AND  
COLDS

# BROWN'S BRONCHIAL TROCHES

Cure cough, cold, hoarseness, and influenza; irritation or soreness of the throat. Relieve the hacking cough in consumption, bronchitis, whooping cough, asthma, catarrh. Clear and strengthen the voice of singers. Indispensable to Public Speakers.

*Rev. Joseph Moore, Congleton, writes, under date January 21st, 1870, as follows:—*

“About a year and a half ago I first tried ‘Brown’s Bronchial Troches,’ and have used them ever since. I find them of *extraordinary efficacy*; better far than any lozenges I have ever tried.”

*Mr. John H. White, Chemist, Laceby, near Grimsby, writes as follows:—*

“I am glad to give spontaneous testimony to the efficacy of ‘Brown’s Bronchial Troches.’ I have several times had occasion to use them myself, and invariably found them effective; indeed, in the winter time I never am without some in my pocket, and I believe in their use, on the slightest indication of throat affection, has saved me many a serious cold.”

*From Mr. George E. Crick, Chemist, Malden, Essex.*

“The sale of ‘Brown’s Bronchial Troches’ has very much increased during the last year. A gentleman advanced in years speaks very highly of them; he says they are his old friends, and if there is anything the matter with his throat or chest he takes one or two of them, and soon gets right.”

Wherever these books are distributed, “BROWN’S BRONCHIAL TROCHES” will be found at some chemists in the vicinity.

PRICE 1s. 1½d. per Box.

For renewing the Hair. For restoring its natural colour. For strengthening the Hair.

HAS never been known to fail in restoring the hair to its natural colour and gloss, in from eight to twelve days; it promotes its growth and prevents its falling out, eradicating dandruff, and leaving the scalp in a clean, healthy condition. It imparts peculiar vitality to the roots of the hair, restoring it to its youthful freshness and vigour. Daily applications of this preparation for a week or two will surely restore Faded, Grey, or White Hair to its natural Colour and Richness. If properly applied, it never fails; but it should be well shaken before

using. It is not a dye, nor does it contain any colouring matter or offensive substance whatever. Hence it does not soil the hands, the scalp, or even white linen, but produces the colour within the substance of the hair. In many cases it has been successful in causing new hair to grow on bald spots, and it can be confidently recommended in all cases, unless the hair-glands are decayed; but if the glands are decayed and gone, no stimulant can restore them; but if, as is often the case, the glands are only torpid, "THE MEXICAN HAIR RENEWER" will renew their vitality, and a new growth of hair will follow. The constitution of the person and the condition of the scalp have much to do with the length of time it requires for new hair to grow; also, thin or thick hair will depend much upon the vital force remaining in the hair-glands. New hairs are first seen to start around the margin of the bald spots, near the permanent hair, and extending upwards until the spots are covered more or less thickly with fine short hair. Excessive brushing should be guarded against as soon as the small hairs make their appearance; but the scalp may be sponged with rainwater to advantage occasionally. The scalp may be pressed and moved on the bone by the finger ends, which quicken the circulation and soften the spots which have remained long bald. On applying this hair dressing it enlivens the scalp, and in cases where the hair begins to fall, a few applications will arrest it, and the new growth presents the luxuriance and colour of youth. *See the Certificate of Dr. Versmann on every Bottle.* "THE MEXICAN HAIR RENEWER" may be procured of any first-class Perfumer, Chemist, or Dealer in Toilet Articles, throughout the Kingdom, at 3s. 6d. per bottle. In case the dealer has not the preparation in stock, and will not procure it for you, it will be sent, *freight paid*, on receipt of Post-office Order for 4s., to any address in England. There is only one size, and it cannot be sent per post.

HENRY C. GALLUP, Proprietor, 493, Oxford Street, London.

# RECIPES.

## A Strong Paste for Paper.

To two large spoonfuls of fine flour put as much pounded rosin as will lie on a shilling; mix with as much strong beer as will make it of a due consistence, and boil half-an-hour. Let it be cold before it is used.

## To Tell Good Eggs.

If you desire to be certain that your eggs are good and fresh, put them in water; if the butts turn up they are not fresh. This is an infallible rule to distinguish a good egg from a bad one.

## To Remove Ink Stains.

Ink stains may easily be removed from cotton or linen, by washing the spot that is stained in salt and water. This should be done previous to its being washed with soap, for soap sets the colour.

## Colours Taken Out by Acid.

Sal-volatile of hartshorn will restore colours taken out by acid.

## Coughs, Hoarseness,

And the various THROAT AFFECTIONS to which Public Speakers, Military Officers, and Singers are liable, relieved by "BROWN'S BRONCHIAL TROCHES." Having a direct influence on the affected parts, they allay Pulmonary Irritation. The freedom from all deleterious ingredients renders "BROWN'S BRONCHIAL TROCHES" a safe remedy for the most delicate female or youngest child; and has caused them to be held in the highest esteem by Clergymen, Singers, and Public Speakers generally.

## To take Ink out of Mahogany.

Dilute half a teaspoonful of oil of vitriol with a large spoonful of water, and touch the part with a feather; watch it, for if it stays too long it will leave a white mark. It is therefore better to rub it quick, and repeat if not quite removed.

## Stains of Wine, Fruit, &c., after they have been long in the Linen.

Rub the part on each side with yellow soap. Then lay on a mixture of starch in cold water very thick; rub it well in, and expose the linen to the sun and air till the stain comes out. If not removed in three or four days, rub that off, and renew the process. When dry, it may be sprinkled with a little water.

## "Mrs. Winslow's Soothing Syrup,"

For complaints incident to children, such as Griping in the Bowels, Wind-colic, Dysentery, or Diarrhœa, is the best remedy in the world, and may be had of any medicine dealer in the vicinity where these books are distributed. Full directions for using will accompany each bottle. None genuine unless the fac-simile of Curtis and Perkins is on the outside wrapper.

## JANUARY—31 Days.

**Trench and manure**; prepare hotbeds for asparagus, cucumbers, mint, potatoes, and the small salads. Sow the brown Dutch and grand admiral cabbages, curled parsley for transplanting; frame peas, horn carrots, mazagan beans, onions (to be allowed to grow large); plant out cabbage plants to succeed those which have been planted out in Autumn.

A country girl, coming from the field, was told by her cousin that she looked as fresh as a daisy kissed by the dew, "Well, it wasn't any feller by that name, but it was Joe Minks that kissed me. I told him that every person in town would find it out."

**VALUABLE DISCOVERY FOR THE HAIR.**—If your hair is turning grey or white, or falling off, use "The Mexican Hair Renewer," for it will positively restore, in every case, grey or white hair to its original colour, without leaving the disagreeable smell of most "restorers." It makes the hair charmingly beautiful, as well as promoting the growth of the hair on bald spots, where the glands are not decayed. Certificates from Dr. Versmann on every bottle, with full particulars. Ask your chemist for "The Mexican Hair Renewer" (price 3s. 6d.), prepared by Henry O. Gallup, 493, Oxford Street, London.

Some girls are like old muskets; they use a good deal of powder, but won't go off."

Why do girls kiss each other and men do not? Because girls have nothing better to kiss and men have.

What is the difference between a soldier and a fashionable young lady? One faces the powder and the other powders the face.

**WOMAN'S RITES.**—Matrimony and divorce.

Why is a clever grammarian never involved in quarrels? Because he is master of his own tongue.

Why is a balloon the best sort of post for M. Gambetta? Because it is the best means of transmitting "windy" dispatches.

Why is a sword like beer? Because it's no use till it's drawn.

### To Clarify Sugar for Sweetmeats.

Break as much as required in large lumps, and put a pound to half-a-pint of water, in a bowl, and it will dissolve better than when broken small. Set it over the fire, with the well-whipt white of an egg; let it boil up, and when ready to run over, pour a little cold water in to give it a check; but when it rises a second time, take it off the fire, and set it by in the pan for a quarter of an hour, during which the foulness will sink to the bottom, and leave a black scum on the top, which take off gently with a skimmer, and pour the syrup into a vessel very quickly from the sediment.

### To Candy any sort of Fruit.

When finished in the syrup, put a layer into a new sieve, and dip it suddenly into hot water, to take off the syrup that hangs about it; put it on a napkin before the fire to drain, and then do some more in the sieve. Have ready sifted double-refined sugar, which sift over the fruit on all sides till quite white. Set it on the shallow end of sieves in a lightly-warm oven, and turn it two or three times. It must not be cold till dry. Watch it carefully, and it will be beautiful.

### A Single Trial of Mrs. Winslow's Soothing Syrup

For children teething, never yet failed to relieve the baby, and overcome the prejudices of the mother. It will relieve the poor little sufferer immediately. It not only frees the child from pain, but regulates the stomach and bowels, cures wind-colic, corrects acidity, and cures dysentery and diarrhoea; gives rest and health to the child, and comforts the mother.

### Preserved Pears.

Take six pounds of pears to four pounds of sugar; boil the parings in as much water as will cover them; strain it through a colander; lay some pears in the bottom of your kettle, put in some sugar, and so on alternately; then pour the liquor off the pear-skins over, boil them until they begin to look transparent; then take them out, let the juice cool, and clarify it; put the pears in again, and add some ginger; boil till done; let the liquor boil after taking them out, until it is reduced to a syrup.

### Currant Jelly without Cooking.

Press the juice from the currants and strain it; to every pint put a pound of fine white sugar; mix them together until the sugar is dissolved; then put it in jars, seal them, and expose them to a hot sun for two or three days.

### Bronchitis and Throat Diseases.

**CLERGYMAN'S SORE THROAT.** A chronic inflammation of the small mucous glands connected with the membranes which line the throat and windpipe, the approach of which is often so insidious as scarcely to attract notice—an increase of mucous, and a sense of wearisomeness, and loss of power in the throat after public speaking or singing. It arises from cold or any unusual exertion of the voice. These incipient symptoms are allayed by using "BROWN'S BRONCHIAL TROCHES," while, if neglected, an entire loss of voice is often experienced.

## FEBRUARY—28 Days.

All the ground which is destined for early crops must now be prepared, and hotbeds be multiplied for cucumbers and early melons. Celery may be sown on a moderate hotbed; also sow cabbages, horn carrots, lettuces, leeks, parsnips, and, in fact, most of the table vegetables. Those plants, such as cabbages, chivers, garlick, shalots, underground onions, and horse-radish, which are fit, should now be transplanted.

A bereaved widower, while receiving with due acknowledgements the condolence of friends—that it was indeed a great loss—a sad bereavement that he had suffered—added: “And just think! Only a few days ago I bought her a whole box of pills, and she hadn't time to eat half of them before she died!”

Says the Psalmist: “He maketh my feet like a hind's feet.” A negro preacher read it “hen's feet,” and proceeded to say, “dat a hen in the hen-roost, when it falls asleep, tightens its grip so's not to fall off. And dat's how true faith, my bredren, holds on to the rock.”

Upholsterers, we hear, strongly object to any perceptible increase of the standing army, since it will make a sensible difference in the demand for chairs.

When the Chinese want to describe a person who pretends to be very brave, and makes a great parade in order to show his courage, they say that “He is cutting off a hen's head with a battle-axe.” A coward, who boasts of his courage, they call “A paper tiger.” They compare a person who pretends to be what he is not to a fox who tries to look as noble and strong as a tiger. If a person is ignorant of books, they will say, “Turn him upside down, but not a drop of ink will come out of him.”

### An Article of True Merit.

“BROWN'S BRONCHIAL TROCHES” are the most popular article in Europe for Throat Diseases, Coughs, and Colds; and this popularity is based upon *real merit*. This result has been acquired by a test of many years, and “THE TROCHES” continue to stand the first in public favour and confidence. They can be procured of any First-class Chemist, at 1s. 1½d. per box, throughout the Kingdom.

### Apple Custard.

One dozen large apples, moist sugar to taste, one small tea-cupful of cold water, the grated rind of one lemon, one pint of milk, four eggs, two ounces of loaf sugar. Peel, cut, and core the apples; put them in a lined saucepan with the cold water, and, as they heat, bruise them to a pulp; sweeten with moist sugar, and add the grated lemon-rind; when cold, put the fruit at the bottom of a pie-dish, and pour over it a custard made with the above-named proportions of milk, eggs, and loaf-sugar; grate a little nutmeg over the top, place the dish in a moderate oven, and bake from twenty-five to thirty-five minutes.

### To keep Milk and Cream.

In hot weather, when it is difficult to preserve milk from becoming sour, and spoiling the cream, it may be kept perfectly sweet by scalding the new milk very gently, without boiling, and setting it by in the earthen dish or pan that it is done in. This method is pursued in Devonshire, and for butter and eating, would equally answer in small quantities for coffee, tea, &c. Cream already skimmed may be kept twenty-four hours if scalded without sugar; and, by adding to it as much powdered lump-sugar as shall make it pretty sweet, will be good two days, keeping it in a cool place.

### Mrs. Winslow's Soothing Syrup.

*Mr. John Allsopp, Chemist, Oldbury, says in a letter, Feb. 22nd, 1869:—*

"I am in duty bound to say that "MRS. WINSLOW'S SOOTHING SYRUP" gives very great satisfaction, and if the sale increases as it has done, it will become an universal remedy for children. All that I know who have tried it speak of it in the highest terms, and would not be without it on any account.

### To Mash Potatoes.

Boil the potatoes, peel them, and break them to paste; then to two pounds of them, add a quarter of a pint of milk, a little salt, and two ounces of butter, and stir it all well over the fire. Either serve them in this manner, or place them on the dish in a form, and then brown the top.

### Curry Fish.

Put into the pot four onions and two apples, in thin slices, some thyme, or savory, with a quarter of a pound of fat or dripping, three tablespoonfuls of salt, one tablespoonful of sugar, and fry for fifteen minutes; then pour in three quarts of water and one pound of rice; boil till tender; add one tablespoonful of curry-powder, mixed in a little water; cut up six pounds of cheap fish the size of an egg; add to the above, and boil for twenty or thirty minutes, according to the kind of fish. If salt fish is used, omit the salt. If no herbs, do without, but always use what you can get.

### C O L D S .

Few are aware of the importance of checking a cough or "common cold," in its first stage. That which in the beginning would yield to a mild remedy, if neglected soon attacks the lungs. "BROWN'S BRONCHIAL TROCHES," or Cough Lozenges, allay irritation, which induces coughing, having a *direct* influence on the affected parts. Sold by all chemists at 1s. 1½d. per box.

## MARCH—31 Days.

In open borders sow asparagus, cabbages, and Hamburg parsley, Neapolitan kale, parsley, onions, &c.; plant out such vegetables as have been already sown. Before sowing, dig carefully, and make the ground level and fine. Main crops may be sown in this month, such as early long-pod beans, peas, celery, turnips, and, indeed, most other vegetables. Mustard cress, lettuce, spinach, and radishes may be sown every week or fortnight for succession.

31	Tu Beethoven died, 1827.	s6 30	11 29	1 25	1 41

A school teacher spelled out the word "G-r-a-c-e," and asked a scholar to pronounce it. He gave it up, when the teacher, to refresh his memory, asked him, "What did your father say this morning before eating his breakfast?" The boy thought a minute, and finally said, "Pa said, 'd-n these eggs, they're rotten!'"

"A man who'd maliciously set fire to a barn," said old Elder Podson, "and burn up a stable full of horses and cows, ought to be kicked to death by a jack-ass, and I'd like to be the one to do it."

What is the difference between stabbing a man and killing a hog? The one is assaulting with intent to kill, and the other is killing with intent to salt.

The full dress of a native lady of Colombo is a hair-pin and two garters.

A married lady of our acquaintance thus sums up her three years' experience of married life: "The first year my husband called me 'My dear,' the second, 'Mrs. A,' and the third year, 'Old sorrell top.' This last I could not stand."

### To Prevent Hair from Falling off or Turning Grey.

Ask your chemist for a bottle of "THE MEXICAN HAIR RENEWER," price 3s. 6d., and don't be persuaded to *try something else*; in case he has not got it, send 4s. in stamps to H. C. GALLUP, 493, Oxford Street, London, and you will receive a bottle, *freight paid* and guaranteed against breakage to any part of England. It will surely restore Grey Hair to its original colour without *dyeing* it, producing the colour within the substance of the Hair, and will not soil the skin or even white linen.

### Preserved Currants for Tarts.

Get your currants when they are dry, and pick them; to every pound and a quarter of currants, put a pound of sugar into a preserving pan, with as much juice of currants as will dissolve it; when it boils, skim it, and put in your currants, and boil them till they are clear; put them into a jar, lay paper over, tie them down, and keep them in a dry place.

### Orange Jelly.

Put one quart of water into a saucepan, with a quarter pound of harts-horn shavings, or two ounces of isinglass, broken small; boil it gently till it is a strong jelly; take the juice from four large oranges and two fine lemons, and half the yellow rind of one orange and one lemon, pared thin; put them to the jelly, and make it sweet with loaf sugar; then beat the whites of four eggs to a froth, mix it, and let it boil for ten minutes, then run it through a jelly bag once or twice, until it is perfectly clear. Put in fancy moulds. When you wish to serve it, set the mould for a few seconds in a pan of hot water, turn a flat glass or china dish over the mould, reverse it with the mould upon it, and if the jelly does not immediately loosen, give it a smart tap with the hand.

### Public Speakers and Singers.

"BROWN'S BRONCHIAL TROCHES" contain ingredients acting specifically on the organs of the voice. They have an extraordinary efficacy in all affections of the Throat and Larynx, restoring their healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation.

### To Make Apple Jelly.

Take your apples, wash and cut them into halves, to be sure there are no worms in them, place them in a brass, or porcelain kettle without removing the seeds or rinds, cover them with water, and let them boil till perfectly soft; then take them off, strain them through a coarse-towel, and put the juice back into the kettle; let it boil to the consistency of molasses, then for every gallon of syrup add two pounds of sugar and an ounce of cinnamon, bring it to boil, skim it, and it is done.

### Dried Apple Jelly.

One quart of apples put in four quarts of water, and allowed to stand all night; boil till the goodness is out of the apple, strain to a quart of juice, add a pint of sugar, and boil till it comes to a jelly.

*From Mr. James Marson, 63, Greengate Street, Stafford.*

"Few remedies have gained a reputation in so short a time as 'Mrs. WINSLOW'S SOOTHING SYRUP,' and the demand for it still increases."

*From Mr. John Whalley, Chemist and Druggist, Holinwood.*

"'Mrs. WINSLOW'S SOOTHING SYRUP,' is asked for by customers more than any other preparation, and they say it answers much better."

## APRIL—30 Days.

Planting the vegetables which have been sown is now the chief business. Make hotbeds for cucumbers and melons; force kidney beans and Elford rhubarb. Plant out artichokes and potatoes; sow asparagus, beets, cabbages, celery, garden and kidney beans, Dutch turnips, lettuces, peas, radishes, small salading.

"Gently the dews are o'er me stealing," as the man said when he had five due bills presented to him at one time.

"My boy," said a clergyman, "don't you know that it is wicked to catch fish on Sunday?" "But I hain't sinned much yet," said the boy, without turning his eyes from the float; "hain't had a bite."

Said a distinguished politician to his son,—“Look at me! I began as an alderman, and here I am at the top of the tree; and what is my reward? Why, when I die, my son will be the greatest rascal in the city.” To this the young hopeful replied, “Yes, dad, when you die, but not till then.”

A lad crawled into a sugar hogshead, and his first exclamation was, “Oh for a thousand tongues!”

A FAILURE.—“Boy, what is your father doing to-day?” “Well, I s'pose he's failin'. I heard him tell mother, yesterday, to go round to the shops and get trusted all she could—and do it right off, too—for he'd got everything ready to fail up to nothing 'ceptin' that.”

## Throat Affections and Hoarseness.

All suffering from *Irritation of the Throat* and *Hoarseness* will be agreeably surprised at the almost immediate relief afforded by the use of “BROWN'S BRONCHIAL TROCHES.” The demulcent ingredients allay pulmonary irritation; and after public speaking or singing, when the throat is wearied and weakened by too much exercise, their use will give renewed strength to the vocal organs.

### All the Year Round Pudding.

Line a pie-dish with paste, spread on three ounces of any kind of jam (raspberry is the best), then beat well in a basin the following:—three ounces of bread crumbs, the same of sugar and butter, the rind and juices of half a large lemon; add this to the pastry and jam, and bake half-an-hour.

### Rice Buns.

Take a quarter of a pound of loaf sugar, and beat well with two eggs; then add a quarter of a pound of ground rice, and flavor with any essence preferred. Bake in drop tins.

### Fish Cake.

1. Put the bones of the fish, with the head and fins, into a stew-pan, with about a pint of water, add pepper and salt to taste; one good sized onion, a handful of sweet herbs, if you like, and stew all slowly for about two hours. Then mince fine the clear meat of the fish, mixing it well with bread crumbs and cold mashed potatoes, and a small quantity of fine chopped parsley; season with salt and pepper to taste, and make the whole into a cake with an egg well beaten. Brush it over lightly with white of egg, strew with bread crumbs, and fry of a rich amber brown. Strain the gravy made from the bones, etc., and pour it over; stir gently for ten minutes or a quarter of an hour. Serve very hot, with garnish of parsley and lemon slices. 2. Carefully remove the bones and skin from any fish that is left from dinner, and put it into warm water for a short time. After taking it out press it dry and beat it in a mortar to a fine paste, with an equal quantity of mashed Potatoes, and season to taste. Then make up the mass into round flat cakes, and fry them in butter or lard till they are of a fine golden brown color. Be sure they do not burn. Codfish is excellent re-cooked after this fashion.

### Coughs, Hoarseness, Asthma,

Or any irritation of the Throat or Bronchial Tubes, relieved by allowing one of "Brown's Bronchial Troches" to dissolve slowly in the mouth.

### Champlain Chowder.

To four pounds of fish, one pound fat pork to fry. Fry the pork gently in a bake kettle until the fat is out. Have ready the fish to put in when the scraps of pork are taken out, one quart of boiling water to every four pounds of fish. Put in with the fish at the same time, pepper, salt, and a few sliced onions. Let it stew over a quick fire twenty minutes. Take off the cover then, and add one gill of milk. In five minutes take it up, and add crackers and oysters just before the chowder is done, if you wish.

*From J. B. Langford, Chemist, Wellington.*

"Beware your 'Mrs. Winslow's Soothing Syrup' and 'Brown's Bronchial Troches' give great satisfaction."

*From J. F. Williamson, Chemist, 48, Hunslet Road, Leeds.*

"I often hear my customers speak in the highest terms of 'Mrs. Winslow's Soothing Syrup;' in fact, it is a general favorite in this locality."

**MAY—31 Days.**

Sow carrots, lettuce, capsicums, cauliflowers, spinach, Knight's marrow-fat peas, champions, &c. Transplant cabbages, winter greens, lettuces, and celery. Hoe and stake peas, water newly-planted crops, and propogate aromatic plants by slips and cuttings. Protect from wind and rain choice tulips, ranunculuses, and anemones. Propogate herbaceous plants by dividing the roots; wall-flowers, sweet-williams, and rockets, by slips.

**FOUL WATER.**—  
A duck pond.

**PAIL CREATURES.**  
Dairymaids.

**A WORD TO THE WISE.**—Remain so.

"Are cats good to eat, mother?" "Of course they are, my son—good to eat mice."

It is not what we read, but what we remember, that makes us wise.

It is not what we make, but what we save, that makes us rich.

*Mr. J. G. Netting, Dispensing Chemist, 177, North Road, Plymouth, writes, August 1, 1870.*

"Allow me to present my very sincere thanks for present and past favours, and I am very pleased to say I have sold hundreds of bottles of 'MRS. WINSLOW'S SOOTHING SYRUP,' and every customer has been pleased with its effect, and I have given it to my own children many times with perfect success."

*Mr. Richard Bright, Chemist and Druggist, of Peterborough, writes, under date of July 29, 1870.*

"Mrs. WINSLOW'S SOOTHING SYRUP" sells exceedingly well. There is no patent medicine which I sell more of, and which gives so much satisfaction.

### Good Plain Family Irish Stew.

Take about two pounds of scrag or neck of mutton; divide it into ten pieces, lay them in the pan; cut eight large potatoes and four onions in slices, season with one teaspoonful and a half of pepper, and three of salt; cover all with water; put it into a slow oven for two hours, then stir it all up well, and dish up in deep dishes. If you add a little more water at the commencement, you can take out, when half done, a nice cup of broth.

### Ragout of Mutton.

Put in the pot a quarter of a pound of dripping; when hot, peel and cut twenty small turnips, or ten large ones into pieces the size of a walnut; put them into the fat, and fry until brownish. Take them out, then put into the fat a quarter of a pound of flour; stir round until brown. You have prepared four pounds of scrag of mutton, cut into small pieces; put them in, and stir round; then add enough water to cover the meat; stir until boiling. When the mutton is nearly done, which you will find by trying it with a fork, add the turnips; season with three teaspoonfuls of salt, one of pepper, the same of brown sugar, and a little bit of scraped garlic, if handy. Any part of mutton may be used. Ragout of veal or lamb may be done in this manner.

### Advice to Mothers.

"MRS. WINSLOW'S SOOTHING SYRUP" should always be used when children are cutting teeth; it relieves the little sufferer at once, it produces natural quiet sleep by relieving the child from pain, and the little cherub awakes "as bright as a button." It is perfectly harmless, and very pleasant to taste. It soothes the child, it softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for dysentery and diarrhoea, whether arising from teething or other causes. Sold by all chemists at 1s. 1½d. per bottle.

### To Stew Veal Cutlets.

Cut them about half-an-inch thick, flatten them with a chopper, and fry them in fresh butter or dripping. When brown on one side turn and do them on the other, continuing to do so till they are thoroughly done, which will be in about a quarter of an hour. Make a gravy of some trimmings, which put into a stewpan with a bit of soft butter, an onion, a roll of lemon peel, a blade of mace, some thyme, parsley, and stew the whole over a slow fire for an hour, and then strain it; put one ounce of butter into another pan, and when melted mix with as much flour as will dry it up; stir this for a few minutes, then add the gravy by degrees till the whole is mixed; boil it five minutes, then strain it through a sieve and put it to the cutlets. Some browning may be added, together with mushroom or walnut catsup, or lemon pickle.

### "Brown's Bronchial Troches"

Are offered with the fullest confidence in their efficacy. They have been thoroughly tested, and maintain the good reputation they have justly acquired. The Troches are invaluable to military officers, and those who overtax the voice, by relieving an *Irritated Throat* and rendering articulation easy. Soldiers exposed to sudden changes will find them useful, by affording prompt relief in cases of *Coughs, Colds, &c.* Ask your chemist for "BROWN'S BRONCHIAL TROCHES," and see that the name is on the stamp around the box. Price 1s. 1½d. per box.

## JUNE—30 Days.

Sow Cape brocoli, kidney beans, peas, lettuces, radishes, champions, spinach, small salading, &c. The best peas for sowing now are Knight's marrow-fat peas; they will bear till October. Hoe the beds of table vegetables, and pick out the most curled plants of curled parsley, cress, and chervil for seed. Watering the freshly-planted crops must now be attended to in dry weather in the evenings, or very early in the mornings.

An erring Indiana hen was recently found in the back part of a hardware store, where the misguided fowl had struggled for three weeks, trying to hatch out half-a-dozen white porcelain door knobs. She was very much reduced.

Much benevolence consists in an ambition to distribute others' money.

**MARKET NOTICE.**  
— "No whistling near the sausage-stalls."

A soldier, telling his mother of the terrible fire at Chickamaugua, was asked by her why he did not get behind a tree. "Tree!" said he, "there wasn't enough for the officers."

"Aunt, why do you sit out the long sermons of that minister?" said niece. "My dear," replied aunt, "they accustom me to eternity."

A PROMPT REPLY.—"Halt! who comes there?" shouted a sentinel to a lieutenant in full-fledged uniform. The indignant lieutenant sneeringly said, "Ass!" "Advance, ass, and give the countersign!" was the prompt and well-merited reply.

### The Infant's Friend.

"Mrs WINSLOW'S SOOTHING SYRUP" is the best and surest remedy in the world for all diseases of children, such as teething, wind-colic, &c. It corrects the acidity of the stomach, regulates the bowels, and gives rest, health, and comfort to mother and child. Perfectly safe in all cases, as millions of mothers can testify.

### Tomato Sauce.

Gather your tomatoes when fully ripe, wash them, and mash them in some suitable vessel. Then place them in a kettle over a moderate fire, and when just warmed through, press a cullender down upon them, then dipping from the cullender all the watery juice possible. After boiling a short time, strain the mass through a wire sieve, just fine enough to retain the rind of the fruit; then return it to the kettle and boil it down to the desired consistency, some prefer it thin, as it retains more of the flavor, taking all care that it does not become scorched in the process. Heat the bottles you intend to use in a steamer to a boiling heat, and while they retain this heat, fill them with sauce in a boiling state. Then cork them immediately with good corks, and place them where they will cool slowly. Tomatoes thus prepared will keep good, and retain all their original freshness and flavor, until their season comes again.

### Pickles.

An excellent way to make pickles that will keep a year or more is—drop them into boiling water, but not boil them. Let them stay ten minutes, wipe them dry, and drop them into cold spiced vinegar, and they will not need to be put in salt and water.

*From B. N. Cooper, Chemist, 40, Chestergate, Stockport.*

"I consider 'Mrs. Winslow's Soothing Syrup' the finest thing in the world for young children. Having tried it for my own family very many times, and always found it to answer, even after the family doctor has failed, I consider myself competent to form an opinion. I always recommend it to my customers, and hear the same good account of it from each."

### Preserved Tomatoes.

Scald the tomatoes, take off the skins. Weigh the tomatoes, which must be full grown and ripe. Allow to every two pounds two pounds of the best brown sugar, a large spoonful of ground ginger, and the juice and grated rind of one large lemon. Mix the tomatoes and sugar and the white of one egg together, and put in a porcelain kettle. Boil slowly till the scum ceases to appear; then add gradually the juice and grated rind of the lemons, and boil slowly for an hour or more. The tomatoes must all have burst by this time. When done, take them off, and when cool, put them in jars.

### Pickled Onions.

Put over the fire with cold salt and water brought to a scald, put away to cool, when cool, remove the peels; cover with cold vinegar. Boil the spices in vinegar and add.

### Sore Throat, Cough, Cold,

And similar troubles, if suffered to progress, result in serious Pulmonary, Bronchial, and Asthmatic affections, oftentimes incurable.—"Brown's Bronchial Troches" reach directly the seat of the disease, and give almost instant relief. The "Troches" have been thoroughly tested, and maintain the good reputation they have justly acquired.

## JULY—31 Days.

Plant cabbages, savoys, coleworts, brocoli, lettuce, celery, &c. Train and regulate the summer shoots both of wall trees and standards; prune vine and fig trees, and shade ripe currants that are exposed to the full blaze of the sun. Place nets on the cherries to protect them from birds. Take up garlic, onions, and shalots, as their leaves begin to decay.

### MOON'S PHASES.

A smart young lady, in reply to why she did not get married, said she was unable to support a husband.

A negro caught in a garden, stammered out, "Good Lord, massa! dis nigga can't go no-whar to pray, without being 'sturbed."

What is the difference between the entrance of a barn, and a loafer? One is a barn door, and the other a *darn* bore.

Aunt Susan says, "Suppose all the men were in one country, and all the women in another, with a big river between them. Good gracious! what lots of girls would be drowned!"

"Dey say constitutum had pervision for the culurd folks; but 'fore God, massa, I hab not seen de fust mou'fu'."

A GOOD many reasons have been given why a ship is, by common consent, designated as of the female gender. Another has just turned up. No it isn't because she is in stays, nor anything of the kind. It is because so much attention has to be paid to her rigging.

### Whooping Cough.

"BROWN'S BRONCHIAL TROCHES," or Cough Lozenges, are efficacious with children labouring with this disorder, Hoarseness, or other Affections of the Chest—having a soothing influence, assisting expectoration, and preventing an accumulation of phlegm, which often causes a sense of suffocation so common with this cough. They may be had of any first-class Chemist in the kingdom at 1s. 1½d. per box.

### Vermicelli Soup.

Put into a stew-pan one and a half pounds of lean veal, a small slice of lean ham, a bunch sweet herbs, a head of celery, an onion, some whole white pepper, a blade of mace, and a quarter of a pound of butter; set the pan over a clear fire, taking care the articles do not burn; then thicken two quarts of white gravy, and pour it into the pan, adding a few mushroom trimmings: when it boils, set it aside, remove the scum and fat, and strain the soup upon some vermicelli which has been soaked a few minutes in cold water, and stewed in strong broth.

### Potato Cheesecakes.

Four ounces each of mashed potatoes, butter, flour, and sugar, and two eggs; mix all together with a fork, and bake in tins lined with puff paste.

### Orange Marmalade.

Take Seville oranges, and peel them by cutting round and inserting a spoon between the peel and the orange, so as to divide each rind in two. Cut the oranges, take out the pips and all the white or stringy part, which put in a basin and pour boiling water on it, and leave till next day, when it must be passed through a sieve, and then added to the pulp and juice. Boil the rinds of the oranges full eight hours in plenty of water, changing the water every four hours or less, to prevent their being too bitter. When quite tender, drain well, and cut them up as fine as paper; mix with the liquid, and add an equal weight of the best white sugar; boil gently one hour and a quarter.

### Coughs.

The administration of medicinal preparations in the form of a *lozenge* is of all modes the most eligible and convenient, more especially as regards a cough remedy. "BROWN'S BRONCHIAL TROCHES," or Cough Lozenges, allay irritation, which induces coughing, giving instant relief in Bronchitis, Hoarseness, Influenza, and Consumptive and Asthmatic Complaints.

### Chicken Pie.

Take two full grown chickens, or more if they are small, disjoint them, and cut the backbone, &c., as small as convenient. Boil them with a few slices of salt pork in water enough to cover them, let them boil quite tender, then take out the breast bone. After they boil, and the scum is taken off, put in a little onion cut very fine, not enough to taste distinctly, but just enough to flavour a little; rub some parsley very fine when dry, or cut fine when green; this gives a pleasant flavour. Season well with pepper and salt, and a few ounces of good fresh butter. When all is cooked well, have liquid enough to cover the chicken, then beat two eggs and stir in some sweet cream. Line a five quart pan with a crust made like soda biscuit, only more shortening, put in the chicken and liquid, then cover with a crust the same as the lining. Bake till the crust is done, and you will have a good chicken pie.

### Remedy for Offensive Breath.

Use the liquid dentifrice called fragrant "FLORILINE" every morning; it only costs 2s. 6d., and a bottle lasts six months. It thoroughly cleanses partially decayed teeth from all parasites or living "animalculæ," leaving them pearly white, imparting a delightful fragrance to the breath.

## AUGUST—31 Days.

Cabbages, brocoli, endive, spinach, Welsh onions, turnips, and radishes should now be sown. The celery sown should be planted, and that already planted, as well as cardoons, should be earthed up.

A young lady being asked by a rich old bachelor, "if not yourself, who would you rather be?" replied, sweetly and modestly, "Yours, truly."

A Californian editor lately purchased a donkey, and another editor in the same locality records the circumstance as a remarkable instance of self-possession.

An Indiana editor makes a pathetic appeal to his readers, saying:—"If there is anything you know that is worth knowing, that we ought to know, and you know that we don't know, please let us know it."

The lady principal of a school, in her advertisement, mentioned her lady-assistant, and the "reputation for teaching which she bears," but the printer left out the "which," so the advertisement went forth commending the lady's reputation for teaching she bears.

AN Indiana town has the following dog ordinance: "Dogs that are not collared and labelled, no matter how respectably connected, will have their narratives amputated one inch south of their ears."

### The Mexican Hair Renewer.

This preparation has never been known to fail in restoring the hair to its natural colour and gloss in from eight to twelve days. It promotes growth, and prevents the hair falling out, eradicating dandruff, and leaving the scalp in a clean, healthy condition. It imparts peculiar vitality to the roots of the hair, restoring it to its youthful freshness and vigour. Daily applications of this preparation for a week or two will surely restore faded, grey, or white hair to its natural colour and richness. It is not a dye, nor does it contain any colouring matter or offensive substance whatever. Hence it does not soil the hands, the scalp, or even white linen, but produces the colour within the substance of the hair.

### To Restore Grey Hair to its Original Colour.

A single bottle of "Gallup's Mexican Hair Renewer" will do it, and it is to be had of any chemist at 3s. 6d. per bottle.

#### Muffins.

To one quart of milk add two eggs well beaten, a lump of butter half the size of an egg, and flour enough to make a stiff batter. Stir in half-a-pint of yeast. Let them stand until perfectly light, and then bake on a griddle, in tin rings made for the purpose. These are merely strips of tin three-quarters-of-an-inch wide, made into rings from two and a half to three inches in diameter, without bottom, the ring being simply placed on a griddle, and the batter poured in to fill it.

#### Omelette.

Six eggs, yolks and whites beaten separately; seven spoonfuls of sugar. Flavor with lemon, and bake fifteen minutes.

#### Pudding Sauce.

Two cups fine white sugar, one cup of butter, one wine-glass of wine, two eggs; beat all this together for half-an-hour; then scald it, but do not boil.

*"Pleasley Works School, Mansfield, February 13th, 1867.*

"GENTLEMEN—Having used 'Mrs. Winslow's Soothing Syrup' in our family for more than two years, I can speak very highly of its effect. It really seems to work wonders with our little ones while teething. A single dose generally gives ease, and if given at bed-time will ensure a good night's rest. I give this testimonial entirely unsolicited, as I feel that a medicine of such value ought to be made as public as possible.

"F. JAMES, Schoolmaster.

"To Messrs. Hole and Hollingworth, Chemists, Mansfield."

#### Batter Pudding.

Nine eggs, yolks and whites beaten separately, one pint of milk, one spoonful of flour to each egg. Boil one hour. Sauce.

#### Plum Pudding without Eggs.

Half-a-pound of grated bread, quarter-a-pound of chopped suet, one table-spoonful of flour, half-a-pound of currants, more than two ounces of sugar, one glass of brandy, milk enough to make a stiff batter. Boil in a cloth four hours, or bake it, adding a quarter-a-pound of raisins.

#### Throat Affections and Hoarseness.

All suffering from Irritation of the Throat and Hoarseness will be agreeably surprised at the almost immediate relief afforded by the use of "Brown's Bronchial Troches." The demulcent ingredients allay pulmonary irritation, and after public speaking or singing, when the throat is wearied and weakened by too much exercise, their use will give renewed strength to the vocal organs.

## SEPTEMBER—30 Days.

Sow vegetable seed for a spring crop. Prick out cabbage plants and gather ripe seeds. Endive and lettuce may be planted out on beds sloping to the south-west, and fenced round to drain off water. Hoe and clear the ground about turnips. Cabbage for collard in November, and German greens may be planted early in the month.

A Ball-room—The Nursery.

The Door-belle—A pretty housemaid.

One brand of Cincinnati whisky is warranted to contain 137 fights to the barrel.

A traveller writes home from Paris. "The word I have stood most in need of since my arrival here is the French for damn."

Politeness is the science of civility.

The worst curses which infest the country in summer time are *circusses*.

When riding a donkey, what fruit do you most resemble? A pear.

Woman first tempted man to eat, but he took to drink himself.

A young lady recently whipped out an incipient conflagration with her stockings. She had heard that firemen used hose.

A scientific father was explaining to his little son, four years old, the philosophy of the growth of trees, when the little pupil was struck with an idea, and exclaimed, "Papa, are you growing any taller?" "No, my son; why do you ask me?" "Cause the top of your head is coming through your hair." The lesson was adjourned.

### Public Speakers and Singers.

"BROWN'S BRONCHIAL TROCHES" contain ingredients acting specifically on the organs of the voice. They have an extraordinary efficacy in all affections of the Throat and Larynx, restoring their healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation.

### Frosting for Cake.

For the weight of one egg take nine heaping teaspoonsful of white sugar and one teaspoonful Poland starch. Beat the eggs to a stiff froth, so that the plate can be turned upside down without the egg falling off; stir in the sugar slowly with a wooden spoon, ten or fifteen minutes, constantly. To frost a common-sized cake one and a half eggs will suffice.

### Baked Fish.

*Ingredients.*—Any cold fish, macaroni, milk, butter, grated cheese, bread-crumbs and cayenne.

*Mode.*—Boil some macaroni very tender in milk, about twice as much as there is cold fish, which should be broken into very small pieces; mix with it the grated cheese and cayenne; put it into a flat dish with a few bread-crumbs and some pieces of butter at the top, and bake a nice light brown. Any fish will do for this dish.

### Coughs, Hoarseness, Asthma,

Or any irritation of the Throat or Bronchial Tubes, relieved by allowing one of "Brown's Bronchial Troches" to dissolve slowly in the mouth.

*John W. Dennis, Chemist, Louth, says:—*

*"November 30th, 1865.*

"'Brown's Bronchial Troches' have been of invaluable service to an aged member of my own family in a severe attack of bronchitis during the last winter, and I believe her freedom from a similar attack this winter is only to be attributed to the use of the Troches (taking, of course, great care to prevent recurrence), of which she speaks in the highest terms."

### Veal Forcemeat.

Scrape one pound of veal and a half pound of fat bacon; beat them well together in a marble mortar, adding the crumb of a French roll, powdered mace and nutmeg one drachm each, one tablespoonful of chopped onions parsley, and mushroom, with pepper and salt. Mix all this together with two well-beaten eggs, and rub it through a seive. This forcemeat may be used on all occasions for balls, pies, &c. If rolled up in balls, covered thickly with bread crumbs, fried in hot fat, and served with fried parsley, it makes a nice dish.

### Filleted Soles.

Take two large soles, cut off the heads and tails, draw the knife straight down on the bone. Then incline the knife on one side, which will raise one fillet; proceed in the same manner to take off the others. Cut each fillet in half, egg and bread-crumbs them, and fry them in hot lard. Dish them on a napkin, garnish with parsley, and serve with shrimp sauce in a boat.

*Mr. G. A. Hannaford, Chemist, St. Leonard's Road, Bromley, writes,  
August 17th, 1870:—*

"I sell a great deal of 'Mrs. Winslow's Soothing Syrup,' I may say hundreds of bottles, and in no single case have I known it to fail. In fact, I know no better medicine for children whilst cutting teeth, for it relieves all those ailments incidental to them during such a period. I honestly give you this testimonial, and if you like to publish it you are more than welcome."

**OCTOBER—31 Days.**

Sew mazagan beans, and frame peas on a warm southern border; lay into the ground purple and white brocoli, within a few inches of their lower leaves, letting their heads face to the north; transplant cauliflowers and purple brocoli under frames and hand-glasses; cabbages, garlic, lettuces, and shalots under frames.

The difference between a blunder and a mistake has thus been defined:—When a man puts down a bad umbrella and takes up a good one, he makes a mistake, but when he puts down a good one and takes up a bad one he makes a blunder.

The "heart" is the best card in the chance game of matrimony; sometimes overcome by diamonds and knaves, often won by tricks, occasionally treated in a shuffling manner, and then cut altogether.

**Scotland's Brightest Light—Burns**

A Liberty of the Press—Squeezing a pretty girl in a crowd.

The Western wits now call bigamy Utah-lizing the female sex.

What are "fancy goods? Often things that people don't fancy.

A German, the other day, reading an account of a meeting, came to the words, "The meeting then dissolved." He could not define the meaning of the last word, so referred to his dictionary and felt satisfied. In a few minutes a friend came in, when he said, "Dey must haf very hot wedder dere. I ret an agount of a meeting where all de peoples melted away."

**The Best and Surest Remedy in the World**

For all diseases with which children are afflicted during the process of teething is "*Mrs. Winslow's Soothing Syrup.*" It not only relieves the child from pain, but invigorates the stomach and bowels, cures wind-colic, and by giving sleep to the child, gives rest to the mother. Perfectly safe in all cases. Sold everywhere by Chemists, at 1s. 1½d. per bottle.

### Turbot, Boiled.

After the turbot has been washed, dry it, and rub it with lemon and a little salt. Have ready sufficient water to cover it. Add the juice of half a lemon, one spoonful of vinegar, and salt to taste. Cut a slit down to the bone on the back (the dark side) of the turbot to prevent the skin from cracking. Put it into the water while only lukewarm, bring to a boil, let it remain for forty minutes, then dish and garnish with parsley and lemon to fancy. Serve with lobster sauce separately.

### Oxtail Soup.

Take two tails, cut them in pieces, lay them in a stewpan with 1 oz. butter and a large onion, and brown them. Pour sufficient boiling water over them to cover them, and add two stems of celery, one carrot, one turnip, a little thyme, parsley, six peppercorns, allspice, and four cloves; let all boil very gently for four hours. In the meantime, prepare half a pint of button onions the same quantity of carrot and turnip cut into small balls; boil them in water with a little salt. Take the pieces of tail out carefully, strain the liquor, skim off all the fat. Put into a small stewpan 1 oz. butter and 2 oz. flour; when mixed, add it to the liquor, with a tea-spoonful of salt and the prepared vegetables; let all boil. Add one glassful of port wine when ready to serve.

*Mr. John Marlar, Chemist, of Halstead, in a letter dated September 30th, 1869, says:—*

“The expressions of satisfaction respecting ‘Mrs. Winslow’s Soothing Syrup’ are such as I never met with for any other patent medicine.”

*Mr. C. W. Simpson, Chemist, near Market Rasen, says:—*

“The astonishing demand for ‘Mrs. Winslow’s Soothing Syrup’ shows the preference over any other.”

### Rice Chicken Pie.

Cover the bottom of a pudding-dish with slices of broiled ham; cut up a broiled chicken and nearly fill the dish; pour in gravy or melted butter to fill the dish; add chopped onions, if you like, or a little curry-powder, which is better; then add boiled rice to fill all interstices and to cover the top thick. Bake it for one-half or three-quarters of an hour.

### Meat Pie.

Cut up some pieces of good tender raw beef or mutton, season with pepper, salt, and, if liked, one finely-minced onion; boil a half-dozen good-sized mealy potatoes, mash, smooth, and wet, with enough milk to form a dough to make the crust, salt to please the taste, roll out full half an inch thick, and line a buttered dish large enough to hold the meat; lay in the meat, add a teacup of water, or less, if the pie is to be for a small family, then roll out a thick crust of the potato, covering the top of the pie at least an inch thick, and bake about an hour and a half.

### Neglected Coughs and Colds.

Few are aware of the importance of checking a Cough or “Common Cold” in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon preys upon the lungs. “Brown’s Bronchial Troches,” or Cough Lozenges, afford instant relief.

## NOVEMBER—30 Days.

Force seakale, rhubarb, and asparagus; take up endive, brocoli, and cauliflower, and lay them flat in dry ground; transplant suckers taken from the roots of the pear and codling plum, and prepare them for budding and grafting different fruits upon.

The Turkish ambassador was at a public dinner with some of the magnates of the land. The Chairman gave as a toast, in compliment to his Excellency. "The Sublime Porte and the Turkish Ambassador." The waiter echoed it down the table—"A supply of port for the Turkish Ambassador."

A lad of an inquiring turn of mind wants to know whether the horseman who scoured the plain used soap.

"Tell that man to take off his hat in court," said a judge the other morning to an officer. The offender, who turned out to be a lady wearing the fashionable sailor hat, indignantly exclaimed—"I am no man, sir!" "Then," said his honour, "I am no judge."

There is an old lady living less than fifty miles from this city who firmly believes that more men marry than women.

What relation is a loaf of bread to a steam-engine? A steam-engine is an invention, and bread a necessity; therefore, Necessity is the mother of invention.

## Sore Throat, Cough, Cold,

And similar troubles, if suffered to progress, result in serious Pulmonary, Bronchial, and Asthmatic Affections, oftentimes incurable. "Brown's Bronchial Troches" reach directly the seat of the disease, and give almost instant relief. The "Troches" have been thoroughly tested, and maintain the good reputation they have justly acquired. For Public Speakers, Singers, and those who overtax the voice, they are useful in relieving an Irritated Throat, and will render articulation easy. To those exposed to sudden changes in the weather, they will give prompt relief in Coughs and Colds, and can be carried in the pocket, to be taken as occasion requires.

### Jugged Hare.

Mix together  $\frac{1}{2}$  lb. butter and 8 oz. flour in a stewpan; keep it stirring over the fire for a few minutes, then add  $\frac{3}{4}$  lb. bacon cut in small pieces; stir it a little longer over the fire. Have the hare ready cut up, put it into the stewpan and stir it for ten minutes. Then add half a pint of port wine and sufficient beef broth to cover it; add two bay-leaves, four cloves, pepper and salt to taste, and, when half done, about a pint of button onions and a tablespoonful of brown sugar. Let it simmer until it is well done. Dish up. Between three and four hours is sufficient time for it.

### Christmas Plum Cake.

Put 1 lb. butter into a pan, with 1 lb. powdered sugar, a little grated nutmeg, the rind of a lemon, grated, and half a teaspoonful of salt. Beat them well together with the hand until forming a smooth cream. Then add, by degrees, ten eggs, beating it for ten minutes after. Now add  $1\frac{1}{4}$  lb. sifted flour, beat till it is thoroughly incorporated, then add 1 lb. raisins, stoned and chopped, 1 lb. currants, 6 oz. mixed peel, and a glass of noyau. Stir it lightly, put it into a well-buttered mould, and bake in a moderate oven between three and four hours. A sure method of ascertaining if the cake is done is to put a skewer down the centre. If the skewer comes out clean the cake is done.

### Catarrh.

A form of Chronic Throat Disease, consisting in inflammation, which begins behind and a little above the palate, and extends up into the nose. "BROWN'S BRONCHIAL TROCHES" have proved very efficacious in this troublesome complaint. No sufferer from Cartarrh should be without them.

### Roast Hare.

Truss and stuff the hare with veal stuffing, rub butter over the back, and shake flour over it. Put it to roast before a sharp fire, baste it for ten minutes with milk, and frequently afterwards with dripping or butter. Forty minutes in all will be sufficient to cook it. Serve with plain gravy in the dish, and red currant jelly separately.

### Cheap and Good Pudding.

Six figs,  $\frac{1}{4}$  lb. butter, two eggs, one tablespoonful of brown sugar, one of whisky, and two of flour. Chop the figs small, and beat them up well with the eggs, butter, and sugar, then add the flour and whisky, and bake in a quick oven twenty minutes. Serve with white-wine sauce.

### Plain Cakes.

Three-quarters of a lb. of flour,  $\frac{1}{4}$  lb. of brown sugar,  $\frac{1}{4}$  lb. dripping,  $\frac{1}{4}$  lb. currants, two tea-spoonfuls of baking powder, one egg, and nearly half a pint of milk. The powder to be mixed with the flour, and the milk when going into the oven.

*Mr. H. H. N. Tucker, Wednesbury, writes:—*

*"September, 1868.*

"I feel it my especial duty to intimate to you the very great satisfaction that 'MRS. WINSLOW'S SOOTHING SYRUP,' as well as 'BROWN'S BRONCHIAL TROCHES' have given to my customers."

### Coughs, Hoarseness, Asthma,

Or any irritation of the Throat or Bronchial Tubes relieved by allowing one of "BROWN'S BRONCHIAL TROCHES" to dissolve slowly in the mouth.

## DECEMBER—31 Days.

Celery should now be earthed up, and in so careful a manner as not to require the operation again; force asparagus, also rhubarb and seakale; lay in as early as possible this month broccoli, purple and white.

What is the difference between a looker-on at an auction mart and a mariner? One sees the sale, and the other sails the sea.

State the difference between a grocer selling a pound of sugar and an apothecary's boy with a pestle and mortar. One weighs a pound, the other pounds away.

"Madam," said a cross-tempered physician to a patient, "if women were admitted to Paradise, their tongues would make it purgatory." "And some physicians, if allowed to practice there," replied the lady, "would make it a desert."

Why are sheep the least moral of animals? Because they gambol in their youth, spend much of their time on "the turf," many o' them are "black legs," and they all get fleeced at last.

A youth, who was taking an airing in the country, tried to amuse himself by quizzing an old farmer about his bald head, but was extinguished by the old man, who solemnly remarked, "Young man, if my head were as soft as yours, I'd use 'The Mexican Hair Renewer,' and raise hair to sell."

From W. H. Tugwell, Chemist, 3, Lewisham Road, Greenwich, S.E.

"In all my experience of Patent Medicine, I never knew any preparation so soon got into general sale, and really sell so well as 'Mrs. WINSLOW'S SOOTHING SYRUP'—a clear proof of its giving great satisfaction to the purchasers."

### To Preserve Greengages.

Choose the largest when they begin to soften; split them without paring, and strew on a part of the sugar which you have previously weighed an equal quantity of. Blanch the kernels with a small sharp knife. Next day, pour the syrup from the fruit, and boil it with the other sugar, six or eight minutes, very gently; skim, and add the plums and kernels. Simmer till clear, taking off any scum that rises; put the fruit singly into small pots, and pour the syrup and kernels to it. If you would candy it, do not add the syrup, but observe the directions that will be given for candying fruit; some may be done each way.

### Jelly from Apples.

They are pared and quartered, and the core completely removed, and put into a pot without water, closely covered, or put in an oven or over the fire. When pretty well stewed, the juice is to be squeezed out through a cloth, to which a little white of an egg is added, and then the sugar. Skim it previous to boiling; then reduce it to a proper consistency, and an excellent jelly will be the product.

*Mr. J. D. Jenkinson, Chemist, 46, Duke Street, Sheffield, says, (in relation to "MRS. WINSLOW'S SOOTHING SYRUP")*

"On account of its freedom from opium, it ought to be found in every nursery."

*Mr. W. Howell, Chemist, 10, Broadmead, Bristol, says, in a letter dated April 18, 1868:—*

"The sale of 'MRS. WINSLOW'S SOOTHING SYRUP,' I find, increases, and wherever I have seen the parties again to whom I have sold, they speak in high terms of its efficacy."

### Souse.

Clean pig's feet and ears thoroughly, and soak them a number of days in salt and water, boil them tender and split them. They are good fried. To souse them cold, pour boiling vinegar over them, spiced with mace and peppercorns. Cloves give them a dark colour, but improve their taste. If a little salt be added, they will keep good, pickled, for a month or two.

### Smoked Meat on Toast.

Take a cold smoked tongue or ham that has been well boiled, and grate it with a coarse grater, or mince it fine, mix it with cream and beaten yolk of egg, and let it simmer over the fire. Prepare some nice slices of toast, butter them rather slightly, lay them in a flat dish that has been heated over the fire, and cover each slice with the meat mixture that should be spread on hot. Place on the table in a covered dish, for either breakfast or supper.

### Coughs and Colds are often Overlooked.

A continuance for any length of time causes irritation of the Lungs or some chronic Throat Disease. "BROWN'S BRONCHIAL TROCHES" are offered with the fullest confidence in their efficacy, giving almost invariably sure and immediate relief. Owing to the good reputation and popularity of the Troches, many worthless and cheap imitations are offered, which are good for nothing. Be sure to obtain "BROWN'S BRONCHIAL TROCHES." Sold everywhere.

### Brown's Bronchial Troches.

Cure Coughs, Colds, Hoarseness, Influenza, and any Irritation or Soreness of the Throat, relieve the hacking Cough of Consumption, Bronchitis, Asthma, and Catarrh, clear and give strength to the voice of Singers, and are indispensable to Public Speakers.

#### Hints.

If your flat-irons are rough and smoky, lay a little fine salt on a flat surface and rub them well; it will prevent them from sticking to anything starched, and make them smooth.

Rub your griddle with fine salt before you grease it, and your cake will not stick. When walnuts have been kept until the meat is too much dried to be good, let them stand in milk and water eight hours, dry them, and they will be as fresh as when new.

It is a good plan to keep your different kinds of pieces, tape, thread, &c., in separate bags, and there is no time lost in looking for them.

Oat straw is the best for filling beds, and it is well to change it as often as once a year.

Cedar chests are best to keep flannels, for cloth moths are never found in them. Red cedar chips are good to keep in drawers, wardrobes, closets, trunks, &c., to keep out moths.

When cloths have acquired an unpleasant odour by being from the air, charcoal laid in the folds will soon remove it.

If black dresses have been stained, boil a handful of fig leaves in a quart of water, and reduce it to a pint. A sponge dipped in this liquid and rubbed upon them, will entirely remove stains from crapes, bombazines, &c.

In laying up furs for summer, lay a tallow candle in or near them, and danger from worms will be obviated.

To prevent metals from rusting, melt together three parts of lard and one of resin, and apply a very thin coating. It will preserve Russia iron stoves and grates from rusting during summer, even in damp situations. The effect is equally good on brass, copper, steel, &c. The same compound forms an excellent water-proof paste for leather. Boots, when treated with it, will soon after take the usual polish, when blacked, and the soles may be saturated with it.

#### Throat Affections.

A physician writing from Newfane, New York, speaking of the beneficial effects resulting from the use of "*Brown's Bronchial Troches*," says, "For alleviating that horrid irritation only felt by those who have suffered from any Bronchial Affection, and for Hoarseness, and Sore Throat, too, I am free to confess (though I am an M.D.) they answer all you claim for them."

The remarkable properties of "*Brown's Bronchial Troches*" have been thoroughly tested since first introduced. The demand for them has steadily increased, and purely upon their own merits. They have found favour with those who, from Pulmonary, Bronchial, or Asthmatic complaints, require them. For Coughs and Colds they are efficacious.

## "The Mexican Hair Renewer"

Has gained for itself the highest reputation, and a decided preference over all other "hair-dressings," as evinced from certificates and testimonials from the most respectable sources. Being compounded with the greatest care,—combining, as it does, all the most desirable qualities of the best hair preparations of the day, without the objectionable ones—it may be relied on as the very best known to chemistry for restoring the natural colour to the hair, and causing new hair to grow on bald spots, unless the hair glands are decayed; for if the glands are decayed and gone, no stimulant can restore them: but if, as is often the case, the glands are only torpid, "THE MEXICAN HAIR RENEWER," will renew their vitality, and a new growth of hair will follow. When the original colour has returned, "THE MEXICAN HAIR RENEWER" should be applied about once a week, which will be sufficient to sustain it. Ladies and gentlemen prematurely grey, who have despaired of a restoration of the beauty of this wonderful natural ornament, will be surprised at the beneficial effect produced by a few applications of "THE MEXICAN HAIR RENEWER." The vital forces of the organs on which the hair depends will be re-established, and the growth present the luxuriance and colour of youth. When the hair begins to come out on combing, a few applications will arrest it.

The words "THE MEXICAN HAIR RENEWER" is a *Trade Mark*, and the public will please see the words are on every case surrounding the bottle, and the name H. C. GALLUP is blown in the bottle. "THE MEXICAN HAIR RENEWER," price 3s. 6d. Directions in German, French, and Spanish. Prepared by H. C. GALLUP, 493, Oxford Street, London. Sold everywhere.

## What will Restore the Hair?

### QUESTIONS AND ANSWERS RESPECTING IT.

What will restore the human hair,  
And make it look as fresh and fair,  
As when it was before its hue  
Was changed so sadly to the view?  
The very best restorer is,  
In all essential points, why, this—  
"THE MEXICAN HAIR RENEWER!"

How beautiful the hair it makes!  
And Admiration, too, awakes.  
It gives luxuriance, richness, grace,  
And other points we proudly trace.  
What strengthens it: but never harms?  
What adds to beauty's dowry—charms?  
"THE MEXICAN HAIR RENEWER!"

For either sex it will impart,  
Abundant hair by matchless art.  
If baldness should, with stealthy power,  
Arrest its growth in evil hour,  
Why, what will that annoyance spare,  
And crown the head with glossy hair?  
"THE MEXICAN HAIR RENEWER!"

Thousands of proofs from every side  
All guarantee its use with pride.  
It never fails to please the mass,  
Of every rank and every class.  
The very best Restorer is,  
In all essential points, why this—  
"THE MEXICAN HAIR RENEWER!"

What gives the hair a charming gloss,  
And makes it look as soft as floss?  
What gives luxuriance to each tress?  
Why, all the world with truth confess  
That nothing really can outvie,  
And rank so justly and so high,  
As "THE MEXICAN HAIR RENEWER!"

What gives the hair an impulse great,  
And brings it from each known retreat?  
Why, GALLUP'S FAMED RENEWER stands,  
And universal praise commands;  
Whilst all acknowledge with delight,  
That nothing makes it half so bright  
As "THE MEXICAN HAIR RENEWER!"

All other preparations made,  
It sinks into oblivion's shade;  
It has the praise of thousands gained,  
Celebrity likewise obtained;  
And what is of importance more,  
It will the Human Hair Restore,  
"THE MEXICAN HAIR RENEWER!"

The natural colour, by its use,  
Like magic do its powers produce;  
'Tis harmless, and of compounds rare,  
Selected with especial care.  
And thus it is it ranks so high,  
Whilst one and all may now rely  
"On THE MEXICAN HAIR RENEWER!"

**GENERAL POST OFFICE.**

INLAND LETTERS sent to or from any part of the United Kingdom (the Isle of Man, Orkney, Shetland, Scilly, and Channel Islands included) are charged:—

For a letter not exceeding 1 oz.	1d.
„ exceed 1 oz. but not ex. 2 oz.	1½d.
„ „ 2 oz.	4 oz. 2d.
„ „ 4 oz.	8 oz. 3d.
„ „ 8 oz.	10 oz. 3½d.
„ „ 10 oz.	12 oz. 4d.

*From Mr. George E. Crick, Chemist, Maldon, Essex,*

MARCH 1st, 1870.

“A customer came in last night for a bottle of ‘Mrs. Winslow’s Soothing Syrup,’ and spoke quite delightedly of the good it had done her child, and that it really did all that was said of it, and that the child, after having taken it, woke up the next morning, literally as ‘bright as a button.’ She was telling another customer, who was in my shop at the time, all this and much more, and said she would recommend it to every mother. I am glad to be able to add my mite of testimony to your ample store of such very satisfactory literature.”

### Queen of Puddings.

One pint of bread crumbs, one quart of milk, one tea-cupful of white sugar, yolks of four eggs, and rind of one lemon. Beat the yolks and sugar together, and stir in the milk and crumbs; bake till a light brown. When the pudding is done, beat the whites to a stiff froth with four table-spoonfuls of sugar; spread currant jelly over the top of the pudding; then spread over the whites of the eggs; put into the oven and bake to a light brown. It is better cold.

### Horseradish Sauce.

Two table-spoonfuls of mustard, the same of vinegar, three table-spoonfuls of cream or milk, and one of pounded white sugar, well beaten up together with a small quantity of grated horseradish. This is, of course, to be served up cold.

*From E. Enos Jevons, Chemist, Market Rasen.*

"You will be gratified to learn that your Syrup is highly esteemed in this locality, and from what I know of it, I can, and do, most cordially recommend it."

*From Mr. B. N. Cooper, Chemist, 40, Chestergate, Stockport.*

"I consider 'Mrs. Winslow's Soothing Syrup' the finest thing in the world for young children, having tried it for my own family very many times, and always found it to answer: I have recommended it to my customers, and hear the same good account of it from each.

### To Cure a Wen.

Wash it with common salt dissolved in water every day, and it will be removed in a short time; or make a strong brine of alum salt—simmer it over the fire. When thus prepared, wet a piece of cloth in it every day, and apply it constantly for one month, and the protuberance will disappear.

### To Cure Chilblains.

Rub the part affected with brandy and salt, which hardens the feet at the same time that it removes the inflammation. Sometimes a third application cures the most obstinate chilblain.

### Salve for Chapped Lips and Hands.

Take two ounces of white wax, one ounce of spermaceti, four ounces of oil of almonds, two ounces of English honey, quarter-an-ounce of essence of bergamot, or any other scent; melt the wax and spermaceti, then add the honey, and melt all together, and when hot add the almond oil by degrees, stirring it until cold. This is superior to glycerine for chapped hands, sunburns, or any roughness on the skin.

*From Edward Howlett, Esq.*

"MARCH.

"I have tried several different kinds of Wafers and Lozenges for Hoarseness and Colds, but I think your 'BROWN'S BRONCHIAL TROCHES' excel them all, for I believe them a never-failing remedy."

### Lobster Patties.

Make some puff paste and spread it on very deep patty-pans. Bake it empty. Having boiled well two or three fine lobsters, extract all the meat and mince it very small, mixing it with the coral smoothly smashed, and some yolk of hard-boiled egg, grated. Season it with a little salt, some cayenne, and some powdered mace or nutmeg, adding a little yellow lemon rind, grated. Moisten the mixture well with cream, fresh butter, or salad oil; put it into a stewpan, add a very little water, and let it stew till it just comes to a boil; take it off the fire, and the patties being baked, remove them from the tin-pans, place them on a large dish, and fill them up to the top with the mixture. Similar patties may be made of prawns or crabs.

### A Fine Custard Pudding.

Mix by degrees a pint of good milk with a large spoonful of flour, the yolk of five eggs, some orange-flower water, and a little powdered cinnamon. Butter a basin that will exactly hold it, pour the batter in and tie a floured cloth over it; put it in boiling water over the fire, and turn it about five minutes to prevent the egg going to one side. Half-an-hour will boil it.

### For Coughs, Colds, and Throat Diseases,

Use "BROWN'S BRONCHIAL TROCHES." Having proved their efficacy by a test of many years, each year finds the Troches in some new, distant localities, in various parts of the world. Being an article of true merit, when once used the value of the Troches is appreciated; and they are kept always at hand, to be used as occasion requires.

### Cocoanut Custard.

To one pound of grated cocoanut allow one pint of new milk and six ounces of sugar. Beat well the yolks of six eggs, and stir them alternately in the milk with the cocoanut and sugar. Put it into a pail or pitcher, set it into boiling water, and stir all the time till very smooth and thick; as soon as it comes to a hard boil, take it off and serve it in cups or glass tumblers.

### Harriet's Snow Pudding.

Pour one pint of boiling water on half-a-box of gelatine; add juice of one lemon and two cups of sugar. When nearly cold, strain it; add the whites of three eggs beaten to a stiff froth, then beat all well together again, put it into a mould to shape it, and let it cool. Take the yolks of these eggs, one pint of milk, and one tea-spoonful of corn starch, flavor with vanilla; cook this like any soft custard—put the hard part of the pudding into a dish, when you want to serve it, with the custard round it.

---

Be sure and call for "Mrs. Winslow's Soothing Syrup."

Millions of mothers can testify that it is a perfectly safe and reliable remedy. It relieves the child from pain, and cures dysentery and diarrhoea. It softens the gums, reduces inflammation, cures wind-colic, and carries the infant safely through the teething period.

# "BROWN'S BRONCHIAL TROCHES"

Are prepared from a highly-esteemed recipe for alleviating *Bronchial Affections, Asthma, Hoarseness, Coughs, Colds, and Irritation or Soreness of the Throat.*

## PUBLIC SPEAKERS AND VOCALISTS

Will find them beneficial in clearing the voice before speaking or singing, and relieving the Throat after any unusual exertion of the vocal organs, having a peculiar adaptation to affections which disturb the organs of speech. Few are aware of the importance of checking a Cough or "slight cold" in its first stages. That which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs. "BROWN'S BRONCHIAL TROCHES" are a most valuable article when Coughs, Colds, Bronchitis, Influenza, Hoarseness, and Sore Throat are prevalent. The Troches give sure and almost immediate relief.

*From W. Worrin, Chemist, Brentwood, Essex.*

"'BROWN'S BRONCHIAL TROCHES' are most useful, and I never heard a Medicine so universally well spoken of and gain such rapid notoriety before."

*Mr. Wm. Farnworth, Chemist, 49, Market Place, Blackburn, says:—*

"I have sold dozens of your 'BROWN'S BRONCHIAL TROCHES,' and they are very much esteemed."

*Mr. John H. White, Chemist, Laceby, near Grimsby, writes as follows:—*

"I am glad to give spontaneous testimony to the efficacy of 'BROWN'S BRONCHIAL TROCHES.' I have several times had occasion to use them myself, and invariably found them effective; indeed, in the winter time, I never am without some in my pocket, and I believe their use on the slightest indication of throat affection has saved me many a serious cold."

*John W. Dennis, Chemist, Louth, says:—"November 30th, 1865.*

"'BROWN'S BRONCHIAL TROCHES' have been of invaluable service to an aged member of my own family in a severe attack of bronchitis during the last winter, and I believe her freedom from a similar attack this winter is only to be attributed to the use of the Troches (taking, of course, great care to prevent recurrence), of which she speaks in the highest terms."

A Branch House is opened in London for the sale of "BROWN'S BRONCHIAL TROCHES," which have been so long justly celebrated throughout the United States and British Provinces. Their value has been proved by an experience of many years, and they are highly recommended and prescribed by medical men and others of eminence.

**PRICE 1s. 1½d. PER BOX.**

**JOHN I. BROWN & SONS, PROPRIETORS,  
BOSTON, MASSACHUSETTS, U.S.A.**

 Sold by most Chemists and Medicine Dealers in the United States and British Provinces, and Great Britain.

**LONDON DEPOT, 493. OXFORD STREET.**

Wherever these books are distributed, "BROWN'S BRONCHIAL TROCHES" will be found at some Chemist's in the vicinity.

MRS. WINSLOW'S  
SOOTHING SYRUP,  
For Children Teething,

Greatly facilitates the process of Teething, by softening the gums, reducing all inflammation; will allay ALL PAIN and spasmodic action, and is

**SURE TO REGULATE THE BOWELS.**

Depend upon it, Mothers, it will give rest to yourselves, and

**Relief and Health to Your Infants**

---

Testimonials.

*Mr. W. G. Davies, Chemist, Commercial Road East, London, says:—*

“I have recommended ‘Mrs. Winslow’s Soothing Syrup’ to many customers, and in all cases with a very pleasing result. I consider it one of the best medicines for peevish and fretful children.”

*From Mr. Joseph Wood, Chemist and Druggist, Sheffield.*

“‘Mrs. Winslow’s Soothing Syrup’ is an excellent remedy for all complaints incidental to infants. I sell on an average one bottle a day, and it always gives satisfaction.”

*From Mr. Edward Thornton, Chemist, Lyme Regis.*

“I can certify to the efficacy of ‘Mrs. Winslow’s Soothing Syrup.’ Mothers have told me the benefit their infants derived from it, so that in many families it is becoming a household medicine.”

*From Mr. John Swain, Chemist, Hollinwood.*

“‘Mrs. Winslow’s Soothing Syrup’ sells better than any other preparation, and my customers like it. It seems to answer well for their children.”

*Mr. Geo. W. Plant, Chemist, Balsall Heath, Birmingham, writes:—*

*“September 25th, 1868.*

“A lady living in this neighbourhood has two bottles of ‘Mrs. Winslow’s Soothing Syrup’ every week, and this she has done for some time past. She speaks very flatteringly of it, and says she does not know what she should have done with her last two children without it. It exercises a very beneficial and soothing influence upon them.”

*From Mr. A. W. Smith, Chemist, Rye.*

“‘Mrs. Winslow’s Soothing Syrup’ continues to sell well, and gives universal satisfaction. It is working its way into the upper circles.”

---

**Directions for Using.**—For a child under one month old, 6 to 10 drops; three months old, half a teaspoonful; six months old and upwards, a teaspoonful three or four times a day, until they are free from pain. For DYSENTERY, repeat the above dose every two hours, until the character of the discharge is changed for the better.

**Shake the Bottle before using.**

# BROWN'S BRONCHIAL TROCHES

Cure Cough, Cold, Hoarseness, and Influenza; Irritation or Soreness of the Throat. Relieve the Hacking Cough in Consumption, Bronchitis, Hooping Cough, Asthma, Catarrh. Clear and strengthen the voice of *Singers*. Indispensable to *Public Speakers*.

Price 1s. 1½d. per Box.

Parties wishing to purchase will please call on the nearest Chemist; if the Chemist has not them on hand, he will procure them without any extra cost.

## MRS. WINSLOW'S SOOTHING SYRUP, For Children Cutting their Teeth.

It is said that one-fourth the children born die under five years of age, As the teething period is the most critical time, every mother should be prepared to act as a nurse and a physician; and no mother should be without "*Mrs. Winslow's Soothing Syrup*," which is perfectly safe in all cases, and may be had of any medicine dealer in the Kingdom at 1s. 1½d. per bottle.

## VALUABLE DISCOVERY FOR THE HAIR.

A very nicely perfumed hair dressing, called "*The Mexican Hair Renewer*," now being sold by most chemists and perfumers at 3s. 6d. per bottle, is fast superseding all "hair restorers," for it will positively restore in every case, grey or white hair to its original colour by a few applications, without dyeing it, or leaving the disagreeable smell of most "restorers." It makes the hair charmingly beautiful, as well as promoting the growth on bald spots where the hair glands are not decayed. Certificate from Dr. Versmann on every bottle, with full particulars. Ask for "*The Mexican Hair Renewer*," prepared by H. C. Gallup, 493, Oxford Street, London.
