chiefly for the Use of Families, in order to banish the prevailing Abuses and Prejudices in Medicine; the fourth Edition, revised, corrected, and improved, 8vo. 9s.

Williams, H. A Concise Treatise on the Progress of Medicine since the Year 1573, 8vo. 3s.

— John. The Climate of Great Britain, or, Remarks on the Change it has undergone, particularly within the last 50 Years; with the Effects such ungenial Seasons

- have produced on the Vegetable and Animal Economy
8vo. 8s.
- Wilson, Dr. A. P. A Treatise on febrile Diseases, including intermitting, remitting, continued, and eruptive Fevers; Inflammations, Hæmorrhages, and the Profluvia; in which an Attempt is made to present, at one View, whatever, in the present State of Medicine, is requisite for the Physician to know respecting the Symptoms, Causes, and Cure of those Diseases, second Edition, 4 vols. 8vo. 1l. 16s.
- * * * Vol. IV. may be had separate, to complete sets, 9s.
- An Essay on the Nature of Fever, being an Attempt to ascertain the Principles of its Treatment, 8vo. 5s.
- Woodville, Dr. William. History of the Inoculation of the Small-pox in Great Britain, Vol. I. 8vo. 7s.
- Observations on the Cow-pox, 8vo. 1s. 6d.
- Medical Botany, containing Systematic and general Descriptions, with Plates of all the Medicinal Plants, Indigenous and Exotic, comprehended in the Catalogue of the *Materia Medica*, as published by the Royal College of Physicians of London and Edinburgh; accompanied with a circumstantial Detail of their medical Effects, and the Diseases on which they have been most successfully employed. In 4 vols. 4to. 4l. 8s. 6d. plain, or 8l. 11s. coloured.
- Woolcome, Dr. William. Remarks on the Frequency and Fatality of different Diseases, particularly on the progressive Increase of Consumption: with Observations on the influence of the Seasons on Mortality, 8vo. 6s.
- * Wyburd, Henry. An Introduction to the Linnæan Classification of Plants, illustrated by Engravings, to which is added, a Glossary and the Latin Terms of Linnæus, with the corresponding English Words, 12mo. 5s.
- * Yatman, Thomas. A Familiar Analysis of the Fluid ca-

pable of producing the Phenomena of Electricity and Galvanism, or Combustion; with some Remarks on Simple Galvanic Circles, and their Influence upon the vital Principles of Animals: Illustrated by the Theories and Experiments of Galvani, Garnet, Davy, Thomson, &c. 8vo. 2s. 6d.

Young, Dr. Thomas. A Course of Lectures on Natural Philosophy and the Mechanical Arts, 2 vols. 4to. 5l. 5s.

—S. An Inquiry into the Nature and Action of Cancer, with a View to the Establishment of a regular Mode of curing that Disease by natural Separation, 8vo. 7s.

—An Attempt at a Systematic Reform of the Modern Practice of Adhesion; on the Use and Abuse of the Thread Suture; with a View of its Merits comparatively with those of the Adhesive Strap, in the Surgery of Wounds, 4to. 14s.

ADDENDA.

BLIZARD, Sir William. A Lecture on the Situation of those large Vessels of the Extremities, and the Method of making effectual Pressure on the Arteries, in Cases of dangerous Effusions of the Blood, from Wounds: delivered to the Scholars of the late Maritime School at Chelsea, and first printed for their Use, 12mo. 2s.

• **DAVIS**, Dr. J. B. A Scientific and popular View of the Fever of Walcheren, and its Consequences, as they appeared in the British Troops returned from the late Expedition; with an Account of the morbid Anatomy of the Body, and the Efficacy of Drastring Purges and Mercury in the Treatment of this Disease, 8vo. 8s.

SECOND-HAND BOOKS.

FOLIO AND QUARTO.

1. **BIBLIOTHECA** Anatomica, Medica &c. with many
Plates, *scarce*. 3 Vols. 9s. London 1711.
2. Boerhaave's Chemistry, by Shaw. 2 vols. 3d Edition. 12s.
London 1753.
3. Cullen's Lectures on the Materia Medica, *neat*. 6s.
London 1773.
4. Deventeri Operationum Chirurgicarum, Novum Lumen.
5s. Lug. Bat. 1725.
5. Etmulleri Opera Omnia. 4s. 6d. Lug. Bat. 1785.
6. Eustachii Tabulæ Anatomica *curious plates neat*. 6s.
Rom. 1728.
7. Gladbachio Indicis in Swietenii Commentariorum, Supple-
mentum. 3s. Lug. Bat. 1776.
8. Glandorpii Opera Omnia. 2s. Lond. 1729.
9. Heister's General System of Surgery. 7s. Lond. 1748.
10. Another Copy. 9s. Lond. 1759.
11. Another Copy. 10s. 6d. Lond. 1768.
12. Heurnius In Libro Hippocratis Commentaria. 4s.
Raph. 1609.
13. Hoffmani Medicinæ Rationalis Systematicæ. 6 vols.
1l. 10s. Venet. 1730 &c.
14. Home on the Properties of Pus. 2s. 6d. Lond. 1788.
15. Hopson's Chemistry, chiefly from Weigleb, *half bound*.
12s. Lond. 1789.

16. Innes' Eight Anatomical Tables, *sewed.* 4s.
Edin. 1786.
17. Lancisius de Motu Cordis et Aneurysmatibus. 5s. 6d.
Neap. 1738.
18. Langham's Garden of Health, *black letter.* 4s. 6d.
Lond. 1633.
19. Leake's Lecture Introductory to the Theory and Practice
of Midwifery, 1s. Lond.
20. Lewis's Materia Medica, *neat.* 5s. Lond. 1761.
21. Macqueer's Dictionary of Chemistry, *scarce.* 2 vols. in
one, *neat.* 1l. 1s. Lond. 1781.
22. Memoires de l' Académie Royale de Chirurgie 2 Tom.
scarce. 1l. 1s. Paris 1743 and 53.
23. Monro's Works published by his Son, *very neat.* 16s.
Edin. 1781.
24. Mylius Basilæ Chymicæ, Liber septimus: de Animalibus,
boards. 2s. 6d. Francf. 1620.

The following BOOKS are published by
T. UNDERWOOD.

MEDICAL.

1. **THE LONDON MEDICAL DICTIONARY; INCLUDING** under distinct Heads every Branch of Medicine, *vz.* *Anatomy, Physiology, Pathology, the Practice of Physic, Surgery, Therapeutics, and Materia Medica*; with whatever relates to *Medicine in Chemistry and Natural History*; originally compiled by G. MOTHERBY, M. D. and G. WALLIS, M. D. Sixth Edition, improved and corrected in every Part; with numerous Additions, rendering it a new Work; By BARTHOLOMEW PARR, M. D. Fellow of the Royal Societies of London and Edinburgh, and Senior Physician to the Devon and Exeter Hospital, 2 vols. 4to. with numerous Engravings, 6l.

2. **THE CHIRURGICAL WORKS OF PERCIVAL POTT,** F. R. S. Surgeon to St. Bartholomew's Hospital. A new edition, with his last corrections. To which are added, a short Account of the Life of the Author, a Method of curing the Hydrocele by Injection, and occasional Notes and Observations. By SIR JAMES EARLE, F. R. S. Surgeon Extraordinary to the King, &c. &c. In 3 vols. 8vo. 1l. 7s.

3. **AN OUTLINE OF THE HISTORY AND CURE OF FEVER,** Endemic and Contagious; more expressly contagious Fevers of Jails, Ships, and Hospitals, the concentrated Endemic, vulgarly called the Yellow Fever of the West Indies. To which is added, an Explanation of the Principles of military Discipline and Economy; with a Scheme of Medical Arrangement for the Army: and a Refutation of the

Strictures made by the late Dr. Currie on that Part of the Work, which relates to the Affusion of cold Water on the Surface. BY ROBERT JACKSON, M. D. 8vo. 7s.

4. AN ESSAY ON DISEASES INCIDENTAL TO EUROPEANS IN HOT CLIMATES. With the Method of preventing their fatal Consequences. To which is added, an *Appendix*, concerning Intermittent Fevers, and a simple and easy Way to render Sea Water fresh, and to prevent a Scarcity of Provisions in long Voyages at Sea. By JAMES LIND, M. D. *Sixth Edition*, 8vo. 8s.

5. ANATOMICAL PLATES OF THE ARTERIES OF THE HUMAN BODY, accurately coloured, and reduced from the *Iconis of HALLER*: with a concise Explanation, 8vo. 15s.

6. NOSOLOGY, or Diseases arranged in their Classes, Order, Genera and Species, accurately defined, with copious Notes and References. By WILLIAM CULLEN, M. D. *Translated from the Latin*, 12mo. 5s.

7. A NEW MEDICAL DICTIONARY, containing a concise Explanation of Terms used in *Medicine, Surgery, Pharmacy, Botany, Natural History, and Chemistry*, compiled by JOSEPH FOX, M. D. Revised and augmented, by THOMAS BRADLEY, M. D. *a new Edition*, 12mo. 7s.

8. LONDON PRACTICE OF MIDWIFERY, or a Manual for Students; being a complete Course of Practical Midwifery; in which are included, the Treatment of Lying-in Women, and the Diseases of Children; *a new edition*, 12mo. 6s.

9. COLLOQUIA ANATOMICA, PHYSIOLOGICA, atque CHEMICA, *Questionibus et Responsis*; ad usum ingenuæ Juventutis accommodata. Auctore ARCHIBALDO ROBERTSON, M. D. 18mo. 5s.

10. PHARMACOPŒIA CHIRURGICA; or a Manual of Chirurgical Pharmacy; comprising all the valuable Formulæ of our several Pharmacopœias appertaining to this Branch of Science; with Notes and Observations, as well on the

Method of compounding, as likewise on the Properties and Use of each. By J. WILSON, Surgeon, Huntingdon, 12mo. 6s.

11. A CONSPECTUS OF THE PHARMACOPŒIAS OF THE LONDON, EDINBURGH, AND DUBLIN COLLEGES OF PHYSICIANS; being a practical Compendium of *Materia Medica and Pharmacy*. By ANTHONY TODD THOMSON, Surgeon, Fellow of the Medical Society of London; and of the Medical, the Royal, Physical, and the Speculative Societies of Edinburgh, 18mo. 5s. 6d.

12. A LETTER ON THE STUDY OF MEDICINE, and on the MEDICAL CHARACTER addressed to a Student, by PETER REID, M. D. 2s.

13. TABULAR VIEWS OF THE ANATOMY OF THE HUMAN BODY, by HENRY H. AYSHFORD, M. D. Member of the Royal College of Surgeons in London, and Assistant Surgeon in the Royal Artillery, 4to. 10s. 6d.

14. THE LONDON DISSECTOR; or a Compendium of Practical Anatomy; containing a Description of the Muscles, Vessels, Nerves, and Viscera of the Human Body, as they appear on Dissection; with Directions for their Demonstration, *a new edition*, 12mo. 5s.

I SCCELLANEOUS.

15. THE WORKS OF THE ENGLISH POETS, FROM CHAUCER TO COWPER; including the Series edited, with Prefaces, Biographical and Critical, by Dr. Samuel Johnson; and the most approved Translations. The additional Lives by Alexander Chalmers, F. S. A. in twenty one Volumes royal 8vo. Elegantly printed in double Columns. 25l.

16. ENGLISH TRANSLATIONS, from ancient and Modern Poems, by various Authors. In 3 vols. royal 8vo. 4l. 4s.

17. THE WORKS OF SAMUEL JOHNSON, L. L. D.

a new Edition, in 12 volumes. With an Essay on his Life and Genius by ARTHUR MURPHY, *Esq.* 12 vols. 4l. 16s. Royal 8vo. *fine paper.* 7l. 4s.

18. THE BRITISH ESSAYISTS, containing the Tatler, Spectator, Guardian, Rambler, Adventurer, World, Connoisseur, Idler, Mirror, Lounger, Observer, and Looker-on. With Prefaces, Historical and Biographical, and a General Index, by Alexander Chalmers, A. M. in 45 vols. royal 38mo. 10l. 10s.

19. ELEGANT EXTRACTS: or, useful and entertaining Passages in Prose, selected for the Improvement of young Persons, royal 8vo. 1l.

20. ELEGANT EXTRACTS: or, useful and entertaining Pieces of Poetry, selected for the Improvement of young Persons, royal 8vo. 1l.

21. ELEGANT EPISTLES, selected for the Improvement of young Persons, royal 8vo. 1l.

22. THE POETICAL WORKS OF SIR WILLIAM JONES, with the Life of the Author. In two vols. 12mo. *fine.* 12s.

23. Inquiry into the Limits and peculiar Objects of Physical and Metaphysical Science, tending principally to illustrate the Nature of Causation, and the opinions of Philosophers, ancient and modern, concerning that Relation, by R. F. SCOTT, A. M. Professor of Moral Philosophy in the University and King's College of Aberdeen. *With an Appendix by Dr. Gregory.* 8vo. 8s.

24. THE PRINCIPLES OF DRAWING AND PAINTING, laid down in the most easy and simple Manner, according to the practice of the best Masters; with a view to the Instruction of Youth in this useful and elegant Art, with 28 Copperplates, after VOLPATO, VANDYKE, MORLAND, &c. Engraved by MITCHELL. 4to. 9s. *Fine* 12s.

25. A SHORT ACCOUNT OF THE LAWS AND INSTITUTIONS OF MOSES: showing that they were worthy of their

Divine Author, being fitted for the Accomplishment of the most important Purposes. By HENRY FERGUS, Minister in Dunfermline. 8vo. 3s.

25. A KEY TO MAIR'S INTRODUCTION, or a Help to the Tyro, in Latin Syntax: in which every Sentence is arranged in the Order of Construction, and the Quantities of the Words, particularly the proper Names accurately marked. 18mo. 3s. bound.

IN THE PRESS.

1. HOOPER'S QUINCY'S LEXICON. A new Edition. 8vo.

2. WITHERING'S SYSTEMATIC ARRANGEMENT OF BRITISH PLANTS. A new Edition (being the 5th) in 4 vols. 8vo.

3. THE AMBULATOR: or, a Pocket Companion in a Tour round London, within a Circuit of 25 Miles: describing whatever is remarkable for Antiquity, Grandeur, Elegance, or rural Beauty. With elegant Engravings. A new Edition (being the 11th). Royal 18mo.

4. BUFFON'S Natural History, of Quadrupeds and Birds.

WORKS IN THE PRESS.

1. **SURGICAL** Observations, by John Abernethy F. R. S. &c. &c. Part III. On Injuries of the Head and Miscellaneous Subjects. Part IV. On Chronic Abscesses and Tumours.
2. **Medico Chirurgical Transactions**, Volume the second.
3. **An Epitome of Chemistry**, by William Henry, M. D. A new Edition in 2 vols.
4. **A System of Surgery**, by James Ruffel, F. R. S. Professor of Clinical Surgery in the University of Edinburgh.
5. **A System of Anatomy** by John Gordon, M. D. Lecturer on Anatomy and Physiology Edinburgh.
6. **The London Dispensatory**; containing the Elements and Practice of Materia Medica and Pharmacy, with a Translation of the Pharmacopœias of the London, the Edinburgh, and the Dublin Colleges of Physicians; many useful Tables; and Copper-plates of the Pharmaceutical Apparatus *. The whole forming a Synopsis of Materia Medica and Therapeutics. By Anthony Todd Thomson.
7. **Fasciculus 2. of Anatomico-Chirurgical Views**, intended to illustrate the Anatomy of the Cavity of the Male and Female Pelvis, and their Contents; the Muscles of the Perineum as they appear upon Dissection; and the external Objects of Generation in both subjects: together with appropriate explanations and references. By John James Watt, Surgeon.

* Specimens of the Plates may be seen at T. Underwood's where Subscriptions are received.

8. Facts and Opinions concerning Diabetes, by John Latham. M. D.
9. A Treatise on Mortification, by John Lee, Surgeon of Shields.
10. The New London Pharmacopœia, enlarged from the last Edinburgh and Dublin Pharmacopœias, and reduced to one common Nomenclature; with an Appendix of the genera and species of the different articles of the Materia Medica, by R. Stocker, Apothecary to Guy's Hospital.
11. An Experimental Inquiry concerning Injuries to the Canal of the Intestines, illustrating the Treatment of penetrating Wounds and mortified Hernia.
12. Cases of Cure of the Derangement of the Testicle and demonstrative of their being sympathetic with the Urethra, and to show that most of the Diseases of that Gland hitherto deemed incurable, are perfectly within Remedy. Also some Cases of Hydrocele, in which the radical Cure has been effected without recourse to any of the Operations at present practised for that Purpose. By Thomas Ramsden, Esq. Surgeon to Christ's and the Foundling, and Assistant Surgeon to St. Bartholomew's Hospitals.
13. The First Lines of the London Practice of Physic, by Thomas Bradley, M. D.
14. Life of Dr. Beddoes, by J. C. Stock, M. D.
15. A Treatise on a very prevalent Disease of the Eye, by J. Stevenson, Pupil of the late Mr. Saunders.
16. A Work on the Eye, by the late J. Saunders, Demonstrator of Anatomy at St. Thomas's Hospital, &c.
