## ANNOUNCEMENT.

---

THE next session of the Jefferson Medical College will commence on the second Monday, being the thirteenth day of October, and will be continued without interruption until the first of March. Opportunities, however, will be afforded for the prosecution of Practical Anatomy from the commencement of October. The General Dispensary of the College, which the students of the College have the exclusive privilege of attending gratuitously, will be open. The College Clinic, connected with this, affords admirable opportunities for the student to learn the practical parts of his profession, and the proper application of the principles which he is taught from the various chairs. The clinic is richly supplied with medical and surgical cases, and throughout the session it forms a prominent, and, in the estimation of the Faculty, a most important element of the educational course. The patient is examined, prescribed for, and if a surgical operation is needed, it is performed before the class. The rationale of every conclusion, and of every prescription is expounded by the clinical professor; and diagnosis, prognosis, and therapeutics are thus intimately investigated and elucidated.

The lists of medical and surgical diseases exhibit the vast variety of cases brought before the students, and as the patients seek advice at the clinic, they may be regarded as representatives of the class who apply for assistance—medical and surgical—at the office of the practitioner. For certain cases, the Faculty have provided hospital accommodations in a building in immediate connection with the College,—thus enabling the surgeons to perform not only the minor but the more serious operations, as lithotomy, amputation, &c., before the class, without risk to the patient. During the past year, 802 medical, and 813 surgical cases were treated. The number of operations performed was 267,—including amputation of the thigh and leg, and of the arm at the shoulder joint; various plastic operations; extirpation of the upper jaw, and of the mammary gland; lithotomy; trephining; resection of the elbow joint and of the tibia, &c. &c.

The hours of attendance at the clinic of the College are so arranged as to permit the students to attend every Wednesday and Saturday, for a fee paid to those institutions, the clinics held either at the Pennsylvania Hospital or at the Philadelphia Hospital. The course adopted in those clinics is the same as at the clinic of the College. With so large a class in attendance, it is impracticable to visit the sick from bed to bed; and hence, on the days named, the patients are brought into the amphitheatre, and there treated and lectured on.

The museum of the College is amply provided with materials for demonstration, and is well fitted for illustrating the various departments.

Since the last session of the College, Professor Mütter has felt compelled by ill health to resign his Chair. Identified with the progress of the Institution for the last fifteen years, and as zealous as he was efficient, the Faculty part with their colleague with profound regret. He will still, however, remain associated with the school by the honorary distinction of "Emeritus Professor of Surgery," conferred upon him by the Board of Trustees.

Dr. Samuel D. Gross, Professor of Surgery in the University of Louisville, well known to the Profession as an eminent surgical teacher, practitioner, and author, has been appointed to succeed Professor Mütter.

The number of students during the last session was 510; and of graduates 215.

## REGULATIONS.

The examinations are so arranged as to permit the commencement for conferring Degrees to be held early in March.

There is likewise an examination of candidates for graduation during the first week of July. The degrees are conferred on the candidates who are successful at this examination at the annual commencement following.

The candidate must be of good moral character, and at least twenty-one years of age.

He must have attended two full courses of lectures in some respectable Medical school, one of which shall have been in this College, and must exhibit his tickets, or other adequate evidence thereof, to the Dean of the Faculty.

He must have studied medicine for not less than three years, and have attended at least one course of clinical instruction in an institution approved by the Faculty.

He must present to the Dean of the Faculty a thesis of his own composition, correctly written, and in his own handwriting, on some medical subject; and exhibit to the Faculty, at his examination, satisfactory evidence of his professional attainments.

If, after examination for a degree, the candidate, on ballot, shall be found to have received three negative votes, he shall be entitled to a fresh examination. Should he decline this, he may withdraw his thesis, and not be considered as rejected.

The degree will not be conferred upon any candidate, who absents himself from the public commencement, without the special permission of the Faculty.

## FEES.

The fee to each member of the Faculty is *fifteen dollars*, payable in advance, making in the whole *105 dollars*.

The matriculation fee is *five dollars*:—to be paid the first session only.

The fee for the diploma is *thirty dollars*.

## BOOKS OF REFERENCE.

I. INSTITUTES OF MEDICINE.—Dunghlison's Human Physiology.

II. MATERIA MEDICA AND GENERAL THERAPEUTICS.—Dunghlison's Therapeutics and Materia Medica.

III. GENERAL, DESCRIPTIVE, AND SURGICAL ANATOMY.—Pancoast's edition of Wistar's Anatomy, or Wilson's Anatomy, and Pancoast's edition of Quain's Anatomical Plates.

IV. PRACTICE OF MEDICINE.—Dunghlison's Practice of Medicine, or the Practice of Medicine of Bell and Stokes.

V. INSTITUTES AND PRACTICE OF SURGERY.—Erichsen's Science and Art of Surgery, and Pancoast's Operative Surgery, or Liston's and Mütter's Operations of Surgery.

VI. OBSTETRICS, AND DISEASES OF WOMEN AND CHILDREN.—Meigs's Obstetrics; Meigs on Woman, her Diseases and their Remedies; Meigs on Childbed Fevers; and J. F. Meigs on the Diseases of Children.

VII. CHEMISTRY.—Fownes's Chemistry.

☞ The price of boarding, and all the personal expenses of the student, are at least as reasonable in Philadelphia as in the other large cities of the Union.

☞ The Faculty would strongly recommend to the parents and guardians of the students to send money to them in bills on some banker, broker, or merchant of Philadelphia, if practicable—if not, of Baltimore or of New York, and not in the form of bank notes. By means of a new postal regulation, money can be sent in letters duly registered with more safety than formerly.
