Greek & Roman Literature. Natural History. History of Philosophy.
through the year. Latin and Greek twice a week through the year.

Private classes may be formed, during the last two years, in the HEBREW,
History will be given in connection with the College of Natural History.

University of Vermont, Oct. 1841.

REMARKS, & c.

ADMISSION.

CANDIDATES for admission to the University must produce satisfactory testimonials of a good moral character, and sustain before one or more of the Faculty an approved examination in the following studies:—Common Arithmetic, Elements of Algebra, Elements of Ancient and Modern Geography, English, Latin and Greek Grammar, and be able to translate with facility Jacob's Greek Reader, and six books of Homer's Iliad; Jacob's Latin Reader, Sallust or Cæsar's Commentaries, Cicero's Select Orations, and Virgil. The authors here mentioned are preferred; but the amount of knowledge will be regarded rather than the particular books from which it has been acquired. Those who propose to pursue a partial course of study, will be examined in those studies which are necessary to a successful prosecution of the proposed course.

The regular seasons for the admission of students into the University are on the day preceding commencement, and that preceding the first day of the autumnal Term.

The parents or guardians of such as become members of the University, or the students themselves, are required to pay to the treasurer the bills of each term in advance, or to give bonds for the payment of the same.

Commencement is on the first Wednesday in August. There are two vacations—one of four weeks from Commencement; the other of eight weeks from the first Wednesday of January.

The students are examined at the close of each study, by the Faculty; and also annually by the Faculty and a committee, during the three weeks immediately preceding commencement, in all the studies pursued under the direction of the Faculty. The examinations are intended to be exact and thorough, and the results in the case of each student are noted and recorded.

EXPENSES.

Tuition, (per annum)	\$25,00
Incidental expenses, for ordinary repairs, library, catalogues, fires, commencement, &c. about	6,00
Rooms in the College building, per year,	4,00
Board, from \$1,25 to \$2,00 per week, average for 40 weeks,	65,00
<hr style="width: 20%; margin: 5px auto;"/>	
Total annual expenses,	\$100,00
Average price of wood, from \$2,00 to \$3,00 per cord.	

The text books in the department of Languages, though more numerous than in most Colleges, are not more expensive, as the cheap German editions are used. Entire authors are preferred to collections of extracts. The use of these, it is believed, furnishes an inducement to the student to retain his Classics, and to pursue the study of them beyond the immediate demands of the recitation room.

In the department of Mathematics and Physics, Davies' Bourdon's Algebra, Legendre's Geometry; Conic Sections, Trigonometry, Topography, Calculus and Mechanics, from the Cambridge course; Brewster's Optics and Herschel's Astromomy are used for the current year; but changes in the Text books are made whenever the good progress of the scholar can be promoted by it.
